

**STRATEGIC PLANNING COMMITTEE STUDENT SERVICES GROUP
OCTOBER 6, 2014 3:30-5:00pm – MILLER OVAL**

In attendance: J. Cochran, C. Goldman, C. Hendry, R. Hynes, A. Wilcox. C. Shane

Megan Krell attended the veteran's meeting which was being held concurrently at the request of the chair.

Issues that have been previously discussed, e.g., veterans, community – Chris H – can be part of a plan that is "friendlier". Chris S. – we need to be specific – things that are too value get lost.

Christine reviewed the financials of student services. Programmatically we are OK but not with staffing. Chris H – suggestions cannot be granular. WE need to identify duplication/redundancy. Ancillary benefits – how do we make them part of the plan?

Diversity – Chris H – Local public schools are 48% Latino. But how many are college ready and how many would come to FSU? The percentage begins to dwindle. We need to recruit them from community college.

Overall 6 year graduation rate is 50% - close to national average. Anthony – increasing the 6-year rate is not realistic

Goals:

- Retention via disability services, substance abuse education, counseling and tutoring
- Examine/explore administration/organization and resource allocations of Student & Academic Life
- Address lack of diversity and disability among student population

Keywords:

-buy-in
-retention
-underserved populations-veterans, Latinos
-advising
-innovation/benchmarking
-transparent data
-efficiencies
