**Proposal #78: General Education for Dual Enrollment Students**

Lechter made a motion to discuss proposal #78.

Flint seconded the motion.

Tracy seeks to apply the same rules as transfer students to Dual-Enrollment students. She noted that there were issues regarding dual-enrollment students, stating that there is no policy indicating how Dual-Enrollment credits would be applied. Tracy specified that dual enrollment students would only follow the rules of transfer student rules for general information.

Tracy called for a friendly amendment stating that, due to current technological constraints, students to whom this applies will need to self-identify to the Registrar's office. When the current technological constraints change, the process will become automatic.

Kremer brought up how this affects or helps Dual-Enrollment students. Tracy responded, saying that there are block systems when students bring in so many credits, and that certain credits have

different requirements and rules. Bringing in an example that certain credits make it so students don't have to take gen-eds or the FYE course.

Lechter motions to recommend AUC 78 with the friendly amendment back to the general AUC.

Flint seconds Lechter.
