

## Policies & Procedures

### Flu Mandate Requirement being a Tab

In August 2020, the Public Health Department of the Commonwealth of Massachusetts made it mandatory for all students to receive a flu vaccine who “set foot” on a college campus. As an enrolled student (undergraduate/graduate) of Fitchburg State University, proof of vaccination must be on file with the Office of Student Affairs. If you don’t submit proof of vaccination, you may not be able to take on-campus classes in Spring 2021 or may receive charges through the student conduct process.
