\*Water Chemistry tested weekly (pH matches home environment, alkalinity of 7-11 dKH, ammonia of <0.2 ppm, nitrite/nitrate of <0.2 ppm, salinity check if necessary); 20% water changes every 2-3 weeks. Sweep and mop floor once every two weeks (or more often as needed). See SOP for other scheduled activities.

\*\*Caretaker(s) Information (please fill in once per log sheet):

Initials	Caretaker name	Caretaker phone number
