Population/anticipated enrollment/staffing plan (i.e., Who/how many will program serve?)

Rationale and expected outcomes for program change:

The program change for the Online/Accelerated Non-Licensure EDLM program is just to make note of the course changes within the program. When the Online/Accelerated was first proposed, the same courses and course numbers were used for this non-licensure option. However, since the licensure version of the program will continue to use those courses, we needed to remove the licensure components, change the way field experiences were described, and request new course numbers and titles, to differentiate the online/accelerated versions of the courses.

Does the program run on cohort model? ◯Yes ◉No   Will additional faculty be needed, day/adjunct? ◯Yes ◉No

Implementation plan for Program Change: what semester will change take effect?
