### Course Information

Course Description

\*This course is the student teaching experience for candidates who do not have a prior certificate or license. Through a field-based experience, students are provided an opportunity to develop skills and demonstrate competency in the area of licensure they are seeking. This course is one of the requirements for initial licensure. This course is taken in conjunction with EDUC 9020.

Prerequisite(s): Successful Passing of Stage 2 Review

Rationale and expected outcomes of offering the Course

\*Part of Massachusetts initial licensure requirements, students in a licensure program are required to complete minimum of 300 hours field experience in their content area within a school that is aligned with the licensure grade band that they are seeking to obtain. Currently, students in our Math 8-12 and Biology 8-12 programs are registered to take EDUC 9060-Practicum in Education 5-12 that does not reflect their grade band correctly. This new course will appropriately reflect students in our 8-12 programs' field placement.
