Course Information

Course Description

The purpose of this course is to prepare the Commonwealth's teachers with the knowledge and skills to effectively shelter their content instruction so that our growing population of English learners (ELs) can access curriculum, achieve academic success, and contribute their multilingual and multicultural resources as participants and future leaders in the 21st century global economy.

Rationale and expected outcomes of offering the Course

The course has three overarching goals:
1. To help teachers effectively carry out their responsibility for the teaching and learning of ELs as well as to understand the social and cultural issues that contribute to and impact the schooling of ELs.
2. To expand teachers' knowledge of how language functions within academic content teaching and learning, and how children and adolescents acquire a second language.
3. To provide teachers with practical, research-based protocols, methods, and strategies to integrate subject-area content, language, and literacy development—per the expectations of the World Class Instructional Design and Assessment (WIDA) English Language Development (ELD) standards—and thus to support EL students' success with all state academic standards.
