15. What did we not ask you about but you feel we should know?

- I am confident that one of the best skills I received at FSU was the lab experience with my professors in chemistry and biology. The work was hands on and the techniques were relevant and applicable to my graduate research. Even though I did not come from a research institution like many of my current peers, I have felt competitive and prepared because of what my professors taught me and the equipment and resources they had available to teach me with. I have also kept in touch with several professors, and they have been remarkably supportive both as mentors and professional collaborators. I can't stress enough the quality of the scientific training I received.
- How would you give back to FSU?
