- **FEB 4 - SPADES**
HAMMOND G01 – grab a partner for this game – it's no surprise what's trump here

RECREATION IS MORE THAN EXERCISE

Humans are social creatures. We work together, we often live together and when times are good we play together. Then there is the age old question – what should we play? It's kind of like what's for dinner? Sometimes we get in a rut and can't get out. Now is the time to remember a favorite old game or learn a new game that could become one of your favorites.

Throughout the winter, we'll be offering to spend some time teaching you some of these games. Of the games listed on the left none are too challenging, but all take some practice to master. We'll help to get you started with games that may keep you and your friends entertained for years.
