ABOUT OUR PLAN

The most important part of what we strive to do for our patients is to provide them with superior vision care and visual solutions.

Understanding that eyewear can be a burden to some families, we are here to help...

...our plan works with any insurance plan we accept at our locations. Your exam fees will be billed as they would normally; and the funds that you are responsible for is where our plan comes in handy...

...the cost to you is a commitment to allow us to provide you those visual solutions, because not all eyewear provides optimal vision. Understandably, investing in optimal vision is a financial commitment, which is why we are offering above-average discounts and benefits, more than offered by most larger vision plans...

...we have waived our standard requirement of purchasing 2 pair of eyeglasses to become eligible. And, we are extending the benefit to all household members to enjoy the benefits without an individual initial purchase. This significantly increases the cost savings to families.

Special notes:

- *Free glasses hold a warranty but are not eligible for Parent's Painless Growth Program.
- *Certain Rx restrictions do apply and no substitutions.
- *Program excludes previous orders, Maui Jim, Nike Max, Value Line Collection and no additional discounts, including insurance, apply.
- *Gift certificates may only be redeemed by individual(s) on the enrollment form. Multiple certificates may be redeemed.
- *Benefits are annual and expire 1 year on anniversary of your enrollment. LASIK benefit applies only during corporate enrollment period.
- *Employees and household members will be issued a VIP card.
- *Plan details are subject to change without notice.
