On behalf of the entire college community, it is my pleasure to welcome you to Fitchburg State. For more than a century, this institution has provided affordable, high quality educational opportunities to the people of the Commonwealth. Today, the college is a comprehensive public institution with a long history of growth and a clear record of accomplishment.

Since I earned my undergraduate and master’s degrees here, I count myself among the thousands whose lives have been changed by this caring academic community. Small classes, extensive internship opportunities, and an accessible, dedicated faculty are the hallmarks of a Fitchburg State education. Our faculty is deeply involved in the success of our students and committed to learning in its broadest sense. They are particularly adept at maintaining a link between the worlds of scholarship and practical experience.

The focus here is on career-oriented learning firmly grounded in the liberal arts and sciences. That means you won’t leave here without a broad-based education that will stand as a firm foundation for a career or for graduate school. Just ask any of our 30,000 alumni. They’re working for 8,600 employers in this state alone. They’re CEOs and teachers, physicians and legislators, Hollywood producers and novelists.

All of us on campus are honored to play a role in creating the kind of supportive environment that fosters growth and discovery, which lie at the heart of the learning endeavor. Take full advantage of all that we offer, and accept my personal wishes for a rich and rewarding experience.

Dr. Robert V. Antonucci
President

History of the College

Established in 1894 by an act of the Massachusetts Legislature, the State Normal School in Fitchburg opened in temporary quarters in the old high school building on Academy Street. Principal John G. Thompson, aided by a teaching staff of three, implemented a two-year teacher training program for women that had forty-six participants. In December 1896, the school expanded into a new building, known as Thompson Hall, and set up the State Schools of Observation and Practice in city buildings on Day Street and Highland Avenue.

In the next decade the school was a trendsetter for programs in Education. The Edgerly School opened, originally as an eighth-grade model and practice school. In 1910, it became one of the first junior high schools in the United States. The following year the school initiated the first practical arts teacher training course in the country for men.

In 1930, the State Normal School was authorized to offer a bachelor's degree in practical arts, and in 1932, when it became the State Teachers College at Fitchburg, four-year degrees were offered in all areas of education.

Under the auspices of the State Division of University Extension summer courses were first offered in 1915, marking the beginning of the college's commitment to Continuing Education programs. In 1935, the college was also authorized to establish graduate programs and in 1954 the first evening courses were offered.

In 1960, the college changed its name and expanded its mission. The State College at Fitchburg diversified its programs to include degrees in disciplines other than education. In 1965, its name was officially changed to Fitchburg State College, which today offers more than fifty undergraduate degrees in sixteen academic departments, thirty-two Master's Degree programs, six Certificate of Advanced Graduate Study programs, and eleven Graduate Certificate programs. Enrollment is up to 3,000 full-time and 4,000 part-time students which include 1,300 matriculated graduate students. The campus has expanded from a single structure on High Street to thirty-three buildings on ninety acres, becoming the educational center for the Montachusett region. The college proudly offers traditional and non-traditional programs to serve the educational needs of its students as undergraduate, graduate, and continuing education students.

State College Mission Statement

There are six comprehensive state colleges—Bridgewater State College, Fitchburg State College, Framingham State College, Salem State College, Westfield State College and Worcester State College—and three specialized colleges—Massachusetts College of Art, Massachusetts College of Liberal Arts and Massachusetts Maritime Academy. All colleges integrate liberal arts and sciences programs with professional education, and the three specialized colleges also focus on academic areas identified in the college's name.

Each college places a special emphasis on teaching and lifelong learning and promotes a campus life that fosters intellectual, social and ethical development. Committed to excellence in instruction and to providing responsive, innovative and educational programs of high quality, they seek to develop each student's critical thinking, quantitative, technological, oral and written communications, skills and practical appreciation of the arts, sciences and humanities as they affect good citizenship and an improved quality of life. The state colleges provide a campus environment where the ideas, values, perspectives, and contributions of all students are respected.

Massachusetts state colleges are strategically located to facilitate access to baccalaureate and master's degree programs for Commonwealth residents who meet their high standards for admission. In recognition of their responsibilities to Massachusetts taxpayers to manage their resources efficiently and to maintain tuition and fees at a level as low as possible, each college has a distinctive academic focus based upon its established strengths and regional and state needs. Each college is a leader and resource for the community and contributes to the region's cultural, environmental, and economic development.
Mission

Fitchburg State College is an institution of higher education that integrates an interdisciplinary, multicultural liberal arts and sciences core with all professional and arts and sciences majors.

In the process, the college encourages the development of the whole person and prepares students for careers that meet the needs of their varied communities. Our faculty members are teacher-scholars who employ a variety of pedagogies and modes of technological instruction to further such goals for all.

In 1997, the Board of Higher Education designated the college as the site of the Leadership Academy. The college emphasizes the importance of leadership studies, service learning, civic responsibilities, ethical development, and international education. Thus, it is this central theme that animates our mission statement: the establishment of a leadership honors program, extensive course work and extracurricular emphasis, and a commitment to exploring leadership for the twenty-first century.

This comprehensive public college is committed to providing affordable, life-long learning opportunities in undergraduate, graduate, and continuing education. The College is extensively involved in promoting cultural and sound economic development, especially in the Northern Worcester County Area.

Goals and Objectives

Fitchburg State College’s mission strives to:

- Integrate high-quality professional programs with strong liberal arts and sciences studies
- Promote, facilitate, and model self-reliant learning within a cooperative framework
- Stress high standards of academic, professional, and societal performance
- Provide opportunities for social and academic success to enhance self-esteem
- Foster excellence in teaching, service, and research
- Provide resources and services necessary to support the current and anticipated academic needs of the college
- Promote an atmosphere of collegiality, openness to ideas, and esprit de corps
- Support faculty and administrators with professional development opportunities
- Respond in an affirmative and creative manner to the changing character of society
- Develop a global perspective through international exchanges and programs
- Meet social, economic, technological, and environmental changes
- Support racial, cultural, and ethnic diversity in the college community
- Maintain a healthy, safe, and aesthetic living and learning environment sensitive to local and global concerns
- Establish a unique Leadership Academy curriculum for Honors students

Fitchburg State College seeks to achieve its mission through:

Mutually supportive strong Liberal Arts and Sciences professional majors:

- Offering a liberal foundation that encourages multicultural and interdisciplinary courses
- Focusing on modes of inquiry within each discipline to strengthen critical thinking skills
- Providing extensive field experiences that bring together theory and practice
- Integrating technological development across the curriculum
- Educating students for leadership in the world community at both the undergraduate and graduate level through academic and experiential opportunities
- Supporting undergraduate majors that complement graduate programs that, in turn, build on the strengths of the undergraduate offerings

A student-centered environment:

- Emphasizing creative teaching and active learning
- Providing learning and leadership experiences where students come together to challenge one another’s ideas in an environment of mutual respect
- Responding to the intellectual, cultural, volunteer, social, physical, and recreational needs of the residential and commuting populations
- Providing support for students, including an academic advising center, computer facilities, a freshmen readiness program, developmental skills and ESL programs, peer advising, career services, residence life, alumni services, tutorials, counseling, as well as health services
- Offering appropriate services for students with physical and learning disabilities

Commitment to the welfare of the larger community and region that it serves with:

- Collaborative efforts with school districts, the health care community, social service agencies, the business community, and higher educational institutions, particularly community colleges
- Programs for disadvantaged and gifted students, both outreach and on-campus
- Cultural events and leadership activities that enrich the life of the community
- Faculty, administration, and student participation in community programs
- Tuition and fees that are within reach of people with moderate economic means
# Undergraduate Day School Academic Calendar 2004–2005

## Fall 2004

### September
- **4** Saturday: Residence halls open for all new students
- **6** Monday: Labor day—Residence halls open for all students
- **7** Tuesday: President's address to faculty 10:00 am followed by department meetings and student advising
- **8** Wednesday: Classes begin 8:00 am
- **15** Wednesday: Final day to add or drop a course

### October
- **11** Monday: Columbus Day—NO CLASSES
- **12** Tuesday: Final day for making up Incomplete grades from previous semester

### November
- **11** Thursday: Veterans' Day—NO CLASSES
- **24** Wednesday: Final day for withdrawal from classes without penalty
- **24** Wednesday: Thanksgiving recess begins 4:45 pm
- **28** Sunday: Thanksgiving recess ends

### December
- **16** Thursday: Last day of Fall Semester classes
- **17-23** Final Semester Examinations

## Spring 2005

### January
- **14** Friday: Conferring of Degrees for students who completed in December
- **16** Sunday: College opens; Residence halls open for all students
- **17** Monday: Martin Luther King Day—NO CLASSES
- **18** Tuesday: Departmental meetings and student advising
- **19** Wednesday: Classes begin 8:00 am
- **26** Wednesday: Final day to add or drop a course

### February
- **21** Monday: U.S. Presidents' Day—NO CLASSES
- **22** Tuesday: Final day for making up Incomplete grades from previous semester

### March
- **11** Friday: Spring vacation begins 4:30 pm
- **20** Sunday: Spring vacation ends

### April
- **12** Tuesday: Final day for withdrawal from classes without penalty
- **18** Monday: Patriots' Day—NO CLASSES
- **21** Thursday: Honors Convocation afternoon classes suspended at 1:30 pm

### May
- **11** Wednesday: Last day of Spring Semester classes
- **12** Thursday: Reading Day
- **13-19** Final Semester Examinations
- **19** Thursday: Residence Halls close
- **21** Saturday: Morning Commencement—Campus Quadrangle

Institutional Accreditations, Approvals, Memberships, and Affiliations

Accreditations

Fitchburg State College is accredited by the New England Association of Schools and Colleges, Inc.; the Commission on Collegiate Nursing Education; the International Assembly for Collegiate Business Education; the Council for Standards in Human Service Education and the National Council for Accreditation of Teacher Education.

The New England Association of Schools and Colleges is a non-governmental, nationally recognized organization whose affiliated institutions include elementary schools through collegiate institutions offering postgraduate instruction.

Accreditation by the New England Association assures that the institution:

- Meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer group review process
- Maintains the necessary resources to achieve its stated purposes through appropriate educational programs and gives reasonable evidence that it will continue to do so in the foreseeable future
- Maintains its demonstrated institutional integrity

Inquiries regarding the status of an institution's accreditation by the New England Association should be directed to the administrative staff at the college or to the Association at:

Commission on Higher Education
New England Association of Schools and Colleges
The Sanborn House, 15 High Street
Winchester, Massachusetts 01890
617-729-6762

Addresses for other accrediting agencies include:

Commission on Collegiate Nursing Education
One Dupont Circle, NW
Suite 530
Washington, DC 20036-6791
202-887-6791

International Assembly for Collegiate Business Education
P.O. Box 25217
Overland Park, Kansas 66225
913-631-3009

Approvals

- The Massachusetts Department of Education and the National Association of State Directors of Teacher Education and Certification
- The Interstate Certification Compact in Certification of Educational Personnel
- The State Board of Registration in Nursing
- Board of Higher Education, Commonwealth Honors Program
**Institutional Memberships**
- American Association of Colleges of Teacher Education
- The College Entrance Examination Board
- The Massachusetts Association of Colleges of Nursing and the American Association of Colleges of Nursing
- The American Association of State Colleges and Universities and the International Association of Colleges and Universities
- The American Council on Education
- The New England Association of College Admissions Counselors and the American Association of Collegiate Registrars and Admissions Officers
- The Council of Colleges of Arts and Sciences
- The Council of Graduate Schools
- American Assembly of Collegiate Schools of Business and the Association of Collegiate Business Schools and Programs
- University Continuing Education Association

**Affiliations**

**McKay Campus School**
The McKay Campus School serves as the Teacher Education Center at Fitchburg State College, as well as a public elementary school for the city of Fitchburg. This dual mission adds a uniqueness to the teaching and learning atmosphere at McKay. This collaboration with higher education is a partnership that brings professionals together in our school setting to share:
- responsibility for the preparation of new teachers
- the professional development of experienced classroom teachers
- the professional development of university faculty serving as teacher educators
- the support of research directed at improvement of practice
- enhanced student learning for our elementary students

The McKay Campus School and Fitchburg State College have a shared understanding of and commitment to learning for children and adults. This culture of learning is one that values risk-taking, inquiry, reflection and collegiality. This community has children at its core and encompasses school and college faculty, parents and members of the wider community of Fitchburg and its surrounding towns.

**Servicemembers Opportunity College**
Fitchburg State College is a fully-approved SO C member. The SO C principles and criteria subscribed to by all member institutions provide the basis for a consistent and uniform approach to meeting the educational goals and special needs of military personnel. The Associate Registrar serves as the counselor for this important program.

**Collegewide Policies**

**Affirmative Action Policy**
It is the policy and commitment of Fitchburg State College not to discriminate on the basis of race, religion, color, age, gender, sexual orientation, disability, veteran status, marital status, or national origin in its educational programs, activities, admissions, or employment policies, and to comply with the requirements of Federal Executive Orders 11246 and 11375 as amended; the Civil Rights Act of 1964 as amended; Title IX of the Educational Act of 1972; Sections 503 and 504 of the Rehabilitation Act of 1973; Section 402, Vietnam Era Veterans Readjustment Assistance Act of 1974; the Civil Rights Restoration Act of 1988; Americans with Disabilities Act of 1990; the Civil Rights Act of 1991; and pertinent laws, regulations, and Executive Orders, directives of the Board of Higher Education of the Commonwealth of Mass., the Commonwealth of Massachusetts, and other applicable state and federal statutes.

Inquiries concerning the application of, or compliance with, the laws and regulations prohibiting such discrimination should be addressed to:
- Jane Coviello
  Director of Human Resources/Affirmative Action
  and designated Title IX Coordinator;
  978-665-3172; or
- Steven J. Lanciani at 978-665-3118
  Vice President for Facilities Management
  and designated Coordinator for Section 504
  and the Americans with Disabilities Act; or
- Office of the Assistant Secretary of Civil Rights,
  United States Department of Education, Washington, D.C.

**Sexual Harassment Policy**
It is against the policy of Fitchburg State College for any member of the college community, male or female, to sexually harass another employee or student. The college is committed to providing a working, living, and learning environment that is free from all forms of abusive, harassing, or coercive conduct. This policy seeks to protect the rights of all members of the College Community (faculty/librarians, administrators, staff, and students) to be treated with respect and dignity.

Sexual harassment consists of unsolicited verbal, non-verbal, and/or physical conduct, which has the effect of interfering with student or employment status or of creating an intimidating, hostile, or offensive environment. The college’s Affirmative Action Grievance Procedures will serve as a system of review and resolution for both formal and informal complaints. Further information or advice may be obtained by contacting the Director of Human Resources/Affirmative Action at 978-665-3172.
Privacy and Confidentiality Regulations
A Fair Information Practices Act (FIPA) administrator directs the Privacy and Confidentiality Regulations. Copies of the regulations as part of FIPA Chapter 766 (of the Acts of 1965) are posted on bulletin boards at the college and kept on file at the Registrar’s Office.

Students should note that if any of these regulations should conflict with applicable provisions of the Federal Privacy Act of 1974 as amended, or with any regulations promulgated pursuant to said act, the provisions of said federal act or federal regulations shall control.

Institutional Review Policy
The college has established an Institutional Review Board and Policy which reviews and approves the adequacy of protection provided for human subjects serving as research subjects. The college is cognizant of its responsibility to protect the privacy, safety, health, and welfare of such subjects. A copy of this policy may be obtained in the Office of Academic Affairs and on the Grant Center website.

Drug-Free Environment
Fitchburg State College is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act, Amendment of 1989. Information regarding these acts and the College’s compliance with them is distributed to the college community yearly and is also available from the Director of Human Resources.

Alcohol Policy
Fitchburg State College enforces all state laws and city ordinances regarding the possession, use, and sale of alcoholic beverages including those prohibiting drinking by individuals under 21 years of age. College policy restricts when, where, and how alcohol may be served and the amount of alcohol that a resident student may bring into the residence halls.

The Fitchburg State College community recognizes the importance of personal and communal responsibility with regard to its alcoholic beverage policy. It assumes that any student who has consumed alcohol accepts responsibility for his/her consequent behavior. Being intoxicated will not be accepted as an excuse for erratic, irresponsible behavior either to individual or others’ person or property. Any student found to be intoxicated will be considered in violation of the Alcohol Policy and will be subject to the Student Discipline System.

Massachusetts law forbids the possession of, use, and sale of alcoholic beverages to persons under 21 years of age. The law also forbids falsifying age and identification cards. The college enforces the law and expects all students, faculty, administrators, and staff to abide by it.

Use or possession of alcoholic beverages in public areas (campus grounds, athletic events, parking lots, academic buildings, dining hall, Campus Center) regardless of age, except at approved functions, is prohibited. Open containers of any alcoholic beverage is a violation of this policy.

A complete copy of the Alcohol Policy is available in the Undergraduate Student Handbook or from the Office of Student and Academic Life.

Substance Abuse Policy
In accordance with the Drug-Free Schools and Communities Act, Fitchburg State College has adopted the following Substance Abuse Policy:

Only in an environment free of substance abuse can the college fulfill its mission of developing the professional, social, cultural, and intellectual potential of each member of its community. The use of illicit drugs and alcohol impairs the safety and health of students and employees, inhibits personal and academic growth and undermines public confidence in the college. For these reasons, it is the policy of Fitchburg State College that all college activities and college property shall be free of the unlawful use of drugs and alcohol.

Prohibited Conduct
The students and employees of Fitchburg State College shall not unlawfully manufacture, distribute, dispense, possess, or use controlled substances or alcohol. Any individual who violates this prohibition will be subject to disciplinary action. Sanctions may include expulsion or firing from the college, mandatory participation in an alcohol/drug abuse assistance or rehabilitation program, as well as referral of the matter to law enforcement agencies for prosecution.

Students and employees are required to notify the Director of Human Resources (and, in the case of students, the Director of Financial Aid) within five days of being convicted of violating a criminal drug statute in the workplace.

A complete copy of the Substance Abuse Policy is available in the Undergraduate Student Handbook or from the Office of Student and Academic Life.

No Smoking Policy
Effective July 1, 1994, Fitchburg State College became a smoke-free environment. Smoking is not allowed inside any college building with the exception of designated bedrooms in residence halls. Those members of the college community who have special difficulties in complying with a smoke-free environment are urged to seek the assistance of either the Human Resources or the Health Services Office.
Inclement Weather Policy
Whenever inclement weather, usually in the form of snow and/or ice, makes driving conditions exceptionally hazardous, classes for that day will be canceled. In the event that day classes (on-campus and/or off-campus sites) are canceled, all evening classes and programs for that date are automatically canceled. Make up sessions are required.
Cancellation announcements can be heard on:
- W EIM (1280/AM) Fitchburg
- W XLO (104.5/FM) Fitchburg/Worcester
- W IN Q (97.7/FM) Winchendon
- W TAG/WSRS (580/AM; 96.1/FM) Worcester
- W BZ Storm Center(1030/AM; TV News 4) Boston
- W CAT (99.9/FM) Orange
- W CVB-TV 5 Boston
- W RK O-7 News Boston
- W XPL 91.3/FM FSC Campus Radio (after 8:00 am)

or by calling 978-665-3006 (residence students), or 978-665-4003 (off-campus, commuter students.)
The decision to cancel classes scheduled for weekends or holidays rests with the instructor. Students should consult with their instructor for his/her class cancellation and make up policy.

Notice of Catalog Changes
The rules, regulations, policies, fees and other charges, courses of study, and academic requirements that appear in this catalogue were in effect at the time of its publication. Like everything else in this catalogue, they are published for informational purposes only, and they do not constitute a contract between the College and any student, applicant for admissions or other person.
Whether noted elsewhere in this catalogue or not, the College reserves the right to change, eliminate, and add to any existing (and to introduce additional) rules, regulations, policies, fees and other charges, courses of study and academic requirements. Whenever it does so, the College will give as much advance notice as it considers feasible or appropriate, but it reserves the right in all cases to do so without notice.

Waiver of Academic Regulations
The college acknowledges that extenuating circumstances relative to rules, regulations, and programs occasionally require a waiver of regulations. Although students may petition for a waiver, they should understand that the justification for a waiver should be as exceptional as the granting of one.
Petitions for a waiver of regulations begin with the Dean of Curriculum and Instruction and/or Dean of Education.
The provisions of this catalog are not to be regarded as an irrevocable contract between the College and its students.

Notice of Availability
The Higher Education Amendments of 1998 clarified the information that colleges must disclose to current students. The following Notice of Availability describes the kinds of information available and where you can gain access to it. You may request a paper copy of any information referenced below by contacting the office listed.

Students who seek a quality education are invited to apply for admission to Fitchburg State College. Fitchburg State welcomes applications from high school graduates, students returning to college after a hiatus, transfer students, and international students. After careful review of the application and supporting materials, admission is offered to students whose secondary school and/or college records and backgrounds offer the promise of a successful and satisfying undergraduate experience.

Undergraduate Admissions

Admission Standards
Fitchburg State College is committed to providing excellent, accessible, and affordable life-long learning opportunities in undergraduate, graduate and continuing education. The college seeks students who are motivated to achieve academic excellence, and who represent a broad variety of backgrounds and interests.

With the guiding principles of quality, access and diversity in mind, Fitchburg State has adopted admission standards which support the standards established by the Commonwealth of Massachusetts. These standards provide a framework for the individual evaluation of each applicant to the college.

Campus Visits
The Admissions Staff encourages all applicants to visit the Fitchburg State College campus. A variety of visitation programs, including student guided tours, are available to people interested in learning more about the college and its programs.

Interviews are not required, but can provide the Admissions Committee with helpful information. Applicants who desire to have an interview are invited to call the Admissions Office for an appointment. The college encourages students with disabilities to discuss their situations with an Admissions Counselor so that the college can better accommodate their needs.

Admissions Office Hours
Monday-Friday: 8:00 am to 5:00 pm
Saturday: By appointment only.

Student Guided Tours
Monday-Friday at 11:30 am, and 2:30 pm.

For information about open house programs, individual interviews, other visitation options and to receive admissions materials contact the Admissions Office at:
Admissions Office
Fitchburg State College
160 Pearl Street
Fitchburg, Massachusetts 01420-2697
Telephone: 978-665-3144
Email: admissions@fsc.edu
Web Site: www.fsc.edu
Applications Filing Dates
All materials should be submitted as early as possible. Recommended filing dates for the fall and spring semesters are listed below. After these dates, contact the Admissions Office to determine if applications are still being accepted. Applicants to the film, video, and nursing programs should contact the Admissions Office for information regarding earlier application deadlines.

Fall Semester
First Year Students: March 1
Transfer Students: April 15

Spring Semester
First Year Students: December 1
Transfer Students: December 1

Fitchburg State College employs a “rolling admissions” policy. Rather than notify all applicants simultaneously, we do so on a continuing basis over a period of several months, beginning in the early part of December for September applicants.

There are no deadlines for applications to evening programs, which are accepted year-round.

Application Procedure
Application Procedures—First-Time College Students
To be considered for admission to the college, applicants must submit the following to the Office of Admissions:

1. A completed Application for Admissions and application fee.

2. Official high school transcript including first-quarter senior year grades. Applicants who have completed a GED should also submit official tests.

Secondary School Preparation
Applicants are required to complete a minimum of 16 college-preparatory units in the following disciplines:

- English: 4 years
- Mathematics: 3 years (includes: Algebra I, Algebra II, Geometry/Trigonometry, or comparable coursework)
- Science: 3 years (includes 2 years of laboratory science)
- Social Science: 2 years (includes one year of U.S. History)
- Foreign Language: 2 years (one language)
- College Preparatory electives: 2 years (from the above disciplines, or from the Arts, Humanities or Sciences)

Additional work in the math and sciences is strongly recommended, particularly for students intending to major in the sciences or nursing.

If an applicant graduated from a high school that did not offer the required academic units and that high school has received a waiver from The Board of Higher Education, the applicant may substitute other college preparatory electives.

Students submitting the GED must also submit a high school transcript reflecting work completed while attending high school.

3. Scores from Scholastic Aptitude Test (SAT), or the ACT.*
   * Applicants with documented learning disabilities are exempt from taking any standardized college entrance aptitude test for admittance to any public institution in the Massachusetts (M.G.L. Chapter 15A, Sec 30).

4. A 300 word essay.

5. Letters of recommendation, while not required, are helpful in the evaluation process.

6. A resume of activities if time has lapsed between the time of high school graduation and the application process to Fitchburg State College.

Acceptance to Fitchburg State College is contingent upon graduation from high school or equivalent preparation (GED). Students who attend public high schools in Massachusetts and intend to enroll at Fitchburg State College must meet the state standards for the competency determination (measured by the MCAS tests or Performance Appeals Process in English language arts and mathematics) as well as local graduation requirements.
Application Procedures—Special Admissions Applicants

Applicants with documented learning disabilities or English as a Second Language (ESL) backgrounds, or who are graduating from vocational-technical schools may be eligible for application requirement exception allowances. These exceptions reflect the minimum admission standards as stated by the Massachusetts Board of Higher Education.

Meeting minimum standards for admission does not guarantee admission for any applicant.

1. English as a Second Language applicants must complete the 16 required college preparatory courses with two exceptions: a) ESL applicants may substitute up to two college preparatory electives for the two required foreign language courses, and b) ESL applicants may substitute up to two years of college preparatory ESL English courses for college preparatory English courses, provided they achieve a 213 on the computer-based TOEFL test or a 968 on the ELPT. ESL students must meet all other admission standards for First-Time College Students, including SAT or ACT requirements.

2. Declaring a disability at the time of application and supplying complete documentation is voluntary. Applicants who present documentation supporting a professionally diagnosed learning disability are exempt from taking standardized college entrance aptitude tests for admittance to any public institution in the Commonwealth (M.G.L. Chapter 15A, Sec. 30). Such students, however, must complete the 16 required college preparatory courses with the following exception. An applicant may substitute two college preparatory electives for the two required foreign language courses if the applicant presents an Individual Education Plan (or the equivalent under Chapter 766 or Chapter 344) and the results of a psycho-educational evaluation completed within the past three years that provides a specific diagnosis of a learning disability and an inability to succeed in a foreign language. For a full description of documentation requirements, visit http://www.fac.edu/disability.

3. Vocational-technical students must complete 16 college preparatory courses, distributed in the same manner and with the same minimum grade point averages required of other high school graduates, with the following exceptions: a) Two vocational-technical courses may be used to fulfill the two required electives. b) Vocational-technical high school graduates who do not complete the two required college preparatory foreign language courses must complete an additional elective college preparatory course, for a total of three such courses, and satisfy one of the following: one Carnegie unit of a foreign language, a fourth Carnegie unit of mathematics or science, or one Carnegie unit of computer science.

Meeting minimum standards for admission does not guarantee admission for any applicant.
Application Procedures—Non-Traditional Students
A non-traditional student is a student who does not enter college immediately after completing high school. Generally the student has experience in a career, at home, or in the military.
Admissions requirements are similar to those of any new student; including:
• High school transcript and/or GED
• SAT or ACT scores*
• Letters of recommendation
• Resume of activities showing life experience
* Waived if student has been out of high school for three or more years.

Part-Time Non-Degree Seeking Students
A non-degree seeking student is a high school graduate who is not applying for a degree program but wishes to enroll in college courses. These students may enroll in a maximum of three courses or 11 credits per term. Registration for non-degree seeking students is scheduled after the degree-seeking students have registered. Non-degree seeking students (those not enrolled in degree or certificate programs) may take courses for which they have fulfilled any specified prerequisites.

Leadership Academy Honors Program Applicants
The college encourages academically talented students to consider the college’s honors program, The Leadership Academy. The Leadership Academy is characterized by the following:
• A program for our academically strongest students with leadership potential or experience
• Weaves themes of leadership into a separate core liberal arts and sciences curriculum
• Collaborative teaching and learning model
• Extensive co- and extra-curricular options
• Emphasis/commitment to the community; service learning
Admission to the Leadership Academy is selective, based on several factors including: grade point average, SAT scores, and participation in honors and advanced placement courses. The selection committee also considers letters of recommendation, history of community service, extracurricular interests, and other activities that demonstrate leadership potential. A separate application is not required.

Alternate Admission Programs
The college supports alternate admission programs for students who either do not meet the admission criteria established for Massachusetts state colleges or have non-traditional backgrounds: The Fitchburg State College/Mount Wachusett Community College Institute.

The Fitchburg State College/Mount Wachusett Community College Institute
The Institute is a collaborative program sponsored by Mount Wachusett Community College (MWCC) and Fitchburg State College (FSC) to serve the needs of a select group of students who demonstrate the potential to succeed at a four-year college but who currently do not meet the admission standards set forth by the Massachusetts Board of Higher Education. The Institute provides the opportunity for students to begin their college course work at Mount Wachusett Community College while living on the Fitchburg State College campus. At the conclusion of each semester, Fitchburg State College evaluates Institute students’ MWCC transcripts; if students meet the transfer requirements they are eligible to matriculate at Fitchburg State the next semester.

Students enrolled in The Institute benefit from Fitchburg State College and Mount Wachusett Community College’s long-standing tradition of collaboration, articulation agreements, close proximity to each other, a shared regional transportation system, and a commitment to support students’ academic, co-curricular, and social development. Participants in the Institute are required to live on-campus.
• On-campus housing at Fitchburg State College
• Coordinated academic advising
• Coordinated academic assessment
• Coordinated orientation program
• Access to selected student activities on both campuses (while students are enrolled at Mount Wachusett Community College they are not eligible for intercollegiate athletics or elected office in student government at Fitchburg State College)
• Complete access to all student support services at both colleges.

The Summer Bridge Program
The Summer Bridge Program is designed to provide educational opportunities for recent high school graduates who, for a variety of reasons, are considered at risk for academic success in college. The program provides supportive services and academic preparation for a select group of students who are conditionally accepted to the college. Students participate in a drive-in program that meets four-days a week for five weeks in July and August. The seven college credit program includes:
• Literacy and Writing instruction based on entry placement testing.
• Mathematics readiness instruction based on placement test performance.
• Academic Transition seminars, activities and experiences regarding learning strategies, study skills, time management, tutoring and related topics.
• The opportunity to complete one LA&S [general education] course.
• Exposure and contact with the variety of Academic Support Services available at the college.

Students who complete the Summer Bridge program with a minimum 2.0 grade point average and the recommendation of the Summer Bridge Coordinator will be fully admitted to the college in the fall term.
Joint Admissions
Students enrolled in Massachusetts community colleges may seek joint admission to Fitchburg State College. Such a student must complete an associate's degree in an approved transfer program, which enables them to continue their education at Fitchburg State College. Requirements for joint admissions are:

- Completed associate's degree with 2.5 average in an approved Transfer Program
- Approval of the appropriate academic departments
- Presentation of appropriate credentials

Application Procedures—Transfer Students
Transfer students who want to be considered for admission to the college must meet the following criteria:

- Twelve or more semester units (eighteen quarter units) of college credit must be earned by planned entrance date.
- A grade point average of 2.0 or better with 24 or more transferable credits from an accredited college or university or a 2.5 or better with 12 to 23 transferable credits. Having such an average, however, does not guarantee admission to the College.
- If a prospective student has 23 or fewer transferable credits and a gpa below 2.5, the student's high school work must satisfy admission requirements for first-year students.

The following credentials must be submitted:

- An Application for Admission
- Transcripts of all previous college work
- A 300-word essay describing your educational goals and motivation to go to college
- A final high school transcript or /GED

Evaluation of Credit
The amount of credit that will transfer into a Fitchburg State College program is determined after an applicant has been accepted to the college. Transfer credit is normally granted for courses completed at regionally accredited colleges and universities, for which the student received a 2.0 (C) or better, and which correspond with those offered at Fitchburg State College. Courses which do not fit the degree program may be counted as fulfilling the free elective requirements of the four-year curriculum.

Students transferring from two-year institutions will be entitled to a maximum of two years of credit (60 semester hours). Students transferring from baccalaureate level institutions may be entitled to more, but they may not transfer more than 50% of the total credit hours required in their major. They also must complete a minimum of forty-five credit hours in residence in order to receive a degree from Fitchburg State College.

The grade point average from previously attended colleges and universities is dropped, and a new gpa is established, reflecting the student's performance while matriculating at Fitchburg State College.

For some transfer students, the requirements and provisions of "The Commonwealth Transfer Compact" apply. The complete text of the "Compact" is printed following this section.

The Commonwealth Transfer Compact
January 1990
For students transferring from Massachusetts community colleges to public colleges and universities offering the baccalaureate degree.

Section I: Requirements for Transfer Compact Status
A student shall be eligible for Transfer Compact status if he or she has met the following requirements:

- Completed an Associate's degree with a minimum of 60 credit hours exclusive of developmental course work
- Achieved a cumulative grade point average of not less than 2.0 (in a 4.0 system) at the community college awarding the degree
- Completed the following minimum general education core exclusive of developmental course work:
  - English Composition/Writing ...................... 6 credit hours
  - Behavioral and Social Sciences .................... 9 credit hours
  - Humanities and Fine Arts ............................ 9 credit hours
  - Natural or Physical Sciences ....................... 8 credit hours
  - Mathematics ................................................. 3 credit hours

The sending institution is responsible for identifying the transcript of each student who is a candidate for transfer under this compact.

Section II: Credits to be Transferred
The 35 credits in general education specified in Section I will be applied toward the fulfillment of the receiving institution's general education requirements.

A minimum of 25 additional credits will be accepted as transfer credits by the receiving institution. These credits may be transferred as free electives, toward the receiving institution's additional general education requirements, toward the student's major, or any combination, as the receiving institution deems appropriate.

Only college-level credits consistent with the standards set forth in the Undergraduate Experience recommendations are included under this Compact. Credits awarded by the sending institution through CLEP, challenge examinations, and other life-experience evaluations for course credit may be included when the community college certifies that a student qualifies under this Compact.
Section III: Credits Beyond the Associate Degree
To complete the baccalaureate degree, a student who transfers under this Compact may be required to take no more than 68 additional credits unless:
• The student changes his or her program upon entering the receiving institution; or
• The combination of additional general education requirements, if any, and the requirements of the student’s major at the receiving institution total more than 68 credits.
Under these circumstances, transfer students will be subject to the same requirements as native students. (The term “native student” refers to students who began their undergraduate education at the baccalaureate institution.)

Section IV: Admission to Competitive Majors or Programs
If, because of space or fiscal limitations, the receiving institution does not admit all qualified applicants to a given major or program, the receiving institution will use the same criteria for applicants who are transfer students under this Compact as it does for its native students.

Section V: Transfer Coordinating Committee
A Transfer Coordinating Committee, convened by the Higher Education Coordinating Council of the Commonwealth of Massachusetts, will monitor use of the Transfer Compact, resolve appeals as they pertain to the provisions in this document, and collect and analyze relevant data.

Section VI: Publication of Requirements
Each public college and university shall include in its official undergraduate catalog the provisions of the Commonwealth Transfer Compact. A transfer student may not be held to any degree requirements at the receiving institution that were established less than three years prior to transfer admission.

Section VII: Transfer Records
The student with Transfer Compact status will be provided (by the receiving institution) a list of courses to be fulfilled to earn a baccalaureate degree, no later than the end of the semester the student enrolls. With the agreement of the student, a copy will be provided to the Transfer Officer at the sending community college.

Section VIII: Transfer Officer
The President or Chancellor of each public institution of higher education will identify an individual who serves as that institution’s Transfer Officer. The Transfer Officer’s responsibility will be to assist students with transfer activities.

Section IX: Student Appeals
A student who believes that the provisions of this Compact have not been applied fairly to his/her transfer application has the right to appeal.
Initially, differences of interpretation regarding the award of transfer credit shall be resolved between the student and the institution to which he/she is transferring. If a difference remains unresolved, the student shall present his/her evaluation of the situation to the institution from which the student is transferring. Representatives from the two institutions shall then have the opportunity to resolve the differences.
Absent a satisfactory resolution, differences of interpretation may be presented to the Transfer Coordinating Committee.

Section X: Effective Date

The Elementary Education Compact
For students transferring from Massachusetts community colleges to public colleges and universities offering Elementary Education licensure at the baccalaureate level who agree to the compact.

Section I. Requirement for Elementary Education Compact Status
A student shall be eligible for Elementary Education Compact status if he or she has met the following requirements:
• Completed an Associate degree with a minimum of 60 credit hours exclusive of developmental coursework;
• Achieved a minimum cumulative grade point average of not less than 2.75 (in a 4.0 system) (note: at their discretion, individual institutions may require a different grade point average);
• Completed the following 44-59 credit core, exclusive of developmental coursework. The core is designed to meet the requirements of both the Commonwealth Transfer Compact, and the Department of Education’s regulations (see Section 7.05:1.b and Section 7.06:7.b of the Regulations for Educator Licensure and Preparation Program Approval ("Regulations").

Composition/Writing 6 credits
*Humanities and Social Science (9 credits each) 18 credits
In addition, students must select courses that meet the following Department of Education core content knowledge areas, bearing in mind that competency must be demonstrated in all these areas on the General Curriculum Test of the Massachusetts Test for Educator Licensure (MTEL). Students are required to complete coursework in these areas at both the lower and upper level; areas not covered by coursework at the community college will need to be completed after transfer.

- Children's Literature
- American Literature
- World Literature
- British Literature
- U.S. History, colonial to present
- World History, ancient to present
- Geography
- Economics
- U.S. Government (including founding documents)

*Physical Science with lab or An appropriate Integrated Laboratory Science (appropriate to the Elementary School curriculum) 4 credits

*Biological Science with lab or An appropriate Integrated Laboratory Science (appropriate to the Elementary School curriculum) 4 credits

*Mathematics (appropriate to the Elementary School curriculum) 4 credits

- Child Development
- Exploring Teaching/Foundations of Education
- Laboratory Science (appropriate to the Elementary School curriculum) 4 credits
- Laboratory Science (appropriate to the Elementary School curriculum) 4 credits

Preparation courses for Academic Major after Transfer:
- Mathematics (appropriate to the Elementary School curriculum) 6 credits
- Child Development 3 credits
- Exploring Teaching/Foundations of Education with Pre-Practicum 3 credits
- Preparation courses for Academic Major after Transfer (these courses may also fulfill other core requirements listed above) 9-15 S.H.

Section II: Credits to be Transferred

Students fulfilling the requirements of the Elementary Education Compact are guaranteed a minimum of 60 transfer credits, exclusive of developmental credit as defined by the Board of Higher Education, applied to their degree requirements at the State College or University. The credits will be applied as follows:

- lower level arts and sciences coursework for the "Route One" requirements for the Initial Elementary Education Teacher License;
- institutional general education requirements;
- academic major requirements;
- elementary education lower level requirements;
- free electives.

Only college-level course credits consistent with the standards set forth in the Undergraduate Experience recommendations are included under this Compact. Credits awarded by the sending institution through CLEP, challenge examinations, and other life-experience evaluations for course credit will be included when the community college certifies that a student qualifies under this Compact.

Section III: Credits Beyond the Associate Degree

To complete the baccalaureate degree and receive Elementary Education licensure at the baccalaureate level, a student who transfers under this Compact may not be required to take more than 68 additional credits at the receiving institution unless the requirements of the student's academic major are such that the combination of additional requirements in arts and sciences coursework for the "Route One" requirements for the Initial Elementary Education Teacher License, institutional general education requirements, academic major requirements, and elementary education requirements total more than 68 credits.

Under these circumstances, transfer students will be subject to the same requirements as native students. (The term "native students" refers to students who began their undergraduate education at the baccalaureate institution.)

It is further understood that receiving institutions may require additional coursework if Department of Education licensure requirements change during the course of the associate degree.

Section IV: Admission to Competitive Majors or Programs

If because of space or fiscal limitations the receiving institution does not admit all qualified applicants to a given major or program, the receiving institution will use the same criteria for applicants who are transfer students under this Compact as it does for its native students.

Section V: Elementary Education Transfer Coordinating Committee

An Elementary Education Transfer Coordinating Committee, convened by the Board of Higher Education, will provide implementation and oversight of the Elementary Education Compact. The Coordinating Committee will consist of a total of eleven members: six members who are education faculty/administrators familiar with licensure regulations (two from the Community Colleges appointed by the Community College Executive Office, two from the State Colleges appointed by the State College Council of Presidents' Office and two from the University appointed by the President's Office in consultation with the campuses); the three Joint Admissions Steering Committee co-chairs (one representing the Community Colleges, the State Colleges and the University campuses, respectively); and representatives from the Massachusetts Board of Higher Education and the Department of Education.

The Coordinating Committee will monitor, evaluate and, when necessary, modify the administration of the Elementary Education Compact. In addition, the Committee should implement guidelines that are consistent across the system to address such issues as: professional development, student advising, preparation for the CLST of MTEL, and curriculum development. The Elementary Education Transfer Coordinating Committee will work to develop a system for evaluating the effectiveness of this Compact, and will assist the campuses with developing courses that meet the Department of Education's core content knowledge areas.
Achieved a passing score on the Communication and Literacy Skills Test (CLST) of the Massachusetts Test for Educator Licensure (MTEL). (Note: This requirement may be completed after receipt of the associate degree).

Completed an associate degree with a minimum of 60 credit hours exclusive of developmental coursework;

Achieved a minimum cumulative grade point average of not less than 2.75 (in a 4.0 system). (Note: at their discretion, individual institutions may require a different grade point average);

Completed the following 45-60 credit core curriculum, exclusive of developmental coursework. The core is designed to meet the requirements of the Commonwealth Transfer Compact, the Office of Child Care Services qualifications for professional child care workers (See 102 C M R 7.07(21)) of the Standards for the Licensure or approval of Group Child Care Centers and School Age Child Care Programs, and the Department of Education’s regulations for licensure as an Early Childhood Teacher. (See Section 7.05 (1) and Section 7.06: (5) of the Regulations for Educator Licensure and Preparation Program Approval).

Composition/ Writing 6 credits

*Humanities and Social Science (9 credits of each) 18 credits

In addition, students should select courses from these areas that will help prepare them for the Subject Matter Test for Early Childhood Education of the Massachusetts Test for Educator Licensure (MTEL). Otherwise, they are unlikely to be able to meet the demands of the test and their baccalaureate degree in the 60-68 credits normally required upon transfer to a participating four-year institution. The topics listed below cover the humanities and social science topics that will be addressed in the subject matter test.

*Children’s Literature (Students not taking this course must take 2 of the courses listed under “3-6 credits” below.)

History, Geography, Government, Economics

The Arts, basic principles and concepts. (Studio and performance courses will not prepare students for the MTEL)

Early Childhood Growth and Development (or Child Psychology course (Birth to age 8 is required for OCCS certification.) (If course is offered by a Social Sciences department, it can be used to satisfy part of the 9 credits of Social Science required above)

            3 S.H.

Physical Science with lab or appropriate Integrated Laboratory Science 4 S.H.

Biological Science with lab or appropriate Integrated Laboratory Science 4 S.H.

Mathematics (Course should cover number sense and numeration; geometry and measurement; patterns and functions; and data analysis.) 3 S.H.

*This course should be a course from the appropriate department and NOT a basic math course

Early Childhood Education courses (All course curricula must address issues, adaptations, and procedures for children with diverse needs, including those with disabilities, those with limited English proficiency, and those who are gifted and talented.) 12 S.H.

Introduction to Early Childhood Education with Field Experience (Should include foundations and state and national frameworks.) 3 S.H.

Early Childhood Education Practicum: (Should be a capstone course of at least 150 hours over a minimum of 8 weeks in Pre-K education (includes preschool settings approved by OCCS) and be accompanied by a theoretical component that integrates the practicum experience with previous classroom learning.) 3-6 S.H.
Section IV: Credits Beyond the Associate Degree

To complete the baccalaureate degree and receive Early Childhood Education licensure at the baccalaureate level, a student who transfers under this Compact may not be required to take more than 68 additional credits at the receiving institution unless the requirements of the student's academic major are such that:

- the combination of additional requirements in institutional general education requirements, academic major requirements, and Early Childhood Education requirements total more than 68 credits.

Under these circumstances, transfer students will be subject to the same requirements as native students. (The term “native students” refers to students who began their undergraduate education at the baccalaureate institution.) It is further understood that receiving institutions may require additional coursework if Department of Education licensure requirements change during the course of the associate degree.

Section V: Admission to Competitive Majors or Programs

If because of space or fiscal limitations the receiving institution does not admit all qualified applicants to a given major or program, the receiving institution will use the same criteria for applicants who are transfer students under this Compact as it does for its native students.

Section VI: Early Childhood Education Transfer Coordinating Committee

An Early Childhood Education Transfer Coordinating Committee, convened by the Board of Higher Education, will provide implementation and oversight of the Early Childhood Education Compact. The Coordinating Committee will consist of a total of eleven members: six members who are education faculty/administrators familiar with licensure regulations (two from the Community Colleges appointed by the Community College Executive Office, two from the State Colleges appointed by the State College Council of Presidents Office and two from the University appointed by the President's Office in consultation with the campuses); the three Joint Admissions Steering Committee co-chairs (one representing the Community Colleges, the State Colleges and the University campuses, respectively); and a representative from each of the following: the Massachusetts Board of Higher Education, the Office of Child Care Services, the Department of Education and child care providers.

The Coordinating Committee will monitor, evaluate and, when necessary, modify the administration of the Early Childhood Education Compact. In addition, the Committee should implement guidelines that are consistent across the system to address such issues as: professional development, student advising, preparation for the CLST of MTEL, and curriculum development. The Early Childhood Education Transfer Coordinating Committee will work to create a system for evaluating the effectiveness of this Compact, and will assist the campuses with developing courses that meet the Department of Education's core content knowledge requirements and the Office For Child Care Services' professional child care requirements for certification.
Section VII: Publication of Requirements
Each public college and university that accepts this policy shall include in its official undergraduate catalog the provisions of the Early Childhood Education Compact. Each campus agrees to use its best effort to provide participating Community College, State College or University campuses, respectively, with prompt notifications of changes in programs and curricula.

Section VIII: Transfer Records
The student with Early Childhood Education Compact status will be furnished by the receiving institution a list of courses to be fulfilled to earn a bachelor's degree no later than the end of the first semester at the receiving institution.

Section IX: Student Appeals
A student who believes that the provisions of this Compact have not been applied fairly to his/her transfer application has the right to appeal. Initially, differences of interpretation regarding the award of transfer credit shall be resolved between the student and the institution. The student shall present his/her evaluation of the situation to the institution from which he/she is transferring. Representatives from the two institutions shall then have the opportunity to resolve the differences. Absent a satisfactory resolution, differences of interpretation may be presented to the Joint Admissions Agreement Subcommittee for Appeals.

Section X: Effective Date
The Early Childhood Education Compact takes effect for students matriculating at participating Community Colleges beginning in the Fall Term of 2004.

New England Regional Student Program
This program enables residents of Connecticut, Maine, New Hampshire, Rhode Island, and Vermont to be considered for admission to programs of study not offered by public colleges in their home states. Applicants selected under this program are granted reduced tuition rates (50% above regular in-state tuition, rather than full out-of-state tuition). For further information, please contact the Admissions Office or the New England Board of Higher Education, 45 Temple Place, Boston, Massachusetts 02111.

Air Force Reserve Officer Training Corps
Fitchburg State College students may participate in Air Force Reserve Officer Training Corps (AFROTC) at Worcester Polytechnic Institute. Qualified U.S. citizens who earn their degree from Fitchburg State College and satisfactorily complete the AFROTC program requirements will be commissioned as second lieutenants in the United States Air Force. AFROTC offers a four-year and two-year program for qualified individuals to earn their commission. Two- and three-year scholarship opportunities are also available to qualified individuals in specific areas of academic study. For more details write the Department of Aerospace Studies, 100 Institute Rd., Worcester, Massachusetts 01609-2280, or call (508) 831-5747, or email at AFROTC@wpi.edu or WPI.edu/campus/rotc.html.
Undergraduate Day Tuition and Fees

The schedule of fees, tuition, methods of payment and refund policies are those in effect at the time of publication. They are subject to change without notice. Funds accrued for educational purposes are applied on a first funds received, first funds applied to bill basis.

2004–2005 Tuition Rates

- **In-state students** ....... $970/year .......... $485/semester
- **Out-of-state students** .. $7,050/year .......... $3,525/semester
- **New England Regional** $1,455/year .......... $727.50/semester

Students aged 60 or over may enroll in classes tuition-free, provided seating is available after the registration of tuition-paying students.

2004–2005 Standard Fees

The fees listed below are on a per year basis and are payable in equal installments at the beginning of each semester, except where indicated.

- **Application Fee, In-state**............................... $10 (not refundable or applicable to tuition, one time only)
- **Application Fee, Out-of-state**....................... $40 (not refundable or applicable to tuition, one time only)
- **College Fee**............................................... $3,360
- **Health Insurance (per annum)**..................... $1,206 (required only if not covered by private insurance)
- **MASSPIRG (optional)**................................. $14
- **Student Activity Fee**................................. $90
- **Capital Projects Fee**................................. $168

Room and Board

The college offers a variety of on-campus housing as described in the Student Life section of the catalog. Campus Living Residence H all rates are as follows:

- **Aubuchon Hall** .......... $1,835/semester ........... $3,670/year
- **Herlihy Hall** .......... $1,741/semester ........... $3,482/year
- **Russell Towers** .......... $1,801/semester ........... $3,602/year
- **Mara Village** .......... $1,790/semester ........... $3,580/year
- **Town H ouses*** .......... $2,361/semester ........... $4,722/year
- **Cedar H ouse** .......... $2,000/semester ........... $4,000/year

The above rates are for double occupancy in listed Residence H alls. Additional charges are added to the base rate for single occupancy as follows:

- **Design Single** ............ $375/semester .......... $750/year
- **Premium Single** ........ $525/semester .......... $1,050/year

*single rate already included

Residence H all rates include cable television, internet access and telephone service (exclusive of long distance charges) in the stated room rate.

Dining Services

Deposits
The following advance deposits are nonrefundable:
- Fee bill deposit ........................................................... $85
  (paid once at time of acceptance; credited toward first semester fee bill)
- Housing Deposit ...................................................... $150

The Housing Deposit is required of all students requesting on-campus accommodations. The Housing Deposit is paid one time and will remain current as long as an active housing contract is maintained consecutively. Upon successful completion of all housing contracts the deposit will be refunded less any outstanding charges.

Payment Options
Bills can be paid in the form of cash, cashier’s checks, money orders, bank checks, traveler’s checks, MasterCard, VISA, Discover, or personal checks. Fitchburg State College also has a tuition payment plan that is administered directly through the Tuition Management Services (TMS).

Any payments that become past due immediately jeopardize the student’s enrollment. Until debts are cleared, a student will not be permitted to register for a subsequent semester or summer session. Furthermore, the student may not be issued transcripts, or other official statements unless otherwise mandated by law. Any collection costs associated with the collection of this debt is the responsibility of the student. Additionally, the Treasurer’s Office may refer an account to the State Attorney General or State Intercept program to recover any debt owed to Fitchburg State College.

Please Note: A student will be charged $30 for any personal checks returned to the college by the bank. A late payment fee, not to exceed $50.00 will also be incurred.

Institutional Refund Policy
The following Institutional Refund Policy is a reference for all students withdrawing from the College. The information below reflects the percentage of charges the student will be charged for dependant on the official effective week of withdrawal. If a student is using Financial Aid against your total charges, please refer to the Financial Aid return of Title IV refund policy.

Enrollment Period
The fall and spring terms are a 15-week schedule. The 50% point is up to the seventh week. The 60% point is up to the ninth week of school.

Institutional Refund Policy
Withdrawal prior to the start of classes ....................... 100%
Before the beginning of the second week .................. 100%
From the second week but before the third week ...... 50%
From the third week but before the fourth week ...... 50%
From the fourth week but before the fifth week ...... 25%
From the fifth week but before the sixth week ......... 25%
From the sixth week but before the seventh week .... 25%
From the seventh week but before the eighth week ... 25%
From the eighth week but before the ninth week ...... 0%
From the ninth week but before the tenth week ....... 0%

Students who withdraw after the seventh week will have no adjustments to their charges.

Dropping Courses Below Full-Time
This is the refund policy proposed for all part-time students who drop state supported courses during the first three weeks of school.

Dropping prior to the start of classes ...................... 100%
Before the beginning of the second week ................... 90%
From the second week but before the third week ....... 50%
From the third week but before the fourth week ........ 50%
After the fourth week .................................................... 0%

Refund will only be generated if the total payments exceed total charges after adjustments have been generated.

Health Insurance
All matriculated students registering for nine or more semester hours must be enrolled in a student health insurance plan offered by the college or in a private health insurance program with comparable coverage. Students covered by insurance other than that offered by the college must sign a waiver card. If a waiver card is not signed, a student will be automatically billed the current health insurance rate a year for the college insurance plan. To obtain a brochure about the college sponsored insurance, please call 978-665-3130.

Unpaid Charges
If a student receives Title IV aid and has unpaid charges owed to the college, the college may automatically credit the refund to the student’s account up to the amount owed by the student.

* Based on policies in effect on May 8, 2004. All policies are subject to change.
Undergraduate Evening and Graduate Tuition and Fees

2004–2005 Tuition Rates
The Graduate and Continuing Education tuition charges for all students are as follows:
- Undergraduate ......... $110 per semester hour of credit
- Graduate ................. $150 per semester hour of credit

2004–2005 Standard Fees
All students must pay the following fees:
- Application Fee (non-refundable), undergraduate ........ $10
- Application Fee (non-refundable), graduate .......... $25
- Application Fee for International Students ............... $50 (non-refundable)
- Educational Services Fee:
  - Graduate ........................................ $65 per credit
  - Undergraduate .............................. $74.17 per credit
- Capital Projects Fee ......................... $7 per credit
- Early registration fee ........................... $25

Students auditing classes pay regular tuition and fees.
*Nonrefundable unless a course is cancelled by the college.

Payment Options
Payment for tuition and fees must be made at time of registration in the form of cashier's check, money order, bank check, traveler's check, personal check, MasterCard, VISA, or Discover.

Any payment that becomes past due immediately jeopardizes the student's enrollment. Until debts are cleared, a student is not permitted to register for a subsequent semester or be issued academic transcripts or other official statements unless otherwise mandated by law.

Please note: All returned checks require a $30 returned check fee to cover charges by financial institutions. Students who do not respond to notification to rectify their account will have their account placed on hold and will be placed in the collection process.

Tuition Waivers and Vouchers
Some tuition waivers and/or vouchers may be used as partial payment for course(s) taken through Graduate and Continuing Education. When using waivers or vouchers, students need to register in-person or by mail. The appropriate original eligibility form with all required signatures must be presented at the time of registration. A tuition refund will not be issued if a waiver is presented after registration. It is important that students check with their own Human Resource Department to determine eligibility. Not all tuition waivers apply to non-state funded programs such as those offered through Graduate and Continuing Education.

Tuition waivers, remissions, and vouchers do not apply to non-credit Life-long Learning courses, capstones, conferences, teleconferences, independent studies, directed studies, internship, practica, fieldwork, LECAP, selected distance learning courses, courses by arrangement or professional development seminars and lectures offered through the Office of Graduate and Continuing Education.

Refund Policy
The amount of a refund to a student depends on the official date of the student's withdrawal. The official date of withdrawal is the date when the Registrar's Office receives the completed withdrawal form.

Refunds for courses designated “Special or Institute Scheduling”:
- 100% refund one week prior to the first class meeting
- 50% refund less than one week prior to first class meeting

No refund of tuition on the first day of class or thereafter. If a course is canceled by the college, a student receives a full refund of tuition and fees.

Class meeting is defined as 2.5 hours.
Note: Independent and directed studies, internship, fieldwork, and practica are also considered to be special scheduling courses.

Refunds
Refunds are determined by the number of hours a class has met:
- Prior to the first class meeting ................. 100% refunded
- Prior to second class meeting .................. 90% refunded
- Prior to fourth class meeting ................... 50% refunded
- No refunds issued after 4th class meeting ...... 0% refunded

Class meeting is defined as 2.5 hours.
If a course is canceled by the college, a student receives a full refund of tuition and fees.

Refunds for Federal Financial Aid
Please refer to the Federal Title IV Policy section which appears in this catalog.

Students Over Sixty Years of Age
There is no tuition charge for students over 60 years of age enrolling in credit yielding graduate or undergraduate courses. They are welcome to enroll in any class, provided space is available after the registration of tuition paying students. Students over sixty years of age are responsible for paying fees.

Health Insurance
All matriculated undergraduate students registering for 9 or more semester hours, graduate students registering for 6.75 credits or more, or graduate assistants registering for 6.0 credits or more must be enrolled in a student health insurance plan offered by the college or in a private health insurance program with comparable coverage. Students covered by insurance other than that offered by the college must sign a waiver card. If a waiver card is not signed a student will be automatically billed for the college insurance plan. To obtain a brochure about the college sponsored insurance, please call 978-665-3130.

Public Disclosure
Fitchburg State College has copies of its most recent audited financial statement available in the Treasurer's Office.

The schedule of fees, tuition, methods of payment and refund policies are those in effect at the time of publication. They are subject to change without notice.
The Financial Aid Office at Fitchburg State College is committed to providing an affordable education for every student admitted to the school. The college adheres to the basic premise that the student and family are primarily responsible for meeting college costs. Financial aid is available to assist with the educational expenses that remain after the family's resources have been taken into account.

Financial Aid for Undergraduate Students

Gift Aid

Gift aid is usually in the form of grants or scholarships and does not need to be earned or repaid. The following gift aid programs are available to undergraduate students at Fitchburg State College:

The Federal Pell Grant, is a federally funded entitlement program designed to assist undergraduate students who have exceptional need. Grants range from $400 to $4,050 per academic year.

The Federal Supplemental Educational Opportunity Grant (SEOG) is a federally funded program, which awards funds to undergraduate students with extreme financial need and who would otherwise be unable to attend a postsecondary institution. Average grants range from $500 to $1,000 per academic year.

The Massachusetts State Grant is need-based grant aid administered by the Massachusetts Office of Student Financial Assistance (OSFA). Recipients must be enrolled full-time. Awards range from $300 to $1,200 per academic year.

The Federal Supplemental Educational Opportunity Grant (SEOG) is a federally funded program, which awards funds to undergraduate students with extreme financial need and who would otherwise be unable to attend a postsecondary institution. Average grants range from $500 to $1,000 per academic year.

The Federal Supplemental Educational Opportunity Grant (SEOG) is a federally funded program, which awards funds to undergraduate students with extreme financial need and who would otherwise be unable to attend a postsecondary institution. Average grants range from $500 to $1,000 per academic year.

Application Process

Financial aid funds are awarded on a first-come, first-served basis, according to demonstrated financial need. In order to receive priority consideration, students must file:

- the Free Application for Federal Student Aid (*FAFSA) with the federal processor by March 1st
- any additional information needed to complete an applicant's file as requested in writing by the Financial Aid Office

Applications are accepted and processed after the priority date listed above. Late applications will be reviewed on a funds available basis. All applications must be made prior to the academic year in which the applicant will be attending college to ensure the availability of financial aid to put toward the fall semester's bill.

*The FAFSA may be filed online at www.fafsa.ed.gov. Online processing increases accuracy and decreases processing time. Students without computer access may contact the Financial Aid Office for a paper FAFSA. Please allow 4-6 weeks processing time for the paper application.

Please remember that financial aid is not automatically renewed. It must be applied for each year.
Tuition Waiver is a state-funded program for Massachusetts residents. Applicants with demonstrated need can receive a reduction in tuition. Award amounts vary, but they cannot exceed the total tuition cost for which an undergraduate day student is billed.

MA Part-time Grant is awarded to part-time undergraduate students with demonstrated financial need. Awards average $500 per year.

Special Fee Scholarship is awarded to full-time undergraduate day students who are not a resident of Massachusetts and who demonstrate financial need. Average award is $1,000 per year.

FSC Fee Grant is awarded to Massachusetts residents with demonstrated financial need.

Other State Grants
Students from other states may be eligible to receive a grant or scholarship from their respective state. Each program has its own individual guidelines and deadlines. Students are urged to contact the appropriate agency in their state for further information.

Financial Aid for Undergraduate and Graduate Students

Student Loans
Student loans are long-term, low-interest loans, which come due only after graduation, withdrawal from the college, or upon less than half-time enrollment. Student eligibility for these loans is based on financial need and availability of funds. To apply for the loans indicated below the FAFSA is required. Once students are awarded a loan or loans, additional paperwork is required.

Federal Perkins Loan
- Available for qualifying undergraduate and graduate students
- Low-interest (5%) loan from the federal government and Fitchburg State College
- Repayment begins nine months after the student either leaves school or drops below half-time status
- Provisions for deferment, postponement, or cancellation are available for some specialized areas

Nursing Student Loan
- Assists students who are furthering their education in Nursing
- Low-interest (5%) loan from the federal government and Fitchburg State College
- Repayment begins nine months after a student leaves school or drops below half-time status
For more information about repayment and deferment contact the Loan Collections Office, located in the Treasurer’s Office.

Massachusetts No-Interest Loan Program
- Available to qualifying full-time undergraduate Massachusetts residents
- Zero interest loan from the Commonwealth of Massachusetts
- Repayment begins six months after a student leaves school or drops below half-time status

Federal Direct Student Loan Program
Enables both undergraduate and graduate students with demonstrated financial need to apply for a loan through Fitchburg State College, instead of applying through a bank. If a student qualifies for a Subsidized Direct Loan:
- The federal government pays the variable interest on the loan while the student is in school
- Repayment begins six months after graduation, withdrawal from the school, or upon less than half-time enrollment

An Unsubsidized Direct Loan is available to undergraduate and graduate students who do not demonstrate financial need or who are eligible to borrow additional funds beyond the subsidized loan:
- Loan has the same low variable interest rate as the Subsidized Loan
- Federal government does not make interest payments on behalf of the student
- Interest on the loan accrues once the loan is made. The interest payments can be deferred or paid while the student is in school.

For information on other educational loans, interest rates, eligibility standards, and requirements, applicants should contact the Financial Aid Office.

Student Employment
The college advocates ‘earning while learning’ as a supplement to the gift aid and loan components of a student’s financial aid package. The current work programs include:

Federal Work Study
- Federally funded part-time employment on campus
- Students are paid an hourly rate every two weeks for time worked
- Work hours are available during the academic year, holidays, and the summer
- Open positions are posted in the Financial Aid Office and on the Financial Aid website www.fsc.edu/finaid.

Fitchburg State College Employment
- Part-time on-campus employment for a limited number of students
- Students are paid an hourly rate every two weeks for time worked
- Open positions are posted in the Financial Aid Office and on the Financial Aid website www.fsc.edu/finaid

Off-Campus Employment
The Career Services Center, located on the third floor of the Hammond Building, provides listings of part-time positions from the local community.
- Positions are posted on a bulletin board in the G-Lobby of the Hammond Building
- Flexible hours are offered to accommodate academic commitments
Eligibility for Financial Aid

Determining Financial Need

Although Fitchburg State College does not set the standards to measure financial need, the Financial Aid Office will help students and their families with the process of applying under Federal and State guidelines. No student should assume that he or she is ineligible for financial aid. All students, regardless of family income, are encouraged to apply.

A student's financial need and financial aid eligibility is based on careful review of the information provided on the Free Application for Federal Student Aid (FAFSA). Financial need is based on the difference between expected educational costs and the family or student contribution toward those costs.

Educational costs vary according to the individual circumstances of the student, and include such items as tuition, fees, room and board, books, supplies, transportation, and personal expenses.

Family or student contribution is determined by the Federal formula known as Federal Methodology (FM), which factors in such items as income, assets, number in household, and number in college. As a result, the amount of family contribution may vary, even between households having approximately the same income.

Student Financial Aid Budgets

A student's financial aid budget is based on his or her cost of education, which includes both direct and indirect expenses.

Direct expenses are paid by the student to the college, including tuition, fees, and room and board (for on-campus students). These expenses are set by the college and the Commonwealth.

Indirect expenses are those over which the student has some control, including books, supplies, transportation, personal/miscellaneous, and room and board (for off-campus students). These expenses are based on estimated costs for students at Fitchburg State College.

A typical budget for a full-time undergraduate student living in a residence hall for the 2004-2005 school year is:

<table>
<thead>
<tr>
<th>Category</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$970</td>
</tr>
<tr>
<td>Fees</td>
<td>$3,618</td>
</tr>
<tr>
<td>Room</td>
<td>$3,482</td>
</tr>
<tr>
<td>Board</td>
<td>$2,280</td>
</tr>
<tr>
<td>Books/Supplies</td>
<td>$600</td>
</tr>
<tr>
<td>Transportation</td>
<td>$350</td>
</tr>
<tr>
<td>Personal/Misc.</td>
<td>$1,500</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$12,800</strong></td>
</tr>
</tbody>
</table>

A typical budget for a half-time continuing education student for the 2004-2005 school year is below:

<table>
<thead>
<tr>
<th>Category</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$1,320</td>
</tr>
<tr>
<td>Fees</td>
<td>$974</td>
</tr>
<tr>
<td>Room (off-campus)</td>
<td>$2,700</td>
</tr>
<tr>
<td>Board (off-campus)</td>
<td>$2,280</td>
</tr>
<tr>
<td>Books/Supplies</td>
<td>$300</td>
</tr>
<tr>
<td>Transportation</td>
<td>$500</td>
</tr>
<tr>
<td><strong>Personal/Misc.</strong></td>
<td>$1,500</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$7,500</strong></td>
</tr>
</tbody>
</table>

A typical budget for a graduate student carrying six credits each semester for the 2004-2005 school year is:

<table>
<thead>
<tr>
<th>Category</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tuition</td>
<td>$1,800</td>
</tr>
<tr>
<td>Fees</td>
<td>$864</td>
</tr>
<tr>
<td>Room (off-campus)</td>
<td>$2,700</td>
</tr>
<tr>
<td>Board (off-campus)</td>
<td>$2,280</td>
</tr>
<tr>
<td>Books/Supplies</td>
<td>$300</td>
</tr>
<tr>
<td>Transportation</td>
<td>$500</td>
</tr>
<tr>
<td><strong>Personal/Misc.</strong></td>
<td>$1,500</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$9,574</strong></td>
</tr>
</tbody>
</table>

Not all students will spend exactly these amounts. Budgets will vary depending on enrollment and housing status. Students are awarded financial aid based on their total budget. When the money for a student's financial aid is actually received at the college, it is first used to satisfy the student's direct expenses. Once a student's bill with the college is satisfied, the balance of his or her aid is available and may be used to satisfy any indirect expenses the student may have.

Students should plan to start the semester with enough money for books and at least the first two month's rent (if living off campus). Financial aid refunds will not be available to cover these expenses. The Treasurer's Office will notify the student about which aid has been received, which aid has been used to satisfy their bill, and which aid (if any) is available for their use.

Satisfactory Academic Progress

Eligibility for continued financial aid for a returning student is based on need (as detailed above) and Satisfactory Academic Progress (SAP). SAP is the qualitative and quantitative measurement of progress toward the completion of a course of study according to the standards of the college. Students are solely responsible for maintaining their academic progress. Those who have not done so will be notified of their ineligibility for financial aid during the award letter process.

SAP standards apply to all matriculated students.

Qualitative measure: students must maintain an appropriate cumulative Grade Point Average according to the regulations listed below.

To be in good academic standing, full-time undergraduate students must meet the following standards:

- Freshmen (0-29 credits) must maintain an overall cumulative gpa of 1.6 or higher at the end of two semesters.
- Sophomores (30-59 credits) must maintain an overall cumulative gpa of 1.8 or higher.
- Students with 60 credits or more must maintain a 2.0 cumulative gpa to remain in good standing.

Quantitative measure: based on credits successfully completed during the academic year, which runs from fall through the following summer.

- Full-time undergraduate students must successfully complete 20 credits during each academic year.
Part-time undergraduate and all graduate students must successfully complete 67% of the number of attempted credits for each semester.

Students who have been denied financial aid because they were not making satisfactory academic progress may again receive aid the semester after attaining satisfactory academic progress.

It is the responsibility of the student to officially notify the Financial Aid Office of any changes to their academic standing. Aid cannot be awarded until this official notification is received.

**Appeal Process**

Students have the right to appeal to have their financial aid reinstated under the following circumstances:

- If extreme circumstances during the course of the academic year have impacted a student's academic progress, then a letter of appeal may be submitted to the Dean of Curriculum and Instruction.
- If a student has not met the requirements but has demonstrated academic progress, a letter of appeal may be submitted to the Director of Financial Aid

These appeals will be reviewed by the Dean of Curriculum and Instruction. If the Dean determines that the student is making significant academic progress, he or she may be granted a one-semester probationary period to make up course work. Winter and/or summer sessions may be used to make up credits or improve cumulative GPA.

**Return of Title IV Funds**

Refund Policy for Students Who Receive Federal Financial Aid

Applicability

This refund policy applies to all full-time and part-time students enrolled at Fitchburg State College who are receiving Federal Title IV Financial Aid and withdraw from all classes.

This policy is mandated by federal regulation.

This policy deals only with the percentage of aid that is earned by a student. Charges incurred by a student who withdraws from the College are determined in accordance with the Institutional Refund Policy.

Withdrawal Requirements

All financial aid recipients who wish to withdraw from the College must do so by contacting the Financial Aid Office. The official date of withdrawal for this policy is the date that the student begins the official withdrawal process or the date that the student officially notifies the College of his or her intent to withdraw.

Refund Policy

Refund of Federal Title IV Aid will be based on the date a student completely withdraws from the College as described above. During the first 60% of the semester a student earns Title IV funds in direct proportion to the length of time that he or she remained enrolled. A student who remains enrolled beyond the 60% point earns all aid for the semester.

The percentage of the semester that a student remains enrolled is derived by dividing the number of days that a student remains in attendance by the number of days in a semester. Calendar days are used, but breaks of at least 5 consecutive days are excluded from both the numerator and denominator.

Unearned Federal Title IV Aid other than Federal Work Study must be repaid by the student in the following order:

- Federal Unsubsidized Direct Loan
- Federal Subsidized Direct Loan
- Federal Perkins Loan
- Federal Parent (PLUS) Loan
- Federal Pell Grant
- Federal SEOG

**Other Title IV Financial Aid**

Students must repay 100% of unearned loans according to the terms of their Promissory Note. 50% of unearned grants must be repaid within 30 days of withdrawal from the College.

An example of the Return of Title IV Funds Policy is available in the Financial Aid Office.

It is very possible that a student who receives federal financial aid and withdraws from the College will owe a balance to the Fitchburg State College Student Accounts Office and may be required to repay funds to the U.S. Department of Education. Students considering withdrawal from Fitchburg State College are advised to contact the Financial Aid Office.

**Correspondence**

The Financial Aid Office corresponds with Fitchburg State College students via mail and email. Mail will be sent to a student's permanent address during the summer and to their campus mailbox, if applicable, during the school year. Email will be sent to a student's fsc.edu email address throughout the year. It is the student's responsibility to monitor their email and mailbox accounts.

**Aid for Veterans**

U.S. Veterans are entitled to certain financial aid benefits at Fitchburg State College for undergraduate degree programs. While all veterans are urged to keep informed about benefits available to them through the Veterans' Administration, they should contact the Registrar's Office to establish eligibility for such benefits. The Registrar's Office will provide the veteran with an Application for Benefits or the Change of Place of Training Form, whichever is applicable. Along with an application, the veteran needs to provide the following documents for the Registrar's Office:

- a DD214 Form notarized by a Veteran Notary
- his or her marriage certificate
- birth certificates for each dependent child

All veterans, whether or not exempt from paying tuition, must pay all fees.

For more information on Veterans' Education benefits write to:

Regional Office
Department of Veteran Affairs
JFK Federal Building, Government Center
Boston, Massachusetts 02203
Scholarships for Undergraduate Students

In addition to the gift aid programs already listed, Fitchburg State College has numerous scholarships of its own. These scholarships are administered by the College Scholarship Committee or by the appropriate area representative. To assist in the evaluation of need, a Scholarship Application or a Free Application for Federal Student Aid (FAFSA) may be required. Scholarship applications are available in the Financial Aid Office after January 1st. Completed applications must be received in the Financial Aid Office no later than March 1st.

Alumni Legacy Scholarships are available to full-time students who have a parent, grandparent, spouse, sibling or dependent who is a Fitchburg State College alumnus/a. Priority is based on academic excellence and/or financial need.

Vincent J. Mara Scholarship is available to full-time students currently enrolled at Fitchburg State College, who are demonstrating academic excellence with a gpa of 3.5 or above. Community service or extracurricular activities are considered, but not required for application. A letter of recommendation from a member of the faculty is preferred.

City Year Scholarship is awarded every four years to a graduate of the Boston City Year Program. For information contact the Financial Aid Office.

Dean's Undergraduate Scholarship is awarded annually to an undergraduate matriculated honor student(s) who is pursuing a bachelor's degree by attending evenings.

Departmental Scholarships offer a unique opportunity for upperclass students to work closely with the departmental chair in their discipline. High consideration is given to those students with a record of academic excellence and previous departmental service. Financial need is not a requirement for consideration and award decisions are made through each specific department.

The President's Scholars Awards are available to undergraduate students who have completed a minimum of 15 semester hours at the college and have achieved a grade point average of at least 3.75.

Sterilite Corporation Scholarship is awarded to a student who demonstrates financial need.

Student Government Association Scholarship are available to sophomores, juniors, and seniors with a grade point average of 2.2 or higher and a record of student leadership.

Senator Paul E. Tsongas Scholarship Program is awarded to entering students who are high achievers and Massachusetts' residents. The scholarship is in the amount of tuition and fees and is renewable with a 3.3 grade point average.

VNA (Visiting Nurses Association) Trust Scholarship is awarded to a Nursing major by the Nursing Department.

Class of 1942 Scholarship is awarded to a full-time, upper-class student who has maintained a 3.0 gpa and has a record of demonstrated leadership in college activities.

Class of 1953 Scholarship is awarded to a full-time, junior year student who possesses a 3.0 gpa and demonstrates financial need. The recipient should participate in class activities, support the college and be working toward a career in education.

Class of 1955 Scholarship is available annually to a full-time student of Fitchburg State College.

Class of 1967 Scholarship is available annually to an Fitchburg State College student chosen on the basis of academic merit and financial need.

Freshman Merit Programs

Fitchburg State College offers several scholarships for incoming freshmen who have demonstrated a high level of achievement in high school and the potential to contribute to the academic and cultural community of Fitchburg State. Award amounts range from $500 to full tuition. For further information, please contact the Admissions Office.

Transfer Merit Programs

Fitchburg State College offers several scholarships for incoming transfer students who have demonstrated a high level of achievement in college-level work and the potential to contribute to the academic and cultural community of Fitchburg State. Award amounts range from $500 to full tuition. For further information, please contact the Admissions Office.

Fitchburg State College Scholarships and Awards Named in Grateful Recognition of their Benefactors

Ken and Cherie Ansir '96 Scholarship is awarded to a non-traditional Human Services undergraduate student.

Matti N. Antila Poetry Award is awarded annually to a junior for a poetry composition. The award is made possible by Lauri and Signe Sipila in memory of Signe Sipila's parents, Matti N. and Fanny P. Antila.

W.E. Aubuchon, Jr. Scholarship, is awarded to a Fitchburg State College student selected by the Financial Aid Department

Leo J. Bourque Memorial Scholarship is awarded to a full-time undergraduate, who is at least a three-year resident of Leominster and who demonstrates financial need.

Charlotte B. Bonjukian Memorial Fund Scholarship is awarded to a non-traditional upper-class nursing student.

Mary F. Burnham and Mary Frances Burnham Scholarship Fund is available to full-time undergraduate students who have completed at least one semester at Fitchburg State. Students must be currently working to support their education. Those who demonstrate financial need preferred.
Stephen W. Clair Memorial Scholarship is awarded to a student with financial need who is a Geography/Earth Science major, has earned at least 30 credits, has at least a 3.0 gpa, and is an active member of the Geo Club.

William E. Clark III Memorial Scholarship is awarded to a student who evinces academic achievement, financial need, and the potential to succeed.

Roberta A. Fitzmaurice Connors '63 Scholarship is awarded to a full-time student in the early childhood education program who demonstrates the ability to be an outstanding early childhood educator.

Garrett Conrad Scholarship is awarded annually to a student with a disability. Applicants must be registered with Disability Services; qualify under ADA; enrolled for at least six credits each semester, and have completed at least one semester at Fitchburg State College. Preference is given to students with an outstanding record of service and commitment to the college and community.

The Elaine T. Coyne Women in Film Scholarship is available to a female student under criteria established by the Communications/ Media department.

A. Wallace Cunningham '43 Memorial Scholarship is awarded to a student with a demonstrated financial need and whose academic record proves high achievement.

Carol Mullaney Cuttle Scholarship is awarded to a Fitchburg area sophomore, junior, or senior in the special education department who demonstrates financial need.

Dean's Undergraduate Award is awarded to an evening undergraduate degree student who has completed at least 80 credits with a gpa of 3.5 or better.

Dr. Edward T. Donnelly Scholarship is available annually to a full-time undergraduate student with a teacher education major or minor and a demonstrated financial need.

Ethel P. Mandrus Donohue '41 Endowed Scholarship is awarded to a first-year student from Hampden County who will major in special education. Additional selection criteria include a minimum grade point average minimum of 3.0 and demonstrate school and community participation.

Henry Frank Scholarship is awarded to full-time entering freshmen and transfer students from New York, Connecticut, or from within a fifteen-mile radius of Orange, Massachusetts. Preference is given to students with a record of television production excellence, with television production faculty. Priority is given to returning communications/media students to work closely with the Communications/ Media department.

Jacqueline LaCoy Scholarship offers the opportunity for students, teachers and faculty who demonstrate exceptional academic credentials and have an interest in learning more about Italian language, Italian culture and Western Civilization. This is a travel/study grant for use as course payment at an accredited school or college, book purchases and cultural event admissions in pursuit of the above. Awarded by the Fitchburg State College Center for Italian Civilization.

Grace Gummo Nursing Scholarship is awarded to deserving students in the Nursing Program.

Patrick and Mary Hammond Band Scholarship is awarded to a full-time undergraduate student chosen as the outstanding member of the Fitchburg State College Band.

The Patricia A. Hess '94 Memorial Scholarship is awarded annually to a female, non-traditional student who has been out of high school for at least ten years. The recipient must be an undergraduate English and/or History major with a minimum of 3.0 gpa and 30 credit hours and demonstrates a love of learning and will be based upon merit. Awarded by the Financial Aid Committee with the recommendation of the Social Science Department faculty.

The Walter F. Harrod '40 Scholarship is awarded as a one-year renewable scholarship when supported by sustained academic performance and evidence of good character. The recipient must be a junior industrial technology major with a minimum 2.8 gpa and who has earned at least 90 credit hours and demonstrates the desire and capacity to enter the professional field within industrial technology. Financial need may be used in awarding the scholarship and will be awarded by the Financial Aid Committee with the recommendation of the Industrial Technology Department.

Walter Harrod Community Service Scholarship is awarded to an Industrial Technology major who demonstrates community service commitment.

Leo J. Ines Memorial Scholarship is awarded to a qualified English major demonstrating academic excellence.

Jeanne M. Joyal '53 Endowed Scholarship provides scholarship assistance to a resident of Western Massachusetts who will be a first-year student and major in elementary education. The recipient must possess a minimum of 3.0 gpa in high school and demonstrate school and community participation.

Kirkpatrick-Percival Scholarship is awarded to an outstanding senior Psychology major.

LeBlond-O'Sullivan Memorial Scholarship is awarded to full-time juniors or seniors with financial need and a record of service to the college.

Ruth Lee Scholarship is available annually to a student from the North Central Massachusetts Region, one of the cities and towns included in the North Central Massachusetts Region, and whose academic record proves high achievement.

Francis Marcille '60 Memorial Award is awarded to a graduating senior Industrial Technology major who intends to teach in a Massachusetts school.

Eunice J. Mattson Scholarship is awarded by the Special Education Department to a full-time junior or senior student who is majoring in Special Education and demonstrates an enthusiasm for working with the handicapped. It is awarded on the basis of community involvement, leadership, scholarship financial need and a narrative statement.
Anna G. Mazzaferro '77 Opportunity Fund is awarded to an Fitchburg State College student or faculty member who demonstrates a need for financial support to advance their academic or scholarly work, such as presentation of a paper, assistance with publishing a body of work, completing a major thesis or honors work. The Fitchburg State College Foundation, in conjunction with the VP for Academic Affairs, selects the recipient.

Dr. Robert F. McGuire Memorial Award is awarded to an undergraduate and a graduate student annually from the computer science department.

Myra McGuirk-Bonitz '14, G '52 Scholarship is available annually to an undergraduate student graduating from a high school within the Fitchburg city limits who has chosen education as a major field of study.

Buddy McMurray Good Fellowship Award is given to a student whose contribution to the college is positive, salutary, and inspirational, as well as indicative of the goals he or she set by entering Fitchburg State.

John McNaney Memorial Scholarship is available to an outstanding Chemistry major.

Dorothy Meilingier Memorial Scholarship is awarded to seniors majoring in Special Education, who have a grade point average of 3.5 or above and a demonstrated financial need.

Annette Rose Mitchell Scholarship Fund is awarded to a senior Nursing student who has maintained a 3.0 gpa for three years.

Flora D. Mulholland Memorial Scholarship is awarded to a Nursing major evincing high scholastic achievement and a demonstrated financial need.

Kevin L. Mumper Memorial Scholarship is awarded to a student who is a member of the Student Government Association.

Murnane-Rheault-Crowley Scholarship is awarded to a full-time junior or senior year student who is majoring in Mathematics or Industrial Technology and who demonstrates financial need.

Dr. Helen O'Tailherty Scholarship, in honor of a former professor, is awarded annually to a student majoring in Early Childhood Education who demonstrates financial need. Membership in a minority group will confer preference. The prior year recipient will automatically receive the award if he or she maintains satisfactory academic progress under college policies.

Kathleen Mary O'Neill Scholarship is awarded to a full-time female undergraduate student who is a citizen of the United States and has a class rank in the upper 50th percentile.

The Owens-Mara Award is available to an elementary education major completing junior level work during the spring semester and selected by the education department based upon promise as a future elementary leader.

Dr. Frank Patterson Memorial Music Award is awarded to a member of the Fitchburg State College instrumental ensembles for private lesson instruction at the Indian Hill Music Center.

Dr. A.J. Polito '48 '49 and Family Memorial Trust is in honor of Fitchburg State College veterans and Fitchburg State College faculty members who have served the institution. It is awarded to a relative or friend of a Fitchburg State College veteran; to a relative or friend of a faculty member; and to a relative or friend in the Center for Italian Culture Program.

John L. Powers Memorial Scholarship is awarded to an Industrial Technology major who has maintained at least a 2.0 gpa and demonstrates financial need.

Clifford Querolo Scholarship is awarded to a student in the Industrial Technology Program or to a student who intends to teach industrial, vocational, or occupational education.

Dean Rachupka '93 Memorial Scholarship is awarded to a Senior majoring in education from North Central Massachusetts who is active in his/her community and has a gpa of 3.0 or higher.

Michael P. and Barbara Riccards Scholarship is available annually to an undergraduate student on the basis of financial need and academic record.

Louis P. Shepherd Award in Creative Writing is given annually for the year's best student portfolio of creative writing. The award is named in honor of the late Louis P. Shepherd, a longtime English professor at Fitchburg State College, and made possible through a gift from Professor Shepherd's wife, Ruth, and his daughter, Rae Shepherd-Shelechter.

M. Lillian Smith Scholarship is awarded to a student in the Education Program.

Special Education Scholarship is available annually for a Special Education major student with a 2.7 average in the major who has a financial need and is active in the Special Education Club.

Daniel J. Sullivan Scholarship is available to students demonstrating financial need.

Philip J. Tardanico Scholarship is awarded to a junior enrolled as an Industrial Technology major. The scholarship is based on academic excellence, enthusiasm for and commitment to a career in teaching; strong moral character, and financial need. A letter of reference must be submitted from a faculty member in the Industrial Technology Department.

Michael Vignale Memorial Scholarship/Trust Fund is awarded to a Chemistry major.

Dr. Burnham Walker Memorial Scholarship is awarded to a junior enrolled as an Industrial Technology major. The scholarship is based on academic excellence, enthusiasm for and commitment to a career in teaching; strong moral character, and financial need. A letter of reference must be submitted from a faculty member in the Industrial Technology Department.

Anna G. Mazzaferro '77 Opportunity Fund is awarded to an Fitchburg State College student or faculty member who demonstrates a need for financial support to advance their academic or scholarly work, such as presentation of a paper, assistance with publishing a body of work, completing a major thesis or honors work. The Fitchburg State College Foundation, in conjunction with the VP for Academic Affairs, selects the recipient.

Dr. Robert F. McGuire Memorial Award is awarded to an undergraduate and a graduate student annually from the computer science department.

Myra McGuirk-Bonitz '14, G '52 Scholarship is available annually to an undergraduate student graduating from a high school within the Fitchburg city limits who has chosen education as a major field of study.

Buddy McMurray Good Fellowship Award is given to a student whose contribution to the college is positive, salutary, and inspirational, as well as indicative of the goals he or she set by entering Fitchburg State.

John McNaney Memorial Scholarship is available to an outstanding Chemistry major.

Dorothy Meilingier Memorial Scholarship is awarded to seniors majoring in Special Education, who have a grade point average of 3.5 or above and a demonstrated financial need.

Annette Rose Mitchell Scholarship Fund is awarded to a senior Nursing student who has maintained a 3.0 gpa for three years.

Flora D. Mulholland Memorial Scholarship is awarded to a Nursing major evincing high scholastic achievement and a demonstrated financial need.

Kevin L. Mumper Memorial Scholarship is awarded to a student who is a member of the Student Government Association.

Murnane-Rheault-Crowley Scholarship is awarded to a full-time junior or senior year student who is majoring in Mathematics or Industrial Technology and who demonstrates financial need.

Dr. Helen O'Tailherty Scholarship, in honor of a former professor, is awarded annually to a student majoring in Early Childhood Education who demonstrates financial need. Membership in a minority group will confer preference. The prior year recipient will automatically receive the award if he or she maintains satisfactory academic progress under college policies.

Kathleen Mary O'Neill Scholarship is awarded to a full-time female undergraduate student who is a citizen of the United States and has a class rank in the upper 50th percentile.

The Owens-Mara Award is available to an elementary education major completing junior level work during the spring semester and selected by the education department based upon promise as a future elementary leader.

Dr. Frank Patterson Memorial Music Award is awarded to a member of the Fitchburg State College instrumental ensembles for private lesson instruction at the Indian Hill Music Center.

Dr. A.J. Polito '48 '49 and Family Memorial Trust is in honor of Fitchburg State College veterans and Fitchburg State College faculty members who have served the institution. It is awarded to a relative or friend of a Fitchburg State College veteran; to a relative or friend of a faculty member; and to a relative or friend in the Center for Italian Culture Program.

John L. Powers Memorial Scholarship is awarded to an Industrial Technology major who has maintained at least a 2.0 gpa and demonstrates financial need.

Clifford Querolo Scholarship is awarded to a student in the Industrial Technology Program or to a student who intends to teach industrial, vocational, or occupational education.

Dean Rachupka '93 Memorial Scholarship is awarded to a Senior majoring in education from North Central Massachusetts who is active in his/her community and has a gpa of 3.0 or higher.

Michael P. and Barbara Riccards Scholarship is available annually to an undergraduate student on the basis of financial need and academic record.

Louis P. Shepherd Award in Creative Writing is given annually for the year's best student portfolio of creative writing. The award is named in honor of the late Louis P. Shepherd, a longtime English professor at Fitchburg State College, and made possible through a gift from Professor Shepherd's wife, Ruth, and his daughter, Rae Shepherd-Shelechter.

M. Lillian Smith Scholarship is awarded to a student in the Education Program.

Special Education Scholarship is available annually for a Special Education major student with a 2.7 average in the major who has a financial need and is active in the Special Education Club.

Daniel J. Sullivan Scholarship is available to students demonstrating financial need.

Philip J. Tardanico Scholarship is awarded to a junior enrolled as an Industrial Technology major. The scholarship is based on academic excellence, enthusiasm for and commitment to a career in teaching; strong moral character, and financial need. A letter of reference must be submitted from a faculty member in the Industrial Technology Department.

Michael Vignale Memorial Scholarship/Trust Fund is awarded to a Chemistry major.

Dr. Burnham Walker Memorial Scholarship is awarded to a junior enrolled as an Industrial Technology major. The scholarship is based on academic excellence, enthusiasm for and commitment to a career in teaching; strong moral character, and financial need. A letter of reference must be submitted from a faculty member in the Industrial Technology Department.
Ying Jean and Sui King Yee Endowed Scholarship is awarded to a first-year Asian-American student and based upon an excellent scholastic record and demonstrated participation and achievement in school and community activities.

Scholarships for Graduate Students

Graduate students are advised to review the complete financial aid section of this catalog beginning on page 31. Consult the Financial Aid Office for eligibility requirements.

Graduate Scholarship Program

Graduate scholarships are available in varying amounts. Scholarships are awarded in the form of tuition and fee waivers. For application deadlines, processes and procedures the student should contact the Dean of Curriculum and Instruction.

Dean's Graduate Scholarship

This award recognizes and honors graduate students who have achieved academic excellence in the course of their graduate studies. Scholarships in varying amounts are awarded annually in the form of tuition and fee waivers.

Eligibility

• Students who have applied to a graduate program at Fitchburg State College and have an undergraduate GPA of 3.5 or better
• Graduate students enrolled in a graduate program, have a GPA of 4.0, and are recommended by their Graduate Advisor or the Program Chair

Application and Selection Process

To apply for the Dean's Graduate Scholarship Awards, students must submit:
• Completed Scholarship Application
• Current Dated Resume
• Recommendation of Graduate Program Chair through transcript
• Academic record/transcripts

The application and supporting materials should be mailed by February 15th to the Dean of Curriculum and Instruction.

The Carla Borg Scholarship

Available annually for a graduate student in special education who has demonstrated exemplary skills in including students with special needs as part of their school/community.

Dorothy Holmes Toporeck '28 Graduate Scholarship Program

This award recognizes and honors students who have demonstrated scholastic excellence in their undergraduate studies and who are pursuing a Master's Degree at Fitchburg State College. The scholarship is only available to graduates of the Fitchburg State College undergraduate program.

The amount of the award is determined annually. Scholarships are awarded in the form of tuition and fee waivers and may be used over a period of two years.

Eligibility

Candidates must have completed their undergraduate degree at Fitchburg State with a 3.25 GPA or better, and have been accepted into a graduate program at the College.

Students currently enrolled in a graduate program must have a GPA of 3.75, an undergraduate GPA of 3.25 or better, and be recommended by their Graduate Advisor or the Program Chair.

Application and Selection Process

To apply for the Dorothy Holmes Toporeck Graduate Scholarship, students must submit:
• Completed Scholarship Application
• Current dated resume
• Recommendation of Graduate Program Chair through transcript
• Academic record/transcripts

The application and supporting materials should be mailed by February 15th to the Dean of Curriculum and Instruction.

All scholarship applications are reviewed by the Graduate Council and recommendations are made to the Dean of Graduate Studies. Once award recipients are chosen, they are notified by the Dean and an announcement is made at the Honors Convocation.

For further information or applications, contact the Graduate and Continuing Education Office.

Graduate Assistant Program

Newly admitted and current graduate students are eligible to apply for Graduate Assistantships. The maximum amount of the award is $5500 for the academic year. The appointment and award includes a tuition waiver for 18 semester hours of graduate course work for the academic year of the award (excluding independent studies, life-long learning courses, capstones, conferences, teleconferences, directed studies, internship, practica, fieldwork, LECAP, courses by arrangement or professional development seminars and lectures sponsored by Graduate and Continuing Education). Graduate Assistants must pay all fees.

Qualifications

Newly accepted graduate students seeking appointments to Graduate Assistant positions must have an undergraduate GPA of 3.0. Continuing Graduate students must have a graduate GPA of 3.5.

Application

A completed application form, resume, and an unofficial transcript must be submitted by the applicant to the Secretary for the Dean of Curriculum and Instruction, Office of Graduate Studies, no later than the second week of May.

Load and Academic Requirements to Maintain Assistantship

• Graduate Assistants must carry a load of six semester hours of graduate work per semester (fall and spring) in their program, which is considered full time. Overloads/underloads may be petitioned to the Dean
• Graduate Assistants are required to work 20 hours per week, which is considered a full-time work schedule.
• Graduate Assistants are not allowed to secure a second paid position on campus.
All students at Fitchburg State College are expected to be familiar with and act in accordance with academic policies and procedures. The policies are interpreted and administered by the Dean of Curriculum and Instruction. Students acting outside of these policies may be subject to administrative action. Special consideration may be given to students admitted or later identified as physically handicapped, learning disabled, or economically or educationally disadvantaged.

General Course Requirements
To fulfill requirements for a Bachelor’s Degree, students must complete either the requirements of the Liberal Arts and Sciences Program (explained in the Curriculum section of catalog) or the requirements of the Leadership Academy program, as well as the requirements for their major.

The Major
Undergraduate degree candidates must declare and complete a major in one program of study offered by the college. Requirements for undergraduate majors are described in the Undergraduate Day Programs and Undergraduate Evening Programs sections.

Declaring a major
Students may declare a major when they are admitted to the college. If a change of major is desired, students must complete a change of major card available in the Registrar’s Office. For application and policies related to Educator Licensure programs, see p.98.

Pre-Majors (undeclared)
Students with 60 semester hours of college course work must apply for and be admitted to a major prior to registering for additional courses.

Transfer students with 60 or more credits when admitted as “Pre-Majors” have until either October 1 or March 1 of their first semester at Fitchburg State College to declare their major.

Requirements for a Major
A 2.0 cumulative GPA and 2.0 GPA in courses in the major are the minimum requirements for both admission to and completion of all major programs. Some majors, however, may have requirements higher than a 2.0 GPA in major courses for either entrance or completion.

Dismissal from a major
Students not making satisfactory progress in completing the academic requirements of the major may be asked to select another major.

Professional programs of study may require a departmental review of students to determine if they are qualified to continue in the major. If in the review process the student is judged as unsuitable for the profession, regardless of academic standing, the student may be asked to select another major.

Successful completion of an academic program in any major field or professional program does not obligate the faculty to recommend licensure or certification, even if the candidate is awarded the academic degree.
Grading Policy

Grades are awarded on a numerical scale as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.0</td>
<td>A Excellent</td>
</tr>
<tr>
<td>3.5</td>
<td>B+ Very Good</td>
</tr>
<tr>
<td>3.0</td>
<td>B Good</td>
</tr>
<tr>
<td>2.5</td>
<td>C+ Above Average</td>
</tr>
<tr>
<td>2.0</td>
<td>C Average</td>
</tr>
<tr>
<td>1.5</td>
<td>D+ Below Average but Passing</td>
</tr>
<tr>
<td>1.0</td>
<td>D Well Below Average but Passing</td>
</tr>
<tr>
<td>0.0</td>
<td>F Failing</td>
</tr>
<tr>
<td>IN</td>
<td>Incomplete</td>
</tr>
<tr>
<td>IP</td>
<td>In Progress</td>
</tr>
<tr>
<td>W</td>
<td>Withdrawn</td>
</tr>
<tr>
<td>AU</td>
<td>Audit</td>
</tr>
<tr>
<td>S</td>
<td>Satisfactory</td>
</tr>
<tr>
<td>U</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

All grades except 0.0, U, IN, W, and AU are passing grades and earn credit toward the degree.

Grade Guidelines

All requirements and grading standards identified in individual class syllabi must be met.

The Grade of 4.0

The grade of 4.0 implies excellence in thinking and distinguished performance within the domain of a subject and course, along with extensive development of a range of knowledge acquired through the exercise of critical thinking skills and abilities. This level work is consistently clear, precise, well-reasoned and displays depth of insight.

The Grade of 3.0

The grade of 3.0 implies sound thinking and performance within the domain of a subject and course, along with the development of a range of knowledge acquired through the exercise of critical thinking skills and abilities. This level work is generally clear, precise, well-reasoned and displays some depth of insight.

The Grade of 2.0

The grade of 2.0 implies mixed thinking and performance within the domain of a subject and course, along with some development of a range of knowledge acquired through the exercise of critical thinking skills and abilities. This level work is inconsistently clear, precise, well-reasoned and does not typically display depth of insight.

The Grade of 1.0

The grade of 1.0 implies limited thinking and performance within the domain of a subject and course, and the student displays limited critical thinking skills and abilities requisite to understanding course content. The student attempts to acquire knowledge by memorization rather than through comprehension and understanding. This level work represents thinking that is typically unclear, imprecise, and poorly reasoned and does not display depth of insight.

The Grade of 0.0

The grade of 0.0 implies poor thinking and performance within the domain of a subject and course, and the student does not display critical thinking skills and abilities requisite to understanding course content. The student relies on acquiring knowledge by memorization rather than through comprehension and understanding. This level work represents thinking that is regularly unclear, imprecise, ad poorly reasoned and is lacking depth of insight.

Computing quality points and cumulative GPA

- **Quality Points** = semester hours (s.h.) carried by the course multiplied by numerical grade. (For example, a three-credit course with a grade of 3.0 would earn nine quality points.)
- **Cumulative grade point average** = total quality points earned in all courses divided by total credit hours completed

Repeating Courses and Grade Substitution

Repeating Courses after a Failing Grade

A student may repeat a course in which the assigned grade is a 0.0 or U (Unsatisfactory). In these cases, the new grade will be substituted for the original grade in calculating the student's cumulative GPA. The original grade, however, will continue to appear on the transcript. A transfer grade of 2.0 or better eliminates the original failing grade in calculating the cumulative GPA. Because grades from transfer courses are not transferable, the new grade itself is not calculated into the cumulative average.

Repeating Courses after a Passing Grade or Audit

A student may repeat once any Fitchburg State College course for which a 1.0, 1.5, or AU is earned. Courses must be taken at Fitchburg State College and, if at all possible, should be taken within the following year.

The repeated course will be indicated as such on the student's transcript.

Satisfactory and Unsatisfactory Grades

Any course can be taken for an S/U grade with the following exceptions:

- Courses required for a major unless the department has designated them as acceptable.
- Courses taken to fulfill the LA&S writing requirement.
- Courses taken to fulfill the LA&S mathematics proficiency requirement.

and with the following limitations:

- A maximum of 12 credits of S/U can be applied toward the minimum credits required for a degree.
- Only one course in each LA&S cluster may be taken S/U.
- No more than two courses in any discipline (as identified by course-number prefix) may be taken S/U.
- Only one course per semester may be taken S/U.
- No quality points are awarded with the S/U grade.

Students must request the S/U option by the Add/Drop deadline. Once recorded, the designation cannot be changed.
Incomplete
- An Incomplete (IN) is given in lieu of a grade if a student has successfully completed at least 80% of the required course work but cannot complete the rest due to certifiable illness or the death of an immediate family member.
- Students must complete the required course work by the end of the fourth week of classes of the following semester in order to receive a grade; otherwise the IN is automatically changed to a grade of 0.0.
- While an IN is not counted in determining academic status, it may have an impact on eligibility for financial aid and athletic participation.
- Grades that result from the fulfillment of an IN will not remove a Probationary, Suspension, or Dismissal status, nor will they count toward Dean's List or President's List eligibility.

Audit
- An Audit (AU) is entered into the transcript to indicate that a student has been officially enrolled in a course for neither grade nor credit.
- Students who wish to audit a course during the day must record the audit designation with the Registrar's Office by the end of the Add/Drop period.
- Students who wish to audit a course during the evening must register the audit designation with the Registrar's Office before the third class meeting.

Withdrawal from a Course
- If a student officially withdraws from a course by the end of the eleventh week of classes, or prior to the twenty-sixth class hour for special scheduling classes in Continuing Education, a W (Withdrawn) is entered on the transcript. No credit is awarded for the course, and it does not affect the cumulative GPA.
- If the student officially withdraws after the end of the eleventh week of classes or after the twenty-sixth class hour for scheduling classes in Continuing Education, a grade of 0.0 is entered on the transcript. A waiver is sometimes granted for documented, critical extenuating circumstances.

Final Grades
Final grades for courses are available to students on-line as soon as grades are posted. Contact professors for information about the grades you receive. For more information, see www.fsc.edu/registrar.

Mid-Semester Grades
Faculty will be encouraged to submit a mid-semester grade for all students that are achieving at the 1.5 grade level or lower, and/or are not attending their classes. The grades should reflect student achievement to date on graded assignments by the 8th week of the semester.

Transcripts
Unofficial transcripts are available to students on-line. Official transcripts may also be requested on-line. Each student receives one official transcript free of charge. For each additional transcript, there's a $5.00 fee. For more information, see www.fsc.edu/registrar.

Attendance
Each instructor has the prerogative to place a value upon class attendance and must inform the class of that value early in the semester. The instructor's class-attendance standard should be stated in the course syllabus. If a student is absent from a class meeting, the student is required to produce appropriate documentation for the instructor's review.

Section 2B of Chapter 151c of the General Laws of the Commonwealth of Massachusetts reads as follows:
A ny student in an educational or vocational institution, other than a religious or denominational educational or vocational training institution, who is unable, because of religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination or study or work requirement, and shall be provided with an opportunity to make up such examination, study, or work requirement which may have been missed because of such absence on any particular day; provided, however, that such makeup examination or work shall not create an unreasonable burden upon the school. No fees of any kind shall be charged by the institution for making available to the said student such opportunity. No adverse or prejudicial effects shall result to students who avail themselves of the provisions of this section.

Academic Standing
All courses completed at Fitchburg State College, including those taken during winter or summer sessions, determine current academic standing. The grades and credit for wintersession and summer courses are included in the student's gpa.

Credits transferred from another institution are applied to a student's total number of credits earned, but grades earned from transferred credits are not calculated into the cumulative gpa.

Good Academic Standing
To achieve good academic standing, students must:
- Maintain an overall cumulative gpa of 2.0 or higher
- Maintain a cumulative gpa of 2.0 or higher in the major
- Meet any additional requirements of the major which have been approved by the All-College Committee and are consistent with college policy

Honors
Fitchburg State College honors students who have high academic achievement throughout their college career as well as at graduation. The honors are:
President’s List
Honors students for consistently high academic achievement. Students are named to the President’s List when they have attained a semester average of 3.75 or higher for three successive semesters while maintaining full-time status. Incompletes do not count toward the President’s List.

Dean’s List
Honors students who have attained an average of 3.2 or better for the semester while maintaining full-time status. Incompletes do not count toward the Dean’s List.

Summer Dean’s List
Students taking 12 semester hours or more through Continuing Education during the summer sessions who maintain an average of 3.2. These students can be named to the President’s List if they meet the specified cumulative average.

Graduation Honors
Graduation honors recognize outstanding academic careers as signified by a high cumulative average. To graduate with honors, a student must have completed at least 60 credits with a numerical grade at the College.

Summa Cum Laude honors students who graduate with a cumulative GPA of 3.8 or higher.
Magna Cum Laude honors students who graduate with a cumulative GPA of 3.5 to 3.79.
Cum Laude honors students who graduate with a cumulative GPA of 3.2 to 3.49.
A Commonwealth Scholar Special Distinction is given to students who have completed the Leadership Academy (Honors Program) and a senior thesis.

Suspension
Any student who earns a grade point average of 1.0 or lower in his/her first semester of full-time study at Fitchburg State College will be suspended from the college. In all other cases, students will be suspended if they have spent at least one semester on probation and do not meet the following GPA and credit criteria:
- A student who has attempted fewer than 33 semester hours and has a cumulative GPA below 1.6 after two semesters
- A student who has attempted 33-59 semester hours and has a cumulative GPA below 1.8 after four semesters
- A student who has attempted 60 credits and has less than a 2.0 cumulative GPA

Suspended students are not eligible to enroll in any credit course in any division of Fitchburg State College for at least one semester. Following suspension, students must submit a letter requesting re-admission before the deadline established by the Registrar. Students who are readmitted after a suspension do so under contract with the Dean of Undergraduate Studies. Suspension status is not changed by a voluntary withdrawal.

Dismissal
Once students have been readmitted after a suspension, they must meet probationary standards and do so under contract with the Dean of Undergraduate Studies for enrollment to avoid dismissal. Dismissal status results in permanent dismissal from all divisions of Fitchburg State College. A dismissed student may not enroll in any credit courses in any division of the college for a period of 5 years.

Students placed on probation for the first time will remain eligible to:
- Hold elected or appointed office
- Serve on campus committees
- Participate on athletic teams (provided academic progress meets the criteria in Section 1)

Any additional probations will disqualify a student from eligibility for these activities.

Students who voluntarily withdraw from the college while on probation will remain on probation if they are readmitted.

Students who maintain the college’s academic standards for probation must also meet the financial aid and athletic eligibility requirements for satisfactory academic progress. (Financial aid and athletics have additional academic requirements for probationary students. Students should consult the appropriate office to determine their eligibility.)
Credit Elimination Policy
The Credit Elimination Policy applies to students who leave the College and desire to return after five or more calendar years. Such students may eliminate all or part of previously earned credits from their transcripts, in units of one semester or more. When a particular semester of credit is designated to be eliminated, all credits from this semester must be eliminated.

This policy requires that:
• Credit elimination may only occur once
• A request for credit elimination must be in writing
• The Dean of Curriculum and Instruction must approve the request

Transfer Credit
Credit received for courses completed at other regionally accredited institutions of higher education may be transferred to Fitchburg State College and applied toward degree programs if:
• The courses are equivalent to courses offered by Fitchburg State College or appropriate to programs at Fitchburg State College
• The grade received was at least a 2.0 (C) or higher

Credit for courses transferred with passing grades below 2.0 may be approved in exceptional circumstances or if the credits are included as part of an Articulation Agreement/Associate's Degree program covered by the Commonwealth of Massachusetts Transfer Compact or the Joint Admissions Program.
• A maximum of 60 SH credit from 2 year institutions, college level examinations, military will be considered for transfer
• A maximum of 75 SH of credit will be considered from 4 year baccalaureate institutions

Value of transferred credit
• Transferred credits count only as credit hours earned
• No quality points or grades are transferred or calculated in the student's cumulative GPA
• A minimum of 45 semester hours toward a baccalaureate degree must be completed at Fitchburg State College
• For students with one major degree program and one or more minors, no more than 50% of major credits and 50% of minor credits can be completed as transfer credits. For students with two major programs (double majors), up to two-thirds of the credits (67%) in one of the two majors may be accepted as transfer credit, upon the advice of both major advisors and with the approval of the Department Chairs and the Dean of Curriculum and Instruction. At least 50% of the two majors combined must be Fitchburg State College coursework (that is, any additional courses accepted as transfer credit for one major must be balanced by additional Fitchburg State College coursework in the second major).
• Major departments may have additional requirements

Approval of transfer credit may be authorized by the Registrar, the Dean of Curriculum and Instruction, or the Dean of Education.

Academic Dishonesty Policy
Academic dishonesty in all its forms, including cheating, fabrication, plagiarism, and the facilitating of academic dishonesty by aiding and abetting any of the aforementioned, is not tolerated at Fitchburg State College. Violators will be subject to the following process.

Step One
• Within ten days of the discovery of the alleged offense, the faculty member involved will contact the student, inform him/her of the circumstance in question, and arrange a meeting to discuss it.
• If the faculty member finds the student responsible for the alleged behavior, he/she will write a statement, either during the meeting with the student or within seven days of it, indicating the alleged dishonesty, his/her judgment regarding it, and the sanctions, if any, to be imposed.
• If the student is found not responsible, he/she will be notified in a statement written by the faculty member as described above.
• In either case, the student will sign the statement, indicating either that he/she accepts the outcome or that he/she has seen the statement but does not accept the outcome. The student gets a copy of this statement, and the faculty member retains the original as part of his/her records for the class.

Students found responsible for the alleged behavior based upon the evidence presented may be subject to one or more of the following sanctions by the faculty member:
• Be required to complete additional course requirements; this may include repeating part or all of the work in question.
• Receive a grade of 0.0 for the course
• Receive a grade of 0.0 for the work in question.

Step Two
When the faculty member has taken the action described under #4 above, the faculty member agrees that the disposition of the case, including the imposition of any actions, will be determined by the Committee. Once a case is referred to the Committee on Academic Dishonesty, the procedures and timelines of the Student Judicial Code apply.

The Academic Dishonesty Committee is composed of two faculty members appointed for a one-year term by the MSCA faculty union, two student members of the Student Conduct Board, and an administrator from the Office of Academic Affairs, who will chair the committee.
Step Three
When the student believes that the accusation made and/or the sanctions imposed by the faculty member are unfair, he/she may take the case to the department chairperson. The chairperson will arrange a meeting with the student and the faculty member. Within ten days of this meeting, the chairperson will notify the student and the faculty member in writing of his/her opinion on the case.

If the student is dissatisfied with the outcome of an appeal to the chairperson, he/she may appeal the case to the Committee on Academic Dishonesty. This process is initiated by contacting the Dean of Student and Academic Life or another administrator in the Office of Academic Affairs.

Cases may be referred directly to the Committee when the student(s) accused of academic dishonesty is not in the class of the discovering faculty member or when a student(s) wants to bring a case against another student(s).

Students found responsible* for the alleged behavior by the Committee may be subject to the following actions:
- Have the sanction(s) imposed by the faculty member lessened
- Have the sanction(s) imposed by the faculty member upheld
- Receive a grade of 0.0 for the work in question
- Receive a grade of 0.0 for the course
- Be required to perform some kind of service to the college community
- Be referred to the President of the college with a recommendation of Suspension
- Be referred to the President of the college with a recommendation of Expulsion

Students found not responsible* for the alleged behavior by the Committee will be recompensed in one or more or all of the following ways:
- All work which had been in question will be accepted
- The sanction(s) imposed by the faculty member will be removed

An opportunity to redo part or all of the assignment or exam in question will be granted when the Committee finds that a seeming act of academic dishonesty was unintentional and the result of a lack of understanding of proper procedure.

* Rules of Evidence do not apply in college hearings. Evidence "beyond a reasonable doubt" is not necessary for a student to be found responsible. The Committee will be asked to determine, from the case presented by both sides, which side has more evidence to support its position.

Undergraduate Day Policies and Procedures

Course Registration

Approval of Course Schedule
Prior to course registration each semester, students must meet with their advisor to review their academic progress and to develop a course schedule for the upcoming semester. Advisors must approve course selections before the student is permitted to register.

Identification of Class Standing
For the purpose of registration and financial aid, the following classifications are identified:
- Freshmen ........ students with between 0-24 earned credits
- Sophomores .. students with between 25-48 earned credits
- Juniors .......... students with between 49-72 earned credits
- Seniors ............ students with 73 or more earned credits

Add/Drop
During the first six class days of the semester, students may either add or drop a course. Although students may make changes to their schedule during the Add/Drop period without the approval of their advisor, they should confer with their advisor when making changes that affect their progress towards graduation or fulfillment of their major requirements.

Course Withdrawal
Through the eleventh week of the semester, students may withdraw from courses and receive a W (Withdrawn). Appropriate forms are available at the Registrar's Office and must be signed by the course instructor, the faculty advisor, and, if the student is dropping below 12 semester hours, the Dean of Curriculum and Instruction. Withdrawal after the eleventh week results in a grade of 0.0.

Course Load
Graduation requirement: a minimum of 120 semester hours in all majors (See Undergraduate Day Programs)

Full-time status: a minimum of 12 semester hours each semester

Students must maintain full-time status to remain eligible for financial aid, varsity athletics, academic honors, including Dean's List, participation in student governance, VA benefits, scholarships, and health insurance coverage. Both day and continuing education courses are included in calculating total semester hours.

Maximum allowable course load: 18 semester hours

Students registering for more than 18 semester hours (whether solely at Fitchburg State College or in conjunction with courses taken at another college) must have the permission of the Dean of Curriculum and Instruction along with their major advisor. A student with a cumulative gpa below 3.0 will normally not be granted permission to register for more than 18 semester hours. Students taking overloads without permission may be denied credit for overload courses, regardless of grades earned.
Four-year undergraduate degree: at least 15 semester hours per semester are recommended for graduation in four years. Certain majors may require enrollment in specific courses or with specific course loads in certain semesters; students are responsible for understanding requirements for their major.

Program enrollment: Under certain circumstances, day program students may be permitted to enroll full time for a semester through the Continuing Education programs, and vice-versa. Approval for such enrollments must be granted by the Dean of Undergraduate Studies.

Withdrawal from the College
Students who withdraw from the college, either during or between semesters, must complete a withdrawal form with the Dean of Student and Academic Life. Students who withdraw within the first eleven weeks of the semester will receive a “W” in each course.

Students who leave the college after eleven weeks of the semester will receive a grade of 0.0 or “U” in all their courses unless granted a waiver by the Dean of Student and Academic Life for documented extenuating circumstances.

Students withdrawing in good standing may apply for readmission to the Registrar before May 1 for fall semester or November 1 for spring semester. Readmission is not guaranteed. The Registrar will consider academic, financial, and college discipline records, in addition to space available, when granting readmission.

Students must complete the registration process prior to the start of classes of the semester they wish to be readmitted.

Student Grievance
A student who is dissatisfied with a grade received or with any other aspect of instruction in a particular course is to confer with the Instructor, who will explain the reasons for awarding the grade. If such a conference fails to achieve a satisfactory resolution, the student should confer with the Department Chair. If still unsatisfied, the student may then appeal in writing to the Dean of Student and Academic Life to adjudicate the situation.

Undergraduate Evening Policies and Procedures

Course Registration
Students must register for courses within the curriculum requirements as set in the College Catalog of the year of matriculation. However, it is the right of the college to alter the requirements to meet statutory, educational, or professional standards.

For regularly scheduled courses, students must register before the second class meeting. Early registration is recommended for all matriculated students and applicants in order to secure seats in the courses needed to proceed in degree programs. The regular registration period ends two weeks prior to the start of the semester, with “late registration” and late charges commencing thereafter. Please refer to the semester course bulletin for specific registration dates.

Senior Level—Graduate Credit Policy
A senior level student (90 semester hours or more) with a 3.5 GPA or better may register for Graduate credit courses at the 6000 level and above with the following restrictions:

- Approval must be obtained from the Dean of Graduate Studies or designee
- Combined Graduate and Undergraduate credit load in a semester is not more than 15 hours
- No more than three Graduate credits may be taken in a semester
- Recommendation of the appropriate Undergraduate Advisor and Registrar must be submitted to the Dean of Graduate Studies for approval
- No more than nine semester hours of Graduate credit may be accumulated by a senior. Graduate credits are applicable to maintain full-time status to receive financial aid
- Graduate courses taken toward undergraduate degree requirements cannot be transferred into a graduate program at Fitchburg State College

Scheduling of Courses
The Office of Graduate and Continuing Education schedules courses at times that are convenient for working adults. Schedules are created in the academic departments in consultation with the Office of Graduate and Continuing Education. Most courses are offered in the late afternoon or evening; some courses are scheduled on weekends. Winter session and summer session courses are scheduled during mornings, afternoons, or evenings.

Course Load
Fall and spring semesters: Maximum academic load is nine credit hours.

Winter session: Maximum academic load is six credit hours.

Summer session: The maximum academic load during the combined summer sessions is 12 credit hours.

Any student registering for credit beyond the normal load must submit a written request seeking approval from their advisor prior to registering by submitting an academic petition waiver form.
**Full-time status:** Minimum of 12 semester hours each semester. Students must maintain full-time status to remain eligible for financial aid, varsity athletics, academic honors, including Dean’s List, participation in student governance, VA benefits, scholarships, and health insurance coverage. Both day and continuing education courses are included in calculating total semester hours.

**Course Changes**
Changes to courses must be made before the second meeting. No change in credit is permitted after the second meeting. After the start of the second class meeting, the dropping of a class is considered a withdrawal. A change of credit to audit status must be made before the third class meeting of a course. (Class meeting is defined as 2.5 hours.)

**Course Withdrawals**
Withdrawals without academic penalty may be made through the end of the eleventh week of classes for regularly scheduled courses and up to the twenty-sixth class hour for special scheduling courses or institute courses. Course withdrawal is initiated by calling the Registrar’s Office, or by visiting that office in the Sanders Administration Building. In either case, the student must receive a confirming copy of the completed Course Withdrawal Form. Any student who withdraws by simply not attending classes automatically receives a failing grade for the course.

**Cancellation of Courses**
The College may cancel courses for insufficient enrollment or for other reasons deemed to be in the best interest of the college. Students who sign up for a course which is canceled may transfer to another course or receive a full refund of tuition and fees.

**Withdrawal from the College**
A degree-seeking undergraduate student may initiate withdrawal from the college by contacting the Dean of Student and Academic Life. A student who does not register for a course for two years is automatically withdrawn. A degree-seeking student who decides to return to Fitchburg State College must initiate reinstatement through the Registrar’s Office.

**Student Grievance**
A student who is dissatisfied with a grade received or with any other aspect of instruction in a particular course is to confer with the Instructor, who will explain the reasons for awarding the grade. If such a conference fails to achieve a satisfactory resolution, the student should confer with the Department Chair. If still unsatisfied, the student may then appeal in writing to the Dean of Student and Academic Life to adjudicate the situation.
Fitchburg State College is committed to the academic success of its students. Several programs are available to advise, assist, and guide students, including individual advisors, the Academic Advising Center, and the Academic Success Centers. Students are encouraged to consult with any or all of these programs throughout the academic year.

Academic Advising
The Advisor is a critical resource for all students during their academic career. Every student is assigned a faculty advisor. The advisor fulfills many important functions for a student, including:
- Being the primary resource in the planning of a course schedule each semester
- Advising students regarding any problem or concern involving their academic program

Advisor Availability
Undergraduates
All faculty have at least three office hours during the week set aside for meetings with their students. Hours are posted on doors of faculty offices, in the office of the secretary of the major department, and are also available through the Office of Academic Affairs. Advisors are available for extended hours the month prior to registration each semester.

Graduate and Continuing Education Students
For general advising purposes faculty advisors are available each night, Monday through Thursday, during the semester. Appointments with advisors for general advising are made through the Office of the Registrar.

Academic Advising Center
The Academic Advising Center specializes in assisting undergraduate day students who:
- Have not declared a major
- Challenge courses via Life Experience Credit Award Program (LECAP)
- Are experiencing academic difficulty
- Are needing help in interpreting specific academic regulations

The Center is staffed by two full-time administrators chosen for their specific expertise in assisting students to make the best possible use of their academic experience.

The Advising Center, located on the third floor of the Campus Center/Library. Please refer to our website at www.fsc.edu/advisingctr 978-665-3319 or 3321.

Academic Success Centers
The Academic Success Centers are a group of programs and services that work collaboratively to support students toward their academic success and assist students to achieve their Fitchburg State College degree. The collective approach is pro-active and student centered.

Students are encouraged to investigate the programs and services and consider how the Centers' staff can assist them to address their concerns and realize their goals.
The following programs and services comprise the Academic Success Centers: Academic Advising Center, ACCESS Program and Office of Minority Affairs, Counseling Services, Career Services, Disability Services, Expanding Horizons, International Education Office, Mathematics Center, Placement Test Center, Tutor Center, and the Writing Center.

For further information, visit the Academic Success Centers web site at http://www.fsc.edu/success.

**Mathematics Center**
The Mathematics Center offers peer tutors who specialize in one-on-one tutoring on a walk-in basis. Tutoring is available for fundamentals of arithmetic and algebra through upper-level mathematics courses. Tutors will guide you and provide an explanation of the concepts and steps to solving your specific mathematics questions.

The Mathematics Center is open Sunday through Thursday evenings from 6:00 – 9:00 PM and Monday through Thursday from 10:30 AM – 4:30 PM. Students affiliated with the ACCESS Program, Disability Services and the Expanding can request individual Math tutoring by contacting the Tutor Center. All other students must use the Math Center walk-in service. A listing of specific subject specialties and tutors’ hours are posted at the Math Center and on the web site at http://www.fsc.edu/tutoring/math.

**Writing Center**
The Writing Center offers professional tutors and peer tutors who specialize in one-on-one tutoring. The Writing Center is open on a walk-in basis Monday through Thursday from 10:30-4:30. Individual tutoring can be requested for evening hours by contacting the Tutor Center.

All Writing Center tutoring begins in the same manner, with a discussion of the assignment or writing project. What happens next depends on where you are in the writing process and what your needs are. Tutors strive to help you develop your writing at each stage of the writing process. Tutors do not write on your paper! Tutors will guide you and provide an explanation of the specific aspects of your writing that you will want to improve. You are the author; together we notice problems, but you make the final decision on any changes you want to make.

The Writing Center is located on the third floor of the Library/Campus Center. For further information contact the Tutor Center at 978-665-3499 and visit our web site at http://www.fsc.edu/writingctr.

**Placement Test Center**
The Placement Test Center administers the required placement tests in Algebra, Reading, Writing and Foreign Languages for all new freshman and transfer students. Students also receive advisement on the required beginning sequence of courses appropriate for them at Fitchburg State College.

Please visit our web site at http://www.fsc.edu/tutoring and select the "Assessment Center; for further information regarding waivers, test dates, test registration and practice tests.

**Tutor Center**
The Tutor Center offers free individual peer tutoring, in a variety of subjects, designed to assist students to increase their academic performance. Tutoring sessions focus on reviewing and explaining content and concepts. Tutors also integrate note taking and test preparation strategies.

Individual Study and Learning Strategy Sessions are available. Students are assisted to craft a study plan that builds effective learning habits, long-term memory and improved note taking and test taking skills.

Test preparation workshops and individual tutoring assists students to prepare for the Massachusetts Tests for Educator Licensure Communication and Literacy Skills test.

The Tutor Center has earned the prestigious College Reading and Learning Association (CRLA) "National Peer Tutor Certification" status. This provides the Tutor Center the authorization to award National Peer Tutor Certification to peer tutors who meet the four standards of quality, (tutor training, selection, experience and evaluation) required by the CRLA.

Peer Tutors are qualified! They have earned a 3.5 or 4.0 in the subjects that they tutor. Tutors are interviewed and demonstrate excellent communication skills. Tutors receive a written reference from their professor and complete a ten-hour Tutor Training Seminar. Tutors have learned the process of effective tutoring and they integrate learning strategies within each tutoring session.

The Tutor Center is located in room 324 in the Library/Campus Center. To make an appointment to request an individual peer tutor call 978-665-3499, walk-in the Tutor Center office, or visit the Tutor Center web site at www.fsc.edu/tutoring.

**The ACCESS Program and Minority Affairs Programs**
The ACCESS Program is a highly successful state funded academic support program. This educational opportunity program, for 30 years, has provided assistance to talented, low-income and educationally disadvantaged students who possess the motivation and potential to be successful in a college environment. The students are chosen to participate in the program for their academic potential and desire to improve their academic skills.

- One-to-one tutoring (Tutor Center)
- One-to-one academic advising
- Assistance with study skills
- Financial Aid Awareness
- Assistance with reading, writing, and mathematics
- Individual/Group Counseling
- The Heritage Awards Banquet and Ball

Recruitment, retention and graduation of first generation, low-income, urban students comprise the focus of the ACCESS Program.
The Minority Affairs Program
The ACCESS Office also administers the Minority Affairs Program. Minority Affairs is responsible for the planning, development, and implementation of programs and services to improve the possibilities of success for minority students. Programs such as the Martin Luther King, Jr. Celebration, Black History Month, and Latino Awareness Month are encouraged, supported, and coordinated. Special events such as informational speakers, workshops, and social events are conducted to enhance the awareness of different cultures and foster diversity. It is our responsibility to assist the Admission Office with the recruitment and outreach activities for all undergraduate underrepresented students across the Commonwealth of Massachusetts.

ACCESS and Minority Affairs Office support the following student organizations:
- The Black Student Union (BSU)
- The Latin American Student Organization (LASO)
- The Haitian American Culture Club (HACC)

The ACCESS Programs serves Massachusetts residents who meet one of the following criteria:
- The first person in the family to attend college
- Meet the low-income criteria
- Attended high school located in or near Boston, Cambridge, Fall River, Fitchburg, Lawrence, Lowell, New Bedford, Springfield, or Worcester
- Participated in academic programs such as Upward Bound or Talent Search Educational Opportunity Center (TRIO Programs), M E T C O, or Urban Scholars
- Receive public assistance

When applying to the college, students interested in the ACCESS Programs should place a check mark in the box next to ‘ACCESS Program’ on the Student Profile of the application. The college encourages students and parents to visit the campus and meet the staff.

The ACCESS Office is located in the Gallucci-Cirio Library, room 320 in the Hammond Building. The office telephone number is 978-665-3399.

ACCESS Office hours:
- Mondays ................................................ 8:00am to 6:00pm
- Tuesdays ............................................. 8:00am to 9:00pm
- Wednesdays ....................................... 8:00am to 7:00pm
- Thursdays ........................................... 8:00am to 9:00pm
- Fridays ................................................ 8:00am to 5:00pm

Expanding Horizons
Expanding Horizons is a student support services program designed to promote the academic success of Fitchburg State College students who are from low-income backgrounds, families where neither parent has attained a baccalaureate degree, and/or students with disabilities. Funded by the federal government, Expanding Horizons is part of the nationwide network of TRIO Programs, established over thirty years ago, that have helped an estimated 2 million students to enter and graduate from college despite barriers due to race, ethnic background, socio-economic circumstances, or disability.

The Expanding Horizons Program at Fitchburg State College endeavors to create a smaller learning community within the larger campus community. EHP staff work with students to facilitate the adjustment to college and enhance their ability to attain their fullest academic potential. Towards these ends, EHP offers the following programs and services:

For freshman and transfer students:
- Extended Pre-semester Orientation Program
- Peer Mentors
- Explorations I and II (a freshman orientation course—one credit)
- Individualized Academic Assessment

For all Expanding Horizons students:
- Learning Specialist Support
- Career and Academic Counseling
- Personal Problem Solving
- Professional Developmental Writing Tutor
- Study Skills Support
- Peer and Professional Tutors
- Summer Orientation Program—preparation for graduate school
- State of the Art Computer Work Stations for student use
- Social and cultural activities
- EHP works in collaboration with all the Academic Success Centers to promote student success

To be eligible for Expanding Horizons, a student must be a citizen or national of the United States or meet the residency requirement for federal financial assistance; be enrolled or accepted for enrollment at Fitchburg State College and:
- Meet federal low income guidelines
- Be first generation to college (neither parent has achieved a baccalaureate degree)
- Be a person with a disability
- Or
- Be a person with a disability

For further information or to be a participant in the Expanding Horizons Program, come to our office on the third floor of the Hammond Building or call 978-665-3064.

International Education Office
Fitchburg State College encourages a global perspective on campus by promoting programs for international students as well as for students who want to study in another country.
Both types of students enrich the cultural and ethnic diversity of the college community. The International Education Office benefits international students, those who wish to study in another country, and those who are interested in an on-campus international experience.
Services offered to international students include assistance with their transition to college, cultural awareness programs, and guidance when completing the necessary paperwork and communications with the United States Immigration Service.
Fitchburg State College encourages students to consider a semester or a year of study in another country as part of their educational experience. The college has established a number of study abroad programs with colleges and universities throughout the world. For specific information about international study possibilities, contact the Office of International Education, 349 Highland Ave. (Highland House), 978-665-3089.

Disability Services

Disability Services is the primary support system for students with disabilities taking classes in the day and evening division. A number of services are available including an adaptive computer lab, tutors, peer mentoring, tape recorders, testing accommodations, note takers, readers, interpreters, support groups, coaching, and consultation with faculty. The adaptive computer lab houses a voice activated computer system, Braille printer, scanner with print recognition, screen enlargement programs, a closed circuit television for the visually impaired, speech synthesizers, and screen reading programs and Kurzweil 3000. Disability Services and the Adaptive Computer Lab are located on the third floor of the Hammond Building. Contact 978-665-4020 or 978-665-3575 TTY for more information or our website at www.fsc.edu/disability.

Academic Accommodations

All accommodations are provided based upon assessment of individual need. Students desiring an accommodation that will enable them to fully participate in academic or campus activities should follow these procedures:

- Submit the appropriate documentation to the Office of Disability Services from a certified diagnostician
- Meet with the Staff of Disability Services
- Complete an accommodation sheet
- Submit the completed accommodation sheet to the appropriate department

Testing Accommodations

Students with disabilities needing testing accommodations for placement exams or other standardized tests must submit requests for accommodations to the Office of Disability Services at least one week prior to the test date. Extended-time, out-of-classroom testing, oral exams, and other alternative testing are options offered to students with disabilities.

Reduced Course Load

Waivers may be available to students with disabilities who need the accommodation of a reduced course load. Waivers are granted by the Dean of Undergraduate Studies. Students with disabilities needing the accommodation of a reduced course load will not be penalized by Financial Aid or Housing.

Career Services

The Career Services Center provides a variety of programs and activities to assist students and alumni in planning for career decisions during and after Fitchburg State College. The Center provides all aspects of career guidance and counseling, as well as assists students in the school to work, undergraduate to graduate transition.

All services are accessible through the Career Services Center's web site at www.fsc.edu/careersvs. The Center is located on the third floor of the Hammond Building. We can be contacted at 978-665-3151 or careersvs@fsc.edu.

Counseling Services

The Counseling Services Office provides confidential short-term counseling to all students at no charge. Clinicians are available for individual, group and couples counseling, crisis intervention, educational programming, outreach workshops, community referrals, and in-service training.

Counseling Services offers a variety of outreach programs to educate students in the areas of sexual assault and violence prevention, body image, stress and anger management, eating disorders, and depression.

The Counseling Services Center is located on the third floor of the Hammond Building. The hours are 8:30 am to 5:00 pm, Monday through Friday. Appointments can be made in person or over the telephone (978-665-3152). Students can see a clinician without an appointment during the daily “walk-in” time, which is from 2:00 pm-3:00 pm daily, however it is strongly encouraged that students schedule appointments if at all possible.

Counseling Services provides 24 hour emergency response to the college during the regular academic year. The counselor-on-call can be reached through the Campus Police Department at (978-665-3111), or by contacting Campus Living staff.

Student Health Services

Student Health Services provides ambulatory care and health education/promotion, and maintains health records for all full-time undergraduate students at the college. Services include:

- Emergency care of acute illness and injury
- Evaluation, treatment &/or referrals as needed
- Immunizations routinely available include: tetanus-diphtheria (Td), mumps-measles-rubella (MMR), Hepatitis B, Influenza, and Meningitis Vaccine
- Tuberculin skin testing (PPD)
- Health education and health promotion
- Allergy injections ordered by student's physician (student supplies own allergy medication). Injections are administered exclusively during physician office hours.
- Women's health care, such as, breast exams, gynecologic exams, and contraception
- Men's health care
Nurse practitioners and a consulting physician provide health care.

Student Health Services is located in the Anthony Building across the parking lot from Sanders Administration Building.

Health Requirement Policy
In compliance with Massachusetts Public Law 105 CMR 220.600, the following are the immunization requirements for Fitchburg State College.

Full-time Matriculated Undergraduate, Graduate, or other category of Residential Student and International Students* studying on campus.

- Completed Fitchburg State College Health Form including a Physical Exam that has been completed within the past year;
- One dose of mumps and rubella vaccine(s) given at or after 12 months of age or serologic proof of immunity;
- Two doses of live measles containing vaccine(s) given at least one month apart beginning at or after 12 months or serologic proof of immunity;
- Or two doses of MMR vaccine given at least one month apart beginning at or after 12 months of age;
- A booster dose of Td within the past 10 years, and
- In September 2001, 3 doses of hepatitis B vaccine will be required for all full-time freshmen. This requirement will continue to be phased-in and apply to all full-time students (Freshman through Graduate) by 2005.

*International students must present proof of freedom from tuberculosis.

Part-time Matriculated Undergraduate Students in Health Sciences.
- Need the state required immunizations as stated above in # 2-5. A complete physical is not required for part-time students.

Part-time and Full-time Matriculated Undergraduate and Graduate Nursing Students
- Annual physical
- Annual PPD (TB test) and proof of a negative chest x-ray if the PPD test was positive;
- Need the state required immunizations as stated above # 2-4 plus
- 3 doses of hepatitis B vaccine and a copy of dated immune titer.

Failure to comply with these requirements will prohibit you from registering for classes.

Student Health Insurance
Every student registered for 9 or more credits is required by law to purchase health insurance. **Students must purchase the school sponsored health plan or show proof of comparable coverage in an alternate health plan in order to enroll.**

After a student registers they will receive an Enrollment/Waiver Form. All students must complete this card by either choosing to be enrolled in the Student Health Insurance Program or waiving participation by providing the policy number of an alternate insurance plan.

If you do not complete the Enrollment/Waiver Form, the college will automatically enroll you in the health plan and include the cost of the insurance in your tuition bill. You will be enrolled in the plan unless you inform the school that you do not wish to participate in the school insurance program by showing proof of comparable coverage.

If you would like more information regarding the Student Health Insurance Program you can call the Student and Academic Life Office at 978-665-3130 or visit the following web sites:

- www.state.ma.us/dhcfp/, which offers information about the Student Health Insurance Program as mandated by the Commonwealth of Massachusetts. Once entering the site click on “Student Insurance”.
- 2003-2004 Student Health Insurance Plan of the Massachusetts State College System offered by The Chickering group at www.chickering.com. Click on “Customer Service” then enter the Fitchburg State College Policy Number 711112 to access the college's specific policy.

Substance Awareness/Smart Choices Program
The Office of Judicial Affairs manages the campuswide alcohol and drug prevention efforts. A range of supportive and educational services are provided to inform students of current facts and trends in alcohol and other drugs and promote alternative (alcohol-free) activities. We focus on reducing high risk drinking and increasing the awareness of the relationship between alcohol and violence.

The office provides leadership opportunities for students, and offers a comprehensive training to volunteer Peer Educators. With the assistance of the Peer Educators, the Office achieves the following goals:

- Facilitating educational workshops and training
- Conducting yearly campus research
- Alternative (nonalcoholic) activity programs
- Co-sponsorship of campuswide awareness events such as Alcohol Awareness Week, Major Speakers, and the Health fair
- Coordinating events such as Alcohol Awareness Week, Aids/HIV Awareness Day, and the Great Smoke-out Day

McKay Curriculum Resource Center
The McKay Curriculum Resource Center provides faculty and students in Education Programs assistance in the research and development of curriculum materials, motivational tools, and evaluation and assessment devices. The Center houses textbooks, instructional aids, media materials, and computer software, which may be used in the classrooms at the elementary and secondary levels.
Child Development Center

The Fitchburg State College Child Development Center is an Early Childhood Program designed to meet the child care needs of the college community. The center-based program provides warm, loving care that meets the Standards and Areas of the National Academy of Early Childhood Programs. The Child Development Center is currently licensed to provide services to children between the ages of 2.9 years through six years. The enrollment priorities are as follows: students, faculty/staff, and community. The program is also a training site for students of the college in Early Childhood Education Teacher Training.

The program is licensed by the Massachusetts Office for Children, and is located in the McKay Campus School Teacher Education Center. The center is open from 7:30 am to 5:30 pm Monday through Friday, on a year-round basis. The Fitchburg State College Child Development Center is managed by Associated Children’s Services, Inc., a private agency. For more information about the program, call 978-343-9149.

Campus Police Department

The Campus Police Department is committed to maintaining the highest level of community policing with its basic philosophy being deeply rooted in service to the entire college community. The Department operates 24 hours a day, 7 days a week utilizing cruiser, bike, and walking patrols of the entire campus and employs many students in various capacities.

Student Security Team/Student Escort Service

The Student Security Team of the Campus Police Department provides escorts anywhere on campus and within a ten minute walking radius of the campus. The Student Security Officers work in pairs and have direct radio communications with Campus Police Officers. Student escorts are available from 10pm to 1am, seven nights a week during the school year. Escort requests at other times are handled by Campus Police Officers. To request an escort, please call (978) 665-3111.

Emergency Call Boxes

Located throughout campus at strategic spots are emergency call boxes with blue lights that connect directly to Campus Police. An officer will immediately be dispatched to your location.

Crime Prevention Programs and Presentations

Campus Police makes numerous presentations to students on a whole range of issues including theft, rape, alcohol and drug abuse. The nationally recognized R.A.D. (Rape Aggression Defense) Program is offered free of charge to female staff, students and faculty by certified R.A.D. instructors from Campus Police. We also provide the campus with personal safety whistles, and to those individuals in more difficult situations, Screecher emergency alarms and 911 emergency phones.

Operation Identification Program

Record the serial numbers, model numbers, brand names and description of personal property. Engravers and forms are available from Campus Police to mark personal property as a theft deterrent.

Parking Regulations

Fitchburg State College provides parking facilities for over 1,000 vehicles. The college requires that all vehicles utilizing the parking facilities must display the proper identification sticker. Stickers may be obtained at the Campus Police Department located in Russell Towers on Authority Drive.

Resident students may have vehicles on campus. Along with a required sticker, residential students must adhere to specific parking regulations.

Handicapped Parking Permit

All permanently disabled motorists who wish to utilize the college's handicapped parking facilities need a parking permit from Campus Police as described above and also should display a State issued handicapped plates. Motor vehicles displaying a state issued parking permit or state issued plates are eligible to park in all designated college handicapped spots.

Fitchburg State College Shuttle Bus and Additional Parking

The Campus Police Department oversees the college shuttle service which continuously transports students, staff and faculty to and from the Wallace Civic Center parking lot (John Fitch Highway) and the main campus. The Fitchburg State College shuttle operates non-stop from 7am to 6:30pm on class days during the academic year.

Motorist Assists

Dead battery, keys locked in your vehicle are events with which Campus Police can provide assistance. Call 665-3111 or use an emergency call box.

Campus Police Website

For additional information about the Campus Police Department, please visit us at www.fsc.edu/campuspolice.
Fitchburg State College maintains that emotional, physical, social, and spiritual growth extends beyond the classroom and into the total campus environment. The college offers individuals and groups a variety of avenues for self-discovery and expression. Fitchburg State students who choose to become active in campus life, by accepting new commitments and adding responsibilities, often find avenues which will direct them toward their career and other life goals. They develop significant, enduring relationships with faculty, administrators, and other students, thus establishing a support network for years to come.

New Student Orientation and Registration

The orientation program at Fitchburg State College is designed to assist incoming, full-time students in making the transition from high school or work to college. Built on a concept of “student development,” the orientation takes a holistic approach to addressing students’ intellectual, emotional, physical, social, and spiritual dimensions. Coordinated by the Student and Academic Life Office, the orientation helps both students and their families with the transition to Fitchburg State College and gives them a feeling for and identity with Fitchburg State College, as follows:

- Students focus on testing, academic advising, and registration for classes
- Students are introduced to campus life and services available to them through a variety of programs and activities
- The Family Program gives valuable information about the college, as well as tips for easing students’ and family members’ transition to Fitchburg State College

The orientation program consists of one registration day during the summer and a 5 day program prior to classes in the fall. All new students receive advance notification and information about the program and are expected to attend.

Campus Living

On-Campus Housing

Fitchburg State College offers a variety of housing options within the six residence halls/complexes. The halls range from traditional residence halls, high-rise buildings, suites and apartment style units. The residence halls at Fitchburg State provide more than just a roof over your head and three square meals a day. Each hall/complex has its own unique attributes but they all provide you a place to socialize, interact with your fellow students and most importantly, a place to study.

Living on campus is also very affordable when you consider all the things included in your housing contract, such as utilities, maintenance, local telephone service that includes call waiting, and voice mail. All residence hall rooms are connected to the College computer network (one port per resident), which provides students with access to the internet and e-mail. Cable television along with a movie channel is also included in every room. Campus Living also offers a number of additional services such as a linen program, especially designed for the extra long beds in the residence hall rooms.
All the residence halls are located conveniently on the perimeter of the main campus. The halls are grouped in two areas: East Campus, which consists of Mara Village, the Townhouses, and the Cedar Street House, West Campus, which consists of Aubuchon Hall, Russell Towers and Herlihy Hall. Each area is staffed by a full-time professional staff member who is responsible for overseeing the operations and staff. Each building is staffed with a building director and resident assistants (RA). All these individuals are available to assist students in working out living arrangements, guide residents in adjusting to campus life, and serve as educational and social programmers, building managers, and resource/referral aides.

Additional questions concerning on-campus housing should be directed to the Office of Campus Living, Aubuchon Hall 978-665-3219.

Student Activities, Organizations, and Volunteer Center

Student Activities and Hammond Campus Center
The Student Activities and Hammond Campus Center coordinates the co-curricular programs and activities, and the operations of the Campus Center building. The Department is committed to enhancing students' educational experiences through the development of, and participation in diverse programs and leadership activities. The Hammond Campus Center endeavors to serve as the focal point of the campus, bringing together members of the Fitchburg State community.

The Student Activities Office and the Hammond Center are the hub of extracurricular events on campus. The office is committed to the principles of leadership development, enhancing student life outside the classroom, and to providing cultural and social opportunities. The office maintains many resources about the college student organizations and the numerous opportunities open to individual students.

Student Organizations

Student Government Association (SGA)
The purpose of the Student Government Association as set forth in its constitution is:

“...to be the democratic ruling body for and by the students, whose main goals are to unite the student body and address their various needs; to secure and defend the rights and freedoms necessary for our full participation in the educational process; to ensure the civil rights of the membership; to be a voice for the student body to the faculty, administration, and the community at large.”

As the official voice of the students, the Student Government Association plays two important roles for the student body:

- Participates in campuswide committees as well as state and national student organizations
- Governs the many committees responsible for student affairs, activities, and clubs

The governing body of SGA is the SGA Council, which is comprised of an Executive Board and Commuter's Board. Elections for positions on these boards are held every spring for the upperclass members and in the fall for freshmen. The SGA offers a number of services to its members, including programming, photocopying, and legal advice. Student participation is welcomed and encouraged.

Clubs, Fraternities, Sororities, and Other Groups
The college is proud to support a wide variety of student organizations that encompass a broad spectrum of interests. Participation in student organizations is encouraged to round out the academic experience and develop skills which will last a lifetime.

Membership in college clubs and organizations is open to all full-time Fitchburg State College students who have paid the student activities fee. For meeting times and locations, contact the Campus Center/Student Activities Office.

A list of the organizations on campus includes:

**Academic National Honor Societies**
- Alpha Lambda Delta (Freshman Honor Society)
- Alpha Delta Omega (Human Services)
- Epsilon Pi Tau (Industrial Technology)
- Kappa Delta Pi (Education)
- Lambda Pi Eta (Communications)
- Omicron Delta Epsilon (Economics)
- Sigma Theta Tau (Nursing)
- Sigma Tau Delta (English)
- Phi Alpha Theta (History)
- Psi Chi (Psychology)

**Academic Interest Groups**
- Associated Builders and Contractors
- Associated General Contractors
- Biology Club
- Chemistry Club
- Communications/Media Club
- Computer Science and Math Club
- Debate Club
- Early Childhood Club
- Elementary/Middle School Education Club
- English Club
- Geo Club
- Leadership Academy Club
- National Association of Homebuilders
- Nursing Student Association
- Psychology Club
- Special Education Club

**Fraternities**
- Sigma Pi
- Sigma Tau Gamma
Sororities

Volleyball Club

Musical Groups
Fitchburg State College offers a variety of musical programs for both the musician and the music lover.

- **60-piece Concert Band** performs music of all types, from the transcriptions of classics to contemporary sounds.
- **Jazz-Rock Ensemble** features big band, jazz, rock, and experimental music for stage bands.
- **FSC Concert Choir and Chamber Choir** performs a wide selection of mixed-voice choral pieces.

Whenever instrumentalists are available, small ensembles of various instruments, including brass, woodwind, and recorder, get together to play.

Religious Life
Many churches, synagogues, and other religious congregations are located within walking distance of the campus. In addition, the Newman Center student parish, whose modern center was built with the help of Fitchburg State Industrial Arts students, provides a spiritual and social gathering place for many students. The Center, which hosts many student functions throughout the academic year, is located on Highland Avenue, adjacent to the college.

Intercollegiate Athletics
The Department of Athletics at Fitchburg State College, supported by the General Student Fee, offers every student an opportunity to participate on intercollegiate athletic teams. These opportunities enhance the academic experience by providing healthy competition at a high level of skill.

Intercollegiate Sports
The Fitchburg Falcons varsity teams have enjoyed national and regional recognition as highly competitive NCAA Division III teams. The fifteen varsity teams represent men and women in both indoor and outdoor competition. Fitchburg State is a member of eighteen intercollegiate Athletic Associations, which entitles successful teams to participate in tournament and championship play. Fitchburg State College is a charter member of the Massachusetts State College Athletic Conference (MASCAC), which includes seven other state colleges.

The Student-Athlete Advisory Committee, composed of students and cochaired by the Director of Athletics, oversees the Intercollegiate sports program. They provide direction and insight to meet the interests, needs, and abilities of the student body in concert with Title IX and gender equity.

The college offers three seasons of Intercollegiate varsity competition as follows:

**Fall Season**
Competition runs from early September through early November:
- **Men:** football, soccer, cross-country
- **Women:** soccer, field hockey, cross-country
Winter Season
Competition runs from November to early March; practice starts in late October or early November
- Men: hockey, basketball, indoor track
- Women: basketball, indoor track

Spring Season
Competition runs from late March through early May; baseball and softball practices start in early February, and the teams often travel to Florida for spring break. Track and field practice starts once indoor track has finished its season.
- Men: track and field, baseball
- Women: track and field, softball

Information regarding preseason tryouts and team meetings is available in the Athletic Department and on the Athletic Department website at www.fsc.edu/athletics.

Athletic Eligibility
Students who wish to participate on intercollegiate teams must be full-time students and be making "satisfactory progress toward a baccalaureate," defined as successful completion of:
- 24 semester hours of course work prior to entering their third full-time semester
- 48 semester hours of course work prior to entering their fifth full-time semester
- 72 semester hours of course work prior to entering their seventh full-time semester

Full or part-time status shall be determined by the end of the Add/Drop period. Students are required to successfully complete 24 semester hours of course work during their previous two full-time semesters to remain eligible. See Academic Policies and Procedures section for academic requirements. In addition to Fitchburg State College academic requirements, students must meet the requirements of the NCAA, ECAC, and MASCAC.

Recreational Services
The Recreation Center is the "Hub" for active Recreational activities at the College. Activities offered within the Center are both structured and informal, and are designed to satisfy the needs of all students. A dynamic Recreation Services program is offered at the Recreation Center, Coolidge Park, and through the Outdoor Adventure Program. Recreation Services offers opportunities for all students to participate in a wide range of activities.

The sports offered help to meet the recreational needs and requests of the college community and include: volleyball, floor hockey, basketball, wiffleball, soccer, wallyball, softball, inner-tube water polo, racquetball, flag football and bowling. Promotional flyers are posted throughout the campus during the year to inform students as to when they should submit their team entry forms for each sport. Team Entry forms are available at the Recreation Center and in the Hammond Campus Center affixed to the Recreational Activities bulletin board, and should be submitted to the Assistant Director for Programming.

Students who prefer something more informal and non-structured have many opportunities to use the (14 hours per day of choices) state-of-the-art fitness center, the private dance/aerobics studio, the aquatic center, the arena, the racquetball courts or the suspended jogging track. Favorite activities are: group fitness classes, pick-up basketball, club volleyball, racquetball, handball, wallyball, weight training (free weights and selectorized circuits), cardiovascular training (steppers, treadmills, elliptical trainers, bicycles), lap swimming, water volleyball, water aerobics, aqua jogging, fitness walking, and much more!

Recreation Services Department 665-3683.
Student Code of Conduct and Discipline System

Student Code of Conduct

Fitchburg State College recognizes that students or guests, as members of society and citizens of the United States of America, are entitled to respect, consideration, and guaranteed freedoms of speech, assembly, and association under the U.S. Constitution. The college further recognizes the students' right within the institution to freedom of inquiry and the responsible use of the services and facilities of the college.

Students at Fitchburg State College have a responsibility to act in a manner that promotes the well-being, respect, safety, and security of all members of the college community. Behavior, whether on or off-campus, that calls into question a student's suitability as a member of the academic community, or places college members at risk, will not be tolerated. Such behavior will result in disciplinary action ranging from a warning to dismissal.

The complete text of the Student Code of Conduct is found in the Undergraduate Student Handbook which is available at the Student and Academic Life Office.

Student Discipline System

The goal of the Student Discipline System is to support the educational mission of the college by insuring that an atmosphere of acceptance, curiosity, and integrity is maintained on the campus. By educating and enforcing mature and responsible behavior, the Student Discipline System promotes students' respect for the rights of others, their receptivity to new and challenging ideas, and civil and courteous behavior. The complete text of the Student Discipline System is found in the Undergraduate Student Handbook, which is available at the Student and Academic Life Office.

Good Neighbor Policy

Students who reside in or visit the college neighborhood are expected to demonstrate respect and concern for all members of the local community. As such, Fitchburg State College expects students to demonstrate responsible citizenship in the local neighborhood by participating in any of the several community service opportunities available for students. Contact the Volunteer Center for more information.

To support the goal of being "good neighbors," the following conduct (and any other of a like sort) will not be tolerated and will constitute violations of college policy for which students are subject to being disciplined whether the conduct occurs on or off the campus:

- making excessive or unreasonable noise
- sponsoring parties for profit (the illegal sale or distribution of alcoholic beverages, which may include the use of tickets, tee-shirts, mugs, cups and/or any other items as a price or condition of admission)
- sponsoring excessively large parties
- serving minors alcohol
- disorderly conduct, harassment of neighbors, defacing or damaging property, throwing objects out windows
- public drinking, public urination
- using, selling, or distributing illegal drugs
- interfering with the City of Fitchburg Police or utility agencies in the performance of their duties
- using, selling, manufacturing, or distributing fake IDs

Students who violate college policy and/or federal, state, or local law and, by so doing, call into question their suitability as members of the college community, are subject to the ruling of the Student Discipline System in addition to the appropriate body of federal, state, or local law. If found responsible, students are subject to sanctions up to and including loss of residence or suspension or dismissal from the college.
Directions to the College

Fitchburg State College is located in a residential section of Fitchburg, the urban center of North Worcester County. It is approximately 25 miles north of Worcester, 50 miles west of Boston and 15 miles south of New Hampshire. The compact campus of 32 buildings on 48 acres is easily accessible by car, bus, or train from all areas of New England.

**By car:** From within Massachusetts: Take Interstate 91, 190 or 495 to Rte. 2 to exit 32. Follow Rte. 13 north (toward Lunenburg) to Rte. 2A (about four miles), then take a left toward Fitchburg. At the intersection of 2A and the John Fitch Highway (about 1-1/4 miles), turn right, pass through a set of blinking lights and, at the next stop light, turn left onto Pearl Street. The college is located about 1/4 mile up Pearl Street.

From New Hampshire: Take Rte. 12, 13 or 31 to Fitchburg. Follow city map insert.

From Connecticut: Take either Interstate 91 or 84 to the Massachusetts Turnpike, exiting north on to Interstate 290 in Auburn. Follow 290 to Interstate 190 north to Rte. 2, exit immediately at exit 32 and follow directions given above for Massachusetts locations.

From Rhode Island: Take Rte. 146 north to Interstate 290 through Worcester exiting onto Interstate 190. Follow instructions for Massachusetts locations.

**By bus or train:** Daily MBTA trains to and from Boston stop on Main Street in Fitchburg. Cross Main Street to North Street. The college is three blocks north. See insert map. Trailways buses from Pittsfield, Springfield and Worcester also stop on Main Street near the MBTA Station. Follow walking directions above.

Buses from Boston stop at the intersection of Rtes. 2 and 12. Cab or local bus service to the college is available from that stop.

If you have any questions, please call 978-345-2151.
Buildings and Grounds
Located in the unique three-mountain area known as the Montachusett region, Fitchburg State College features a traditional New England quadrangle graced by historic brick buildings. Residence units, academic buildings, the library/campus center, auditorium/theater, dining commons, recreation center, and other facilities are all within a short walking distance from one another. Just north of the campus is a 36-acre athletic and recreational area as well as the McKay Campus School. Other outdoor recreational opportunities are available in the 120-acre conservation area spanning three neighboring communities. A new athletic and recreation complex on the south end of campus officially opened in September 2000.

Campus Facilities
All students are encouraged to utilize the many campus services and facilities available, including the computer center, athletic facilities, library, and many others. Access to these facilities often requires a valid One Card, which can be obtained at ACMS on the second floor of the Onion Industrial Arts Building. ID Cards should be validated every semester.

The Amelia V. Gallucci-Cirio Library
The Amelia V. Gallucci-Cirio Library, www.fsc.edu/library, located in the Hammond Building, is a comprehensive information center dedicated to the educational development of students. A knowledgeable staff and easily accessible print and electronic collection promotes the interaction between students and resources available to them. The main library serves the undergraduate and graduate programs. A second library, located in the McKay Campus School, serves the McKay teachers, staff, and children. There is easy off-campus access to databases for all students and a wide variety of services for distributed learning students (www.fsc.edu/library/distance.htm) including on-site instruction, document delivery, online and voice mail reference, and research guides.

Library Services
Library Hours
Monday–Thursday, 8:00 AM–10 PM; Friday, 8:00 AM–5 PM; Saturdays, noon–6 PM; Sundays, 1 PM–10 PM
Semester hours, holiday hours, exam hours, winter session hours, and summer hours are posted in the library on the Library Home page and at ext. 4478.

Services
• Access to the library’s services are available from any computer on and off-campus via the Library Home Page.
• Online Public Access Catalog, containing the listing of Fitchburg State College’s 235,000 books and 1,400 periodical titles.
• Easy access to 10,500 full text on-line periodical titles.
• Free access to approximately 87 electronic on-line databases (encyclopedias, indexes/abstracts, directories, etc.) representing all disciplines on campus.
• Approximately 40 WEB sites representing all disciplines on campus.
• Resources in Education Collection (ERIC), a comprehensive updated Education library system consisting of 436,000 items, including on-line access from 1995 to the present.
• A Distance Learning button for library services on the Library Home Page.
• Six month borrowing period for faculty.
• Interlibrary loans for students and faculty.
• Faculty and students have free borrowing privileges with the other 29 Massachusetts Public Higher Education Libraries and the academic libraries of Worcester county.
• The Library Instruction Program is housed in a state of the art classroom.
• Seventy-five hours of reference desk availability.
• Electronic Library Reserves-A WEB based reserve service allowing access from any computer location.
• The Special Collections Department houses the college’s archives and the manuscript collections of Robert Cormier and Robert Salvatore.

Students are encouraged to call for complete schedule information. Service for the collection is provided by five professional librarians, who assist at the Library Information Desk and also conduct library instruction classes for the college community. To arrange for such a session students can contact the staff at the Library Information Desk at 978-665-3223.

Campus Center
The Campus Center serves as a gathering place for both commuter and resident students. Located in the Hammond Building, the Center’s facilities include:
• Campus Information Center
• Commuter Cafeteria
• Art Gallery
• Ground Zero Game Room
• College Bookstore
• Underground Pub
• Post Office
• Meeting and Function Rooms
• Offices of the Student Government Association, the student newspaper, The Point, and the Student Leadership Club Room, and other student organization offices.
• Volunteer Center
• Leadership Commons

Computer Facilities
Campus Pipeline
Campus Pipeline is an online gateway to personalized information, news, e-mail, and communication tools for students, faculty and staff. In addition to checking your e-mail, you can access a calendar tool, check campus events and access student and faculty services through BannerWeb.

Computer Labs
The hours and locations of open computer labs are listed on the website and are updated each semester. These hours are subject to minor changes due to course additions/deletions and because of individual workshops, training and special classes.

For questions regarding Hardware/Software support in the open labs contact the Information Technology Service Center at x4500.

Hammond PC Lab
The lab currently has 25 PCs and 10 G3 Macintosh computers.
- Hours for the Hammond PC Lab can vary depending on holidays/vacations. The lab schedule follows the Library hours. Closing time is one-half hour before the library closes.

Hammond Mac Lab
This lab contains 25 Power Macintosh computers.
- Hours for the Hammond PC Lab can vary depending on holidays/vacations. The lab schedule follows the Library hours. Closing time is one-half hour before the library closes.

McKay C-175/C-177 PC Lab
This lab features 20 Pentium computers and 10 Pentium PCs and a mobile instructor podium equipped with a computer, video projector and sound system. The two computer classrooms are alternately scheduled to ensure the availability for classroom teaching and individual use at all time.

McKay B-147 Mac Lab
This lab features 21 G3 Macintosh computers, a ceiling mount video projector, a VCR and surround sound system.
- Closed holidays

E-Mail
Faculty, staff and students at the college are entitled to an fsc.edu e-mail address. To apply for an account call or visit the IT Service Center.

Service Center
The IT Service Center is the clearinghouse for all campus technical support issues. Faculty and staff can call the ITSC for phone and onsite service for the following:
- Banner account processing and support
- Web/Banner account maintenance and service
- Pipeline user support
- Blackboard account support
- Login/password administration
- E-mail account distribution, support and upgrades
- Printer, peripheral and hardware support
- Software installation, support and upgrades
- Antivirus software distribution/administration
- Hardware/software quotes and recommendations
Information Technology Systems
IT Systems is responsible for managing the campus network and administrative software development and maintenance.

Network Operations Center
- Administrative (AdminNet) and resident (ResNet) network management and support
- Managed (firewall and bandwidth) Internet access
- Telephone systems maintenance and support

Data Center
- Administrative server management and support (Banner, Web, E-mail, etc.)
- Departmental server hosting

Software Development
- Banner maintenance
- Database administration
- Applications development and programming

Adaptive Computing Lab
The Adaptive Computing Lab addresses those students with special computing needs. Housed in the Hammond Building (third floor), it contains equipment needed to provide large print, braille, voice-operated computing, talking scanners, and other software and hardware.

Computer Science Department
The Computer Science Department has additional equipment dedicated for use in that discipline, including:
- Electronic hardware and prototyping equipment to support both analog and digital laboratories
- Small microprocessor systems that allow students to work on design experiments that would be impossible or, at least impractical, on larger computer systems
- Computer networks and labs including SPARC workstations running Solaris, and Intel PCs with Windows and a Novell network

This provides students with state-of-the-art systems and design equipment currently being used in industry. These computer laboratories also provide the students with access to the Internet as well as a Web server for developing their own home pages.

Visit Fitchburg State College's home page at http://www.fsc.edu

McKay Campus School, Teacher Education Center
The McKay Campus Schools serves as the Teacher Education Center at Fitchburg State College, as well as a public elementary school for the city of Fitchburg. This dual mission adds a uniqueness to the teaching and learning atmosphere at McKay. This collaboration with higher education is a partnership that brings professionals together in our school setting to share:
- responsibility for the preparation of new teachers
- the professional development of experienced classroom teachers
- the professional development of university faculty serving as teacher educators
- the support of research directed at improvement of practice
- enhanced student learning for our elementary students

Media
IT provides support for a variety of media services and equipment including:
- Campus cable TV
- Multimedia equipment check in/out
- Equipment repairs and troubleshooting
- Multimedia classroom support and cart support
- Media production/event coverage

Telecommunications
IT Systems is responsible for managing, servicing, and maintaining the campus telecommunication system. Services include:
- Daily functioning of all telephones
- Add voicemail for all students
- Coordinate hardware installations and modifications
- Install cable lines as necessary

On-Campus Housing
A variety of resident housing options are available for students who choose to live on campus. The six campus residence halls provide housing for more than 1400 students. All residence halls are centrally located to classrooms, offices, the library, computer laboratories, auditoriums, and the Campus Center. Situated adjacent to the residence halls is Holmes Dining Commons, where various meal plans are offered to residence hall students. For specific information on resident housing, please refer to the Campus Living section of the catalog.
One Card
In September 2003 the new “One Card” system replaced the old campus IDs. The new digital identification cards is used for library privileges, access to the Recreation Center and Chartwell’s dining, and limited access to residence halls.
In the future, One Card will be used for printing and copying services as well as vending and laundry machines.

Athletic/Recreation Facilities
Fitchburg State College has a wide range of indoor and outdoor athletic and recreation facilities.

- **Recreation Center:** This state-of-the-art recreational facility opened in September 2000. The facility includes the following areas:
  - A 1,000 seat NCAA Basketball/Volleyball arena
  - Three teaching stations/intramural courts
  - Suspended Jogging Track
  - 25 yard, 6 lane Swimming Pool
  - A Dance/Aerobics Studio
  - Fitness Center (Circuit Weight Machines, Free Weight Machines, and Cardiovascular Machines)
  - 2 Racquetball/Handball Courts
  - Classrooms
  - Exercise Science Laboratory
  - Sports Medicine Center
  - Teaching Stations
  - Locker rooms, Laundry, and Storage Areas
  - Athletic Department Offices
  - Exercise and Sport Science Department Offices
  - Recreation Services Offices

- **Robert Elliot Complex:** Located on Pearl Hill Road, the complex is the site of the outdoor athletic facilities, including the baseball, soccer, football, and field hockey fields, a chem-turf track and tennis courts.

- **George Wallace Civic Center:** The ice hockey team practices and competes at the Civic Center on John Fitch Highway.

- **McKay Campus School:** Some intramural events are held in the gymnasium at the Campus School.
The Athletic Department schedules the use of outdoor campus athletic facilities, while the Director of Recreation Services schedules the use of the various areas within the Recreation Center.

Biological Sciences Nature Preserve
Nadine Martel Nature Preserve consists of 3.2 acres of land adjacent to the McKay School campus on Rindge Road. The parcel was given to the college in 1999 by Nadine Cookman Martel of Fitchburg for use as an environmental laboratory in undergraduate Ecology and graduate Mammalogy coursework. Students have access to an ideal stream habitat for research in Limnology, Botany and Ornithology.

Outdoor Recreation in the Montachusett Area
The name “Montachusett” is a conglomeration of the names for the three mountains that surround the College, Mt. Monadnock, Mt. Watatic, and Mt. Wachusett. Offer trails for hiking and slopes for skiing. Students are encouraged to take advantage of this rugged terrain with free rentals of cross-country skis, canoes, and tents from the Campus Center/Student Activities department. Students may also join the FSC Outing Club, which sponsors outdoor trips.

Animals on Campus
Due to health and safety considerations, no animals are allowed on campus or in campus buildings at any time. The only exceptions are assist animals and laboratory animals.
At Fitchburg State College, each curriculum or course of study has been constructed to help students develop the intellectual skills needed to analyze, interpret, and learn. The purpose of every curriculum is to assist students in recognizing the possibilities as well as the problems of their changing world, to instill within them a moral awareness of their responsibilities toward improving the quality of human life, and to prepare them for careers which will enrich their lives as they contribute to the lives of others.

Each curriculum includes a Liberal Arts and Sciences program and courses in a major field of study. The purpose of the Liberal Arts and Sciences requirements is to develop, through a variety of academic disciplines, a set of well-rounded skills that are analytic and quantitative as well as verbal and aesthetic. By concentrating in a major field of interest, students acquire knowledge of both the theoretical and the practical aspects of their subject.

Incoming Students: The Readiness Program

All first-year and transfer students will be tested or otherwise evaluated upon entrance to Fitchburg State College to determine their proficiencies in reading, writing, and mathematics. (Exams are scheduled both days and evenings throughout the academic year.) Test results may indicate skill areas which will be strengthened by a readiness program to provide new students with a solid and equal start to their college careers.

Readiness Program/Comprehensive Courses and Requirements

**ENGL 0100 Basic College Writing** — required for first-year students who score 7 or lower on essay and if they have no transfer credit equivalent to Writing I and/or Writing II.

Students who score 12 on the essay will be exempted from Writing I and should enroll in ENGL 1200, Writing II.

**MATH 0100 Basic Mathematics I** — required for students who score below 50 on the Placement Exam.

**MATH 0200 Basic Mathematics II** — required for students who score below 82 on the Placement Exam. Transfer students who fail the mathematics examination will not be required to take these courses unless they wish to enroll in a mathematics course at the 1000-level or above.

Credit for READ 0100, ENGL 0100, MATH 0100 and MATH 0200 is considered Institutional Credit only; that is, the credit will not count toward graduation, but will count toward full-time status for purposes of financial aid and athletic eligibility. Additionally, the grades received in these courses will be counted in each student’s Grade Point Average.

Foreign Language Placement Exam Requirement

This required assessment is designed to assist students to achieve their foreign language education goals. French, German, and Spanish tests are administered through the Internet. Immediately after the test, you will receive your results and be advised as to the proper Fitchburg State College foreign language course in which you should enroll based on your placement score.

Latin is a pencil and paper exam. A Latin score that places the student higher than Intermediate Level 2 satisfies the Foreign Language graduation requirement for the Bachelor of Arts degree or the Leadership Academy program. All other Latin scores will be used to recommend the appropriate level Latin course that can be taken through the Worcester College Consortium during the Fall or Spring semesters. Information on these courses can be located at [http://www.cowc.org](http://www.cowc.org). Fitchburg State College does not currently offer courses in Latin.

Students planning to take French, German, Spanish, or Latin are required to take a placement test if they meet one of the following conditions:
• Completed a high school level French, German, Spanish, or Latin course
• One of these languages is your native language or you have had experience with the language

Students who have not had any formal or informal experience with a foreign language do not need to take the placement test, but may register for French for Beginners (FREN 1000); German for Beginners (GER 1000); Spanish for Beginners (SPAN 1000); or Italian for Beginners (ITAL 1000).

Common Graduation Requirements
In order to be eligible to graduate with a baccalaureate degree from Fitchburg State College, the following general requirements must be met:
• Successful completion of an appropriate discipline-based evaluation chosen by the department and approved by the Vice President for Academic Affairs
• Successful completion of at least 120 semester hours of course work; 45 of these must be attained in residence (normally including the senior year)
• A cumulative gpa of 2.0 or higher
• A minimum of 2.0 average in major course of study*
• An application for graduation must be filed with the Registrar’s Office by January 1 of the year of anticipated graduation
* Some majors require a major gpa higher than 2.0 for graduation.

Graduation
Degrees are awarded by Fitchburg State College in January and May of each year.

Students may petition the Associate Vice President for Academic Affairs to participate in the annual graduation ceremony if they have a maximum of two courses, up to 12 credits to complete.

Liberal Arts and Sciences Program Requirement
Of the 120 semester hours needed to graduate, candidates must complete a minimum of 60 hours satisfying the requirements of the Liberal Arts and Sciences Program, which includes the Readiness in English and Mathematics (if necessary) and the Constitution requirement (for teacher education majors only) as well as the following components:
• Quantitative/Scientific Cluster (“Q” symbol in course schedule)—4 courses, 1 must be in a mathematics course beyond the readiness level; one must be a science lab. (NB: 4 courses, regardless of whether they carry three or four hours of credit, must be completed)
• Ideas and Events Cluster (“I” symbol in course schedule)—three courses, one must have a historical perspective
• Human Behavior Cluster (“B” symbol in course schedule)—2 courses
• Literature, Language, and Arts Cluster (“L” symbol in course schedule)—4 courses, 1 must be in Literature and 1 must be in Arts
• Writing I & II—ENGL 1100 and 1200, or their equivalent if taken at another institution
• Health and Fitness—(See Health and Fitness Requirement under Exercise and Sport Science Program)
• Junior/Senior Writing—specific requirement(s) defined by the department of the student’s major
• Computer Literacy—specific requirement(s) defined by the department of the student’s major
• Speaking/Listening—specific requirement(s) defined by the department of the student’s major
• Interdisciplinary (“IDIS” or departmental prefix in course schedule)—two courses, one of which must be taken in the freshman year. These courses can simultaneously meet the requirements in content clusters
• Multicultural (“C” symbol in course schedule)—2 courses, which can simultaneously meet the requirements in content clusters
• Intermediate and Advanced Requirement—3 courses at the Intermediate or Advanced level in a Liberal Arts or Science discipline outside one’s major. These courses can simultaneously meet the requirements in content clusters
• Liberal Arts and Sciences Electives—4 courses chosen from among those designated as part of the Liberal Arts and Sciences Program

Candidates should be aware that the following restrictions apply with respect to fulfilling their Liberal Arts and Sciences requirements:
• Credits earned in one course cannot be divided
• Credits earned toward graduation cannot be counted twice, even though courses that satisfy Liberal Arts and Sciences requirements may sometimes fulfill the requirements of one’s major course of study

Certain majors specify which courses must be taken to satisfy Liberal Arts and Sciences requirements. Students should read the section pertaining to their selected major carefully before registering for classes.

Additional course work required for graduation from individual programs and certificates
Teacher certification or initial provisional certification requires knowledge of the Federal Constitution and that of the Commonwealth. Candidates may fulfill it by successfully completing one of the following courses:

Leadership Academy Honors Program
Leadership Academy Honors Program students complete LAS requirements through a specialized set of courses. See Leadership Academy.

Freshman Foundation Year
The courses required in a full-time, undergraduate student’s first year demonstrate that the Liberal Arts and Sciences program offers content and skills that are significant in the development of critical thinking and serve as the foundation for further learning in major areas. Along with fulfilling the Freshman Foundation courses as outlined below, every incoming freshman will be required to read two books that are related to a designated theme.
Freshman Foundation Year Program
- Writing I and Writing II
- Liberal Arts and Sciences courses in at least three clusters
- An Interdisciplinary course
- Additional courses chosen in consultation with advisor

Major Course of Study
Candidates must choose a major course of study, either at the time of enrollment or before the end of their sophomore year. The requirements of the major vary from 33 to 63 semester hours. Students must formally apply to their major by filling out a form available from the Academic Advising Center, Registrar or from the chair of the department.

Changing a Major or Degree Program
Students may change their major or degree program as long as they can meet the requirements for their new major. Frequently changing one's major increases the amount of time required to complete the baccalaureate program, and not all programs (e.g., Nursing) can accept applicants who wish to transfer to that field.

Programs having requirements for internal transfer are Communications/Media, Human Services, Clinical Laboratory Science, Nursing, and Education.

Double Major
Degree candidates wishing to earn a baccalaureate with two majors must satisfy the requirements of both programs, even if doing so requires more than 120 semester hours of study. All students receiving a BSEd must also complete a major in an Arts and Sciences discipline.

Double major candidates
- Enroll for the second major as they did for the first
- Are assigned an advisor in each major
- Select which degree is to be granted—the BA, BS, or BSEd—since only one degree is permissible

Academic Minor
The academic minor is an ideal way to explore a field other than that of one's major.

Minors are offered in African-American studies, art, biology, business administration, chemistry, computer science, criminal justice, dance, economics, English, French, geography, German, graphics, history, industrial/organizational psychology, industrial science, international studies, mathematics, music, philosophy, physical education, political science, psychology, public service management, Russian studies, sociology, Spanish, special education, theater, and women's studies. (Not all minors are available in the evening.)

Although the minimum number of credits required for a minor is fifteen, the amounts vary significantly from discipline to discipline, as do the prerequisites. See the “Undergraduate Programs” section of the catalog for further information.

Degrees Offered
Fitchburg State College offers three undergraduate degrees:
- Bachelor of Arts
- Bachelor of Science
- Bachelor of Science in Education

Each degree has its own specific requirements for graduation. Students may be awarded only one degree unless they have fulfilled the provisions for a double degree.

Double Degree
Students wishing to earn two bachelor's degrees may do so by satisfying the degree requirements for the two programs prior to receiving the second degree. They must earn 30 semester hours credit beyond the 120 hours required for the first degree.

Three-Year Degree Program
In 1996, Fitchburg State College began offering selected students the opportunity to complete their bachelor's degree in three years. This program is primarily for full-time, undergraduate students in the Interdisciplinary Studies major, although some other majors may be available.

Students who enter this program must have completed at least six credits through Dual Enrollment, Advanced Placement examinations, CLEP examination, or transfer credits.

For further information, contact the Admissions Office.

Program Alternatives
Students may take advantage of a number of program options designed to help degree candidates tailor their course of studies to best suit their individual needs.

Leadership Academy Honors Program
The Academy is a coordinated four-year honors program offering an enriched curriculum for full-time undergraduate students with very high academic achievements.

Freshmen are invited to join the Leadership Academy based on their high school grades and preparation, SAT scores, rank in class, and leadership potential.

For further information, see the Leadership Academy Program in the Undergraduate Day Programs section.

Transfer students, those transferring from other two or four-year colleges, and students who have been at Fitchburg State College for one semester to a year may apply for acceptance to the Leadership Academy. These students will typically complete the Leadership Minor. External transfer students should contact Admissions for acceptance. Internal transfers should contact the Director of the Leadership Academy.
**Life Experience Credit Award Program**

The Life Experience Credit Award program (LECAP) recognizes that some students may have acquired knowledge and skills through life experiences as well as through formal credit courses. This program allows students the opportunity to ask that their life experiences be evaluated as educational experiences and credited toward an undergraduate college degree. Credit may be awarded for academically verifiable college-level learning acquired through professional experiences, service, noncredit structured and community learning and educational travel. For further information call 978-665-3321 or 978-665-3319.

**Independent Study**

Independent Study allows students to step outside of course offerings and explore a specialized area of study in a challenging and new environment. Students are encouraged to seek out Independent Study opportunities under the guidance and supervision of a professor in whose specialization they wish to study. A regularly offered course cannot be given as independent study. Independent study programs and the amount of credit earned from them must meet the approval of the professor, the advisor, and department chair involved, with final approval coming from the Dean of Curriculum and Instruction. A GPA of 2.5 is required for application. Usually, only three credits of independent study per semester may be attempted.

**Directed Study**

Directed study allows a student to carry out a non-research project or participate in an activity under the direct supervision of a faculty member. In exceptional circumstances, it can be used to offer an existing courses to an individual student. All directed studies require a 2.5 cumulative GPA, written application from student, and approval of faculty sponsor, advisor, department chair and Dean of Curriculum and Instruction.

**Study Abroad Opportunities**

Through the Office of International Education, Fitchburg State College students have the exciting opportunity to study in another country. Affordable semester and summer programs are offered in several locations throughout the world including the U.K., Australia, Spain, France, Ireland, Finland and Quebec. Several types of financial aid can be applied to most of these programs. Students work with the Director of International Education, their advisor and the registrar’s office to have their coursework from an overseas university approved before they leave the U.S. For further information, please contact the Office of International Education at 978/665-3089.

**CAPS: College Academic Program Sharing**

CAPS allows students the opportunity to enroll in up to 30 semester hours of courses at another state college without going through formal registration procedures, thus giving them a chance to enjoy a more varied educational experience.

To participate in this program, degree candidates must:

- Have attained sophomore status
- Have spent at least one semester in residence at Fitchburg State College
- Be in good academic standing
- Attain approval to enroll in CAPS from the chair of their major department prior to registering for the semester
- Contact the Registrar’s Office for approval if their major is undeclared
- File a CAPS request with the Registrar’s Office

**Worcester Center for Professional Crafts**

Fitchburg State College and the Worcester Center for Professional Crafts have a collaborative arrangement by which students may take courses in the Liberal Arts and Sciences at Fitchburg State College, and may receive credit under the Fitchburg State College transfer policy for courses taken at the Worcester Center for Professional Crafts.

**Indian Hill Music Center**

Fitchburg State College and the Indian Hill Music Center have a collaborative agreement by which students may take private lesson instruction at Indian Hill for college credit. See department chair, Humanities, for more information.

**College-Level Examination Program (CLEP), Defense Activity for Nontraditional Educational Support (DANTES), Departmental Examinations**

Students entering Fitchburg State College with college-level training or experience can be tested on college course material to earn credit toward their degree. The Fitchburg State College examination program is especially valuable for individuals who have had learning experiences outside the college classroom (employment experience, life experience, independent study, etc.) which may come to bear upon their formal academic training.

On the CLEP exams, Fitchburg State College adheres to the standards established by the American Council on Education granting credit for tests on which a score of 50 has been achieved. This credit is awarded only to students enrolled at degree programs at Fitchburg State College.

For further information on the Fitchburg State College examination program, contact the Career Services Center, 3rd floor, Hammond Building, 978-665-3151.

It is possible to gain up to 60 college credits through the program for all majors except Criminal Justice. Criminal Justice majors can earn no more than 12 credits through examination.

**Advanced Placement**

For students who score 3, 4, or 5 on the Advanced Placement Examination, the College grants advanced placement status and credit in the area tested. See the Academic Glossary for the Advanced Placement Courses accepted.

**Professional Development Center**

Fitchburg State College believes that excellence in education practice must be supported beyond the conferring of degrees and professional licensure. The Professional Development Center (PDC) is a key element of the College’s total strategy to support educators during the critical years of induction into the education profession and beyond. To address this goal, the PDC offers an extensive array of high quality professional development activities to public and private school.
teachers, counselors, administrators, and other school personnel in North Central Massachusetts. The activities of the C center range from the identification and provision of enrichment courses, workshops, conferences, and other activities to aid educators in strategic planning, implementing school system restructuring, initiating and accomplishing systemic reform, and enriching school curriculum.

In addition to providing leadership in district staff development planning, the Professional Development Center sponsors and manages major conferences on Best Teaching Strategies, conferences for Vocational/Technical High School Teachers and, in concert with the College Board, training for Advanced Placement High School Teachers.

The existence of a responsive PDC at Fitchburg State College enables the College's education programs to collaborate with individual schools or school districts on critical issues. Planned PDC activities provide ongoing and continuously enhanced support services for Fitchburg State College graduates and other educators seeking to remain informed and updated on the latest in education policies and practices.

Fitchburg State College Extended Campus Center

The Extended Campus Center provides quality educational opportunities to constituents seeking professional development and/or formal study in academic degree programs offered through Fitchburg State College. Working within the Office of Dean of Education, and collaboratively with faculty, school administrators, industry leaders, and various educational enterprises, Extended Campus Programs coordinate the delivery of undergraduate and graduate courses at off-campus locations.

Currently, Extended Campus Programs has well established collaborative relationships providing degree, certificate and professional development programs with the Merrimack Education Center in Chelmsford, the Jon Jenmarc Agency in Brockton, Project ERR in Middletboro, Rollins Griffith Teacher Center in Boston, NYPRO in Clinton, Research for Better Teaching in Acton and the May Center in Chatham. Additionally, professional development courses and institutes are offered through partnerships with school districts, museum schools, educational collaborators and private entities.

Co-Step Program

Fitchburg State College, in collaboration with Middlesex Community College and the Lowell Public Schools, was awarded $1.25 million in funding from the U.S. Department of Education for a project entitled “Creating Certification Opportunities for Strengthening Transitional Bilingual Education Paraprofessionals.” This program builds upon an existing working partnership and focuses on extending Middlesex Community College’s certificate program and associate degree career ladder program for paraprofessionals to a baccalaureate degree and teacher licensure in elementary and special education (pre-k-8) licensure.

Paraprofessional Career Ladder Program

Fitchburg State College in collaboration with Worcester Public Schools and Quinsigamond Community College has replicated the Co-Step Program Model. This initiative is funded through a Board of Higher Education (BH&E) “No Child Left Behind” grant. In addition, these grant funds provide financial support for graduate students teaching under DOE waivers to pursue licensure in Special Education.

Distance Learning Center

The Distance Learning Center at Fitchburg State College provides students the opportunity to complete college coursework at a distance from the college. Distance Learning courses are offered in a variety of ways. The two most common means are over-the-air courses, taught with a connection to a Fitchburg State instructor (these may involve some on-campus meetings), and courses taught over computer network, in which the student is assigned a faculty mentor who communicates with the student, guides the student's progress and evaluates student work. Distance Learning courses originating from Fitchburg State are taken by students both within and outside the United States. Courses are offered on both the bachelor’s and master’s levels. Students register for these courses through Graduate and Continuing Education programs by calling the Registrar’s Office. Appropriate tuition and fees apply.

Behavioral Sciences, Human Services Program: Policies Governing Student Admission, Review, Retention and Dismissal, and Internship Eligibility

Admission to the Human Services Program

Students may enter the Human Services Program either by declaring it as a major upon admission to the college (as a freshman or an external transfer) or by transferring into Human Services from another major at Fitchburg State College (internal transfer, including readmission from another major at Fitchburg State College).

Transfer into Human Services necessitates a determination of suitability for a career in the human services field, which will be assessed in an interview with one or more Human Services faculty, and meeting the following academic standards:

- at least a 2.0 cumulative grade point average overall;
- a minimum cumulative grade point average of 2.5 in all required LAS information courses taken prior to applying for the transfer (i.e., General Psychology, Abnormal Psychology, Human Growth & Development, Introduction to Sociology);
- a minimum cumulative grade point average of 2.5 in all Human Services core courses taken prior to applying for the transfer (i.e., Introduction to Human Services, Research Methods in Human Service Practice, Interviewing Techniques, Group Work, Assessment & Intervention, Professional Issues in Human Services, Management of Case Process); and
- individual grades of at least 2.5 in all of the Human Services skill component courses taken prior to applying for the transfer (i.e., Interviewing Techniques, Group Work, Assessment & Intervention, Management of Case Process).

THETHETHETHETHETHE CURRICULUM
Review, Retention and Dismissal
Human Services Review Committee (HSRC)
Members of the Committee are full-time faculty who teach and/or advise students in the Human Services Program. The HSRC is responsible for implementing all student-related policies of the Program.

Progress Assessment
All students will be subject to retention review by the Human Services Review Committee following completion of each of the skill component courses. Retention will be based upon suitability for a career in the human services field, specifically:

- a cumulative grade point average of at least 2.5 in required LA & S information courses (General Psychology, Abnormal Psychology, Human Growth & Development, Introduction to Sociology);
- skills in written and oral communication, and computer literacy, as exhibited by a cumulative grade point average of at least 2.5 in appropriate courses or by demonstration;
- a cumulative grade point average of at least 2.5 in required Human Services core courses (Interviewing Techniques, Group Work, Assessment & Intervention, Professional Issues in Human Services, Management of Case Process);
- individual grades of 2.5 or higher in the four skill component courses (Interviewing Techniques, Group Work, Assessment & Intervention, Management of Case Process); and
- appropriate emotional stability and interpersonal behavior, as demonstrated in classroom deportment and a minimum grade equivalent of 2.5 in evaluations of each of the student’s field practice (practicum) experiences (150 hours minimum).

Students whose cumulative grade point average in Human Services core courses falls between 2.0 and 2.49, and whose grade in each skill component course is at least a 2.5, will be reviewed for retention in the Program, and a written remedial plan may be developed by the Human Services Review Committee in conjunction with the student.

Students whose cumulative grade point average in Human Services core courses is 2.0 or less, and students who receive a grade of less than 2.5 in a skill component course (Interviewing Techniques, Group Work, Assessment & Intervention, or Management of Case Process) will automatically be reviewed, and a remedial plan will be developed if advisable. A student who receives less than a 2.5 in any two of these four skill component courses will be reviewed and dismissed. In addition, students who fail to complete a remedial plan developed by the Committee and students who fail to demonstrate appropriate emotional stability and interpersonal behaviors will be reviewed for dismissal from the Program.

If student dismissal from the Program is warranted after review by the Committee, the student will be informed in writing as to: (a) the reason for dismissal, and (b) the procedure for appeal. The Human Services Review Committee will notify the Chairperson of the Behavioral Sciences Department, who will then recommend to the Dean of Undergraduate Studies that said student not be retained in the Human Services Program.

Internship Eligibility
Successful completion of Internship is required for graduation from the Human Services Program. Admission to the major does not guarantee a student entry into Internship. Eligibility for Internship is based upon the following requirements and criteria:

General Requirements
- Student attends the scheduled meetings for Internship planning and registration, and required preparatory workshops on practical interviewing and resume writing during the semester before Internship is undertaken.
- Student completes the Internship application process within the scheduled deadlines. (Failure to adhere to deadlines may result in a student being denied admission to Internship.)
- Student has current professional liability insurance coverage (automatic upon enrollment in the Internship course).

Students must meet the following eligibility criteria:

- a cumulative grade point average of at least 2.5 in required LA & S information courses (General Psychology, Abnormal Psychology, Human Growth & Development, Introduction to Sociology);
- skills in written and oral communication, and computer literacy, as exhibited by a cumulative grade point average of at least 2.5 in appropriate courses or by demonstration;
- a cumulative grade point average of at least 2.5 in required Human Services core courses (Interviewing Techniques, Group Work, Assessment & Intervention, Professional Issues in Human Services, Management of Case Process);
- individual grades of 2.5 or higher in the four skill component courses (Interviewing Techniques, Group Work, Assessment & Intervention, Management of Case Process); and
- appropriate emotional stability and interpersonal behavior, as demonstrated in classroom deportment and a minimum grade equivalent of 2.5 in evaluations of each of the student’s field practice (practicum) experiences (150 hours minimum);
- positive recommendations from a majority of Human Services faculty;
- no incomplete grades or unresolved failures in any Human Services core courses or electives, and no probationary status in the Human Services major;
- successful completion of the courses Group Work, Assessment and Intervention, and Management of Case Process at least one semester before undertaking Internship;
- a minimum of 150 hours of supervised practice in field experiences (course related practica), including at least three different types of experience in at least two different placements/settings;
- twelve semester hours with a minimum of three faculty members in the Human Services Program; and
- if a transfer student, meets the residency requirement of at least one full semester of course work in the Human Services Program following admission to the Program and prior to the semester in which Internship is to be conducted.
During the sophomore year, students must achieve a grade of 2.5 or better in each NURS course. In the event of one failing grade (less than 2.5) in one NURS course, the student:  
1. Must withdraw from all NURS courses for the following semester.  
2. Must enroll in NURS 4703 Critical Thinking Course and achieve a grade of 2.5 or better in this course.  
3. Has the option of repeating the one failed NURS course provided the above steps have been completed.  

Students may repeat only one nursing course throughout the entire program. Failure to achieve a grade of 2.5 or better when the course is repeated will result in dismissal from the major. Any subsequent grade of less than 2.5 in any other nursing course will result in dismissal from the major.

Students will be required to take nationally normed tests throughout the curriculum and to make a satisfactory score on such tests. These tests may also count for a portion of course grades. In the last semester of the curriculum, students will be required to take a comprehensive exam and to make a satisfactory score on such an exam prior to graduation/taking the licensing exam. The student is responsible for testing fees associated with these exams.

**Progress Review Policy: Criminal Justice Program**

If a student's gpa in the CJ Core/CJ Required Liberal Arts and Sciences courses fall between 2.0 and 2.49, the students will be reviewed for retention in the program, and a remedial plan developed, if advisable. The Criminal Justice Review Committee (CJRC) will make the decision, taking into account the student's gpa in the major, the student's overall gpa, and the student's appreciable ability to perform in the profession. If a remedial plan is not advisable, the student will be dismissed from the major and advised accordingly in writing as to the reasons for the dismissal and the procedures for appealing the decision. The CJRC will notify the Chair of the Behavioral Sciences Department, who would then notify the Dean of Curriculum and Instruction that the student would no longer be retained in the major. Students in the major may repeat a CJ Core/CJ Required course in which they have achieved a failing grade one time. Failure to achieve at least a 2.0 when the course is repeated results in dismissal from the major. Students may appeal these decisions by bringing the issue to the attention of (1) the Criminal Justice Review Committee; (2) the Chairperson, Department of Behavioral Sciences; (3) the Dean of Curriculum and Instruction.

**Nursing**

All students in the nursing major must achieve a grade of 2.5 or better in the following prerequisite courses: BIO L 1200 Anatomy and Physiology I; BIO L 1300 Anatomy and Physiology II; CH EM 1100 Pre-Biochemistry I; and CH EM 1200 Elements of Human Biochemistry & Organic Chemistry to be eligible to enroll in any nursing course.

In addition, in order to progress to any nursing course (commencing with NURS 2900) with a clinical component, students must achieve a grade of 82 or above on the Accuplacer Math Readiness Exam. Students failing to achieve a minimum score of 82 must complete Basic Math I and/or Basic Math II with a grade of 2.5 or better.

During the sophomore year, students must achieve a grade of 2.5 or better in BIO L 2700 Survey of Microorganisms and BIO L 1650 Nutrition in order to progress to all junior nursing courses.

**Progress Review Policy: Communications Media Program**

- It is the responsibility of all Communications/Media students to meet with their advisors each semester for pre-registration advisement and progress review. During that review, the student's progress through the curriculum is discussed, with particular attention paid to whether or not the student is maintaining the 2.5 gpa or higher required to participate in the capstone internship experience.

- Any student with gpa below 2.5 in the major who has completed the two introductory theory courses—Message Design, and Systems and Theories of Communication—and the first three required courses in his/her concentration will be referred to the Chair with the recommendation that the student be dropped from the Communications/Media concentration.

- Any transfer student who has transferred 9 or more credits toward the major must earn a gpa of 2.5 or higher in the first two required courses in his/her Communications/Media concentration or be referred to the Chair with a recommendation that he/she be dropped from that concentration.

- Students who are recommended to be dropped from a concentration may petition the Chair in writing to a) switch to another Communications/Media concentration (capacity permitting at the time of the petition); or b) appeal the advisor's drop recommendation. If, with respect to (b), the Chair decides to uphold the advisor's drop recommendation, the student may appeal that decision to the Dean of Curriculum and Instruction.

- Students must maintain at least a 2.5 gpa in Communications/Media coursework to qualify for the capstone internship experience.

- The internships are described in detail in the Communications/Media Internship Handbook.
Undergraduate Day Programs

The College has seventeen Academic Departments, each headed by a Department Chair. Each department has responsibility for one or more majors or degree programs, tracks within the major and minors. In the following section, the requirements for majors and minors are outlined under each discipline. Required and elective courses in each discipline are defined to help students with course selection. Academic advisors should always be consulted to ensure that courses are taken in the appropriate sequence and are fulfilling all the requirements needed for graduation. Students should make an appointment with the Department Chairperson for special information about application for admission into a particular major or minor.

  † A liberal arts and sciences major is required for these Teacher Preparation programs.

*No applications for the CLS program are being accepted.
African-American Studies

Chairpersons
Michael Turk
Janice A. Alberghene

Objectives for the African-American Studies Program
The interdisciplinary program in African American Studies provides courses which examine the cultures, history, and literature of African-American peoples. This course work provides students with new perspectives on the significant roles played by these peoples.

Requirements for the Minor in African-American Studies
This interdisciplinary program requires a minimum of 18 credits. Students may use no more than two of their major courses toward the minor.

Required Courses
AAST 1000 Introduction to African American Studies
Select One:
AAST/HIST 2300 African American History
AAST/HIST 2930 Modern African History
AAST/HIST 2520 African American Women's History
Select One:
AAST/ENG 2670 20th Century African American Literature
AAST/ENG 2650 Other Voices
Electives (select 3)
AAST/HIST 2300 African American History
AAST/HIST 2930 Modern African History
AAST/HIST 2520 African American Women's History
AAST/ENG 2760 African American Literature
AAST/ENG 2650 Other Voices
AAST/HIST 2930 Modern African History
AAST/HIST 2520 African American Women's History
AAST/ENG 2650 Other Voices
AAST/ENG 2660 19th Century African American Literature
AAST/HIST 2670 20th Century African American Literature
AAST/SOC 2510 Peoples and Cultures of Africa
AAST/MUSC 3800 History of Jazz
AAST/PHED 1310 African Jazz Dance
Independent Study, Directed Study, or Topics courses that are pertinent to the minor can be selected in consultation with the coordinators of the African-American Studies Minor.

Art
Chairperson
James Colbert

Professors
Donna Bechis Petri Flint
Susan W. adsworth

Objectives for the Program in Art
The art program provides undergraduates with a variety of studio and art history courses to increase their aesthetic awareness and skills.

Requirements for the Minor in Art
The minor in art requires a minimum of 18 semester hours, including the following:

Required Studio Course:
Select One:
ART 1300 Intro to Studio Art
ART 1400 Drawing

Required Art History Courses
Select one:
ART 1100 Art Appreciation
ART 2900 Nineteenth Century Art
ART 3300 History of Architecture
ART 3700 Women, Art and Society or any other art history course
The remaining 12 semester hours may be taken from approved art electives. At least two courses must at or above the 2000 level.*

Biology
Chairperson
George Babich

Professors
Margaret Hoey Christopher Cratsley
Dorothy Boisvert Howard Thomas
Natalie Stassen

Objectives for the Program in Biology
The Biology Department offers an educational program that is sound and challenging. The program has a vibrant, dedicated faculty with a broad range of expertise in the biological sciences. The faculty serve as teacher/mentor/scholar. This provides a positive role model for Biology majors. The Department has a rich history of producing successful graduates in teacher training, biotechnology, and environmental science. The Department provides a supportive teaching/learning environment giving individual attention to students and research opportunities. Student training includes a strong foundation in bioethics which is fostered within the curriculum. Students become aware of career potentials by close association with their academic advisors. Entering Biology freshmen are invited to special orientation, learning about program expectations and opportunities in the field of biology. The Biology club provides an interface between students and the Department which allows for personal and social interactions. The department also offers courses in laboratory science for students in all other majors.

Requirements for the Major in Biology
All students in either the Bachelor of Science or Bachelor of Arts programs in Biology (exceptions listed below) are offered a required core sequence of courses. These core biology courses all involve student laboratory work to develop the skills of scientific inquiry. Students are introduced to computer applications for biological research in General Biology I and II, as part of their Computer Literacy requirement. These skills are utilized and expanded upon in their upper level biology courses. Students also develop scientific literacy through reading, writing, and talking about scientific concepts in these courses. In Developmental biology, the capstone course of the Biology core, students demonstrate their mastery of these skills as part of their Listening and Speaking and Jr./Sr. Senior Writing requirements.
BIOL 1800 General Biology I
BIOL 1900 General Biology II
BIOL 2300 Ecology
BIOL 2800 Genetics
BIOL 3250 Cell Biology
BIOL 3550 Developmental Biology

In addition, 12 semester hours of additional biology electives at or above the 2000 level are required of biology majors. Electives may be chosen in an area of specialization in consultation with a faculty advisor.

Finally, BA and BS students are required to take courses in related sciences and two courses in mathematics at or above the level of MATH 1250. BA students are required to have foreign language proficiency at the Intermediate level.

**Required Courses in Related Sciences**
CHEM 1300 General Chemistry I
CHEM 1400 General Chemistry II
CHEM 2000 Organic Chemistry I
CHEM 2100 Organic Chemistry II
PHYS 2300 General Physics I
PHYS 2400 General Physics II

Exceptions: The requirements are slightly modified for the BS in Biology/Environmental Science and the BS in Biology/Exercise Science programs.

**BS in Biology/ Biotechnology**
The Bachelor of Science in Biology/Biotechnology includes all of the core requirements for the BS in Biology. In addition, the 12 semester hours of Biology electives are replaced by Biochemistry, General Microbiology and Molecular Biology.

**BS in Biology with Initial Teacher Licensure**
Students within our Biology major can pursue initial licensure as high school Biology teachers. This program provides students with both a broad introduction to high school teaching and specific instruction in the theory, research and practice of secondary science teaching. Students engage in field-based experiences in the school setting supervised by our faculty through on-site pre-practicum experiences coupled with each teaching course and a formal teaching practicum as the capstone experience. This program is nationally accredited by NCATE and boasts graduates working in high schools throughout the region.

Students interested in pursuing Initial Teacher Licensure must apply for formal admission to the program. For information about undergraduate requirements in teacher preparation, see the section titled: “Teacher Preparation Programs (Undergraduate).” In addition to the required courses for the major, students in the program must take a core sequence of teacher preparation courses.

**Core Requirements**
BIOL 2860 Introduction to Secondary Teaching
SPED 3800 Secondary Programs for Adolescents (14-22) with Special Needs
ENGL 4700 Teaching Writing in Middle and Secondary Schools
BIOL 4850 Special Methods in Teaching Biology
BIOL 4860 Practicum I (150 Hrs.)
BIOL 4870 Practicum II (150 Hrs.)

Once a student has completed all requirements for professional and content specific courses, they will be eligible for endorsement in their selected field through Fitchburg State College.

**Post Baccalaureate Program in Biology, 8-12**
Students who hold a bachelor's degree and wish to become a secondary level (grades 8-12) teacher of Biology, may complete a post baccalaureate program that consists of the equivalent of a degree in biology and 18 credit hours of pedagogical coursework in education.

Students who are interested in the program must meet the following criteria:
- Evidence of a bachelor's degree
- A GPA of 2.8 or better
- Successful completion of the Massachusetts Test for Educator Licensure: Communication and Literacy Skills Sub-test

Once accepted, students will undergo a transcript review by the Graduate Program Chair or undergraduate advisor, as designated by the department and a plan of study will be developed that address:
- Courses missing (if applicable) in the subject that are equivalent to the requirements for the major will be determined through a transcript review. Students will complete all requirements of the major and license as identified in the undergraduate program.
- Courses as identified below in the teacher preparation program (pedagogy courses):

When courses are in a student's plan of study, he/she will complete the plan of study at the undergraduate level, or at the graduate level if the equivalent is offered.

Once the licensure program is completed, students can request admission to the graduate program after completing additional admissions requirements as designated by the department.

**Required Education Courses**
BIOL 2860 Introduction to Secondary Teaching
ENGL 4700 Teaching Writing in Middle and Secondary Schools
SPED 3800 Adolescents with Special Needs
BIOL 4850 Special Methods in Teaching Biology
BIOL 4860 Practicum I (150 Hrs.)
BIOL 4870 Practicum II (150 Hrs.)

Once a student has completed all requirements for professional and content specific courses, they will be eligible for endorsement in their selected field through Fitchburg State College.
BS in Biology/Environmental Science
The Bachelor of Science in Biology/Environmental Science includes all of the requirements of the BS in Biology with the exception that Organic Chemistry I and II are replaced by Elements of Physical Chemistry (ENSC 3000) and Environmental Analysis (ENSC 4000) and the required four biology electives are replaced by Field Techniques in Environmental Science I and II (ENSC 2000 and 2001) and Internship (ENSC 4950).

Requirements for the BS in Biology/Environmental Science
*BIOL 1800 General Biology I
*BIOL 1900 General Biology II
CHEM 1300 General Chemistry I
CHEM 1400 General Chemistry II
PHYS 2300 General Physics I
PHYS 2400 General Physics II
*BIOL 2300 Ecology
*BIOL 2800 Genetics
*BIOL 3250 Developmental Biology
ENSC 1000 Introduction to Environmental Science
ENSC 2000 Field Techniques in Environmental Science I
ENSC 2100 Field Techniques in Environmental Science II
GEOG 2100 Geology
ENSC 3000 Elements of Physical Chemistry
ENSC 3450 Exercise Testing and Programming
ENSC 4950 Internship

* These core biology courses all involve student laboratory work to develop the skills of scientific inquiry. Students are introduced to computer applications for biological research in General Biology I and II, as part of their Computer Literacy requirement. These skills are utilized and expanded upon in their upper level biology courses. Students also develop scientific literacy through reading, writing, and talking about scientific concepts in these courses. In Developmental Biology, the capstone course of the biology core, students demonstrate their mastery of these skills as part of their Listening and Speaking and Jr./Sr. Writing requirements.

BS in Biology/Exercise Science
The Biology Bachelor degree in Exercise Science is different than the Exercise and Sport Science degree offered by the Exercise and Sport science Department. The B.S. exercise science in biology shares common course requirements with the BS degree except for the substitution of Anatomy and Physiology I & II for General Biology. Students are prepared for employment in the fitness industry, including the corporate, hospital or commercial setting. Many students go on to graduate programs in either Biology or exercise related disciplines. e.g. Physical Therapy. This major provides a strong foundation in the biological sciences which then supports a multifaceted series of courses such as exercise physiology, adaptations, nutrition and heart disease offered by the Exercise and Sport Science Department.

BIOL 1800 General Biology I
BIOL 1200 Anatomy and Physiology I
BIOL 1300 Anatomy and Physiology II
BIOL 1650 Nutrition
BIOL 2800 Genetics
BIOL 3250 Cell Biology
BIOL 3450 Biochemistry
BIOL 3550 Developmental Biology
EXSS 2040 Motor Learning
EXSS 2070 Exercise Physiology
EXSS 3020 Biomechanics
*BIOL 4950 Internship or
EXSS 4950 Internship or
EXSS 3450 Exercise Testing and Programming

* A 2.5 cumulative gpa is required for the internship.

Requirements for the Minor in Biology
The minor in Biology enables students to demonstrate a substantial and coordinated subsidiary expertise in biological sciences. The minor in Biology requires a minimum of 18 semester hours of course work as follows:
One year (6 or 8 semester hours) of any of the entry-level Biology sequences:
BIOL 1000 Life Science I and
BIOL 1100 Life Science II or
BIOL 1200 Anatomy and Physiology I and
BIOL 1300 Anatomy and Physiology II or
BIOL 1800 General Biology I and
BIOL 1900 General Biology II

Ten semester hours of 2000, 3000, 4000-level courses selected after consultation with a minors advisor in the Biology Department.

Business Administration
Chairperson
Joseph McAloon

Professors
James Noonan
Diane Caggiano
Francis Morrison
Louis Zivic
Sylvia Charland
Gary Vostok
Joseph McAloon
Kwang Kim

Charles W diers

Associate Professors
Assistant Professors

Objectives for the Program in Business Administration
The Business Administration Department prepares each student to take a responsible position within the world of business equipped with a knowledge of business theories, policies, and procedures.

The curriculum is based in the liberal arts, coupled with professional courses and a variety of practical business experiences including the opportunity for experiential learning through internships, structured to give the participant an opportunity to apply the theory of the classroom to a specific work experience.

Business and Economic Research Institute
Students and faculty research the latest economic data and banking rates for the region and publish these results.
Accreditation Standards
Accredited by the International Assembly for Collegiate Business Education (IACBE), Member of American Assembly of Collegiate Schools of Business (AACSB), Member of Association of Collegiate Business Schools and Programs. (ACBSP)

Requirements for the Major in Business Administration

Concentrations/Options
The Business Administration Program at Fitchburg State College includes concentrations in one of five areas of business: accounting, management, marketing, fitness management, or CIS (Computer Information Systems).

Core Curriculum
BSAD 2010 Introduction to Financial Reporting
BSAD 2020 Introduction to Managerial Accounting
BSAD 3200 Principles of Management
BSAD 3300 Fundamentals of Marketing
BSAD 3400 Basic Finance
BSAD 3500 Business Law I
BSAD 4890 Business Policy and Strategy*

Liberal Arts and Sciences Requirements
SPCH 1000 Speech
ECON 1100 Macroeconomics
ECON 1200 Microeconomics
BSAD 1700 Introduction to Computer Information Systems for Business
MATH 1800 Business Statistics
MATH 2200 Calculus for Business

The courses beyond the core curriculum are open only to Business Administration majors. These upper-level courses are not transferable from another college if they are required within a student's concentration.

* Jr./Sr. Writing Requirement

Specializations for the Major in Business Administration

Accounting Curriculum
BSAD 3010 Financial Reporting Theory and Practice I
BSAD 3020 Financial Reporting Theory and Practice II
BSAD 3120 Cost Accounting
BSAD 4010 Financial Reporting Theory and Practice III
BSAD 4110 International Accounting and Taxation
BSAD 4120 Individual Taxation
BSAD 4140 Auditing
BSAD 4500 Business Law II

One Directed Advanced Elective from the following:
BSAD 4100 Consolidations and Merger or
BSAD 4130 Corporate, Estate, and Gift Taxation or
BSAD 4160 Not-for-Profit Accounting or

Management Curriculum
BSAD 3210 Human Resource Management
BSAD 3220 Production Management
BSAD 4200 Organizational Behavior and Theory
BSAD 4210 Social and Political Environment of Business
BSAD 4230 Business Fluctuations and Forecasting

BSAD 4880 International Business Management

Marketing Curriculum
BSAD 3110 Consumer Behavior
BSAD 3320 Market Research
BSAD 3330 Advertising
BSAD 4880 International Business Management

In addition, three marketing electives (from list below) are also required:
BSAD 3340 Small Business Management
BSAD 3350 Total Quality Management
BSAD 4300 Sales Management
BSAD 4310 Retail Marketing
BSAD 4320 Industrial Marketing
BSAD 4330 International Marketing
BSAD 4340 Developing Marketing Strategies

Business Administration/International Business and Economics
The International Business and Economics program provides students with an understanding of the rapidly changing global economy. It concentrates on explanations of the complexities of the business discipline in relationship to the theory of international trade and finance and the changing roles of international institutions (such as the World Trade Organization and the International Monetary Fund). The concentration provides the student with knowledge of the intricacies of doing business internationally. Students will study international marketing and the commerce, trade and investments of international business.

LAS Requirements
BSAD 1700 Introduction to Computer Information Systems for Business
MATH 1800 Business Statistics
MATH 2200 Calculus for Business
ECON 1100 Macroeconomics
ECON 1200 Microeconomics
IDIS 1200 Introduction to International Studies or
IDIS 1800 Global Issues
HIST 1150 World Civilizations III
SPCH 1000 Speech
ENGL 2400 World Literature I or
ENGL 2500 World Literature II
ENGL 3100 World Novel I or
ENGL 3110 World Novel II

Major Requirements in Business Administration and Economics
BSAD 2010 Introduction to Financial Reporting
BSAD 2020 Introduction to Managerial Accounting
BSAD 3200 Principles of Management
BSAD 3210 Human Resource Management
BSAD 3300 Fundamentals of Marketing
BSAD 3400 Basic Finance
BSAD 4330 International Marketing
BSAD 4880 International Business Management
BSAD 4890 Business Policy and Strategy
ECON 3550 International Economics
ECON 3600 International Finance Economics

And either 2 courses from the following list of Macroeconomic courses:
ECON 2200 Comparative Economic Systems
ECON 2400 Money and Banking
ECON 2500 Economic Development
ECON 3650 Intermediate Macroeconomics Theory
Or 2 courses from the following list of Microeconomics courses:

- ECON 2300 Industrial Organization
- ECON 2400 Money and Banking
- ECON 3660 Intermediate Microeconomics Theory
- ECON 3750 Managerial Economics

Requirements for the Minor in Business Administration

The minor in Business Administration consists of 18 credits. The following four courses are required:

- BSAD 2010 Introduction to Financial Reporting
- BSAD 3200 Principles of Management
- BSAD 3300 Fundamentals of Marketing
- BSAD 3500 Business Law I

Two business electives must also be taken. Two of the six required courses may be transferred from another college. Students minoring in Business Administration may take at Fitchburg State College and they must be approved by the Department Chairperson.

Chemistry

Chairperson
George Babich

Professors
Judith Ciottone
Meledath Govindan
Da-hong Lu
Daniel V. Robinson

Objectives for the Program in Chemistry

The Chemistry Program provides coursework for majors in Nursing, Biology, Industrial Technology, Clinical Laboratory Sciences, Environmental Science and Earth Science. A minor in Chemistry also is available to all students.

Requirements for the Minor in Chemistry

A Minor in Chemistry consists of:

- CHEM 1300 General Chemistry I
- CHEM 1400 General Chemistry II
- CHEM 2000 Organic Chemistry I
- CHEM 2100 Organic Chemistry II
- CHEM 3000 Analytical Chemistry I

One course selected from Analytical Chemistry II, Physical Chemistry I, Physical Chemistry II, Advanced Inorganic Chemistry, Radiation Chemistry, Forensic Chemistry, or Natural Products.

Communications Media

Chairperson
George Bohrer

Professors
Judith Ciottone
Meledath Govindan
Da-hong Lu
Daniel V. Robinson

Assistant Professors
Robert Carr
Joh Chetro-Szivos
Stephen Goldstan
Robert Harris
Charles Roberts
Marisol Torres

Objectives for the Program in Communications Media

The Communications Media Program prepares individuals to assume communication positions as freelancers, independent producers, or employees of corporations, institutions, and media organizations.

The program provides a blend of the principles and practices necessary for the effective design, production, and evaluation of media for information presentation by graphic, photographic, film, video, electronic, and print technologies. In combination with the Liberal Arts and Sciences Program, Communications Media fosters the development of skills critical to adapting to an ever changing technological and knowledge-based society.

Requirements for the Major in Communications Media

The Bachelor of Science degree in Communications Media requires 54 semester hours in its major requirements. Course requirements are organized into five phases.

LAS Requirements

- PHIL 1100 Introduction to Philosophy or
- PHIL 2550 Contemporary Ethical Systems or
- PHIL 2600 Philosophy of Human Nature
- SOC 1000 Introduction to Sociology
- PSY 1100 General Psychology

Phase I Freshman Introductory Requirements

Phase I exposes students to the foundations, concepts, and practices used in the preparation, delivery, evaluation, and research of verbal and visual messages.

Required Courses

- COMM 1105 Systems and Theories of Communication
- COMM 1120 Message Design

Phase II Applied Concentration

Phase II enables students to become involved with an in-depth investigation of an area in communications which is most closely aligned with individual talents and interests. Students must select and complete one concentration with the consent of their advisor. A minimum of five required courses must be taken within a concentration.

Note: For some concentration courses, students are expected to pay for supplies that may range in cost from $100 to $300 per course.
Film Production Concentration

**Required Courses**
- COMM 3505 Introduction to Film and Video
- COMM 3506 Pre-Production Planning for Film and Video
- COMM 3710 Intermediate Film Production

Choose one Specialized Elective from the following:
- COMM 2320 Script Writing
- COMM 3510 Audio Production for Film and Video
- COMM 3530 Post-Production
- COMM 3550 Production Management
- COMM 3560 Sound Design
- COMM 3580 Studio Lighting and Production
- COMM 3720 Advanced Film Production
- COMM 3730 Directing for Film and Video
- COMM 3740 Digital Production for Film and Video
- COMM 3750 Cinematography

**Video Production Concentration**

**Required Courses**
- COMM 3505 Introduction to Film and Video
- COMM 3506 Pre-Production Planning for Film and Video
- COMM 3710 Intermediate Film Production

Choose one Specialized Elective from the following:
- COMM 2320 Script Writing
- COMM 3510 Audio Production for Film and Video
- COMM 3530 Post-Production
- COMM 3540 Advanced Video Production
- COMM 3550 Production Management
- COMM 3560 Sound Design
- COMM 3580 Studio Lighting and Production
- COMM 3720 Advanced Film Production
- COMM 3730 Directing for Film and Video
- COMM 3740 Digital Production for Film and Video
- COMM 3750 Cinematography

**Elective Courses**
- COMM 2320 Script Writing
- COMM 3530 Post-Production
- COMM 3550 Production Management
- COMM 3560 Sound Design
- COMM 3730 Directing for Film and Video
- COMM 3750 Cinematography

**Graphic Design Concentration**

**Required Courses**
- COMM 3810 Graphic Design I
- COMM 3820 Graphic Design II
- COMM 3880 Typography
- COMM 3890 Computer Graphic Design

One of the following electives:
- COMM 3830 Graphic Design III
- COMM 3840 Graphic Management
- COMM 3850 Typography
- COMM 3860 Typography
- COMM 3870 Digital Production for Film and Video
- COMM 3750 Cinematography

**Photography Concentration**

**Required Courses**
- COMM 3600 Photography I
- COMM 3610 Photography II
- COMM 3620 Photography III
- COMM 3630 Large Format Photography
- COMM 3645 Digital Photography

**Professional Communication Concentration**

**Required Courses**
- COMM 3304 Multimedia Project Design
- COMM 3305 Multimedia Tools and Techniques
- COMM 3306 Interactive Media I
- COMM 3307 Interactive Media II
- COMM 3308 Interactive Media III
- COMM 3309 Interface Design

**Elective Courses**
- COMM 2320 Script Writing
- COMM 3800 Journalism
- COMM 3870 Feature and Magazine Writing
- COMM 3890 Computer Graphic Design

Note: It is recommended that students take the history course related to their concentration as part of their Liberal Arts and Sciences program. These courses include History of Film I, History of Film II, History of Television, History of Graphic Design, and History of Photography.

**Interactive Media Concentration**

**Required Courses**
- COMM 3304 Interactive Media Design
- COMM 3305 Multimedia Design
- COMM 3306 Interactive Media I
- COMM 3307 Interactive Media II
- COMM 3308 Interactive Media III
- COMM 3309 Interface Design

**Communications Studies Concentration**

This concentration provides for advanced studies of the theoretical constructs necessary for strategic analysis, design, application, research, and evaluation of a variety of media systems. It provides foundational preparation for graduate studies in communications and a number of allied fields.

Requirements: Phase I and II, plus the following courses from Phases III and IV: COMM 4205, COMM 4230, COMM 4240, COMM 4250, one to two electives, and Phase V.

**Phase III Advanced Electives**
Following or concurrent with Phase II, students, in consultation with their advisor, select one of the following options:
- Four additional courses in the same concentration
- Four courses in other concentrations
- Four courses from a combination of concentrations, including additional theory, conceptual, or methodological courses
- Courses from the multimedia module:
  - COMM 3304 Multimedia Project Design
  - COMM 3305 Multimedia Tools and Techniques
  - COMM 3306 Interactive Media I
  - COMM 3307 Interactive Media II
  - COMM 3308 Interactive Media III
  - COMM 3309 Computer Graphic Design
Phase IV Upper-Level Theory/Conceptual/Methodological Requirements

Students in their junior/senior year will take the following:

Media Workplace Dynamics

Requirement
COMM 4200 Human Communications

Junior Writing Requirement (Select One)
COMM 2800 Journalism
COMM 3430 Writing for Advertising
COMM 3460 Public Relations
COMM 3470 Technical Documentation
COMM 3860 Writing for Business and Technology
COMM 4240 Media Criticism

Electives (Select One)
COMM 4210 Instructional Training Design
COMM 4220 Organizational Communication
COMM 4230 Communications Law and Ethics
COMM 4240 Media Criticism
COMM 4250 Research Seminar
COMM 4205 Seminar in Communication Theory

Phase V Integrated Studies

This required senior level phase provides an opportunity for students to apply their knowledge and skills in a professional environment.

Required Course
COMM 4880 Internship (12 cr.)

Enrichment Courses (Electives)

VISIONS
VISIONS is an annual juried exhibition of the best work by Communications Media students during that year. VISIONS is held in late April of each year.

Requirements for the Minor in Graphics
An interdisciplinary minor in graphics is offered in conjunction with the Computer Science and Industrial Technology Departments. See Graphics in this catalog for an explanation of program requirements.

Computer Information Systems

Chairperson
Frits Lander

Program Objectives
The Computer Information Systems program offers the opportunity for students to develop knowledge and skills in analysis and design of business information systems, database development, software development, and networking. This program prepares the students for professional careers in the rapidly changing field of computer information systems. Students develop good communication skills and the ability for teamwork and leadership roles in their professional careers.

All CIS majors are encouraged to seek a minor in Business Administration.

Requirements for the major in Computer Information Systems must include:

CSC 1000 Introduction to Programming
CSC 1400 Computer Information Systems
CSC/MATH 1900 Discrete Mathematics
CSC 1500 Computer Science I
CSC 1550 Computer Science II
CSC 2400 Database Systems
CSC 2560 Systems Programming
CSC 2700 Business Programming
CSC 3400 Data Communications and Networking
CSC 3450 Local Area Networks
BSAD 2010 Introduction to Financial Reporting
BSAD 2020 Introduction to Managerial Accounting
BSAD 3200 Principles of Management
BSAD 3300 Fundamentals of Marketing
BSAD 3400 Basic Finance
CSC/BSAD 3710 Systems Analysis Methods

*MATH 1250 Introduction to Functions
*MATH 1800 Business Statistics
*MATH 2200 Calculus for Business

Three additional CS electives at or above 3000 level

* Pending placement exam results.
* Course used to satisfy Junior/Senior Writing, and Speaking and Listening requirements. Computer Literacy requirement is satisfied by CS Core.
Computer Science

Objectives for the Program in Computer Science
The Computer Science Program offers the opportunity for students to develop a unique blend of knowledge and skills in the areas of computer software and computer hardware. The program provides sufficient theoretical background for continued learning. It also provides practical skills to prepare the students for professional careers in the rapidly changing field of computer science. Students develop good communication skills and the ability for teamwork and leadership roles in their professional careers.

Requirements for the Major in Computer Science
The Degree of Bachelor of Science in Computer Science must include:

- CSC 1500 Computer Science I
- CSC 1550 Computer Science II
- CSC 1600 Introduction to Electronics
- CSC 1650 Digital Electronics
- CSC 1900 Discrete Mathematics
- MATH 1300 Pre-Calculus
- MATH 1800 Business Statistics
- MATH 2300 Calculus I
- MATH 2400 Calculus II
- MATH 2600 Linear Algebra
- PHYS 2300 General Physics I
- PHYS 2400 General Physics II

Five CS electives at or above the 3000 level.

+ Pending placement exam results
* Course used to satisfy Junior/Senior Writing and Speaking and Listening requirements. Computer Literacy requirement is satisfied by CS core.

Requirements for the Minor in Computer Science
A minor in Computer Science consists of the following courses:

- CSC 1500 Computer Science I
- CSC 1550 Computer Science II
- CSC 2560 Systems Programming
- CSC 3200 Programming Languages

Objectives for the Major in Criminal Justice
The Criminal Justice Major provides students with courses which lead to a Bachelor of Science Degree and provides a foundation for employment in the Criminal Justice field and graduate work.

Requirements for the LAS Criminal Justice Major
As part of their Liberal Arts and Sciences requirements, all students in the Criminal Justice Major must complete:

- POLS 1000 United States Government
- PSY 1100 General Psychology
- PSY 2350 Abnormal Psychology
- MATH 1700 Applied Statistics
- SOC 1100 Introduction to Sociology
- CJ 3130 Criminal Justice Research Methods

Core Requirements (27 credits)

- CJ 2000 Introduction to Criminal Justice
- CJ 2050 Principles and Practice of Law Enforcement
- CJ 2650 Correctional Theory and Practice
- CJ 2651 Ethics in Criminal Justice
- POLS 2270 Introduction to Legal Process
- SOC 2750 Criminology
- CJ 3140 Criminal Justice Data Analysis

Capstone

- CJ 3750 Colloquium (3 cr.) and additional 3 crs. Criminal Justice course** or
- CJ 4970 Internship (6 or 12 credits)****
- CJ 4990

Elective Courses (18 credits)
In conjunction with the Criminal Justice Core, each student will select 18 hours of criminal justice electives to complete the 45 semester hours required in the Criminal Justice Major. From the list below, each student, in consultation with his/her advisor, should select a minimum of six courses.

Criminal Justice

- CJ 2100 Introduction to Courts
- CJ 2450 Women in Criminal Justice
- CJ 2500 Correctional Law
- CJ 2550 Criminal Law
- CJ 2560 Race, Crime and the Law
- CJ 2600 Juvenile Justice
- CJ 3000 Domestic Terrorism and Hate Crime
- CJ 3050 International Terrorism
- CJ 3100 Organized Crime and Youth Gangs
- CJ 3200 White Collar and Corporate Crime
- CJ 3525 Comparative Justice Systems

Human Services

- HMSV 2400 Crisis Intervention
- HMSV 3500 Child Abuse and Neglect

Political Science

- POLS 2530 Sex, Race, and the Constitution
- POLS 2700 Criminal Procedure: The Rights of the Accused
- POLS 3500 Constitutional Law
### Sociology

- SO C 2760 Juvenile Delinquency
- SO C 3500 Law and Society

Selected topics courses in these disciplines may be allowable with the permission of your advisor. CJ electives from other colleges may be accepted as electives if approved by the CJ Advisory Committee.

* A course is a prerequisite to all classes.

** Students have the option of selecting an Internship of 6 or 12 credits over one or two semesters. If a student chooses a 12-hour internship, 6 of those credit hours will count as free electives. All Internships shall be conducted in accordance with existing policies in the Department of Behavioral Sciences. While all Internships require approval of the CJRC, students seeking direct service Internships may have further prerequisites depending on the nature of the field placement. (Field settings often have a preference for/require specific coursework. Students need to see their advisors for details and refer to the Field Placement Office for policies pertaining to field placements.)

### Free Electives (to bring to a total of 120 credits for graduation)

It is the student’s responsibility to fulfill accurately and completely all Liberal Arts and Sciences and departmental requirements for the degree.

### Requirements for the Minor in Criminal Justice

An interdisciplinary minor in Criminal Justice is offered by the Departments of Behavioral Sciences and Social Sciences. Students will complete the Criminal Justice Minor as they fulfill the responsibilities of an academic major. There are 9 semester hours of required courses and 9 semester hours of electives. Students are reminded that they may use no more than two of their major courses toward the minor.

Note: Both P O LS 2270 and SO C 3500 may be taken, in which case one counts as “Required” and the other as “Elective.”

#### Required Courses (9 semester hours)

- CJ 2000 Introduction to Criminal Justice
- SO C 2750 Criminology
- P O LS 2270 Introduction to the Legal Process
- SO C 3500 Law and Society

Note: If both P O LS 2270 and SO C 3500 are taken, one counts as “Required” and the other as “Elective.”

#### Electives (9 semester hours)

- CJ 2100 Introduction to Courts
- CJ 2450 Women in Criminal Justice
- CJ 2500 Correctional Law
- CJ 2550 Criminal Law
- CJ 2660 Race, Crime and the Law
- CJ 2680 Juvenile Justice
- CJ 3000 Domestic Terrorism and Hate Crime
- CJ 3050 International Terrorism
- CJ 3100 Organized Crime and Youth Gangs
- CJ 3200 White Collar and Corporate Crime
- CJ 3525 Comparative Justice Systems
- H M S V 2400 Crisis Intervention
- H M S V 3500 Child Abuse and Neglect
- P O LS 2270 Introduction to the Legal Process
- P O LS 2270 Sex, Race, and Constitution
- P O LS 2700 Criminal Procedure: The Rights of the Accused
- P O LS 3500 Constitutional Law
- SO C 2760 Juvenile Delinquency
- SO C 3500 Law and Society

Course descriptions can be found listed within the following disciplines: Human Services, Political Science, and Sociology. Please refer to the course description section for more information.

### Economics

**Chairperson**
- Michael Turk

**Professors**
- Pirudas Lwamugira
- Michael Turk

#### Objectives for the Program in Economics

The Economics Program offers Liberal Arts and Sciences courses which focus on understanding the principles of economics for private enterprise market economies especially, the United States economy, as well as the workings of the global economy. The program offers both a major and a minor to students who are interested in a career in Economics or Business.

#### Requirements for the Major in Economics

The degree of Bachelor of Science in Economics requires 36 credits:

- ECON 1100 Principles of Macroeconomics
- ECON 1200 Principles of Microeconomics
- ECON 2400 Money and Banking
- ECON 3000 History of Economic Thought*
- ECON 3650 Intermediate Macroeconomics
- ECON 3660 Intermediate Microeconomics
- MATH 2200 Calculus for Business
- MATH 1800 Business Statistics
- SPCH 1000 Speech

Four courses selected from the following:

- ECON 1300 Consumer Economics
- ECON 2200 Comparative Economic Systems
- ECON 2450 Human Resource Economics
- ECON 2500 Economic Development
- ECON 2550 Urban Economics
- ECON 2600 Public Finance
- ECON 3550 International Economics
- ECON 3700 Econometrics
- ECON 3750 Managerial Economics
- ECON 4900 Independent Study in Economics
- ECON 4940 Internship in Economics
- ECON 5000 Topics in Economics
- GEOG 3000 Economic Geography
- BSAD 4230 Business Fluctuations and Forecasting

* ECON 3000 satisfies the Jr./Sr. Writing Requirement.
International Business and Economics

The International Business and Economics program provides students with an understanding of the rapidly changing global economy. It concentrates on explanations of the complexities of the business discipline in relationship to the theory of international trade and finance and the changing roles of international institutions (such as the World Trade Organization and the International Monetary Fund). The concentration provides the student with knowledge of the intricacies of doing business internationally. Students will study international marketing and the commerce, trade and investments of international business.

Description of the Program

Through a variety of specialized programs, English majors can obtain a BA-English-Literature, BA-English-Professional Writing, BA-English-Professional Certification, BA-English-Theater, and BS-English-Literature, BS-English-Professional Writing, BS-English-Professional Certification, and BS-English-Theater.

Objectives for the Program in English

The English program offers students a) knowledge of the broad field of literature in English, b) in-depth knowledge of its diverse aspects, c) the reading, writing, and research tools for exploring the field and its boundaries, and d) ample opportunity for hands-on experience in related fields.

Requirements for the Major in English

Approaches to English Studies (ENGL 2999) provides an introduction to the discipline. All English majors and minors must satisfactorily complete the course by the end of their sophomore year. Transfer students must take ENGL 2999 during their first year at the college, unless exempted by the Department Chair, based on evaluation of transfer coursework. English majors in all tracks must also successfully complete a Senior Portfolio. See individual tracks for specific requirements in addition to the above.

Internship

The English Department, through its internship program, offers an opportunity for seniors and second-semester juniors to explore a profession for one full semester of work and credit. The internship enables students to apply theoretical knowledge and laboratory-developed skills in an actual professional setting. Students in the program have enjoyed an unusually high level of job-entry success.

English majors can experience a wide range of professional activity in fields such as radio, television, journalism, personell work, library functions (school, public, or technical), public relations, law, government, human services, and technical productions. New internship positions are identified each semester. Department approval is required.
### Specializations for the Major in English

#### The Bachelor of Arts in English—Literature

This program requires 36 hours in English.
- A course in speech or performance fulfills the speaking and listening requirements
- Second-year language proficiency is required
- Students keep a portfolio of 10 representative English papers for Senior review
- This program also provides preparation for Provisional Certification for Teaching Secondary School English

#### Required Courses

### Bachelor of Science Degree in English-Professional Writing

This program is available for students who choose not to fulfill the requirement for foreign language proficiency at the second-year level. All other requirements are the same as for the Bachelor of Arts in English—Professional Writing.
Bachelor of Arts in English—Theater
This program requires 36 hours of coursework.
- SPCH 1700 Voice and Articulation or SPCH 1000 is required to fulfill the LAS&S speaking and listening requirement
- Second-year language proficiency is also required
- Students keep a portfolio of 10 representative papers from literature and theater course and/or fully prepared audition pieces. The audition pieces may substitute for one or more equivalent papers from literature and theater courses. The proportion of each should reflect the focus of the students (e.g., performance, dramaturgy, education). It is reviewed in the senior year by the student's advisor and two other professors in the department. Transfer students should consult with the chair.

Required Courses
ENGL 2999 Approaches to English Studies
ENGL 2000 American Literature I: Age of Exploration to the Civil War
ENGL 2100 American Literature II: Civil War to the Present or ENGL 3010 American Drama
ENGL 4020 Shakespeare's Drama: Text and Performance or ENGL 4030 Interpreting Shakespeare's Works
ENGL 2200 English Literature II: Pepys to Shelley or ENGL 4040 Major English Writers of the 17th Century
ENGL 2210 English Literature III: Bronte to Rushdie or ENGL 3020 Modern Drama
ENGL 2200 English Literature II: Pepys to Shelley or ENGL 4040 Major English Writers of the 17th Century
ENGL 2210 English Literature III: Bronte to Rushdie or ENGL 3020 Modern Drama
THEA 1700 Stage Movement
THEA 2000 Introduction to Theater
THEA 2200 Stagecraft and Theater Production
THEA 2700 Acting I
THEA 2800 Acting II

Electives
Three hours from the following courses:
ENGL 3050 20th-Century Irish Literature
THEA 2100 Children's Theater
THEA 2730 History of Theater I
THEA 2740 History of Theater II
THEA 4000 Directing the Play
EXSS 4050 Art of Dance
EXSS 4130 Making Dance: Choreography and Composition

Recommended
*THEA 4940 Internship
*THEA 4950 Internship
*THEA 4960 Internship
*One of these Internships is recommended and requires Department approval.

Bachelor of Science in English—Theater
This program is available for students who choose not to fulfill the requirement for foreign language proficiency at the second-year level. All other requirements are the same as for the Bachelor of Arts in English—Theater.

BS in English with Initial Teacher Licensure
Students within our English major can pursue initial licensure as high school English teachers. This program provides students with both a broad introduction to high school teaching and specific instruction in the theory, research and practice of secondary English teaching. Students engage in field-based experiences in the school setting supervised by our faculty through on-site pre-practicum experiences coupled with each teaching course and a formal teaching practicum as the capstone experience. This program is nationally accredited by NCATE and boasts graduates working in high schools throughout the region.

Students interested in pursuing Initial Teacher Licensure must apply for formal admission to the program. For information about undergraduate requirements in teacher preparation, see the section titled: "Teacher Preparation Programs (Undergraduate)".

The course requirements are those for the Bachelor of Arts/Literature or Bachelor of Science/Literature plus the following:

Required
ENGL 2870 The Structure and Nature of Language
ENGL 2910 Literature for Young Adults

Core Courses
ENGL 2860 Introduction to Secondary School Teaching
ENGL 4700 Teaching Writing in Middle and Secondary Schools
ENGL 4850 Special Methods in English
ENGL 4860/4870 English Practicum in a Secondary School (300 hours)
SPED 3800 Secondary Programs for Adolescents with Special Needs

Post Baccalaureate Program in English, 8-12
Students who hold a bachelor's degree and wish to become a secondary level (grades 8-12) teacher of English, may complete a post baccalaureate program that consists of the equivalent of a degree in English and 18 credit hours of pedagogical coursework in education.

Students who are interested in the program must meet the following criteria:
- Evidence of a bachelor's degree
- A GPA of 2.8 or better
- Successful completion of the Massachusetts Test for Educator Licensure: Communication and Literacy Skills Sub-test

Having met the above criteria, students enrolled in the post-baccalaureate program will be eligible to apply for graduate assistantships. Students enrolled in the program will be counted toward the compensation load of the Graduate Program Chair or GCE advisor. Supervision of a practicum and pre-practicum students in this program will count as part of a professor's full-time day load in accordance with the provisions of the day contract, unless the faculty member chooses compensation from GCE.

Once accepted, students will undergo a transcript review by the Graduate Program Chair or undergraduate advisor, as designated by the department and a plan of study will be developed that address:
Courses missing (if applicable) in the subject that are equivalent to the requirements for the major will be determined through a transcript review. Students will complete all requirements of the major and license as identified in the undergraduate program.

Courses as identified below in the teacher preparation program (pedagogy courses):
When courses are in a student's plan of study, he/she will complete the plan of study at the undergraduate level, or at the graduate level if the equivalent is offered.

Once the licensure program is completed, students can request admission to the graduate program after completing additional admissions requirements as designated by the department.

</table>

Once a student has completed all requirements for professional and content specific courses, they will be eligible for endorsement in their selected field through Fitchburg State College.

**Double Majors**

Students with double majors in English and Early Childhood, Elementary, Middle School, or Special Education are working toward a BS degree and are exempt from foreign language proficiency requirement.

**Requirements for the Minor in English**
The Minor has two tracks, each requiring 18 hours of coursework in English.

**Track A: Literature**

*One three-credit advanced writing course must be at the 3000 level.

**Environmental Science**

**Chairpersons**

George Babich
Da-hong Lu
Daniel Robinson
Howard Thomas

**Objectives for the Program in Environmental Science**
The Environmental Science track combines Biology and Chemistry coursework as well as several courses designed specifically to address important concepts and issues in Environmental Science. Detailed requirements regarding environmental science can be found under the Biology Major.

**Exercise and Sport Science**

**Chairperson**

David Antaya

**Associate Professor**

Lynn Champion

**Assistant Professors**

Jeff Godin

**Objectives for the Exercise and Sport Science Program**

Program objectives:

- to prepare relevant professional education supported by a rigorous scientific base to students who choose Exercise and Sport Science careers, whether in the clinical or the fitness setting
- to provide leadership opportunities through apprenticeships, specified internships, and presentations and publications
- to provide career alternatives to students in other majors by offering courses related to their chosen fields of endeavor

*At least one of the asterisked courses must include material that is pre-17th century. A total of six credits must be at the 3000 or 4000 level.
• to support the college's liberal arts requirement in the area of health and fitness
• to provide opportunity for students to learn lifetime leisure skills

Description of the Major in Exercise and Sport Science
The Exercise and Sport Science major is designed with two career tracks: clinical exercise physiology and fitness management. The major is both multidisciplinary and interdisciplinary. It is multidisciplinary in that it is the integration of anatomy, physiology, physics, psychology, and learning theory to describe and explain responses and adaptations to exercise and training, and to apply that knowledge to enhance physical potential for health, for sport, and in rehabilitation. It is interdisciplinary in that it draws from biology and business administration to provide a foundation in these disciplines to support exercise science applications as well as to enhance career preparedness. There is a common core of Exercise Science courses to ensure a solid foundation in the various disciplines that comprise this multidisciplinary field of study, and to ensure the ability to apply knowledge in a variety of practical experiences. There is an opportunity also to develop breadth and depth in the field of Exercise and Sport Science as each track has specific requirements, as well as free electives.

Exercise and Sport Science Major Requirements
Prerequisites: The major requires prerequisites in Anatomy and Physiology I and II, and Pre-Biochemistry I. In addition, General Biology I and II are required for the Clinical Exercise Physiology track. All students are required to complete the following common core courses.

- EXS 2040 Motor Learning and Physical Performance
- EXS 2050 Functional Anatomy
- EXS 2060 Exercise, Nutrition, and Heart Disease
- EXS 2070 Exercise Physiology
- EXS 2300 Nutrition in Exercise and Sport
- EXS 3020 Biomechanics
- EXS 3120 Scientific Foundations of Strength Training and Conditioning
- EXS 3300 Exercise Metabolism
- EXS 3450 Exercise Testing and Programming
- EXS 3450 Internship and EXL 3450 Internship or
- EXS 4200 Senior Seminar in Leadership and Professional Ethics
- EXS 4950 Internship/Apprenticeship

Clinical Exercise Physiology Track Requirements
- EXS 2500 Human Motor Development
- EXS 3600 Exercise Response and Adaptations in Special Populations
- EXS 4045 Cardiovascular Physiology and Electrophysiology

Fitness Management Track Requirements
- EXS 2400 Health Promotion
- EXS 4040 Fitness Management

Liberal Arts and Sciences Requirements
Some of the prerequisites and courses in the major fulfill requirements in the Liberal Arts and Sciences. Additional requirements are:
- PSY 1100 General Psychology
- PSY 2200 Human Growth and Development
- PSY 2370 Interpersonal Effectiveness

In addition to the required courses in Exercise and Sport Science, students in the Fitness Management Track are required to complete a minor in Business Administration. Courses for the minor are: Principles of Management, Fundamentals of Marketing, Introduction to Managerial Accounting, Microeconomics, Introduction to Financial Reporting, Business Law I, and CIS for Business.

Description of the Interdisciplinary Concentrations
The Exercise and Sport Science department offers concentrations of study in the field of Exercise Science to students in the Biology department.

Biology/Exercise Science Course Requirements
- EXS 2040 Motor Learning and Physical Performance
- EXS 2070 Exercise Physiology
- EXS 3020 Biomechanics
- EXS 4950 Internship or BIOL 4950 Internship or
- EXS 3450 Exercise Testing and Programming

Description of the Health and Fitness requirement in Liberal Arts and Sciences
Health and Fitness is a required component of the Liberal Arts and Sciences curriculum. All students must complete three* credit hours in the areas of health, wellness, and/or exercise, and the department offers a variety of classes on health and fitness topics, in recreational sports and activities, and in dance that serve to fulfill this requirement. The requirement may be met by the successful completion of one of the following three options, all of which include a physical activity component:

Option I - one course selected from Group I
Option II - three courses selected from Group II
Option III - two courses selected from Group II and one course selected from Group III

* Nursing majors must satisfy a one-credit hour requirement that can be met by the successful completion of one course from Group II or from Group III. (Exceptions: Consumer Health and Standard First Aid) Honors students must satisfy a two-credit hour requirement. This may be met by the successful completion of Leadership in the Outdoors and Consumer Health.

Exercise and Sport Science courses as electives
Students in any major may take most of the departmental courses for elective credit as long as prerequisites are met. Some students like to participate in a structured activity, and this is provided in the fitness, dance, and recreation courses. Other students have benefited careers or prepared for summer jobs by taking courses such as outdoor education, camp counseling, or coaching principles. There are many options available.
**Dance Minor**  
**Theory/History/Performance**  
Select three courses:  
EXSS 4050 Art of Dance  
EXSS 4070 Introduction to Dance Movement Therapy  
EXSS 4100 Movement Education  
EXSS 4130 Making Dances: Choreography and Composition  
EXSS 4900 Independent Study/Practicum  
**Technique Courses**  
Select three courses:  
EXSS 1130 Dance Aerobics  
EXSS 1210 Modern Jazz I  
EXSS 1220 Modern Jazz II  
EXSS 1230 Modern Jazz III  
EXSS 1240 Yoga  
EXSS 1310 African Jazz Dance  
**Recommended Elective**  
The additional three credits can be taken from any of the above courses or the following:  
THEA 2100 Children's Theatre  
THEA 2500 Stage Movement  
THEA 3000 Stagecraft and the Theatre Production  

---  

**French**  
**Chairperson**  
James Colbert  
**Assistant Professor**  
Rala Diake  
Keyvan Karbasioun  

**Objectives for the Program in French**  
The French Program offers students the opportunity to study the French language and culture or to continue study at an intermediate or advanced level.  

**Requirements for the Minor in French**  
The minor in French requires a minimum of 15 semester hours including the following:  
**Required Courses**  
FR EN 2000 Intermediate French I  
FR EN 2100 Intermediate French II  
**Electives**  
Choose at least three of the following:  
FR EN 3000 French Civilization  
FR EN 3300 French Literature I  
FR EN 3400 French Literature II  
FR EN 3500 French Conversation and Composition  
FR EN 4903 Independent Study  

---  

**Geo/Physical Sciences**  
**Chairperson**  
Lawrence R. Guth  
**Associate Professors**  
Lawrence R. Guth  
Jiang Yu  

**Objectives for the Program in Geo/Physical Sciences**  
The Geo/Physical Sciences department encompasses the disciplines of Earth Science, Geography, and Physics. A major track of study may be chosen in Earth Science or Geography. In both fields, successful students pursue courses of instruction and are supported in undertaking internships which prepare them for entry into the job market or for acceptance to graduate school. Both fields also offer a minor. In addition, all three disciplines which make up the Geo/Physical Sciences offer courses which satisfy various requirements of the Liberal Arts and Sciences Program, as well as those of majors in other departments.  

**Requirements for the Major in Geography/Earth Science**  
The degrees of Bachelor of Science and Bachelor of Arts in Geography or Earth Science each require a minimum of 36 semester hours of coursework.  

**Core Requirements**  
GEOG 1000 Introduction to Geography  
GEOG 2100 Geology  
GEOG 2800 Map Use and Interpretation  

**Geography Majors**  
**Additional Requirements**  
GEOG 2400 Computer Applications in Geography/Earth Science  
GEOG 3400 Population Geography  
GEOG 3500 Geographic Information Systems  
GEOG 4800 Cartography I  
GEOG 4820 Cartography II  
A course in regional geography as well as additional courses are chosen in consultation with the academic advisor.  

**Earth Science Majors**  
**Additional Requirements**  
GEOG 2200 Meteorology  
GEOG 2500 Oceanography  
GEOG 3250 Historical Geology  
GEOG 4200 Geomorphology  
GEOG 4220 Structural Geology  
GEOG 4500 Remote Sensing of the Environment  
GEOG 4600 Environmental Hydrogeology  
PHYS 2000 Astronomy  
PHYS 2300 General Physics I  
PHYS 2400 General Physics II  
A course in regional geography as well as additional courses are chosen in consultation with the academic advisor.  

**Required cognate courses for Earth Science majors**  
(to be taken as part of Liberal Arts and Sciences distribution and free electives):  
CHEM 1300 General Chemistry I  
CHEM 1400 General Chemistry II  
PHYS 2300 General Physics I  
PHYS 2400 General Physics II  
- 6 semester hours M athe matics (M ath 1300 or above)  
- 3 semester hours Computer Science  

*Those students interested in graduate school should give strong consideration to summer field camp.*
BS in Earth Science with Initial Teacher Licensure

Students within our Earth Science major can pursue initial licensure as high school Earth Science teachers. This program provides students with both a broad introduction to high school teaching and specific instruction in the theory, research, and practice of secondary Earth Science teaching. Students engage in field-based experiences in the school setting supervised by our faculty through on-site pre-practicum experiences coupled with each teaching course and a formal teaching practicum as the capstone experience. This program is nationally accredited by NCATE and boasts graduates working in high schools throughout the region. Students interested in pursuing Initial Teacher Licensure must apply for formal admission to the program.

For information about undergraduate requirements in teacher preparation, see the section titled: “Teacher Preparation Programs (Undergraduate)”

Post-Baccalaureate Program in Earth Science, 5-12 (spring 2005)

Students who hold a bachelor’s degree and wish to become a secondary level (grades 8-12) teacher of Earth Science, may complete a post-baccalaureate program that consists of the equivalent of a degree in Earth Science and 18 credit hours of pedagogical coursework in education.

Students who are interested in the program must meet the following criteria:

- Evidence of a bachelor’s degree
- A GPA of 2.8 or better
- Successful completion of the Massachusetts Test for Educator Licensure: Communication and Literacy Skills Sub-test

Having met the above criteria, students enrolled in the post-baccalaureate program will be eligible to apply for graduate assistantships. Students enrolled in the program will be counted toward the compensation load of the Graduate Program Chair or GCE advisor. Supervision of a practicum and pre-practicum students in this program will count as part of a professor’s full-time day load in accordance with the provisions of the day contract, unless the faculty member chooses compensation from GCE.

Once accepted, students will undergo a transcript review by the Graduate Program Chair or undergraduate advisor, as designated by the department and a plan of study will be developed that addresses:

- Courses missing (if applicable) in the subject that are equivalent to the requirements for the major will be determined through a transcript review. Students will complete all requirements of the major and license as identified in the undergraduate program.
- Courses as identified below in the teacher preparation program (pedagogy courses):

  When courses are in a student’s plan of study, he/she will complete the plan of study at the undergraduate level, or at the graduate level if the equivalent is offered.

  Once the licensure program is completed, students can request admission to the graduate program after completing additional admissions requirements as designated by the department.

Graphics

Chairpersons
Frits Lander
George Bohrer

Requirements for the Minor in Graphics
The Interdisciplinary Graphics Minor develops an appreciation for all three areas of study while concentrating in one of the areas. Students gain a theoretical background in Computer Science, a design/applications background in Communications/Media, and a production background in Industrial Technology.

Required Courses
CSC 1000 Introduction to Programming or
CSC 1500 Computer Science I
COMM 3810 Graphic Design I
ITEC 1500 Graphic Arts Processes or
COMM 3910 Graphic Arts Production
CSC/COMM/ITEC Interdisciplinary Graphics Seminar
A concentration (two courses) in one of the following areas:

Concentration in Computer Science
CSC 1550 Computer Science II
CSC 2000 Computer Graphics

Concentration in Communications/Media
COMM 3820 Graphic Design II
COMM 3890 Computer Graphic Design

Concentration in Industrial Technology
ITEC 1510 Typography I
ITEC 2410 Computer Aided Drafting (CAD)
ITEC 2500 Offset Lithography

Note: Students must select a concentration in a department outside their major field of study.

History

Chairperson
Michael Turk

Professors
Edmund Thomas
John Paul

Associate Professors
Benjamin Lieberman
Laura Baker

</table>

**Professors**: Associate Professors

David C. Maloney, John M. Hancock, Richard J. Spencer, Lynne Kellner

**Objectives for the Human Services Program**

A major in Human Services leads to a Bachelor of Science degree. Administered by the Behavioral Sciences Department, this program allows students to develop the knowledge and skills necessary for entering a variety of human service professions.

**Description of the Major in Human Services**

The Human Services Program is competency based. Through their coursework students gain a theoretical and conceptual base, and develop generic helping skills.

Students further develop and demonstrate their knowledge and skills within several community settings through course-related practice and an intensive capstone internship experience. These professionally supervised field experiences integrate academic study with practical “hands-on, real-world” application, and constitute a special characteristic of the Fitchburg State College program.

Additionally, they give students a realistic basis for choosing careers while strengthening their ability to compete in the job market. Students are also encouraged to gain additional experiences through volunteer activities.

The Human Services Program produces generalists to work with diverse clients in many settings, and prepares students for graduate study. Course work may be designed for students to pursue interests in human services administration, aging and gerontology, criminal justice and/or juvenile justice, family and children’s services, mental health and mental retardation, dance and recreation, and other areas.

Students should meet with their Human Services advisors to learn about the recommended course work and career possibilities associated with their interests.

[See the section on Departmental Policies for information about the Human Services Program’s policies on admission, retention and dismissal, and Internship eligibility.]

**Requirements for the Major in Human Services**

Government Knowledge (Constitutional) Requirement
May be satisfied by taking one of the following, or, with the consent of the Human Services advisor, additional Political Science courses focused on the Constitution and the structure of government:

- POLS 1000 US Government
- POLS 1500 State and Urban Government
- POLS 2270 Introduction to the Legal Process
- POLS 2550 Sex, Race & the Constitution
- POLS 2600 The First Amendment
- POLS 3500 Constitutional Law

Basic Informational Courses in the Behavioral Sciences:

- PSY 1100 General Psychology
- SOC 1100 Introduction to Sociology
- PSY 2200 Human Growth & Development *
- PSY 2350 Abnormal Psychology

* With the documented approval of their Human Services advisor, students may substitute three courses in developmental psychology in place of Human Growth & Development. These courses must include PSY 2210 (Child Psychology) and PSY 2230 (Adolescent Psychology), plus either PSY 2240 (Adult Psychology) or PSY 2260 (Gerontology).

B. The Human Services Core

- HMSV 1100 Introduction to Human Services
- HMSV 2500 Interviewing Techniques
- HMSV 2050 Research Methods in Human Service Practice
- HMSV 2900 Group Work
- HMSV 3700 Professional Issues in Human Services
- HMSV 3600 Assessment and Intervention
- HMSV 3800 Management of Care Process
- HMSV 4870 Internship in Human Services (6 credits) ** and
- HMSV 4880 Internship in Human Services (6 credits) or
- HMSV 4890 Internship in Human Services (12 credits)

** Two options exist for completing Internship in Human Services: (1) a block placement involving 30 hours per week plus a two-hour seminar for one semester (Fall or Spring) (HMSV 4890 - 12 credits); (2) 15 hours weekly plus a two-hour seminar, beginning in the Fall and continuing until the end of the Spring semester (HMSV 4870 & HMSV 4880 - 6 credits each).

Admission to the Human Services Program does not guarantee entry into Internship. Eligibility for Internship is assessed by the Human Services Review Committee according to the criteria specified in Departmental Policies. Completion of all eligibility requirements at least one semester before undertaking Internship and timely completion of the application process for eligibility are essential.

C. Human Services and Behavioral Sciences Electives

All Human Services majors must complete a minimum of 6 credits in Human Services electives and an additional 6 credits from any program in Behavioral Sciences (i.e., Criminal Justice, Human Services, Psychology, Sociology).

The 6 credits in Human Services must include one course (3 credits) from among the following:

- HMSV 2400 Crisis Intervention
- HMSV 2950 Addictive Behaviors
- HMSV 3500 Abuse and Neglect of Children

Policy Regarding Liability Insurance
Liability insurance is required of all students taking Human Services courses which involve a practicum experience. Upon enrolling in such courses, including Internship in Human Services, students are automatically covered under a blanket policy purchased by the college.

Industrial Technology

Objectives for the Program in Industrial Technology
The Industrial Technology department is unique at Fitchburg State College in that it offers two major degree programs and seven concentrations, including:

- Bachelor of Science in Education, with a major in Technology Education (121 semester hours)
- Bachelor of Science in Industrial Technology (120-126 semester hours), with concentrations in Architectural Technology, Construction Technology, Electronics Engineering Technology, Facilities Management, Manufacturing Engineering Technology, or Technical Theater Arts.

Liberal Arts and Sciences Requirements
For students in the BS in Technology Education and the BS in Industrial Technology, all concentrations:

- ENGL 1100 Writing I
- ENGL 1200 Writing II
- CHEM 1000 Industrial Chemistry
- ITEC 1700 Evolution of Industrial Technology
- ITEC 2700 Management of Technology Society
- MATH 1300 Pre-Calculus
- EXSS 1000 Health and Fitness
- PHYS 2300 Physics I
- PHYS 2400 Physics II
- CSC 1100 Computer Applications

Requirements for the Major in Technology Education (Grades 5-12) (124 Semester hours)

The Technology Education Program prepares students for a teaching career. Successful completion of the 61 credit major enables the graduate to meet the initial licensure requirements of the Commonwealth of Massachusetts. Upon certification, the graduate is eligible to teach in the public schools (grades 5-12) in the common core cluster areas of:

- Communication
- Construction
- M manufacturing
- Power Energy and Transportation
Students complete two courses in each of the four clusters for a total of 24 semester hours. These required courses are designed to provide the individual with minimum technical competencies necessary to teach technology education at the public school level. Basic fundamental processes and safety techniques are presented. Additional technical electives enhance expertise in the Technology/Engineering field. Lastly, the professional sequence (15 semester hours) provides the students with a combination of theoretical and practical experiences in educational pedagogy.

Requirements for Initial Teacher Licensure

For information about undergraduate requirements in teacher preparation, see the section titled: “Teacher Preparation Programs (Undergraduate)”

Students denied admission to the Practicum can appeal to the appropriate department chair.

Additional Required LAS Courses for Initial Licensure in Technology Education

<table>

<tr>
<td>SPCH 1000</td>
<td>Introduction to Speech</td>
</tr>
</tbody>
</table>

Initial Licensure Common Technical Core (30 semester hours)

- ITEC 1710 Tech Analysis
- ITEC 1200 Metal Fabrication Systems
- ITEC 1300 Wood Fabrication Systems
- ITEC 2730 Advanced Manufacturing I

Communications Cluster

- ITEC 1400 Technical Drawing
- ITEC 1500 Graphic Arts Processes
- ITEC 2410 CAD

Construction Cluster

- ITEC 1320 Construction Systems I
- ITEC 2310 Construction Systems II
- ITEC 2400 Architectural Drawing

Power Energy and Transportation

- ITEC 1000 Electronics Systems and Concepts
- ITEC 1100 Electronics I
- ITEC 1600 Energy Systems I

Professional Sequence (19 semester hours)

- ITEC 3800 Methods in Teaching Technology Education
- ITEC 3810 Curriculum Development in Technology Education
- ITEC 4840 Practicum Seminar
- ITEC 4860 Practicum in Technology Education

Advanced Technical Elective (Pick One)

Level 2000 or Higher, such as:

- ITEC 3110 Digital Electronics
- ITEC 3340 Constructions Systems III
- ITEC 3410 Drafting Commercial Structures
- ITEC 3730 Automated Manufacturing II

Requirements for the Major in Industrial Technology

The concentrations offered in the Industrial Technology Program were developed with the intention of providing a pool of highly skilled technologists who can sustain the needs of industry within the Commonwealth as we approach the 21st century.

The concentrations include:
- Architectural Technology
- Construction Technology
- Electronics Engineering Technology
- Energy Engineering Technology
- Manufacturing Engineering Technology
- Technical Theater Arts

Architectural Technology Concentration (126 semester hours)

The Architectural Technology Concentration is designed to develop the technical, analytical, and artistic abilities required to perform the design and planning activities involved in architectural projects and architectural related areas. The planned course sequence introduces architecture from a sound base in academic studies which is followed by a comprehensive study of design and its applications. The program continues with a study of technical systems in architecture, and ends with the development of professional practices. The learning activities throughout the program simulate the tasks that architectural professionals encounter.

Additional Liberal Arts Requirements

- ART 1650 3-D Design
- ART 3300 History of Architecture
- ART 3500 History of Modern Architecture
- MATH 2300 Calculus I

Required courses (66 semester hours)

- ITEC 1000 Electric Systems and Circuits
- ITEC 1310 Materials Testing
- ITEC 1320 Construction Systems I
- ITEC 1450 Architectural Graphics
- ITEC 1600 Energy Systems I
- ITEC 1710 Technical Analysis
- ITEC 1720 Computers in Industrial Technology
- ITEC 2310 Construction Systems II
- ITEC 2400 Architectural Drawing
- ITEC 2410 CAD
- ITEC 2450 Theory of Architecture
- ITEC 2630 Power and Lighting
- ITEC 3220 Product Modeling and Rendering
- ITEC 3300 Estimating and Bidding
- ITEC 3310 Mechanical and Plumbing Systems
- ITEC 3340 Construction Systems III
- ITEC 3410 Drafting Commercial Structures
- ITEC 3430 Architectural Design I
- ITEC 3460 Architectural Design II
- ITEC 3930 Strength of Materials
- ITEC 4350 Site Planning
- ITEC 4470 Architectural Professional Practice
Construction Technology Concentration (123 Semester hours)
The Construction Technology Concentration provides students with information essential for managerial personnel in the construction industry. Students are exposed to a planned sequence of courses preparing them for on-site construction related activities. These include the coordination of workers, materials, subcontractors, and local, state, and federal regulatory agencies.

Required Courses (66 semester hours)
- ITEC 1000 Electric Systems and Circuits
- ITEC 1200 Metal Fabrication Systems
- ITEC 1300 Wood Fabrication Systems
- ITEC 1320 Construction Systems I
- ITEC 1450 Architectural Graphics
- ITEC 1710 Technical Analysis
- ITEC 1720 Computers in Industrial Technology
- ITEC 2310 Construction Systems II
- ITEC 2400 Architectural Drawing
- ITEC 2710 Statics
- ITEC 2740 OSHA
- ITEC 3300 Estimating and Bidding
- ITEC 3310 Mechanical and Plumbing Systems
- ITEC 3320 Construction Supervision
- ITEC 3340 Construction Systems III
- ITEC 3410 Drafting Commercial Structures
- ITEC 3930 Strength of Materials
- ITEC 4310 Seminar in Construction

An additional 9 semester hours of Industrial Technology or declared minor electives are required to complete the program.

Electronics Engineering Technology Concentration (123 Semester hours)
The Electronics Engineering Concentration prepares students for positions in the challenging field of electronics by developing the theoretical and practical skills required for this discipline. The skills students need are acquired through a planned sequence of courses involving classroom work in conjunction with hands-on experience utilizing the most modern testing and measuring equipment.

Required Courses (63 semester hours)
- ITEC 1000 Electric Systems and Circuits
- ITEC 1200 Metal Fabrication Systems
- ITEC 1100 Electronics I
- ITEC 1400 Technical Drawing
- ITEC 1600 Energy Systems I
- ITEC 1710 Technical Analysis
- ITEC 1720 Computers in Industrial Technology
- ITEC 2100 Electronics II
- ITEC 2710 Statics
- ITEC 2730 Automation and Robotics
- ITEC 3100 Electronics III
- ITEC 3110 Digital Electronics
- ITEC 3120 Control Theory
- ITEC 3910 Engineering Experimentation
- ITEC 4100 Industrial Electronics
- ITEC 4110 Electronic Communication Systems
- ITEC 4120 Microprocessor-Based Control

An additional 12 semester hours of Industrial Technology or declared minor electives are required to complete the concentration.

Facilities Management
The Facilities Management concentration provides students with a general base of HVAC, building utilities and energy. The concentration is aimed to find rewarding and challenging careers in this fast growing, heterogeneous and enormously required concentration. Students learn up-to-date methods and techniques that ensure high quality and are required in different industries as well as specialized technical and analytical competencies required of entry-level people who can interface between engineering and other personnel within the manufacturing environment. The competencies are acquired through a planned sequence of courses involving laboratory experiments and additional course work within the Math/Science curriculum. This combination provides the student with the practical knowledge of manufacturing processes, the ability to apply these processes, and the ability to plan, coordinate, and implement aspects of production projects.

Required Courses (66 semester hours)
- ITEC 1000 Electric Systems and Circuits
- ITEC 1200 Metal Fabrication Systems
- ITEC 1300 Wood Fabrication Systems
- ITEC 1600 Energy Systems I
- ITEC 1710 Technical Analysis
- ITEC 1720 Computers in Industrial Technology
- ITEC 2600 Energy Systems II
- ITEC 2630 Power and Lighting Systems
- ITEC 2740 OSHA
- ITEC 3310 Mechanical Plumbing Systems
- ITEC 3600 Energy Conservation Principles
- ITEC 3650 Co-Generation and Waste Recovery System
- ITEC 4250 Seminar in Facilities Management
- ITEC 4600 Performance Contracting for Energy Systems
- ITEC 4700 Project Management

An additional 9 semester hours of Industrial Technology or declared minor electives are required to complete the program.

Manufacturing Engineering Technology Concentration (126 Semester hours)
The concentration is designed to develop both technical and analytical competencies required of entry-level positions within manufacturing engineering support. Students are trained to become resourceful, technically competent people who can interface between engineering and other personnel within the manufacturing environment.

The competencies are acquired through a planned sequence of courses involving laboratory experiments and additional course work within the Math/Science curriculum. This combination provides the student with the practical knowledge of manufacturing processes, the ability to apply these processes, and the ability to plan, coordinate, and implement aspects of production projects.

Required Courses (66 semester hours)
- ITEC 1000 Electric Systems and Circuits
- ITEC 1200 Metal Fabrication Systems
- ITEC 1300 Wood Fabrication Systems
- ITEC 1600 Energy Systems I
- ITEC 1710 Technical Analysis
- ITEC 1720 Computers in Industrial Technology
- ITEC 2410 Computer Aided Drafting
- ITEC 2710 Statics
- ITEC 2730 Automation and Robotics
- ITEC 3310 Mechanical Plumbing Systems
- ITEC 3600 Energy Conservation Principles
- ITEC 3650 Co-Generation and Waste Recovery System
- ITEC 4250 Seminar in Facilities Management
- ITEC 4600 Performance Contracting for Energy Systems
- ITEC 4700 Project Management

An additional 12 semester hours of Industrial Technology or declared minor electives are required to complete the concentration.
ITEC 3710 Quality Control
ITEC 3730 Automated Manufacturing II
ITEC 3900 Production Planning and Control
ITEC 3910 Engineering Experimentation
ITEC 3930 Strength of Materials

An additional 9 semester hours of Industrial Technology or declared minor electives are required to complete the program. An option in this area are courses in plastic technology.

Technical Theater Track (123 Semester hours)

The Technical Theater track is designed to develop a general base of technical, analytical, managerial, and creative competencies aimed toward entry positions in fields of theatrical production. Students are trained to become resourceful, imaginative, and technically competent people who can integrate engineering and artistic techniques with theatrical situations. Students will acquire these competencies through lectures, laboratories, and actual stage productions. These learning activities, accompanied by those of other course selections, provide for a general knowledge of theater, and the ability to apply these skills to theatrical situations.

Electives and internships provide flexibility through which individuals can pursue areas of special interest. The following courses (36 S.H.) are required in the concentration:

Required Courses (63 semester hours)

ITEC 1000 Electric Systems and Circuits
ITEC 1200 Metal Fabrication
ITEC 1300 Wood Fabrication
ITEC 1400 Technical Drafting
ITEC 1500 Graphic Arts Processes
ITEC 1720 Computers in Industrial Technology
ITEC 2410 Computer Aided Drafting
ITEC 3900 Production Planning and Control
TET A 2100 Theatrical Design Skills
TET A 2300 Fundamentals of Stage Lighting Design
TET A 2400 Scene Design
TET A 2500 Costume Design
TET A 3300 Advanced Stage Lighting Design
TET A 3400 Advanced Scene Design
TET A 3600 Stage Makeup
TET A 4100 Stage Management
TET A 4200 Portfolio Presentation
TET A 4940 Theater Internship

The Minor in Industrial Technology
(18 Semester hours)

The minor in Industrial Technology offers a choice of five concentrations:

Manufacturing Technology
ITEC 1310 Materials Testing
ITEC 2410 CAD
ITEC 2730 Automated Manufacturing I
ITEC 3730 Automated Manufacturing II

Two approved electives

Construction Technology
ITEC 1320 Construction Systems I
ITEC 2400 Architectural Drafting
ITEC 3300 Estimating and Bidding
ITEC 3320 Construction Supervision

Two approved electives

Electronics Engineering Technology
ITEC 1100 Electronics I*
ITEC 2100 Electronics II*
ITEC 3100 Electronics III*

Three approved electives

* Students with equivalent course may substitute technical elective.

Industrial Training
ITEC 1720 Computers in Industrial Technology
ITEC 3800 Methods of Teaching Technology Education
ITEC 3810 Curriculum Development in Technology Education

Three approved electives

Prerequisites: Application and departmental approval; prerequisites may be waived based upon an individual's experience and background.

For the Interdisciplinary Graphics Minor, see Graphics.

Industrial/ Organizational Psychology

Chairperson
Margot Kempers

Objectives for the Program in Industrial/ Organizational Psychology

The Program in Industrial/Organizational Psychology will provide students with the skills required for successful employment in the fields of management, supervision, and human resources. The minor in Industrial/Organizational Psychology will be especially useful for business majors who want to pursue careers in human resources or staff management.
Requirements for the Minor in Industrial/Organizational Psychology

The minor in Industrial/Organizational Psychology will require a total of 19 semester hours and will include the following courses:

**Required Courses**

- **PSY 1100** General Psychology
- **PSY 2110** Research Methods
- **PSY 2370** Interpersonal Effectiveness
- Practicum in Industrial/Organizational Psychology (1 semester hour)

**Electives**

Choose three courses:

- **PSY 2610** Organizational Psychology
- **PSY 2620** Work and the Individual
- **PSY 2630** Human Factors/Ergonomics
- **PSY 2655** Organizational Leadership
- **PSY 2660** Psychology of Human Resources

Interdisciplinary Studies

**Coordinator**
George Bohrer

Objectives for the Program in Interdisciplinary Studies

The Bachelor of Science and Bachelor of Arts in Interdisciplinary Studies degrees provide for individually designed, interdisciplinary majors, which allow students to work with faculty advisors to develop a course of study that responds to individual educational and professional goals. Additional objectives are:

- To enable students to explore multidisciplinary areas and to integrate them in a coherent and meaningful way
- To provide the opportunity for broadly-based Liberal Arts and Sciences majors
- To provide the opportunity for majors that combine Liberal Arts and Sciences courses with professional courses
- To provide the opportunity, for a part-time, individually paced education, which allows students to build their academic confidence and integrate their studies more easily into their lives

Description of the Major in Interdisciplinary Studies

There are many possible combinations of course work available through this major, limited only by the breadth of courses offered through the day and evening divisions of the college. When creating a plan of study, a student must have a rationale for a thematic approach to their program.

Criteria for Admissions

There is a formal application procedure for students who choose to major in Interdisciplinary Studies. The purpose of the application is to:

- Set forth the student's academic and professional goals and demonstrate why they are best achieved through the Interdisciplinary Studies Program
- Require students to outline their proposed program
- Stipulate any required independent exercise or internship
- Provide college-level courses and grades

Requirements for the Major in Interdisciplinary Studies

The Interdisciplinary Studies degree is normally awarded as a Bachelor of Science. A Bachelor of Arts is awarded if the student includes foreign language study through the second year of college-level work and concentrates his/her field of study in the Liberal Arts and Sciences fields. Other requirements include:

- A rationale and a thematic organizing principle for each program
- A minimum of 36 semester hours of coursework for the major with a college-approved minor within one of the three fields
- A minimum of 9 semester hours in each of the other two fields
- A common core of three Liberal Arts and Sciences interdisciplinary courses:
  - **IDIS 1800** Global Issues
  - **MUSC 2000** Commonwealth of the Arts or **MUSC 2100** Commonwealth of the Ancient Arts
  - **PHIL 1100** Logic or **PHIL 2600** Philosophy of Human Nature or **PHIL 3340** Contemporary Philosophy or **PHIL 4430** Marxism
- A senior-year “Capstone” course intended to help students to integrate the various fields of study. This may take the form of an independent study or an internship (3–15 semester hours)
- A minimum 30 semester hours of course work completed after the program of study is approved and filed with the registrar
- Students must be admitted to the major prior to their senior year

Students' programs must meet the approval of their Interdisciplinary Studies advisor.

Interdisciplinary Studies Major for Early Childhood, Elementary

Students in Early Childhood, Elementary, and Special Education are required to select Interdisciplinary Studies as their Liberal Arts and Sciences major.

**Required**

- **IDIS 1800** Global Issues
- **IDIS 4000** Capstone with Seminar
- **MUSC 2000** Commonwealth of the Arts or **MUSC 2100** Commonwealth of the Ancient Arts
- **PHIL 1100** Logic
Choose 3 Areas:
Students are required to have 1 minor and 2 concentrations from 4 curriculum areas in bold below approved deemed appropriate by the advisor minor. This plan shows the English minor.

**English (Minor—18 credits)**
- ENGL 2000 American Literature I: Exploration to Civil War or
- ENGL 2001 American Literature II: Civil War to Present
- ENGL 2200 English Literature I: Beowulf to Milton or
- ENGL 2210 English Literature II: Pepys to Shelley or
- ENGL 2220 English Literature III: Bronte to Rushdie
- ENGL 2300 Literature and Disability
- ENGL 2400 World Literature I or
- ENGL 2500 World Literature II
- ENGL 2900 Children's Literature
- ENGL 3000+ Literature elective

**History/Social Science (12 credits)**
- HIST 1000 World Civilization I or
- HIST 1100 World Civilization II
- HIST 1400 US History I and
- HIST 1500 US History II
- ECON 1250 Introduction to Economics for N on-majors or
- POLS 1000 US Government

**Math (9 credits)**
- MATH 1250 Functions
- MATH 1400 Math Across the Curriculum
- MATH 1700 Applied Statistics
- MATH 2000 Informal Geometry
- PHIL 1100 Logic

**Science (9-10 credits)**
- GEOG 1000 Intro to Geography
- Choose 2 of the following:
  - BIO L 1000 Life Science I or
  - BIO L 1100 Life Science II
  - BIO L 1200 Anatomy and Physiology I
- GEO G 1300 Earth, Sea, and Air
- PHYS 1100 Physical Science I or
- PHYS 1200 Physical Science II

**Interdisciplinary Studies Major for Special Education Majors**
Students in Special Education are required to select Interdisciplinary Studies as their Liberal Arts and Sciences major.

**Required**
- IDIS 1800 Global Issues
- IDIS 4000 Capstone with Seminar
- MUSC 2000 Commonwealth of the Arts or
- MUSC 2100 Commonwealth of the Ancient Arts
- PHIL 1100 Logic

Choose 3 Areas:
Students are required to have 1 minor and 2 concentrations from 4 curriculum areas in bold below approved deemed appropriate by the advisor minor. This plan shows the English minor.

**English (Minor—18 credits)**
- ENGL 2000 American Literature I: Exploration to Civil War or
- ENGL 2001 American Literature II: Civil War to Present
- ENGL 2100 American Literature III: Bronte to Rushdie
- ENGL 2200 English Literature I: Beowulf to Milton or
- ENGL 2210 English Literature II: Pepys to Shelley or
- ENGL 2220 English Literature III: Bronte to Rushdie
- One Literature elective at the 3000 level
- One Literature elective at the 4000 level

**Area I: Physical Sciences (9-10 credits)**
- GEOG 1000 Intro to Geography
- Choose 2 of the following:
  - BIO L 1000 Life Science I or
  - BIO L 1100 Life Science II
  - BIO L 1200 Anatomy and Physiology I
  - GEO G 1300 Earth, Sea, and Air
  - PHYS 1100 Physical Science I or
  - PHYS 1200 Physical Science II

**Area II: Math (9 credits)**
- MATH 1250 Introduction to Functions
- MATH 1400 Math Across the Curriculum
- MATH 1700 Applied Statistics
- MATH 2000 Informal Geometry
- PHIL 1100 Logic

**Area III: History/Social Science (9 credits)**
- ECON 1250 Introduction to Economics for N on-majors
- Choose 1 of the following:
  - HIST 1400 US History I
  - HIST 1500 US History II
  - POLS 1000 US Government
  - HIST 1000 World Civilization I
  - HIST 1100 World Civilization II
  - HIST 1150 World Civilization III

**Interdisciplinary Studies Major for Middle School Education Majors**
Students in Middle School Education who elect Interdisciplinary Studies as their second major are required to select two areas among English, Social Sciences, Mathematics or General Science (to include Biology, Geophysical Science, and Chemistry) as defined by Massachusetts Department of Education. Students will select the areas with the guidance of their advisor in Interdisciplinary Studies in order to remain in compliance with the Massachusetts Department of Education licensure requirements for Middle School Teacher.

Students will complete their capstone during student teaching. They will develop an Integrated Unit, which incorporates the 2 areas of study. The capstone will be approved by the Interdisciplinary Studies Chair and supervised by the faculty of the Early Childhood, Elementary, and Middle School Education Department and the cooperating teacher from the school where the student is student teaching.

**Required**
- IDIS 1800 Global Issues
- IDIS 4000 Capstone with Seminar
- MUSC 2000 Commonwealth of the Arts or
- MUSC 2100 Commonwealth of the Ancient Arts
- PHIL 1100 Logic
Students are required to have a college approved minor (18 semester hours) in Math, History, or English Literature and a minimum of 9 semester hours in each of 2 clusters in one other area. Students will select courses in each cluster with the guidance of their advisor in Interdisciplinary Studies to ensure they meet course prerequisite requirements and licensure content competencies. Additional semester hours within one of the areas may be needed to fulfill current content competencies and licensure requirements.

Interdisciplinary Studies (Humanities)*

Chairperson
James Colbert

Objectives for the Major
The Humanities Department offers an Interdisciplinary Studies major.

Criteria for Admissions
Students interested in such a major should contact one of the designated faculty of the Humanities Department who assists the student in the choice and the design of the major from the disciplines listed below.* The Humanities Department maintains the advising records, issues a progress report, and informs the registrar.

Requirements for the BS in Interdisciplinary Studies
Students must fulfill the core LAS requirements and select one of the three tracks outlined below.

Core LA&S Requirements for the BS in Interdisciplinary Studies
A common core of three Liberal Arts and Sciences interdisciplinary courses: IDIS 1800, Global Issues; MUSC 2000, Commonwealth of the Arts or MUSC 2100, Commonwealth of the Ancient Arts; and PHIL 1100, Logic or PHIL 2600, Philosophy of Human Nature or PHIL 3340, Contemporary Philosophy or PHIL 4430, Marxism.

Track I
Choose a minimum of 36 semester hours of coursework for the major with a college-approved minor in Art, Music, History, or Philosophy; a minimum of 9 credits in two of the other fields, and the Seminar in Humanities.

IDIS 4000 Seminar in the Humanities for 3 credits.

Track II
A second option in the Interdisciplinary Studies (Humanities) major combines courses in Language, Literature, and History. Choose a minimum of 36 semester hours for the major with a college-approved minor in French, German, or Spanish; a minimum of 9 credits each in Literature and History and the Seminar in Humanities.

The above language programs also require courses in literature and history.
Literature Requirements
Select 9 semester hours from the following courses:
ENGL 2000 American Literature from the Age of Exploration to the Civil War
ENGL 2100 American Literature from the Civil War to the Present
ENGL 2400 World Literature I
ENGL 2500 World Literature II
ENGL 3300 Women and Literature

History
Select 9 semester hours from the following:
PHIL 1000 Introduction to Western Philosophy
HIST 1000 World Civilization I
HIST 1100 World Civilization II
HIST 1150 World Civilization III
HIST 1400 U.S. History I
HIST 1500 U.S. History II
HIST 2000 Medieval Europe
HIST 2100 20th-Century Europe
HIST 2700 History of Mexico, Central America, and the Caribbean
HIST 2750 History of South America
HIST 3300 Modern Russia
HIST 3350 20th Century Russia
IDIS 4000 Seminar in the Humanities for 3 credits.

Track III
In a third option in the Interdisciplinary Studies (Humanities) major, students choose a minimum of 36 semester hours for the major with a college-approved minor in Music, Art, Dance, or Literature/Theater; a minimum of 9 credits in two other fields, and the Seminar in the Humanities.

Music
MUSC 1000 Art of Music
MUSC 2200 Basic Music Theory or Upper-Level Music History class
MUSC 4000 Choral Arts* or
MUSC 4100 Instrumental Arts or
MUSC 4200 Class Piano or
MUSC 4300 Class Voice or
*Three one-credit music studio courses.

Art
ART 1100 Art Appreciation
ART 1150 Survey of Art Forms I or
ART 1160 Survey of Art Forms I or
ART 1400 Drawing or
ART 1450 Introductory Painting or
ART 1600 Design or
ART 1650 Three-Dimensional Design or
ART 1840 Sculpture or
ART 2200 Life Drawing or
*Any other Upper-Level Studio Art class

Dance
PHED 4050 Art of Dance
PHED 4130 Making Dance: Choreography and Composition
THEA 1700 Stage Movement or
THEA 2000 Introduction to Theater
THEA 2700 Acting I
ENGL 3000 World Drama or
ENGL 3200 Modern Drama or
any other Upper-Level Dramatic Literature class.
PHED 4050 Art of Dance
THEA 1700 Stage Movement or
THEA 2000 Introduction to Theater
THEA 2700 Acting I
ENGL 3000 World Drama or
ENGL 3200 Modern Drama or
any other Upper-Level Dramatic Literature class.

International Studies
Chairperson
Michael Turk

Objectives for the International Studies Program
The International Studies Program provides students in all majors with the opportunity to examine international historical and current issues to increase their global awareness and their abilities to interact with peoples from diverse cultures. A minor in International Studies is offered by the program. For more information, please contact the Social Science Department or the International Education Office.

Requirements for the Minor in International Studies
The minor in International Studies has several options. Students should consult an advisor to select the option best suited to their interests. A total of 18-credits is required for the minor.

Required
IDIS 1200 Introduction to International Studies

At least three courses in the minor must be at the 2000 level or above. At least one course must be selected in three of the following categories:
- History, Political Science and Anthropology
- Business and Economics
- Art, Music or Dance
- Language, Literature, Culture or Philosophy

A. History, Political Science and Anthropology
The following are courses which can be used for the minor:
HIST 1000 World Civilization I
HIST 1100 World Civilization II
HIST 1500 World Civilization III
HIST 2000 Medieval Europe
HIST 2100 20th Century Europe
HIST 2150 20th Century Germany
HIST 2160 Holocaust
HIST 2700 History of Mexico, Central America, and the Caribbean
HIST 2800 Far East before 1800
HIST 2850 Modern Far East
HIST 2900 Middle East History to 1500
HIST 2920 Middle East History Since 1500
HIST 3200 History of India Since 1500
HIST 3300 Modern Russia
HIST 3350 20th Century Russia
HIST 3450 Women in Europe History
*ENGL 1100/1200; HIST 1000 or HIST 1150 or Intermediate European History elective
HIST 3950 Contemporary Latin America
IDIS 1100 Women in Latin America
Leadership Academy (Honors Program)

Director
Stanley J. Bucholc

Objectives for the Leadership Academy
The Leadership Academy provides an enriched, stimulating set of courses for the best-prepared and most qualified students. Students will be admitted to the program in the freshman year or may apply to transfer into it in the sophomore or junior years. Students who complete the program do so in lieu of the Liberal Arts and Sciences requirements. Students who cannot or do not wish to finish the entire program may complete a Leadership minor; those students will also need to complete the LA&S requirements, not satisfied by completed LEAD courses.

The goal of the Leadership Academy is to educate leaders for the 21st century. In order to accomplish this task, the program has established an integrated set of courses, which incorporate six themes (globalization, communication, computerization, science and technology, ethics and diversity) are taught over a four-year sequence. Students must have a high level of proficiency in research, writing and computer skills; must be effective team members; and must be able to present their ideas in formal and informal settings. They are expected to apply their learning in both the college and the larger community through a series of extra curricular activities, volunteer positions and service learning, co-curricular activities. A gpa of 3.3 must be maintained to continue in the academy.

Criteria of Invitation to Leadership Academy
Freshmen students are invited to join the Leadership Academy based on their high school preparation, SAT scores, and documented evidence of leadership potential. Upperclass applications will also be considered based on gpa and evidence of leadership potential.

Curriculum for the Leadership Academy
The Leadership Academy curriculum creates a solid foundation of leadership knowledge and skills in the first year and builds on this base in each of the succeeding years. A minimum of 6-8 credits must be taken per semester.

First Year Curriculum (22 credits)
LEAD 1000 Colloquium on Community 1 credit
LEAD 1005 Foundations of Leadership I 3 credits
LEAD 1025 Service Learning Project 1 credit
LEAD 1050 Honors English I 3 credits
LEAD 1140 Leadership in the Outdoors 1 credit
*LEAD 1150 Changing World I (19th century) 3 credits
LEAD 1200 Honors English II 3 credits
*LEAD 1250 Changing World II (20th century) 3 credits
*LEAD 2000 Leaders in the Humanities I 3 credits
LEAD 2001 Leaders in the Humanities I Colloquium 1 credit
LEAD 2030 Consumer Health 1 credit

Second Year Curriculum (8 credits)
LEAD 2010 Foundations of Leadership II 3 credits
*LEAD 2050 Leaders in the Humanities II (20th Century) 3 credits
LEAD 2051 Leader in the Humanities II Colloquium 1 credit
Third Year Curriculum (9 credits)
*LEAD 3000 Physics, Mathematics, and Technology 4 credits
*LEAD 3050 Biology, Mathematics, and Technology 4 credits
LEAD 3051 Biology/Mathematics/Ethics Colloquium 1 credit

Fourth Year Curriculum
Senior Thesis/Project/Research and Writing 6 credits
**Language Requirement 12 credits

**All students in the Leadership Academy will also demonstrate proficiency in a foreign language at the intermediate level. This requirement can be met through examination or coursework.
* A student may take the Changing World, Leaders in the Humanities, or Physics/Mathematics/Technology-Biology/Mathematics/Technology in years other than those specified. Colloquia that complement these courses should be taken concurrently.

Leadership Minor
Students who enter the program as sophomores or juniors, or students who choose to leave the program before completion, may elect to complete a Leadership Minor. A minimum of 6-8 credits must be taken per semester. The minor will consist of the following courses:

Required
LEAD 1005 Foundations of Leadership I 3 credits
LEAD 1010 Foundations of Leadership II 3 credits
Select one or two of the following year-long course sequences:
LEAD 1050 Honors English I and
LEAD 1200 Honors English II 6 credits
LEAD 1150 Changing World I and
LEAD 1250 Changing World II 6 credits
LEAD 2000 Leaders in the Humanities (19th century) and
LEAD 2050 Leaders in the Humanities (20th century) 6 credits
LEAD 3000 Physics, Mathematics, and Technology and
LEAD 3050 Biology, Mathematics, and Technology 8 credits
LEAD 4990 Senior Thesis/Project 6 credits

If only one of the above course groups is chosen, students will use the senior project as part of the minor(6). Students should consult with the Leadership Academy Director and their major advisors if they wish to use this option.

Two colloquia: 2 credits
These will be the colloquia which are taught concurrently with the courses the student has chosen as part of his/her minor:
LEAD 1000 Our Many Communities 1 credit
LEAD 2001 Leaders in the Humanities I Colloquium 1 credit
LEAD 2051 Leader in the Humanities II Colloquium 1 credit
LEAD 3051 Biology/Mathematics/Ethics 1 credit
LEAD 1025 Service Learning Project 1 credit
LEAD 1140 Leadership in the Outdoors 1 credit

Leadership Academy Club
All students in the Leadership Academy are also members of the Leadership Academy Club. The club is active in campus life and sponsors speakers and performers for the campus as well as trips to cultural sites and performances.

Mathematics
Chairperson
Claire McAndrew
Professors
Christine Cosgrove
Lucy Dechene
Associate Professors
Gerald Higdon
Claire McAndrew
Assistant Professors
Mary Ann Barbato
Robert Bentley
Mark Snyder
Abdulkeni Zekeria
Instructor
Judith Salmon

Objectives for the Program in Mathematics
The Department of Mathematics serves all students at the college. Mathematics majors receive a comprehensive foundation in abstract and applied mathematics as preparation for graduate school or a professional career. Majors in Mathematics receive the mathematical foundation needed for advanced work in their major field. The department also provides non-majors with courses for their major or with courses for their Liberal Arts and Sciences Program.

Requirements for the Major in Mathematics
The Bachelor of Science and the Bachelor of Arts in Mathematics is comprised of 42 credit hours of course work, including the following requirements:
MATH 2300 Calculus I
MATH 2400 Calculus II
MATH 2500 Introduction to Mathematical Thought
MATH 2600 Linear Algebra
MATH 3000 Calculus III
MATH 3400 Calculus IV
MATH 3900 Mathematics Seminar
At least 15 additional semester hours of advanced mathematics (3000 or 4000 level, nine of which must be at the 4000 level)
One course in Computer Science at the level of CSC 1500 or higher.
Note: MATH 4850, MATH 4860, and MATH 4870 are not advanced mathematics courses.
Graduate courses may be substituted for 4000 level courses. The Bachelor of Arts degree requires foreign language proficiency at the second year level.
Mathematics majors fulfill the Listening and Speaking requirements of the Liberal Arts and Sciences program by successfully completing one of the following three courses:
SPCH 1000 Introduction to Speech Communication
SPCH 1100 Argumentation and Debate
SPCH 1200 Business and Career Communication
BS in Mathematics with Initial Teacher Licensure

Students within our Mathematics major can pursue initial licensure as high school Mathematics teachers. This program provides students with both a broad introduction to high school teaching and specific instruction in the theory, research and practice of secondary Mathematics teaching. Students engage in field-based experiences in the school setting supervised by our faculty through on-site pre-practicum experiences coupled with each teaching course and a formal teaching practicum as the capstone experience. This program is nationally accredited by NCATE and boasts graduates working in high schools throughout the region.

Students interested in pursuing Initial Teacher Licensure must apply for formal admission to the program.

For information about undergraduate requirements in teacher preparation, see the section titled: “Teacher Preparation Programs (Undergraduate).”

Students denied admission to the Practicum can appeal to the appropriate department chair.

Core Courses for Initial Licensure in Mathematics

- MATH 2860 Introduction to Secondary School Teaching
- MATH 3000 Geometry
- ENGL 4700 Teaching Writing in Middle and Secondary Schools
- MATH 4200 Probability and Statistics I
- MATH 4850 Special Methods in Mathematics
- MATH 4860 Mathematics Practicum in Secondary School (150 hrs.)
- MATH 4870 Mathematics Practicum in Secondary School (150 hrs.)
- SPED 3800 Secondary Program for Adolescents with Special Needs

Post Baccalaureate Program in Mathematics, 8-12

Students who hold a bachelor's degree and wish to become a secondary level (grades 8-12) teacher of Mathematics, may complete a post baccalaureate program that consists of the equivalent of a degree in the subject the individual wishes to teach and 18 credit hours of pedagogical coursework in education.

Students who are interested in the program must meet the following criteria:

- Evidence of a bachelor's degree
- A GPA of 2.8 or better
- Successful completion of the Massachusetts Test for Educator Licensure: Communication and Literacy Skills Sub-test

Having met the above criteria, students enrolled in the post-baccalaureate program will be eligible to apply for graduate assistantships. Students enrolled in the program will be counted toward the compensation load of the Graduate Program Chair or GCE advisor. Supervision of a practicum and pre-practicum students in this program will count as part of a professor's full-time day load in accordance with the provisions of the day contract, unless the faculty member chooses compensation from GCE.

Once accepted, students will undergo a transcript review by the Graduate Program Chair or undergraduate advisor, as designated by the department and a plan of study will be developed that address:

- Courses missing (if applicable) in the subject that are equivalent to the requirements for the major will be determined through a transcript review. Students will complete all requirements of the major and license as identified in the undergraduate program.
- Courses as identified below in the teacher preparation program (pedagogy courses):

  - When courses are in a student's plan of study, he/she will complete the plan of study at the undergraduate level, or at the graduate level if the equivalent is offered.

  - Other courses are in a student's plan of study, he/she will complete the plan of study at the undergraduate level, or at the graduate level if the equivalent is offered.

  - Post baccalaureate program (pedagogy courses):

    - MATH 2860 Introduction to Secondary Education
    - ENGL 4700 Teaching Writing in Middle and Secondary Schools
    - SPED 3800 Secondary Program for Adolescents with Special Needs

Requirements for the Minor in Mathematics

A minor in Mathematics is comprised of 23 semester hours:

- Eight semester hours of Calculus I and II
- Either Abstract or Linear Algebra
- Four elective courses chosen as follows:
  - one or more at the 3000-level
  - one or more at the 4000-level
  - At most one of Discrete Mathematics, Informal Geometry or Introduction to Mathematical Thought

Music

Objectives for the Program in Music

The Program in Music provides students with the opportunity to actively engage in music through instrumental or choral work. Courses are designed to fulfill the arts requirement in the Liberal Arts and Sciences Program and to study the history of music at different times across many cultures. A minor is also available.
Requirements for the Minor in Music
The minor in Music requires 18 semester hours of course work. Students must take the following:

- MUSC 1000 Art of Music
- MUSC 2000 Commonwealth of the Arts
- MUSC 2200 Basic Music Theory
- MUSC 4500 Harmony I
- MUSC 4000 Choral Arts
- MUSC 4100 Instrumental Arts (3 credits)

The remaining 6 semester hours may be taken from approved music electives.

Criteria for Admissions and Retention
The majority of departmental admissions are freshmen selected from qualified high school graduates. One year of high school chemistry is required for admission into the nursing major. The department also admits transfer students, who are not licensed nurses, but who meet the prerequisites for the sophomore year courses, as well as registered nurses who meet the prerequisites of the alternative junior year.

Registered Nurses are provided with a variety of opportunities to achieve advanced placement in Liberal Arts and Sciences courses and in nursing via the CLEP program, College examinations, Ace II examinations, a Portfolio Review Process, and Articulation Agreements with numerous community colleges.

As a professional preparation program, successful progress in the major necessitates requirements in addition to those common to all college students. These include:

- A grade of 2.5 or better in Anatomy and Physiology I and II, Pre-Biochemistry I, Elements of Human Biochemistry and Organic Chemistry, Survey of Microorganisms and Nutrition.
- A grade of 82 or above on the Accuplacer Math Readiness Exam, or completion of Basic Math I and/or Basic Math II with a grade of 2.5 or better. This requirement must be completed prior to enrolling in NURS 2900.
- A grade of 2.5 or better in all nursing (NURS) courses. Students who fail to earn a 2.5 in one nursing course have one time option to repeat this course one time. Failure to achieve a 2.5 when the course is repeated will result in disenrollment from the major.
- A Criminal Offense Record Investigation (CORI) and/or Sexual Offense Record Investigation (SORI) may be required by multiple clinical agencies. This may involve additional student costs.

Objectives for the Program in Nursing
The degree offered is the Bachelor of Science with a major in nursing. The purpose of the program in nursing is to prepare practitioners of professional nursing who can assume responsibility for planning and providing health care to individuals, families, and groups in a variety of settings in collaboration with other professionals. The program also provides a solid foundation for graduate study in nursing.

Description of the Program in Nursing
As the first Department of Nursing in the State College System, the Nursing Program has a long and proud history. It is:

- Approved by the Board of Registration in Nursing
- Accredited by the Commission on Collegiate Nursing Education (CCNE)
- Supporting a chapter of Sigma Theta Tau, the International Nursing Honor Society
- Supporting a chapter of the National Student Nurses Association

It provides well equipped laboratories for on-campus practice of clinical skills with computer and audiovisual support, and a wide variety of client care opportunities in affiliated health care agencies. All senior students participate in a 21 hour/week preceptorship capstone clinical experience. Its graduates are in great demand in the professional job market, and many have earned advanced degrees and have progressed to leadership positions in practice, administration, research, and education.

Requirements for the Major in Nursing
Graduation requires a minimum of 124 semester hours of credit comprised of:

- 62 credit hours of nursing
- 40 hours of required core courses in Liberal Arts and Sciences
- 22 hours of elective Liberal Arts and Sciences credits
Each semester of nursing after the pre-nursing freshman year includes a clinical/laboratory component as well as classroom theory. A variety of inpatient and community agencies in central and eastern Massachusetts offer practice opportunities to assist students toward professional competency.

To provide majors with assistance to meet the progression requirements and achieve success in the program, the department uses individual academic and personal advising by nursing faculty, referrals to campus services, and internal departmental resources. All senior students select an area of nursing practice for concentrated study in accordance with individualized learning objectives.

Part-time study is available to majors in lower division course work and to registered nurse students.

**Required Courses**
- NURS 2300 Health Assessment
- NURS 2500 Pathophysiology I
- NURS 2600 Pathophysiology II
- NURS 2700 Foundations of Nursing
- NURS 2900 Medical-Surgical Nursing I
- NURS 3200 Mental Health Nursing
- NURS 3300 Maternal-Newborn Nursing
- NURS 3400 Medical-Surgical Nursing II
- NURS 3900 Pediatric Nursing
- NURS 4000 Nursing Research
- NURS 4400 Community Health Nursing
- NURS 4750 Chronic Illness
- NURS 4800 Selective Practicum
- NURS 4850 Leadership and Management

**RN Students**
- NURS 3500 Concepts of Nursing I
- NURS 3650 Concepts of Nursing II
- NURS 4000 Nursing Research
- NURS 4400 Community Health Nursing
- NURS 4750 Nursing Process in Home Health Care
- NURS 4800 Selective Practicum
- NURS 4850 Leadership and Management

Successful completion of the Ace II Examination, or articulation or agreements waive RN students from sophomore and junior nursing courses.

**Liberal Arts Requirements**
- BIOL 1200 Anatomy and Physiology I
- BIOL 1300 Anatomy and Physiology II
- BIOL 1650 Nutrition
- BIOL 2700 Survey of Microorganisms
- CHEM 1100 Pre Biochemistry I
- CHEM 1200 Pre Organic Chemistry
- ENGL 1100 Writing I
- ENGL 1200 Writing II
- MATH 1700 Applied Statistics
- PSY 1000 General Psychology
- PSY 2200 Human Growth and Development
- SOC 1100 Introduction to Sociology

**Peace Studies**

**Chairperson**
Michael Turk

**Objectives for the program in Peace Studies**
Peace Studies is an interdisciplinary minor that guides students towards an understanding of how and why conflicts originate and the multiple ways that conflicts may be successfully managed. The minor introduces students to the background and skills they will need to lead their national and international contemporaries toward a more peaceful world. After completing the minor, students will be better able to recognize the factors that lead to conflict, appreciate different historical, political, ethical and religious perspectives, and draw on a repertoire of techniques for achieving and sustaining peaceful coexistence.

**Requirements for the Minor in Peace Studies**
- The Peace Studies Minor requires 18 semester hours and the following:

**Required Courses**
- IDIS 1000 Introduction to Peace Studies
- IDIS 2100 Dilemmas of Peace and War

At least four courses from the “Origins of Conflict” and “Visions of Peace” categories with a minimum of one course in each of these categories:

**“Origins of Conflict” Electives**
- IDIS 1200 Intro to International Studies
- IDIS 1800 Global Issues
- ECON 2500 Economic Development
- SOC 2500 Race and Ethnic Relations
- SOC 2600 Sociology of Developing Societies
- SOC 3000 Social Stratification
- POLS 2200 International Relations
- POLS 3800 Third World Politics, Economics and Society
- PSY 2250 Psychology of Women
- PSY 2400 Psychology of Captivity

**“Visions of Peace” Electives**
- PHIL 3610 World Religions
- PSY 2370 Interpersonal Effectiveness
- PSY 2550 Group Dynamics
- PSY 2570 Small Group Leadership
- SOC 2250 Cultural Anthropology

**Philosophy**

**Chairperson**
James Colbert

**Professors**
James Colbert
Ali Errishi
Walter Jeffko

**Objectives for the Program in Philosophy**
The Philosophy program provides a variety of courses which fulfill requirements in the Liberal Arts and Sciences Program. These courses explore philosophical inquiry from its beginnings to the present, reviewing the history of ideas and the development of ethical systems. A minor is also available.
Requirements for the Minor in Philosophy
The Philosophy Minor requires 15 semester hours. There is a prerequisite of PHIL 1000 or PHIL 1100. Courses for the minor must include:

PHIL 3310 Ancient and Medieval Philosophy
PHIL 3330 Renaissance and Modern Philosophy or
PHIL 3340 Contemporary Philosophy

At least one course from the following:

PHIL 2500 Contemporary Ethical Problems
PHIL 2550 Contemporary Ethical Systems
PHIL 2600 Philosophy of Human Nature
PHIL 3600 Philosophy of Religion
PHIL 4500 Philosophy of Love

Two additional Philosophy courses

Requirements for the Major in Political Science
The Bachelor of Science and Bachelor of Arts in Political Science require 36 hours of course work. All BA and BS candidates will pick an area of concentration after consulting with their faculty advisor.

Required Courses

CSC 1100 Computer Applications
PHIL 4200 Political and Social Philosophy
POLS 1000 U.S. Government
POLS 1100 Introduction to Political Science
POLS 2200 Contemporary International Relations
SOC 3130* Basic Skills of Social Research
SPCH 1000 Introduction to Speech or
SPCH 1100 Argument and Debate

*SOC 1000 Introductory to Sociology is a prerequisite for this course.

Concentrations
With the assistance of their academic advisor, students will select an area of concentration in American Government/Law or International Politics. Select four courses from:

American Government/Law

POL 1500 State and Urban Government
POL 2270 Introduction to the Legal Process
POL 2550 Sex, Race and Constitution
POL 2600 The First Amendment
POL 2700 Criminal Procedure: Rights of the Accused
POL 3000 Public Policy Analysis: Case Studies in American Politics
POL 3500 Constitutional Law
POL 4350 Moot Court

or

International Politics

IDIS 1300 Introduction to Peace Studies
IDIS 1800 Global Issues
POL 2500 Political Systems of the Modern World
POL 3700 Asian Politics and Culture
POL 3800 Third World Politics, Economics and Society

Capstone
Each student must select one of the following:

- Internships in Political Science
- Legal Internship
- Senior Seminar in Political Science

Requirements for the Minor in Political Science
The Minor in Political Science includes:

Required Courses

POL 1000 U.S. Government
POL 1100 Introduction to Political Science

Electives
Choose four courses with at least one from the above concentrations.

Objectives for the Program in Political Science
Courses in Political Science are intended for any student with a general interest in politics and government. They are also designed to provide a proper background for students interested in pursuing graduate study or a career in law, public administration, or government and political science.

Physics
Chairperson
Lawrence Guth
Professor
Ali Errishi
Associate Professors
Lawrence Guth, Jiang Yu

Objectives for the Physics Program
The Physics Program offers a variety of courses which fulfill the laboratory science requirement for all students.

PHYS 1100, 1200, 2000, are for non-science majors and are strongly recommended for satisfying the Liberal Arts and Sciences requirements.

PHYS 2300 and 2400 are the standard non-calculus General Physics courses offered at most baccalaureate institutions. The sequence is taken by chemistry, biology, computer sciences, mathematics, and most industrial technology majors. They are also appropriate to the non-science major interested in applying mathematical problem-solving techniques to physical settings.

PHYS 2000, 3100, 3200, 3300, 4100, and 4200 are all advanced courses that are offered from time to time in the form of free electives to those students who have had PHYS 2300 and 2400 and have shown keen interest in physics and mathematics.

Political Science
Chairperson
Michael Turk
Associate Professor
Eric Budd, Rod Christy
Assistant Professors
Paul Weizer, Joshua Spero

Objectives for the Program in Political Science
Courses in Political Science are intended for any student with a general interest in politics and government. They are also designed to provide a proper background for students interested in pursuing graduate study or a career in law, public administration, or government and political science.
Objectives for the Program in Psychology

The goal of the Psychology Program is to educate students in the scientific study of human behavior. The program combines theoretical, methodological, and applied topics enabling students to acquire knowledge and skills that enrich their personal lives and work careers.

The Psychology Program is a component of the Behavioral Sciences Department. It serves majors and minors in the discipline and offers supportive courses for a variety of other programs in the college.

Requirements for the Psychology Major

The degrees of Bachelor of Arts and Bachelor of Science in Psychology require a minimum of 37 semester hours of course work in Psychology, beyond the course in General Psychology. (The Bachelor of Arts degree requires foreign language proficiency at the second year college level.)

The program is divided into three groups of courses:

- Required courses
- Area electives
- Integrated or pre-professional courses

Group I—Required Courses

Requirements for Concentrations in Psychology

Any students majoring or minoring in Psychology may choose to develop special expertise in one of two areas: Developmental Psychology or Industrial/Organizational Psychology. In either case, students should consult the Psychology Student Handbook for guidelines.

Concentration in Industrial and Organizational Psychology

This concentration is designed to prepare students to enter a wide range of occupations in business and industry. It is particularly appropriate for students who want to pursue careers in personnel or human resource functions.

The concentration requires students to take 12 semester hours of course work from the courses listed below:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 2610</td>
<td>Organizational Psychology (required)</td>
</tr>
<tr>
<td>PSY 2620</td>

<td>Human Factors/Ergonomics</td>
</tr>
<tr>
<td>PSY 2660</td>
<td>Psychology of Human Resources</td>
</tr>
<tr>
<td>PSY 2655</td>
<td>Organizational Leadership</td>
</tr>
</tbody>
</table>

Topics in Psychology (when applicable)

Internships in Industrial and Organizational settings are available and strongly recommended for students taking this concentration.
Concentration in Developmental Psychology

This concentration is appropriate for students who plan to undertake advanced work in developmental psychology or who seek future employment in related fields.

Students must take at least 12 semester hours of course work from two groups of courses:

- Courses in Group I provide an introduction to various topics in developmental psychology
- Courses in Group II provide opportunities for in-depth exploration of issues through basic research and special projects

**Group I**

Choose three of the following courses:
- PSY 2210 Child Psychology
- PSY 2230 Adolescent Psychology
- PSY 2240 Adult Development
- PSY 2250 Psychology of Women
- PSY 2260 Gerontology: The Psychology of Growing Old
- Topics in Psychology (where applicable)

**Group II**

Choose one of the following courses:
- PSY 3220 Advanced Child Psychology
- PSY 4810 Practicum in Psychology
- PSY 4820 Practicum in Psychology
- PSY 4950 Internship in Psychology
- PSY 4960 Internship in Psychology
- PSY 4900 Independent Study (when applicable)

Requirements for the Minor in Psychology

The minor in Psychology requires a minimum of 18 semester hours of course work beyond the course General Psychology. The Psychology minor is designed to enable the student to:

- Understand and evaluate psychological research and literature
- Choose courses which complement and relate to the major field of study
- Explore a particular interest in psychology in some depth

Accordingly, the following course organization is required:

**Group I**

Two courses are required.
- PSY 1100 General Psychology
- PSY 2110 Introduction to Research Methods

**Group II**

At least one course is to be taken from each of any three of the four areas described under the major: Adaptive, Applied Studies, Basic Processes, and Developmental.

The remaining required courses may be selected from either the integrative courses (Group III) or any one of the above mentioned areas. Courses may also include:
- PSY 2220 Human Growth and Development
- PSY 2750 Tests and Measurements

Public Service Management

Chairpersons
- Margot Kempees
- Michael Turk
- Joe McAloon

Objectives for the Program in Public Service Management

The program in Public Service Management is an interdisciplinary minor from disciplines of Human Services, Business Administration, Political Science, Psychology, Sociology, and Computer Science. The minor in Public Service Management focuses on the policies and management practices of public service organizations in order to strengthen the knowledge base and skills set of the student interested in a career in those fields serving the public needs.

Requirements for the Minor in Public Service Management

**Required Courses (9 semester hours)**
- HMSV 3580 Social Welfare Policy or
- POLS 3000 Public Policy Analysis
- HMSV 3000 Human Services Management or
- Public Administration
- POLS 3000 Public Policy Analysis
- HMSV 1150 Community Resources

**Elective Courses (9 semester hours)**
- CSC 1100 Computer Applications Programming I
- PSY 2370 Interpersonal Effectiveness
- PSY 2620 Work and the Individual
- SOC 2650 Sociology of the Organization
- BSAD 3210 Human Resources Management
- HMSV 3400 Community Organization
- BSAD 3500 Business Law I
- BSAD 4210 Social and Political Environments of Business
- BSAD 4250 Ethical Decisions in Business

Social Science Minor

Chairperson
- Michael Turk

Objectives for the Social Science Minor

The Social Science Minor was designed for students in elementary, early childhood, middle and special education who also take an Interdisciplinary Studies major. It also can be taken by other majors who have an interest.

Requirements for the Minor in Social Science

The minor requires six courses, 18 credit hours, from among the Social Science disciplines. One Economics course, one Political Science course, and three History courses, one from each of the three History sub-fields (United States History, European History, and Non-Western History or World Civilizations). The final course may be drawn from any Social Science discipline. At least two courses must be 2000-level or above.

In schematic form:

1 Economic course
1 Political Science course
1 US History course
1 European History
1 Non-western/World Civilizations History course
1 elective from any Social Science Discipline
2 2000-level or above courses included in the preceding list

**Sociology**

Chairperson  
Margot Kempers

Professors  
Augustine Aryee
Patricia Hayes
Jason Nwankwo

**Objectives for the Program in Sociology**

The sociology major was designed to provide students with refined approaches and methods of research and a broad understanding of the world.

The curriculum has been developed to provide the theoretical background and research skills essential for work concerned with human behavior. Graduates of the program are prepared for immediate entry into a wide variety of occupations in business, education, industry, social service, and public service settings. In addition, many graduates continue formal study by enrolling in advanced degree programs in sociology and related fields.

**Requirements for the Major in Sociology**

The major requires 36 semester hours of course work in Sociology. This total includes 12 semester hours of core courses and 24 semester hours of electives. Majors are encouraged to take advantage of relevant courses from the other three majors in the Behavioral Sciences Department.

**Core Required Courses**

SOC 1100 Introduction to Sociology  
(SOC 2250 Cultural Anthropology  
SOC 3130 Basic Skills of Social Research  
SOC 3160 Social Theory)

**Speech Requirement**

Choose one course:

SPCH 1000 Introduction to Speech Communication  
SPCH 1600 Public Speaking  
PSY 2160 Psychology of Speech and Communication

**State and Federal Constitution Proficiency Requirement**

Can be fulfilled by completing one of the following courses:

POLS 1000 United States Government  
POLS 1500 State and Urban Government  
POLS 2270 Introduction to the Legal Process  
POLS 3600 Civil Rights and Civil Liberties in the United States  
HIST 1400 United States History I  
HIST 1500 United States History II

**Requirements for the Minor In Sociology**

The minor in sociology consists of 18 semester hours in Sociology. There is a core of 9 semester hours including:

SOC 1100 Introduction to Sociology  
SOC 3130 Basic Skills in Social Research  
SOC 3160 Social Theory

The remaining 9 semester hours may be selected according to student needs and interests from Sociology electives.

**Spanish**

Chairperson  
James Colbert

Professor  
Maria Jaramillo
Assistant Professor  
Keyvan Karbasian

**Objectives for the Program in Spanish**

The Spanish Program offers students the opportunity to begin the study of Spanish language and culture or to continue study at an intermediate or advanced level.

**Placement Exam**

Students who have taken more than one year of Spanish in high school, but have not yet taken a Spanish course at Fitchburg State College, and students who speak Spanish at home are required to take a Placement Exam if they wish to register for a Spanish course at the college level.

**Requirements for the Minor in Spanish**

The minor in Spanish requires a minimum of 15 semester hours, including the following:

**Required Courses**

SPAN 2200 Intermediate Spanish I  
SPAN 2300 Intermediate Spanish II

**Electives**

Choose at least three from the following:

SPAN 2600 Hispanic Culture  
SPAN 2700 Hispanic Literature I  
SPAN 3500 Spanish Conversation and Composition  
SPAN 4903 Independent Study

**Speech**

Chairperson  
Janice Alberghene

Assistant Professor  
Angela Nastasee Carder

**Objectives for the Program in Speech**

The Speech Program offers a number of courses to students which meet the Speaking/Listening requirement in the Liberal Arts and Sciences Program for many disciplines. Specific speech courses are integral to many majors. Students should check program requirements and with their advisors to see which courses are recommended.
Teacher Preparation Programs

Programs
• Early Childhood (Pre K-2)
• Elementary Education (1-6)
• Middle School Education (5-8)
• Post-Baccalaureate Undergraduate Licensure Endorsement Certificate
• Secondary Education
  Biology (8-12)
  Earth Science (5-12)
  English (8-12)
  History (8-12)
  Mathematics (8-12)
  Technology Education (5-12)
Special Education
• Teacher of Students with Moderate Disabilities (PreK-8)
• Teacher of Students with Severe Disabilities (All Levels)
• Teacher of Students with Moderate Disabilities (5-12)
• Technology Education

The professional education programs at Fitchburg State College are under the broad coordination of an Education Unit that includes the following licensures and degree areas:
• Undergraduate and Graduate Teacher Preparation Programs
• Graduate Guidance Counseling Program
• Graduate Educational Leadership and Management Programs.

Numerous partnerships with schools, educational organizations and the private sector are a hallmark of the College's commitment to supporting the preparation of school professionals. For more detailed information about educational partnerships, contact the Office of Certification at 978-665-3239.

Stages of the Undergraduate Teacher Preparation Program

Students interested in graduation with a Massachusetts educator's license from Fitchburg State College must complete a comprehensive program, working closely with their advisor to ensure all requirements for licensure have been met. There are three “gates” in the process toward licensure. At each gate a student's credentials are reviewed to determine their readiness and qualifications to move forward in the teacher preparation program and to ensure his/her success in schools. Students who are unable to meet all requirements at any gate may not move forward and should meet with their advisor to determine whether or not to continue in the teacher preparation program.

Gate 1—Formal Admission to the Teacher Preparation Program

All students interested in becoming teachers must be formally admitted to the program of their choice, usually by the end of sophomore year. At Fitchburg State College, we prepare future teachers in the context of a liberal arts and sciences education. Students begin their career at Fitchburg State College, indicating their interest in becoming a teacher and selecting majors that will provide the appropriate foundation for meeting the rigorous standards required for success.

The first 44 credits of the undergraduate program is devoted to acquiring a broad understanding of subject matter across the liberal arts and sciences, and demonstrating a command of rigorous content in the language arts, mathematics, sciences and social sciences. Students interested in teaching at all fields and levels (i.e. Early Childhood, Elementary, Middle School, Secondary and Special Education) are admitted to a teacher preparation program only after they have completed the following requirements by the end of their sophomore year.

• 44 credits of specified content and subject area courses,
• A minimum gpa of 2.5 overall;
• Successful completion of the designated “core course” for their program;
• Successful completion of pre-practicum experience(s) designated for their program;
• A passing score on the Communication and Literacy portion of the Massachusetts Test for Educator Licensure;
• Successful completion of at least two Disposition Assessment reviews (one from a faculty member and one from a supervisor in a pre-practicum course);
• Completion of college's math and reading readiness requirements;
• Completion of the freshman course Orientation to Education;
• Preliminary review of portfolio or equivalent (equivalents are defined by the program);
• Completion of a pre-candidacy philosophy statement;
• Recognition of a list of requirements to be completed prior to student teaching, including a criminal background check; and
• Recommendation for admittance to the Teacher preparation program by the teacher candidate's advisor with approval from the Dean of Education.

Students denied formal admission to a teacher preparation program can appeal to the appropriate department chair and the Dean of Education.

Additional course work required for graduation from individual programs and certificates

Teacher certification or initial provisional certification requires knowledge of the Federal Constitution and that of the Commonwealth. Candidates may fulfill it by successfully completing one of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>HIST 1400</td>
<td>United States History I</td>
</tr>
<tr>
<td>HIST 1500</td>
<td>United States History II</td>
</tr>
<tr>
<td>POLS 1500</td>
<td>State and Urban Government</td>
</tr>
<tr>
<td>POLS 1000</td>
<td>U.S. Government</td>
</tr>
</tbody>
</table>
Gate 2—Admission to the Practicum

Students seeking to enroll in student teaching must successfully complete the following prior to the completion of their junior year (75 credits):

- Successful completion of at least four Disposition Assessment reviews (one from a faculty member and one from a supervisor in pre-practicum course)
- A passing score on the appropriate content tests of the Massachusetts Test for Educator Licensure
- Positive evaluations of 75 hours of pre-practicum experiences
- Review of portfolio or equivalent (equivalents are defined by the program)
- Positive recommendation by the faculty of the department or program

Application to the Practicum

In October and March each year, the Fitchburg State College Placement Coordinator conducts a meeting to explain the practicum application process for teacher candidates who have been approved to participate in the practicum. Candidates are provided with a list of schools that have entered into a formal partnership with Fitchburg State College and who have identified mentors who meet the requirements of the Education Unit for supervising teachers. Supervising teachers must minimally: hold a Massachusetts educator's licensure in the area that the candidate is seeking; and professional status or equivalent in the school/district. Candidates submit their top three choices from the list of qualified schools, however at least one placement for teacher candidates in early childhood, elementary, middle school or special education must be in an urban district. Mentors are selected in collaboration with the administration of the partnership schools.

Students' selections are submitted to the appropriate program for approval. Contracts are then sent to the approved schools confirming the teacher candidate's assignment. The teacher candidate then must contact the supervising practitioner for an interview. If the supervising teacher approves the candidate's placement, the candidate is notified by the Educator Licensure office. If the supervising teacher objects to the assignment, the Placement Coordinator assists the candidate in making a second selection. During the practicum experience the candidate is expected to follow the schedule of the school, not the Fitchburg State College schedule.

Gate 3—Recommendation for licensure

Students who have successfully completed the following requirements will be recommended for licensure by the Commonwealth of Massachusetts:

- Final review of dispositions assessments (at least two to have been completed in the practicum, one by college supervisor and one by supervising practitioner)
- Successful completion of the practicum and recommendation for licensure by the college supervisor, the supervising practitioner and the department of program
- Completion and review of credentials folder
- Final review of portfolio or equivalent

The Education Department offers programs in Early Childhood, Elementary, Middl School and Special Education.

Early Childhood, Elementary and Middle School

Objectives for Early Childhood, Elementary and Middle School

The Early Childhood, Elementary, and Middle School Education Programs integrate a grounding in the Liberal Arts and Sciences with a comprehensive foundation in pedagogy that results in preparation of highly competent teachers. The department's strength rests in its underlying philosophy that supports the development of educators who are reflective, person-centered practitioners able to effectively construct, articulate, and apply educational theory and research so as to be responsive to current and future educational needs of the individuals and families they serve.

The department prepares its graduates to be Teachers of Early Childhood (grades P-2), Teachers of Elementary (grades 1-6), and Teachers of Middle School (grades 5-8).

Program of Study

All teacher education majors graduate with two majors. One in Education and one in Liberal Arts and Sciences. The Liberal Arts and Science major is required of all future teachers by Fitchburg State College.
**Teacher education majors (Early Childhood, Elementary, and Middle School) place emphasis on college coursework that honors cultural, racial, linguistic and social diversity. No less than 39 semester hours of coursework is integrated with a variety of field-based experiences in schools. Student field-based experiences begin early in the majors and are enhanced by strong departmental collaboration with exemplary schools and practitioners in the region. Many students enjoy opportunities to foster attitudes and skills for creative, collegial teaching in the diverse and changing environment of our McKay Campus School.**

The Early Childhood Club, Education Club and Kappa Delta Pi Honor Society offer students the opportunity to grow professionally while meeting with students of similar interests.

**Requirements for the Major in Early Childhood, Elementary, and Middle School Majors in Early Childhood, Elementary, and Middle School Education also require a major in the Liberal Arts and Sciences. See the IDIS major for Middle School Education.**

**Requirements for Initial Teacher Licensure**
For information about undergraduate requirements in teacher preparation, see the section titled: “Teacher Preparation Programs (Undergraduate)”. A student denied admission to the Practicum can appeal to the appropriate department chair, Associate Dean of Education and Dean of Undergraduate Studies.

(Interdisciplinary Studies Major in 2 content areas consistent with Middle School Teacher Licensure sought.)
Post-Baccalaureate Undergraduate Licensure Endorsement Certificate
This certificate program will be available to Fitchburg State undergraduates who have been awarded degrees within the last calendar year, have successfully completed all the degree requirements of the undergraduate education program in which they seek licensure except student teaching and have successfully passed all DOE tests required for initial licensure. Completion of this certificate makes a candidate eligible for endorsement and does not lead to a second bachelor’s degree. The Certification Office will review individuals who receive this certificate for endorsement. If these students are endorsed, they will receive the official NCATE/State endorsement statement related to their individual initial licensure on their official transcript.

Special Education

Program Objectives
The Special Education Program at Fitchburg State College offers the oldest and most comprehensive training in the Commonwealth of Massachusetts. In this program, emphasis is on theory, content, and the ability to use strategies and resources in working with children and adults who have disabilities in the least restrictive or inclusive environment. The program embraces an inclusive philosophy that emphasizes the similarities of all children and young adults. The faculty believe that to work effectively with children who have disabilities, one must be able to work with all children. Also, special educators must work closely with general education teachers. Therefore the program offers an elementary pre-practicum and practicum experience.

This program prepares graduates to be Teachers of Students with Moderate Disabilities (PreK-8), and Teacher of Students with Moderate Disabilities (5-12), and Teacher of Students with Severe Disabilities. With successful completion of the Massachusetts Test for Educator Licensure; General Curriculum, and successful completion of a practicum at the elementary level, students are also eligible for licensure as an elementary teacher (1-6).

Program of Study
The program has been developed with an underlying belief in the potential of individuals with disabilities. Teacher candidates are involved early in their program with field-based experiences and academic classes to help clarify career decisions and to develop the knowledge, skills and dispositions to be effective special educators.

Special Education Majors in the licensure tracks of Moderate Disabilities (PreK-8), Moderate Disabilities (5-12) and Severe Disabilities (All Levels) graduate with a double major in Special Education and Interdisciplinary Studies. Teacher candidates who major in Moderate Disabilities (5-12) receive licensure for Special Education, 5-12. They complete a practicum in an inclusive classroom (5-12) and complete the Special Education practicum (5-12).

Those who major in Severe Disabilities (all levels who elect to earn elementary teacher licensure) complete two practicum placements: one working with students with severe disabilities and one as an elementary teacher (Gr. 1-6) in the general education classroom.

In keeping with the Commonwealth of Massachusetts Licensure requirements, graduates of the program are eligible for Initial Licenses.

Professional Opportunities
The Special Education Club which is a student chapter of the professional organization, the Council for Exceptional Children, offers students the opportunity to grow professionally while meeting college students with similar interests.

Requirements for Initial Teacher Licensures
For information about undergraduate requirements in teacher preparation, see the section titled: “Teacher Preparation Programs (Undergraduate)”.

Teacher of Students with Moderate Disabilities (PreK-8), or Teacher of Students with Severe Disabilities (All Levels)
The Moderate Disabilities program prepares Special Educators to teach individuals with cognitive, social, language and academic problems who are included in general education classrooms or are in a variety of special education settings. Teacher candidates in this program are prepared to meet the licensure requirements of the Massachusetts Department of Education and for Teacher of Students with Moderate Disabilities (PreK-8). With successful completion of the Massachusetts Test for Educator Licensure; General Curriculum, and successful completion of a practicum at the elementary level, students are also eligible for licensure as an elementary teacher (1-6).

The Severe Disabilities program addresses the needs of individuals who have severe disabilities, often with accompanying emotional and behavioral disorders. Curricula focuses on teaching life skills, so that individuals with severe disabilities can live as independently as possible in home, school and community environments. Teacher candidates are also prepared in the elementary curriculum and complete a pre-practicum in a severe placement and in an elementary classroom. Teacher candidates in this program meet the Licensure Standards of the Massachusetts Department of Education for Teacher of Students with Severe Disabilities. With successful completion of the Massachusetts Test for Educator Licensure; General Curriculum, and successful completion of a practicum at the elementary level, students are also eligible for licensure as an elementary teacher (1-6).

Integrated Professional Pre-Practicum/Practicum (IPP—12 total credits)
The Integrated Professional Pre-Practicum/Practicum is a unique experience that fosters the continuous integration of theory and application. It involves a 12 credit block of theoretical courses and teaching in a public school setting (1/2 days, 4 days a week).
Teacher Candidates who are in the Moderate Disabilities program teach in the role of the Elementary Teacher (Gr. 1-6) for 1/2 the semester and in the role of Teacher of Students with M oderate Disabilities for 1/2 the semester.

Teacher Candidates who are in the Severe Disabilities program complete 1/2 semester in the role of the Elementary Teacher (Gr. 1-6) and 1/2 of the semester in the role of Teacher of Students with Severe Disabilities (All Levels).

Throughout the semester Teacher Candidates receive supervised support by college faculty and cooperating teachers. Teacher Candidates return to campus for curriculum work (see below) that links theoretical content to teaching strategies.

Moderate Disabilities (PreK-8) Licensure

**IPP Curriculum: Moderate Disabilities**

- SPED 3300 Behavior Management
- SPED 3550 Reading in Special Education

**IPP Pre-Practicum/Practicum: Moderate Disabilities**

(4 half days a week)

- SPED 3665 IPP Pre-Practicum/Practicum—Elementary (Gr. 1-6) (half the semester)
- SPED 3675 IPP Pre-Practicum/Practicum—Moderate Disabilities (PreK-8) (half the semester)

Severe Disabilities (All Levels) Licensure

**IPP Curriculum: Severe Disabilities with Elementary Licensure**

- SPED 3300 Behavior Management
- SPED 3550 Reading in Special Education

**IPP Pre-Practicum/Practicum: Severe Disabilities with Elementary Licensure**

(4 half days/week)

- SPED 3665 IPP Pre-Practicum/Practicum—Elementary (Gr. 1-6) (half the semester)
- SPED 3675 IPP Pre-Practicum/Practicum—Severe Disabilities (All Levels) (half the semester)

Student Teaching (Practicum): Teacher of Students with Moderate Disabilities (PreK-8), Elementary Teacher (Gr. 1-6), and Teacher of Students with Severe Disabilities (All Levels)

Teacher Candidates in all licensure programs complete 2 practica, Monday through Friday, 4 1/2 days in the schools. The practica are taken in conjunction with specified courses stated below:

<table>
<thead>
<tr>
<th>Practica</th>
<th>Course</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPED 3870 Practicum: Elementary (Gr. 1-6) 6 cr.</td>
<td>SPED 4001 Assessment of Students with Moderate Disabilities 3 cr.</td>
</tr>
<tr>
<td>SPED 3870 Practicum: Moderate Disabilities (PreK-8) 6 cr.</td>
<td>SPED 4001 Assessment of Students with Moderate Disabilities 3 cr.</td>
</tr>
<tr>
<td>SPED 3845 Practicum: Severe Disabilities (All Levels) 6 cr.</td>
<td>SPED 4001 Assessment of Students with Moderate Disabilities 3 cr.</td>
</tr>
</tbody>
</table>

**Liberal Arts and Science distribution**

| ENGL 2900 Children's Literature (PreK-8) Elementary |
| GEOG 1000 Introduction to Geography |
| PSY 1100 General Psychology |
| PSY 2210 Child Psychology |
| PSY 2710 Learning Theory and Its Application |

Teacher Candidates must meet the Constitution Requirement by completing:

- POLS 1000 or POLS 1500 or HIST 1400 or HIST 1500

An Interdisciplinary Major is also required for Licensure for Moderate Disabilities (PreK-8) and for Severe Disabilities.

Teacher of Students with Moderate Disabilities (5-12)

This program addresses the cognitive, emotional, social, language and academic problems of individuals in grades 5-12 who are included in general education classrooms and who are in special education settings. Teacher Candidates who complete this licensure major in Special Education and in a Liberal Arts and Science Major or Interdisciplinary Major.

**Required Courses**

Prior to the Practica

- SPED 2100 Foundations in Special Education
- SPED 2150 Introduction to Individuals with Disabilities
- SPED 2522 Language Arts: Teaching and Adapting Instruction
- SPED 2530 Math/Science/Social Studies for the Inclusive Classroom
- SPED 3401 Language Development and Speech
- SPED 3420 Math/Science/Social Studies for Students with Disabilities
- SPED 3440 Reading/Learning Problems
- SPED 3500 Behavior Management
- SPED 3575 Strategies for Secondary Students with Disabilities
- SPED 3550 Reading in Special Education

Student Teaching (Practicum): Teacher of Students with Moderate Disabilities (5-12)

Teacher Candidates in Moderate Disabilities (5-12) complete 2 practica. Teacher Candidates are in the schools 4 1/2 days a week.

- SPED 3878 Practicum: Moderate Disabilities (5-12) Inclusive Classroom (half the semester) 6 cr.
- SPED 3875 Practicum: Moderate Disabilities (5-12) (half the semester) 6 cr.

**Course**

- SPED 4001 Assessment of Students with Moderate Disabilities 3 cr.

**External Requirements**

Teacher Candidates address the speaking and listening requirements through the extensive training and feedback during the pre-practicum and practicum experience.

**Liberal Arts and Science distribution**

| ENGL 2910 Literature for Young Adults |
| GEOG 1000 Introduction to Geography |
| PSY 1100 General Psychology |
| PSY 2230 Adolescent Psychology |
| PSY 2710 Learning Theory and Its Application |

Teacher Candidates must meet the Constitution Requirement by completing:

- POLS 1000 or POLS 1500 or HIST 1400 or HIST 1500

An Interdisciplinary Major is also required for Licensure for Moderate Disabilities (PreK-8) and for Severe Disabilities.

Teacher Candidates address both the speaking and listening requirements through the extensive training and feedback during the pre-practicum and practicum experience.

- POLS 1000 or POLS 1500 or HIST 1400 or HIST 1500
A Liberal Arts and Science Major or an Interdisciplinary Major is also required for Licensure for Moderate Disabilities (5-12).

**Minor in Special Education**

**Objectives for the Minor in Special Education**

The Special Education minor is designed to meet the needs of several groups of students interested in working with children and adults with disabilities. The curriculum provides students with a background to work with individuals with disabilities in a wide variety of school and non-school settings (e.g., early intervention, recreation, vocational, housing). Students may select courses that would serve to prepare them for entry into advanced degree programs leading to licensure as a special education teacher. Students with career goals outside of the classroom setting may choose courses which complement and relate to their major field of study (e.g., psychology, human services).

**Requirements for the Minor in Special Education**

The minor requires 18 semester hours of coursework. This total includes 6 hours of core courses, and 12 hours of electives. Students interested in pursuing graduate work toward licensure in special education will be encouraged to work closely with an advisor to select courses.

**Required Courses (6 credits)**

**Secondary Education (8-12)**

**Clinical Professors**

- Laura Baker
- Christopher Cratsley
- Chola Chisunka
- Nancy Kelly
- Patricia Smith
- Mark Snyder
- Steven Therrien
- Teresa Thomas

**Objectives for the Program in Secondary Education**

A Secondary Education Program is offered for students seeking initial teaching certification in the following disciplines:

- Biology (8-12)
- History (8-12)
- Earth Science (5-12)
- Mathematics (8-12)
- English (8-12)
- Technology Education (5-12)

**Requirements for Initial Teacher Licensure**

For information about undergraduate requirements in teacher preparation, see the section titled: "Teacher Preparation Programs (Undergraduate)"

The secondary Teacher Licensure Programs are housed in the academic department of Biology, Earth Science, English, History, Mathematics, and Technology Education. The programs in Biology, Earth Science, English, History, and Mathematics programs share a core of education courses:

<table>

</tbody>
</table>

See the listing for each Academic Department for additional requirements for each program.
Technology Education

The Technology Education major requires the following core courses:

**Initial Licensure Common Technical Core**
(30 semester hours)

- **Manufacturing Cluster**
  - ITEC 1200 Metal Fabrication Systems
  - ITEC 1300 Wood Fabrication Systems
  - ITEC 2730 Automated Manufacturing I

- **Communications Cluster**
  - ITEC 1400 Technical Drawing
  - ITEC 1500 Graphic Arts Processes
  - ITEC 2410 Computer Aided Drafting

- **Construction Cluster**
  - ITEC 1320 Construction Systems I
  - ITEC 2310 Construction Systems II
  - ITEC 2400 Architectural Drafting

- **Power/Energy/Transportation**
  - ITEC 1000 Electric Systems and Circuits
  - ITEC 1100 Electronics I
  - ITEC 1600 Energy Systems II

**Professional Sequence (19 semester hours)**

- ITEC 3800 Methods in Teaching Technology Education
- ITEC 3810 Curriculum Development in Technology Education
- ITEC 4840 Prepracticum Seminar
- ITEC 4860 Practicum in Technology Education

**Advanced Technical Elective Level 2000 or Higher (pick one):**

- ITEC 3110 Digital Electronics
- ITEC 3340 Construction Systems III
- ITEC 3410 Drafting Commercial Structures
- ITEC 3730 Automated Manufacturing II

In addition all Tech Ed. majors need:

- ITEC 1710 Technical Analysis

---

Theater

**Chairperson**
Janice Alberghene

**Professors**
Richard M. Elvain
Cap Corduan
Kelly Morgan

**Assistant Professor**

**Objectives for the Program in Theater**
The Theater Program serves all students by offering courses that study the history and literature of theater as well as performing arts skills in acting, directing and stagecraft production. Opportunities to perform annual productions are also available. An interdisciplinary major or minor is also available. See minor in Theater.

**Major in English/Theater**
The courses required in the major are described under the English major.

**Major in Technical Theater**
The courses required for Technical Theater are described under the Industrial Technology major.

**The Minor in Theater**
The Theater Minor requires a minimum of 15 semester hours, including Introduction to Theater (THEA 2000), Directing the Play (THEA 4000), and at least 2 of the following courses:

- THEA 1700 Stage Movement
- THEA 2200 Stagecraft and Theater Production
- PHED 4050 Art of Dance
- THEA 2700 Acting I
- THEA 2800 Acting II
- PHED 4130 Making Dance

and at least one of the following courses:

- ENGL 3000 World Drama
- ENGL 3010 American Drama
- ENGL 3020 Modern Drama
- ENGL 4020 Shakespeare's Drama: Text and Performance
- ENGL 4030 Interpreting Shakespeare's Works

Three hours of Theater internship may also count toward the minor.
Women’s Studies

Chairpersons  Coordinators
Margot Kempers  Nancy Kelly
Michael Turk  Margot Kempers
Janice Alberghene  Susan Williams

Objectives for the Women’s Studies Program

The program in Women's Studies provides multicultural and interdisciplinary courses which examine women's roles, history, and issues. These courses satisfy requirements in the Liberal Arts and Sciences Program and also can be counted toward an interdepartmental minor.

Requirements for the Minor in Women’s Studies

The minor in Women's Studies includes the Introduction to Women’s Studies and five other courses including independent study, selected from the following courses:

**Required Course**

IDIS 1000  Introduction to Women’s Studies

**Electives**

Choose five from the following:

- IDIS 1100  Women in Latin America
- PSY 2250  Psychology of Women
- IDIS 2340  Contemporary Issues in Women's Health
- HIST 2450  History of U.S. Woman to 1870
- HIST 2500  History of U.S. Woman from 1870 to the Present
- ENG 3300  Woman and Literature
- HIST 3450  Women in European History since 1700
- ART 3700  Woman, Art, and Society
- SOC 3770  Woman in American Society
- MUSC 3900  Woman, Music and Society
- IDIS 4903  Independent Study in Women’s Studies

*Note: Each of the electives for this minor may have specific prerequisites.*
The Office of Graduate and Continuing Education provides undergraduate degree programs in selected fields along with a variety of life-long learning opportunities and an array of liberal arts courses open to degree-seeking and non-degree students. With its commitment to affordable and accessible high-quality education, GCE offers its undergraduate courses on campus locations and via distance-education modes, including the Internet. Courses are offered at times, including summer and winter sessions, convenient to non-traditional and traditional-age students.

Degree Majors, Minors, and Certificate Programs

Bachelor’s Degrees
- BS in Business Administration
  - Accounting
  - Finance
  - Management
  - Marketing
- BS in Computer Science
- BS in Computer Information Systems
- BA/BS in Interdisciplinary Studies
- BS in Occupational/Vocational Education

Minors
- English
- Psychology

Certificate Programs
- Applied Programming
- Business
- Computer Hardware
- Computer Use and Applications
- Database Systems
- High Level Languages
- Java Programming
- Microsoft Foundation Classes
- Office Administration
- Plastics Technology
  (Offered off-campus at NYPRO Inc. in Clinton only)
- Software Engineering
- Web Development

Approval Programs
- Vocational Technical Teacher Approval Program

Administration
Graduate and Continuing Education is administered by the Office of Academic Affairs. Degree specializations originate in the appropriate academic department of the college. Where there are no corresponding academic departments, committees perform the appropriate functions. GCE is responsible, in cooperation with the appropriate academic departments, for:
- Maintaining the quality of degree programs
- Scheduling courses
- Advising students

Faculty
Courses offered through Graduate and Continuing Education are taught by Fitchburg State College faculty and other qualified individuals brought into the program as Adjunct Faculty.
BS in Business Administration

Chairperson  Program Manager
Joseph McAloon  James Noonan

Program Objectives

Students who graduate from the Business Administration Program are equipped with a knowledge of business theories, policies, and procedures and are prepared to take a responsible position within the world of business. The program refines a student's commitment to personal values and moral excellence as well as professional competence.

Program of Study

The degree offered by the Business Administration Department is the Bachelor of Science degree. The curriculum is based in the Liberal Arts, coupled with a sufficient mix of professional courses and a variety of practical business experiences.

BS in Business Administration Concentrations

- Accounting
- Finance (only offered at night)
- Management
- Marketing

BS in Computer Science

Chairperson  Program Manager
Frits Lander  Xu Zhou (Brady) Chen

Program Objectives
The Computer Science program offers the opportunity for students to develop a unique blend of knowledge and skills in the areas of computer software and computer hardware. The program provides sufficient theoretical background for continued learning. It also provides practical skills to prepare the students for professional careers in the rapidly changing field of computer science. Students develop good communication skills and the ability for teamwork and leadership roles in their professional careers.

BS in Computer Information Systems

Chairperson  Program Manager
Frits Lander  Xu Zhou (Brady) Chen

Program Objectives
The Computer Information Systems program offers the opportunity for students to develop knowledge and skills in analysis and design of business information systems, database development, software development, and networking. This program prepares the students for professional careers in the rapidly changing field of computer information systems. Students develop good communication skills and the ability for teamwork and leadership roles in their professional careers.

All CIS majors are encouraged to register for a minor in Business Administration.

Three additional CS electives at or above 3000 level 15 S.H.
Total for degree 120 S.H.

* Course used to satisfy Junior/Senior Writing, and Speaking and Listening requirements. Computer Literacy requirement is satisfied by CS core.

+ Pending Placement Exam results.
Program Objectives

The Bachelor of Science and Bachelor of Arts in Interdisciplinary Studies degrees provide for individually-designed, interdisciplinary majors, which allow students to work with faculty advisors to develop a plan of study that responds to individual educational and professional goals. The programs are particularly well-suited to adult learners, because they provide the opportunity for part-time, individually-paced education which allows students to build their academic confidence and integrate their studies into their lives.

Admission Standards and Criteria

There is a formal application procedure for students who choose to major in Interdisciplinary Studies. However, before the application is submitted to the Interdisciplinary Studies Coordinator, a student must have completed at least four semesters of college level work. The purpose of the application is to:

- Set forth the student’s academic and professional goals and demonstrate why they are best achieved through the Interdisciplinary Studies Program
- Require students to outline their proposed program
- Stipulate any required independent exercise or internship
- Provide college-level courses and grades

Breakdown of Requirements for Major

- A minimum of 36 semester hours of course work for the major with a college-approved minor within one of the three fields
- A minimum of 9 semester hours in each of the other two fields of study (defined by disciplines, not department or tracks)
- A common core of three Liberal Arts and Sciences interdisciplinary courses: IDIS 1800, Global Issues; MUSC 2000, Commonwealth of the Arts or MUSC 2100, Commonwealth of the Ancient Arts; and PHIL 1100, Logic or PHIL 2600, Philosophy of Human Nature or PHIL 3340 Contemporary Philosophy or PHIL 4430 Marxism
- A senior-year “Capstone” course intended to help students to integrate the various fields of study. This may take the form of an independent study or an internship (3-15 semester hours)
- A minimum 30 semester hours of course work completed after the program of study is approved and filed with the registrar

A student’s program must meet the approval of their Interdisciplinary Studies’ advisor and advisors from each of the chosen fields of study.

Program of Study

The Interdisciplinary Studies degree is typically awarded as a Bachelor of Science. A Bachelor of Arts is awarded if the student includes foreign language study through the second year of college level work and concentrates his/her field of studies in the Liberal Arts and Sciences fields.

There are many possible combinations of course work available through this major, limited only by the breadth of courses offered through the day and evening divisions of the college. When planning a major, a student must have a rationale for a thematic approach to their program. Students must meet the following requirements for the major:

Liberal Arts and Sciences Requirements

LA&S Requirements (may go up to 63, depending upon whether science courses taken are 3 or 4 S.H.) 60 S.H.

Major Required Courses

Major Courses including the required core (three or four fields of study) 36 S.H.

Capstone

Capstone Course, Project, or Internship in Major 3-15 S.H.

Electives

Electives (may be fewer depending upon credits taken in above two categories) 21 S.H.

Total for Degree 120 S.H.

BS in Occupational/Vocational Education

Program Objectives

The college’s undergraduate O Occupational Education Degree program provides students with a blend of academic, vocational technical teaching, and elective learning opportunities. The program is committed to educating participants in comprehensive personnel development, which responds to specific occupational updating, professional growth and enhancement, and state-of-the-art information sharing for and with vocational technical educators. The program advocates a teaching approach, which brings about desired changes in the knowledge, skills, attitudes, and appreciation level of those in training.

Program of Study

The Occupational/Vocational Education degree is a Bachelor of Science Degree. A significant component of the program is the availability to students at off-campus vocational technical school sites located across Massachusetts.

Job relevance and valid, reliable, vocational technical practice is attained through participatory planning and affiliation with industry, vocational technical school practitioners, professional associations, and representatives of the college.

The program offers up to twelve credits in recognition of the work experiences of the participating students. Candidates may apply for the trade experience credit after completing eighty credits in the program.

Minor in English

Chairperson
Janice Alberghene

Program Manager
Margarite Roumas

Program Objectives
The minor in English allows students of other disciplines to add a concentration in literature to their plan of study. The minor provides a wide range of courses in literature that enhance a student's critical thinking and appreciation for the masters of the written word.

Program of Study
The Literature Concentration requires 18 semester hours of study. The following courses, offered in the evening and during summer sessions, satisfy the requirements as approved by the English Department:

Six hours of survey selected from:

| ENGL 2000 | American Literature from the Age of Exploration to the Civil War | 3 S.H.  |
| ENGL 2100 | American Literature from the Civil War to the Present | 3 S.H.  |
| ENGL 2200 | American Literature from Beowulf to Milton | 3 S.H.  |
| ENGL 2210 | English Literature from Pepys to Shelley | 3 S.H.  |
| ENGL 2220 | English Literature from Bronte to Rushdie | 3 S.H.  |
| ENGL 2400 | World Literature I | 3 S.H.  |
| ENGL 2500 | World Literature II | 3 S.H.  |

Nine additional hours in literature electives selected from the remainder of the above and/or the following (six must be at the 3000 level or above):

| ENGL 2300 | Literature and Disability | 3 S.H.  |
| ENGL 2330 | Literature and Film | 3 S.H.  |
| ENGL 2620 | Classical Mythology | 3 S.H.  |
| ENGL 2700 | The Short Story | 3 S.H.  |
| ENGL 2750 | Detective Fiction | 3 S.H.  |
| ENGL 2900 | Children's Literature | 3 S.H.  |
| ENGL 2910 | Literature for Young Adults | 3 S.H.  |
| ENGL 3020 | Modern Drama | 3 S.H.  |
| ENGL 3210 | Major American Authors of 20th Century | 3 S.H.  |
| ENGL 3220 | American Novel to 1950 | 3 S.H.  |
| ENGL 4095 | The Age of Dickens | 3 S.H.  |
| ENGL 4140 | Modern Poetry | 3 S.H.  |
| ENGL 4400 | 20th Century Irish Literature | 3 S.H.  |
| ENGL 4410 | M. T. H. | 3 S.H.  |
| ENGL 4410 | M. T. H. | 3 S.H.  |

Other English electives as approved by the English Department

Total for English Minor 18 S.H.

Minor in Psychology

Chairperson
Margot Kempers

Program Objective
The minor in Psychology is particularly useful for students who wish to complement their chosen major with psychology courses relevant to their area of study, as well as for students who wish to gain a general knowledge of Psychology for application to their own lives.
Program of Study
The minor is designed to enable the student:
- To understand and evaluate psychological research and literature
- To choose courses which complement and relate to the major field of study
- To explore a particular interest in Psychology in depth
Accordingly, the following course organization is required:

Group I
Two courses are required:
PSY 1100 General Psychology  
(Prerequisite not counted toward minor)
PSY 2110 Introduction to Research Methods

Group II
At least one course is to be taken from each of any three of the four areas (Adaptive, Applied Studies, Basic Processes, and Developmental) described under the psychology major described in the section titled “Undergraduate Day Programs.”
The remaining required courses may be selected from either the integrative courses (Group III) or any one of the above mentioned areas. Courses may also include:
PSY 2200 Human Growth and Development
PSY 2750 Tests and Measurements

Certificate Programs in Business
Program Manager
James Noonan
Certificate in Business
The Certificate in Business allows students with or without a college degree to learn the fundamentals of Business Administration. The credit earned for the certificate can be applied to an undergraduate degree in Business or can serve as prerequisites for an MBA or Management Science Program.
Requirements
BSAD 2010 Introduction to Financial Reporting 3 S.H.
BSAD 2020 Introduction to Management Accounting 3 S.H.
BSAD 3200 Principles of Management 3 S.H.
BSAD 3300 Fundamentals of Marketing 3 S.H.
BSAD 3400 Basic Finance 3 S.H.
BSAD 3500 Business Law I 3 S.H.
Subtotal Phase I 12 S.H.

Phase II
Requirements
BSAD 2010 Introduction to Financial Reporting 3 S.H.
BSAD 2020 Introduction to Management Accounting 3 S.H.
BSAD 3200 Principles of Management 3 S.H.
BSAD 3500 Business Law I 3 S.H.
Subtotal Phase II 9 S.H.
Total for Certificate 30 S.H.
- At least eight of the ten courses must be completed at Fitchburg State College, including the last two courses
- Students must maintain a cumulative GPA of 2.0 or better

Certificate Programs in Computer Science
Program Manager
Nadimpalli M. Mahadev
The certificate programs in Computer Science are designed for those who work with computers at their workplace and wish to sharpen their skills in specific areas. All the courses are part of the undergraduate curriculum. In order to earn a certificate, a minimum grade point average of 3.0 must be maintained within the program. At least 50% of the courses must be completed at Fitchburg State College. The department must approve all other courses.

Computer Use and Applications Certificate
This certificate provides basic computer literacy skills in the usage of Internet, e-mail and a popular operating system. In addition, word processing, spreadsheets, databases and presentation graphics are studied in detail.
Requirements
CSC 1050 Internet Communications 3 S.H.
CSC 1100 Computer Applications Programming I 3 S.H.
CSC 1300 Introduction to Spreadsheets and Databases 3 S.H.
Total for Certificate 9 S.H.

Office Administration Certificate
There are two phases of course work to attain the Certificate of Office Administration. Phase I can be completed independently of Phase II, but Phase II requires completion of Phase I.

Phase I
Requirements
CSC 1050 Internet Communications 3 S.H.
CSC 1100 Computer Applications Programming I 3 S.H.
CSC 1200 Introduction to Microsoft Windows and Word Processing 3 S.H.
BSAD 3200 Principles of Management 3 S.H.
BSAD 2100 Introduction to Financial Reporting 3 S.H.
ENGL 1100 Writing I 3 S.H.
Subtotal Phase I 18 S.H.

Phase II
Requirements
CSC 1300 Introduction to Spreadsheets and Databases 3 S.H.
BSAD 2020 Introduction to Management Accounting 3 S.H.
BSAD 3210 Human Resources Management 3 S.H.
BSAD 3500 Business Law I 3 S.H.
Subtotal Phase II 12 S.H.
Total for Certificate 30 S.H.
- At least eight of the ten courses must be completed at Fitchburg State College, including the last two courses
- Students must maintain a cumulative GPA of 2.0 or better
Web Development Certificate
The Internet plays a crucial role in the information revolution. It is used increasingly for personal and business communications, for commerce and exchange of ideas, and as a source of information and entertainment. This certificate provides the knowledge and skills needed to make the best use of what Internet can offer and to create professional quality web pages.

- CSC 1050 Internet Communications 3 S.H.
- CSC 1150 Basics of Web Design 3 S.H.
- CSC 2150 Advanced Web Design with Scripting 3 S.H.
- CSC 3250 Advanced Topics in Web Development 3 S.H.

Total for Certificate 12 S.H.

Applied Programming Certificate
This certificate introduces the programming languages that are used to program small and large businesses applications.

- CSC 1000 Intro. to Programming 3 S.H.
- CSC 1500 Computer Science I 3 S.H.
- CSC 1550 Computer Science II 3 S.H.
- CSC 2700 Business Programming 3 S.H.

Total for Certificate 12 S.H.

High Level Languages Certificate
This certificate introduces the high level programming languages, at the assembler level, at the structured programming level and at the object-oriented programming level.

- CSC 1500 Computer Science I 3 S.H.
- CSC 1550 Computer Science II 3 S.H.
- MATH 1900 Discrete Mathmatics 3 S.H.
- CSC 2560 Systems Programming 3 S.H.
- CSC 3500 Object Oriented Programming 3 S.H.

Total for Certificate 15 S.H.

Java Programming Certificate
Java is a very elegant and popular object oriented programming language. In addition, it is platform independent and simplifies programming for the Internet, distributed networking, database access, embedded systems and client/server computing. This certificate provides for building programming skills from very basic to advanced web programming with Java.

- CSC 1500 Computer Science I 3 S.H.
- CSC 1550 Computer Science II 3 S.H.
- MATH 1900 Discrete Mathmatics 3 S.H.
- CSC 2560 Systems Programming 3 S.H.
- CSC 3050 Web Programming with Java 3 S.H.

Total for Certificate 15 S.H.

Microsoft Foundation Classes Certificate
Microsoft Foundation Classes (M FC) provides the Application Programming Interface (API) for creating applications for Win32 platforms. This certificate provides the knowledge and skills needed for creating Windows applications.

- CSC 1500 Computer Science I 3 S.H.
- CSC 1550 Computer Science II 3 S.H.
- MATH 1900 Discrete Mathmatics 3 S.H.
- CSC 2560 Systems Programming 3 S.H.
- CSC 3500 Object Oriented Programming 3 S.H.
- CSC 3700 Algorithms and Data Structures 3 S.H.
- CSC 4400 Software Design 3 S.H.

Total for Certificate 21 S.H.

Database Systems Certificate
Database systems have evolved for managing large-scale information securely and efficiently. This certificate provides in-depth knowledge of how databases work, where they are used and how to program databases for information storage and retrieval.

- CSC 1000 Intro. to GUI Programming 3 S.H.
- CSC 1400 Computer Information Systems 3 S.H.
- MATH 1900 Discrete Mathmatics 3 S.H.
- CSC 2400 Database Systems 3 S.H.
- CSC 4550 Database Programming 3 S.H.

Total for Certificate 18 S.H.

Computer Hardware Certificate
This certificate provides the theoretical background in computer hardware needed for more advanced topics such as Data Communications, Digital Signal Processing and Embedded Systems.

- MATH 1300 Precalculus 3 S.H.
- CSC 1600 Intro. to Electronics 4 S.H.
- CSC 1650 Digital Electronics 4 S.H.
- CSC 2500 Assembly Language 3 S.H.
- CSC 2600 Computer Organization 4 S.H.
- CSC 3600 Microprocessors 4 S.H.

Total for Certificate 22 S.H.

Software Engineering Certificate
Software Engineering is one of the fastest growing professions as we move from the Industrial Revolution to the era of Information Technology Revolution. The graduates of this certificate not only acquire good programming skills, but also understand the life cycle of a software product and how to design software for efficiency, maintenance and upgrades.

- CSC 1500 Computer Science I 3 S.H.
- CSC 1550 Computer Science II 3 S.H.
- MATH 1900 Discrete Mathmatics 3 S.H.
- CSC 2560 Systems Programming 3 S.H.
- CSC 3500 Object Oriented Programming 3 S.H.
- CSC 3700 Algorithms and Data Structures 3 S.H.
- CSC 4400 Software Design 3 S.H.

Total for Certificate 21 S.H.
Certificate Program in Plastics Technology

Program Manager
Steven Therrien

In cooperation with NYPRO, Inc., the college offers a certificate program in Plastics Technology. Located in Clinton, MA, NYPRO is a world-class leader in injection molding. The program is open both to NYPRO employees and to any other student desiring to learn about injection molding and the manufacturing process involving conversion of raw material into finished parts and products. Course instructors, approved by Fitchburg State College, have extensive backgrounds in the plastics industry.

Requirements
Many of the courses include a laboratory component wherein students utilize injection molding machines. These activities are designed to enhance the learning experience. The courses are held in the evenings each fall and spring semester in the modern classroom facilities of the NYPRO Institute in Clinton, MA. Students must maintain a cumulative GPA of 2.0 in order to earn the certificate.

### Approval Programs

**Program Manager**
James Alicata

Vocational Technical Teacher Approval Program

The Vocational Technical Teacher Approval Program of study is currently being revised to meet the new Massachusetts Department of Education regulations for individuals seeking approval as a vocational technical teacher. The new regulations are expected to become effective September 1, 2004. For details, contact the program chair, Dr. James Alicata at 978-665-3047.

Candidates seeking credentials as approved vocational technical instructors must successfully complete a thirty-six semester hour competency based training program. This training program provides the candidate with the curriculum, organizational and delivery skills, along with the methodological and pedagogical competencies needed to become an effective vocational technical instructor or pursue a baccalaureate program.

African-American Studies

Introduction to African-American Studies
AAST 1000 3 cr. 3 hr.
This introductory course defines the origins and scope of African-American studies. It provides a survey of the social, economic, religious, and cultural expressions of African-Americans as they followed the tangled path from Africa through slavery, emancipation into the 20th century. I, L, C, IDIS

African-American History
(See HIST 2300) I, C ▲

Modern African History
(See HIST 2930) I, C ▲

History of African-American Women
(See HIST 2520) I, L, C, IDIS ▲

20th Century African-American Literature
(See ENGL 2670) L, C ▲

Other Voices
(See ENGL 2650) L, C ▲

Peoples and Cultures of Africa
(See SOC 2510) B, C ▲

History of Jazz
(See MUSC 3800) L, C ▲

African Jazz Dance
(See PHED 1310) I, L, C, IDIS ▲

Independent Study in African-American Studies
AAST 4901-4903 1-3 cr. ▲

Directed Studies in African-American Studies
AAST 4975 ▲
Sculpture I
ART 1840 3 cr. 6 hr. ▲
This introductory studio course encourages students to explore their ideas and to transform them into sculpture. Students combine creativity, exciting materials, and basic sculpture techniques to create unique works of art. L

Life Drawing
ART 2200 3 cr. 6 hr. ▲
The basic problems in form and anatomy are studied while drawing from the nude and costumed model. Various techniques and tools are explored, including a study of some of the great masters' drawings. L

Intermediate Drawing
ART 2250 3 cr. 6 hr. ▲ ●
The course is an advanced study of pictorial technique in dry media, including but not limited to charcoal, pencil, conte, and pastel. Emphasis is placed on the developing of a student's own style through a variety of subjects and media. L
Prerequisite: ART 1840 or permission of instructor.

American Art
ART 2300 3 cr. 3 hr. ▲
The course is a survey of significant stylistic developments in visual arts from the earliest colonial times to the present. L

Sculpture II
*ART 2400 3 cr. 6 hr. ▲
This advanced studio course is an expansion upon the basic principles of sculpture. Sculpture projects are geared toward the individual interests and requirements of the advanced student. L
Prerequisite: ART 1840 or permission of instructor.

Water-Based Media
ART 2450 3 cr. 4 hr. ▲ ●
The course introduces students to painting with water-based media. Throughout the course, the focus will be on developing command of the medium of transparent watercolor, although painting with acrylics will also be introduced. While a prior course in drawing would be helpful, it is not required. L

Art of the Renaissance
ART 2550 3 cr. 3 hr. ▲ ●
The course studies the development of painting, sculpture, and architecture in Italy from 1250 to 1550, the age of Michelangelo, and the Northern Europe Renaissance from 1400 to 1600. L

Intermediate Painting
*ART 2600 3 cr. 6 hr. ▲
The course provides an advanced study of pictorial techniques with an emphasis on personal expression in oil, acrylic, or water based media. The class may be repeated for credit. L
Prerequisite: ART 1450, 2450 or permission of instructor.

Nineteenth Century Art
ART 2900 3 cr. 3 hr. ▲
This survey is comprised of art from French Neo-Classicism through Post-Impressionism, including the movements of Romanticism, Realism, and Impressionism. Emphasis is placed on French, British, and German art, with pertinent comparisons to American, Japanese, African, and ethnographic art. Students study women and minority artists including Berthe Morisot, Mary Cassatt, Rosa Bonheur, Suzanne Valadon, Henry Ossawa Tanner, and others. L

Art Criticism
ART 3100 3 cr. 3 hr. ▲
The course is a study of the development of modern art criticism. The course begins by examining traditional art criticism as established by Panofsky, Woefflin, and others. It then concentrates on contemporary art and criticism, commencing with Clement Greenberg in the 1940s and concluding with Postmodern criticism of the 1980s and 1990s. L, IDIS
Prerequisite: one Art History course or Music 2000.

Early Twentieth Century Art
ART 3150 3 cr. 3 hr. ▲
The course is a survey of multicultural art from 1890 to 1945 in Europe and the United States. Periods covered include French Post Impressionism, Fauvism, and Cubism; German Expressionism; Spanish and French Surrealism; Early American M odernism, the Harlem Renaissance, and Regionalism. Students study women and minority artists including Suzanne Valadon, Kathe Kollwitz, Gabriel Munter, Frida Kahlo, Emily Carr, Georgia O’Keeffe, H enry O sawa Tanner, Jacob Lawrence, Romare Bearden, Horace Pippin, Bob Thompson, Diego Rivera, and others. L, C

History of Architecture
ART 3300 3 cr. 3 hr. ▲
This course presents a condensed survey of architectural history from ancient art to the present. Periods studied include Greek, Roman, Romanesque, Gothic, Renaissance, and Baroque architecture. Non-Western architecture includes the culture of Japan, India, and Islam. L, IDIS, C

History of Modern Architecture
ART 3500 3 cr. 3 hr. ▲
A study of architecture with a concentration upon the nineteenth and twentieth centuries. Periods begin with early American architecture and continue through the various revivals of the nineteenth century, including Art Nouveau and the Chicago School, and conclude with the modern skyscrapers and post-modern architecture. L, IDIS

Women, Art, and Society
ART 3700 3 cr. 3 hr. ▲ ●
This course introduces the student to the place and roles of women in the world of visual and fine arts from the middle ages to the present. L, C

Independent Study in Art
ART 4901-4903 1-3 cr. 1-3 hr. ▲ ●
The independent study is for selected students who have approval of both the department head and their advising instructor.

Museum Internship
*ART 4950 3 cr. 6 hr. ▲
In conjunction with Fitchburg State College, the Fitchburg Art Museum offers a multifaceted learning experience coupled with practical application conducted in the Fitchburg Art Museum and in elementary school classrooms of Fitchburg and surrounding towns. Student Instructors are trained to give instructional lectures about the ancient cultures of Egypt, Mesopotamia, and Meso-Verde, to school children both in the Museum galleries and in the classroom.

Directed Study
ART 4975 1-6 cr. ▲ ●
Biology

Introduction to Life Science I
BIOL 1000  3 cr. 4 hr.  Offered in the fall semester for day students.
The course focuses on the history, philosophy, and content of biology as a science. Laboratory work includes experiences that emphasize problem solving by the student. Q

Introduction to Life Science II
BIOL 1100  3 cr. 4 hr.  Offered in the spring semester for day students.
Continuation of BIOL 1000. Q

Anatomy and Physiology I
BIOL 1200  4 cr. 5 hr.  Offered in the fall semester for day students.
The course explores the structure and function of the human organism on the cellular, tissue, organ, and system levels. Cellular metabolism, histology, and the following systems: skeletal, muscular, and nervous (including the special senses) are examined. The laboratory emphasizes both physiology and the dissection of preserved mammalian specimens. (Not open to students who have completed BIOL 1700, Human Biology or BIOL 2420, Human Physiology.) Q

Anatomy and Physiology II
BIOL 1300  4 cr. 5 hr.  Offered in the spring semester for day students.
This course is a continuation of BIOL 1200. The following systems are covered: circulatory, respiratory, digestive, excretory, endocrine, and reproductive. (Not open to students who have completed BIOL 1700, Human Biology or BIOL 2420, Human Physiology.) Q

Adaptations
BIOL 1350  3 cr. 3 hr.  The human organism is examined in terms of its adaptation to acute and chronic stress. Physiological responses to such stressors as exercise, heat, darkness, altitude, and nutrition are studied theoretically and in a laboratory setting. Q, IDIS

General Botany
*BIOI 1400  3 cr. 4 hr.  The course focuses on the biology of bryophytes, ferns, gymnosperms, and angiosperms. The relationship of plant biology to agriculture and medicine is also discussed. The laboratory involves the study of live and preserved plant materials, simple physiological experiments, and a plant growth project. The class is not open for majors or minors in Biology. Q

Seminar in Modern Biology
*BIOI 1500  1 cr. 1 hr.  The seminar evolves around the discussion of current topics in basic and applied biological research based on readings of original scientific reports. Each student is expected to prepare one brief presentation on a topic of his or her choice.

Nutrition
BIOL 1650  3 cr. 3 hr.  The course involves an examination of nutrients in foods and their metabolic role in normal nutrition. Emphasis is on energy sources and utilization, vitamins and minerals, nutritional requirements in relation to the changing demands of life, and the effect of food handling and processing on the nutrient content of food. Course material is facilitated by lectures, discussions, and personal nutrition projects. Q

Human Biology
BIOL 1700  3 cr. 3 hr.  Students learn the anatomy and physiology of the cells, tissues, organs, and organ systems of the human organism as well as their functional inter-relationships. (The class is not open to students who have completed BIOL 1200, 1300.) Unless permission of instructor is granted. Q

General Biology I
BIOL 1800  4 cr. 6 hr.  The course examines principles of molecular, cellular, and organismal biology. Topics include biomolecules, cell structure and function, and information processing and inheritance. The laboratory emphasizes the scientific method through experimentation. Q

General Biology II
BIOL 1900  4 cr. 6 hr.  The class is a continuation of BIOL 1800. The course examines principles of organismal, population and community biology. Topics include comparative anatomy and physiology, evolution and ecology. The laboratory emphasizes hypothesis formation and testing as well as data gathering and analysis. Q

Biology of Drugs
BIOL 2000  3 cr. 3 hr.  A study of the biological effects of drugs at the cellular level. Emphasis is placed on the more popular psychoactive drugs. Prerequisite: one year of Biology, Chemistry, or permission of Instructor.

Flora of New England
BIOL 2100  3 cr. 3 hr.  This course is an introduction to the vegetation of New England. The emphasis of this course is to become familiar with the flora and the factors that influence the different ecological associations found in New England. Laboratory is devoted to the techniques of plant identification with emphasis on the terminology and use of botanical keys. Field trips are taken for collecting representative elements of the local flora and preparation of a herbarium. Q

Introductory Ecology
BIOL 2300  3 cr. 4 hr.  Offered in the fall semester for day students.
The course is a survey of major ecological concepts and methodology as a basis for further investigations of the dynamic relationship between organisms and their environment. Field and laboratory work emphasize problem identification, formulation of hypotheses, data collection, and analysis and interpretation of results in terms of their biological implications. Prerequisite: BIOI 1000, or 1100, or 1800, or 1900 or permission of Instructor.

Environmental Health
*BIOI 2400  3 cr. 3 hr.  Students conduct investigations into public health with emphasis on forms of life, chemical substances, environmental conditions, and other environmental forces that exert an influence on human health and well-being. Prerequisite: BIOI 1100 or equivalent or permission of Instructor.

Human Physiology
BIOL 2420  3 cr. 3 hr.  This course is an intensive study of the functional operation of human organ systems and the interrelationships of these systems. (Intended for students who are majoring in Biology or Clinical Lab Science.) Q

Histology
*BIOI 2500  3 cr. 4 hr.  The course starts with a systematic survey of basic animal cell and tissue types, followed by in-depth microscopic study of the major organ systems. Practical work includes histological microtechnique on normal and pathological specimens. Prerequisites: BIOI 1800 or BIOI 2420 or BIOI 1200, 1300 or permission of Instructor.
Animal Behavior
*BIOL 2600  3 cr.  4 hr.
This course focuses on classical and current research exploring the mechanisms and evolution of Animal Behavior. Course topics include the genetic, ecological, evolutionary, cellular and physiological processes that shape animal behavior. Particular emphasis is placed on reviewing primary literature to understand the evolution of adaptive behaviors for communication, predator avoidance, foraging, habitat selection, courtship, mating, parental care, kin recognition, and cooperations. Weekly laboratory sessions will provide students with the opportunity to conduct independent experiments on animal behavior using a variety of model systems.

Survey of Micro-organisms
BIOL 2700  3 cr.  4 hr.  ▲
Offered in the spring semester for day students. This 3 hrs. lecture, 2 hrs. lab per week plus some additional time. The course serves as an introduction to the biology of major groups of micro-organisms including bacteria, viruses, protozoa, and fungi. Emphasis is placed on their role in nature and their relationship to man as agents of infectious diseases. In the laboratory principles and practices of aseptic techniques and diagnostic identification and culture of disease entities are explored.
Prequisites: BIOL 1300 and CHEM 1200 or permission of instructor.

Genetics
BIOL 2800  4 cr.  6 hr.  ▲ ◆
Offered in the spring semester for day students. Basic principles of biological information processing are examined including Mendelian inheritance, sex determination, chromosome cytogenetics, linkage, recombination and genetic mapping, mutagenesis, molecular genetics and gene-enzyme relationships, and quantitative inheritance. Laboratory work includes study of mutational effects and recombinational analysis in Drosophila, bacteria, and viruses.
Prequisite: 3 semester hours of Introductory Biology or equivalent.

Introduction to Secondary Teaching
BIOL 2860  3 cr.  3 hr.  ▲
This course is required of all students preparing for initial license at the secondary level. It is a sophomore level course for full-time undergraduates and the first course taken by transfer students. It is taught at the local high school and is a clinical laboratory experience. This course includes a 25 hour pre-practicum requirement and is a prerequisite for other certification course requirements. Students become familiar with the complexities of secondary school teaching and its demands. The course gives faculty the opportunity to screen students and gives students the opportunity to test their commitment to teaching.

Plant Physiology
*BIOL 3200  3 cr.  4 hr.  ▲
Individually paced instruction is offered to study the integration of plant structure and function, emphasizing physiology of the integrated plant-water relations, transpiration and translocation, mineral nutrition, photosynthesis, respiration, growth hormones, differentiation, and morphogenesis.
Prequisite: BIOL 1900 or BIOL 1400.

Cell Biology
BIOL 3250  4 cr.  6 hr.  ▲
Offered in the fall semester for day students. Cell and subcellular structure and function are covered in this course. Membranes, cell organelles, bioenergetics, photosynthesis, DNA and RNA structure, function and replication, protein synthesis, and gene regulation are the major areas considered. Laboratory includes absorption spectrophotometry, cell fractionation, organelle isolation, DNA isolation, and electrophoresis.
Prequisites: BIOL 2800 and CHEM 2100 or permission of instructor.

Entomology
*BIOL 3300  3 cr.  4 hr.  ▲
Offered in the fall semester for day students. Students learn anatomy, habits, life histories, and identification of insects and some related arthropods. Laboratory work includes preparation of a representative collection of adult and larval forms from terrestrial and aquatic environments with emphasis on techniques for identification of these forms.
Prequisite: BIOL 1900 or permission of instructor.

Limnology
*BIOL 3400  3 cr.  4 hr.  ▲
Offered in the fall semester for day students. The course offers a study of fresh waters and their inhabitants. Class work surveys protists, invertebrates, vertebrates, and plants collected from local waters and emphasizes their ecological interrelationships as determined by biological, physical, and chemical parameters.
Prequisites: BIOL 1900 and BIOL 2300 or permission of instructor.

Biochemistry
BIOL 3450  4 cr.  6 hr.  ▲
Offered in the fall semester for day students. The course is a study of the chemistry of biologically important molecules and macromolecules, including metabolism and regulation, water, proteins, enzymes, lipids, carbohydrates, and nucleic acids. Laboratory emphasizes manual and instrumented techniques for isolation, qualitative and quantitative analysis of macromolecules, and the kinetics and induction of enzymes.
Prequisite: BIOL 2800, CHEM 2100 or permission of instructor.

Plant Taxonomy
*BIOL 3500  3 cr.  5 hr.  ▲
Offered in the fall semester for day students. The course examines the classification of higher plants in accordance with evolutionary principles and trends. Laboratory is devoted to the techniques of plant identification with emphasis on the terminology and use of botanical keys. Field trips are taken for collecting representative elements of the local flora and preparation of an herbarium.
Prequisite: BIOL 1800 or 1900 or permission of Instructor.
Developmental Biology
BIOL 3550 4 cr. 6 hr. ▲
Offered in the spring semester for day students.
The course examines a detailed survey of developing embryos from the fertilized egg through the various stages leading to the adult organism. Current theories regarding the molecular mechanisms underlying cell differentiation and other classic developmental processes are also themes of this course. Other topics covered in the survey include regeneration, metamorphosis, aging, and cancer. Laboratory involves the study of development in live sea urchins, birds, frogs, and ferns as well as work with prepared slides. Prerequisites: BIOL 1800, BIOL 1900, BIOL 2800, or permission of Instructor.

Biology of Algae
*BIOL 3600 3 cr. 4 hr. ▲
Students collect and identify common algae found in the New England area. Emphasis is on freshwater forms, but some study of marine algae is conducted as well. Distribution of algal species is correlated with physical and chemical factors in their habitats. Laboratory includes study of algal physiology and reproduction as well as techniques for cultivation. Prerequisite: BIOL 1400 or BIOL 1900.

Bioethics
BIOL 3700 3 cr. 3 hr.
Bioethics explores the clash between modern biology and human values. Students will have the opportunity to develop ethical guidelines and be prepared to think in a critical fashion about biologically precipitated problems. Ethical theories, genetic engineering, cloning, are some of the topics to be discussed. The course uses lectures, discussions, and case study analyses. Prerequisite: One semester of General Biology or Life Science or Anatomy and Physiology or permission of Instructor.

Vertebrate Biology
BIOL 3800 4 cr. 6 hr. ▲
The course provides students with a thorough introduction into the biology of vertebrate animals. Lecture topics include anatomy, physiology, ecology, and evolution of the four classes of vertebrates. Laboratories emphasize the mastery of skills needed to collect and identify vertebrates. Prerequisite: BIOL 1900 or permission of Instructor.

General Microbiology
BIOL 3900 4 cr. 6 hr. ▲
Offered in the fall semester for day students.
The structure, nutrition, and growth of bacteria is examined in this course as well as characterization of representative bacteria, fungi, viruses, and protozoa. Their genetic and metabolic peculiarities, immunological techniques, and the immune response in man is studied. Laboratory work includes aseptic technique, isolation and cultivation of microbes, staining techniques and diagnostic metabolic reactions. Prerequisites: Organic Chemistry and BIOL 2800 or permission of Instructor.

Endocrinology
*BIOL 4250 3 cr. 3 hr. ▲
The course covers chemical integration of physiological processes by hormones and related agents. Discussions include structure and function of vertebrate and other animal endocrine systems, neuroendocrine relationships, and other topics of current interest. Prerequisites: BIOL 1200/1300, or BIOL 1800/1900 and one year of Chemistry, or permission of Instructor.

Molecular Biology
*BIOL 4500 4 cr. 6 hr. ▲
The course offers studies of restriction enzymes, plasmids, gene cloning, recombinant DNA, DNA sequencing, oncogenes, and other topics of current interest. Laboratory work includes restriction enzyme digests and mapping, gene cloning, bacterial transformation, blue/white color selection, minipreps, PCR, blotting techniques and introduction to Bioinformatics. Prerequisites: BIOL 2800 and BIOL 3250.

Evolution
*BIOL 4600 3 cr. 3 hr. ▲
The course is an introduction to the principles and processes governing the evolution of living organisms. Emphasis is placed on the ways by which various other biological disciplines relate to evolutionary studies. A survey of paleontological evidence is given to demonstrate how evolutionary principles have affected life. Prerequisites: BIOL 1900, 2300, and 2800 or permission of Instructor.

Neurobiology
*BIOL 4800 3 cr. 3 hr. ▲
A survey is conducted of neural activity and the neural bases of behavior as illustrated by simpler invertebrate and vertebrate nervous systems. Topics covered in the class include structure and function of neurons, neurodevelopment, cellular basis of behavior (sensory and motor systems), neuropharmacology, and neural plasticity. The class is facilitated by lectures and laboratory. Prerequisites: BIOL 1200/1300, or BIOL 1800/1900 and one year of Chemistry, or permission of Instructor.

Immunology
BIOL 4810 3 cr. 3 hr. ▲
Offered in the spring semester for day students. The course consists of a survey of immune response, antibody formation and function, immunosuppression, blood group antigens and antibody-antigen reactions. The principles of complement activity, hypersensitivity, and autoallergic reactions are discussed. Prerequisites: BIOL 2800, BIOL 3250, or permission of Instructor.

Bioethics
BIOL 3700 3 cr. 3 hr.
Bioethics explores the clash between modern biology and human values. Students will have the opportunity to develop ethical guidelines and be prepared to think in a critical fashion about biologically precipitated problems. Ethical theories, genetic engineering, cloning, are some of the topics to be discussed. The course uses lectures, discussions, and case study analyses. Prerequisite: BIOL 1400 or BIOL 1900.

Independent Study
BIOL 4901-4903 1 to 3 credits ▲
Offered in the fall and spring semesters for day students. In the Independent Study participants fulfill laboratory or other independent research under the guidance and supervision of one or more faculty members. A comprehensive term paper and an oral presentation are required for successful completion of the project. Independent Study may be repeated for credit to a maximum of 9 semester hours. Prerequisites: junior or senior standing, 15 credits of Biology and special permission of the Departmental Curriculum Committee.

Biology Practicum in a Secondary School I and II
BIOL 4860, 4870 6 cr. 6 hr. ▲
Students are assigned to cooperating secondary schools for a semester of student teaching.

Internship
BIOL 4950, 4960 6 cr. 6 hr. ▲
Offered in the fall and spring semester for day students.
The Internship involves off-campus laboratory or field experience in conjunction with established research programs at cooperating governmental, industrial, or private facilities. Supervision is shared by program directors and faculty members at Fitchburg State College. Assignments are contingent on students' abilities and acceptances by the cooperating institution. One or two full days of work per week may be expected. A comprehensive term paper and an oral presentation are required after each semester of Internship work for successful completion of the project. An Internship course may be repeated for up to a maximum of 12 semester hours. Prerequisites: junior or senior standing and approval of the Biology Department.

Directed Study
BIOL 4975 1-6 cr.
Introduction to Computer Information Systems for Business
BSAD 1700  3 cr. 3 hr.  ●●●●●
This course introduces the student to computer information science and its applications. The student develops literacy in the computer and its uses. The laboratory work includes an introduction to Word Processing, Spreadsheets, Databases, and the fundamentals of programming with BASIC. No previous knowledge of computers is required or presumed. Credit is not awarded for both BSAD 1700, Introduction to Computer Information Systems for Business and CSC 1100, Computer Applications. See Business Administration Department Chair for alternate course selections. Q
Prerequisite: Basic Math II.

Introduction to Business
BSAD 1850  3 cr. 3 hr.  ●●●●●
Introduction to Business is a college-level survey course in business that explores the nature of the American free enterprise system and its business organizations. This course examines the role played by business in American society, as well as its purpose and responsibilities. Furthermore, it introduces the student to the practical operations that must exist if businesses are to create goods and services, and it highlights some of the major problems faced by managers in planning, organizing, directing, and controlling these areas. Therefore, this course is intended to give the student a broad overview of the functions, institutions, principles, and practices of business.

Introduction to Financial Reporting
BSAD 2010  3 cr. 3 hr.  ●●●●●
This course provides an overview of financial accounting/reporting in its role as an information system within the socioeconomic environment of business. Financial reporting concepts and practices are presented from a decision perspective in which the content of financial statements and the analysis, interpretation, and application of this information in making rational business decisions are examined. Relationships between business events and elements of the financial statements are analyzed. Coverage of accounting procedures is presented to the extent that they are necessary to understand the substance of financial statement information. Internal control of accounting systems will be considered. A base of analytical tools will be provided for interpretation of financial information. Specific financial accounting issues related to current and long-term operational assets, current liabilities, debt instruments, and equity are discussed.
Prerequisite: sophomore status. BSAD 1700 or CSC 1400, MATH 0200.

Introduction to Managerial Accounting
BSAD 2020  3 cr. 3 hr.  ●●●●●
This course stresses the usefulness of accounting data as it relates to the managerial decision making process relative to planning, control, and analysis. Among the multifaceted areas of study are cost volume, profit analysis, budgeting, performance analysis, and organizational planning and control.
Prerequisites: BSAD 2010, ECON 1200, MATH 1250.

Business Problem Solving with Microcomputers
BSAD 2700  3 cr. 3 hr.  ●●●●●
This course uses the computer as a tool to solve business problems. Problem definition, analysis of problem, solution design, and implementation are phases leading toward the development of a business application system.
Prerequisite: BSAD 1700.

Financial Reporting Theory and Practice I (formerly Intermediate Accounting I)
BSAD 3010  3 cr. 3 hr.  ●●●●●
This course is designed to provide a strong conceptual, analytical, and procedural foundation for the study of financial reporting and practice. The historical development of accounting thought and the role of financial accounting in today's economy are investigated. Socioeconomic, political, legal, and ethical influences on financial reporting are considered. A discussion of the following issues: procedures to record, summarize, and report results of business events, content and presentation of financial statements, and specific reporting issues related to cash and receivable. An overview of financial statement analysis is also presented. International issues are addressed as appropriate.
Prerequisites: BSAD 2010.

Financial Reporting Theory and Practice II (formerly Intermediate Accounting I)
BSAD 3020  3 cr. 3 hr.  ●●●●●
In this course, in-depth discussion of financial reporting theory and practice is continued with respect to: inventories; and current and contingent liabilities; long-term debt; and owners' equity. Financial statement analysis of these financial statement elements is also continued. Ethical and international issues are addressed throughout the semester.
Prerequisite: BSAD 3010.

Cost Accounting
BSAD 3120  3 cr. 3 hr.  ●●●●●
This course discusses job and process costing, managerial decision making using cost estimation and cost-volume-profit analysis, flexible budgeting, transfer pricing, and capital investment decisions.
Prerequisites: BSAD 2020.

Principles of Management
BSAD 3200  3 cr. 3 hr.  ●●●●●
This is an introductory course in basic management concepts and practices. This course covers principles and techniques as they relate to planning, organizing, leading, and controlling business enterprises.

Human Resources Management
BSAD 3210  3 cr. 3 hr.  ●●●●●
This is an introductory course which surveys human resources practices and procedures involved with recruiting, employment, training and development, job evaluation, compensation, health and safety, labor relations, and workplace law. Special topics of student interest are also covered.
Prerequisite: BSAD 3200.

Production Management
BSAD 3220  3 cr. 3 hr.  ●●●●●
This course provides an overview of business operations. In light of selected production improvement techniques (automation, incentive wage system, etc.), students review the role of selected staff departments (purchasing, production planning, etc.) that support the line organization. In the process, students become familiar with a variety of control systems (quality control, inventory control, etc.), which are fundamental in any business—whether product or service oriented.
Prerequisite: BSAD 3200.

Fundamentals of Marketing
BSAD 3300  3 cr. 3 hr.  ●●●●●
This course discusses the role of marketing in our economic and social structure. It includes the planning, distribution, pricing, and promotion of goods and services to consumer and industrial markets in the context of internal activities of the firm and environmental forces.
Prerequisite: BSAD 1700.
Consumer Behavior  
BSAD 3310 3 cr. 3 hr.  
This course familiarizes the student with the consumer decision making processes. It utilizes the concepts of the social and behavioral sciences in order to provide an understanding of consumer buying behavior.  
Prerequisites: BSAD 3300.

Market Research  
BSAD 3320 3 cr. 3 hr.  
This course emphasizes the importance of research in marketing planning and decision making. Instruction includes the basics of scientific investigation, the search for information, sampling, data collection, data analysis, interpretation, and reporting.  
Prerequisites: BSAD 3300.

Advertising  
BSAD 3330 3 cr. 3 hr.  
In this course students become knowledgeable about the preparation and use of advertising. Topics include the functions of advertising, planning an advertising campaign, copy, artwork, and media selection.  
Prerequisites: BSAD 2020, 3200, 3300, 3500.

Small Business Management  
BSAD 3340 3 cr. 3 hr.  
This course provides the students with an understanding of the unique characteristics required of the successful small business entrepreneur and the specifics relative to the start-up, financing and management of a small business. Emphasis is on a full spectrum of business functions as applied to small firms, including proprietorships, partnerships, corporations, and franchised outlets.  
Prerequisites: BSAD 3200, 3300.

TQM (Total Quality Management)  
BSAD 3350 3 cr. 3 hr.  
This course studies the concepts, practices, and methods of contemporary quality management in both manufacturing and service-related industries. Topics may include quality management, customer service, leadership, measuring quality, statistical process, and teamwork.  
Prerequisites: BSAD 3200, 3300.

Basic Finance  
BSAD 3400 3 cr. 3 hr.  
This course studies the forms and sources of financing business firms, large and small, corporate and noncorporate. The emphasis is on financial planning and financial problem solving.  
Prerequisite: BSAD 2020.

Investments  
BSAD 3410 3 cr. 3 hr.  
The course analyzes stocks, corporate and governmental bonds, and other investment media, and studies the secondary stock market mechanism. Students review various investment vehicles and security evolution. Research of individual companies and industries is required. The course is primarily facilitated by lectures and problem solving.  
Prerequisites: BSAD 2020, 3200, 3300.

Real Estate Principles and Practices  
BSAD 3440 3 cr. 3 hr.  
Using a business perspective this course explores real estate use, ownership, and development as well as its social impact and business constraints. The effect of home ownership on executive transfers and company costs is examined. Current terminology in the field is defined, including property rights, ownership, financing, planning for the future, property evaluation, and property management.  
Prerequisite: BSAD 3200.

Real Estate Investment and Management  
BSAD 3460 3 cr. 3 hr.  
The course looks at the business decisions involved in the investment, financing, and management of real estate. This course focuses on real estate as a popular investment vehicle because of the number of income-producing characteristics it possesses. Students learn the principles of cash flow, changing property values, equity investor, decision-making, risk and return, and market research in light of current real estate trends.  
Prerequisites: BSAD 2020, 3200, 3300, 3400.

Business Law I  
BSAD 3500 3 cr. 3 hr.  
This course is an introduction to the study of business law, its nature and classification, the court systems, and their procedures. Contract law, the law of sales, and personal property are considered comprehensively.

Systems Analysis Methods  
BSAD 3710 3 cr. 3 hr.  
As an overview of the system development life cycle, this course introduces the student to the fundamental concepts and techniques of systems analysis. Classical and structured methods of systems documentation are explored as well as information gathering and reporting activities.  
Prerequisite: BSAD 3900 and CSC 3450.

Computer Concepts and Programming Techniques  
BSAD 3720 3 cr. 3 hr.  
This course is a survey of technical topics related to computer systems with emphasis on the relationship between computer architecture, system software, and applications software.  
Prerequisites: BSAD 3710, CSC 2700.

Financial Reporting Theory and Practice III  
BSAD 4010 3 cr. 3 hr.  
In this course, in-depth discussion of financial reporting theory and practices continued with respect to: inventories; concurrent operational assets; current and contingent liabilities; long-term debt; and owners’ equity. Financial statement analysis of these financial statement elements is also continued. Ethical and international issues are addressed throughout the semester.  
Prerequisites: BSAD 3020, MATH 1800.

Consolidations and Mergers  
BSAD 4100 3 cr. 3 hr.  
This course includes accounting problems involved in the preparation of consolidated financial statements and in home and branch office relationships. The accounting concepts of purchasing and pooling of interests are stressed.  
Prerequisites: BSAD 3020, including all related prerequisites.

International Accounting and Taxation  
BSAD 4110 3 cr. 3 hr.  
This course will provide an understanding of the International Accounting standards and the International Taxation rules within the accounting profession. U.S. accounting practices and foreign accounting practices in selected countries will be discussed. Taxation issues will center on U.S. taxes, both corporate and individual, for outbound and inbound transactions.  
Prerequisites: BSAD 3020.

Individual Taxation  
BSAD 4120 3 cr. 3 hr.  
This course studies the Federal Income Tax Laws, as they apply to individuals, in compliance and tax planning opportunities.  
Prerequisites: BSAD 3020, Financial Reporting Theory and Practice II (including all related prerequisites).

Corporate, Estate, and Gift Taxation  
(formerly Advanced Taxation)  
BSAD 4130 3 cr. 3 hr.  
This course studies the Federal Income Tax Laws and regulations in both compliance and tax planning opportunities applicable to partnerships, corporations, fiduciaries, and gift and estate taxes.  
Prerequisite: BSAD 4120.
Auditing
BSAD 4140 3 cr. 3 hr.  ●
This course introduces the student to the nature and scope of retail marketing and management. The course includes the structure of retailing, merchandising, buying, pricing, promotion, organization, as well as management of the retail firm.
Prerequisite: BSAD 3300.

Retail Marketing
BSAD 4310 3 cr. 3 hr.  ●
This course centers on the marketing of goods to industrial firms, governmental agencies, and other organizations included within the industrial market. The areas covered in the course include distribution channels, pricing policies, product planning, and market strategy.
Prerequisite: BSAD 3200.

International Marketing
BSAD 4330 3 cr. 3 hr.  ●
This course focuses on the marketing activities of firms operating in an international market. It provides the student with an understanding of the factors that influence the selling of products in international markets. The planning, organizing, and controlling of international marketing is explored along with its law, history, and economics.
Prerequisite: BSAD 3300.

Financial Management of Corporations
BSAD 4440 3 cr. 3 hr.  ●
This course covers the analysis and management of the flow of funds through an enterprise. Cash management, source, and application of funds, as well as term loans and types and sources of long term capital are examined. As an introduction to capital markets, the class explores capital budgeting, cost of capital, and financial structure.
Prerequisite: BSAD 3400.

Data Base Management Systems
*BSAD 4720 3 cr. 3 hr.  ●
This course provides an introduction to the concepts of data base processing with emphasis on application programming in a database environment. Physical and logical organization of data, data relationships, and operational requirements of a database management system are also discussed.
Prerequisites: BSAD 3710, CSC 2700.

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: the Multicultural and interdisciplinary courses also fulfill a cluster designation.
* Asterisk indicates that the course may be offered less than once every two years.
● Undergraduate Day School
◆ Undergraduate Evening School
Courses having a more narrow focus than those taught on a regular basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
International Business Management  
BSAD 4880  3 cr. 3 hr.  
This course provides an analysis of the complexities of doing business overseas. Emphasis is on commerce, trade, and investments. Topics include cultural differences, market barriers, business practices, product/market strategies, distribution and organization for small firms and multinational corporations. 
Prerequisite: senior status in Business Administration or permission of Department Chairperson.

Business Policy and Strategy  
BSAD 4890  3 cr. 3 hr.  
This course integrates all organic management functions. Cases are used as subjects for analysis and systematic decision making practice. 
Prerequisite: senior status in Business Administration or permission of Department Chairperson.

Independent Study—Management  
BSAD 4903  3 cr.  
To study specific, advanced topics in the Business Administration area, students must have the approval of supervising instructor and the department.

Independent Study—Accounting  
BSAD 4913  3 cr.  

Independent Study—Marketing  
BSAD 4923  3 cr.  

Independent Study—CIS  
BSAD 4933  3 cr.  

Independent Study—Management  
BSAD 4902  2 cr.  

Independent Study—Accounting  
BSAD 4912  2 cr.  

Independent Study—Marketing  
BSAD 4932  2 cr.  

Independent Study—Management  
BSAD 4913  1 cr.  

Independent Study—Accounting  
BSAD 4925  1 cr.  

Independent Study—Marketing  
BSAD 4935  1 cr.  

Independent Study—CIS  
BSAD 4945  1 cr.  

Internship: Business Laboratory  
BSAD 4910  1 cr.  
BSAD 4920  2 cr.  
BSAD 4930  3 cr.  

This course is a part time (18 hr. week) internship in either the private or public sector. The purpose of the course is to allow the student the opportunity to synthesize the theoretical learning of the classroom with a practical work situation. 
Prerequisite: approval by Internship Director.

Directed Study  
BSAD 4975  1-6 cr.  

Chemistry  

Industrial Chemistry  
CHEM 1000  4 cr. 6 hr.  
This introduction to chemistry includes a study of the periodic table, atomic structure, electrochemistry, thermodynamics, acid-base properties, and a brief introduction to organic compounds. 
Prerequisite: MATH 1300.

Pre-Biochemistry  
CHEM 1100  4 cr. 5 hr.  
This course provides the fundamentals of chemistry for non-science majors. Material is limited to basic concepts in general chemistry that are necessary for understanding the principles of organic and biochemistry. This course replaces Chemistry I and is required for Nursing Majors. 
Prerequisite: CHEM 1100.

Elements of Human Biochemistry and Organic Chemistry  
CHEM 1200  4 cr. 5 hr.  
This course is a continuation of Pre-Biochemistry I or the equivalent. The course material also includes a study of organic chemistry and human biochemistry. This course replaces Chemistry II and is required for Nursing Majors. 
Prerequisite: CHEM 1100.

General Chemistry I  
CHEM 1300  4 cr. 6 hr.  
This course explores the fundamental laws and theories of chemistry such as atomic structure, the periodic table, electrochemistry, descriptive inorganic chemistry, the gas laws, solutions, equilibrium calculations, and chemical bonding. Chemical calculations are emphasized. 
Prerequisite: CHEM 1300.

Organic Chemistry I  
CHEM 2000  4 cr. 6 hr.  
Properties of organic compounds are discussed in terms of their molecular structures and reaction mechanisms. This course is recommended for those who need for a solid theoretical foundation in chemistry, especially those contemplating graduate study in science or medicine. 
Prerequisites: CHEM 1400.

Analytical Chemistry  
CHEM 3000  4 cr. 6 hr.  
The course emphasizes theory and application of Quantitative Analysis. The lectures stress chemical equilibrium, solubility product, complexometric formation, oxidation-reduction, and stoichiometric calculations. 
Prerequisites: CHEM 1300, 1400, 2000, 2100 or the equivalent.
**Physical Chemistry I**
CHEM 3200 4 cr. 6 hr.
- The course explores the underlying principles of chemistry from a physical chemistry standpoint. Topics of discussion include kinetic theory, theories of the structure of matter, theory of solutions, electrochemistry, thermodynamics, spectroscopy, and kinetics.
- Prerequisite: CHEM 2100 or the equivalent.

**Physical Chemistry II**
CHEM 3300 4 cr. 6 hr.
- The course is a continuation of Physical Chemistry I.
- Prerequisite: CHEM 3200.

**Analytical Chemistry II**
CHEM 3500 4 cr. 6 hr.
- The course studies Instrumental Analysis. Laboratory experiments include spectrophotometric, conductometric, potentiometric, and chromatographic analyses.
- Prerequisites: CHEM 2100 and CHEM 3000 or the equivalent.

**Advanced Topics**

- **Student and faculty availability determine the following course offerings.**

**Advanced Inorganic Chemistry**
*CHEM 3600 3 cr. 3 hr.*
- The course studies bonding theories, acid-base theories, reactions in non-aqueous solvents, complexation and chelation, reactivity, and physical measurements.
- Prerequisite: CHEM 1400 or the equivalent.

**Natural Products**
*CHEM 4000 3 cr. 3 hr.*
- This course examines chemistry isolation, purification, and identification of pure compounds from a variety of naturally occurring substances. Special techniques are introduced whenever feasible.
- Prerequisites: CHEM 2000 and 2100.

**Biochemistry (See BIOL 3450).**
CHEM 4100 4 cr. 6 hr.
- Prerequisite: CHEM 2100.

**Polymer Chemistry**
*CHEM 4200 4 cr. 6 hr.*
- This introduction to the synthesis and properties of macromolecules also serves as an application of chemical principles to this interesting and important group of materials.
- Prerequisites: CHEM 2000 and 2100 or the equivalent.

**Radiation Chemistry**
CHEM 4300 4 cr. 4 hr.
- The fundamentals of radiation chemistry are explored, including radioactivity, atomic nuclei, nuclear reactions, decay systems, reactors, and radiation detection and measurement. Emphasis is placed on the use of radioactive materials in chemical applications.
- Prerequisites: CHEM 1400, PHYS 1400.

**Forensic Chemistry**
CHEM 4400 3 cr. 3 hr.
- This course studies forensic detection of crimes by examining physical evidence, such as hair, fibers, paint, drugs, DNA, fingerprints, firearms, and tool marks, as well as toxicology, arson, explosion, serology, rape victims, document, and voice examination.

**Independent Study in Chemistry**
CHEM 4900 1 to 3 cr.
- This independent study facilitates laboratory research under the guidance of the Chemistry staff.
- Prerequisite: permission of the instructor.

**Internship**
CHEM 4940 3 cr.
- The Internship gives the student an opportunity to work in an industrial, government, or private research laboratory to gain experience relevant to their major.

**Clinical Laboratory Sciences**

**Introduction to Clinical Laboratory Sciences**
CLS 1000 1 cr. 2 hr.
- An integrated lecture-laboratory course designed to acquaint the student with the role and duties of technologists, including employment opportunities and educational requirements for the profession. The Laboratory portion of the class includes introduction to techniques in hematology, clinical chemistry, immunohematology, and clinical microbiology.

**Clinical Laboratory Techniques**
CLS 1400 3 cr. 5 hr.
- The course studies the clinical laboratory's role in assessing the kidney in health and disease. The microscopic and chemical analysis of urine is taught with emphasis on correlation of test data to disease diagnosis. Techniques and theory of phlebotomy studied.
- Prerequisite: BIOL 2420 or the permission of instructor.

**Basic Hematology**
CLS 2000 3 cr. 5 hr.
- This course is an introduction to the composition and formation of blood and blood cells. Laboratory exercises include routine procedures used in the hematology laboratory such as staining, cell counting and identification, selected manual methods and application of quality control procedures.
- Prerequisite: BIOL 1800, CLS 2100 or permission of instructor.

**Basic Laboratory Skills**
CLS 2100 4 cr. 6 hr.
- Through lecture and laboratory sessions, students will review basic principles of chemistry, laboratory math, and statistics as they learn to accurately measure, calculate, and quantify analytes. Quality control principles are also examined. The basic standards, theory and terminology associated with phlebotomy are introduced with laboratory practice in venipuncture and fingerstick techniques. Q
- Prerequisite: MATH 1700; CHEM 1300 and 1400, or permission of instructor.

**Professional Issues in Clinical Laboratory Science**
CLS 3000 3 cr. 3 hr.
- The course explores economic, political, and social issues pertinent to healthcare delivery. Professional and personal ethics, interpersonal communication skills, interview techniques, career options for laboratory personnel, basic education, and management strategies are emphasized.
- Prerequisite: CLS 1000 or permission of instructor.

**Human Biochemistry I**
CLS 3100 4 cr. 6 hr.
- The study of the biochemical properties of carbohydrates, amino acids, proteins and lipids specifically related to the human body. Major metabolic pathways of glucose metabolism in the liver and body cells, mechanisms of enzyme action and bioenergetics will be discussed. Physiological topics related to the gastrointestinal tract, nutrition, liver, nerve and muscle function are discussed. Laboratory sessions complement lecture. Q
- Prerequisite: CHEM 1300, 1400, 2000, and 2100.

---

**Key to Course Offerings**
- Q: designates courses in the Quantitative Scientific Cluster
- I: the Ideas and Events Cluster
- B: the Human Behavior Cluster
- L: the Literature, Language and Arts Cluster
- C: the Multicultural Cluster
- IDS: interdisciplinary courses
- U: Undergraduate Day School
- E: Undergraduate Evening School

Courses having a more narrow focus than those taught in a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Human Biochemistry II
CLS 3150 4 cr. 6 hr.
Continuation of CLS 3100. Topics include the biochemical properties of RNA, DNA, fatty acid and amino acid metabolism. Physiological topics related to renal and endocrine function, skeletal and mineral metabolism, and water balance are discussed. Laboratory sessions complement lecture and include urinalysis.
Prerequisite: CLS 3100.

Immunoassay/ Clinical Virology
CLS 3200 3 cr. 5 hr.
The course studies in vitro antigen-antibody reactions and theory of serological reactions. The practical application of theory to clinical laboratory testing, enzyme assays, immuno-electrophoresis, agglutination and precipitation tests is studied and performed. An overview of viral structure, oncogenesis, and viral infections of man is given.
Prerequisite: CLS 3100.

Parasitology/Mycology
CLS 3400 3 cr. 4 hr.
Life cycles, identification, and clinical pathology of parasites in humans are studied in this course along with common mycotic infections of humans and methods of identification.
Prerequisite: BIOL 3900.

Clinical Hematology I
CLS 4000 4 cr. 6 hr.
This course focuses on an examination of red cells and white cells and the laboratory testing used in the detection of anemias and leukemias. Student study the pathophysiology of bone marrow and peripheral blood while performing routine and special procedures used in the clinical hematology lab.
Prerequisite: CLS 2000. Open to senior CLS majors only and permission of instructor.

Clinical Hematology II
CLS 4050 3 cr. 5 hr.
The course is a continuation of H ematology I with special emphasis on H ematology Instrumentation, Quality Control principles and Body Fluid Analysis. In addition, the course includes the study of H emostasis and tests related to the detection of bleeding and thrombotic problems. A clinical practicum at an affiliated laboratory is performed at the conclusion of the course.
Prerequisite: CLS 2000. Open to senior CLS majors only and permission of instructor.

Issues in Clinical Microbiology I
CLS 4100 2 cr. 2 hr.
Students will perform an in-depth investigation of concepts, theories, or problems that are of importance to clinical microbiologists. Students will become skilled at searching the current literature and will enhance their verbal communication skills as they discuss their findings with the group.
Co-requisite: CLS 4400. S/U grading only.

Issues in Clinical Microbiology II
CLS 4150 2 cr. 2 hr.
Continuation of CLS 4100.
Co-requisite: CLS 4450. S/U grading only.

Clinical Chemistry I
CLS 4200 4 cr. 6 hr.
The course provides a detailed study of the biochemical processes associated with health and disease. Students learn about the measurement of constituents in the blood and body fluids to monitor health and facilitate the diagnosis of disease. Emphasis is placed on interpretation, disease correlation, problem solving, and quantitative techniques.
Prerequisites: CLS 3100 and 3150. Open to senior CLS majors only and permission of instructor.

Clinical Chemistry II
CLS 4250 4 cr. 6 hr.
This course is a continuation of CLS 4200. A clinical practicum is performed at an affiliated laboratory at the conclusion of the class.
Prerequisites: CLS 4200. Open to senior CLS majors only and permission of instructor.

Issues in Clinical Chemistry I
CLS 4300 2 cr. 2 hr.
Students will perform an in-depth investigation of concepts, theories, or problems that are of importance to clinical chemists. Students will become skilled at searching the current literature and will enhance their verbal communication skills as they discuss their findings with the group.
Co-requisite: CLS 4200. S/U grading only.

Issues in Clinical Chemistry II
CLS 4350 2 cr. 2 hr.
Continuation of CLS 4300.
Prerequisite: CLS 4300; Co-requisite: CLS 4250. S/U grading only.

Clinical Microbiology I
CLS 4400 3 cr. 5 hr.
Students learn techniques for the isolation and identification of common human pathogenic bacteria and methods for susceptibility testing. Instruction includes techniques used in the diagnostic microbiology laboratory.
Prerequisites: BIOL 3900, CLS 3400. Open to senior CLS majors only and permission of instructor.

Clinical Microbiology II
CLS 4450 3 cr. 5 hr.
Techniques used to diagnose human infectious disease are covered in this class. The isolation and identification of uncommon human pathogenic bacteria is studied along with antibiotic structure and function. A clinical practicum is performed at affiliated laboratory at the conclusion of the class.
Prerequisites: CLS 4400. Open to senior CLS majors only and permission of instructor.

Immunohematology I
CLS 4600 3 cr. 5 hr.
The theory and laboratory techniques involved in blood banking are examined in this course. Areas of study include common blood types, screening and preparation of donors, crossmatching, antigen-antibody reactions, and serological procedures.
Prerequisites: BIOL 2800, 4810. Open to senior CLS majors only and permission of instructor.

Immunohematology II
CLS 4650 1 cr. 2 hr.
The course is a continuation of CLS 4600. It includes a short practicum in an affiliated blood bank laboratory.
Prerequisites: CLS 4600. Open to senior CLS majors only and permission of instructor.

Clinical Correlations I
CLS 4800 1 cr. 2 hr.
This Seminar is designed to demonstrate the interrelationships between clinical laboratory disciplines. A case study approach is utilized to help students integrate laboratory information.
Co-requisites: CLS 4000, 4200, 4400, 4600. Open to senior CLS majors only and permission of instructor.

Clinical Correlations II
CLS 4850 1 cr. 2 hr.
The course is a continuation of CLS 4800 using the seminar and case study approach.
Co-requisites: CLS 4050, 4250, 4450, 4650. Open to senior CLS majors only and permission of instructor.

Independent Study
CLS 4901, 2, 3 1, 2, 3 cr.
Open to students who have permission of supervising Instructor and department. The course of study, meetings, and project presentation are arranged upon approval.

Internship
CLS 4940

Directed Study
CLS 4975 1-6 cr.
Communications Media

Systems and Theories of Communication
COMM 1105  3 cr. 3 hr.
An introductory course that explores the ways in which communication is studied and discussed in both academic and professional arenas. The course covers the process and social implications of communication. It examines the history and current structure of several media, including print, graphic design, photography, film, television, and sound recording. It also examines the technological and social systems that are associated with the field.

Message Design
COMM 1120  3 cr. 3 hr.
The course introduces visual communication for the development of visual literacy. Students become involved with a variety of activities in previsualization, planning, designing, making, and evaluating visual messages. This course specifically relates to the communications concentrations taught in Phase II, including technical writing, television, photography, film, interactive, and graphic design.

Script Writing
COMM 2220  3 cr. 3 hr.
Students are instructed in the basics of script writing for film, television, and multi-image productions, including preparation of proposals, treatments, storyboards, and scripts. Script formats covered in the class include documentary, educational, corporate, and dramatic film/video writing. See also ENGL 2320.

History of Photography
COMM 2400  3 cr. 3 hr.
The course presents a survey of the development of photography to the present day. L

History of Film I
COMM 2405  3 cr. 3 hr.
An examination of the major and influential works, artists, movements, cultures and industries in world cinema from its beginnings to the 1950s, as well as the field's historiography and modes of inquiry. L, C

History of Film II
COMM 2415  3 cr. 3 hr.
An examination of the major and influential works, artists, movements, cultures and industries in world cinema from the 1950s to the present, as well as the field's historiography and modes of inquiry. Fulfills computer literacy requirement. L, C

History of TV
COMM 2420  3 cr. 3 hr.
The course provides a comprehensive analysis of television broadcasting from its inception to the present. The social and technological aspects of the medium are presented and examined in a lecture and seminar format. Particular emphasis is placed on television's sociological influence and impact on the communication process. I

History of Graphic Design
COMM 2430  3 cr. 3 hr.
This course presents the history of typography and its pertinence to graphic design from the beginning of written history to the present. Emphasis is placed on various movement of avant garde typography of the early twentieth century and its influence on present day graphic design. L

Journalism
COMM 2800  3 cr. 3 hr.
The course studies the press with emphasis on ethics in news, treatment of contemporary issues, and structuring the news story. Students write individualized assignments. (Credit is not given for both COMM 2800 and ENGL 2800.)

Prerequisites: ENGL 1100, ENGL 1200.

Multimedia Project Design
COMM 3304  3 cr. 3 hr.
The course provides an introduction to the history, theory, and practice of designing communications for interactive/multimedia environments. Special attention is paid to flowcharting, branching, hierarchy structures, screen design, storyboards, scripting, and all aspects of user interface design. Students also consider the roles of learning theory and instructional design as they create design documents for course projects.

Interactive Media I
COMM 3305  3 cr. 3 hr.
By using an interactive application students explore the use of digital audio, video, stills, presentation software, and elementary authoring. Students work with advanced features of the computer operating system and common software resources, such as databases and communications.

Interactive Media II
COMM 3306  3 cr. 3 hr.
The course studies tools and the logic structures that various design tools offer the producer/developer and the production team. Students integrate audio, still imagery, video, and hypertext into course projects.

Prerequisite: COMM 3304 and COMM 3305.

Interactive Media III
COMM 3307  3 cr. 3 hr.
A study of advanced techniques of authoring, design, and production that students apply in sponsored projects. Working in groups of three or four, students simulate a professional design team's production regimen in order to complete an advanced multimedia production of professional portfolio quality.

Prerequisite: COMM 3306.

Interactive Media Seminar
COMM 3308  3 cr. 3 hr.
This seminar provides an opportunity to study advanced topics of multimedia design and development. Subjects covered in the seminar include design and application of game theory, computerized animation, morphing techniques, and virtual reality.

Prerequisite: permission of the Instructor.

Interface Design
COMM 3309
This course investigates the design of interactive interfaces for multimedia and World Wide Web presentation. Students explore how the conceptual and aesthetic aspects of graphic design apply specifically to non-linear interactive digital environments.

Prerequisites: COMM 3810 and COMM 3305.

DVD Authoring
COMM 3350
DVD-Video is the distribution medium of choice for film/video and interactive multimedia content. This course bridges the film/video and interactive media tracks to address video compression and menu design for DVD-Video. Students will learn and apply skills used by DVD industry professionals in the production of significant DVD projects.

Prerequisites: COMM 3305 and COMM 3340 or Permission of Instructor.

Writing for Advertising
COMM 3430  3 cr. 3 hr.
The course provides an introduction to the principles, strategies, and ethical issues in writing advertising for various media. Students create written copy for individual unified media campaigns.

Prerequisite: COMM 3304 and COMM 3305.

Key to Course Offerings
Q: designates courses in the Qualitative Scientific Cluster
I: the Ideas Cluster
B: the Human Behavior Cluster
L: the Literature Cluster
C: Multicultural
IDIS: Interdisciplinary courses
"I: Undergraduate Day School
O: Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as 'Topics' courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Public Relations
COMM 3460 3 cr. 3 hr.
The focus in this course is on the role of managed communications in public relations unique to industry, human services, and educational institutions. Definitions and concepts, history, potential careers, and research methods are examined.

Technical Documentation
COMM 3470 3 cr. 3 hr.
This course gives students the opportunity to study and write the basic forms of technical documentation found in business and industry, including end-user manuals and training guides. Examination of graphics, typography, and desktop publishing is considered as they apply to hardcopy production. (See also ENGL 3470.)

Introduction to Film and Video
COMM 3505 3 cr. 3 hr.
This is the foundation course for the Video/Film concentration. Students are introduced to the basics of production and post-production in the two media. Topics include: understanding and using visual language; film and video camera operation; understanding the film and video production process; basic film and video nonlinear editing; production crew structure; and interpersonal communication. Students shoot super 8 film and video tape and then edit both the film and video. Students are required to purchase film and video tape as well as pay for processing.

Pre-Production Planning for Film and Video
COMM 3506 3 cr. 3 hr.
This course considers the intent and purpose of a message as a first step in media production. The social and cultural implications of media storytelling are examined. The course focuses on clearly defining message content, intent and audience as a precursor to an exploration of how particular film and video techniques communicate and are interpreted. Teams will subsequently develop the pre-production planning needed for a short film or video work, including: idea development, script treatments, story development, script writing, rewriting, storyboarding, script breakdown, production scheduling and resource planning. Prerequisite: COMM 3505.

Audio Production for Film and Video
COMM 3510 3 cr. 3 hr.
This course covers audio production basics—field, studio and booth audio acquisition, logging, mastering and archiving—with an emphasis on audio’s role in film and video production. By the end of the course, the student will be able to capture the highest quality audio in the manner most effective for integration during film or video post-production.

Intermediate Video Production
COMM 3520 3 cr. 3 hr.
The course focuses on the development of the skills necessary for single-camera video production, including shooting and recording with directed video equipment, location sound recording, location lighting, directing, nonlinear editing, and other post-production techniques. The student is required to purchase videocassette. Note: the department recommends that this course be taken at the same time as COMM 3580.

Post-Production
COMM 3530 3 cr. 3 hr.
This is an intensive course in film and video editing, as well as other post-production techniques. Course work includes practice in editing theory, sound effects recording, narration recording, and multi-track sound mixing. The course is based on the use of AVID non-linear editors. Students are required to provide their own video tape.

Advanced Video Production
COMM 3540 3 cr. 3 hr.
An upper-level production oriented course provides the opportunity for students to produce work of professional quality. This course draws on the skills of all previous courses in production. Working in production groups, students write, shoot, and begin editing a high-quality video program. Students may choose documentary, experimental, corporate, or dramatic subjects for this production. The final edit is completed on non-linear AVID systems. Students are required to purchase all production materials. Prerequisite: COMM 3520 and COMM 3740.

Production Management
COMM 3550 3 cr. 3 hr.
The course provides an examination of the fundamentals of production management. Topics covered in the class are: production budgets, production scheduling, contracts and agreements, union regulations for actors and crew members, shooting permits, legal implications and financial structures. Prerequisite: COMM 3520 or COMM 3720.

Sound Design
COMM 3560 3 cr. 3 hr.
This course examines the elements of post-production sound design within the context of film and video production. This course blends the artistic and the technical. Students will use non-linear editors, digital audio work stations and digital recording equipment to design soundtracks for their film and video productions. All materials are the responsibility of the student. Prerequisite: COMM 3520 or COMM 3710.

Lighting
COMM 3580 3 cr. 3 hr.
The course provides an introduction to the techniques of lighting, both on location and in the studio. Topics covered in the class include: the use of lighting instruments; lighting control media and devices; location lighting techniques; studio lighting techniques; camera movement; composition; metering; the use of lenses; electrical and safety considerations; grip techniques and equipment. Students are required to purchase video tape. Note: The department recommends that students take this course simultaneously with either COMM 3520 or COMM 3710. Prerequisite: COMM 3505.

Photography I
COMM 3600 3 cr. 3 hr.
The course introduces technical and aesthetic aspects of photography, such as exposure techniques, film, paper, and basic 35 mm camera work. Students are responsible for all paper, film, supplies, and mounting materials.

Photography II
COMM 3610 3 cr. 3 hr.
The course is a continuation and refinement of the material covered in COMM 3600. Editing and sequencing along with filters, flash, fill-flash, and an introduction to the studio is covered. Prerequisite: COMM 3600.

Photography III
COMM 3620 3 cr. 3 hr.
The course introduces medium format photography. Lighting, portraiture, and commercial photography are explored in professionally designed studios. Students are responsible for all paper, film, and chrome processing. Prerequisite: COMM 3610.

Large Format Photography
COMM 3630 3 cr. 3 hr.
The course specializes in 4 x 5 photography and the use of the Zone System for exposure and development. Students are responsible for all paper and film supplies. Prerequisite: COMM 3610.
Color Photography  
**COMM 3640 3 cr. 3 hr.** ▲
The course introduces the basic theory of color photography. Printing is emphasized and all work is C-prints and chrone. 
Prerequisite: COMM 3610.

Digital Photography  
**COMM 3645 3 cr. 3 hr.** ▲
The course studies the fundamentals of digital image acquisition, scanning, image manipulation, and various output devices. 
Prerequisite: COMM 3620 or 3640 or permission of instructor. Fulfills computer literacy requirement.

Photo Management  
**COMM 3660 3 cr. 3 hr.** ▲
The course studies photographic space design for private, commercial, and educational use. The class promotes an understanding of flow, function, equipment inventory, record keeping, and budget control. 
Prerequisite: COMM 3610.

Photography Seminar  
*COMM 3690 3 cr. 3 hr.** ▲
The seminar provides an opportunity for advanced study in the medium. Students are responsible for all paper and film supplies. 
Prerequisites: COMM 3620, 3630, or 3640.

Intermediate Film Production  
**COMM 3710 3 cr. 3 hr.** ▲
Intermediate Film Production introduces the tools of professional motion picture production. Topics include: 16mm sync camera operation, lens and filter differentiations, camera support, shooting tests of several film emulsions, film laboratory procedures, use of sync sound equipment (Nagra and DAT) and AVID nonlinear editing. 
Note: the department recommends that this course be taken at the same time as COMM 3580. 
Prerequisite: COMM 3505.

Advanced Film Production  
**COMM 3720 3 cr. 3 hr.** ▲
The course provides an advanced examination of professional 16mm production and AVID nonlinear post-production techniques. Topics covered in the class include: location shooting, sound recording and editing, film editing, negative matching, and interlock mixing. Students produce a professional 16mm film during the course. Film and processing costs are shared by all students. 
Prerequisite: COMM 3710 and COMM 3740.

Directing Video/ Film  
*COMM 3730 3 cr. 3 hr.** ▲
This course examines the role of the director. Topics covered in the class include: script analysis and breakdowns, casting, blocking the camera and the actors, acting, and directing actors. The class focuses on the relationships between the director and producer, actor, writer, and editor as well as between the director and the cinematographer. The role of the assistant director is defined, and unions, talent agencies, schedule planning, and interpersonal communications are explored. Students are responsible for all materials. 
Prerequisites: COMM 3510 or COMM 3710 and COMM 3580.

Digital Production for Film and Video  
**COMM 3740 3 cr. 3 hr.** ▲
In this course students may shoot 16mm film, video, or digital formats. Topics covered in the class include: techniques for shooting film for video; telecine techniques; resolving sound to video tape; time code fundamentals; editing video tape; understanding paintbox, digital effects, and other post-production techniques; and preparing to edit non-linear on the AVID system. Students are required to purchase film and video tape, as well as processing telecine services. 
Prerequisite: COMM 3710 or 3520. Fulfills computer literacy requirements.

Cinematography  
**COMM 3755 3 cr. 3 hr.** ▲
Cinematography is an advanced elective for film and video students who wish to specialize in the specific elements of production related to cinematography. This course is a blend of the artistic and the technical. Aspects of the topic include: film stock, laboratories, lenses, lighting, cameras, composition, camera angles, continuity, color, and special processes. The relationship between the cinematographer and other members of the production team as well as the structure of feature film camera departments will be examined. 
Prerequisite: COMM 3710 Intermediate Film Production.

Graphic Design I  
**COMM 3810 3 cr. 3 hr.** ▲
The course provides a basic introduction to the design process and the principles of design. Emphasis will be placed on problem solving and relating graphic design to communication. Students will be introduced to tools and equipment used in the field while working on layout and creative conceptualization. Students are responsible for all graphic supplies. (Credit is not given for both COMM 3810 and IT 2520.) 
Prerequisite: COMM 3810.

Graphic Design II  
**COMM 3820 3 cr. 3 hr.** ▲
By using a problem solving approach to graphic design, students learn advanced graphic design principles. Students design and prepare highly finished competitive layouts. Projects include Marker Layout, Typography, Publication Design, Poster Design, and Corporate Identity. Problems are approached and solutions reached through teamwork. Projects are evaluated through joint critique. Students are responsible for all graphic supplies. 
Prerequisite: COMM 3820.

Graphic Design III  
**COMM 3830 3 cr. 3 hr.** ▲
By concentrating on technical and creative illustration, students have an opportunity for advanced study in graphic design. Students work in various media, including pen and ink, water color, marker, and colored pencil. Students are responsible for all illustration supplies. 
Prerequisite: COMM 3820.

Publication Design  
**COMM 3850 3 cr. 3 hr.** ▲
The course examines all aspects of publication design including designing with type, layout, combining photography and illustration with text, and print production. Students employ these skills in the design of newsletters, booklets, magazines, book and web page design. Portfolio quality pieces are produced in this advanced level course. Students are responsible for all graphic supplies. 
Prerequisites: COMM 3820, 3890.

Key to Course Offerings  
Q: designates courses in the Quantitative Scientific Cluster  
I: the Ideas and Events Cluster  
H: the Human Behavior Cluster  
L: the Literature, Language and Arts Cluster  
C: multicultural  
IDS: Interdisciplinary courses  
Multicultural and interdisciplinary courses also fulfill a cluster designation. 
Asterisk indicates that the course may be offered less than once every two years. 
▲ Undergraduate Day School  
● Undergraduate Evening School  
Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.

ZITZBURG STATE COLLEGE
Writing for Business and Technology
COMM 3860 3 cr. 3 hr.
The course is for students interested in writing in the business, industry, and management context. Topics covered in the class are: business correspondence, description of process and mechanisms, sets of instructions, proposals, abstracts, and reports. (Credit is not given for both COMM 3860 and ENGL 3860.)

Feature and Magazine Writing
COMM 3870 3 cr. 3 hr.
The course examines writing feature articles for newspapers, magazines, and trade journals. (Credit is not given for both COMM 3870 and ENGL 3870.)

Typography
COMM 3880 3 cr. 3 hr.
The course is designed to teach the fundamentals of typography. Students will create projects that will enhance their knowledge of professional layout and design programs while paying special attention to the subtleties of typography. Comparison will be made between preparing simple and complex files for print. Students are responsible for all graphic supplies. Prerequisite: COMM 3820, 3890.

Computer Graphic Design
COMM 3890 3 cr. 3 hr.
The course introduces the techniques and tools utilized in electronic media to create, manipulate, and organize the graphic image. This course demonstrates present and future applications of electronically generated images as they relate to the graphic designer. Students have hands-on experience with computer graphics and electronic publishing hardware and software. Students are responsible for all supplies. Prerequisite: COMM 3820. Fulfills computer literacy requirements.

Graphic Design Photography
COMM 3900 3 cr. 3 hr.
The course covers the commercial applications of photography, including product presentation, advertising, illustration, promotion, and publication photography. Students learn the role of the designer as a photographer who solves assigned problems using various techniques including digital photo and image manipulation. Students are responsible for all graphic supplies. Prerequisites: COMM 3600, 3820.

Graphic Arts Production
COMM 3910 3 cr. 3 hr.
The course examines the skills necessary to produce printed products. Students complete projects with electronic page layout programs, operate process cameras, prepare printing plates, precisely match ink colors, and print their projects. The very important relationship between the designer and the commercial printer is emphasized. (Credit is not given for both COMM 3910 and ITEC 1500.) Prerequisite: COMM 3810 or permission of instructor.

Advanced Computer Graphic Design
COMM 3920 3 cr. 3 hr.
This is an advanced course in computer graphics covering application of electronically generated images as they relate to the graphic designer and the use of computer graphics workstations. Topics of study include: digital typography, illustration, electronic publishing, and digital photography. Students are responsible for all supplies. Prerequisites: COMM 3820, 3890 or permission of the instructor.

Two-Dimensional Motion Graphics
COMM 3940 3 cr. 3 hr.
This course investigates the design and choreography of two-dimensional animated images and typography. Students demonstrate a variety of techniques that are used in industry-standard motion graphics software including frame-by-frame animation, interpolation, and compositing. Assignments explore storyboard creation, kinetic typography, animated illustration, and vector-based animation for digital presentation. Prerequisites: COMM 3810, 3890.

Motion Design
COMM 3945
This course investigates the design and choreography of two-dimensional animated images and typography. Students demonstrate a variety of techniques that are used in industry-standard motion graphics software including frame-by-frame animation, keyframe interpolation and animation compositing using Adobe and Macromedia software. Assignments explore storyboard creation, “four-dimensional” typography, vector-based animation, animated illustration and digital video for multimedia and World Wide Web presentation. Prerequisites: COMM 3810, 3890.

Human Communications
COMM 4200 3 cr. 3 hr.
The course provides for the study of human communication theories, concepts, contexts, and skills with the intent of developing an understanding of everyday interaction. Through the study of human communication theory, students will develop the vocabulary and concepts to evaluate communication practices. The class pays particular attention to achieving self-presentation and relational skills that apply to a variety of social contexts students encounter. Class discussion, activities, and assignments are designed to develop both knowledge and competencies necessary to understand the relationship between communication patterns and social order. Prerequisite: junior status.

Instructional Training Design
COMM 4210 3 cr. 3 hr.
The course examines instructional communications as they apply to selected learning theories and various instructional approaches or methods. Strong emphasis is given to the application of learning theories to interactive technologies. Prerequisite: junior status.

Organizational Communication
COMM 4220 3 cr. 3 hr.
This course is designed to introduce students to contemporary concepts about organizational communication functions, the structure of organizational communication systems and organizational levels at which communication occurs. Student research and field study will consist of a communications audit of a selected organization and the analysis at the related human, hardware, and software interfacing. Prerequisite: junior status.

Communications Law and Ethics
COMM 4230 3 cr. 3 hr.
The course provides an introduction to communications law and media ethics that raise important issues for all students in the Communications/Media department. Topics discussed in the class are: copyright law, libel, censorship, cable and broadcast law, privacy, and the U.S. legal process. Prerequisite: junior status.
Media Criticism
COMM 4240 3 cr. 3 hr.
In the context of film and video work, students examine several approaches to evaluating media, including political, cultural, social, genre, and feminist.
Prerequisite: junior status.

Research Seminar
COMM 4250 3 cr. 3 hr.
The seminar provides an opportunity to explore and learn various research methodologies, such as archival research, content analysis, and field study. The seminar is offered with various focuses depending upon student and Instructor need and interest.
Prerequisite: junior status.

Advanced Professional Study
COMM 4260 3 cr. 3 hr.
This interdisciplinary production course combines the talents of students from two or more concentrations. Students learn to work in a production team with a client to produce professional quality video, film, slide-tape, print, graphic, and/or interactive materials.
Prerequisite: completion of five courses within a concentration.

Pre-Press Production
COMM 4270 3 cr. 3 hr.
Students need a bridge between design and the complex world of printing. File preparation for print reproduction will be stressed in this comprehensive, advanced level course. Printing terminology, job specification, file formatting, bid writing, color proofing, trouble shooting electronic documents, and mechanical press related problems are studied.
Prerequisite: COMM 3820, 3890.

Intercultural Communication
COMM 4280 3 cr. 3 hr.
In this course we will explore intercultural communication through communication theory that differs from other social science disciplines. The course will equip students with tools to understand and think about intercultural communication methods so they may develop the skills to call upon in episodes of intercultural interaction. Students will work through a range of theoretical, methodological, descriptive, and interpretive critical readings to reach the goal of understanding the multiple perspectives and theories of intercultural communication.
Prerequisites: COMM 1105 and COMM 1120.

Internship
COMM 4880 12 cr. 36 hr.
This full semester on- or off-campus Internship requires fifteen thirty-six-hour weeks of work. Communications/Media majors apply their knowledge and skills to the practical solution of communications problems.
Prerequisites: completion of all preceding Communications/Media Phases with a cumulative Communications/Media Grade Point Average of 2.5 or better at the time the Application for Internship is due. Approval by Communications/Media Internship Committee and Department Chairperson.
Students must complete an internship program in the semester prior to a planned internship. This program includes the student’s presentation of a portfolio of work to be evaluated and approved by the Internship Committee.

Independent Study
COMM 4901 1 cr. 3 hr.
COMM 4902 2 cr. 6 hr.
COMM 4903 3 cr. 9 hr.
COMM 4906 6 cr. 18 hr.
The Independent Study provides an opportunity for highly self-motivated students to explore areas of Communications/Media not provided within the departmental curriculum. Research methodology is to be used and a written monograph is to be presented to the faculty sponsor. Approval of a faculty sponsor, consent of the advisor, and permission of the Chairperson is required.

Field Study
COMM 4940 3 cr. 9 hr.
COMM 4950 6 cr. 18 hr.
The Field Study provides an experience that permits students to develop the knowledge and skills acquired in the classroom. A portfolio of the work completed is to be presented to the faculty sponsor. Approval of a faculty sponsor, sanction of a site supervisor, consent of the advisor, and permission of the Chairperson is required.

Directed Study
COMM 4975 1-6 cr.

Computer Information Systems
See course offerings under Business or Computer Science.

Computer Science

All Computer Science Electives must be at or above CSC 3000 level.

Introduction to Programming
CSC 1000 3 cr. 3 hr.
This course provides an opportunity to learn a higher-level language, to gain experience in the design, coding and utilization of computer programs, and to develop simple applications using a graphical user interface.
Co-requisite: Passing the Math placement exam or Math 0200.

Internet Communications
CSC 1050 3 cr. 3 hr.
The Internet plays a crucial role in the information revolution. It is used increasingly for personal and business communications, for commerce and exchange of ideas, and as a source of information and entertainment. This course introduces the student to various components of the Internet such as the web, email, discussion groups, ftp, telnet etc. Tools and techniques for efficient web browsing will be taught. Security issues involved in using the Internet will be discussed. Students will design simple web pages and publish them on the Internet.

Computer Applications
CSC 1100 3 cr. 3 hr.
This is an introductory level study of the computer and application software techniques. This course introduces microcomputer concepts, common operating system functions, Internet, email and an integrated package of application software, including word processing, spreadsheet, database and presentation development. The student learns how to construct and edit a document, spreadsheet, database and presentation using the proper tools.
Co-requisite: Passing the Math placement exam or Math 0200.

Basics of Web Design
CSC 1150 3 cr. 3 hr.
This course is about creating web pages using the latest version of HTML. The course covers the basics of HTML code. Students will learn to work directly with HTML tags to create forms, frames and cascading sheets, and to embed music and other multimedia.
Prerequisite: CSC 1050 or permission from department.
Introduction to Spreadsheets and Databases
CSC 1300  3 cr. 3 hr.  ●
This course introduces the student to spreadsheets and databases. The student becomes proficient in the use of spreadsheets and databases as well as in the use of built-in functions for business, family etc. Q
Co-requisite: Passing the Math placement exam or Math 0200.

Computer Information Systems
CSC 1400  3 cr. 3 hr.  ●●
This course is an introduction to concepts in computer information systems. Students learn how information technology is used in business. Topics covered include use of information systems in business, basics of hardware, software, networks and database management, use of productivity software, security and ethical use of information systems, business decision systems, and developing and managing information systems. A working knowledge of word processing, spreadsheet, and presentation software is required. Q
Co-requisite: Passing the Math placement exam or Math 0200, and CSC 1100 or BSAD 1700 or equivalent knowledge.

Computer Science I
CSC 1500  3 cr. 3 hr.  ●●
This course introduces Computer Science by using a high-level programming language. Students will be taught to design programs and implement them using object-oriented programming techniques. This course provides a solid background for further studies in Computer Science by preparing students to enroll in the more specialized high-level software courses. Q
Prerequisite: Passing the Math placement exam or Math 0200.

Computer Science II
CSC 1550  3 cr. 3 hr.  ●●
This course builds on the concepts covered in Computer Science I. Topics covered include inheritance, polymorphism, recursion, advanced GUI programming, exception handling, and input/output handling. Students use integrated development environment to create, compile, run and debug programs. Q
Prerequisite: CSC 1500.

Introduction to Electronics
CSC 1600  4 cr. 5 hr.  ●●
This course provides an introduction to analog circuits and modern solid-state devices, including diode rectifiers, power supply design, OP amps, and oscillator circuits. Extensive laboratory work illustrates the operation and behavior of circuits, as well as the use of modern laboratory test equipment. Topics covered in the class include basic circuit analysis, semiconductor principles, diodes, power supply design, bipolar and FET transistor applications, OP AMP circuits and applications, oscillators, and linear integrated circuits. Students registering for this course must also register for the accompanying Lab course.
Prerequisite: Math 1300.

Digital Electronics
CSC 1650  4 cr. 5 hr.  ●●
This course provides a study of the design and application of both asynchronous and synchronous electronic logic circuits. Counters, registers, serial and parallel adders, and arithmetic units are included. Topics covered are: Boolean algebraic simplifications, Karnaugh maps, Quine-McCluskey method, combinational logic circuits, sequential logic circuits, comparison of TTL, MOS, ECL logic families, the arithmetic unit, coding and decoding, parity detection and generators, multiplexers and programmable logic devices. Extensive laboratory work supplements the topics studied. Students registering for this course must also register for the accompanying Lab course.
Prerequisite: CSC 1600.

Discrete Mathematics
CSC 1900  3 cr. 3 hr.  ●●
This course introduces discrete mathematics as applied to computer science. Topics covered include Boolean logic, elementary set theory, functions, relations, enumeration, proof techniques, number systems and trees. Q (Credit is not given for both CSC 1900 and MATH 1900.)
Prerequisite: Math 1250 or Math 1300 or equivalent knowledge.

Advanced Web Design with Scripting
CSC 2150  3 cr. 3 hr.  ●●
Scripting is used to add programming capabilities to HTM L code and to create dynamic and more interactive web pages. Students will learn JavaScript as a scripting tool for creating web pages. Operators, statements, functions, event handling and objects of this language will be studied. Students will learn the document, form and window objects in detail. Q
Prerequisite: CSC 1150 or equivalent knowledge.

Database Systems
CSC 2400  3 cr. 3 hr.  ●●
This course is about design and implementation of database systems. Evolution of various database models including hierarchical, relational and object-oriented models and the advantages of different models are studied. Use of Structured Query Language (SQL) in relational databases is explained and applied. Students design databases applying E-R modeling and normalization techniques. Q
Prerequisites: CSC 1550, and CSC 1900 or MATH 1900.

Systems Programming
CSC 2500  3 cr. 3 hr.  ●●
This course provides the student with the fundamentals of structured programming at the systems level. UNIX is used as a base for this course. Students obtain a thorough knowledge of the C language, comfort in using the UNIX operating system and an appreciation for a systems approach to low-level programming tasks. Q
Prerequisites: CSC 1550 and CSC 1900 or MATH 1900.

Computer Organization
CSC 2600  4 cr. 5 hr.  ●●
The purpose of this course is to provide a thorough discussion of the fundamentals of computer organization and architecture, and to relate these to contemporary computer design issues. After a brief review of the basic digital components used, the steps that a designer would go through in the design of an elementary systems are covered followed by a discussion of the organization and design of the central processing unit (CPU) and various control system implementations. The input/output and memory subsystems are included as is a brief discussion of multiprocessing systems, pipelining, and virtual memory. Students registering for this course must also register for the accompanying Lab course.
Prerequisite: CSC 1550.

Business Programming
CSC 2700  3 cr. 3 hr.  ●●
This course provides students with experience in the design and coding of programs using a business oriented language. Topics covered include structured programming techniques; data, record and file design; sorting and merging of files; table handling; variable-length records; indexed sequential access methods. File creation, updating and reporting is given special attention. Q
Prerequisite: CSC 1550.

Web Programming with Java
CSC 3050  3 cr. 3 hr.  ●●
There are three aspects to Web Programming: Front-end GUI programming, back-end Web or database server programming and the network programming to connect the two. In this course, students learn to use Java classes for creating applets, for server programming and for interfacing with a database. The course also reviews advanced concepts of object oriented programming, Java's exception handling, and multithreading.
Prerequisite: CSC 2560.
Operating Systems
CSC 3100 3 cr. 3 hr.
This course examines the internal structure and operation of operating systems with an emphasis on their design criteria and approaches. Topics covered include: process management, scheduling, deadlock, memory management, virtual memory, protection and security, and distributed systems. A working knowledge of a higher-level system programming language and computer data structures is assumed.
Prerequisites: CSC 2560 and CSC 2600.

Programming Languages
CSC 3200 3 cr. 3 hr.
This course studies the hierarchy of programming languages starting with Assembly Language. It covers general principles of languages within imperative, object oriented and functional paradigms as well as logic programming. Students have an opportunity to learn the basic concepts and constructs of various programming frameworks and practice software design skills in languages like Ada, Lisp and/or Prolog.
Prerequisites: CSC 2560

Advanced Topics in Web Development
CSC 3250 3 cr. 3 hr.
State of the art tools and technologies used in developing and deploying web pages will be studied. Server-side programming for database access will be studied. Students will create model applications used in e-commerce.
Prerequisite: CSC 2150.

Assembly Language
CSC 3300 3 cr. 3 hr.
Assembly language provides the means for programming a computer at the most basic machine level. In this course, we explore the fundamental operations of a modern computer system using software tools. Topics examined include numerical and character representations, microprocessor register usage, machine instructions, addressing modes, input/output processing, parameter passing, interrupt processing and simple data structure realizations on the Intel 80x86 processor.
Prerequisite: CSC 1550 or permission from the department.

Data Communications & Networking
CSC 3400 3 cr. 3 hr.
Data communications is a subset of telecommunications involving the transmission of data to and from computers and components of computer systems. It is concerned with the transmission of data through some medium such as wire or fiber optic cable and includes coverage of the telephone system, local area networks and wide area networks. Concepts of concern are error control, data codes, signal representation and modulation techniques, protocols, reliability, and security. This course deals with both the hardware and software aspects of successful communication.
Prerequisite: CSC 2560.

Local Area Networks
CSC 3450 3 cr. 3 hr.
This course examines local area network (LAN) technology and architecture both through general concepts and practical hands-on experience. All networking fundamentals are presented based on the modular approach of the ISO standards. Topics covered include file servers, configurations and protocols, installation and management of server hardware and software, system monitoring, maintenance and troubleshooting. Due to its importance, the TCP/IP protocol will be stressed.
Prerequisite: CSC 2560.

Object Oriented Programming
CSC 3500 3 cr. 3 hr.
This course covers the fundamental principles of Object Oriented Paradigm. It studies the concepts of Procedural and Data Abstraction, Classes, Inheritance, Polymorphism, Virtual Functions, Templates, Exception Handling, File Manipulations. Students learn the main tools of a popular language supporting the object-oriented framework and various techniques of object-oriented design.
Prerequisite: CSC 2560.

Windows Programming with MFC
CSC 3550 3 cr. 3 hr.
This course is about developing Win32 applications using Microsoft Foundations Classes and Windows API. Topics include Menus, Controls, Dialog Boxes, Property Sheets and Document/View Architecture.
Prerequisites: CSC 3500.

Microprocessors
CSC 3600 4 cr. 5 hr.
The course provides a detailed study of the microprocessor and its applications. Emphasis is placed on a current microprocessor, its hardware and software and its associated family of integrated circuits. Students design a microprocessor system, configuring the random access memory, the read-only memory, and peripheral devices using peripheral interface adapters. Students reinforce their knowledge with extensive laboratory work. Students registering for this course must also register for the accompanying Lab course.
Prerequisite: CSC 2600.

Algorithms and Data Structures
CSC 3700 3 cr. 3 hr.
This course provides an introduction to modern study of computer algorithms and complex data structures. It explores the logic of algorithmic analysis and design as well as practical utility and implementation techniques. The basic ideas from Complexity Theory will help students understand the concept of efficiency of algorithms and its role in the design of algorithms. The analysis of data structures is focused on the concepts of linked list, queues, stacks and trees. Various programming techniques such as divide and conquer; dynamic programming and backtracking are presented.
Prerequisite: CSC 2560.

Systems Analysis Methods
CSC 3710 3 cr. 3 hr.
As an overview of the system development life cycle, this course introduces the student to the fundamental concepts and techniques of systems analysis. Classical and structured methods of system documentation are explored as well as information gathering and reporting activities.
Prerequisites: CSC 3450.

System Analysis Techniques
CSC 3720 3 cr. 3 hr.
This course covers the fundamental principles of Object Oriented Paradigm. It studies the concepts of Procedural and Data Abstraction, Classes, Inheritance, Polymorphism, Virtual Functions, Templates, Exception Handling, File Manipulations. Students learn the main tools of a popular language supporting the object-oriented framework and various techniques of object-oriented design.
Prerequisite: CSC 2560.

Compiler Construction
CSC 4200 3 cr. 3 hr.
The course studies the techniques involved in the analysis of source language code and the generation of efficient object code. The focus is more on the front end of the compiler (analyzer) than it is on the back end (generator). By working in small project teams, students modify an existing compiler. Topics covered in the class include: language definition; lexical, syntactic, and semantic analysis; and code generation.
Prerequisite: CSC 2600.

Compiler Construction
CSC 4200 3 cr. 3 hr.
The course studies the techniques involved in the analysis of source language code and the generation of efficient object code. The focus is more on the front end of the compiler (analyzer) than it is on the back end (generator). By working in small project teams, students modify an existing compiler. Topics covered in the class include: language definition; lexical, syntactic, and semantic analysis; and code generation.
Prerequisite: CSC 2600.

IDIS: Interdisciplinary courses

* Asterisk indicates that the course may be offered less than once every two years.

C: Multicultural
B: the Human Behavior Cluster
I: the Ideas and Events Cluster
Q: designates courses in the Quantitative Scientific Cluster

Courses having a more narrow focus than those taught in a regular basis or courses being taught on an experimental basis can be taught as “Topics” courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Software Engineering
CSC 4400 3 cr. 3 hr.
This course examines main features of software life cycle. It covers the main issues in design creation, principles of programs verification, system testing and evaluation criteria. This course provides students with an opportunity to obtain practical experience in software design using CASE tools. Students work in project teams and apply principles of software design, verification, testing and coding toward the solutions of assigned problems.
Prerequisite: CSC 2560.

Database Programming
CSC 4550 3 cr. 3 hr.
Many businesses, small and large, utilize user-interfaces to access databases to provide security as well as multiple user access to the databases. This course will introduce the student to software components designed for database programming in a higher-level language. Each student works on a project of applied nature that involves documenting the requirements of a database, creating the database, and designing the user-interface to access the database. Working knowledge of the host language is required.
Prerequisite: CSC 2400 and permission from the instructor.

Digital Signal Processing
CSC 4600 3 cr. 3 hr.
DSP has found its way into a number of applications including communications and controls, graphics, and speech and image processing. DSP is concerned with real-time signal processing where timing is of the utmost importance. This course will help students understand time and frequency-domain descriptions of signals and systems. Linear time-invariant systems, convolution, difference equations, and various mathematical transforms (Fourier, Fast Fourier and z-transform) are introduced to describe and design both recursive and non-recursive digital filters. DSP processor fundamentals, architectures, and special features will be introduced using a particular processor in a lab environment.
Prerequisite: CSC 2600 and MATH 2400.

Systems Design & Implementation
CSC 4700 3 cr. 3 hr.
This capstone course will emphasize the design and implementation phases of the system development life cycle using case studies. A problem solving approach will be used for students to learn strategies and techniques for dealing with complexities in Information Systems Development.
Prerequisite: CSC 3710.

Independent Study
CSC 4901, 4902, 4903 1, 2, 3 cr.
The independent study provides an opportunity for highly motivated students to explore advanced areas of computer science not provided within the departmental curriculum. Approval of the faculty sponsor, consent of the advisor and permission of the Chairperson are required.
Prerequisite: Completion of all the required 2000 level core courses with a Grade Point Average of 3.0 or more in those courses.

Internship
CSC 4940, 4950 3, 6 cr.
A 3-credit on- or off-campus internship requires 12 hours of work each week for fifteen weeks. Students apply their knowledge and skills to develop practical solutions to computer science or computer information systems problems. Approval by Department Chairperson is needed to register for this course. A written report on the work done in the format specified by departmental policy must be submitted to the chairperson to receive a grade.
Prerequisite: Completion of all the required 2000 level core courses with a Grade Point Average of 3.0 or more in those courses.

Directed Study
CSC 4975 1-6 cr.
A course in the departmental curriculum may be offered as directed study subject to the college policies and departmental policies. Approval of the faculty sponsor, consent of the advisor and permission of the Chairperson are required.
Prerequisite: Completion of all the required 2000 level core courses with a Grade Point Average of 3.0 or more in those courses.

Criminal Justice

Introduction to Criminal Justice
CJ 2000 3 cr. 3 hr.
This course provides the student with an overview of the structure and organization of the criminal justice system. Emphasis is placed on the examination of the functions and decision processes of those agencies that deal with the management and control of crime and criminal offenders. The course includes didactic presentations, assigned readings, class discussions, visiting practitioner lecturers, and small group discussions.
Prerequisite: CJ 2000.

Principles and Practices of Law Enforcement
CJ 2050 3 cr. 3 hrs.
Students will examine the nature, history, role, operations and management of law enforcement agencies. Additional topics to be explored include police powers, investigations, use and abuse of police force, police corruption, crime prevention and the future of policing.
Prerequisite: CJ 2000.

Introduction to Courts
CJ 2100 3 cr. 3 hrs.
This course introduces students to the American system of criminal trial courts, including the functioning of the key actors in the courtroom—prosecutors, defense attorneys, judges, court clerks—and how the system functions at key decision points, including charging, trial, and sentencing. We will also look at the role of courts within our larger political system.
Prerequisite: CJ 2000.

Correctional Theory and Practice
CJ 2350 3 cr. 3 hrs.
Corrections is the branch of the criminal justice system comprised of the programs, facilities and organizations responsible for the management of individuals who have been accused or convicted of criminal offenses. This course examines the history, operation, structure and clientele of modern correctional institutions and assesses the problems confronting them. The course also explores the relationships between corrections and social, political and economic trends within society.
Prerequisite: CJ 2000.

Women in Criminal Justice
CJ 2450 3 cr. 3 hr.
This course will examine the involvement of females in the criminal justice system, as victims, offenders, workers and professionals. Female criminality will be explored from varied perspectives. Students will undertake a systematic examination of the issues, biases and problems affecting the girls and women involved in this system, with attention focused on the effects of these factors on them, their relationships and their families.
Prerequisite: CJ 2000.
Correctional Law
CJ 2500 3 cr. 3 hrs. ▲
Since the 1960s law has become an increasingly important accountability mechanism for corrections. Court decisions shaped the policies and practices in corrections institutions and, in some states, helped to transform prisons and jails into new organizational entities. This course seeks to help students understand how law affects the corrections environment, as well as examining current issues in corrections.
Prerequisite: CJ 2000.

Race, Crime and the Law
CJ 2560 3 cr. 3 hrs. ▲
Arrest, conviction and incarceration rates for persons of color are generally acknowledged to be disproportionate. Is this the result of inequitable treatment by the criminal justice system, or are there other factors that may explain it? This course will review the empirical evidence available to answer this question and the ways in which researchers have attempted to frame these questions and analyze the results.
Prerequisite: CJ 2000.

Juvenile Justice
CJ 2600 3 cr. 3 hr. ▲
The course is designed to develop student awareness of past and contemporary philosophies, practices, and paradoxes of juvenile justice. The course examines the programmatic efforts designed for juveniles “in trouble with the law” and focuses on the relationships between the components of this system of justice. The content of the course is supplemented by current journal research, lectures, and panel discussions by practicing professionals, and a field-based class.
Prerequisite: CJ 2000.

Ethics in Criminal Justice
CJ 2651 3 cr. 3 hr. ▲
This course will acquaint the student with the theoretical foundations essential to ethical decision making by introducing students to ethical theory, major ethical belief systems, and ethical issues in criminal justice. Students will develop awareness of and explore the major ethical issues/questions specific to each of the criminal justice subsystems; in addition, the student will become familiar with and examine the ethical challenges and dilemmas that confront criminal justice professionals across the U.S. system of justice. Strategies for responding to situations are considered and models of ethical decision making are examined.
Prerequisite: CJ 2000.

Criminal Law
CJ 2500 3 cr. 3 hr. ▲
The focus of this course is the study of the general principles of criminal law. The approach adopted in this course involves the use of the text to explain general principles and their application to specific crimes followed by cases that apply the general principles to the facts of the specific cases. The students will be encouraged to formulate their own views regarding the application made by the court to its opinion on the one hand and, on the other, they will also be encouraged to understand the principles and definitions in order to apply them. Students will be required to act as legislators, judges, juries, defense attorneys and prosecutors in order to see the principles and definitions from all perspectives.
Prerequisite: CJ 2000.

Domestic Terrorism and Hate Crime
CJ 3000 3 cr. 3 hrs. ▲
From the Ku Klux Klan to Timothy McVeigh, a few Americans have sought to achieve their ends through violent action. This course introduces students to the variety of extremist groups within the United States and examines their history, nature, extent and dangerousness. It also explores hate crime, a relatively new responsibility of the criminal justice system. We will look at the social construction of hate crime and issues concerning its enforcement.
Prerequisite: CJ 2000.

International Terrorism
CJ 3050 3 cr. 3 hrs. ▲
This course applies an interdisciplinary approach to identify the contexts, origins, causes, patterns, trends, and explanations of international terrorism. Students will study terrorist organizations, their structure, financing, agenda, objectives, methodology, international links, and use of technology. They will also study anti-terrorist measures, state-sponsored terrorism, and emergency management as it affects terrorist incidents.
Prerequisite: CJ 2000.

Organized Crime and Youth Gangs
CJ 3100 3 cr. 3 hrs. ▲
This course offers an overview of the nature and extent of organized crime, as well as the impact of organized crime on U.S. society, both in terms of economy and politics. The course then takes up contemporary youth gangs in the United States, concluding with policies programs addressing gangs (including law enforcement and prevention and intervention efforts).
Prerequisite: CJ 2000.

Criminal Justice Research Methods
CJ 3130 3 cr. 3 hrs
This course provides students with an understanding of how researchers use scientific methods to frame and explore issues important in criminal justice. The course focuses on methods of measuring crime, data collection, research design, sampling and probability, survey and questionnaire design, methods of observation and written communication of results. Students will propose a research topic, conduct a literature search, write hypotheses, collect data, test their hypotheses, and analyze their results.
Prerequisite: CJ 2000. 

Criminal Justice Data Analysis
CJ 3140 3 cr. 3 hrs
This course explores the ways in which researchers use data analysis in criminal justice research. The course focuses on methods of analyzing crime. using secondary data such as the Uniform Crime Reports, National Crime Victimization Surveys, NIBRS, and other frequently-used datasets. The student is introduced to computer software packages, e.g., SPSS, to analyze data. Students will evaluate critically several studies, including their design, analysis of data, and conclusions.
Prerequisite: CJ 2000.

White Collar and Corporate Crime
CJ 3200 3 cr. 3 hrs. ▲
This course introduces students to a variety of topics and issues in the area of white-collar and corporate crime. It examines and contrasts the treatment corporate and white-collar offending by the criminal justice and regulatory justice systems. It looks at definitional issues, the nature and extent of white-collar crimes, crime types, case studies and the etiology of offending.
Prerequisite: CJ 2000.

International Terrorism
CJ 3050 3 cr. 3 hrs. ▲
This course applies an interdisciplinary approach to identify the contexts, origins, causes, patterns, trends, and explanations of international terrorism. Students will study terrorist organizations, their structure, financing, agenda, objectives, methodology, international links, and use of technology. They will also study anti-terrorist measures, state-sponsored terrorism, and emergency management as it affects terrorist incidents.
Prerequisite: CJ 2000.

Organized Crime and Youth Gangs
CJ 3100 3 cr. 3 hrs. ▲
This course offers an overview of the nature and extent of organized crime, as well as the impact of organized crime on U.S. society, both in terms of economy and politics. The course then takes up contemporary youth gangs in the United States, concluding with policies programs addressing gangs (including law enforcement and prevention and intervention efforts).
Prerequisite: CJ 2000.

Criminal Justice Research Methods
CJ 3130 3 cr. 3 hrs
This course provides students with an understanding of how researchers use scientific methods to frame and explore issues important in criminal justice. The course focuses on methods of measuring crime, data collection, research design, sampling and probability, survey and questionnaire design, methods of observation and written communication of results. Students will propose a research topic, conduct a literature search, write hypotheses, collect data, test their hypotheses, and analyze their results.
Prerequisite: CJ 2000. 

Criminal Justice Data Analysis
CJ 3140 3 cr. 3 hrs

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDS: Interdisciplinary courses
M Multicultural and interdisciplinary courses also fulfill a cluster designation.
▲ Asterisk indicates that the course may be offered less than once every two years.
▲ U Undergraduate Day School
◆ Undergraduate Evening School
Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as “Topics” courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Community Based Corrections
CJ/HMSV 3300 3 cr. 3 hr.
This course examines the philosophy of community-based corrections from historical, legal, social, and psychological perspectives. The essence of probation and parole and their administration are considered in conjunction with criminal justice issues and practices that affect the courts decision to allow community sanctions and supervision in lieu of incarceration. Contemporary trends and alternatives to traditional supervision are explored as well. A supervised practicum (20 hours per semester) is encouraged.

Prerequisite: CJ 2000

Comparative Justice Systems
CJ 3525 3 cr. 3 hrs.
This course will focus on a comparative study of criminal justice systems in other nations with special reference to their structure, laws, procedures and processes. The course will also examine crime committed in other cultures and how criminals are punished and/or rehabilitated.

Prerequisite: CJ 2000

Colloquium
CJ 3750 3 cr. 3 hrs.
This course seeks to integrate the students earlier work on theories of crime, types of crime, prevention, program assessment, etc., while honing the students research and writing skills. The course involves intensive writing exercises, critical reading exercises, and critical analysis of research projects.

Prerequisite: CJ 2000

Internship in Criminal Justice
CJ 4870 6 cr.
CJ 4990 12 cr.
Internship is the structured academic experience that allows Senior CJ students who have successfully met eligibility criteria, to integrate and apply the skills and theory of the discipline in a field-based setting. Such an experience helps the student develop an understanding of the effects of administrative practices and governing policies on the ability to carry out the responsibilities of higher field placement.

Students participate in Internship the supervision of qualified professionals in CJ organizations.

In addition to the field experience, students participate in a weekly seminar held by the college’s supervising professor. Here, students share their experiences and develop a heightened awareness of the roles in the organizations in which they are functioning.

Students must have completed their prerequisites at least one semester before taking Internship and must pre-register with the Field Placement office in the beginning of the semester prior to the semester before they plan to enter an agency. (For example, students planning a fall placement must have completed their prerequisites by the end of the previous fall semester and pre-register with the Instructor early in the previous spring.)

Students must meet CJ Internship eligibility requirement as determined by the Department of Behavioral Sciences.

Additional course descriptions for the Criminal Justice major can be found in Human Services, Political Science, and Sociology.

Introduction to Legal Process
PO LS 2270 3 cr. 3 hr.

Sex, Race and the Constitution
PO LS 2550 3 cr. 3 hr.

Criminal Procedure: The Right of the Accused
PO LS 2700 3 cr. 3 hr.

Constitutional Law
PO LS 3500 3 cr. 3 hr.

Crisis Intervention
HMSV 2400 3 cr. 3 hr.

Interviewing Techniques
HMSV 2500 3 cr. 3 hr.

Child Abuse and Neglect
HMSV 3500 3 cr. 3 hr.

Criminology
SOC 2750 3 cr. 3 hr.

Juvenile Delinquency
SOC 2760 3 cr. 3 hr.

Law and Society
SOC 3500 3 cr. 3 hr.

Early Childhood, Elementary, and Middle School Education

Early Childhood Foundations
EDUC 1100 4 cr. 5 hr.
This course gives a brief orientation on the developmental philosophy and goals of early childhood education. Students consider educational procedures used in facilitating the development of the child. They also explore the role of the teacher, the environment, and the appropriate instructional strategies to use with young children. The course is required of all Early Childhood majors. A pre-practicum is required.

Prerequisite: General Psychology or Introduction to Psychology. Required for EDUC 3110.

Behavioral Science in Early Childhood: Child Development and Observation
EDUC 1600 4 cr. 5 hr.
This course includes a study of principles, patterns, and theories of human development and learning as well as principles and techniques of naturalistic and standardized child study. Observation, recording, synthesis, and interpretation of the behavior of young children occurs within a pre-practicum setting. Written case studies are required. This course is a requirement for Early Childhood majors.

Prerequisite: General Psychology or Introduction to Psychology. Required for EDUC 3110.

Reading in Early Childhood Education
EDUC 2100 3 cr. 5 hr.
The reading process and factors influencing the development of reading are examined. Pre-reading and reading skills are identified, and techniques for assessment of skills are presented. Methods and materials for teaching primary reading are discussed and illustrated. A pre-practicum is required.

Prerequisite: EDUC 1600.

Language Arts in Early Childhood Education
EDUC 2200 3 cr. 5 hr.
This course presents a timely and concise summary of important issues confronting the teacher and learner when developing a mastery of language arts in the Early Childhood Setting. The focus is on methodology related to the teaching of listening, speaking, reading, and writing. A pre-practicum is required.

Prerequisite: EDUC 1600.

Fine Arts in Early Childhood Education
EDUC 2400 4 cr. 5 hr.
This course studies the integration of art, music, and movement into curricula for young children by using an interdisciplinary approach. Investigation of the objectives, methods, and materials in the fine arts is conducted.

Prerequisite: EDUC 1100.
Pre-Kindergarten Clinical
EDUC 3500 3 cr. 5 hr.
This course is designed for the student of Early Childhood Education who is interested in exploring early childhood prior to the Kindergarten and public school experience. The students investigate a variety of models and curriculum programs designed for infants, toddlers, and preschool-aged children. Further the student experiences a wide variety of pre-Kindergarten settings and explores the systems designed to create, administer, and evaluate such programs.

Parent-Child Relations in Education
EDUC 2700 3 cr. 5 hr.
This course explores the role of the parent in the development of the child and how the parent relates to the educational system. This course stresses awareness of how parents stimulate the growth of behavioral trends in their children and how they can be useful as resources to improve the child's educational environment.
Prerequisite: EDUC 1000 or PSY 2210.

Principles and Practices in Education
EDUC 2110 3 cr. 3 hr.
This course includes an examination of the theoretical and practical knowledge of the teaching/learning process. Students demonstrate competencies in the areas of planning, curriculum design, and evaluation. Focus is placed on the needs and learning styles of the elementary school and middle school child and the instructional strategies used to meet those needs effectively. In addition, classroom management skills and techniques are emphasized. A pre-practicum is required. A portfolio assessment process is introduced in this course.
Prerequisite: PSY 2210 or PSY 2230.

Science in Education
EDUC 2750 3 cr. 3 hr.
In this course contemporary elementary and middle school science methods, materials, courses of study and science texts are examined. Science teaching units are developed and demonstrated. A pre-practicum is required.

Integrated Creative Arts Teacher Education Program
*EDUC 2800 15 cr. 45 hr.
This is a full-semester program which includes five weeks of classroom instruction and training in creative work in visual arts, language arts, movement, music, and integrating art forms. Subsequent to the initial training period, students are placed in field stations for classroom experiences for the remainder of the semester.
While in the field stations, students assist teacher-specialists in one or more of the art form areas. They develop and implement programs for the specific classroom and its pupils so as to foster the pupils' personal expression through creation in the arts. A weekly seminar on Wednesday afternoons from 1 p.m. to 3 p.m. is held at the College for the purpose of workshop experiences and problem solving. Students are visited and evaluated regularly by College faculty as well as by cooperating teacher-specialists in the schools.
Students are expected to be present in the school throughout the semester.

Caring for Infants and Toddlers
EDUC 2900 4 cr. 6 hr.
This course assists students in the development of attitudes, knowledge, and skills important to understanding and supporting the interactions of infants and toddlers.

Language Arts in Education
EDUC 3010 3 cr. 3 hr.
This course provides students with an introduction to the nature of language and language growth. Emphasis is placed on the meaning and importance of language arts as well as on the characteristics of elementary and middle school age children, which affect and are affected by the language arts program. Elements of writing, speaking, listening, and reading are stressed. A pre-practicum is required.
Prerequisite: EDUC 2710.

Teaching Mathematics
EDUC 3020 3 cr. 3 hr.
Contemporary elementary and middle school mathematics standards, methods, and materials are examined in this course. Developmentally appropriate lessons and learning devices are refined and demonstrated. A pre-practicum is required.
Prerequisite: Math competency Passing Score of Basic Math II.

Reading in Education
EDUC 3030 3 cr. 3 hr.
This course includes an examination of the reading process with emphasis on methods of evaluation and strategies for reading. Reading skills and procedures for developing these skills are examined, and current approaches to the teaching of reading are evaluated. The student is made cognizant of methods of grouping and evaluation procedures. A pre-practicum is required.
Prerequisites: PSY 2210, EDUC 2710.

Reading Diagnosis and Remediation
*EDUC 3050 3 cr. 3 hr.
This course provides students with the competencies necessary to diagnose reading abilities and to develop reading proficiency in their future classrooms. Students are taught the skills needed to administer, score, and analyze Informal Reading Inventories. The student tests a child, plans a program of instruction for that child, and instructs the child based on the diagnosis and instructional plan. Emphasis is also placed on the development and utilization of assessment strategies, instructional techniques, and instructional activities specific to the needs and interests of the child.
Prerequisites: EDUC 2100 and EDUC 3030.

Methods and Materials in Early Childhood Education
*EDUC 3060 3 cr. 3 hr.
This course includes a hands-on workshop and exploration of all areas of the early childhood curriculum. As part of the exploration, students research and prepare games and devices appropriate to an early childhood classroom. This course serves as an elective for all education majors.

Middle School Concept
*EDUC 3070 3 cr. 3 hr.
This course introduces students to the historical development, philosophy, and the competencies needed to teach in the Middle School. A pre-practicum is required.
Prerequisite: PSY 2210 or PSY 2230.

Science, Math, and Social Studies in Early Childhood Education
EDUC 3100 4 cr. 5 hr.
This course emphasizes the development and demonstration of instructional techniques and materials in science, math, and social studies, which are appropriate for heterogeneous groups of young children. A pre-practicum is required.

Behavioral Science in Early Childhood II:
Learning and Assessment
EDUC 3110 4 cr. 5 hr.
This course is a continuation of EDUC 2110. (EDUC 2110 and EDUC 3110 cannot be taken simultaneously.)

Curriculum and Instruction in the Middle School
EDUC 3300 3 cr. 3 hr.
This course introduces students to curriculum development, instructional competencies, and appropriate goals and objectives for the Middle School. A pre-practicum is required.
Prerequisite: EDUC 3070.

Key to Course Offerings

\* Asterisk indicates that the course may be offered less than once every two years.
\(\uparrow\) Undergraduate Day School
\(\downarrow\) Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as Topics courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Reading in the Middle School
EDUC 3400 3 cr. 3 hr.
This course imparts appropriate knowledge and competencies for reading at the Middle School level.

Creative Arts in Education
EDUC 3500 3 cr. 3 hr.
The course explores materials and processes of children's perception and behavior with emphasis aimed at encouraging the development of their critical and creative potential. Prerequisite: EDUC 2710.

Social Studies in Education
EDUC 3600 3 cr. 3 hr.
This course equips the future teacher with the knowledge, teaching strategies, and sequential course development necessary to teach Social Studies at the elementary and middle school level. A practicum is required. Prerequisites: EDUC 2100 or EDUC 3030.

Reading in the Content Areas
EDUC 3640 3 cr. 3 hr.
This course includes discussion of the role of content reading in elementary and middle school classrooms; textbook evaluation and quantitative/qualitative evaluation procedures; reflections on being a content learner; and the development and practice of strategies for learning from textbooks, including vocabulary, comprehension, and study skills. Prerequisite: EDUC 3010 or EDUC 3030 (for Elementary and Middle School majors).

Using Computers in Classrooms
EDUC 3700 3 cr. 3 hr.
Students examine the philosophy, theory, and application of computers in classrooms. A significant portion of class time is devoted to “hands on” experiences with computers. These experiences include programming in text and graphics mode, introducing and using LOGO, using printers, using the Internet for research, integrating computers and other technologies in teaching content area subjects, developing programs designed to enhance the learning abilities of children, and evaluating educational software. Prior experience using computers is not assumed. Q

Analysis of Reading Problems
EDUC 4000 3 cr. 3 hr.
The course examines the correlates of reading problems. Students learn to identify principles of diagnosis, and analyze, administer, and interpret formal diagnostic tests. Students demonstrate competency in preparing a case study report. Prerequisite: EDUC 2100 or EDUC 3030.

Foundations Seminar
EDUC 4010 3 cr. 3 hr.
This course covers an examination of the historical perspectives and philosophical orientation in the field of elementary and middle school education. Specific attention is given to an analysis of current issues and programs in social foundation, legal foundation, curricular patterns, and pluralism in Education. Prerequisite: EDUC 2710.

Senior Seminar in Early Childhood
EDUC 4050 3 cr. 5 hr.
This course covers an examination of the historical perspectives and philosophical orientations in the field of early childhood education. Specific attention is given to an analysis of current issues and programs for senior practicum students only.

Introduction to Bilingual Education
EDUC 4150 3 cr. 3 hr.
This course provides an overview of the theory, research and practice of bilingual education. Historical constructs, current theories, and the philosophy of bilingual biculturalism will be emphasized. Basic concepts of bilingualism, state, and nation initiatives, politics and legislative mandates regarding bilingual education will be discussed. Familial, cultural, developmental and diverse learning abilities as they relate to the bilingual children will also be explored.

Theories of Language and Second Language Acquisition
EDUC 4200 3 cr. 3 hr.
The course introduces current theoretical models of language acquisition focusing on literacy development and developing language skills. It is designed to provide students with an overall understanding of the importance of language development and language acquisition as seen in the education environment. Issues regarding first and second language development will be addressed. Students will focus on how theory and research relate to language instruction.

Bilingual Teaching Methods and Strategies
EDUC 4300 3 cr. 3 hr.
This course introduces students to the various theories and methods of teaching children from diverse linguistic backgrounds. The emphasis will be placed on approaches and methodologies in teaching both English and the child's native language. Teaching strategies for supporting language skills, assessment approaches and evaluation procedures to determine the needs of bilingual students will be provided. Children with diverse learning abilities within the bilingual setting will also be emphasized.

Assessment and Evaluation of Bilingual Programs
EDUC 4400 3 cr. 3 hr.
This course is designed to explore the assessment and evaluation systems in bilingual education programs. The focus will be on the federal, state, and local educational policies and assessment practices of students in terms of language acquisition, language skills, content knowledge, as well as the evaluation of curriculum materials and teaching methods. Student progress, monitoring, developing and designing authentic assessment approaches, creating portfolios, as well as previewing, analyzing, and evaluating current bilingual assessment instruments will be included.

Bilingual Practicum
EDUC 4500 3 cr. 3 hr.
The practicum is designed for student teachers preparing for their certification, Teacher of Transitional Bilingual Education, Elementary Provisional with Advanced Standing. The students will be placed in bilingual classrooms at various grade levels (K-third grade) where they will be observing, assisting, and teaching under the supervision of a cooperating teacher. The students will also be attending, with their college supervisor regularly scheduled seminars (see Bilingual seminar) in which both Spanish and English will be presented.

Bilingual Seminar
EDUC 4600 1 cr. 1 hr.
The Bilingual Seminar is a complement and supplement to the Student Teaching Practicum in the bilingual classroom setting. Students will investigate the diversity of bilingual classroom settings, learning environments, curriculum approaches, teaching methodologies and teaching strategies as they relate to the bilingual child. Observation, journal writing and curriculum presentations and evaluations will be required.

Teaching Writing in Middle and Secondary Schools
EDUC 4700/ENGL 4700
This course provides practice and research in alternatives for teaching writing in secondary schools. Different approaches are explored through experiments for the teacher and opportunities to test these approaches are available in prepracticum experiences. A prepracticum is required.
Introduction to Economics for Non-majors  
ECON 1050  3 cr. 3 hr.  
This course surveys the field of economics without the technical sophistication of a principles course. The emphasis is on real problems of competition and growth with examples of concepts drawn primarily from the experience of the U.S. economy in global perspective. I  
Prerequisites: satisfactory completion of the College Mathematical Readiness requirement.

Principles of Economics: Macroeconomics  
ECON 1100  3 cr. 3 hr.  
This course is a study of the theory of employment, income, and growth. Stabilization policy and current problems in American capitalism are emphasized. I  
Prerequisites: satisfactory completion of the College Mathematical Readiness requirement.

Principles of Economics: Microeconomics  
ECON 1200  3 cr. 3 hr.  
Students examine the theory of the consumer and the business firm in this course. Efficiency in the allocation of resources is examined in four different market structures: pure competition, pure monopoly, monopolistic competition, and oligopoly. I  
Prerequisites: satisfactory completion of the College Mathematical Readiness requirement.

Consumer Economics  
ECON 1300  3 cr. 3 hr.  
This course emphasizes theories of consumption and economic functioning with emphasis on demand, consumer problems, standards of living, policies for protecting consumers, and expanding consumption. I  
Prerequisites: satisfactory completion of the College Mathematical Readiness requirement.

Comparative Economic Systems  
ECON 2200  3 cr. 3 hr.  
This course studies the different economic systems operational in the world today. Emphasis is on differences between the various types of market capitalist and planning systems. I  
Prerequisites: ECON 1100.

Industrial Organization  
ECON 2300  3 cr. 3 hr.  
This course integrates theory, empirical studies, and case studies to analyze the effects of government regulations on the structure and organization of U.S. business firms. Several cases of antitrust legislation are studied. In addition the course shows how political and economic issues affect industrial organization. I  
Prerequisites: satisfactory completion of the College Mathematical Readiness requirement and ECON 1200.

Money and Banking  
ECON 2400  3 cr. 3 hr.  
This course focuses on the role of money, credit, and banking in the American economy. Special emphasis is placed on the applicability of monetary policy to the problems of economic stability. I  
Prerequisites: ECON 1100.

Human Resource Economics  
ECON 2450  3 cr. 3 hr.  
Labor market and employment analysis are the focus of this course, which covers the structure of labor markets, the education and training of the labor force, and manpower programs. The serious problems of unemployment, underemployment, discrimination, and barriers to job entry are also discussed.  
Prerequisites: ECON 1200 or ECON 1250.

Economic Development  
ECON 2500  3 cr. 3 hr.  
This course examines the problems of less developed countries. Topics of discussion include population, income growth, capital formation, unemployment, foreign investment and aid, the role of government, and international economics. I, C  
Prerequisites: ECON 1100.

Urban Economics  
ECON 2550  3 cr. 3 hr.  
This course is a historical and economic explanation of the growth of cities as well as a theoretical analysis of their location, form, and economic structure. Current urban problems are also discussed.  
Prerequisites: ECON 1100, ECON 1200 or ECON 1250.

Public Finance  
ECON 2600  3 cr. 3 hr.  
This course studies the principle of governmental expenditures and revenues. Attention is also devoted to the problems of public debt, fiscal policy, and inter-governmental fiscal relations particularly in reference to the United States. I  
Prerequisites: ECON 1200.

History of Economic Thought  
ECON 3000  3 cr. 3 hr.  
Within the framework of understanding the relationship between history and economic thought, this course covers the work of the great economists. Starting with the roots of economic thought in the works of the mercantilists and physiocrats, the course turns to the giants in political economy, including Adam Smith, David Ricardo, Karl Marx, Alfred Marshall, and J. M. Keynes.  
Prerequisites: ECON 1100 and ECON 1200.

International Economics  
ECON 3550  3 cr. 3 hr.  
This course explores the theories of international trade and their links to theories of economic development and growth. Major current topics in the international economy, including economic competition among countries, debt problems in the Third World, and North-South relations, are treated as practical issues against which the theories can be tested. I  
Prerequisites: ECON 1100, ECON 1200.
International Finance  
**ECON 3600 3 cr. 3 hr.**

The course considers the theory and practice of financial management by governments, corporations, and individuals in a changing international monetary environment. The course also discusses the influence of central governments, central banks, and international monetary institutions on interest rates, exchange rates, capital flows and financial stability. L

Intermediate Macroeconomics  
**ECON 3650 3 cr. 3 hr.**

As a second course and more advanced treatment of macroeconomics, this course provides a detailed examination of major topics in macroeconomics. Topics of discussion include theories of consumption, investment, and growth recession, as well as efforts by the government to stabilize the economy through fiscal, monetary, or other measures. This course introduces the Keynesian, neo-classical, and Marxist models of the macroeconomy. L

Prerequisites: ECON 1100, ECON 1200.

Intermediate Microeconomics  
**ECON 3660 3 cr. 3 hr.**

This course analyzes consumer and producer equilibrium in a market economy. The behavior of firms in the four market structures and the behavior of firms and individuals in input markets is examined. Applications of economic theory to concrete economic problems are emphasized. L

Prerequisites: satisfactory completion of the College Mathematical Readiness requirement, ECON 1200.

Econometrics  
**ECON 3700 3 cr. 3 hr.**

This course is an introduction to econometric methods, statistical inferences, and testing hypotheses. Model building techniques and their theoretical justifications are presented and evaluated in terms of their performance. Q

Prerequisites: ECON 1100, ECON 1200, MATH 2200, MATH 2800 or permission of Instructor.

Managerial Economics  
**ECON 3750 3 cr. 3 hr.**

Applied microeconomics or the application of economic theory and methodology to the practice of managerial decision making is the focus of this course. Case studies are emphasized in instruction. L

Prerequisites: ECON 1100, ECON 1200, MATH 2200, MATH 2800 or permission of Instructor.

Independent Study in Economics  
**ECON 4900 3 cr. 3 hr.**

The Independent Study is open to students who have the permission of the supervising instructor and the department. Course of study, meetings, and credit are arranged with approval.

Internship in Economics  
**ECON 4940 12 cr. 3 hr.**

The Internship provides work experiences in private or public firms. Students acquire skills useful to professional economists. L

Prerequisites: junior or senior standing, 3.00 Econ. cum, or permission of internship coordinator.

Directed Study  
**ECON 4975 1-6 cr.**

---

**English**

Basic College Writing  
**ENGL 0100 3 inst. cr. 3 hr.**

This course studies the process of writing as well as sentence arrangements and punctuation patterns in Edited American English. Credits do not count towards graduation.

Prerequisites: ENGL 0100.

Writing Skills Workshop  
**ENGL 1000 1 cr. 3 hr.**

An intensive study of the basic writing skills. This course cannot be taken simultaneously with Basic College Writing (ENGL 0100), Writing I or II (ENGL 1100, 1200). The class may be taken 3 times for 1 credit per semester.

Reading Improvement I  
**ENGL 1010 1 cr. 3 hr.**

This course is a continuation Reading Improvement I.

Advanced Topics in Reading  
**ENGL 1030 1 cr. 3 hr.**

A continuing third-semester reading enhancement course.

Writing I  
**ENGL 1100 3 cr. 3 hr.**

This course explores writing as process and product. Practice, both oral and written, in expressing ideas with precision, clarity, and economy, the development of research skills, and critical reading are emphasized.

Writing II  
**ENGL 1120 3 cr. 3 hr.**

This course is a continuation of ENGL 1100 with an emphasis on writing as a thinking and learning process. Careful reading, critical and creative thinking, and writing, using analysis and synthesis, is promoted with the assignment of five writing projects on a range of subjects. A research essay is required. Course options incorporate various styles and formats related to different situations and audiences.

Prerequisite for all English electives: ENGL 1100 Writing I and ENGL 1200 Writing II.

American Literature I: Age of Exploration to the Civil War  
**ENGL 2100 3 cr. 3 hr.**

This course surveys recurring themes and images in early American literature. From Columbian narratives to Civil War texts, we trace the development of new forms of fiction and poetry as well as experiments with traditional forms. L

American Literature II: Civil War to the Present  
**ENGL 2120 3 cr. 3 hr.**

This course surveys various genres of American writing from 1865 to the present, tracing the effects of social, economic, scientific and artistic turmoil on authors and their works. We explore the interconnections among succeeding eras of American literature: Realism, Modernism and Post-Modernism. L

English Literature I: Beowulf to Milton  
**ENGL 2200 3 cr. 3 hr.**

This course surveys English literature from the first extant manuscript materials through the early 17th century. We trace themes, images, and literary forms that concerned British writers for half a millennium. L
This course explores the changing faces of English literature during the most tumultuous period of English history, encompassing the Civil Wars and leading up to the Industrial Revolution. Selections may include Swift's satiric prose, Pope's caustic poetry, Gay's The Beggar's Opera, Behn's comedies, Equiano's narrative of escape from slavery, Mary Shelley's Frankenstein, and the romantic poets including Byron, creator of the Byronic hero. L

This course surveys British writers from the Victorian era to the present, tracing their responses to the revolutionary changes in art, music, science, and social and economic classes. Representative authors include Dickens, Eliot, Trollope, Barrett-Browning, Wilde, Shaw, Woolf, Joyce, and Beckett, authors whose depiction of human nature challenged contemporary concepts of self and society. L

This course examines individual, family, and societal images of disability through autobiography, biography, fiction, poetry, and children's literature. Students will explore themes around the disability experience using reflective writings, class discussions and activities. L, B, IDIS

This basic course in script writing for film, television, and multimedia productions includes information on the preparation of proposals, treatments, storyboards, and scripts. Script formats include documentary, educational, corporate, and dramatic film/video writing. (Credit is not given for both ENGL 2320 and COMM 2320.)

This course involves the critical study of literature and film as means to convey narratives. The conventions of various literary genres and types of films will be considered. Special attention is paid to the adaptation of novels and stories for the screen. Students study a dozen or more motion pictures in depth and compose six to eight critical essays. L, IDIS

This course examines masterpieces from the ancient world through the middle of the 17th century. L, C

This course examines masterpieces from the mid-17th century to the present. L, C

This course examines the style, narrative techniques, symbols, and historical setting of the Old and New Testament writers. L, C

This course examines pre-Homeric stirrings of symbol and story, then moves on to study Virgil and Ovid and Roman traditions. L, C

This course presents works by significant ethnic writers, such as James Baldwin, M. Alice H. Kinsey, Zora Neale Hurston, M. Scott Momaday, Toni Morrison, and Leslie Marmon Silko. L, C

This course is an introduction to the literature, thought, and literary practice of African-American writers throughout the nineteenth century. Close reading and analysis of such representative authors as Frederick Douglass, Frances E.W. Harper, Harriet Jacobs, and Sojourner Truth. L, C

This course is an introduction to the literature, thought and literary practice of African American writers from the turn of the century to the present. L, C

Significant stories by some of the world's great writers are read and analyzed to show the evolution of the short story form. L

This course examines the press through individualized writing assignments. Emphasis is placed on ethics in news, treatment of contemporary issues, and structuring the news story. (Credit is not given for both ENGL 2800 and COMM 2800)

This class explores the mechanics of editing, issues of attribution, use of sources, balanced coverage and libel laws. In addition, the relationship between editor and writer with reference to agents, the submission and selection process, and collaborating is explored. Students also gain an understanding of writing for special markets, such as education or medicine, and getting a track record.

Key to Course Offerings

Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDIS: Interdisciplinary courses
M: multicultural and interdisciplinary courses also fulfill a cluster designation.
* Asterisk indicates that the course may fulfill a cluster designation.

Multicultural and interdisciplinary courses also be taught as "Topics" courses. These courses being taught on an experimental basis can be taught on a regular basis or courses those taught on a regular basis or courses being taught on an experimental basis can be taught on a regular basis.

Undergraduate Evening School

Undergraduate Day School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Introduction to Secondary School Teaching
ENGL 2860 3 cr. 3 hr.
This course is required of all students preparing for the initial license at the secondary level. A sophomore level course for full-time undergraduates and a first course for transfer students, it is taught at the local high school and is a clinical laboratory experience. The course includes a 25-hour practicum requirement and is a prerequisite for other certification courses. Students become familiar with the complexities of secondary school teaching and its demands. The course gives faculty the opportunity to screen students and gives students the opportunity to test their commitment to teaching.

The Structure and Nature of Language
ENGL 2870 3 cr. 3 hr.
This course studies language systems and grammatical theories, including the history of the English language, theories of language acquisition, and psycholinguistic and sociolinguistic topics.

Storytelling and the Oral Tradition
ENGL 2890 3 cr. 3 hr.
The course studies the oral tradition in European and non-Western contexts. Students examine the oral tradition in classic works as well as its continuation in fairy tales, popular music, story theater and "performance art." Students will consider the structure and presentation of traditional, individually composed and "family" narratives. Each student will give at least two oral presentations before an audience.

Children's Literature
ENGL 2900 3 cr. 3 hr.
The course serves as an introductory survey of both classic and contemporary children's literature. Texts are studied from a variety of perspectives in the contexts of both childhood and society.

Literature for Young Adults
ENGL 2910 3 cr. 3 hr.
A survey of current books written for readers ages 12 to 18. The emphasis is on the best new books available in paperback. Students develop skill in evaluating young adult books in terms of literary quality, reader interest, and social or political perspective. Realistic fiction, YA classics, historical novels, science fiction, and poetry are some types of books examined.

Survey of English Grammar
*ENGL 2950 1 cr. 1 hr.
The course studies traditional and transformational systems of English grammar as a basis for understanding conventions of English usage.

Approaches to English Studies
ENGL 2999 3 cr. 3 hr.
An introduction to the academic study of English and the different ways readers can connect to, think about, and experience literature. The course provides an overview of the discipline's issues and theories and gives students experience in writing practical criticism and using research tools and methods.

World Drama
ENGL 3000 3 cr. 3 hr.
The course examines significant and representative plays from the beginning to the modern period.

American Drama
ENGL 3010 3 cr. 3 hr.
A survey of American Dramatic Literature from its beginnings in the prerevolutionary British Colonies to the present. The course involves critical reading of dramatic texts. Students will attend productions of plays on and off campus studied in the class. Students will engage in active discussion and analysis of these plays and be required to write papers on particular authors.

Modern Drama
ENGL 3020 3 cr. 3 hr.
The course examines the works of such playwrights as Ibsen, Chekhov, Sartre, Brecht, Ionesco, Beckett, and Pinter.

The Middle Ages
ENGL 3030 3 cr. 3 hr.
The course examines literature of the British Isles and Europe to 1500.

British Literature Since World War II
ENGL 3040 3 cr. 3 hr.
This course examines fiction, drama, and poetry written in Britain and her former Commonwealth since World War II. Special emphasis is placed on the role imperialism and decolonization has had in literature. Authors examined include A.S. Byatt, Derek Walcott, Wole Soyinka, Salman Rushdie, and Michael Ondaatje.

20th-Century Irish Literature
ENGL 3050 3 cr. 3 hr.
A study of Irish fiction from James Joyce through Brian Moore, including O'Faolain, O'Connor, O'Brien, O'Flaherty, and McGahern.

Modern Poetry
ENGL 3060 3 cr. 3 hr.
Chief modern poets of America and England are introduced and close reading is encouraged in the lyric form of writers such as Eliot through Lowell, Plath and other end-century writers. Emphasis is on these creators as precursors in a tradition.

The World Novel to 1914
ENGL 3100 3 cr. 3 hr.
The course investigates significant novels such as Madame Bovary and Anna Karenina representing various countries and periods as well as stages in the development of this literary form.

The World Novel Since 1914
ENGL 3110 3 cr. 3 hr.
Students read and discuss modern novels both as aesthetic artifacts and as human documents. Representative authors include Kafka, Kundera, Naipaul, Arquez.

Golden Age of English Renaissance Literature
ENGL 3120 3 cr. 3 hr.
This course focuses on the poetry, prose and drama of the English Renaissance's "Golden Age," roughly 1530-1625, beginning with poetry of the Tudor period and ending with drama from the reign of the Stuarts. This period encompasses the work of some of the greatest and best-known English authors, lays the foundation for many genres of literature, and encompasses many political reigns and social and cultural developments. The course will examine major literary forms and genres and topical/thematic concerns of writers, linking these to key social, political, and historical developments.

Major American Writers of the 20th Century
ENGL 3210 3 cr. 3 hr.
The varied creativity of American writers in this century is explored through the study of fiction, drama, poetry, criticism, and the essay.

American Novel to 1950
*ENGL 3220 3 cr. 3 hr.
This course provides a close examination of several representative works by major American novelists between 1800-1950.

Women and Literature
ENGL 3300 3 cr. 3 hr.
Literature by and about women is examined in light of their roles in society, at work, and in relationships.

Journalist to Novelist
*ENGL 3400 3 cr. 3 hr.
This class explores the stylistic and professional development of distinguished American writers who began their careers as reporters.
Technical Documentation
ENGL 3470 3 cr. 3 hr.
This course gives students the opportunity to study and write the basic forms of technical documentation found in business and industry, including end-user manuals and training guides. Examination of graphics, typography, and desktop publishing is considered as they apply to hardcopy production.
(Credit is not given for both ENGL 3470 and COMM 3470.)

Writing for the Web
ENGL 3480 3 cr. 3 hr.
This course combines theory and practice as it outlines the challenges inherent in writing for the Worldwide Web, and examines the practical solutions that are evolving to meet those challenges. Students learn the conventions and ethics of Internet writing, apply these to critiques of Web pages, and create original content for the Web.

Creative Writing
ENGL 3560 3 cr. 3 hr.
Students write and edit fiction and poetry in a workshop setting. Junior standing or approval of the instructor is required to enroll in this class.

Fiction Writing
ENGL 3570 3 cr. 3 hr.
This course teaches the basics of fiction writing, encouraging students to explore the writing processes in a supportive workshop. Students will draft, revise, and complete two short fiction pieces, either short stories or segments of longer works. Coursework is designed to encourage and assist writers to refine their ability with fictional techniques and to explore a range of voice and theme to create effective short stories and novels. Students work with writing partners and peer editing groups to improve their abilities to give and receive useful and compassionate editorial feedback.

Writing Poetry
ENGL 3520 3 cr. 3 hr.
In this workshop-driven creative writing course, students grapple seriously with poetic technique and, in the process, discover their own voices as poets. Students will immerse themselves in the traditions of formal verse in English and write their own poems in a variety of closed and open forms. Students will revise and assemble a selection of their best work for a final portfolio, and will be encouraged to submit revised work for publication.

Journalism Practicum: 1 and 2
ENGL 3810 and 3820 3 cr. 3 hr.
These Practica are open to members of the Print and other students interested in obtaining hands-on training in journalism with the goal of having works published in student and community newspapers. (P1 and P2 may be taken separately for a total of 6 credits).
Prerequisite: ENGL or COMM 2800.

The American Magazine
*ENGL 3840 3 cr. 3 hr.
This course provides a close study of significant American magazines with emphasis on the editorial policies and requirements, audience slant, advertisements, and visual layouts.

Writing for Business and Technology
ENGL 3860 3 cr. 3 hr.
The course is for students interested in writing in the business, industry, and management context. Topics covered: business correspondence, description of process and mechanisms, sets of instructions, proposals, abstracts, and reports. (Credit is not given for both ENGL 3860 and COMM 3860.)

Feature and Magazine Writing
ENGL 3870 3 cr. 3 hr.
This course explores writing feature articles for newspapers, magazines, and trade journals. (Credit is not given for both ENGL 3870 and COMM 3870.)
Prerequisite: ENGL or COMM 2800.

Creative Nonfiction Writing
ENGL 3890 3 cr. 3 hr.
This course is an upper-level writing workshop that investigates the linguistic, social, persuasive, and literary dimensions of creative nonfiction. Students read and gain experience writing its various sub-genres, which may include memoir, cultural criticism, and literary analysis.
Prerequisite for all 4000-level literature courses is satisfactory completion of one 3-credit literature course at the 2000- or 3000-level, or permission of instructor.

Chaucer and His World
ENGL 4010 3 cr. 3 hr.
This course emphasizes the Canterbury Tales in their medieval context.

Shakespeare’s Drama: Text and Performance
ENGL 4020 3 cr. 3 hr.
This course studies several of Shakespeare's dramas with a focus on the thematic issues raised by the plays in the texts and in performance. Examination involves not only reading and critical interpretation, but also attention to performance traditions and recent interpretations/adaptation of these works on stage and screen.

Interpreting Shakespeare’s Work
ENGL 4030 3 cr. 3 hr.
This course will study selected poems and plays from Shakespeare's canon, examining particularly his treatment of power, love, gender, and “the other.” We will consider: Who and what is “Shakespeare”? Why is Shakespeare considered the “world's greatest author”? To what purposes have “Shakespeare” and Shakespeare's texts been put, in literary, historical, ideological, education, and cultural terms? How do contemporary readings, films, and production of Shakespeare (re)present Shakespeare?

Major English Writers of the 17th Century
*ENGL 4040 3 cr. 3 hr.
This course will survey one or more genres, for example, the dramas of Jonson, Webster, Behn, and Congreve; the poetry of Milton, Donne, Herbert, Herrick, Marvell, Dryden, Wroth, and Phillips; prose work by Browne, Fell, Astell, and Pepys.

The Novel in the 18th Century
ENGL 4050 3 cr. 3 hr.
This course studies the origins of the novel in England as it reflects the tastes of a rising middle class. Readings include Defoe, Richardson, Fielding, Burney, Johnson, Austen, Edgeworth, Heywood, and others.

From Classic to Romantic: 1750-1800
ENGL 4070 3 cr. 3 hr.
This course explores the revolution in manners, philosophy, science, and gender as reflected in literature, art, and music from the late 18th century. Major genres include drama, poetry, fiction, prose, paintings, and engravings.

Romanticism
ENGL 4080 3 cr. 3 hr.
The poetry, prose, and art representative of the political, social, and artistic upheaval called “Romanticism” is considered. Readings include Romanticism’s outcasts, alternative voices, and anti Romantic writers.

The 19th-Century English Novel
ENGL 4090 3 cr. 3 hr.
Significant novels demonstrating the changing cultural milieu and varying approaches of the genre during this period are examined and discussed.

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDIS: Interdisciplinary courses
M: multiracial and interdisciplinary courses also fulfill a cluster designation.
* Asterisk indicates that the course may be offered less than once every two years.
▲ Undergraduate Day School
● Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as “Topic” courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
The Age of Dickens

ENGL 4095  3 cr. 3 hr.

Students read and study the works of Dickens—the literary craftsman, the reporter of his age, the social reformer—as a foundation for examining the nineteenth century in prose, poetry, and/or drama. L

Victorian Literature

ENGL 4100  3 cr. 3 hr.

The individual's relationship to a changing society in the face of nineteenth-century industrialization and scientific progress is studied through the major writers of the period. L

British Modernism

ENGL 4115  3 cr. 3 hr.

This course examines the major texts and trends of what is now called High Modernism. Authors studied include Ford Madox Ford, James Joyce, Virginia Woolf, and T.S. Eliot. L

Mark Twain and American Humor

ENGL 4150  3 cr. 3 hr.

This course explores the writings and career of Mark Twain, and humorists who share the Twain legacy, including American film comedy and stand-up comics. L

The Romantic Movement in U.S. Literature 1810–1860

ENGL 4200  3 cr. 3 hr.

This course explores concepts of nature, idealism, and community in the works of Hawthorne, Poe, and others. L

American Novel Since World War II

ENGL 4230  3 cr. 3 hr.

The course provides a close analysis of seven or eight major novels. L

Seminar

ENGL 4400  3 cr. 3 hr.

The seminar examines topics for literary analysis and research as selected by the instructor. The seminar is required for English majors taking the literature track. Others are admitted by permission of the instructor.

Literary Criticism

ENGL 4500  3 cr. 3 hr.

Theories about literature are examined, and their practical application in the classroom and in one's own reading is discussed. Approaches to different forms of literature as well as a survey of changing historical perspectives are also explored.

Teaching Writing in Middle and Secondary Schools

ENGL 4700/EDUC 4700  3 cr. 3 hr.

This course provides practice and research in alternatives for teaching writing in secondary schools. Different approaches are explored through experiments for the teacher and opportunities to test these approaches are available in practicum experiences. A prepracticum is required.

Prerequisite: ENGL 2860 or equivalent.

Special Methods in English

ENGL 4850  3 cr. 3 hr.

The final course in the Certification Program for Secondary Teachers of English. The approach to teaching English is holistic, emphasizing the interrelatedness of all language abilities: speaking, listening, reading, and writing. We experiment with and evaluate a variety of teaching strategies for creating responsive, reflective, and responsible readers, writers, and speakers as well as methods for the assessment of student performance. A practicum is required.

Prerequisite: ENGL 2860 and ENGL 4700 or equivalent.

English Practicum in a Secondary School I and II

ENGL 4860, 4870  6 cr.

In the student teaching practicum students are assigned to cooperating schools for a semester of student teaching.

Independent Study

ENGL 4903  3 cr.

The Independent Study is for English majors excelling in scholarship and can be taken upon approval of both department chair and advising instructor. Course of study, meetings, and credit are arranged with advisor.

Internship

ENGL 4940, 4950, 4960  3, 6, 9 cr.

Internship

ENGL 4970  12 cr.

The Internship provides an opportunity to gain valuable on-the-job experience for college credit by spending one semester (full-time) in business or industry. Students select field placement where they can use their abilities as communicators, learn new skills, and sample a potential job market. The Internship is a recommended component of the English Department Writing Track. Department approval and junior/senior standing required.

Directed Study

ENGL 4975  1-6 cr.

Environmental Science

Introduction to Environmental Science

ENSC 1000  4 cr. 4 hr.

The goal of Introduction to Environmental Science is to provide students with the scientific principles, concepts, and methodologies required to understand interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Q

Field Techniques in Environmental Science I

ENSC 2000  3 cr. 4 hr.

This course will provide an introduction to the mode of thinking as well as the scientific techniques to performing data gathering appropriate for work in the field. As such it is appropriate for both environmental science and biology students. The focus of the field techniques will be ecological/biological. This course is independent of ENSC 2100 Field Techniques in Environmental Science II.

Field Techniques in Environmental Science II

ENSC 2100  3 cr. 4 hr.

This course will provide an introduction to the mode of thinking as well as the scientific techniques to performing data gathering appropriate for work in the field. As such it is appropriate for both environmental science and biology students. The focus of the field techniques will be physical/biological. This course is independent of ENSC 2000 Field Techniques in Environmental Science I.

Elements of Physical Chemistry

ENSC 3000  4 cr. 6 hr.

An introductory course in physical chemistry covering: thermodynamics, mass-transport, solutions, etc. It is designed to provide students with the ability to think critically and utilize physical parameters in chemical systems, to perform numerical calculations involving these systems, and use this understanding when viewing environmental problems and risks.

Environmental Analysis

ENSC 4000  4 cr. 6 hr.

Students will conduct chemical analyses of air, soil, and water for metals, inorganic ions, volatile and semi-volatile organic parameters. Participants will be required to collect samples, prepare documentation, prepare standards and samples, perform calculations and prepare reports detailing procedure, results, and an interpretation of the results.
Exercise and Sport Science

The courses that satisfy the Health and Fitness requirement are identified below as Group I, II, and III. To meet the three-credit requirement, select one of the following options:

One course from Group I, three courses from Group II, two courses from Group III and one course from Group III.

Group I

Health and Fitness
EXSS 1000 3 cr. 3 hr. ▲
This course provides a basic survey of the effects of diet, exercise, and selected environmental agents on the mental and physical health of humans. Topics may include body build and body composition, fitness evaluation and programming, nutritional considerations, psychological correlates of health, chemical alterations, human sexuality, and personal and public health.

Leadership in the Outdoors
LEAD 1480 1 cr. 1 hr. ▲
This course is part of the Leadership Academy and partially satisfies the Health and Fitness requirement for the Academy students. Using adventure activities, students will have an opportunity to identify their leadership skills, experiment with new leadership strategies and identify one or two areas for future development of their leadership skills. Also, students will develop a sense of camaraderie and discover that outdoor adventure activities are an enjoyable part of a healthy lifestyle.

Exercise, Nutrition, and Heart Disease
EXSS 2060 3 cr. 3 hr. ▲
This course is designed to examine the integrative relationships inherent in the study of exercise, nutrition, and heart disease. Body build and body composition assessments are made, exercise prescriptions and programs are developed, and prevalent controversies in the areas of obesity, dietary goals, guidelines and plans, atherosclerosis, and heart disease are discussed. Course sections that fulfill this requirement are designated as such. Some sections are for EXSS majors only.

Group II

Jogging: Theory and Practice
EXSS 1400 1 cr. 2 hr. ▲
The theories and practices of cardiovascular conditioning using jogging as the activity mode are presented. Pre-post cardiovascular and body composition evaluations are made and program prescriptions are designed. Topics covered include training principles and programs, energy sources, aerobic and anaerobic processes, nutrition, exercise and weight control, exercise training effects, psychological considerations, environmental conditions, injuries, and running.

Body Shaping
EXSS 1440 1 cr. 2 hr. ▲
The theory of weight training and diet in relation to body shaping is discussed. Each student undergoes program, body composition, aerobic fitness, and muscular strength evaluations before and after a weight training program.

Weight Training for Athletes
EXSS 1450 1 cr. 2 hr. ▲
The course examines theory for the development of muscular strength for specific athletic activities. Anthropometric, body composition, and muscular strength evaluations are assessed prior to and following an individually developed weight training program.

Standard First Aid/ Adult CPR
EXSS 1460 1 cr. 2 hr. ▲
A behaviorally oriented course structured for those responsible for the safety and protection of others. Standard First Aid and Adult CPR certificates are issued if the student satisfies all the American Red Cross requirements.

Techniques of Road Racing
EXSS 1470 1 cr. 2 hr. ▲
The purpose of the course is to acquaint the student with various topics of running long distance road races. Topics covered include the physiology of running, training strategies, injury care and prevention, nutritional aspects and methods of assessing running ability. Each student undertakes a training program, and participates in several road races.

Stress Management
EXSS 1490 1 cr. 1 hr. ▲
This course is a multifaceted and holistic approach to the understanding and control of stress in a wellness context. Topics covered include stress psychophysiology, the relationship between stress and illness, life situation and prevention, and biological stressors. Also, the study and implementation of specific relaxation techniques such as diaphragmatic breathing, progressive relaxation, and autogenic mediation will be covered.

Consumer Health
EXSS 1510 1 cr. 1 hr. ▲
This course is designed to help the student evaluate health and fitness information critically, and select products and services wisely. The areas of quackery, alternative medicine, nutrition, personal fitness and consumer protection are studied. The course is a requirement of Leadership Academy students.

Diet, Exercise, and Weight Control
EXSS 1520 1 cr. 2 hr. ▲
The course is designed for those interested in weight loss or weight maintenance through the medium of diet and exercise. After an initial assessment of body composition, aerobic fitness, muscular fitness, and the establishment of dietary goals, each student works toward body weight goals through actual programs of exercise and diet.

Group III

Activity courses are taught on a semester basis. Each semester carries two clock hours per week and one credit.
### Professional Courses

#### Lifeguarding
**EXSS 1500** 3 cr. 3 hr. ▲

The Lifeguarding course is designed to teach lifeguards the skills and knowledge needed to prevent and respond to aquatic emergencies. Upon successful completion of the course, students can earn American Red Cross certification in Lifeguard Training. First Aid and CPR for the Professional Rescuer.

Prerequisite: Students must successfully pass a swimming placement test before beginning the course. The test will be given during the first class meeting. Students must be able to swim 200 yards continuously using the following strokes: 100 yards of front crawl, 100 yards breaststroke, 100 yards mixture of front crawl or breaststroke. Swim 20 yards using the front crawl or breaststroke surface dive to a depth of 7-10 feet, retrieve a 10 pound object, surface and swim 20 yards back to the starting point with the object.

#### Motor Learning and Physical Performance
**EXSS 2040** 3 cr. 3 hr. ▲

This course is designed to provide students with an overview of the study of motor learning and physical performance. Selected motor learning theories and the factors of skill acquisition are covered relative to the physical performance parameters of practice and the applied processes of instruction.

#### Motor Control and Performance
**EXSS 2045** 3 cr. 3 hr. ▲

A study of the neurophysiological basis for motor control and performance. Brain control of movement in daily living, in sport, and in motor deficits are among the topics studied.

Prerequisite: EXSS 2040 Motor Learning and Physical Performance, 24 credits completed.

#### Functional Anatomy
**EXSS 2050** 3 cr. 3 hr. ▲

This course is a study of anatomical structure and its function in human motion. Topics include: the anatomy of the musculoskeletal systems, primary musculature involved in specific motions, the anatomy of force production, range of motion and movement planes. Considerable practical experience in the analysis of motion from a functional anatomical basis is given.

Prerequisite: BIOL 1200.

#### Exercise Physiology
**EXSS 2070** 3 cr.

In this course, human systemic response and adaptation to exercise and exercise training is studied in-depth. Topics included are epidemiology and physiology in health and disease, homeostasis and exercise metabolism, bioenergetics, nutrition, exercise and performance, exercise prescriptions for health, training, exercise and the environment, and factors limiting performance. Laboratory experiences provide practical assessment skills as well as application of the scientific method to problems and issues in this field. This course satisfies the Health and Fitness requirement for Exercise and Sport Science, Biology, Exercise Science and Fitness Management majors.

Prerequisite: Anatomy and Physiology I and II or Human Biology and Human Physiology.

#### Nutrition in Exercise and Sport
**EXSS 2300** 3 cr. 3 hr. ▲

This course involves a thorough discussion of the principles of general nutrition. Emphasis is placed on the examination of specialized diets for training, weight control and body enhancement, and on the use of ergogenic aids during exercise and exercise training. Course material is enhanced by researching current trends, and by personal nutrition projects.

Prerequisites: 24 credits completed.

#### Health Promotion
**EXSS 2400** 3 cr. 3 hr. ▲

This course involves the design, implementation, and evaluation of wellness programs to the health care industry to the private sector. Marketing applications including materials production, are considered. Specific program design includes exercise prescription, nutrition, smoking cessation, stress management, and other health-related topics.

#### Human Motor Development
**EXSS 2500** 3 cr. 3 hr. ▲

This course focuses on human development processes, especially with regard to response and adaptation to exercise in children and the elderly, motor control, and decline of function with aging.

Prerequisite: 24 credits completed.

#### Biomechanics
**EXSS 3020** 3 cr.

This course involves the study of the mechanical aspects that underlie human motion. Mechanical considerations include describing motion in terms of levers, linear and angular acceleration, velocity, and projectiles, and the determination of motion by studying force, inertia, mass, momentum, impulse, drag, lift, buoyancy, center of gravity, and stability. Application of anatomical and mechanical principles is related to the improvement of performance in selected sports.

Co-requisite or Prerequisite: EXSS 2050 Functional Anatomy

#### Adaptations
**EXSS 3050** 3 cr. 3 hr. ▲

The course is designed to integrate the natural and exercise sciences from the standpoint that survival of the organism depends upon its ability to adapt to a given environment. The acute and chronic effects of several stressors found within the environment such as oxygen, light/dark, exercise, heat/cold, emotion/stress, altitude, nutrition and evolution are studied in the classroom and the laboratory. Q. IDIS

Prerequisite: EXSS 2070.

#### Scientific Foundations of Strength Training and Conditioning
**EXSS 3120** 3 cr. 3 hr. ▲

The course combines the theoretical and practical aspects of strength training and conditioning. Topics covered include exercise and fitness-related principles and practices of physiology, neuromotor control, biochemistry, anatomy, biomechanics, and endocrinology. The development of state-of-the-art, safe, and effective strength and cardiorespiratory endurance training programs are presented. This course is offered to all Fitchburg State College students. However, some sections are designated for EXSS majors only. These sections carry a prerequisite of EXSS 2070.

#### Apprenticeship
**EXSS 3330** 1-3 cr. ▲

These one-credit on-campus experiences are designed to enhance theory through cogent work in a specific area, such as exercise testing, strength training, fitness management, and research skills. Students apply for apprenticeships with specific professor in the semester prior to the semester in which the work will be done.

Prerequisite: Junior or senior standing.
Exercise Metabolism
EXSS 3300 3 cr. 4 hr.
An in-depth study of human physiological principles as applied to physical activity and sport. Focus will be on acute and chronic responses to exercise from various perspectives. Students will study topics concerned with bioenergetics during exercise, including: substrate utilization, oxygen use, anaerobic threshold, chemo-mechanical coupling, electrolyte imbalance, and hormonal control of metabolism.
Prerequisite: EXSS 2070, CHEM 1100.

Exercise Testing and Prescription
EXSS 3450 3 cr.
Theory and practice for evaluating and prescribing exercise for the enhancement of the functional capacity of the cardiopulmonary, metabolic, and musculoskeletal systems in health and disease. Basic topics include: review of scientific bases for testing and prescription, human behavior and motivation, basic electrocardiography, risk factors in exercise and exercise testing, health appraisal and fitness testing, exercise programming, nutrition and weight management, and program administration. This course is based on the knowledge required for certification as a Health/Fitness Instructor by the American College of Sports Medicine.
Prerequisite: EXSS 2070 Exercise Physiology.

Exercise Response and Adaptations in Special Populations
EXSS 3600 3 cr. 4 hr.
This course focuses on the modification of testing and the development of individualized prescriptive exercise programming with regard to cardiovascular disease, diabetes, arthritis, obesity, and respiratory disorders.
Prerequisite: EXSS 3450

Fundamentals of Coaching
EXSS 4000 3 cr. 3 hr.
An analysis of the principles and practices of coaching in various sports is presented for the prospective teacher/coach.

Recreational Leadership
EXSS 4100 3 cr. 3 hr.
The organization and administration of recreational activities are presented in reference to the development of the principles and practices in both school and community programs.

Camp Counseling
*EXSS 4020 3 cr. 3 hr.
Course content provides an opportunity to study some of the problems in the field of camping. Emphasis is placed on acquiring essential skills for camp life, developing various leadership styles as a camp counselor, and addressing the individual and group needs of campers.

Physical Education, Fitness and Sport: An Overview
EXSS 4030 3 cr. 3 hr.
This course is designed to provide the student with an overview of the philosophic history, administrative/management patterns, and current professional and academic disciplin ary program approaches in physical education, fitness, and sport. Emphasis will be directed towards the new and changing nature of physical education relative to career perspectives.

Fitness Management
EXSS 4040 3 cr. 3 hr.
The focus of this course is the planning and implementation of fitness programs in the commercial and corporate settings. Topics include: organization management, staff management, strategic planning, risk management, program promotion and marketing, and sales.
Prerequisite: BSAD 3200, BSAD 3300.

Cardiovascular Physiology and Electro Physiology
EXSS 4045 3 cr. 4 hr.
Cardiovascular dynamics is studied through the anatomy, electro physiology, and pathologies of the cardiovascular systems. Description of the ECG variations and the underlying mechanisms forms the foundation for practical experience in clinical interpretation of the ECG.
Prerequisite: EXSS 2070 Exercise Physiology.

Art of Dance (Arts Credit)
EXSS 4050 3 cr. 3 hr.
This course offers students the opportunity to experience dance aesthetically, kinesthetically, and intellectually. Representative styles from tribal through contemporary dance are covered. Videotapes, movement labs, papers, presentations, concert attendance, and performance are included. Teaching in the After School Movement Program at McKay is an option. L, C
Prerequisite: Junior or senior standing or permission.

Outdoor Education
EXSS 4060 3 cr. 3 hr.
This course is designed to explore and experience the use of the outdoors as a medium in the educational process. Topics covered include introduction to outdoor education, teaching methodology, basic principles of high adventure activities, school camping, and outdoor education programs. Students participate in a number of outdoor adventure activities.

Physical Education in the Elementary School
EXSS 4080 1 cr. 2 hr.
This theory and practice course is designed to guide the classroom teacher in organizing a comprehensive program of physical education and recreational activities.

Movement Education
EXSS 4100 3 cr. 3 hr.
Movement Education is a theoretical and an experiential course designed for working with the creative process in an interdisciplinary manner. The relationship of movement in developmental processes is explored. Movement experiences, group leadership, curriculum development, and evaluation are covered. Teaching in the After School Movement Program at McKay is an option.

Programs in Recreation
EXSS 4110 3 cr. 3 hr.
This course is designed to acquaint students with different types of programs in the recreation field. The development of traditional and innovative programs are explored and evaluated in the classroom and through field trips. Topics covered include program foundations, traditional and innovative curricula, program planning, implementation, and evaluation.

Making Dances: Choreography and Composition
EXSS 4300 3 cr. 3 hr.
Opportunities to develop and analyze the structure and imagery of dances and music are offered. Each participant works improvisationally as choreographer and dancer in the development of solo performances as well as small and large group works.
This course includes concert attendance, performance, reading and written assignments.
Prerequisite: Junior or senior standing or permission.

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDIS: Interdisciplinary courses
Multicultural and interdisciplinary courses also fulfill a cluster designation.
An asterisk indicates that the course may fulfill a cluster designation.
Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.

Undergraduate Course Descriptions
151
Psychology of Sport  
EXSS 4180  1 cr. 2 hr.  ▲
The course provides a basic overview of the psychological impact of sport upon participants and spectators. The areas of motivation, winning and losing, competition, behavior modification, and aggression are explored.

Senior Seminar in Leadership and Professional Ethics  
EXSS 4200  3 cr. 3 hr.  ▲
Using a case study approach in various professional topics, this capstone course focuses on the leadership skills needed in the fitness industry and the clinical environment. It also emphasizes ethical practice. Students will study pertinent literature, and write a paper on current issues.  
Prerequisite: senior standing.

Independent Study  
EXSS 4900  1-3 cr.  ▲
The Independent Study is open to students who have permission of the supervising instructor and the department. Course of study, meetings, and credit are arranged upon approval.

Internship  
EXSS 4950  6 cr.
Students gain 120 hours of field experience at an outside agency related either to the fitness industry or clinical physiology. Assignments are contingent upon the student’s abilities, interests, career goals, and acceptance by the cooperating institution. One or two full days during the week may be required. Three on-campus meetings are required, as is a critical incidents journal, an informational interview, a comprehensive paper and an oral presentation. A minimum of six credits is required.  
Prerequisites: senior standing, a 2.75 in EXSS courses, and approval of the Exercise and Sport Science department.

Directed Study  
EXSS 4975  1-6 cr.

French

French for Beginners I  
FREN 1000  3 cr. 3 hr.  ▲
The correct pronunciation, reading ability, and fundamentals of grammar and syntax are taught in this class. Over the semester French gradually becomes the working classroom language. The class is designed for students with no language experience or less than two years of French at a high school level.  
Note: Students with two or more years of language instruction are not admitted without permission of Instructor. L, C

French for Beginners II  
FREN 1100  3 cr. 3 hr.  ▲
This class serves as a continuation of FREN 1000. L, C

Intermediate French I  
FREN 2000  3 cr. 3 hr.  ▲
This course includes practice in conversation practice as well as readings stressing life, customs, and culture of France. L, C
Prerequisite: two years of high school French II and/or permission of Instructor.

Intermediate French II  
FREN 2100  3 cr. 3 hr.  ▲
This course serves as a continuation of FREN 2000. L, C

Methods for Teaching French in the Elementary School  
FREN 2400  3 cr. 3 hr.  ▲
The course provides techniques and materials for use in teaching French at an elementary school level. The course is required for foreign language specialization. A minimum of twelve semester hours of French or its equivalent and Instructor’s permission is required to enroll.

French Civilization  
FREN 3000  3 cr. 3 hr.  ▲
The course covers the history, geography, fine arts, and literature of the French people from the earliest times through today. Course work includes extensive readings in French. L, L, C, IDIS
Prerequisite: FREN 2100 or permission of Instructor.

French Literature  
FREN 3300  3 cr. 3 hr.  ▲
This course will present a cultural, historical and sociological study of France as mirrored in selected works of French writers and thinkers. The time period is from the Medieval ages through and including the 20th century. L, C
Prerequisite: FREN 2100 or permission of Instructor.

French Conversation and Composition  
FREN 3500  3 cr. 3 hr.  ▲
This course is recommended for students who desire greater fluency in speech and writing as well as for students taking civilization and literature courses. L, C
Prerequisite: FREN 2100 or permission of Instructor.

Independent Study  
FREN 4901-4903  1-3 cr. 1-3 hr.  ▲
The Independent Study is open to students in the language with the permission of the supervising Instructor and the Department Chair. Meeting times and credit are arranged upon approval.

Advanced Independent Study in French  
FREN 4906  6 cr.
Prerequisite: minimum of 12 semester hours, 2.0 grade-average in French, and permission of Instructor, Department Chairman.

Directed Study  
FREN 4975  1-6 cr.  ▲

Interdisciplinary (General Studies) Capstone  
IDIS 4803, 4805, 4806, 4809, 4812, 4815  3-12 cr.
The culminating course for the IDIS major. It can be an internship, a special project, or in independent research program. Course is proposed by the student on a special form provided by the Coordinator of Interdisciplinary Studies and approved by the advising committee. The content of this course should demonstrate the integration of the student’s fields of study. Contact the Coordinator of Interdisciplinary Studies for further instruction.

Geo/ Physical Sciences

Introduction to Geography  
GEOG 1000  3 cr. 3 hr.  ▲
This course explores the complex interrelationships between the earth’s physical features and human activity. Topics include earth/sun relationships, mapping techniques, atmospheric processes that produce clouds, precipitation and storms (including tornados, hurricanes and mid-latitude cyclones), global climate/vegetation/soils, rocks, earthquakes, mountain building, volcanoes, glaciers, river systems and plate tectonics/continental drift. Human impacts on the environment such as the ozone issue, global warming/climatic change, groundwater contamination, disease, population and global food supply are discussed. L, IDIS

Principles of Human Geography  
GEOG 1100  3 cr. 3 hr.  ▲
The course introduces the elements and processes underlying economic, social, and political geographic patterns, with applications to actual case studies and situations. L
Earth, Sea, and Air
GEOG 1300 3 cr. 4 hr. ▲ ● ●
Offered fall semester for day students. The course is comprised of selected topics from the Earth Sciences Learning Standards of the MA Science Curriculum Frameworks. Laboratory required. Q

Geology
GEOG 2100 3 cr. 4 hr. ▲ ● ●
Offered spring semester for day students. The course is an introductory survey of the basic elements of physical and historical geology. The class is open to all students. A laboratory is required. GEOG 1000 is strongly suggested. Q

Atmospheres I—Meteorology
GEOG 2200 3 cr. 4 hr. ▲ ● ●
The fundamental principles of weather systems are introduced. Emphasis is on mid-latitude phenomena and weather forecasting techniques using data from sites on the Internet. Topics in tropical meteorology and severe storm phenomena are also discussed. Laboratory is required. Q

Atmospheres II—Climatology
*GEOG 2300 3 cr. 3 hr. ▲ ● ●
The course explains the regional differentiation of the climatic zones of the major land and ocean areas of the world. Special attention is given to urban climatology and the energy and moisture climatology of the earth. Prerequisite: GEOG 2200 Meteorology or permission of the Instructor.

Computer Applications in Geography/Earth Science
GEOG 2400 3 cr. 3 hr. ▲ ● ●
Introduction to four spheres of relevance to the Geosciences: the Internet as a source of data, educational software, computer mapping, and overview of Geographic Information Systems. Prerequisite: GEOG 1000 and permission of the Instructor.

Oceanography
GEOG 2500 3 cr. 4 hr. ▲ ● ●
The course studies the physical and chemical properties of sea water, atmosphere interaction with the sea surface, and currents and volume flow. In addition the energy budget of the oceans and the submarine geology of the ocean basins are explored. Students participate in a thorough discussion of ocean floor spreading and coastal processes. Laboratory is required. Q

Map Use
GEOG 2800 3 cr. 3 hr. ▲ ● ●
This course considers the nature and role of maps in communicating aspects of the earth's natural and human environments. Skills learned include map reading, relating map symbols to real world features; map analysis, extracting information from maps; and map interpretation. I

Introduction to Secondary School Teaching
GEOG 2860 3 cr. 3 hr. ▲ ● ●
This course is required of all students preparing for initial license at the secondary level. It is a sophomore level course for full-time undergraduates and the first course taken by transfer students. It is taught at the local high school and is a clinical laboratory experience. This course includes a 25-hour prepracticum requirement and is a prerequisite for other certification course requirements. Students become familiar with the complexities of secondary school teaching and its demands. The course gives faculty the opportunity to screen students and give students the opportunity to test their commitment to teaching.

Geographic Economic System
*GEOG 3000 3 cr. 3 hr. ▲ ● ●
The course analyzes factors underlying the spatial distribution of primary, secondary, and tertiary economic activities, with emphasis on locational processes in commercial economies. I, C, IDIS

Political Geography
GEOG 3100 3 cr. 3 hr. ▲ ● ●
The course examines dependent and independent political units, boundary disputes, strategic areas, buffer zones, and the function of international organizations. U.S. and Canada

Atmospheres III—Planetary Atmospheres
GEOG 4110 3 cr. 3 hr. ▲ ● ●
This course seeks to explain the similarities and differences between the earth's atmosphere and the atmospheres of the planets and moons in our solar system. Each atmosphere is studied to determine its chemical composition, thermal structure, energy budget, pressure, wind systems, clouds, precipitation, and other pertinent meteorological phenomena. Prerequisite: GEOG 2100.

Geomorphic Analysis
GEOG 4200 3 cr. 4 hr. ▲ ● ●
The course provides a comprehensive study of land forms and their origins. Laboratory is required. Prerequisite: GEOG 2100, Geology or permission of the Instructor.

Structural Geology
GEOG 4220 3 cr. 4 hr. ▲ ● ●
Offered in fall semester in odd years for day students. This course studies rock structures developed by the application of deformational forces. Topics covered include the elementary concepts of stress and strain and the geometry of joints, faults, folds, foliations and lineations. Q
Prerequisites: GEOG 2100, PHYS 2300, MATH 1300 or permission of the Instructor.

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDIS: Interdisciplinary courses
M multicultural and interdisciplinary courses also fulfill a cluster designation.
* Asterisk indicates that the course may be offered less than once every two years.
▲ Undergraduate Day School
● Undergraduate Evening School
Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as “Topic” courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Urban Geography  
GEOG 4400 3 cr. 3 hr.  
The course analyzes the external relationships and internal structure of cities. Emphasis is placed on the spatial attributes of contemporary urban qualities and problems in America. Classroom activities are supplemented by applied studies in the greater Fitchburg-Leominster area.

Remote Sensing of the Environment  
GEOG 4500 3 cr. 4 hr.  
Techniques in the use of satellite and aerial imagery as applied to landscape analysis and resource management are studied. Laboratory is required.  
Prerequisite: GEOG 2100.

Environmental Hydrogeology  
GEOG 4600 3 cr. 4 hr.  
A case study approach is used to apply basic principles of geology to environmental problems caused by flooding, groundwater contamination, pollution due to human activity, and landslides, among other topics. Laboratory is required.  
Prerequisite: GEOG 2100 or GEOG 4200, CHEM 1300, MATH 1300, PHYS 2300 or permission of Instructor.

Geographic Perspectives on Conservation  
*GEOG 4700 3 cr. 3 hr.  
The course provides an analysis of natural resources problems arising from changes in technology, population pressure, and concern with the quality of environment.  
Prerequisite: GEOG 1000.

Cartography I  
GEOG 4800 3 cr. 3 hr.  
The course treats the principal aspects of cartography as a communication process. Taken into consideration are the nature and purpose of mappable information, elements of map design, and methods involved in map construction.  
Prerequisite: GEOG 4800.

Cartography II  
*GEOG 4820 3 cr. 3 hr.  
Emphasis is on the compilation, layout, and design of maps. Students are involved in the construction of maps using traditional as well as computerized methods.  
Prerequisite: GEOG 4800.

Special Methods in Teaching Earth Science  
GEOG 4850 3 cr. 3 hr.  
The course reviews lesson planning, selection of materials, curriculum development, and relevant research.  
Prerequisites: ENGL 4700 (8-12 Licensure) and EDUC 3010 (5-8 Licensure).

Earth Science Practicum in a Secondary School I and II  
GEOG 4860, 4870 12 cr.  
For the Teaching Practicum in earth science, students are assigned to cooperating schools for a semester of student teaching.

Independent Study in Geography  
GEOG 4900 1, 2, 3 cr.  
The Independent Study provides exceptional students with the opportunity to do research with faculty guidance in a subject or problems of geographic significance.  
Prerequisites: 12 hrs. of Geography and permission of Instructor. Hours and credit by arrangement.

Internship in Geography  
GEOG 4940, 4950, 4960 3, 6, 12 cr.  
The Internship provides work experiences in private and governmental concerns. Assignments depend on the needs of the participating agency and interests and vocational objectives of the student.  
Prerequisites: junior or senior standing and permission of Internship Coordinator.

Directed Study  
GEOG 4975 1-6 cr.  

German  

German for Beginners I  
GER 1000 3 cr. 3 hr.  
The correct pronunciation, reading ability, and fundamentals of grammar and syntax are taught in this class. Offered spring semester in even years for day students.

Intermediate German I  
GER 2000 3 cr. 3 hr.  
This course includes practice in conversation as well as readings stressing life, customs, and culture of Germany. L, C

Intermediate German II  
GER 2100 3 cr. 3 hr.  
This class is a continuation of GER 2000. L, C

Modern German Literature in Translation  
*GER 2800 3 cr. 3 hr.  
The course introduces the varied creativity of German writers of fiction, drama, and poetry of the 20th century. The German film contribution of the 1920's with feature-length films is included. Readings are in translation and the course is conducted in English.

Modern German Culture: "The Road to Hitler"  
*GER 2900 3 cr. 3 hr.  
The course examines the cultural factors in music, art, literature, and film, which illuminate the events leading to National Socialism. Readings focus on translated materials, especially in literature, which help to explain why the Germans embraced Adolph Hitler. The class includes a significant audio-visual component and is given in English.

German Conversation and Composition  
*GER 3500 3 cr. 3 hr.  
This course is designed to increase the student's ability to write and speak German. Students are expected to write compositions on topics developed orally in class.  
Prerequisite: GER 2100 or permission of Instructor.

Independent Study in German  
GER 4901-4903 1-3 cr. 1-3 hr.  

Advanced Independent Study in German  
GER 4906 6 cr. 6 hr.  
The Independent Study is open to students studying German with the permission of the supervising Instructor and the Department Chairman. Meeting times and credit are arranged with approval.

Directed Study

Graphics

Interdisciplinary Graphics Seminar

Through lectures, presentations by speakers, and projects, students study advanced topics in graphics. The topics are chosen to emphasize state-of-the-art technologies in graphics. The course is administered by faculty from the Graphics Center and the material varies from semester to semester to meet the needs and interests of the participants.

History

Note: All history courses at or above the 2000 level have as a prerequisite, Writing II (ENGL 1200)

World Civilizations I
HIST 1000 3 cr. 3 hr. ▲
This course covers the beginnings of humanity to 1350. It investigates ancient empires and the development of the great world religions. The interdependence of Eurasia is stressed while the independent existence of the American and African empires is also explored. I, C

World Civilizations II
HIST 1100 3 cr. 3 hr. ▲
This course investigates the period 1350-1815. The rise of Europe, the resurgence of Islam, the alteration of the Americas, and the continued independent existence of Asiatic and African empires is studied. Additional emphasis is placed on worldwide interdependence. I, C

World Civilizations III
HIST 1150 3 cr. 3 hr. ▲
This course studies the major wars as well as the social, economic, and political changes in the world from 1815 to the present. Major themes covered are nationalism, global interdependence, and the effects of technology upon peoples. I, C

United States History I
HIST 1400 3 cr. 3 hr. ▲
The course is a survey of United States History beginning with colonial times and continuing through the era of Reconstruction following the Civil War. I

United States History II
HIST 1500 3 cr. 3 hr. ▲
The course is a survey of United States History from 1877 to the present. I

Introduction to History: Freshman Seminar
HIST 1900 3 cr. 3 hrs. ▲
The “Freshman Seminar” will explore the interaction of historical actors and events with geography and time. This course is typically arranged according to the interests and specialization of the instructor. It is, moreover, writing and reading intensive.

Ancient Greece and Rome
HIST 2020 3 cr. 3 hr. ▲
This survey of ancient Greece and Rome begins with the settlement of Bronze Age Crete and concludes with the fall of the Roman Empire. It stresses the political, religious, economic, intellectual, and military developments of the ancient west. Particular emphasis is placed on innovations in art, architecture, poetry, philosophy, and history.

Judaism and Early Christianity
HIST 2050 3 cr. 3 hr.
The course is a survey of major developments within Judaism and Christianity between 300 B.C.E. and 500 C.E. Using both primary and secondary sources, it explores historically and thematically the socio-economic and political conditions of the period. I

The European Renaissance
HIST 2070 3 cr. 3 hr. ▲
This course explores the idea of a European “Renaissance,” or a reemergence of and response to classical Greek and Roman ideals. Chronologically, the period bridged the medieval and early modern eras. Geographically, its effects were first felt in Italy, then France, England, and the various principalities of the Holy Roman Empire. Intellectually, it embraced nearly every field of human endeavor.

Twentieth-Century Europe
HIST 2100 3 cr. 3 hr. ▲
This course studies culture, science, and social developments as well as domestic and international politics from the First World War to the present. I

Europe Today
HIST 2110 3 cr. 3 hrs. ▲
An introduction to the major themes in modern European history and political science. The focus will be on the roots of contemporary Europe, European politics and economics, ethnic and religious conflict, citizenship and immigration, European culture and Europe’s place in the world and relationship with the United States.

Twentieth-Century Germany
HIST 2150 3 cr. 3 hr. ▲
This course surveys the history of modern Germany from the origins of the Weimar Republic and National Socialism through German reunification. I

Nazi Germany: Hitler’s Rise and Fall
HIST 2155 3 cr. 3 hr. ▲
A detailed inquiry into the rise and fall of Nazi Germany. Examining the Weimar Republic, the course will analyze how Hitler and the Nazis gained power. Analysis of the Nazi dictatorship will focus on how Hitler maintained power, how the Nazi years shaped German society, Nazi wars of aggression and the total defeat of Nazi Germany. I

Holocaust
HIST 2160 3 cr. 3 hr. ▲
This course surveys the Holocaust, examining the experience of victims, perpetrators “bystanders,” and survivors. I

Armenian Genocide
HIST 2170 3 cr. 3 hr. ▲
In 1915, Armenians, men, women, and children, were forced out of their homes in Turkey, slaughtered, and driven across the desert in a genocide that preceded the Holocaust by more than two decades. Despite the enormity of the crimes carried out against Armenians, this genocide was generally overlooked for many years. This course will examine the long and short-term causes of genocide, the implementation of genocide, and the legacy of the Armenian genocide.

British History to 1688
HIST 2200 3 cr. 3 hr. ▲
The course studies the development of English government and culture from the earliest times to the Glorious Revolution of 1688. I

Key to Course Offerings
Q: Designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDS: Interdisciplinary courses
M: Multicultural and interdisciplinary courses also fulfill a cluster designation.
* Asterisk indicates that the course may fulfill a cluster designation.
Multicultural and interdisciplinary courses also may be offered less than once every two years.
* U Undergraduate Day School
* E Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as “Topics” courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
British History Since 1688
HIST 2250 3 cr. 3 hr.
The course studies the industrial and agricultural revolutions as well as the evolution of the British Empire and Commonwealth. The position of Britain in the world today is also discussed. I

African-American History
HIST 2300 3 cr. 3 hr.
The course is an investigation of the African Americans in the United States from their African origins to the present. Emphasis is placed on the role African Americans played in the economic, political, and social life of the United States. I, C

Eastern Amerindian History
HIST 2370 3 cr. 3 hr.
This course includes the study of major cultures of Amerindians of Eastern North America and Caribbean from prehistoric times through contacts with European colonizers. Course work includes the use of archaeological, anthropological, literary, and historical records. I, C

Western Amerindian History
HIST 2380 3 cr. 3 hr.
The course studies the major cultures of Amerindians west of Mississippi River and Meso America from prehistoric times through contacts with European colonizers. Course work includes the use of archaeological, anthropological, literary, and historical records. I, C

Massachusetts History
HIST 2400 3 cr. 3 hr.
The course studies the political, social, and economic trends of the Bay State from Plymouth Rock to the Kennedy clan. I

Women in U.S. History to 1870
HIST 2490 3 cr. 3 hr.
The course is a multicultural examination of women of all roles and classes in the pre-colonial era through 1870. The “lady and the mill-girl” polarity in the antebellum era, the emergence of the women’s rights movement, and women in Victorian culture are covered. I, C

Women in U.S. History: 1870 to the Present
HIST 2500 3 cr. 3 hr.
The course studies women in America, including the struggle against discrimination and for the ballot as well as the history of various women’s groups. Emphasis is placed on women of all roles, classes, and ethnicity. I, C

African-American Women’s History
HIST 2520 3 cr. 3 hr.
A study of African-American women’s history from slavery through the Civil Rights Movement (1860–1964), this course focuses on the effects of race, class and gender on the interactions of these women among themselves, as well as interactions with white women and men and African-American men. I, C

U.S. Military Experience
HIST 2600 3 cr. 3 hr.
The class surveys the American wars from the Revolution until today. Course work stresses the changing roles of infantry, cavalry, and artillery over time and also examines the concept of national security at various historical times and under varying conditions. I

Mexico, Central America, and Caribbean History
HIST 2700 3 cr. 3 hr.
Both HIST 2700 and 2750 survey pre-Columbian and Colonial backgrounds. The clash and fusion of cultures and the evolution of today’s Latin American civilizations as they relate to specific geographical areas is covered. I, C, IDIS

South American History
HIST 2750 3 cr. 3 hr.
See HIST 2700. I, C, IDIS

Latin American Revolutions
HIST 2770 3 cr. 3 hr.
This course will address the following questions through survey of twentieth-century Latin American revolutions: What was revolution? Why are its causes? Why do some revolutions succeed, while others fail? Why do the revolutions of twentieth-century Latin America tell us about the specific countries in which they occurred, and about the region as a whole? I, C, IDIS

Far East before 1800
HIST 2800 3 cr. 3 hr.
The class examines the development of Chinese, Japanese, Korean, and South East Asian Civilization from the earliest time until the middle 19th century period. Political, military, and economic background is covered, but special emphasis is placed on cultural history. I, C

Modern Far East
HIST 2850 3 cr. 3 hr.
The course covers the major developments in China and Japan from 19th century to the present. It highlights the socio-economic and political transformations under the challenges of imperialism and nationalism. I, C

Introduction to Secondary School Teaching
HIST 2860 3 cr. 3 hr.
This course is required of all students preparing for initial license at the secondary level. It is a sophomore level course for full-time undergraduates and the first course taken by transfer students. It is taught at the local high school and is a clinical laboratory experience. This course includes a 25-hour prepracticum requirement and is a prerequisite for other certification course requirements. Students become familiar with the complexities of secondary school teaching and its demands. The course gives faculty the opportunity to screen students and gives students the opportunity to test their commitment to teaching.

Middle East History Since 1500
HIST 2920 3 cr. 3 hr.
The course covers political, cultural, religious, and military history of the Modern nation states of Middle East. The rise and fall of the Ottoman Empire is also covered. I, C

Modern African History
HIST 2930 3 cr. 3 hr.
A survey of 19th and 20th century African history, this course investigates the slave trade, imperialism, development and the rise of African nationalism. I, C

Irish History to 1850
HIST 3100 3 cr. 3 hr.
Irish History is studied through significant events such as the Rebellion of 1798, the Act of Union, O’Connell, and Catholic Emancipation, the rise of Irish nationalism, and the great famine of 1845-50. I

India Since 1500
HIST 3200 3 cr. 3 hr.
This course discusses India’s traditional society and religion as also the legacies of the Moghul, the British, and the nationalist movement. By addressing the dramatic cultural and economic changes set in motion since the sixteenth century, it examines the impact of Islamic, colonial, and nationalist politicians in modern India. I, C

Modern Russia
HIST 3300 3 cr. 3 hr.
The course is an intermediate level survey of the major cultural and political forces, which have shaped the modern Russian state. The course traces the development of Russia from its origins in the 10th century Kiev, through the Mongol period, and culminates with an overview of Russian political, cultural, and intellectual history up to the 1917 revolution. I, C
20th-Century Russia
HIST 3350 3 cr. 3 hr.
This class is an intermediate level survey of 20th century Russian history from 1917 to the revolutionary developments of the Gorbachev era. Emphasis is placed on the events and forces that led to the Russian Revolution in 1917, the establishment of the Soviet Government, the role and character of the Communist party, the Khruschev era, and concludes with the "2nd Russian Revolution." I, C, N

The Age of Revolutions
*HIST 3400 3 cr. 3 hr.
The class covers the major political, social, and cultural developments in France, England, and the United States during the age of the American, French, and Industrial Revolutions, 1763-1848. The meaning and applicability of the term 'revolution' is examined, and there are a series of case studies in topics such as art and politics, romanticism, and the religious revival in England.

The French Revolution
HIST 3420 3 cr. 3 hr.
This course treats the Revolution not simply as an event, but also as an idea. Thus, we examine the origins and various manifestations of the "revolutionary spirit" between 1789 and 1815. Heavy emphasis is placed on primary sources, as well as theoretical and historiographical issues.

Women in European History Since 1700
*HIST 3450 3 cr. 3 hr.
This is an advanced course in European Women's History beginning in 1700 with the changes leading to the French Revolution and continuing to today with the new revolutionary changes in Eastern Europe. The effects of historical events and policies on the lives of French, British, Irish, Jewish, German, Spanish, Italian, and Russian Women is examined. I

American Colonial History
HIST 3500 3 cr. 3 hr.
This course covers the exploration, settlement patterns, imperial system, social structure, rise of representative government in America, and the 18th-century wars for empires. I

The American Revolution
HIST 3550 3 cr. 3 hr.
The course covers the coming of the Revolution, war tactics, and strategy, problems of the Confederation period, and the American Constitution. I

The U.S. Civil War and Reconstruction 1830-1877
HIST 3600 3 cr. 3 hr.
The course examines politics, slavery, and Abolitionism. Political, military, and diplomatic aspects of the war and the failure of reconstruction is also covered. I

U.S. 1880-1920: The Progressive Era
HIST 3655 3 cr. 3 hr.
The major movements of the late nineteenth and early twentieth centuries in United States History are studied in this course, including rise of middle class culture, Populism, urbanization, trade unionism, consumerism, and Progressivism. I

U.S. 1920-1945: The Modern Age
HIST 3700 3 cr. 3 hr.
This course covers topics in American politics, economics, and society from 1920-1945, with special emphasis on reform movements, the Great Depression, and World War II. I

Cold War
HIST 3750 3 cr. 3 hr.
This course examines the impact of the Cold War in global perspective. Major themes include the developing U.S.-Soviet conflict in Europe, nuclear weapons proliferation, Third World revolutionary nationalism, detente, the collapse of the USSR, and post-war globalization. I

The U.S. In World Affairs: 1898 to the Present
HIST 3850 3 cr. 3 hr.
The class examines America as a global power. Events covered are World War I, the era of "isolation," origins of World War II, American involvement and wartime diplomacy, breakdown of East-West relations, the Cold War, and the Korean and Vietnam conflicts and post-Cold War world.

The Frontier in American History
*HIST 3900 3 cr. 3 hr.
The Frontier is studied as a historical, social, economic, and psychological process to determine its impact on American development.

Writing History
HIST 4000 3 cr. 3 hr.
The class introduces the historical method with stress on bibliographical aids, historical fallacies, and the theories of history as they have developed. The class is primarily for history majors.

Technology and US Society, 1790-Present
HIST 4100 3 cr. 3 hr.
This course will explore the history of the US through the lens of technology. Topics to be covered include the pre-industrial era, industrialization, transportation revolutions, urbanization, the rise of engineering, technological systems, the impact of the automobile, the communications revolution, and the ethics of technology. Prerequisites: HIST 1400 and HIST 1500.

Seminar
HIST 4500 3 cr. 3 hr.
The seminar provides guided readings and research on a specified topic. It is designed to enrich research and analytical skills of future teachers and those desiring to enter graduate or other professional schools.

Special Methods in Teaching of History
HIST 4850 3 cr. 3 hr.
This course covers special techniques for the teaching of history and their relationship to the principles of general methods. The course is taught at the local high school and is a clinical laboratory experience. A Pre-Practicum of 25 hours is required. Prerequisite: completion of Introduction to Secondary Education.

History Practicum in a Secondary School I and II
HIST 4860, 4870 6 cr.
In the practicum students are assigned to cooperating schools for a semester of student teaching. A 3.00 GPA in History and an overall GPA of 2.75 are required to enter the Practicum. In addition, students must receive a passing score on the MTEL in General Literacy and History prior to entering the Practicum.

Independent Study in History
HIST 4900 3 cr. 3 hr.
The Independent Study is open to students majoring or specializing in history with the permission of the supervising instructor and the department. Meeting times and credit are arranged upon approval.

Directed Study
HIST 4975 1-6 cr.
Human Services

Introduction to Human Services
HMSV 1100 3 cr. 3 hr.
This core course serves as an introduction to the breadth and nature of human services work. Students will become acquainted with a variety of human service agencies at local, state and federal levels (i.e., their organization and administration, potential as hiring placements, and scope of services). The course facilitates students' awareness of the theoretical perspectives, issues and ideological dilemmas in the field of human services. The required supervised practicum experience (30 hours within a ten-week semester) allows students to "shadow" human service workers in local agencies as they go about their daily activities, thereby gaining firsthand understanding of the nature of the work and the realities of a profession in the discipline of social welfare. This course is a prerequisite for most other Human Services courses.

Community Resources
*HMSV 1150 3 cr. 3 hr.
This course acquaints students with the services of a variety of public (federal, state and local) and private voluntary non-profit agencies which provide services for various populations. Students learn the range of services provided, how to make referrals to and obtain services from agencies, and how the agencies are operated (including staffing, funding, and administration). This course may emphasize special types of agencies/populations in different communities.

Introduction to Criminal Justice
HMSV 2000 3 cr. 3 hr.
This course provides an overview of the structure and organization of the criminal justice system. Emphasis is placed on examining the functions and decision processes of agencies that deal with the management and control of crime and criminal offenders. The course includes didactic presentations, assigned readings, class discussions, visiting practitioner lectures, and small group discussions.

Research Methods in Human Services Practice
*HMSV 2050 3 cr. 3 hr.
This core course provides the knowledge and skills necessary to use research to inform practice in human services. Students will learn the basic ideas governing scientific inquiry in applied settings, including the formulation of research questions and review of related scientific literature. Emphasis will be placed on the basic skills, including appropriate statistical techniques, required to understand and participate in community needs assessments, program evaluations, consumer satisfaction studies, and similar practical research projects. Students will develop an understanding of both the ethical considerations (including the role of institutional review boards) and the issues related to human diversity involved in performing, evaluating and using research with human participants.

Working with AIDS/ HIV in Human Services
*HMSV 2100 3 cr. 3 hr.
This course provides a comprehensive understanding of the psychosocial impact of the HIV/AIDS epidemic as well as appropriate community resources and services for dealing with it. The significant medical, psychological, social and political consequences of the transmission of the human immunodeficiency virus will be examined. Guest lectures and field trips to service provider agencies may supplement class discussions, lectures, films and other activities.

Crisis Intervention
*HMSV 2400 3 cr. 3 hr.
This course focuses on the concepts and techniques of crisis intervention. Many individuals are faced with crisis situations, such as job loss, unwanted pregnancy, divorce, medical procedures, death and dying and so forth. Students are exposed to the specialized short-term techniques that have been developed to help people in these situations. A supervised practicum (30 hours) in an agency is required.

Interviewing Techniques
*HMSV 2500 3 cr. 3 hr.
This course is designed to help the student, whose goal is to be involved in a helping profession, learn about the problems and processes of interviewing while developing basic skills needed to become an effective interviewer. The course includes assigned readings, class discussions, audio and videotaped simulated interviews, demonstrations and practice sessions. Students' self-evaluations of their performance in videotaped simulated interviews serve as primary learning tools.

Juvenile Justice
*HMSV 2600 3 cr. 3 hr.
This course is designed to develop student awareness of past and contemporary philosophies, practices and paradoxes of juvenile justice. The course examines programmatic efforts for juveniles “in trouble with the law,” and focuses on the relationships among the components of this system of justice. Class presentations and discussions are supplemented by current journal research, and panel discussions by practicing professionals. A supervised practicum (30 hours) is encouraged.

Services to Children
*HMSV 2700 3 cr. 3 hr.
Students examine the variety of services available to children to support, supplement and substitute for the family. Students learn to understand the structure of the services provided and to explore the ethical dilemmas such services may create.

Group Work
*HMSV 2900 3 cr. 3 hr.
This core course focuses on group work in human services agencies and exposes students to the theories and techniques of working with clients in groups. Students have opportunities to observe and co-lead simulated groups. A supervised practicum (30 hours) in an agency is required.

Addictive Behaviors
*HMSV 2950 3 cr. 3 hr.
This course is designed for students who plan a career in the helping professions (including education), or who wish to understand the cognitive, emotional, social and biological correlates of alcohol and other drug abuse, or other addictive behaviors. A framework is presented for viewing such compulsive behaviors as part of a continuum from “normal” to “dysfunctional,” and controversies in the field are discussed. Students will be exposed to models of addiction, a classification of drugs, prevention of alcohol and other drug abuse, and information necessary to work with clients who are affected by addiction, including assessment and diagnosis, modalities of treatment, the role of support groups and relapse prevention. In addition to lectures and class discussions students are required to attend community support group meetings and to participate in a community prevention project (e.g., the Great American Smokeout).

Prerequisite: PSY 1100
**Human Services Administration**

*HMSV 3000 3 cr. 3 hr.*

This course examines administrative functions and their relationship to organizational effectiveness and efficiency. The internal and external politics of agency survival are addressed, and theoretical concepts of management and leadership styles are explored. Lectures and class discussion are supplemented by panel discussions by practicing professionals, field-based classes, and current journal research. A supervised practicum (20 hours) in an agency is required.

Prerequisite: HMSV 1100

**Working with the Aging**

*HMSV 3200 3 cr. 3 hr.*

The course explores past as well as contemporary philosophies, practices and processes of working with the aging. Further, the course examines the various roles and practices utilized by social support networks in maintaining the social, psychological, and physical well-being of the aged. A supervised practicum (20 hours) is required.

Prerequisites: HMSV 1100, HMSV 2500

**Community Based Corrections**

*HMSV 3300 3 cr. 3 hr.*

This course examines the philosophy of community-based corrections from historical, legal, social and psychological perspectives. The essence of probation and parole and their administration are considered in conjunction with criminal justice issues and practices that affect the courts' decision to allow community sanctions and supervision in lieu of incarceration. Contemporary trends and alternatives to traditional supervision are explored as well. A supervised practicum (20 hours) is encouraged.

Prerequisites: HMSV 1100, HMSV 2500

**The Abuse and Neglect of Children**

*HMSV 3500 3 cr. 3 hr.*

This course provides students with an overview of the maltreatment of children. Students will learn about the symptoms of the major types of maltreatment, the impact of abuse and neglect on child development, and the dynamics of abusing/neglectful families. They will also be asked to consider domestic violence and substance abuse as forms of maltreatment, and are invited to compare the abuse of children with the abuse of other populations such as the elderly. Students will become acquainted with the child protection system and how it helps children, from receiving reports and assessing cases to providing case management and treatment options for children and their families. In addition to being exposed to didactic material, students will be challenged to examine their own attitudes, prejudices and reactions to abused and neglected children, their families, and the system that strives to help them.

Prerequisites: HMSV 1100, PSY 2200 or PSY 2210

**Social Welfare Policy**

*HMSV 3800 3 cr. 3 hr.*

This course enables students to learn the importance of social welfare policy, the relationship of values to policy formulation, and how to analyze policy. Students apply this knowledge to income maintenance, poverty assistance programs, health and mental health care, housing and neighborhood living space, as well as to the general problems of service delivery.

Prerequisite: HMSV 1100

**Assessment and Intervention**

*HMSV 3600 3 cr. 3 hr.*

This core course expands on Interviewing Techniques and further provides practical experience in assessment skills and intervention strategies. The course approaches clients in context as members of families, schools and other groups. Special focus is given to (1) understanding family systems theory and how it can be applied to interventions with families and within schools and agencies; (2) developing a working understanding of the DSM IV classification system for mental disorders, including the ethical issues involved in diagnosing and choosing treatments for clients; (3) designing behavioral interventions; and (4) applying a culturally sensitive perspective to working with clients. Repeated presentations of case studies will give students an appreciation of the experience of working with ongoing cases.

Prerequisites: HMSV 1100, HMSV 2500, PSY 2200, PSY 2350 and permission of the instructor. Students must pre-register in the semester prior to the course.

**Professional Issues in Human Services**

*HMSV 3700 3 cr. 3 hr.*

This course is designed to develop student awareness of the professional issues that affect the roles and responsibilities of human service workers, with particular emphasis on the supervisory relationship. Students explore the dilemmas and challenges that face the practitioner within the context of legally and ethically responsible human service work. A stronger knowledge is gained of the rights and responsibilities of clients, human service worker and supervisor.

Prerequisite: HMSV 1100

**Management of Case Process**

*HMSV 3800 4 cr. 3 hr.*

This core course focuses on the process of case management in a variety of human service settings. It is designed to provide the knowledge and practical skills necessary to collect, organize, interpret, and report on information related to clients' needs, functioning and progress, to establish and monitor service plans, to broker services, and to evaluate service provision. Examples of case management in schools, courts, hospitals, clinics, and other human service agencies will be provided. A supervised practicum (90-hours) is approved for an approved setting is required. During this practicum, students will become familiar with the agency's philosophy and operation, including procedures and formats for data/information gathering; case reporting; case conference; record storage, release and transmittal; and procedures to ensure security and confidentiality of all case materials. This course meets the LA&ES requirement for Writing for the Human Services major.

Prerequisites: HMSV 1100, HMSV 2500, PSY 2200, PSY 2350 and permission of the instructor. Students must pre-register in the semester prior to the course.

**Internship in Human Services**

*HMSV 4870-4880 6 cr. 15 hr.*

Students work in an agency 15 hours per week throughout the school year (6 credits per semester for two semesters). This placement begins only in September.

*HMSV 4890 12 cr. 30 hr.*

A block placement of 30 hours per week for one semester, either Fall or Spring (12 credits, one semester). Internship is the structured experience that allows senior Human Services majors to integrate and apply skills and theory in a field-based setting under the supervision of a qualified professional. Placements may be direct service or administrative. Examples of the wide variety of settings include mental health agencies, social services, hospitals, prisons, family service agencies, probation departments,

---

**Key to Course Offerings**

- IDIS: Interdisciplinary courses
- IDIV: Intensive interdisciplinary courses
- C: Multicultural
- B: the Human Behavior Cluster
- L: the Literature, Language and Arts Cluster
- Q: designates courses in the Quantitative Scientific Cluster

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
residential programs, nursing homes, community advocacy organizations, crisis centers, and human resource departments in businesses and other organizations. While in placement students participate in a weekly seminar on campus, in which they share their experiences and develop a heightened awareness of their placement site and the larger system of human services.

Prerequisites: completion of all core courses in Human Services and successful completion of the Internship eligibility requirements.

Students must have completed their prerequisites at least one semester before taking Internship and must pre-register with the Field Placement Office at the beginning of the semester before they plan to start placement.

Independent Study
HMSV 4900 1-6 cr. 3-18 hr. ▲ ●
Independent Study is offered by request to outstanding students of Junior or Senior standing and requires approval of the professor, the Human Services Review Committee, and the Chairperson of the Behavioral Sciences Department. Independent Study may take the form of special advanced readings or projects, or of problem formulation and research. Under no circumstances is Independent Study substituted for regularly scheduled courses.

Directed Study
HMSV 4975 1-6 cr. 3-18 hr. ▲ ●

Industrial Technology

Electric Systems and Circuits
ITEC 1000 3 cr. 4 hr. ▲
An introductory course providing an overview of electrical technology with respect to electric production, transmission, control and use. Basic electrical concepts are covered in a lab setting.

Electronics I
ITEC 1100 3 cr. 4 hr. ▲
This course introduces the principles and techniques used to analyze and design linear circuits with an emphasis on DC circuits. Accompanying laboratory exercises support the material presented in class and introduce experimental techniques. Prerequisite: ITEC 1000.

Metal Fabrication Systems
ITEC 1200 3 cr. 4 hr. ▲
The course studies mass production theory, systems, and procedures in metal working.

Wood Fabrication Systems
ITEC 1300 3 cr. 4 hr. ▲
Fundamental woodworking techniques are studied as they relate to construction and manufacturing. Procedures are practiced through selected laboratory experiences.

Materials Testing
ITEC 1310 3 cr. 4 hr. ▲
This class provides an overview of selected materials and their properties, including laboratory experiences designed to give students an understanding of materials testing.

Construction Systems I
ITEC 1320 3 cr. 4 hr. ▲
The course will provide an overview and lab experience in 12 selected construction standards institute components of the construction industry. Through focused lab experiences, students will develop competencies in using the tools, equipment, instruments and techniques essential in the selected areas.

Technical Drawing
ITEC 1400 3 cr. 4 hr. ▲
This course includes lettering, dimensioning, orthographic projection, symbols, sectioning, isometric, and auxiliary views. Problem development and blueprint reading is stressed.

Architectural Graphics
ITEC 1450 3 cr. 4 hr. ▲
An introduction to the techniques and understandings involved in the use of drawing as a way of communicating and developing architectural ideas. Drawing is studied as a tool of visualization, exploring and documenting architectural form, organization, the setting of buildings in the land and the quality of light.

Graphic Arts Processes
ITEC 1500 3 cr. 4 hr. ▲
The course studies the production and evaluation of messages utilizing graphic arts processes. This includes graphic design, desktop publishing, camera work, stripping, platemaking, and offset press operations.

Typography
ITEC 1510 3 cr. 4 hr. ▲
The origins of the alphabet, evolution of type, traditional typography, nomenclature, and classification of typefaces are studied. Emphasis is on planning layout; budget considerations; dimensional coordination, proportion, and the grid system; copyfitting, markup, and proofreading; composition and computer and electronic publishing technology.

Energy Systems I
ITEC 1600 3 cr. 4 hr. ▲
The course studies solar and other forms of energy to supply household needs. Students build and test both commercial and laboratory made devices.

Energy Resources and Environment
ITEC 1650 3 cr. 4 hr. ▲
The Energy Resources and Environment course offers indepth knowledge of energy supplies and sources. The course treats in detail, topics as how rate of formation is slow than replacement, how energy sources could be best utilized, and to identify the technology associated with energy resources. The course will include some field trips.

Evolution of Industrial Technology
ITEC 1700 3 cr. 3 hr. ▲
The course studies the history of industrial technology, and the qualifications, duties, and responsibilities of related careers. A field based pre-practicum experience is an integral part of this course. This experience may be in a school or industrial setting.

Technical Analysis
ITEC 1710 3 cr. 3 hr. ▲
Applications of mathematics to a variety of technical areas including electronics and mechanics are explored. Topics covered include complex numbers, Lissajou figures, vectors, curve fitting, error analysis, and computer methods.

Computers in Industrial Technology
ITEC 1720 3 cr. 4 hr. ▲
This course familiarizes students with computers through presentation of selected hardware and software concepts. Opportunities for extensive hands-on practice with application programs are provided.

Women in Science and Technology
ITEC 2000 3 cr. 4 hr. ▲
We will study the contributions to the advancement of science and technology made by a selected group of women. For each of these women, we will examine her discipline, her contribution to the discipline, and site her in an appropriate historical and cultural setting. I, C, IDIS
Techniques will be selected that best fulfill design situations. Theories both traditional and contemporary. Accepted construction Architectural situations will be explored that illustrate design

ITEC 2450 3 cr. 4 hr.

helpful, but not necessary.

ITEC 2410 3 cr. 4 hr.

Computer Aided Drafting (CAD)
ITEC 2410 3 cr. 4 hr.

Drafting techniques will be reviewed and applied while completing a series of exercises using computer assistance. An emphasis will be placed on drawings commonly experienced in fields of engineering and architecture. Major projects will allow individuals the opportunity to pursue interest topics. A background of computer experience is helpful, but not necessary.

Prerequisite: ITEC 1400 or ITEC 1450; ITEC 1720 or permission.

Theory of Architecture
ITEC 2450 3 cr. 4 hr.

Architectural situations will be explored that illustrate design theories both traditional and contemporary. Accepted construction techniques will be selected that best fulfill design situations. Emphasized will be the difficulties confronting designers as they resolve problems of conflict.

Prerequisite: ITEC 1320.

Offset Lithography
ITEC 2500 3 cr. 4 hr.

The students study the lithographic form of printing as it is used in modern industry. Computer graphics work stations will be used to produce electronically designed artwork. Laser printers and imagesetters will be used to output the offset film and negatives. The majority of the course is spent setting up and running offset presses. Concepts covered include printing line copy, halftones, and controlling ink density.

Prerequisite: ITEC 1500.

Graph Design
ITEC 2520 3 cr. 3 hr.

Students study the design and production of messages. Students prepare artwork and mechanicals using equipment found in the Industrial Technology Department. The technology of communications is also included.

Prerequisite: ITEC 1500 (credit will NOT be given for both COMM 3810 and ITEC 2520.)

Screen Printing
ITEC 2550 3 cr. 4 hr.

Students work with all forms of screen printing stencils. Torn paper, hand-drawn, hand-cut, and photo-direct stencils will be used. Emphasis is on multiple color registration, using both hand and machine printing techniques. Computer graphics artwork may be used by students with computer experience.

Prerequisite: ITEC 1500.

Power and Lighting Systems
ITEC 2630 3 cr. 4 hr.

Power and Lighting Systems course offers in-depth knowledge of effective, efficient illumination and retrofitting. The course treats in detail, many topics such as smart house, temporary service and collect building, lighting system, financial and occupant information and apply to that required light levels per room and address quality issues such as lamp identification, lighting circuits and lighting codes. Students will develop and present plans for specific lighting systems as a part of laboratory work. The course will include field trips to active sites and research facilities.

Prerequisite: ITEC 1000.

Automated Manufacturing I
ITEC 2730 3 cr. 4 hr.

Students are introduced to the essential technologies used in automated manufacturing through extensive practice in computer-controlled machining, robotics, and pneumatic and hydraulic control systems.

Prerequisite: ITEC 1720 or equivalent.

Prerequisite: ITEC 1100.

Advanced Metal Fabrication Systems
ITEC 2200 3 cr. 4 hr.

Specialized processes in the metal working industry are studied. Laboratory experiences include performing operations with tool cutter grinders, indexing heads, numerical control millers, turret lathes, and tracer lathes.

Prerequisite: ITEC 1200.

Wood Products Manufacturing
ITEC 2300 3 cr. 4 hr.

In this course emphasis is on the mass production of a product employing the development and use of jigs, fixtures, and other suitable mass production procedures. Appropriate methods of production management are employed.

Prerequisite: ITEC 1300.

Construction Systems II
ITEC 2310 3 cr. 4 hr.

The course studies residential construction with emphasis on construction methods, practices and procedures. The materials, equipment, and techniques used to construct a structure are examined, and architectural problems related to construction are researched. The course is taken with ITEC 2400.

Prerequisite: ITEC 1300.

Architectural Drawing
ITEC 2400 3 cr. 4 hr.

Students design a practical residential structure, conforming to standard practices and building codes. Technical skills are developed enabling students to communicate ideas. Topics discussed and employed include materials of construction, history, and development of various styles, orientation of house on lot, loads, and design of structural members. Field trips are taken and available films are used for instruction. The course is taken with ITEC 2310.

Prerequisite: ITEC 1400 or ITEC 1450.

Electronics II
ITEC 2100 3 cr. 4 hr.

This course continues to study the principles and techniques of circuit analysis and design with an emphasis on AC circuits. Electronic circuits employing discrete devices are introduced. Accompanying laboratory exercises reinforce concepts and introduce advanced measuring movements.

Prerequisite: ITEC 1100.

Laser Technology
ITEC 2110 3 cr. 4 hr.

This course examines industrial applications of lasers. It covers laser principles and operating characteristics and treats the safety aspects of laser use. Selected applications illustrate the use of lasers in industry. Laboratory experiences reinforce the lecture material.

Prerequisite: ITEC 1000.

Automated Manufacturing I
ITEC 2730 3 cr. 4 hr.

Students are introduced to the essential technologies used in automated manufacturing through extensive practice in computer-controlled machining, robotics, and pneumatic and hydraulic control systems.

Prerequisite: ITEC 1720 or equivalent.

Prerequisite: ITEC 1500.

Screen Printing
ITEC 2520 3 cr. 3 hr.

Students study the design and production of messages. Students prepare artwork and mechanicals using equipment found in the Industrial Technology Department. The technology of communications is also included.

Prerequisite: ITEC 1500 (credit will NOT be given for both COMM 3810 and ITEC 2520.)
O.S.H.A.
ITEC 2740 3 cr. 4 hr.
The purpose of this course is to introduce students to the latest occupational safety and health standards and to provide opportunity for the student to perform practical inspections, complete reports, and recommend corrective measures to insure safety and healthful conditions. This is a basic O.S.H.A. 500 course.

Plastics Technology
ITEC 2750 3 cr. 4 hr.
The course is an investigation of the rapidly expanding area of plastics. Emphasis is on plastics production, their merits, and limitations. Tests are conducted to confirm reference data and to promote a better understanding of various plastics and products made from them.

Designing and Planning
ITEC 2900 3 cr. 4 hr.
Elements of product design are experienced through problem solving. Drafting, human engineering, and product analysis are incorporated in design and construction of prototypes.
Prerequisites: ITEC 1710 and four of the appropriate freshman level courses.

Electronics III
ITEC 3100 3 cr. 4 hr.
This course further develops the concepts and techniques appropriate to the design and analysis of analog electronic circuits. It provides sufficient background for students who wish to elect upper-level electronics courses.
Prerequisites: ITEC 2100.

Digital Electronics
ITEC 3110 3 cr. 4 hr.
The course is an introduction to the techniques for analyzing and synthesizing digital circuits. Emphasis in design work is on IC technology.
Prerequisites: ITEC 3100.

Control Theory
ITEC 3120 3 cr. 4 hr.
The course is an introduction to control theory utilizing examples of mechanical, fluidic, electronic, and hybrid control systems. Emphasis is on design, utilizing the project approach.
Prerequisite: ITEC 3100.

Machine Processes
ITEC 3210 3 cr. 4 hr.
The course covers the design and fabrication of metal products utilizing machine tools, metalworking processes, and welding.
Prerequisite: ITEC 2200.

Product Modeling and Rendering
ITEC 3220 3 cr. 4 hr.
A laboratory course focusing on the preparation of product renderings and the development of three dimensional models for presentation and analysis of design products, processes or systems. The course will cover the types and uses of renderings and models; techniques and standards in their development; and appropriate material representation.
Prerequisite: ITEC 2400, 2310.

Estimating and Bidding
ITEC 3300 3 cr. 4 hr.
The principles of preparing comprehensive unit pricing and systems approach for construction is taught in this course. The emphasis is on detailed estimates in order to determine the scope and cost of each proposed design element.
Prerequisite: ITEC 2400, 2310.

Mechanical and Plumbing Systems
ITEC 3310 3 cr. 4 hr.
The course surveys the principles of heating, ventilating, air conditioning, purification, and control systems. Emphasis is placed on electrical and electronic control and delivery systems, water feed delivery systems, and waste water disposal systems.
Prerequisites: ITEC 2310, 2400.

Construction Supervision
ITEC 3320 3 cr. 4 hr.
This course enhances the student’s understanding and skills for supervising a construction project. The emphasis is on coordinating all of the construction resources, including materials and manpower, needed for the successful completion of on-site structure.
Prerequisites: ITEC 3300, 3410.

Wood Technology
ITEC 3330 3 cr. 4 hr.
Students are introduced to a series of industrial techniques through which lumber is used to produce products. Veneering, patternmaking, model building, finishing, laminating, and bending are some of the techniques explored.
Prerequisite: ITEC 1300.

Construction Systems III
ITEC 3340 3 cr. 4 hr.
The course is a study of construction techniques and structural elements. Emphasis is placed on heavy construction procedures used in commercial and industrial projects. The course is taken with ITEC 3410.
Prerequisites: ITEC 2310, 2400.

Engineering Drawing
ITEC 3400 3 cr. 4 hr.
In this course students examine orthographic projection, intersections, developments, revolutions, axonometrics, assembly details, and pictorial drawings.
Prerequisites: ITEC 1400, 2410.

Drafting Commercial Structures
ITEC 3410 3 cr. 4 hr.
Students develop and produce working drawings, demonstrations, information schedules, and portfolios related to the construction of non-residential properties. The course is taken with ITEC 3410.
Prerequisites: ITEC 2400, 2310.

Architectural Design I
ITEC 3430 3 cr. 4 hr.
Designing living spaces will be emphasized during this studio session. The common problems presented by the multiple home activities of house cleaning and maintenance, storage, meal preparation and eating, personal hygiene, child rearing and aging, entertainment, safety, security, etc. will be within the purview of this study. The visual analysis of existing space will be emphasized. Ergonomics and human behavior will be important areas of consideration.
Prerequisite: junior status.

Advanced CAD
ITEC 3450 3 cr. 4 hr.
Students study and use advanced Computer Aided Drafting techniques to create 2- and 3-dimensional surfaces and solid model drawings applicable to their ITEC concentration area. Selected drawings and a term project are included in a student-developed portfolio.
Prerequisite: ITEC 2410.

Architectural Design II
ITEC 3460 3 cr. 4 hr.
Select problems will be completed through which architectural fundamentals will be explored. Individual and group activities will introduce the topics of land site analysis and improvements; structured forms and applied materials; lighting and color considerations; the applications of scale and proportion; and the organization of space. Solutions will be presented in appropriate portfolio form.
Prerequisite: ITEC 3430.
Production Printing  
ITEC 2510 3 cr. 4 hr.  
This course emphasizes plant layouts scheduling and production of contracted jobs. Four color process printing is emphasized. The course is designed to allow serious students to apply their previous instruction in a controlled, industrial setting. Enrollment is limited to ten students.  
Prerequisites: ITEC 2500.

Printing Estimating and Production Coordination  
ITEC 3520 3 cr. 3 hr.  
This course provides students with an opportunity to determine how to estimate printed products properly. Relationships between the estimating department, sales, customer service, order writing, and production departments are covered.  
Prerequisite: ITEC 2500.

Energy Conservation Principles  
ITEC 3600 3 cr. 4 hr.  
This laboratory course offers in-depth knowledge of energy efficiency, conservation retrofitting, and choosing appropriate strategies. Cases are discussed regarding the reduction of energy losses and the application of energy conservation techniques for building control systems. Students develop and present plans for specific energy conservation projects that include field trips to sites and research facilities.  
Prerequisites: ITEC 1710, MATH 1300 or permission.

Co-Generation and Waste Recovery  
ITEC 3650 3 cr. 4 hr.  
The Co-generation and Waste Recovery Systems course will focus on analyzing engineering and co-generation systems to meet industrial process needs and use of reject heat to integrate with the production plant. The course will also cover responsibilities of cogenerators and their interconnection cost. Students will run computer programs for metering practices and other metering options.  
Prerequisites: ITEC 1600, 2600.

Fluid Power Technology  
ITEC 3700 3 cr. 4 hr.  
This course introduces the student to applications of fluid power in a variety of industries. Topics covered include properties and behavior of liquids and gases, schematic diagrams for hydraulic and pneumatic circuits, component uses and characteristics, methods of controlling fluid power systems, circuit design and analysis, and uses of hydraulic/pneumatic systems in automated manufacturing.

Quality Control  
ITEC 3710 3 cr. 4 hr.  
The course studies the development and utilization of those statistical methods that enhance quality control within a manufacturing environment. Lab work includes the use of a variety of inspection instruments and small scale testing is done to generate data.  
Prerequisite: ITEC 1710.

Automated Manufacturing II  
ITEC 3730 3 cr. 4 hr.  
This course requires students to successfully integrate the technologies studied in Automated Manufacturing I into working CIM (Computer-Integrated Manufacturing) systems.  
Prerequisites: ITEC 2730.

HAZWOPER  
ITEC 3740 3 cr. 4 hr.  
This is an OSHA-approved hazardous waste operations and emergency response course (OSHA 1910.120). Topics covered include OSHA regulations for this area, exposure risks, material handling practices and equipment, decontamination procedures, and the requirements of OSHA 1910.120.  
Prerequisite: ITEC 3100 and by permission of Instructor.

Methods of Teaching Technology Education  
ITEC 3800 3 cr. 3 hr.  
This course is designed to provide the prospective technology education teacher with a series of related academic, observational, and participatory experiences based on the fundamental elements of the teaching-learning process. Students develop, implement, and evaluate a variety of short-range instructional methods. A pre-practicum experience in a public technology education program is a requirement of the course to meet state regulations for licensure.  
Prerequisite: junior status.

Curriculum Development in Technology Education  
ITEC 3810 3 cr. 4 hr.  
During this course the student is presented experiences that relate directly to the development of a course of study. Students also have the opportunity to analyze and develop strategies pertaining to curriculum development. A pre-practicum experience in a public technology education program is a requirement of the course to meet state regulations for licensure.  
Prerequisite: junior status.

Production Planning and Control  
ITEC 3900 3 cr. 3 hr.  
The course satisfies the junior-level writing requirement for industrial technology students.  
Prerequisite: junior status.

Engineering Experimentation  
ITEC 3910 3 cr. 4 hr.  
This course is designed to provide the prospective technology education teacher with a series of related academic, observational, and participatory experiences based on the fundamental elements of the teaching-learning process. Students develop, implement, and evaluate a variety of short-range instructional methods. A pre-practicum experience in a public technology education program is a requirement of the course to meet state regulations for licensure.  
Prerequisite: junior status.

Strength of Materials  
ITEC 3930 3 cr. 4 hr.  
This course covers topics in the behavior of real materials under the influence of forces and couples. Axial, shear, torsional, and flexural stresses and strains are determined.  
Prerequisites: ITEC 1710.

Industrial Electronics  
ITEC 4100 3 cr. 4 hr.  
The course studies the application of electronic principles to devices and equipment, involving thermoelectronics, photoelectronics, solid-state motor control, welding, etc.  
Prerequisite: ITEC 3100 and by permission of Instructor.

Electronic Communications Systems  
ITEC 4110 3 cr. 4 hr.  
The system and circuits utilized in electronic communications are studied, including both transmitters and receivers. Methods of modulation are discussed and television is utilized as a representative system.  
Prerequisite: ITEC 3100 and by permission of Instructor.

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster  
L: the Literature, Language and Arts Cluster  
C: Multicultural  
IDIS: Interdisciplinary courses  
* Asterisk indicates that the course may be offered less than once every two years.

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Microprocessor-Based Control Systems
ITEC 4120
3 cr. 4 hr.
This course covers both hardware and software. The hardware portion includes a necessary introduction to the use of microprocessors to affect control. The software portion provides a necessary skill level in machine language programming. Prerequisite: ITEC 3100.

Seminar in Construction
ITEC 4310 3 cr. 4 hr.
This course is open to students specializing in construction. The course deals with current trends and issues facing the construction industry at local, state, and federal levels. The emphasis is on utilizing available resources to solve current problems. Prerequisites: ITEC 3300, 3320.

Site Planning
ITEC 4350 3 cr. 4 hr.
The scope of this study will entail the problems presented to a designer by an unimproved land site. Proper design concepts will be applied as techniques and materials are selected. Solutions will be presented in the form of drawings and estimated costs. Legals relating to construction codes and zoning will be emphasized. Prerequisites: junior status.

Descriptive Geometry
ITEC 4400 3 cr. 3 hr.
Descriptive Geometry is concerned with graphical representation and the problem solving using spatial relationship of points, lines, and planes by means of projections. Prerequisite: ITEC 3400.

Architectural Professional Practices
ITEC 4470 3 cr. 4 hr.
A study will be made of the various office forms, procedures, and protocol through which the practice of architecture is organized. Topics will include the personal ethical and legal interrelationships between other professionals, property owners, and the skilled trades. Legal forms and procedures common to the profession will be introduced. Prerequisite: senior status.

Process Color Separation
ITEC 4500 3 cr. 4 hr.
In this course students experience scanning color photographs directly into electronic publishing systems. Using the electronic publishing hardware and software the images are manipulated and merged to create completed printing negatives. The electronic files and negatives are proofed using a variety of color printers and color keys. Prerequisite: ITEC 2500.

Seminar in Graphic Arts
ITEC 4520 3 cr. 3 hr.
In the seminar students study and discuss current trends, issues, problems, and technical material in graphic arts. Emphasis is placed on comprehending why the trends must take place and how the emerging technology allows the trends to happen. Students are able to project future technical trends within the graphic area. Prerequisite: ITEC 2500.

Performance Contracting
ITEC 4600 3 cr. 4 hr.
The course is designed to provide students the guidance to use the performance contracting energy financing/service mechanism effectively and provide an excellent mechanism to bring economy, energy and the environment into appropriate perspective. The first half of the course builds an understanding of the options available and then walks through each step to effectively secure performance contracting services. The second half applies the material from the first half to different market segments i.e. the federal government and utilities from end-user’s point of view. Students will present and discuss their reports in class. Prerequisites: ITEC 1600, 2600, 3600.

Project Management
ITEC 4700 3 cr. 4 hr.
The objective of this course is to present and discuss the management of different projects. The projects usually involve a great deal of time and expense. So close management control is required if they are to be completed within the established time and cost limitations. The course also develops and discusses management techniques towards the control of cost, time and project finance during the project process.

Seminar in Facilities Management
ITEC 4750 3 cr. 4 hr.
Seminar in Facilities Management offers in-depth knowledge of current topics and sources. The course treats, in detail, many topics such as Planning and Performance Criteria, Design, Procurement and Construction. At times, it can be advantageous for an owner to negotiate a contract for its project with a preselected contractor. This course will cover the different negotiating contracts and will include some field trips.

Pre-practicum and Seminar
ITEC 4840 3 cr. 3 hr.
The seminar gives students the opportunity to formulate concepts of technology education and develop a working knowledge of principles and practices of technology education administration. Pre-practicum experiences are also included. The course meets the state requirement for certification. Prerequisites: ITEC 3800, 3810.

Practicum in Technology Education
ITEC 4860 10 cr. 30 hr.
The Practicum provides experience in planning and implementing instructional strategies in a public-school setting. A self-evaluation is required. The Practicum meets the state requirement for certification. Prerequisite: permission of Instructor.

Internship in Industrial Technology
ITEC 4960 12 cr. 36 hr.
In the Internship students participate in an industrial experience with the approval of the Industrial Technology faculty.

Independent Study
ITEC 4990 3 cr.
The Independent Study allows students to enroll in a directed study.

Directed Study
ITEC 4975 1-6 cr.

Interdisciplinary

Each student is required to complete at least two interdisciplinary courses as part of the Common Graduation Requirements in the Liberal Arts and Sciences Program. These courses are often described in the discipline most closely associated with the interdisciplinary course. This section gives complete course descriptions for the interdisciplinary course or refers to specific areas for descriptions if they are located in other sections.

History of Architecture
ART 1300
See ART 1300, L, C, IDIS

Art Criticism
ART 3100
See ART 3100, L, C, IDIS

Literature and Disability
ENGL 2300
See ENGL 2300, L, B, IDIS

Literature and Film
ENGL 2330

French Civilization
FREN 2000 3 cr. 3 hr.
See GEOG 1000. I, L, C, IDIS

Introduction to Geography
GEOG 1000 3 cr. 3 hr.
See GEOG 1000. I, IDIS

Economic Geography
GEOG 3000 3 cr. 3 hr.
See GEOG 3000. I, C, IDIS

History of Mexico, Central America, and the Caribbean
HIST 2700 3 cr. 3 hr.
See HIST 2700. I, C, IDIS

History of South America
HIST 2750 3 cr. 3 hr.
See HIST 2750. I, C, IDIS

Introduction to Women's Studies
IDIS 1000 3 cr. 3 hr.
The course is a cross-cultural, historical, and interdisciplinary introduction to topics and themes in women's experiences, including roles in the family, the work force, and public life. L, I, B, C

Women in Latin America
IDIS 1100 3 cr. 3 hr.
Through autobiographies, literature, and films, students examine a multicultural and interdisciplinary view of the social, political, and economic situation of contemporary Latin American women.

Introduction to International Studies
IDIS 1200 3 cr. 3 hr.
The purpose of this survey course is to acquaint students with the field of international studies in the context of contemporary global change. Through lectures, films, performances, and readings, the student gains perspective on some very rapid and important international political-economic transformations and cultural changes. L, I, C

Creative Arts
IDIS 1300 3 cr. 3 hr.
Participants acquire basic skills in music, movement, visual art, and language with which they create personal and group works. A final project demonstrating these skills as well as attendance, outside readings, and final exam are required. L

Global Issues
IDIS 1800 3 cr. 3 hr.
This course examines the interdependency of the world’s nations by focusing on current events in the international area and issues such as ozone depletion, pollution, the global economy, conflict and cooperation, population, and hunger. I, C, IDIS

Introduction to Peace Studies
IDIS 1900 3 cr. 3 hr.
In this introduction to the field of Peace Studies, through an interdisciplinary approach, the students will explore conflict—its origins, management, ramifications, and attempts to move beyond it. Conflict will be explored on the individual, group, national, and international levels. I, IDIS

Women in Science and Technology
IDIS 2000 3 cr. 4 hr.
We will study the contributions to the advancement of science and technology made by a selected group of women. For each of these women, we will examine her discipline, her contribution to the discipline, and site her in an appropriate historical and cultural setting. I, C, IDIS

Dilemmas of Peace and War
IDIS 2100 3 cr. 3 hr.
This introductory-level course is an interdisciplinary study of the issues of peace and war. It interweaves history, political science, philosophy, literature, and psychology through readings, discussions, lectures, media, and class presentations. I, L, C, IDIS

Issues in Women’s Health
IDIS 2340 3 cr. 3 hr.
This course offers a multicultural and interdisciplinary examination of women’s health issues and problems, including socialization, self-esteem, sexuality, birth control, substance abuse and violence. L, B, IDIS

Note: If minoring in Women’s Studies see advisor for course sequence.

Caribbean Cultures
IDIS 2400 3 cr. 3 hr.
This course introduces the culture, politics, economy, and natural history of the Caribbean, and the relation of these facets to the culture of our students. L, C, IDIS, I

Culture and Society of India
IDIS 2500 3 cr. 3 hr.
This course explores developments in India’s cultural heritage, historical epochs, religious traditions, and socio-political movements from antiquity to the present. Classwork involves numerous readings of articles on select topics and writing. L, C, IDIS, B

Man, Society, and Technology
IDIS 2700 3 cr. 3 hr.
The course studies universal characteristics of technology, including effects of technology on society and culture. Topics of interest are researched. I, IDIS, B

Seminar in the Humanities
IDIS 4000 3 cr. 3 hr.
This course is a capstone experience for students in Interdisciplinary Studies Humanities. Students review research findings and integrate selected humanities areas. This research culminates into a final research paper and classroom presentation.

Italian

Italian for Beginners I
ITAL 1000 3 cr. 3 hr.
The correct pronunciation, reading ability, and fundamentals of grammar and syntax of the Italian language are studied. Students are taught the four language skills of listening, speaking, reading, and writing. Cultural topics are integrated with these skills. Italian gradually becomes the working classroom language. Students with a year or more of high school Italian should register for Italian 2000. L, C

Italian for Beginners II
ITAL 1100 3 cr. 3 hr.
The course is a continuation of ITAL 1000 or is taken with permission of Instructor. L, C

Intermediate Italian I
ITAL 2000 3 cr. 3 hr.
The course focuses on a discussion of advanced grammar points and readings dealing with Italian life. Emphasis is on developing conversational fluency. L, C

Intermediate Italian II
ITAL 2100 3 cr. 3 hr.
The course is a continuation of ITAL 2000 or is taken with permission of Instructor. L, C

Italian Culture (in English)
ITAL 2200 3 cr. 3 hr.
This course provides an introduction to Italian culture. Although the course is taught in English, a brief introduction to the Italian Language, “Italian for Travelers”, will open the course to benefit students interested in the Italian language or those traveling in the country. A brief introduction to Italian geography, art, architecture, music, literature, film and history provides background information on Italy. L, C

Independent Study in Italian
ITAL 4901-4903 1-3 cr. 3 hr.
The Independent Study is open to students in the language with the permission of the supervising instructor and the Department Chair. Meeting times and credit are arranged upon request.

Leadership Academy
Honors Program

Our Many Communities Colloquium
LEAD 1000 1 cr. 1 hr.
The first Honors Colloquium stresses the theme of leadership, especially within the contexts of our campus and the local community. It provides a practical as well as intellectual orientation toward the immediate world we live in at Fitchburg State. The course will provide an introduction to the functions of college governance and local city government. Students will study leadership not merely from a theoretical perspective but also in real world contexts. I

Foundations of Leadership I
LEAD 1005 3 cr. 3 hr.
This course focuses on what it means to be leaders in today’s world. Students will study different theories of leadership as they apply to leaders, followers, and situations and will have opportunities to observe and apply these theories in real-life situations. Students will also be introduced to some basic psychological research methods and will use these methods to complete several small leadership projects. B

Foundations of Leadership II
LEAD 1010 3 cr. 3 hr.
The second course in the leadership sequence focuses on learning to be an effective leader. The main objective of this course is to teach students leadership skills including listening, negotiating, building consensus, working with resistance and conflict, problem solving, assertiveness, giving and receiving feedback, and motivating others. Students will study interpersonal and group theory and apply these theories to leadership situations in laboratory and community settings. This course will culminate in an applied on-campus group leadership project. B

Service Learning Project
LEAD 1025 1 cr. 1 hr.
This Service Learning Project is basic to a citizen leader’s leadership project. B

LEAD 1000 1 cr. 1 hr.
This Service Learning Project is basic to a citizen leader’s preparation. Students will do a thirty-hour practicum at community agencies, neighborhood organizations, schools, businesses or other settings deemed appropriate for service learning. Students will work in service teams under the aegis of both site and college supervisors. This structured learning environment will allow students to 1) become familiar with their community, 2) work with people on the teams as well as with people at the site, 3) learn and use skills for responsible citizenship and 4) develop their sense of civic responsibility. The college supervisor will hold a seminar once a week for students in the field. Topics of the seminar will relate to students’ experiences in the agencies as well as to students’ progress in recognizing the impact of their contributions. B

Prerequisite LEAD 1000

Honors English I
LEAD 1050 3 cr. 3 hr.
This course encourages the development of each student’s writing, independent reading, and research abilities. Concepts and expressions of leadership in the classical and romantic traditions in literature and the fine arts will be emphasized. Fictional and non-fictional literature will be examined from various class, cultural, gender, historical, literary and political perspectives.
Leadership in the Outdoors
LEAD 1140  1 cr. 1 hr. ▲
(PHED 1140)
Leadership in the Outdoors is a course designed for students in the Leadership Academy. Experiential by design, the course provides students an opportunity to experience and practice a variety of leadership styles through participation in outdoor adventure activities such as: a confidence course, initiative games, orienteering, canoeing and mountain hiking. The inquiry and analysis for the different types of leadership styles will be conducted for both the individual student and the entire class. An overnight camping trip will culminate the Leadership in the Outdoors course.

The Changing World I (19th Century)
LEAD 1150  3 cr. 3 hr. ▲
This course presents an overview of how the world changed during the 19th century. Built upon a historical framework within the context of global economy and hegemony, it will introduce students to the lingering implications of such themes as the Industrial Revolution, Nationalism in the West, Imperialism in Asia and Africa, and the globalization of economy and communication. It will explore how European political and industrial power impacted the Afro-Asian nations, but more importantly how it sustained their own expanding European industries and economy. I, C, IDIS

Honors English II
LEAD 1200  3 cr. 3 hr. ▲
This course is a continuation of Honors English I and emphasizes writing, independent reading and research. Students examine varieties of leadership in the personal narratives of cultural, intellectual and political leaders; the analyses of social critics and theorists and in works of fiction. We will examine works from various class, cultural, gender, historical, literary, and political perspectives. The diversity of texts affords students opportunities to develop strategies for the interpretation and analysis of different kinds of source material and to evaluate the concept of "leadership" in many contexts.

The Changing World II (20th Century)
LEAD 1250  3 cr. 3 hr. ▲
The focus of this course will be on the dramatic changes which took place during the 20th century. Drawing upon the disciplines of History and Political Science, it will trace the political, social, and economic significance of such topics as the rise of fascism and communism, the "Pax Americana," the Nuclear Age, the rise of National Liberation Movements in the Third World, the collapse of communism, and ongoing globalization as we approach the new millennium. Through its exploration of the forces which shaped the 20th century, the students will learn not only about the world around them, but also about the world which will be entering the 21st century. I, C, IDIS

Leaders in the Humanities: The 19th century
LEAD 2000  3 cr. 3 hr. ▲
An interdisciplinary study of art, music, philosophy and literature from Classicism and Neo-Classicism through Post Impressionism, including the movements of Romanticism, Post-Romanticism, Realism and Impressionism. Emphasis will be placed upon the leaders of the above movements within their disciplines. L, IDIS

Colloquium: Leaders in the Humanities (19th century)
LEAD 2001  1 cr. 1 hr. ▲
This colloquium complements Leaders in the Humanities: The 19th century by emphasizing research techniques for the humanities. Students will learn to do research using a variety of primary and secondary sources. They will also learn how to present their research in a variety of media. L, IDIS

Consumer Health
LEAD 2030  1 cr. 2 hr. ▲
This course is designed to help the student evaluate health information critically, and select products and services wisely. The past, present, and future of quackery is explored especially in the areas of food, cosmetics, and chronic disorders. Laws and protection agencies, both governmental and private, are surveyed.

Leaders in the Humanities: 20th century
LEAD 2050  3 cr. 3 hr. ▲
An interdisciplinary and multicultural study of art, music, philosophy and literature from 1890 to 1995 in Europe and the United States. Periods covered include French Post Impressionism, Fauvism and Cubism; German Expressionism; Spanish and French Surrealism; Early American Modernism, the Harlem Renaissance, Regionalism and Jazz; Abstract Expressionism; Pop Art; Earthworks and contemporary trends. Emphasis will be placed upon the leaders of the above movements within their disciplines. L, IDIS

Colloquium: Leaders in the Humanities (20th century)
LEAD 2051  1 cr. 1 hr. ▲
This colloquium complements Leaders in the Humanities: The 20th century and continues the development of research techniques for the humanities. Students will expand their understanding of primary and secondary source materials and further develop their presentation skills. L, IDIS

Physics, Mathematics and Technology
LEAD 3000  4 cr. 5 hr. ▲
This course will introduce the principal ideas and the development of modern 20th century physics along with its foundations in mathematics. After historical review of the development of ideas from Newton’s laws through 19th century physics, aspects of quantum mechanics will be addressed. These include the wave-particle duality of nature, the Uncertainty Principle, the probabilistic nature of the Universe, and Einstein’s Special and General Theories of Relativity. Q, IDIS

Prequisite MATH 1250 or 1300 or high school math equivalency.

Biology, Mathematics and Technology
LEAD 3050  4 cr. 6 hr. ▲
This course will address current issues such as the Human Genome mapping project, the spread and control of disease, population growth, and environmental concerns. Each of these topics requires a clear understanding of the mathematics behind the biological questions. A case-study approach and investigative activities that use laboratory experiments and computer simulations in concert with more traditional presentations will provide the focus for addressing these topics. These investigations will illustrate broader mathematical and biological concepts while engaging the students in problem solving, planning, decision making, and group discussions. Q, L, IDIS

Colloquium: Biology, Mathematics and Technology
LEAD 3051  1 cr. 1 hr. ▲
The third year colloquium will emphasize the societal, ethical and moral issues related to scientific advances. Specific topics will follow closely those being presented in Biology, Mathematics and Technology. Students will be expected to express their viewpoints through class discussion and a personal journal. Effective debating and good listening skills will be taught and cultural differences in beliefs and practices will be discussed. Q, IDIS

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
M: Multicultural
IDIS: Interdisciplinary courses
N: multicultural and interdisciplinary courses also fulfill a cluster designation.
▲ Asterisk indicates that the course may be offered less than once every two years.
▲ U Undergraduate Day School
U Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Independent Study in Leadership
LEAD 4900 6 cr. 6 hr.
The Independent Study is open to students in the Leadership Academy or Leadership Studies minor with the permission of the supervising Instructor and the Coordinator of the Leadership Academy. Meeting times and credit are arranged upon approval.

Senior Thesis/ Project/ Research
LEAD 4990 3 cr. 3 hr.
The course is for Leadership Academy students completing the senior requirement. Topics are approved by the thesis committee, coordinator, and advising professor. The course of study, meetings, and credit are arranged with the advisor.

Senior Thesis/ Project/ Writing
LEAD 4991 3 cr. 3 hr.

Mathematics

Basic Mathematics I
MATH 0100 3 inst. cr. 4 hr.
This class serves as a review of basic arithmetic skills and an introduction to elementary algebra.

Basic Mathematics II
MATH 0200 3 inst. cr. 4 hr.
The course serves as a continuation of Basic Mathematics I. Concepts studied range from Elementary Algebra through quadratic equations.

Note 1: Institutional Credits (inst. cr.) do not count toward graduation.
Note 2: All students must pass the Math Placement Exam or MATH 0200 before they are permitted to take any of the following mathematics courses.

Finite Mathematics
MATH 1200 3 cr. 3 hr.
This course surveys methods and applications of the calculus for business and to the social and life sciences. Topics covered are chosen for their intuitive appeal as well as their geometric significance.

Introduction to Functions
MATH 1250 3 cr. 3 hr.
This course introduces discrete mathematics as applied to computer science. Topics include Boolean logic, elementary set theory, functions, relations, enumeration, proof techniques, number systems, and trees.

Prerequisite: MATH 1250 or MATH 1300.

Calculus I
MATH 2200 4 cr. 5 hr.
The course involves the study of the Riemann Integral, methods of differentiation, and applications to areas, cost, and rates. (Credit is not awarded for both MATH 2200 and MATH 2300.)

Prerequisite: MATH 2300 or its equivalent.

Calculus II
MATH 2300 4 cr. 5 hr.
The course surveys methods and applications of the calculus for functions of one variable, which are useful in business and economics. Topics include differentiation with applications to rates and maximum and minimum values, integration techniques with applications to areas, cost, and rates.

Prerequisite: MATH 1250 or MATH 1300.

Introduction to Mathematical Thought
MATH 2500 3 cr. 3 hr.
The course is intended to introduce mathematics as the science of reasoning. Topics covered include elementary set theory, logic, mathematical induction, axiomatic systems, and techniques of proof with applications in areas such as equivalence relations, modular arithmetic, function properties, and graph theory.

Prerequisite: MATH 2300 or its equivalent.

Linear Algebra
MATH 2600 3 cr. 3 hr.
In this course topics covered include the application of vector spaces, linear transformations, and matrices.

Prerequisite: MATH 2300.

Applied Statistics
MATH 2700 3 cr. 3 hr.
This course is a continuation of MATH 1700. Topics covered include estimation and testing, simple linear and multiple regression, analysis of variance, and nonparametric methods.

Prerequisite: MATH 1700 or MATH 1800.
Introduction to Secondary School Teaching  
**MATH 2800** 3 cr. 3 hr.  
This course is required of all students preparing for initial license at the secondary level. It is a sophomore level course for full-time undergraduates and the first course taken by transfer students. It is taught at the local high school and is a clinical laboratory experience. This course includes a 25-hour practicum requirement and is a prerequisite for other certification course requirements. Students become familiar with the complexities of secondary school teaching and its demands. The course gives faculty the opportunity to screen students and give students the opportunity to test their commitment to teaching.

Geometry  
**MATH 3000** 3 cr. 3 hr.  
The course involves a formal study of basic concepts in geometry and the foundations of Euclidean and non-Euclidean geometry. This course is for mathematics majors or minors and students with a mathematics specialization—all others need permission from the instructor.  
Prerequisites: MATH 2400, 2600.

Discrete Algebraic Structures  
**MATH 3100** 3 cr. 3 hr.  
The course introduces discrete algebraic structures of interest in computer science. Topics covered are chosen from partial orders, Boolean algebra, graph theory, and finite state machines.  
Prerequisite: MATH 3000.

Elementary Number Theory  
**MATH 3150** 3 cr. 3 hr.  
The course involves the study of the properties of the integers. Topics covered include divisibility, prime numbers, congruences, Diophantine equations, cryptography, mathematical induction, and computational number theory.  
Prerequisite: MATH 2600.

History of Mathematics  
**MATH 3200** 3 cr. 3 hr.  
The development of mathematical ideas and methods from ancient to modern times and their relevance to other fields of knowledge is studied. This course is intended for mathematics majors, mathematics minors, or mathematics specialists.  
Prerequisite: MATH 2400.

Calculus III  
**MATH 3300** 3 cr. 3 hr.  
Course topics include conic sections, indeterminate forms, Taylor polynomials, infinite and power series, differentials, and multiple integrals.  
Prerequisite: MATH 2400.

Calculus IV  
**MATH 3400** 3 cr. 3 hr.  
The calculus of polar coordinates, parametric curves, vector valued functions, quadratic surfaces, and directional derivatives are studied. Double integrals in polar coordinates, line integrals, and differential equations may also be considered.  
Prerequisite: MATH 2600.

Ordinary Differential Equations  
**MATH 3550** 3 cr. 3 hr.  
Students examine linear first and second order differential equations, methods of solution, and applications. Series solutions and higher order linear equations are considered.  
Prerequisites: MATH 2600 and 3300.

Introduction to Mathematical Logic  
**MATH 3600** 3 cr. 3 hr.  
The course serves as an elementary introduction to classical and symbolic logic, including standard sentential and first order predicate calculi.  
Prerequisite: MATH 2500 or MATH 2300.

Mathematics Seminar  
**MATH 3900** 1 cr. 1.5 hr.  
The seminar provides the opportunity for problem solving and research on one or more topics outside the core curriculum areas. May be repeated once.

Real Variable Theory  
*MATH 4000** 3 cr. 3 hr.  
The course covers rigorous treatment of the foundations of differential and integral calculus with such topics as the real numbers, continuity, metric, and Euclidean spaces.  
Prerequisites: MATH 2600 and MATH 3300.

Topology  
*MATH 4050** 3 cr. 3 hr.  
Topics covered include: point sets, metric spaces, topological spaces, connectedness, and compactness.

Advanced Multivariate Calculus  
**MATH 4150** 3 cr. 3 hr.  
The differential and integral calculus of vector valued functions and functions of several variables are examined.  
Prerequisites: MATH 2600, 3400.

Probability and Statistics I  
**MATH 4200** 3 cr. 3 hr.  
The course involves a careful development of elementary probability theory with applications followed by the study of discrete and continuous random variables, including the binomial, Poisson, and normal.  
Prerequisite: MATH 3300.

Probability and Statistics II  
**MATH 4250** 3 cr. 3 hr.  
Random variables and their probability distributions are used to study problems in estimation, hypothesis testing, regression, and analysis of variance.  
Prerequisite: MATH 4200.

Abstract Algebra  
**MATH 4300** 3 cr. 3 hr.  
The course introduces algebraic structures, including groups, rings, and fields.  
Prerequisites: MATH 2500 or permission of Instructor, and MATH 2600.

Complex Analysis  
**MATH 4350** 3 cr. 3 hr.  
The course covers the following topics: the complex number system, the analysis of complex functions, analytic functions, integration, series, contour integration, and conformal mappings.  
Prerequisite: MATH 3300.

Operations Research  
**MATH 4400** 3 cr. 3 hr.  
The course covers the following topics: linear programming, duality, networks, transportation problems, dynamic programming, and stochastic models.  
Prerequisites: MATH 2600 and MATH 2400.

Mathematical Modeling  
**MATH 4450** 3 cr. 3 hr.  
Deterministic and probabilistic models from the physical, social, and life sciences are studied. The course emphasizes the uses of mathematics, rather than the acquisition of new mathematical knowledge. New mathematical ideas are introduced only when they aid in the study of a particular application.  
Prerequisites: MATH 2400, 2600.

Key to Course Offerings  
Q: designates courses in the Quantitative Scientific Cluster  
I: the Ideas and Events Cluster  
B: the Human Behavior Cluster  
L: the Literature, Language, and Arts Cluster  
C: Multicultural  
IDIS: Interdisciplinary courses  
M: multicultural and interdisciplinary courses also fulfilling a cluster designation.  
* Asterisk indicates that the course may be offered less than once every two years.  
▲ Undergraduate Day School  
▲ Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Numerical Analysis
MATH 4500 3 cr. 3 hr. ▲
Numerical analysis is concerned with devising algorithms for approximating the solutions to mathematically expressed problems. Topics are chosen from: round off error and computer arithmetic, solutions of algebraic and transcendental equations, interpolation and polynomial approximation, numerical differentiation and integration, solutions of ordinary differential equations, solutions of linear systems, and approximation theory. Both mathematical rigor and computer solutions are stressed.
Prerequisites: MATH 2600, 3300, programming ability in a numerical program language.

Methods and Materials in Secondary Mathematics
MATH 4860 3 cr. 3 hr. ▲
The curriculum and pedagogy of secondary school mathematics is studied. The use of technology in the teaching of secondary mathematics will be emphasized. The course includes a 30 hour pre-practicum of professional experiences.
Prerequisites: MATH 2400 and 2600; MATH 2860 or ENGL 4700.

Mathematics Practicum in a Secondary School
MATH 4870 6 cr. ▲
Students are assigned to cooperating schools for one-half of one semester of student teaching.
Prerequisite: permission of the department.

Mathematics Practicum in a Secondary School II
MATH 4870 6 cr. ▲
Students are assigned to cooperating schools for one-half semester of student teaching.
Prerequisites: MATH 4860 and permission of the department.

Independent Study
MATH 4900 1, 2, 3 cr. ▲
Prerequisite: permission of the department.

Independent Study
MATH 4901 1, 2, 3 cr. ▲
Prerequisite: permission of the department.

Directed Study
MATH 4975 1-6 cr.

Military Science

Fitchburg State College no longer offers Military Science courses. We continue to list the courses for students who were previously enrolled in the ROTC program and for students who are interested in taking the courses at Worcester Polytechnic Institute.

Introduction to Army ROTC
MILS 1400 1 cr. 1 hr. ▲
The history, purpose, structure, and methods of the Army ROTC program are introduced in this course. The leadership and management responsibilities of an officer are presented. Emphasis is placed on ROTC and its relationship with the United States Army.

Introduction to the United States Army
MILS 1500 1 cr. 1 hr. ▲
This course provides an overview of the role of the “Total Army” within the framework of the national defense establishment. The integrated roles of the Active Army and the Reserve Components are examined. Emphasis is placed on the duties and responsibilities of the officer serving in the combat arms, combat support, and combat service support branches.

Land Navigation and Basic Tactics
MILS 2200 2 cr. 2 hr. ▲
Students learn the basic fundamentals necessary to navigate. In Land Navigation, students identify terrain features, find locations, determine directions, and plan routes. Maps, protractors, compasses, terrain boards, and audio-visual aids are utilized extensively. The students also receive an introduction to individual tactical techniques and to small unit organization and utilization. Practical exercises are employed to give students hands-on experience in movement techniques and the tactical employment of small units.

Emergency Medical Treatment/ Basic Tactics
MILS 2200 2 cr. 2 hr. ▲
The first half of the course presents first aid, emergency treatment, and evacuation under emergency conditions. Emphasis is on injury prevention under different climatic conditions and on the Cardiopulmonary Resuscitation (CPR) Technique. The second half of the course familiarizes the students with individual, buddy team, and squad tactics. These basic fundamentals are reinforced and built upon throughout the student’s tenure in the Army ROTC program.

Advanced Theory of Unit Operations
MILS 3100 3 cr. 3 hr. ▲
This course provides continuing study of effective leadership in tactical operations, culminating the lessons learned during previous courses. Students examine the theory and dynamics of the military team and its effective employment as part of the combined arms concept.
Prerequisite: completion of Basic Course or advanced placement credit granted by the Professor of Military Science.

Leadership
MILS 3300 3 cr. 3 hr. ▲
The course studies the psychology of leadership based on an organizational model. Emphasis is placed on individual, group, transactional, and organizational factors that both a leader and manager need to consider in order to be maximally effective. The student is provided with the essentials for forming a creative, personal management and leadership philosophy for practical application in a real world setting.
Prerequisites: completion of Basic Course or advanced placement credit granted by the Professor of Military Science.

Effective Communication
MILS 4200 3 cr. 3 hr. ▲
The course is designed to enhance the communication skills of the Army Officer. Emphasis is on the Army writing style, conducting briefings, and the Army Training Management System. Effective speaking, listening, writing, and military correspondence is studied, with an emphasis on the interrelationship of staff and command assignments, for the effective utilization of people and resources.
Prerequisite: completion of Basic Course or advanced placement credit granted by the Professor of Military Science.

Law, Ethics, and Preprofessional Seminar
MILS 4300 3 cr. 3 hr. ▲
This course provides the student with an introduction to Military Law and Military Professional Ethics. The role of the junior officer with regard to military law in the practical setting of his/her initial assignment in an Army unit is examined. This course provides the Advanced Course cadet with a basic knowledge of the Army’s organizational practices and philosophy. The role of the noncommissioned officer is reviewed along with the basics of line and staff functions. An overview of the Army’s personnel management, training, and logistics systems, along with the post and installation support organization and functions are presented as a Basic Course.
Prerequisite: completion of Basic Course or advanced placement credit granted by the Professor of Military Science.
Music

Art of Music
MUSC 1000 3 cr. 3 hr.
This course approaches the study of music as an aesthetic experience. Representative styles and categories from the Middle Ages to the present are explored. Students are required to attend professional concerts. L, C

Beginning Musical Instruction
MUSC 1300 1-3 cr. 3 hr.
Private lessons at Indian Hill Music School are provided for the following instruments: baritone, clarinet, flute, horn, recorder, synthesizer, vibes, bass, double bass, guitar, oboe, saxophone, trombone, viola, bassoon, drums/percussion, harp, organ, Suzuki violin and cello, trumpet, violin, cello, harpsichord, piano, tuba, and voice. See Chair, H humanites Department. Fee required. L

Introduction to Music Technology
MUSC 1400 3 cr. 3 hr.
Introduces students to the basic techniques and concepts of Electronic Music composition. Beginning with a brief review of the physics of sound and music, the class explores topics including the psycho-social roles of electronic music in art and pop culture, sound synthesis, MIDI, multi-media production, sampling technologies and music programming with C-sound. L

World Music
MUSC 1500 3 cr. 3 hr.
This World Music course serves two primary purposes: 1) it teaches students about cultures around the world, and 2) it helps to understand the various intrinsic functions of Non-Western and Western music. By examining the music of peoples from various regions, this course addresses multicultural themes and the ubiquitous role of music in society. L, C

Commonwealth of the Arts
MUSC 2000 3 cr. 3 hr.
Music's reflection of the values and ideals of societies past and present are explored. Inter-relationships among the fine arts disciplines are examined. L, I, B, C, IDIS

Commonwealth of Ancient Arts
MUSC 2100 3 cr. 3 hr.
An interdisciplinary study of the humanities in ancient Western and non-Western cultures. A systematic overview of painting, sculpture, architecture, music, literature, drama, and philosophy in a historical context of significant cultures, including Paleolithic, Neolithic, Mesopotamian, Egyptian, Greek, Roman, Chinese, Indian, and American. Influences among these and other cultures will be presented. L, I, C, IDIS

Basic Music Theory
MUSC 2200 3 cr. 3 hr.
The course examines rhythmic notation, including meters and tempo. Emphasis is placed on melodic notation, including intervals, scales, and keys. Dynamics, an introduction to key relationship, transpositions, as well as other selected topics are covered. L

Choral Arts
MUSC 2300 1 cr. 2 hr.
The course involves singing choral music from the past and the present, including dramatic music. No more than six semester hours of any combination of MUSC 2300, 2400, 2500, 2600 are applicable toward graduation. L

Intermediate Musical Instruction
MUSC 2310 1-3 cr. 3 hr.
Private lessons at Indian Hill Music School are provided for the following instruments: baritone, clarinet, flute, horn, recorder, synthesizer, vibes, bass, double bass, guitar, oboe, saxophone, trombone, viola, bassoon, drums/percussion, harp, organ, Suzuki violin and cello, trumpet, violin, cello, harpsichord, piano, tuba, and voice. See Chair, H humanites Department. Fee required. L

Instrumental Arts
MUSC 2400 1 cr. 2 hr.
Small and large ensembles play representative works. No more than six semester hours of any combination of MUSC 2300, 2400, 2500, 2600 are applicable toward graduation. L

Class Piano
MUSC 2500 1 cr. 2 hr.
The class involves practical keyboard uses in classroom work, activities include accompaniment, simple transposition, and harmonization of melodies at the keyboard. No more than six semester hours of any combination of MUSC 2300, 2400, 2500, 2600 are applicable toward graduation. L

Class Voice
MUSC 2600 1 cr. 2 hr.
The principles of voice production are studied. Breath control, phrasing, resonance, and diction are stressed. No more than six semester hours of any combination of MUSC 2300, 2400, 2500, 2600 are applicable toward graduation. L

Symphony
MUSC 3100 3 cr. 3 hr.
Structural and stylistic characteristics of the symphony from the 18th century to the present are studied. L

Opera
MUSC 3200 3 cr. 3 hr.
Students study several works from the standard operatic repertoire. Some significant trends in modern opera are discussed. L

Advanced Musical Instruction
MUSC 3300 1-3 cr. 3 hr.
Private lessons at Indian Hill Music School are provided for the following instruments: baritone, clarinet, flute, horn, recorder, synthesizer, vibes, bass, double bass, guitar, oboe, saxophone, trombone, viola, bassoon, drums/percussion, harp, organ, Suzuki violin and cello, trumpet, violin, cello, harpsichord, piano, tuba, and voice. See Chair, H humanites Department. L

Twentieth-Century Music
MUSC 3400 3 cr. 3 hr.
The course examines the idioms and aesthetic notions of the present century, together with their relationship to the past. L, C

Appreciating the American Musical
MUSC 3450 3 cr. 3 hr.
Students will read a variety of literary texts and analyze how such texts were adopted as musicals, listen to the musicals and explore recurring themes. Particular attention is given to the historical development of the musical play in the 1940s and the dominance of the American book musical from the 1940s to the 1970s. L, IDIS

American Music
MUSC 3500 3 cr. 3 hr.
The course surveys American music from colonial times with some emphasis on "popular" and "art" music of the present century in the U.S. L, C

Baroque and Classical Music
MUSC 3600 3 cr. 3 hr.
The class examines various composers from Monteverdi to Beethoven. Topics covered in the course include opera, oratorio, passion, cantata, sonata forms, dance forms, and shifting aesthetic views. L

19th Century Music
MUSC 3700 3 cr. 3 hr.
The class presents a survey of major forms of 19th century music from Beethoven to Mahler. L

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Literature, Language, and Arts Cluster
C: the Human Behavior Cluster
B: the Behavioral Sciences Cluster
IDIS: Interdisciplinary courses
M: multicultural
U: Undergraduate Day School
E: Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
History of Jazz
MUSC 4300 3 cr. 3 hr.
This course introduces students to the history of jazz and investigates the musical elements that make up jazz. The role of jazz in American history is explored, and various musical trends that contributed to jazz are traced. L, C

Women, Music, and Society
MUSC 4900 3 cr. 3 hr.
This course looks at the contributions of significant women in music. Compositions by women from different cultures are examined as a reflection of the social, political and economic conditions. Elements of form, structure, and historical style are studied from antiquity to modern times in musical genres such as symphony, opera, chamber music, song, and solo repertoire. L

Harmony I
MUSC 4500 3 cr. 3 hr.
The course involves the harmonization of simple melodies and studies principles of modulation and key relationships. L

Harmony II
*MUSC 4510 3 cr. 3 hr.
The course covers further work in modulation, including chromaticism and 19th and early 20th century developments. L

Independent Study in Music
MUSC 4901-3 1-3 cr. 1-3 hr.
The Independent Study is for selected students who have approval of both the department head and their advising Instructor.

Internship in Music
MUSC 4940 3 cr. 3 hr.

Directed Study
MUSC 4975 1-6 cr.

Foundations
NURS 2700 5 cr. 9 hr.
This course is designed to be the foundation for nursing knowledge and clinical laboratory experiences. Content emphasis is placed on professionalism, caring, communication, cultural considerations, spirituality, sexuality and health promoting activities. Students will complete on-campus laboratory experiences focusing on basic skills. Prerequisites: ENGL 1200, PSY 1100, SOC 1100, BIOL 1200 and 1300, CHEM 1100 and 1200. Pre or corequisites: NURS 2300 and PSY 2200.

Medical-Surgical Nursing I
NURS 2900 5 cr. 9 hr.
This course teaches core concepts in the nursing care of adults with common health alterations. The development of critical thinking skills is emphasized. Nursing care is presented using a nursing process framework. Clinical experience occurs in sub-acute care agencies. Prerequisites: NURS 2500 NURS 2700 and PSY 2200, Pre or corequisites: NURS 2300 and 2600.

Nursing Care of the Child Bearing Family
NURS 2910 5 cr. 9 hr.
This course is designed for Registered Nurse students examines current concepts and nursing interventions for the care of prenatal, intrapartal, and postpartum women and neonates. RN students may exempt by exam. Prerequisites: ENGL 1200, BIOL 1200 and 1300, BIOL 2700, PSY 2200, SOC 1100.

Core Concepts of Mental Health Nursing
NURS 3200 5 cr. 9 hr.
This course teaches psychiatric and mental health nursing concepts for individuals experiencing health alterations. Course work will teach the student to identify contemporary and historical explanations and the etiology and treatment of individuals experiencing psychiatric and mental health disorders. Students will analyze the influence of culture, society, values, beliefs, perceptions, and environment on the behaviors exhibited by individuals, families, groups, and providers with psychiatric and mental health issues. Clinical experience occurs in acute and/or community care agencies. Prerequisites: NURS 2300, 2600, and 2900, BIOL 1650 and 2700.

Maternal-Newborn Nursing
NURS 3300 5 cr. 9 hr.
This course teaches the theoretical foundation and clinical experience to care for the childbearing family. Health promotion of the developing family is emphasized in both community and hospital settings. Care of the high risk mother and neonate are included. Concepts of family theory and dynamics are expanded. Clinical experience occurs in acute and/or chronic care agencies. Prerequisites: NURS 2300, 2600, and 2900, BIOL 1650 and 2700.

Medical-Surgical Nursing II
NURS 3400 5 cr. 9 hr.
This course teaches the nursing care of adults with acute medical and surgical conditions. Holistic care of clients with respect for diversity is stressed. The nursing process is used as a framework to guide content. Clinical experience occurs in acute care agencies. Prerequisites: NURS 2300, 2600, and 2900, BIOL 1650 and 2700.

Concepts of Nursing I
NURS 3500 5 cr. 9 hr.
This is one of two courses designed to provide advance placement for the registered nurse student that can be taken either semester or concurrently with Nuring Concepts II. The evolution and development of theoretical models of nursing as well as other historical precedents are investigated. The focus of the clinical component is utilization of the functional health pattern format to assess the health status of clients and the development of a nursing history. Prerequisites: CHEM 1100, CHEM 1200, ENGL 1200, BIOL 1300, BIOL 2700, PSY 1100, PSY 2200, SOC 1100, pre or co-requisite ACE II Exams or equivalent.
Community Health Nursing
NURS 4400 5 cr. 9 hr.
This course teaches concepts as a basis for applying the nursing process with aggregate clients in the community. Special emphasis is placed on nursing care of vulnerable populations including: the homeless, people of poverty, minority populations, women and children, and older adults. Primary, secondary, and tertiary prevention are used when applying the nursing process in a variety of distributive care settings. Clinical experience occurs in community agencies.
Prerequisites: NURS 3600 or NURS 3200 3300, 3400 and 3900.

Chronic Illness
NURS 4750 4 cr. 8 hr.
This course teaches the application of nursing process with individuals and families in the home health care setting. Emphasis is placed on primary, secondary, and tertiary prevention.
Prerequisites: NURS 3600 or NURS 3200 3300, 3400 and 3900.

Selected Nursing Practicum
NURS 4800 10 cr. 26 hr.
This capstone course offers opportunities for in-depth exploration of an area of nursing interest. Nursing process with clients experiencing complex health problems, leadership and management principles, and professional issues are integrated into clinical practice. A preceptor model is used to facilitate increased independence in professional practice.
Prerequisites: NURS 4000, NURS 4400, and 4750.
Co-requisite: NURS 4850.

Leadership and Management Concepts for Nursing Practice
NURS 4850 2 cr. 2 hr.
This course teaches concepts underlying professional career development in nursing. The roles of the nurse as manager of client care, as part of a health care institution hierarchy, and as a member of a professional collective are explored.
Prerequisites: NURS 4000, NURS 4400 and 4750.

Independent Study
NURS 4901 1 cr. 1 hr.

Independent Study
NURS 4902 2 cr. 3 hr.

Independent Study
NURS 4903 3 cr. 3 hr.

Directed Study
NURS 4975 1-6 cr.

Occupational/Vocational Education
These courses are only offered through Continuing Education.

Seminar for the Beginning Vocational Technical Education Teacher
OCED 2500 3 cr.
Designed to prepare new vocational technical teachers for their first teaching assignment, the characteristics of an effective teacher as well as the tools required by first year teachers to be successful will be explored. These include techniques for establishing effective classroom routines, student instruction and assessment, and maintaining a positive classroom/shop/lab environment that conveys high expectations. Students also will learn to identify the elements of a course/program curriculum, as well as how to develop a lesson plan, assign and grade homework and collaborate with colleagues to improve instruction, assessment and student achievement.

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDIS: Interdisciplinary courses
M: multicultural and interdisciplinary courses also fulfill a cluster designation.
* Asterisk indicates that the course may fulfill a cluster designation.
Multicultural and interdisciplinary courses also be offered less than once every two years.

Undergraduate Evening School

Undergraduate Day School

Zipchburg State College 173
Teaching Methods: Instructional Strategies in Vocational Technical Education
OCED 2516 3 cr.
Theories and techniques of instruction are examined. Topics covered include proficiency in the application of learning theories, strategies, techniques and the methodology involved in the delivery of specific courses of study. Additional themes include the competency-based vocational technical lessons, lesson plan design, developing behavioral standards, classroom management and the coordination and evaluation of student learning. Note: This is a required course for candidates seeking Massachusetts Department of Education approval as a Vocational Technical Instructor.

Teaching Methods: Educating the Vocational Technical Learner
OCED 2518 3 cr.
This course examines the development of Special Needs Programs with an emphasis on the identification and understanding of special needs students in vocational schools. Particular attention is given to teaching techniques and administrative organization patterns utilized in a vocational school. Note: This is a required course for candidates seeking Massachusetts Department of Education approval as a Vocational Technical Instructor.

Management of the Vocational Technical Environment
OCED 2520 3 cr.
All aspects of student record keeping regarding task performance, evaluation of job performance, classroom/shop management techniques, health and safety issues pertaining to vocational programs, curriculum development and implementation that address a wide range of learning styles, and Vocational/Technical Chapter 74 Program guidelines are emphasized.

Students with Special Needs in Vocational Technical Education
OCED 2522 3 cr.
This course traces the development of special needs programs with emphasis on the identification and understanding of special needs students in vocational schools. Particular attention is given to teaching techniques and administrative organization patterns utilized in a vocational school. Note: This is a required course for candidates seeking Massachusetts Department of Education approval as a Vocational Technical Instructor or Special Ed/Voc Ed Mini-approval.

Competency Based Vocational Technical Curriculum Development
OCED 2529 3 cr.
This course is designed to enable teachers to identify competencies within their respective vocational technical program areas. It further discusses techniques to enable teachers to develop, evaluate, and verify competencies. Note: This is a required course for candidates seeking Massachusetts Department of Education approval as a Vocational Technical Instructor.

Teaching Methods for Vocational Technical Education - Instructional Strategies
OCED 2530 3 cr.
Intended for the undergraduate student pursuing teacher certification in Vocational Education. Students will be introduced to the latest, accepted methods of teaching and how to employ them effectively in the vocational instructional environment. Students will develop skills necessary to teach Vocational High School students in the classroom/ laboratory setting.

Brain Compatibility: Teaching and Learning
OCED 2547 3 cr.
Researchers have learned more about the brain and learning in the last decade than in previous recorded history. This course is designed to provide educators with a review of brain research relevant to learning styles on any grade level and to allow teachers to apply specific brain-compatible methods in their classroom and laboratory situations. This area of study is critical to the task of serving students properly. Proficiency in applying brain research to the planning and delivery of instruction is gained through this course. Note: This is a required course for candidates seeking Massachusetts Department of Education approval as a Vocational Technical Instructor.

Teaching Methods for Vocational Technical Education - Educating & Assessing the Vocational Technical Education Learner
OCED 3510 3 cr.
Emphasis will be given on how to deliver effective instruction by means of a variety of methodologies to reach each student. Participants in the course will deal with current legislation including No Child Left Behind, NCLB, and the state mandated standardized test, Massachusetts Comprehensive Assessment System, M CAS. They will examine the importance of developing essential learning goals in relation to effective assessment and review the theory of multiple intelligences and the necessity of creating assessment tools that measure students’ growth using a variety of methods.

Fundamentals of Vocational Technical Education
OCED 3517 3 cr.
This course examines the history and philosophy of vocational technical education. The present state of Federal vocational education; Chapter 731, Child Labor Laws; Chapter 622 and Title IX; and Chapter 766, State Vocational Council is covered. Additionally the course studies The National Center for Research in Vocational Education; and Federal Vocational Education Regulations.

Teaching Methods for Vocational Technical Education - Using Research-Based Practices to Develop Effective Instructional Strategies
OCED 3520 3 cr.
Recent findings in brain research have led to improved strategies in teaching students with varying learning styles. A review of the research and development strategies will improve and strengthen teaching skills. Required for certification for technical teachers.
Promoting Positive Social Behavior for Students with Special Needs in Vocational Education

OCED 3524 3 cr.
The course provides familiarity with the continuum of services required for students with special needs in all school settings. The modifications of approach and teaching techniques which make vocational education accessible to all students are discussed in depth. A case study is required of each student in the course.

Strategies and Methods for Teaching Special Needs Students Re: Vocational Education

OCED 3525 3 cr.
A practical approach to planning instruction for special needs students in the regular class within a vocational school setting. Using a framework for applying theory in practice, teachers develop and/or attempt strategies that are applicable to their classrooms.

Implementation and Evaluation of Education Plans for Students with Special Needs

OCED 3526 3 cr.
The course provides experience in interpreting educational prescriptions for implementation within vocational training programs. Each student designs an individualized instructional plan describing all materials, recommended methodology and techniques of evaluation.

Seminar and Practicum in Vocational Education/Special Education

OCED 3527 3 cr.
Students complete a practicum or internship in an approved setting for individuals with special needs. Students are assisted in implementing the various facets of their role within a given setting. Visitation are planned not only to observe the competencies being demonstrated but to meet with school administrators in defining the role and functions. Practicum seminar is designed to assist the total group in dealing with current concerns and issues and to allow students to learn from the experiences of each other.

Developing & Implementing a Standards-Based Curriculum in Vocational Technical Education

OCED 3530 3 cr.
Upon completion of this course students will be able to conduct occupational research, develop program tasks, analyze tasks and design performance assessments. Using these skills students will be able to develop a standards-based curriculum or improve upon an existing curriculum. A required course to obtain vocational teacher licensure as required by Chapter 74 regulations.

Implementing a Competency Based Curriculum

OCED 3539 3 cr.
This course is designed to provide teachers the tools needed to successfully implement a competency based program. Teachers demonstrate competency in revising learning guides and task listings. A management system to evaluate student achievement and maintain competency profiles is examined. Teachers are introduced to the principles of integrated and applied learning to assist them in bridging the vocational and academic competencies required by their students. Activities culminate in the production of a revised/adaptive curriculum for a specific vocational technical program area.

Note: This is a required course for candidates seeking Massachusetts Department of Education approval as a Vocational Technical Instructor.

Computerized Vocational Technical Curriculum Management

OCED 3545 3 cr.
This course is designed to introduce the vocational technical educator to the microcomputer as a tool for curriculum, classroom record keeping, and planning. Students adapt, modify, and incorporate the excellent curricular resources developed within Massachusetts, including CBVE, MSCP, and others into practical learning applications utilizing the computer. In addition to hands-on experience with a microcomputer, the course enables participants to blend classroom and laboratory learning with an emphasis on integrated software and its application within a vocational technical setting.

Integrated Vocational Technical and Academic Curriculum

OCED 3546 3 cr.
This course shares, explores, and investigates Massachusetts developed curricular resources, including CBVE, MSCP, Model Academic Project, LAPS, as well as nationally devised curriculum, including Principles of Technology, CBE, and others. This learning activity examines the eight methods (academic infusing, cross-articulation, vocational/technical relevance, content alignment, the academy model, specialized courses/programs, employability/career path skills and the culminating/senior project) for integration identified by the National Center for Research in Vocational Education at the University of California at Berkeley.

Assessment Standards and Evaluation

OCED 3549 3 cr.
Participants explore strategies for establishing student performance criteria, assessing student knowledge and attitudes, evaluating hands-on skills and determining student grades. Topics include identifying and examining existing standards and social equity in educational assessment. Methods for linking competency designed instructional objectives to evaluation and measuring instruments are reviewed, including factors related to reliability and range.

Addressing the Needs of Students with Disabilities in Vocational Technical Education

OCED 3700 3 cr.
Particular attention will be given to a general review of state and federal regulations pertinent to the vocational special needs population. Students will be introduced to the various categories of exceptionality, including the characteristics, definitions, prevalence, etiology, educational approaches and strategies. New trends in vocational technical education will be discussed as well as needed changes under educational reform to meet the ever present demands such as MCAS.

Key to Course Offerings

Q: Designates courses in the Quantitative Scientific Cluster
I: The Ideas and Events Cluster
B: The Human Behavior Cluster
L: The Literature, Language, and Arts Cluster
C: Multicultural

IDIS: Interdisciplinary courses
M: Multicultural and interdisciplinary courses also fulfill a cluster designation.
• Asterisk indicates that the course may be offered less than once every two years.
▲ Undergraduate Day School
● Undergraduate Evening School

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as Topics courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Supervised Practicum in Vocational Education
OCED 4534  3 cr.
A practicum is a modified teaching placement in a vocational technical school or equivalent field-based experience. Candidates function as "pre-approved" instructors with responsibility for demonstrating ability to implement various teaching models, familiarization with school policies, classroom management techniques, and the coordination of educable training resources. Teaching is supervised by a cooperating teacher and monitored and evaluated by a college instructor. Practicum participants design competency-based lesson plans, participate actively in seminar discussions, and complete a research assignment on educational reform. Eligible practicum time requirements: 5 hours/day x 3-4 days x 6 weeks.

Advanced Computerized Vocational Technical Curriculum Management
OCED 4595  3 cr.
This course provides an orientation and application of Lotus 1-2-3 for the vocational technical setting. This software is a recognized leader in the microcomputer spreadsheets market with its ease of use, size, and power. Students learn through hands-on experience how to plan, design, implement and perform analyses utilizing a microcomputer and Lotus 1-2-3. Additionally, a historical view of spreadsheets and their impact on the manner in which effective organizations operate in the planning, creating, saving, and printing of data is emphasized. Participants interpret data using database functions and by creating and printing graphs.

Note: This course may be used as a computer science cluster requirement.

Peace Studies

Introduction to Peace Studies
IDIS 1900  3 cr. 3 hr.
In this introduction, the field of Peace Studies, an inter-disciplinary approach, the students will explore conflict—its origins, management, ramifications, and attempts to move beyond it. Conflict will be explored on the individual, group, national, and international levels. I, IDIS

Dilemmas of Peace and War
IDIS 2100  3 cr. 3 hr.  ▲●●●●
I, L, C, IDIS

"Origins of Conflict" Electives
IDIS 1200 Intro to International Studies  ▲●●●●
IDIS 1800 Global Issues  ▲●●●●

SOC 3000 Social Stratification  ▲●●●●
POL S 2200 International Relations  ▲●●●●
POL S 3800 Third World Politics, Economics and Society  ▲●●●●
PSY 2250 Psychology of Women  ▲●●●●
PSY 2400 Psychology of Captivity  ▲●●●●

"Vision of Peace" Electives
PHIL 3610 World Religions  ▲●●●●
PSY 2370 Interpersonal Effectiveness  ▲●●●●
PSY 2550 Group Dynamics  ▲●●●●
PSY 2750 Small Group Leadership  ▲●●●●
SOC 2250 Cultural Anthropology  ▲●●●●

Philosophy

Introduction to Western Philosophy
PHIL 1000  3 cr. 3 hr.  ▲●●●●
The course serves as an introduction to the problems, methods, and goals of classical and contemporary Western Philosophy. Emphasis is placed upon how these differ from and relate to other fields of human knowledge. I

Logic
PHIL 1100  3 cr. 3 hr.  ▲●●●●
The course introduces techniques for analyzing the structure and validity of arguments in a natural language, such as English, as well as the concepts and principles of validity. Emphasis is on truth-functional and quantification inference, and a procedure in formal systems. L, Q, IDIS.

Philosophy of Education
PHIL 2000  3 cr. 3 hr.  ▲●●●●
This course seeks to trace the origin and development of major educational theories and their contemporary implications. I

Theories of Knowledge
PHIL 2200  3 cr. 3 hr.  ▲●●●●
The problems and methods of human knowledge are explored. Theories are presented in the light of idealism, realism, pragmatism, and existentialism. I

American Philosophy
PHIL 2440  3 cr. 3 hr.  ▲●●●●
The course presents a study of American thought from the Colonial Period to the present. I

Contemporary Ethical Problems
PHIL 2500  3 cr. 3 hr.  ▲●●●●
The nature of values and morality. Application of ethical theory to such controversial moral issues as criminal punishment and the death penalty, abortion, euthanasia and suicide, the ethical treatment of animals, poverty and the distribution of wealth, prejudice and discrimination, affirmative action, civil disobedience, and war. I

Contemporary Ethical Systems
PHIL 2550  3 cr. 3 hr.  ▲●●●●
A critical examination of the major ethical theories in classical and contemporary philosophy including Aristotelian perfectionism, Aquinas' natural law ethics, Kant's deontological ethics, Bentham and Mill's utilitarianism, existentialism, emotivism, and personalism. Topics covered include values and facts; morality and ethics; objectivism, subjectivism, and relativism; ethics and science; and ethics and religion. I

Philosophy of Human Nature
PHIL 2600  3 cr. 3 hr.  ▲●●●●
The course provides an exploration of human nature or personhood from the triple perspectives of philosophy, religion, and behavioral science. The class focuses on the following thinkers and movements: Plato, Christianity, early modern individualism, Marxism, Freud, existentialism, Frankl's logotherapy, Skinner, Fromm's humanism and personalism. I, B, IDIS.

Ancient and Medieval Philosophy
PHIL 3310  3 cr. 3 hr.  ▲●●●●
The course studies the beginnings of Western Philosophy, including the pre-Socratics, Plato, Aristotle, and several other thinkers of the period. I

Prerequisite: PHIL 1000 or PHIL 2600.

Renaissance and Modern Philosophy
PHIL 3330  3 cr. 3 hr.  ▲●●●●
The course explores trends of thought from fourteenth century nominalism through the Renaissance to Continental Rationalism and British Empiricism. I

Prerequisite: PHIL 1000 or PHIL 2600.
**Contemporary Philosophy**  
PHIL 3340  
3 cr. 3 hr.  
- The course provides an examination of some current trends and issues in contemporary American, British, and European philosophy.  
I, IDIS

**Philosophy of Religion**  
*PHIL 3600  
3 cr. 3 hr.  
- The nature of religious experience and the problem of God's existence as seen in classical Western theism and process philosophy. Differences between Western and Eastern religion, and between religion and science.  
Prerequisite: PHIL 1000 or PHIL 2600.

**World Religions**  
PHIL 3610  
3 cr. 3 hr.  
- This course studies the principal world religions, including Buddhism, Christianity, Islam, Hinduism, and Judaism. Emphasis is placed on their basic tenets and insights into spiritual values. I, C

**Philosophy of Art**  
*PHIL 4100  
3 cr. 3 hr.  
- The nature of beauty and aesthetic experience, especially as embodied in the arts. Relation of aesthetic experience to moral and technological experience. Survey and critical evaluation of different theories of aesthetics in Western philosophy. Synthesis of subjective and objective theories. I

**Philosophy of Science**  
*PHIL 4300  
3 cr. 3 hr.  
- The course analyzes the methods and goals of the physical sciences, how they differ from the social sciences, and the philosophic problems encountered in scientific pursuits. I

**Philosophy of Language**  
*PHIL 4400  
3 cr. 3 hr.  
- This course is the study of theories about structure and meaningfulness of language, especially in twentieth century Anglo-American thought. I

**Marxism**  
*PHIL 4430  
3 cr. 3 hr.  
- Origins, development, and contemporary application of Marx's thought are explored. The course attempts to provide an understanding of society and history by a philosophy identified with political economy. I, IDIS.

**Philosophy of Love**  
PHIL 4500  
3 cr. 3 hr.  
- The course analyzes the concept “love” as employed in the social and moral philosophies of various classical and contemporary thinkers. I

**Ethical Issues in Business**  
PHIL 4700  
3 cr. 3 hr.  
- The first objective of the course is to develop proficiency in the identification and analysis of ethical issues as they arise in business. The second objective is to acquaint the student with some specific ethical problems currently faced by business men and women: whistle-blowing, discrimination, truth in advertising, product safety and the environment. Both theoretical and actual cases are studied as well as two current ethical theories. I

**Independent Study**  
PHIL 4903  
3 cr. 3 hr.  
- The Independent Study is open to students who have permission of the supervising instructor and the Department chairperson. Course of study, meetings, and credit are arranged with approval.

---

**Physics**

**Physical Science I**  
PHYS 1100  
3 cr. 4 hr.  
- This course is designed to help non-science students in developing a meaningful and functional understanding of key physical science concepts and methodology. Topics include light, color, and electricity. The course is taught with a combination of lectures, group discussions, and learning-by-doing activities. The emphasis is to provide students with open-ended problem solving environments that facilitate insight into the nature of science as an intellectual activity, and to encourage students to explore alternate conceptions of physical phenomena. Q

**Physical Science II**  
PHYS 1200  
3 cr. 4 hr.  
- This course is designed to help non-science students in developing a meaningful and functional understanding of key physical science concepts and methodology. Topics include motion, force, heat, energy, and nature of matter. The course is taught with a combination of lectures, group discussions, and learning-by-doing activities. The emphasis is to provide students with open-ended problem solving environments that facilitate insight into the nature of science as an intellectual activity, and to encourage students to explore alternate conceptions of physical phenomena. Q

**Environmental Physical Science**  
*PHYS 1250  
3 cr. 4 hr.  
- The course studies the environment, the effects of pollution on the environment, ecosystems, and natural balance. Relevant background material in physical science is taught as needed.  
Prerequisites: PHYS 1100, GEOG 1300, or equivalent.

**General Physics I**  
PHYS 2300  
4 cr. 5 hr.  
- This first-semester general college physics course consists of studies in the principle and application of classical mechanics, waves, sound, and heat. Typical topics include description of motions, Newton's laws of motion, Kepler's law of planetary motion, universal gravitation, work and energy, conservation laws, temperature, heat, and laws of thermodynamics. Q  
Prerequisite: MATH 1300 or equivalent.

**General Physics II**  
PHYS 2400  
4 cr. 5 hr.  
- This second-semester general college physics course consists of studies and applications of wave motions, sound, electricity, magnetism, light and optics. Typical topics include Coulomb's law, electric force and field, potential and capacitance, electric circuits, magnetic force and field, magnetic forces on moving charges, electric induction, laws of reflection and refraction, mirrors and lenses, optical instruments, interference and diffraction of light. Q  
Prerequisite: MATH 1300 or equivalent.

**Physics for the Life Sciences**  
*PHYS 3150  
4 cr. 6 hr.  
- The class serves as an introduction to Physics. Class work includes a brief treatment of force, work, and energy with an emphasis on the nature of waves, optics, and electricity.

---

**Key to Course Offerings**
- Q: designates courses in the Quantitative Scientific Cluster  
  - I: the Ideas and Events Cluster  
  - B: the Human Behavior Cluster  
  - L: the Literature, Language and Arts Cluster  
  - C: Multicultural  
  - IDIS: Interdisciplinary courses  
  - M: multicultural and interdisciplinary courses also fulfill a cluster designation.  
  - ▲ Asterisk indicates that the course may fulfill a cluster designation.  
  - Multicultural and interdisciplinary courses also be taught as “Topics” courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
### Plastics Technology

These courses are only offered through Continuing Education.

#### Blueprint Reading
**PLAS 1010** ▲
This course introduces the basic concepts of blueprint reading and discusses types of lines, angles, and views of a drawing. The student also learns about dimensioning circles, arcs, holes, and threads. Emphasis is on understanding how to interpret a blueprint; with time permitting, students learn how to draw a blueprint.

#### Industrial Electrical Maintenance
**PLAS 1030** ▲
This course covers the concepts of electrical trouble-shooting of injection molding machines and associated equipment. Familiarization with basic electricity symbols, blueprint reading, meters used for trouble-shooting, conventional and solid ladder diagrams/schematics, and trouble-shooting is stressed. Programmable Logic Controls (PLC) are examined.

#### Mold Design
**PLAS 2020** ▲
This course examines the interrelation of plastics material processing, product design and function, and mold design and construction. Fundamental principles of cavity design, material feed systems, ejection systems, parting surfaces, mold actions, cavity and core steel selections, 3-plate, insulated runner, and hot runner molds are discussed.

*Prerequisite: PLAS 1010.*

#### Hydraulics/ Pneumatics
**PLAS 2040** ▲
This course involves a theoretical and practical study of hydraulics and pneumatics, the modern means of power transmission. Following an introduction to hydraulics and pneumatics, a study is made of valves, pumps, circuits, and trouble-shooting any hydraulic system.

*Prerequisite: PLAS 1010.*

#### Injection Molding
**PLAS 2050** ▲
The reciprocating screw injection molding machine; the components of injection molding machines; the molding cycle; melting and flow theory, including gate seal-off, basic trouble shooting and process effects are examined. The students have hands-on laboratory experience and are responsible for a class presentation.

#### Principles of Supervision
**PLAS 2070** ▲
The purpose of this course is to develop an understanding of the role and responsibilities of the supervisor and to strengthen values and skills related to key supervisory functions. The principles and topics addressed include problem solving, decision making, leadership, management ethics, and communication. This course is recommended for experienced and new supervisors and those aspiring to supervisory positions.

#### Polymeric Materials, Design, and Application
**PLAS 3060** ▲
This course provides comprehensive coverage of polymeric materials, plastic design, and test methodology. Material properties, characteristics, and application are presented for injection molded thermoplastic resins. A discussion of polymer blends and compounds using fillers, additives, and reinforcing fibers are included. Property identification and the associated test procedure are reviewed with hands-on testing provided for the major properties. In addition, plastic product design techniques and application are discussed to complement the discussion of materials.
Statistical Process Control
POLS 3080 3 cr.
The student learns the use of Statistical M ethods and S.P.C. to improve quality and productivity through measurement, control, and reduction of variation in the process. Topics covered include: basic statistics, the normal distribution, control chart theory, process capability studies and gage and measurement analysis. Simple metrology concepts and the basics of geometric dimensioning/ tolerancing are also covered.

Political Science

United States Government
POLS 1000 3 cr.
In M odern American Government, the major political institutions, such as the Presidency, the Congress, and the Supreme Court, are examined. Their constitutional antecedents and their modern functions are presented. Special attention is given to the current bureaucracy, elections, and the political actors in the election process.

Introduction to Political Science
POLS 1100 3 cr.
This course represents an introduction to the field of political science. Political science is the study of how people interact with one another in their communities, whether they are as small as the Fitchburg State College campus, or as large as the entire global community. The course is divided into the following three sections, each of which represents an important sub-field within the discipline: political philosophy, American government, and international politics.

State and Urban Government
POLS 1500 3 cr.
The class focuses upon current issues and politics in urban and state government and attempts to evaluate proposed solutions to issues.

Global Issues
IDIS 1800 3 cr.
This course examines the interdependency of the world's nations by focusing on current events in the international arena and issues such as ozone depletion, pollution, the global economy, conflict and cooperation, population and hunger. I, IDIS, C

Contemporary International Relations
POLS 2200 3 cr.
The course studies critical problems confronting the present international system. The "Cold War," armed conflict, internal violence, as well as prospects for the resolution of conflict are explored.

Introduction to the Legal Process
POLS 2270 3 cr.
This course serves as an introduction to the American legal system. Emphasis is placed on how courts and lawyers function, how cases are decided, and the means by which courts interpret legislation. Special attention is given to the current bureaucracy, elections, and the political actors in the election process. I

Political Systems of the Modern World
POLS 2500 3 cr.
The course provides a comparative analysis of modern national governments. The importance of the world's political heritage and the implications for the emerging nations of liberal democracy, communism, and dictatorship are explored.

Sex, Race and the Constitution
POLS 2550 3 cr.
This course examines the long history of discrimination in the United States on the basis of race and gender. It examines in detail the guarantee of equal protection of the law found in the 14th Amendment to the Constitution and how the meaning of what is equal have evolved over time. Topics covered will include how to define and measure equality, affirmative action, racial preferences in college admissions, voting rights, distinction based on gender, equality based on physical differences between men and woman, the evolution of the right of privacy, abortion, and sexual harassment. I, IDIS
Prerequisites: POLS 1000 or POLS 1100 or CJ 2000.

The First Amendment
POLS 2600 3 cr.
This course examines the basic rights and freedoms derived from the First Amendment to the Constitution. The course will examine in depth great controversies of freedom of speech, press, and religion. Topics covered will include protection for hate speech, speech codes on college campuses, prior restraints on the press, and free exercises of religion, and governmental limitations on the establishment of religion.
Prerequisites: POLS 1000 or POLS 1100 or CJ 2000.

Criminal Procedure: Rights of the Accused
POLS 2700 3 cr.
This course examines the basic rights and freedoms derived from the portions of the Bill of Rights addressing criminal procedure. The course will examine in depth the 4th, 5th, 6th and 8th Amendments to the Constitution. Topics covered will include protection against unreasonable searches and seizures, self-incrimination, double jeopardy, due process of law, the right to counsel, to confront witnesses, trial by jury, and the meaning of cruel and unusual punishment.
Prerequisites: POLS 1000 or POLS 1100 or CJ 2000.

Public Policy Analysis: Case Studies in American Politics
POLS 3000 3 cr.
The course covers four major divisions of public policy: health, education, labor, and welfare. The aim is to attain an understanding of how the American political system works through a study of the policy that has come out of that system.
Prerequisite: POLS 1000 or POLS 1500.

The Conduct of American Foreign Policy
POLS 3400 3 cr.
With the collapse of the Soviet Union, the United States has been left as the only global superpower. As a result, American policies around the globe, and responses to such global issues as the environment, human rights, or nuclear proliferation, have become increasingly significant on a national and international level. This course will introduce students to American foreign policy.

Constitutional Law
POLS 3500 3 cr.
Constitutional Law is the product of interpretation, power, and political calculation. The collusion and collision of these forces produces the parameters of our governmental system. The U.S. Supreme Court over the years has issued many decisions which have fundamentally shaped and altered the scope and distribution of government authority. This course is the study of the product of these decisions and the shaped our current system of government.
Prerequisites: POLS 1000 or POLS 1100 or POLS 2000.

Key to Course Offerings
Q: designates courses in the Quantitative Scientific Cluster
I: the Ideas and Events Cluster
B: the Human Behavior Cluster
L: the Literature, Language and Arts Cluster
C: Multicultural
IDIS: Interdisciplinary courses
M: Multicultural and interdisciplinary courses also fulfill a cluster designation.
* Asterisk indicates that the course may be offered less than once every two years.
U: Undergraduate Evening School
U: Undergraduate Evening School
Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Asian Politics and Culture
POLS 3700 3 cr. 3 hr.
This course introduces the politics and culture of three major Asian states: China, Japan, and India. It begins with their philosophy, history, and society to give students a basic understanding of the Asian peoples and then, approaches their politics.
Prerequisites: IDS 1200 or IDS 1800.

Third World Politics, Economics, and Society
POLS 3800 3 cr. 3 hr.
The course represents an introduction to the developing nations of Africa, Asia, and Latin America. These developing nations have a significant impact on global politics. Through an examination of the history, politics, economics, and societies of these nations, the students will gain a greater understanding of the developing world.
Prerequisites: IDS 1200 or IDS 1800.

Moot Court
POLS 4350 3 cr. 3 hr.
In this course, students will intensively study a specific area of law for the purpose of arguing in a moot court competition. Moot court involves teams of student-contestants, “clients” burdened by a legal problem, briefs and oratory detailing the dimensions of the legal problem before an appellate court, and the judging of performances by panels of faculty and attorneys. The top teams emerging from this course will be eligible to represent the college at the national tournament.

Independent Study in Political Science
POLS 4900 3 cr. 3 hr.
The Independent Study is open to students who have the permission of the supervising instructor and the department. The course of study, meetings, and credit are arranged upon approval.

Legal Internship
POLS 4905 3 cr. 10 hr.
Internships are available in several regional law offices for those persons interested in paralegal work. These internships prepare students for positions in law offices, public administration, and other human services work.

Legal Internship
POLS 4915 6 cr. 20 hr.
(See description above.)

Legal Internship
POLS 4920 9 cr. 30 hr.

Legal Internship
POLS 4925 12 cr. 40 hr.
(See description above.)

Internships in Political Science
POLS 4940 3-12 cr.
Off-campus opportunities, carrying appropriate academic credit, are available in local, state, and federal government offices and with political campaigns. Internships are open to students who have the permission of the department. Credit and hours are arranged by special permission.

Directed Study
POLS 4975 1-6 cr.

Psychology

General Psychology
PSY 1100 3 cr. 3 hr.
The course introduces the student to the contemporary discipline of the science of human behavior and mental processes. Topics investigated include the scientific method, biological bases of behavior, maturation, motivation, emotions, learning, personality, and adjustment. The course is a prerequisite for all other courses in Psychology.

Introduction to Research Methods
PSY 2110 3 cr. 3 hr.
The emphasis in this course is on research design, including consideration of sampling procedures, questionnaire design, methods of observation, and reporting.
Prerequisite: PSY 1100.

Psychological Statistics
PSY 2120 3 cr. 3 hr.
This course expands upon the mathematical concepts introduced in Math 1700. Descriptive statistics are reviewed and inferential statistics are introduced. Analyses considered include t-tests and analysis of variance up to and including factorial designs. Computer analysis is also emphasized. The class meets partial LAS requirement for computer literacy in Psychology major.
Prerequisites: PSY 1100, PSY 2110, and MATH 1700.

The Psychology of Speech and Communication
PSY 2160 3 cr. 3 hr.
This course provides information for judging speech behaviors of self and others. Topics such as concepts of speech, language and communication, effective speaking and listening behaviors, nonverbal communication, animal communication, linguistic and psycholinguistic theory are covered. The class meets LAS speaking and listening requirement for the Psychology major.
Prerequisite: PSY 1100.

Human Growth and Development
PSY 2200 3 cr. 3 hr.
This life-span course emphasizes a study of the physical, physiological, social, and psychological development of the individual from conception to old age.
Prerequisite: PSY 1100. (Cannot be used as credit toward the major, but may be used for the minor)

Child Psychology
PSY 2210 3 cr. 3 hr.
This course offers an introductory overview of the developing child from conception through preadolescence. Theories and research are used to lay the foundation for the study of the physical, cognitive, social, and emotional development of the child. Also considered are such topics as attachment, moral development, language acquisition, and genetic and environmental influences on development. This course meets the Office for Children requirement for Category-A daycare certification.
Prerequisite: PSY 1100.

Adolescent Psychology
PSY 2230 3 cr. 3 hr.
Adolescence as a stage of development and as a cultural phenomenon is investigated in this course. The influence of physical, cognitive, and psychosocial factors on the adolescent's search for identity is examined. Emphasis is on an interdisciplinary approach that draws on relevant theories and research from a wide range of fields.
Prerequisite: PSY 1100.

Adult Development
PSY 2240 3 cr. 3 hr.
This course introduces the student to theories and research for the periods of young and middle adulthood. Physical, mental, and personality processes are covered, as well as issues and problems of research in adult development. Application of this knowledge to adults in their relationships and in their work settings is stressed.
Prerequisite: PSY 1100.

Psychology of Women
PSY 2250 3 cr. 3 hr.
Objectives of this course include an increased awareness of the psychological development of women and of the dimensions of self and personhood in relation to society. The examination and analysis of issues relative to current debate concerning the status of women is explored.
Prerequisite: PSY 1100.
### Gerontology: The Psychology of Growing Old
**PSY 2260 3 cr. 3 hr.**
This course examines the developmental changes, including both gains and losses, which occur in the later part of life span. The course focuses on theory and research related to biological, physical, cognitive, and psychosocial changes that occur in late life. The emphasis is on understanding the normal aging process. Research methods and design used to study aging are also covered. 

**Prerequisite:** PSY 1100.

### Psychology of Human Sexuality
**PSY 2280 3 cr. 3 hr.**
This course includes a study of the relationships among the various aspects of sexuality, including relationships, social norms, and cross-cultural variations in sexual behavior. 

**Prerequisite:** PSY 1100.

### Psychology of Personality
**PSY 2300 3 cr. 3 hr.**
Dynamic factors in personality formation are studied through some of the leading theoretical positions on personality development.

**Prerequisite:** PSY 1100.

### Psychology of Death and Dying
**PSY 2320 3 cr. 3 hr.**
Through lectures, readings, discussions, and media, students explore psychological theory, research, and personal feelings concerning the dying process, suicide, grief, sudden death, and dying as it influences persons at different developmental stages.

**Prerequisite:** PSY 1100.

### Abnormal Psychology
**PSY 2350 3 cr. 3 hr.**
The course reviews normal, neurotic, and psychotic behavior as well as methods of psychotherapy. Techniques for maintaining optimal psychological health are emphasized.

**Prerequisite:** PSY 1100.

### Interpersonal Effectiveness
**PSY 2370 3 cr. 3 hr.**
This is a lab-based course which introduces and develops interpersonal competence, particularly as it pertains to dyadic situations. Basic skill areas such as observation, listening, and questioning are addressed, as are integrative skills, such as conflict resolution and relationship development. Students are asked to become more aware of their own interpersonal behavior, and are introduced to the extensive research literature on interpersonal behavior. Applications in both the personal and the professional domain are addressed. The class meets LAS speaking and listening requirement for the Psychology major.

**Prerequisite:** PSY 1100.

### Psychology of Captivity
**PSY 2400 3 cr. 3 hr.**
This course deals with the effects of captivity on both the captive and the captor. Materials include films, tapes, interviews, first-person accounts, systematic studies of experiences, and the long-term consequences on persons involved as well as on their children.

**Prerequisite:** PSY 1100.

### Psychological Testing
**PSY 2450 3 cr. 3 hr.**
This course is designed to give students a broad understanding of the theory and use of psychological testing. Methods of test evaluation, analysis, and interpretation are presented. Standardized testing instruments used to measure human cognitive and affective factors are explored and their purposes reviewed.

**Prerequisite:** PSY 1100 and satisfaction of the math readiness requirement.

### Social Psychology
**PSY 2500 3 cr. 3 hr.**
This course provides an introduction to the study of human social behavior. Representative topics include attitudes and their formation, aggression, prosocial behavior, conformity, and interpersonal attraction, as well as group dynamics, structure, and leadership. The application of social-psychological research to contemporary social problems is also considered.

**Prerequisite:** PSY 1100.

### Group Dynamics
**PSY 2550 3 cr. 3 hr.**
The nature and dynamics of interpersonal relationships are revealed in typical group settings, such as classrooms, workshop seminars, and other discussion-oriented groups. Emphasis is on both content and process as demonstrated in a laboratory learning environment. The class meets LAS speaking and listening requirement for the Psychology major.

**Prerequisite:** PSY 1100.

### Small Group Leadership
**PSY 2570 3 cr. 3 hr.**
This course is designed to equip students for planning and conducting meetings requiring the coordination of small groups of people. Participants study and practice basic leadership skills applicable to a variety of small group settings. They develop and demonstrate these skills in the context of small group participation in class and as leaders of extra class groups. The class meets LAS speaking and listening requirement for the Psychology major.

**Prerequisite:** PSY 1100.

### Organizational Psychology
**PSY 2610 3 cr. 3 hr.**
This course examines organizational influences on motivation and satisfaction of the workforce. Methods of surveying organizational climate are introduced, and a variety of intervention methods are evaluated. Organizational experience in Japan, Western Europe, and the United States are analyzed and compared.

**Prerequisite:** PSY 1100.

### Work and the Individual
**PSY 2620 3 cr. 3 hr.**
This course considers the ways in which individuals meet their needs for growth and development, while the organization meets its needs for worker productivity. How the organization's needs affect workers and how workers react to these pressures are subjects studied. Topics include work as a basic human need, relationships with co-workers, interpersonal skills, uses of power influence, leading and motivating others, meeting personal needs (job satisfaction, adaptation to change, problems in adaptation (alcohol, drugs, lack of competence, etc.), stress management, and career development.

**Prerequisite:** PSY 1100.

### Human Factors/ Ergonomics
**PSY 2630 3 cr. 3 hr.**
Students develop the ability to fit the demands of people and work together. Competence is developed in tailoring work conditions and equipment to facilitate human performance and in identifying the skills required by the job.

**Prerequisite:** PSY 1100.

- Teaching as Topics courses (These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.)
Psychology of Human Resources
PSY 2645 3 cr. 3 hr.
This course addresses the psychological theory and research concerning human resource systems in organizations. The course covers methods of job analysis; development and use of assessment tools to select employees; performance measurement and appraisal; and employee training and development. The course also addresses the legal and ethical issues of discrimination in the work setting. B
Prerequisite: PSY 1100.

Organizational Leadership
PSY 2655 3 cr. 3 hr.
This course provides a treatment of the major issues in personnel psychology and emphasizes the psychological aspects of personnel systems. The focus of the course is on the psychological assessment of potential and current employees as a means for “fitting” workers into jobs. Emphasis is also placed on the employment discrimination issues that may emerge in the work setting and the use and interpretation of descriptive and inferential statistics in personnel decision making. B
Prerequisite: PSY 1100.

Learning Theory and Its Applications
PSY 2710 3 cr. 3 hr.
This course focuses on the principles and theories of learning, as derived by both the laboratory psychologist and the educational researcher. Those theories are applied to various social settings, including the classroom, the family, etc. B
Prerequisite: PSY 1100.

Tests and Measurements
PSY 2750 3 cr. 3 hr.
This course is a study of the basic statistical concepts and techniques of measurement. Emphasis is placed upon the application of these techniques to teacher-made tests and standardized tests used in education and psychology. B
Prerequisite: PSY 1100. (Cannot be used as credit toward the major but may be used for the minor.)

Principles of Guidance
PSY 2770 3 cr. 3 hr.
This course introduces students to the psychological theory and research underpinning practice in school guidance counseling. B
Prerequisite: PSY 1100.

Addictive Behavior
PSY 2950 3 cr. 3 hr.
This course is designed for students who plan a career in the helping professions (including education), or who wish to understand the cognitive, emotional, social and biological correlates of alcohol and other drug abuse, or other addictive behaviors. A framework is presented for viewing such compulsive behaviors as part of a continuum from “normal” to “dysfunctional,” and controversies in the field are discussed. Students will be exposed to models of addiction, a classification of drugs, prevention of alcohol and other drug abuse, and information necessary to work with clients who are affected by addiction, including assessment and diagnosis, modalities of treatment, the role of support groups and relapse prevention. In addition to lectures and class discussions, students are required to attend community support group meetings and to participate in a community prevention project (e.g., the Great American Smokeout). This course is cross-listed as HMSV 2950.
Prerequisite: PSY 1100.

Advanced Child Psychology
PSY 3220 3 cr. 3 hr.
This course explores in greater depth principles and theories learned in PSY 2110 and acquaints the student with methodology used in contemporary research in child psychology. Through assigned exercises and individual projects, students focus on selected issues in child development. Students work directly with children in applying the principles and techniques learned in the course. B
Prerequisites: PSY 2210 or PSY 2230, PSY 2110, PSY 2120, MATH 1700, a 2.5 cumulative average in Psychology and overall, and permission of Instructor. Strongly recommended: PSY 3140.

Experimental Psychology
PSY 3410 4 cr. 4 hr.
This course is an analysis and study of the scientific method, experimental designs, and laboratory methods in behavioral science, emphasizing laboratory experiments and scientific communication of results. Students design, analyze, and report their own research. Computer data analysis is also covered. The course meets LAS junior/senior writing requirement as well as LAS requirement for computer literacy in the Psychology major.
Prerequisites: PSY 2110, 2120, and MATH 1700; junior or senior standing in the major; permission of Instructor.

Physiological Psychology
PSY 3420 3 cr. 3 hr.
This course concentrates on the relationship between the nervous system and behavior. The experiments and theories of several disciplines that have contributed to this understanding are studied, including neuroanatomy, physiology, biochemistry and psychology. The course is designed to introduce and familiarize students with relevant information from each of these fields. Topics include hormones and sexual and aggressive behaviors; brain regulation of sleeping and dreaming; genetic, anatomical, physiological and neurochemical bases of emotions and mental disorders; biological, neural, and biochemical basis of learning and memory. Special emphasis is given to current research results in neuroscience and their implications for clinical application. B
Prerequisite: PSY 1100.

Perception
PSY 3430 3 cr. 3 hr.
In this course principles related to a person’s awareness of his or her world are studied. We specifically look at the relationship between the physical stimulus and the psychological experience that a person has. The questions we answer relate to the how and why we experience the word in the way that we do. In the process of studying sensation and perception we evaluate the nature of the physical stimulus (e.g., light); the physiological/sensory mechanisms necessary for the receptions, transduction and transmission of the physical information that is carried to the brain as a coded nerve impulse; and how the brain interprets the physical event as a psychological experience. Topics covered include principles of psychophysics, the anatomy/physiology of the visual, auditory, chemical (olfactory and gustatory) and tactile/cutaneous senses, the nature and properties of the physical stimuli that these senses respond to; and the factors that influence the interpretation of these senses such as culture, learning/experience, motivation, expectations and personality. Q, B, IDIS
Prerequisite: PSY 1100.

History and Systems of Psychology
PSY 3480 3 cr. 3 hr.
This advanced course provides a consideration of contemporary psychology as seen in its historical perspective. The development of psychological concepts and theories is traced from their antecedents in philosophy and the physical sciences.
Prerequisites: junior/senior standing, PSY 2110 and one course from the following: PSY 3420, PSY 3430, PSY 3500, PSY 3530, or PSY 3550.

Psychology of Learning
PSY 3500 3 cr. 3 hr.
This course focuses on principles and theories of learning, including classical conditioning, operant conditioning, verbal learning, and acquisition of motor skills.
Prerequisite: PSY 1100.
Motivation

PSY 3530 3 cr. 3 hr. ▲
Characteristics of motivated behavior, explanation of sources of motives, and application of theories to current research and interpersonal skills are studied in this course. Emphasis is on the biological, learned, and cognitive components of motivation. Topics include internal and external motives, the relationship of stress and motivation, the place of physiological processes in motivation, issues in motivation of others, motivation for aggressive/passive behaviors, and success/failure motivation. Prerequisite: PSY 1100.

Cognition

PSY 3550 3 cr. 3 hr. ▲
Serving as foundations for this course are the neuroscience of cognition and the historical roots upon which our present understanding of human information processing rests. Specific topic areas include attention, semantic and episodic memory, comprehension, categorization, language, problem-solving, and reasoning. Artificial intelligence and the emergence of cognitive science are also considered. Methodology is emphasized throughout the course as students consider classic research studies and apply various techniques in classroom exercises. Prerequisite: PSY 1100.

Teaching Practicum

PSY 4800 6 cr. 18 hr. ▲
Students assist an individual faculty member in the teaching of Psychology. Responsibilities vary with the course. The Teaching Practicum is offered by invitation of faculty only. Prerequisite: 3.0 cumulative average overall and in the major.

Practicum in Psychology

PSY 4810 3 cr. 9 hr. ▲
Students perform basic and applied work in Psychology. Students work with staff in areas of mutual interest. Prerequisite: PSY 1100.

Independent Study

PSY 4900 1-6 cr. 3-18 hr. ▲
This experience is offered primarily to Psychology students of junior or senior standing, and requires approval of the professor and of the Psychology Curriculum Committee. The student must petition the Psychology Curriculum Committee the semester prior to undertaking the Independent Study. Independent Study may take the form of special advanced reading programs, problem identification and research, assistantships, or for acquisition of professional skills. Under no circumstances is Independent Study substituted for regularly scheduled courses. Independent Study may be taken for 1 to 6 semester hours. Prerequisite: 3.0 cumulative average in the major.

Advanced Psychology Seminar

PSY 4920 3 cr. 3 hr. ▲
In this course students pursue advanced study in their discipline. Students complete a supervised research report and meet in a weekly seminar to discuss their projects and other research topics and issues. Prerequisite: PSY 2110, 2120, 3410, MATH 1700.

Internship in Psychology

PSY 4950 6 cr. 18 hr. ▲
Through an Internship the student experiences the relationship between courses in Psychology and their applications in the field. Work is carried on in settings approved by the department, faculty member, and an on-site supervisor. Internships are available in service agencies, business, and industry. Each Internship presupposes specific course background. Students are encouraged to discuss Internship plans with their advisors early in their college experience. Interested students must contact the Psychology Coordinator early in the prior semester of the year in which the Internship is desired. Business and industry Internships are offered only in the spring semester and some direct service Internships are available during the fall semester as well. Liability insurance is required of all students enrolled in this course. Prerequisite: 2.5 cumulative average overall and in the major; program approval.

Internship in Psychology

PSY 4960 12 cr. 36 hr. ▲
Please refer to the preceding description and prerequisites for PSY 4950.

Directed Study

PSY 4975 1-6 cr.

Russian

Russian for Beginners I

*RUSS 1000 3 cr. 3 hr. ▲
The correct pronunciation, reading ability, and fundamentals of grammar and syntax are taught in this class. Over the semester Russian gradually becomes the working classroom and laboratory language. L, C

Russian for Beginners II

*RUSS 1100 3 cr. 3 hr. ▲
L, C

Intermediate Russian I

*RUSS 2000 3 cr. 3 hr. ▲
The course involves remedial pronunciation, grammar review, conversation, and laboratory practice with Russian as the working language. Assigned readings stress USSR life, customs, and culture. Prerequisite: two years of high school Russian or RUSS 1100 and/or permission of instructor.

Intermediate Russian II

*RUSS 2100 3 cr. 3 hr. ▲
The course is a continuation of RUSS 2000.

Dostoevsky and Tolstoy (in English)

RUSS 2400 3 cr. 3 hr. ▲
This course provides an in depth comparative study of the two giants of Russian 19th century literature. Contrasts in biography themes and styles are examined. The class is facilitated through lectures and readings in English, a standard length paper, a midterm, and final examination. I, L, C, IDIS

Russian Literature in English

Translation

RUSS 2500 3 cr. 3 hr. ▲
The course is a seminar on a specific topic from Russian literature, such as Soviet Literature or the modern Russian novel. Lectures and readings in English emphasize significant works in Russian and Soviet literature. A midterm and final examination and a standard length paper are required class work. The class may be repeated for credit. I, L, C, IDIS

Undergraduate Day School
Undergraduate Evening School
Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Russian Culture and Soviet Life (in English)  
RUSS 2600 3 cr. 3 hr.  ▲▲
The course provides an introduction to Russian life and culture as manifested in Russian geography, art, music, film, and literature. National characteristics of the Russian people and their influence on Soviet institutions are explored as well as everyday life in the Soviet Union. The course includes a significant audio-visual component. B, C, IDIS

Independent Study in Russian  
RUSS 4901 1 cr. 1 hr.  ▲▲

Independent Study in Russian  
RUSS 4903 3 cr. 3 hr.  ▲▲
The Independent Study is open to students studying the language with the permission of the supervising instructor and the Department Chairman. Meeting times and credit are arranged with approval.

Science Education

These courses are only offered through Continuing Education.

General Botany  
SCED 1000 3 cr. 3 hr.  (see BIO L 1400)

Nutrition  
SCED 2000 3 cr. 3 hr.  (see BIO L 1650)

Human Sexuality  
SCED 2001 3 cr. 3 hr.
The biological aspects of human sexuality. The purpose of this course is to relate information rather than to advise.

Winter Botany  
SCED 3000 3 cr. 3 hr.
An out-of-doors study of the environment during the winter. Daily field trips to study both aquatic and terrestrial plants to discover how they adapt to the cold weather condition.

Common Rocks and Minerals  
SCED 3270 3 cr. 3 hr.  (see GEO G 3270)

Introduction to Astronomy  
SCED 4000 3 cr. 3 hr.  (see PHY S 2000)

Sociology

Introduction to Sociology  
SOC 1100 3 cr. 3 hr.  ▲▲●
The course encourages the student to analyze critically the social world, which he or she inhabits. Major theoretical orientations and major concepts of the discipline are reviewed. Social institutions such as Family, Education, and Medicine are examined, and different research techniques used by sociologists are introduced. This course is a prerequisite for all other sociology courses. B, C

Cultural Anthropology  
SOC 2250 3 cr. 3 hr.  ▲▲●
The course introduces students to varying cultures. Attention is given to hunting and gathering, pastoral, horticultural, agricultural, and industrial societies. Cultural change imposed by industrialization and technological revolution in both third world and modern societies is also analyzed and discussed. The intent of the course is to give students knowledge about the development and variability of cultures, living styles, and values, so that they are prepared to tackle elusive questions of the capabilities, limits, and future of human societies. B, C

Sociology of Aging  
SOC 2300 3 cr. 3 hr.  ▲▲
This course examines the socially defined aged, the aging process, and aging societies. It considers such topics as age roles, the status of the elderly across cultures and across history, and the downward mobility of the elderly in American society. B

Urban Sociology  
SOC 2440 3 cr. 3 hr.  ▲▲
This course provides a survey of urbanization and the various problems associated with contemporary urban life. Computer-assisted analysis of large-scale data sets helps students explore the issues in planning development. A cross-cultural and historical approach to American urban life is emphasized. B

Race and Ethnic Relations  
SOC 2500 3 cr. 3 hr.  ▲▲●
This course provides a comparative, historical, and interdisciplinary introduction to interactions between racial and ethnic populations in the U.S. and other societies. Students explore social attitudes and consequences of racial and ethnic difference, and examine how such differences affect the lives of American people. Consideration is given to the political, economic, legal, and socio-cultural experiences of various minority groups. B, I, C, IDIS

Peoples and Cultures of Africa  
SOC 2510 3 cr. 3 hr.  ▲▲
A survey of the peoples and cultures of Africa is the major focus of this course. This course examines the social and cultural systems of groups including the Ibo, Yoruba, Hausa-Fulani, Kpelle, Bantu, Tiriki, Ganda, Jie, Rwana, Swazi, and Pastoral Somali. B, C

Drugs and Alcohol  
SOC 2520 3 cr. 3 hr.  ▲▲●
In this course, students explore sociological issues revolving around drug and alcohol use and abuse in the American society. Topics of discussion include: the socio-historical origins of drugs and alcohol use from a cross-cultural perspective; effects of formal organizations such as drug rehabilitation and alcoholic centers on drug users; and “Push factors” such as family, work, and economic pressures, as they relate to chemical dependency. Also investigated are society’s drug problems in terms of legal and illegal drug use; medical versus recreational use of psychoactive drugs, alcoholic beverages, and tobacco; and definitions and classifications of psychoactive substances. B

Sociology of Developing Societies  
SOC 2600 3 cr. 3 hr.  ▲▲●
This course provides a survey of the socioeconomic characteristics and features of the developing societies in the context of historical and contemporary experiences of those societies. One of the primary objectives of the course is to critically analyze how the socioeconomic characteristics of the less developed societies affect and are affected by their relationships with developed Western societies and their implications for development. The role of women in development and the impact of development on women also are examined. B, I, C, IDIS

Sociology of Religion  
SOC 2620 3 cr. 3 hr.  ▲▲●
The course emphasizes the structure and function of religious organizations, beliefs, and practices. Current issues in American religion are also explored. B

Sociology of the Family  
SOC 2630 3 cr. 3 hr.  ▲▲●
The course analyzes the structure and function of the family. Current trends along with practical solutions to problems of family living are discussed. B
Sociology of Organizations

*SOC 2650 3 cr. 3 hr.

The course introduces the study of work organizations as social systems. The impact of technological change and the effects of structural factors on organizations are considered. Approaches to organization diagnosis and development are discussed. B

Social Problems

SOC 2700 3 cr. 3 hr.

This course examines underlying dynamics and consequences of contemporary social conditions believed to be both undesirable and changeable. Strategies for resolving social problems in the environmental, economic, family, medical, political, and legal spheres are analyzed and compared. B

Medical Sociology

SOC 2720 3 cr. 3 hr.

In this course, students explore the effects of stratification on health status and health care. Topics discussed in class include communication between physicians and patients of different sociocultural backgrounds; formal organizational studies of health facilities such as hospitals, clinics, or doctors' offices; social factors and their relation to chronic illness; and the sociology of mental illness. Also investigated are the relationships between doctors and nurses, the organization and utilization of health services, the comparative examination of health systems either within a society or in a cross-cultural perspective, and the perception of illness as deviant or aberrant behavior. B

Criminology

SOC 2750 3 cr. 3 hr.

This course provides a survey of the field of criminology, including such topics as theories of crime; criminal statistics; homicide, rape, property crimes; white collar crimes and corporate deviance; and debates on punishment and rehabilitation. B

Juvenile Delinquency

*SOC 2760 3 cr. 3 hr.

This course examines major sociological theories of delinquency including an analysis of empirical studies. Attention is also given to the juvenile judicial system and proposed treatment programs. B

Sociology of Education

SOC 2800 3 cr. 3 hr.

This course provides an introduction to the ways sociologists think about educational goals, processes, and outcomes. Students investigate a variety of historical, theoretical, and substantive issues, including: the development of the U.S. public education systems, the "distribution" of education in society; the "players" in the system; the influence of social factors on educational experiences; and educational reform. B

Social Stratification

SOC 3000 3 cr. 3 hr.

The course provides a critical examination of the dominant perspectives and dimensions of social stratification, using a cross-cultural, historical, and interdisciplinary framework. Particular attention is paid to the analysis of U.S. class structure and the effects of social stratification on life chances of groups. B, I, C, IDIS

Basic Skills of Social Research

SOC 3130 3 cr. 3 hr.

This course emphasizes the aims and techniques of various research methods as applied to sociological study and practice. Topics covered in class include a critical examination of literature reviews, interviewing, observation, questionnaire development, data entry, and quantitative computer analysis of data. The course meets LAS Computer Literacy for Sociology majors requirement. Q

Prerequisites: SOC 1100 and sophomore status.

Application of Social Research in the Work Setting

*SOC 3140 3 cr. 3 hr.

The course provides a deeper understanding of techniques of social research than SO C 2130. The application of such techniques to consumer behavior, business and government organizations, and social agencies, is examined. B

Social Theory

SOC 3160 3 cr. 3 hr.

The course studies social philosophy precursors, sociological scientific theorists from Comte to Parsons, and contemporary schools of thought in Sociology. The course meets LAS Writing requirement for Sociology majors. B

Prerequisite: Social Research and two intermediate level Sociology courses or permission of instructor.

Law and Society

SOC 3500 3 cr. 3 hr.

This course focuses on law as a practical resource. Students examine how the availability of law is distributed in society; what the law provides for those who use it; and how the law has been influenced by certain trends of use. Students study ways in which the law has been analyzed, and discover the nature of legal evolution and social change. B

Prerequisites: two intermediate level sociology courses or permission of instructor.

Women in American Society

SOC 3770 3 cr. 3 hr.

This seminar course examines the statuses, roles, expectations, and realities of women, particularly as experienced in the contemporary U.S. Patterns and differences among women's lives are explored through a variety of readings, class discussions, and writing projects. (Cross listed in Women's Studies IDIS 2340) B, C, IDIS

Prerequisite: two intermediate level sociology courses, or permission of instructor.

Independent Study

SOC 4900 1-6 cr. 3-18 hr.

A program of study designed for in-depth learning in a specific topic for which no regular course is available. This Independent Study is only for Sociology majors and may be taken no more than two times with permission of faculty. Independent Study requires approval of the professor and of the Sociology Curriculum Committee. B

Prerequisite: 3.0 cumulative average in the major.

Internship in Sociology

SOC 4960 6 cr. 15 hr.

The Internship is arranged in consultation with faculty and carried out under the auspices of an approved agency or program at the local, state or federal level. This experience is designed to develop skills in sociological practice, principles, and/or research. Students are encouraged to discuss Internship plans with their advisors early in their college experience, as there are specific procedures and required courses. Liability insurance is required of all students enrolled in this course.

Prerequisite: junior or senior standing, 2.5 cumulative average in the major, program approval.

Directed Study

SOC 4970 12 cr. 30 hr.

See SOC 4960 for description and prerequisites.

SOC 4975 1-6 cr.

Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as "Topics" courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
Spanish

Spanish for Beginners I
SPAN 1000 3 cr. 3 hr.
The correct pronunciation, reading ability, and fundamentals of grammar and syntax of the Spanish language are studied. Students are taught the four language skills of listening, speaking, reading, and writing. Cultural topics are integrated with these skills. Spanish gradually becomes the working classroom language. Students with a year or more of high school Spanish should register for Spanish 2000. L, C

Spanish for Beginners II
SPAN 1100 3 cr. 3 hr.
The course is a continuation of SPAN 1000 or is taken with permission of Instructor. L, C

Intermediate Spanish I
SPAN 2000 3 cr. 3 hr.
The course focuses on a discussion of advanced grammar points and readings dealing with Spanish life. Emphasis is on developing conversational fluency. Prerequisite: SPAN 1000 or permission of Instructor.

Intermediate Spanish II
SPAN 2100 3 cr. 3 hr.
The course is a continuation of SPAN 2000 or is taken by permission of Instructor. L, C

Hispanic Culture
SPAN 2600 3 cr. 3 hr.
This course is designed to provide students with a knowledge and understanding of the Hispanic world through a study of the historical and cultural development of different countries. Emphasis is placed on contemporary problems and social customs of the Hispanic population in the USA. L, C. Prerequisite: SPAN 2100 or permission of Instructor.

Hispanic Literature
SPAN 2700 3 cr. 3 hr.
The course focuses on selected works reflecting the Hispanic heritage in contemporary Spanish and Latin American literature. L, C. Prerequisite: SPAN 2100 or permission of Instructor.

Spanish Conversation and Composition
SPAN 3500 3 cr. 3 hr.
This course is designed to teach skills that increase the student's overall ability to read, speak, and write the language. Students are expected to write compositions on topics developed in class. L, C. Prerequisite: SPAN 2100 or permission of Instructor.

Practical Spanish for the Public Services Professional I
SPAN 4000 3 cr. 3 hr.
The course teaches practical Spanish to enable people in public services, human services, nursing, medical technology, special education to communicate with their clients. Special emphasis is placed on the cultural and psychological characteristics of Spanish speaking peoples. L, C

Practical Spanish for the Public Services Professional II
SPAN 4100 3 cr. 3 hr.
The course is a continuation of SPAN 4000 or is taken by permission of Instructor. L, C

Independent Study in Spanish
SPAN 4901-03 1-3 cr. 1-3 hr.
The Independent Study is open to students in the language with the permission of the supervising instructor and the Department Chairman. Meeting times and credit are arranged upon approval.

Advanced Independent Study in Spanish
SPAN 4906 6 cr. 6 hr.

Directed Study

Special Education

Foundations in Special Education
SPED 2100 3 cr. 3 hrs.
The historical foundations of education, leading up to the creation of our current educational system will be traced. Teacher candidates will examine various philosophies of education and determine the aspects of these philosophies that they embrace as future teachers. The qualities of effective schools and school systems in meeting the needs of diverse learners will be identified. The impact of laws and litigation on the development of our current system will be traced. Students will explore the ever-changing and evolving role of the special education teacher, and reflect upon their needs as teacher candidates.

Introduction to Individuals with Disabilities
SPED 2150 3 cr. 3 hrs.
The course focuses on the characteristics, behavioral, social, and learning needs of children and adults with special needs. Emphasis is placed on the total special education delivery system, controversies and issues in the field, relevant state and federal legislation, and court cases. Field experience required.

Students with Physical and Health Care Needs
SPED 2510 3 cr. 3 hrs.
Students examine various physical and health conditions common in children with special needs. Health care plans are developed along with effective implementation strategies. Collaborative models for working with health care professionals and related service providers will be examined. Field experience required. Prerequisites: SPED 2150.

Language Arts: Teaching and Adapting Instruction
SPED 2522 3 cr. 3 hrs.
This course focuses on research-based approaches to teaching children with special needs. Students develop skills in assessments, planning and designing materials, and teaching children with diverse learning needs. Pre-requisites: SPED 2150 or permission of instructor.

Math/Science/Social Studies for the Inclusive Classroom
SPED 2530 3 cr. 3 hrs.
This course is designed to address the basic concepts and issues in developing and modifying curriculum in mathematics, science, and social studies while analyzing current research-based approach to instruction. Students examine various service delivery models and strategies for meeting the challenges of creating inclusive classrooms that address the educational needs of all students. The curriculum presented is based on the Massachusetts Curriculum Frameworks in each discipline. Prerequisites: SPED 2150 or permission of instructor.

Language Development and Speech
SPED 3401 3 cr. 3 hrs.
The course addresses the normal development of speech and language, and disorders associated with each of these areas of communication. Students demonstrate a knowledge of phonological problems and language disorders as they affect academic learning. In the area of language learning disorders students demonstrate an understanding of delayed language and language disabilities as they relate to reading, mathematics, and written language. Students analyze second language acquisition and educational practices related to linguistic minority students. A related field experience is required. Prerequisites: SPED 2150 and SPED 2522.
Math/Science/Social Studies for Students with Disabilities
SPED 3420  3 cr. 3 hrs.
This course is designed to demonstrate a hands-on approach to teaching Math, Science, and Social Studies with a range of modifications for students with disabilities. Participants explore instructional strategies that will enable them to implement the curriculum within inclusive settings as well as in substantially separate sites. Teacher Candidates explore how to supplement traditional textbooks with hands-on investigative activities that teach to the learning styles of students. Math, Science and Social Studies topics across the curriculum are stressed. Teacher Candidates are introduced to various types of assessment techniques utilized by both classroom and special education teachers. The Department of Education Curriculum Frameworks in the three content areas will be discussed and reviewed.
Prerequisites: SPED 2150 or permission of instructor.

Reading/Learning Problems
SPED 3440  3 cr. 3 hrs.
This course is designed to provide multiple perspectives and essential topics for teaching reading in the elementary school and it specifies how to assess students and how to use assessment results to provide effective reading instruction. Students develop a knowledge base concerning the skills involved in the total reading process and factors which affect the acquisition of the reading skills and assessment procedures to plan appropriate teaching strategies. Topics covered include the nature of the reading process, the relationship between language, reading and writing, the use of assessment instruments, planning teaching strategies, examining reading resources and writing IEP's. Students focus on developing and adapting reading material for children with various reading problems.
Prerequisites: SPED 2150, SPED 2522, SPED 3401

Behavior Management
SPED 3500  3 cr. 3 hrs.
This course prepares students to carry out a variety of behavior change strategies in educational settings. Emphasis is on the development of a positive, problem-solving approach supporting the development of constructive learning and social behavior of children. Students also develop an awareness of the effect of teacher behavior on the behavior of children. Taken in conjunction with the Integrated Professional Pre-Practicum/Practicum (IPP).
Prerequisites: Permission of instructor.

Program Development for Students with Severe Disabilities
SPED 3520  3 cr. 3 hrs.
This course examines effective instructional strategies for teaching students with severe disabilities and includes an overview of specific diagnoses and their implications for teaching. Particular attention is given to program development and implementation within inclusive settings. Taken in conjunction with Student Teaching (Practicum).

Reading in Special Education
SPED 3550
This course addresses the serious consequences of reading disabilities and related disorders, the condition of dyslexia and the historical and contemporary theories on what goes wrong in the reading acquisition process in children with dyslexia. Assessment of dyslexia and related disorders will be analyzed. The course also focuses on general principles derived from research on effective techniques for working with children with dyslexia and on the application of those techniques in specific areas of the language arts: phonological awareness, phonics knowledge, automaticity and fluency in word reading, reading comprehension, spelling, handwriting and composition. It will address the relationship between reading, writing and spelling instruction. Taken in conjunction with the Integrated Professional Pre-Practicum/Practicum (IPP).
Prerequisite: SPED 3440

Strategies for Secondary Students with Disabilities
SPED 3575  3 cr. 3 hrs.
This course will focus on adolescents with disabilities. Students examine various instructional strategies to address the learning and behavioral challenges typical of adolescent learners with such conditions as learning disabilities, behavioral disorders, and mild retardation. Students explore instructional methods relating to reading, written language, mathematics, study skills and social skills for the adolescent with disabilities. Transitions and post secondary programming will address the specific needs of secondary-school students as they leave the high school environment. For Special Education Majors only by permission of instructor.

Secondary Programs for Adolescents (14-22) with Disabilities
SPED 3800  3 cr. 3 hrs.
Students in secondary education certification programs are provided with the legal perspective of services to individuals with disabilities. Learning problems and needs of various disabilities are addressed. Strategies for modifying instruction are a major focus.

Assessment of Students with Moderate Disabilities
SPED 4001  3 cr. 3 hrs.
The course introduces students to the assessment process, describes a comprehensive evaluation, and discusses mandatory assessment regulations. The topics of descriptive statistics, reliability and validity, and norm/criterion-referenced assessments are addressed. Various types of assessment are reviewed and discussed. The focus is on interpreting test results and using assessment data to write Individual Educational Programs. Taken in conjunction with Student Teaching (Practicum).
Prerequisites: SPED 3550.

The Integrated Professional Pre-Practicum/Practicum (IPP)
This is a twelve-credit preparation block for Licenses in Moderate Disabilities, Severe Disabilities, and Elementary Teacher. For the IPP Curriculum, all Teacher Candidates take two courses: SPED 3500-Behavior Management. Those in the Moderate Disabilities Program also take SPED 3550-Reading in Special Education.

IPP Pre-Practicum/Practicum: Elementary (Gr. 1-6)**
SPED 3665  3 cr. 3 hrs.
Candidates spend half the semester, half days in an elementary school in classrooms where students with disabilities are integrated or included. The Teacher Candidate assists in the design and instruction of lessons, adapting when necessary, and does direct teaching.

IPP Pre-Practicum/Practicum: Moderate Disabilities (PreK-8)
SPED 3675  3 cr. 3 hrs.
Candidates spend half the semester, half days in the role of a special educator teaching children with Moderate Disabilities (PreK-8). The children are served in resource rooms, in integrated programs or in inclusive classrooms. In this role students are responsible for assisting in assessing children's performance, direct teaching and evaluation.

● Undergraduate Evening School
Courses having a more narrow focus than those taught on a regular basis or courses being taught on an experimental basis can be taught as Topics courses. These courses will be assigned numbers based on the student level for which they are intended—first, second, third or fourth year.
IPP Pre-Practicum/Practicum: Moderate Disabilities**
(S5-12)
SPED 3676 3 cr. 3 hrs.
Candidates spend half the semester, half day in the role of the secondary special educator. Teacher candidates assist in the design and instruction of lessons, adapting instruction and direct teaching.

IPP Pre-Practicum/Practicum: Severe Disabilities
SPED 3765 3 cr. 3 hrs.
In this field experience, Teacher Candidates assume the role of a teacher of students with severe disabilities. Students work with individuals on functional academics and on the development of appropriate social skills. Participants assist in the development and implementation of instructional programs.

Practicum: Severe Disabilities I (All Levels)
SPED 3840 6 cr. 6 hrs.
Teacher Candidates complete the practicum in an educational setting under the direction of a mentor who is certified in the area of licensure sought by the candidate and under the guidance of the college supervisor. Candidates teach students with severe disabilities. Taken in conjunction with SPED 3520.

Practicum: Severe Disabilities II (All Levels)
SPED 3845 6 cr. 6 hrs.
Teacher Candidates complete the practicum in a special education setting under the direction of a mentor who is certified in the area of licensure sought by the candidate and under the guidance of the college supervisor. Candidates teach students with severe disabilities. Taken in conjunction with SPED 3520.

Practicum: Elementary (Gr. 1-6)
SPED 3860 6 cr. 6 hrs.
Teacher Candidates complete the practicum in an elementary setting under the guidance of the college supervisor and under the direction of a mentor who is certified in the area of licensure sought by the candidate and under the guidance of the college supervisor. Taken in conjunction with SPED 4001.

Practicum: Moderate Disabilities (PreK-8)
SPED 3870 6 cr. 6 hrs.
Teacher Candidates complete the practicum in an inclusive or special education pre-kindergarten to eighth grade setting under the direction of a mentor who is certified in the area of licensure sought by the candidate and under the guidance of the college supervisor. Taken in conjunction with SPED 4001.

Practicum: Moderate Disabilities (5-12)
SPED 3875 6 cr. 6 hrs.
Teacher Candidates complete the practicum in an inclusive setting or special education setting at the middle or high school level under the direction of a mentor who is certified in the area of licensure sought by the candidate and under the guidance of the college supervisor. Taken in conjunction with SPED 4001.

Practicum: Moderate Disabilities II (5-12)
SPED 3878 6 cr. 6 hrs.
Teacher Candidates complete the practicum in an inclusive setting or special education setting at the middle or high school level under the direction of a mentor who is certified in the area of licensure sought by the candidate and under the guidance of the college supervisor. Taken in conjunction with SPED 4001.

Independent Study
SPED 4900 3 cr. 3 hrs.
The Independent Study facilitates the review, development, and synthesis of a problem in special education. The Independent Study is open to juniors and seniors with permission of the Instructor.

Directed Study
SPED 4975 1-6 cr.
**for teacher candidates who elect to apply for elementary certification.

**Speech**

Speech Improvement
*SPCH 0100 1 cr. 1 hr.*
Students are assigned to this remedial course after being evaluated as needing speech improvement. Individual and group therapy is used.

Introduction to Speech Communication
SPCH 1000 3 cr. 3 hr.*
The class focuses on theory and practice of interpersonal and public communication, including communication theory, self-concept, perception, language, listening, non-verbal communication, and public speaking. L

Argumentation and Debate
SPCH 1100 3 cr. 3 hr.*
Students participate in projects that emphasize analysis, research, evidence, strategies, briefing, refutation, and the delivery of debates on representative questions. L

Business and Career Communication
*SPCH 1200 3 cr. 3 hr.*
Theory and methods of communication are applied to business and career problems. Emphasis is placed on skills especially important to students planning to work for or with an organization. Interviewing, group conferences, and staff presentations are emphasized.

*Effective Speaking for the Electronic Media
SPCH 1300 3 cr. 3 hr.*
The class focuses on a variety of speaking experiences encountered by those who plan to use electronic media in their occupation. The class is particularly suited to students who anticipate speaking roles in industry-made productions as well as those who aspire to careers as professional broadcasters. L

Small Group Communication
SPCH 1400 3 cr. 3 hr.*
The course explores the fundamentals of group discussion in private and public settings. Emphasis is on group structure, leadership, and interpersonal relationships, including extensive practice in varied group situations. L

Public Speaking
SPCH 1500 3 cr. 3 hr.*
The course fosters the development of skills and strategies employed in the preparation and presentation of the public address. Students make critical assessments of rhetorical strategies used by public figures. L

Voice and Articulation
SPCH 1700 3 cr. 3 hr.*
The course concentrates on the elements of vocal production and presentation with special emphasis on the study and application of phonetic theory. L

Intercollegiate Debate and Forensics
*SPCH 2100 1 cr. 1 hr.*
The course provides opportunities for study and participation in debate and forensic speaking activities.

Persuasion
SPCH 2600 3 cr. 3 hr.*
The course studies the causes of listener belief and action with special emphasis on the development of strategies to influence listener behavior. L

Rhetorical Criticism
*SPCH 2800 3 cr. 3 hr.*
The class explores approaches to the rhetorical criticism of significant speeches and speech movements, past and present. L
Technical Theater

Theatrical Design Skills
TETA 2100 3 cr. 4 hr.
A lecture/laboratory course presenting basic problem solving skills in scenic and costume craft covering terminology and processes of stage production including integration of design elements/materials, basic drafting, stage carpentry, rigging, equipment use, and shop safety.
Prerequisites: ITEC 1200, 1300, 1400.

Fundamentals of Stage Lighting Design
TETA 2300 3 cr. 4 hr.
A lecture/laboratory course dealing with the application of the elements of design relating to lighting for the theater and dance. Mechanics of basic electricity, color theory, instrumentation, distribution, and control.
Prerequisite: ITEC 1000.

Scene Design
TETA 2400 3 cr. 4 hr.
A lecture/laboratory study of the historical and contemporary contribution of space and environment atmospherics to the creation of the world of the play/dance and the theater experience as a whole. Rendering, graphic media, specification writing, and scenic models are addressed.
Prerequisites: TETA 2100, ITEC 1000.

Costume Design
TETA 2500 3 cr. 4 hr.
The history of fashion silhouette is explored along with the design elements used in developing a character’s costume. Students will apply historical perspective and utilize the design elements of line, texture, color, and gesture in designing costumes.
Prerequisites: TETA 2100.

Advanced Stage Lighting Design
TETA 3300 3 cr. 4 hr.
A lecture/laboratory study of the problems of stage lighting for the Proscenium and Non-Proscenium stages. Students are expected to develop and apply concept and historical lighting techniques in various theater and dance genre (musical-comedy, cabaret, modern, and jazz dance). Computer applied lighting will be used in a production environment.
Prerequisites: TETA 2100, ITEC 2410.

Advanced Scene Design
TETA 3400 3 cr. 4 hr.
An advanced course emphasizing approaches and techniques relating to the design, development, and implementation of scenic concepts. Students will utilize approaches to research design and develop scenic concepts. Concepts will be developed, rendered, constructed, and rigged to production standards.
Prerequisites: TETA 2300, ITEC 2410.

Stage Make-up
TETA 3600 3 cr. 4 hr.
A lecture/laboratory course investigating the principles, techniques, and materials of character stage make-up and practical application. Students will apply, in a production setting, principles, techniques, and materials of character stage make-up. They will identify historical justification for period make-up and apply techniques for live animation, clowning, and dramatic character.
Prerequisites: TETA 2400.

Stage Management
TETA 4100 3 cr. 4 hr.
A lecture/laboratory study of the professional union approach to stage management and personnel mediation in stage production. Students will apply knowledge and technique related to contract and union policy in various repertory scenarios. The aspects of prompt books, blocking documentation, call-sheets, rehearsal set-up and running and calling the show will be implemented.
Prerequisites: senior status.

Portfolio Presentation
TETA 4200 3 cr. 4 hr.
This course will provide the Technical Theatre student with practical application for presenting a Professional Portfolio. Practical application of common professional practices along with interviewing skills will be applied through lectures, demonstrations and projects designed to build the student’s portfolio and confidence in presenting their work to the professional world.

Theater

Stage Movement
THEA 1700 3 cr. 3 hr.
This workshop-oriented course utilizes the basic techniques of theatrical mime and movement with emphasis on developing each student’s potential for effective physicalization on stage.

Introduction to Theater
THEA 2000 3 cr. 3 hr.
This introductory course surveys theater with emphasis on its history, focuses, practices, and major practitioners, including directors, actors, and scenic designers. The focus is on historical and social contexts. L, C

Children’s Theater
THEA 2100 3 cr. 3 hr.
This introductory course in theater for children explores its principles and practices, covering aspects of play production for juvenile audiences. Emphasis is on script selection and evaluation, directing, acting, and staging techniques.

Stagecraft and Theater Production
THEA 2200 3 cr. 3 hr.
In a laboratory situation, the student takes one selected play from initial sketches through to the finished model and plans for production, including design, set building, costuming, lighting, and management.

Acting I
THEA 2700 3 cr. 3 hr.
In this course the acting fundamentals of stage speech and movement, creative mime and improvisation are explored. Plays are read and analyzed. Systematic technique building and scene study are heavily emphasized. L

Graduate Division

Graduate Education at Fitchburg State College is an exciting and challenging adventure. It offers diverse perspectives for part time and full time advanced study in a variety of professional and academic fields.

The Office of Graduate Studies is committed to engaging excellence as it promotes learning in every aspect of its educational mission—to consistently offer its students the affordable high quality evening degree programs, courses, and other life-long learning opportunities they desire, seek, and need. The commitment to quality is evidenced in the dedicated cadre of faculty who are actively involved in their professional and academic fields—who bring their focused expertise and experience to their classrooms, laboratories, and studios.

Fitchburg State College's Office of Graduate Studies is proud of the contributions its faculty, graduates, and other former students have made, and will continue to make, to their chosen fields of endeavor.

Graduate Faculty

Fitchburg State College faculty holding terminal degrees are eligible for graduate faculty status. Faculty with advanced degrees and special recognition in their field are qualified for associate graduate faculty status. Experts from other universities or the community-at-large may serve, by invitation, as visiting lecturers.

Administration

The Office of Graduate Studies is administered by the Dean of Curriculum and Instruction.

The Graduate Council consists of five members of the graduate faculty (selected by the Fitchburg State College Faculty Association), three administrators (appointed by the College's President) and a degree seeking graduate student.

The Graduate Council makes reports and recommendations on the following matters:

- The changing of course requirements within an existing graduate curricula; the addition of new courses within such curricula; and the criteria to be applied in designating, as such, members of the graduate faculty. The Council shall also hear appeals from graduate students to the College's graduate program.

- The Graduate Council are transmitted to the President of the college through the Academic Vice President; copies are transmitted to the college Faculty Association's Chapter President and the chairperson of each department that sponsors a graduate program. The Graduate Council shall send copies of minutes and its agenda to the All College Committee.

Graduate Program Chair

Each graduate program has a Graduate Program Chairperson who, among other things is responsible for:

- Quality control of the graduate curriculum.
- Evaluation of course content and degree program relevancy.
- Developing and maintaining a 2-year plan of course offerings.
- Developing course schedule for yearly offerings (summer, fall, winter, spring).
- Working with the Graduate Council and the Dean of Curriculum and Instruction in administration and policy matters.
- Evaluating graduate students each semester and reviewing student folders.
- Recommending and approving courses to be taken by matriculated students each semester.
- Advising and assisting in appropriate policy actions needed by graduate students (e.g., acceptance of transfer credits, graduation review, etc.).
- Reviewing applications for admission.
Professional Education Programs
The professional education programs at Fitchburg State College are under the broad coordination of an Education Unit that includes the following licensure and degree program areas: Undergraduate and Graduate Teacher Preparation Programs, Graduate Guidance Counseling Program and Graduate Educational Leadership and Management Programs. Effective October 2003, Massachusetts teacher licensure requirements changed. Professional licensure (formerly standard certification) will require 3 years of employment in the role of the license, and a one year induction program (working with a mentor in the school district.)

For more detailed information about educational licenses, contact the Educator Licensure Office at 978-665-3239 or visit the web site at www.fsc.edu/edcert.

Admissions

Application Requirements

To apply for study in the Graduate Program applicants are required to submit:

Graduate Application Checklist
• Graduate application for admission.
• Non-refundable application fee: $25 for U.S. citizens or permanent residents, $50 for international applicants. Do not send cash. Please print applicant’s first and last name on the check or money order.
• Official transcript from your baccalaureate degree granting college/university. The transcript must indicate degree received and date of graduation. The transcript must be sent directly from the institution to the Graduate Admissions Office. (Applicants to CAGS programs are not required to submit a transcript from the baccalaureate degree granting college/university but must submit a transcript from the master’s degree granting institution. See below.)
• Official transcripts from all graduate programs from which you are requesting transfer credit and, if applicable, all institutions from which you have received graduate degrees. Transcripts must be sent directly from the institution to the Graduate Admissions Office. If you are applying to a CAGS program, you must submit an official transcript from your master’s degree granting institution listing degree received and date of graduation.
• Standardized Test Scores. All master’s degree programs require the official results from one of the three following tests: the Graduate Management Admissions Test (GMAT), the Graduate Record Examination (GRE) or the Miller’s Analogies Test (MAT). Please refer to list below for the appropriate test. Test scores are not required for applicants to certificate or CAGS programs.
• GRE or MAT is required for all applicants to MA or MAT in English or History, all MEd programs (except Science Education), and MS in Applied Communication, Counseling, Criminal Justice, and Nursing.
• Three letters of recommendation from individuals under whom the applicant has studied or under whose supervision he/she has worked in a professional capacity. Please use the Letter of Recommendation forms provided herein or submit the narrative portion of the recommendation on institutional letterhead. All letters of recommendation must be mailed by the author directly to the Graduate Admissions Office.
• A professional resume.
• A personal statement. Required ONLY for applicants to certificate programs in Adolescent and Family Therapy, Child Protective Services, Forensic Nursing, and Substance Abuse Services; MEd in Arts Education; and MS in Counseling and Nursing.
• A writing sample. Required ONLY for applicants to the MA in History.
• A copy of current U.S. RN License for applicants to the MS or Certificate in Nursing.

IMPORTANT: Additional requirements for applicants to Teacher Preparation, MAT, MEd, and CAGS in Education programs, as well as the MS in School Guidance Counseling programs. (If you are applying to a degree program that does not lead to a Massachusetts Teaching License, such as the MEd in General Studies or Secondary Education, you are not required to submit the two items listed below.)
• Passing scores for the Communications and Literacy subtests of the Massachusetts Tests for Educator Licensure (MTEL) are required for all applicants to graduate and certificate programs leading to initial licensure to teach in the state of Massachusetts. MTEL Communications and Literacy results are also required of all applicants to the CAGS Educational Leadership and Management: School Principal or Supervisor/Director. Note: Subject area MTEL test(s) must be completed prior to student teaching.
• Copy of initial teaching license for applicants to programs leading to professional licensure. (If you have a valid initial teaching license from Massachusetts, you do not need to submit the Communications and Literacy subtest scores referred to above.)

The application, fee, and other requested materials should be sent to:
Office of Graduate Admissions
Fitchburg State College
160 Pearl Street
Fitchburg, MA 01420-2697

Additional Application Requirements for International Students
Non U.S. citizens who do not possess a permanent visa with an Alien Registration number must submit the paperwork listed below in order to be considered for admission to Fitchburg State College. Students on F-1 or J-1 visas must study on a full-time basis and are not eligible for state or federal financial aid.
International Applicants
In addition to requirements listed above, applicants with international credentials must submit the following:

- Supplemental Application for Admission/Certificate of Finances (Available at www.fsc.edu/intled.)
- Test of English as a Foreign Language (TOEFL). This test is required of all international applicants with the exception of those who have earned a high school, associate's, bachelor's, or master's degree from an institution in the United States or applicants from Great Britain, Ireland, Australia, or Canada. The minimum passing test score is 550 (paper-based test) and 213 (computer-based test). Official score results must be sent from the testing agency to the Graduate Admissions Office and must be dated within the past five years. For more information about the TOEFL test please visit http://www.toefl.org
- Transcripts
- The school accepts only official transcripts that are signed and stamped.
  (If the seal on the envelope is not intact, the transcript will NOT be accepted)
- All international students must have their foreign transcripts evaluated.
  (For evaluation of your transcripts, go to the Center for Educational Documentation website http://www.cedevaluations.com)
- If your transcripts are not in English, they must be translated.
  (If you need to translate your transcripts to English, please go to the International Documentation Center website http://www.eurasiacom.com)
- F-1 and J-1 applicants only. If you plan to study at Fitchburg State College under an F-1 or J-1 visa status you must submit the appropriate financial documentation with your application for admission. Please refer to our website at www.fsc.edu/intled for more details.
- Supplemental Application for Admission/Certificate of Finances.
  (Available at www.fsc.edu/intled.)
- Financial Verification Forms. Please visit www.fsc.edu/intled for more details.
- Photocopies of all previous I-20s (front and back).
- Photocopies of your passport and visa, if you are currently in the United States.
- Photocopy of I-94 form (front and back), if you are currently in the United States.
- If the student is transferring from another university or college in the United States, a Transfer Recommendation form must be completed. This form may be requested from the International Education Office.

EXCEPTION: International applicants MUST complete their applications by the deadlines listed below. The Graduate Admissions Office cannot guarantee that students completing applications after the published deadline will receive an admission decision in time to process visa requests. Accordingly, late applications may be deferred a semester at the discretion of the Admissions Office.
- Fall Semester Deadline: August 15
- Spring Semester Deadline: January 1

Admissions Procedures
Once all application materials have been received by the Admissions Office, the appropriate Departmental committee reviews an applicant's qualifications and makes a recommendation. The admission process is completed when the Dean concurs with the program's decision and approves or denies the applicant's admission. While admission decisions are prompted by a completed application, the admissions process and its outcome are based on academic department criteria.

Transfer of Credit
The Graduate Office accepts a maximum of six (6) semester hours in transfer credits from regionally accredited graduate schools. Transfer credit requests are acted upon as part of the admission process when a student submits the Request For Transfer of Graduate Credit Form, official transcripts from the appropriate institution and has been accepted into the Graduate Program. Transferred courses are not included in the cumulative GPA. No requests for transfer credits are accepted during the Spring Semester prior to a student's anticipated graduation.

The transfer of credits must be approved by the Program Chairperson and the Dean and meet the following criteria:
- A grade of B (3.0) or better; pass/fail grades are not transferrable
- Courses accepted in transfer must carry graduate level credit
- Courses must be relevant to degree specialization
- Transferred courses are only valid if taken within six years of the date of graduation from a matriculant's graduate program
- Courses previously counted toward a graduate degree or CAGS from Fitchburg State College or another accredited institution do not qualify for transfer towards a Fitchburg State College Master's or CAGS Program

Courses Taken Prior To Admission
Twelve (12) semester hours of Fitchburg State College credit taken within a year prior to the student's admission may be applied to the degree program with the approval of the Program Chairperson. No more than six (6) semester hours of course work at the 6000 level may be applied toward a degree program.

Residency Requirement
Students acquiring credit towards a Master's degree off-campus in affiliated programs must take at least 6 credits of core course requirements from Fitchburg State College Residency Faculty.
Fitchburg State College Residency Faculty are:
- Graduate Faculty
- Associate Graduate Faculty or,
- Adjunct Graduate Faculty designated “Residency Faculty” by the Graduate Council.

Graduate Program Chairs overseeing affiliated programs are responsible for ensuring that their students are provided the opportunity to meet the residency requirement by staffing appropriate core courses with Residency Faculty.

**Academic Policies and Procedures**

**Advisors and Plan of Study**

**Graduate Advisors**

Every student is assigned an advisor from the student's area of specialization. The advisor:

- Provides a vital link between the students, faculty, and the Dean
- Assists the degree candidate in developing a plan of study
- Approves all courses, including electives, accepted in the student's degree programs

All variances from the approved plan of study must be filed with the Registrar’s Office. Plan of study forms are available in the Graduate Office or Registrar’s Office.

**Course Registration**

Students must register for courses within the curriculum requirements as set in the College Catalog of the year of their matriculation. However, it is the right of the College to alter the requirements to meet statutory, educational, or professional standards.

For regularly scheduled courses, students must register before the second class meeting. Early registration is recommended for all degree seeking graduate students and graduate applicants in order to secure seats in the courses needed to proceed in degree programs. The regular registration period ends two weeks prior to the start of the semester, with “late registration” and late charges commencing thereafter. Please refer to the current semester course bulletin for specific dates.

**Student Health Insurance**

Every graduate student registered for 6.75 or more credits is required by law to purchase health insurance. Students must purchase the school sponsored health plan or show proof of comparable coverage in an alternate health plan in order to enroll. For more details, see Student Health Services section in this catalog.

**Special Students**

A special student holds a baccalaureate degree or higher and may take classes in most graduate or certificate programs, but is not matriculated as a degree candidate. Additional policies applying to special students are as follows:

- Special Students are allowed to register for a maximum of 12 credits in one discipline.
- To register for courses beyond 6 semester hours Special Students must matriculate or obtain written approval from the appropriate graduate program chair.
- Graduate courses at the 6000 level are exempt from this policy.
- Credit from courses may apply to a degree only if prerequisites for the program are met, the student is matriculated, and approval is received from the Program chair or advisor.

**Waiver of Course Prerequisites**

Waivers of course prerequisites, when authorized, are not to be construed either as waivers of program matriculation requirements or as waivers of credit hours required to complete a program.

**Retention in a Graduate Degree Program**

To maintain enrollment in a graduate program, students must:

- Earn a 2.8 average in undergraduate prerequisite course work as designated by individual graduate programs. Students must earn a 2.0 in all other undergraduate prerequisite course work outside of their major. Undergraduate prerequisite courses must be finished before graduate coursework can begin.
- Maintain a cumulative average of 3.0 in graduate coursework counted toward the degree or certificate.
- Adhere to the ethical/professional standards as defined by the profession and/or the academic department.

**Probation and Academic Dismissal**

- A student will be placed on probation if in any semester the student’s graduate GPA falls between a 3.0 and a 2.75 cumulative average.
- A student will be dismissed from the program:
  - If the graduate cumulative average falls below 2.75.
  - If the graduate cumulative average of a student on probation remains between 3.0 and 2.75 for two consecutive enrollment periods.
  - If the student has accumulated more than 6 semester hours of graduate credit with a grade of 2.0 even though the graduate cumulative average remains 2.75 or higher.
  - If the student has received a grade of 0.0.
  - If the student's cumulative average in designated undergraduate prerequisite coursework falls below 2.8.
  - If the student's cumulative average in undesignated undergraduate prerequisite coursework falls below 2.0.

**Course Load**

Graduate students must register for a minimum of 9 credit hours in fall/spring to be considered full-time. Course load for part-time status is less than 9 credit hours; half-time status is 5 credit hours.

Graduate Assistants who work 20 hours per week and are registered for at least 6 credit hours are considered to have full-time status. Students who are registered for at least 6 credits in Thesis, Continuation of Thesis, or Internship/Practicum are also considered to have full-time status.
Continued Progress Toward Degree
Matriculated students who do not register for classes for a full academic year (fall, spring, and summer) must request a leave of absence by writing to the Dean of Curriculum and Instruction. Without an approved request, a student is dismissed from the degree program.

Readmission to Degree Program
A student who has been dismissed from a program because of failure to request a leave of absence may reapply to the program.

A student who has been dismissed from a program for academic reasons may not register for further courses in that program at Fitchburg State College. After a minimum time period of one year, a student may apply to Fitchburg State College for readmission.

Readmission is contingent on the capability of the student to maintain at least a 3.0 GPA and on evidence that there are sufficient courses remaining in the student’s program to achieve a 3.0 GPA.

Students seeking readmission to a program must reapply by completing a Request for Curriculum Modification or Waiver of Academic Regulation Form. For those seeking readmission into a different degree program, the admissions process must be completed after permission from the Dean is secured.

The program/policies in effect at the time of readmission are those that the student must follow.

Grade Substitution Policy
Students who have been dismissed from a graduate program on academic grounds and who are subsequently readmitted to a program may retake courses in which they have received a 2.0 or a 0.0 grade. If the class is repeated, the new grade will be substituted for the original grade in calculating the student’s cumulative GPA. The original grade, however, will continue to appear on the transcript. Transfer courses cannot be used to substitute for courses in which a grade of 2.0 or a 0.0 has been obtained.

Incomplete Course
An incomplete (IN) may be awarded with the recommendation of the instructor when the student has completed 80% of the coursework but cannot complete the rest due to illness or some other serious reason. The student must file a petition for an incomplete with the instructor prior to the last day of class. A student who has received an incomplete in lieu of a course grade must make up the missing part of his/her coursework during the first four weeks of the following semester. Failure to do so will result in an automatic 0.0 for the course.

In-Progress Course
A grade of IP (In-Progress) may be awarded for thesis, practicum, internships, and clinical experience at the end of a given semester. Practicums and internships need to be completed within two semesters. The time limit for thesis is the six years allowed for the completion of a degree. If the thesis, internship and/or practicum are not completed within the allotted time then the IP grade will be changed to either an incomplete (IN) or a grade of 0.0.

Withdrawal from Courses
Withdrawal from courses may be made prior to the eleventh class for regularly scheduled courses and prior to the twenty-sixth class hour for special scheduling or institute courses without academic penalty. Withdrawals may be initiated by phone by calling the Registrar’s Office, or by visiting that office in the Sanders Administration Building. In either case, the student, the instructor, and the advisor must receive a confirming copy of the completed course withdrawal form.

Students who “withdraw” by simply not attending class, automatically receive a failing grade for the course. See tuition and fees refund policy in “Tuition and Fees” catalog section.

Cancellation of Course
The college may cancel courses for insufficient enrollment or for other reasons deemed to be in the best interest of the college. Students who registered for a course which is canceled may transfer to another course or receive a full refund of tuition and fees.

Course Changes
Changes to courses (drop/add) must be made by the second meeting. (Class meeting time defined as 2.5 hours) No change in credit is permitted after the second class meeting. After the start of the second class meeting, the dropping of a class will be considered a withdrawal.

Audit
Students may enroll in courses on an audit (or non-credit) basis. The availability of seating in all classes is determined after all degree seeking students, program applicants and credit-seeking students have registered. Permission of the instructor and the Dean is required prior to registration. Tuition and fees for audited courses are the same as those which apply to the courses when taken for academic credit. Students enrolled on an audit basis must have completed all applicable course prerequisites in order to have achieved the sufficient level of knowledge and expertise required by the course content. Students who elect the audit option may be required to complete course assignments, papers, presentations, etc. Final grades are not issued, however,
courses audited will be so noted on the student’s transcript. A change from credit to audit status, or from audit to credit status, must be made by the second class meeting of the course (class meeting is defined as 2.5 hours).

Independent Study Credit Policy
Independent study allows degree candidates to step outside of course offerings and explore a specialized area of study in a challenging new environment. Students are encouraged to seek out independent study opportunities under the guidance and supervision of a professor in whose specialization they wish to study. A maximum of six independent study credits is allowed in a master’s degree program. Vouchers, graduate assistant tuition waivers, tuition remissions, and veterans’ tuition benefits may not be applied to independent study. Before embarking on an independent study applicants must receive approval from the instructor, advisor, and the Dean of Curriculum and Instruction. Only on-campus faculty supervise independent studies. Independent study should not be substituted for any course listed in the current catalog.

Directed Study
Directed study allows a student to carry out a non-research project or participate in an activity under the direct supervision of a faculty member. In exceptional circumstances, it can be used to offer an existing course to an individual student. All directed studies require approval of faculty sponsor, advisor, Program Chair and Dean of Curriculum and Instruction.

Thesis
Several of the graduate programs at Fitchburg State College include a thesis requirement or thesis option. Students completing a thesis must adhere to the policies and standards set forth in the thesis guidelines. Thesis guidelines can be obtained through the Office of Graduate Studies or the student’s academic department.

Second Master’s Degree
Students holding a Master’s degree from Fitchburg State College are generally not encouraged to enroll in a second Master’s degree program but may want to consider a Certificate of Advanced Graduate Study (CAGS) program. To matriculate in a second Master’s degree program the student must petition the Dean of Curriculum and Instruction. Only on-campus faculty supervises independent studies. Independent study should not be substituted for any course listed in the current catalog.

Graduation Requirements
Students must:
- Maintain a minimum cumulative GPA of 3.0 in the degree program with no graduate coursework below a 2.0
- Successfully complete all program requirements
- Submit completed petitions/waivers for review to the Office of Graduate Studies no later than the eighth week of the spring semester prior to anticipated graduation
- Students who are writing a thesis should refer to the Thesis guidelines for specific requirements
- File an application for graduation with the Registrar’s Office by January 1st of the year of anticipated graduation

Time Limits
Graduate degree programs must be completed within six years of the date of the student’s first course in the program.

Petition for Review
Students must request a review of their folder prior to the semester in which they will complete requirements for the degree. Application for Graduation Forms must be submitted to the Registrar’s Office prior to January 1 to qualify for May graduation. Obtain forms from the Graduate Office, the Registrar’s Office or at http://www.fsc.edu/registrar/regconf.html.

Academic Dishonesty Policy
Academic dishonesty in all its forms, including cheating, fabrication, plagiarism, and the facilitating of academic dishonesty by aiding and abetting any of the aforementioned is not tolerated at Fitchburg State College. Violators will be subject to the college’s Academic Affairs established judicial process.

Student Complaints Policy
Right to Confer
- A student who is dissatisfied with a grade, any aspect of instruction has a right to confer with the instructor.
- A student who is dissatisfied with a grade, any aspect of instruction, or academic decision of a graduate program bearing on her or his status in a graduate program, has a right to confer with her or his advisor.
- A student who is dissatisfied with a grade, any aspect of instruction, or academic decision of a graduate program bearing on her or his status in a graduate program, has a right to confer with the program’s Graduate Program Chair and Department Chair.
- A student seeking advice on how to proceed with a complaint about a grade, any aspect of instruction, or academic decision of a graduate program bearing on her or his status in a graduate program, has a right to confer with the Dean of Curriculum and Instruction.

International students also have a right to confer with the Office of International Education.

Department/Program Responsibilities
Departments/Programs make their policies and procedures for mediating/arbitrating student complaints readily available to students as a part of a Department/Program handbook, or, as a separate document.
- Entering matriculated students will be apprised of the Department’s/Program’s policies and procedures for mediating/arbitrating student complaints as a part of their orientation to the program.
- Each Department/Program will file its policies and procedures for mediating/arbitrating student complaints with the Office of the Dean of Curriculum and Instruction.
- Every effort should be made by the Graduate Program Chair, in accordance with Department/Program policies and procedures, to informally mediate student complaints concerning academic matters.
If informal mediation cannot be achieved, the complaint will be formally arbitrated at the Department/Program level in accordance with its policies and procedures for doing so. Usually, this will involve the participation of the Department's Graduate Committee.

The burden of proof rests with the student.

Departmental/Program decisions may be appealed on procedural grounds when bias is alleged.

**Dean of Education or Dean of Curriculum and Instruction Responsibilities**

- A student alleging bias may contest a Department's/Program's decision on procedural grounds by filing a formal appeal in writing to the Dean of Education or Dean of Curriculum and Instruction.
- In a timely manner, the Office of the Dean will conduct an investigation and will forward its findings, and the student's written appeal, to the Graduate Council.
- The Graduate Council will consider the appeal at its next available meeting.
- Within two weeks of the meeting, the Chair of the Graduate Council will forward a written recommendation to the Dean.
- The Dean, then, will communicate a decision in writing to the student, the Graduate Council, and the Graduate Program Chair.
- The final decision is made by the Dean.
- If it is decided that the Department/Program failed to appropriately follow its procedures for mediating/arbitrating student complaints, the case will be reheard within the Department with the Dean serving ex officio as a non-voting member of the committee.
- If it is decided that the Department/Program was unbiased—that it appropriately followed its procedures for mediating/arbitrating student complaints—the Department's/Program's decision will stand.

**Non-Academic Student Complaints**

- When sexual harassment, racial discrimination or other prohibited/illegal behaviors are alleged by a student to have occurred, the student should address her or his complaint to the Director of Human Resources/Affirmative Action.

**Educator Licensure Programs**

The Fitchburg State College Graduate Division offers courses which may be used for licensure purposes in several different areas, including Early Childhood, Elementary, Middle School, Secondary, Special Education, Counseling, and School Administration. Licensure is the function of the Commonwealth's Department of Education not the college.

Please contact the Educator Licensure Office for information on teacher licensure programs at 978-665-3239. Students are advised to address any question regarding licensure to:

- Massachusetts Department of Education
  350 Main Street
  Malden, MA 02148-5023
  781-338-3000
  www.doe.mass.edu

**Transcripts**

Unofficial transcripts are available to students on-line. Official transcripts may also be requested on-line. Each student receives one official transcript free of charge. For each additional transcript, there's a $5.00 fee. For more information, see www.fsc.edu/registrar/

To obtain a transcript write to:

- Office of the Registrar
  Fitchburg State College
  160 Pearl Street
  Fitchburg, MA 01420-2697
Graduate Programs

Fitchburg State’s Office of Graduate and Continuing Education schedules both undergraduate and graduate-level courses. Most programs are offered in the evenings; some may be offered on weekends or during the days in summer or winter session. The Office of Graduate Studies offers programs of study leading to the following Graduate degrees:

Certificate of Advanced Graduate Study (CAGS)
- Educational Leadership and Management: School Principal (Initial Licensure)
- Educational Leadership and Management: Supervisor/Director (Initial Licensure)
- Educational Leadership and Management (Non-Licensure)
- Educational Leadership and Management: Technology Leader (Non-Licensure)
- Interdisciplinary Studies
- Teacher Leadership (Currently not accepting new students)

Masters Degrees
Master of Arts
- M.A. Biology
- M.A. English
- M.A. History

Master of Arts in Teaching
- MAT in Biology (Professional Licensure)
- MAT in Earth Science (Currently not accepting new students)
- MAT in English (Professional Licensure)
- MAT in History (Professional Licensure)
- MAT in Mathematics (Currently not accepting new students)

Master of Business Administration
- M.B.A. in Accounting
- M.B.A. in Human Resource Management
- M.B.A. in Management

Master of Education
- M.Ed in Arts Education (Non-Licensure)
- M.Ed in Early Childhood Education (Initial Licensure)
- M.Ed in Early Childhood Education (Professional Licensure)
- M.Ed in Educational Leadership and Management: School Principal (Initial Licensure)
- M.Ed in Educational Leadership and Management: Supervisor/Director (Initial Licensure)
- M.Ed in Educational Leadership and Management: Technology Leader (Non-Licensure)
- M.Ed in Educational Leadership and Management: Technology Leader (Non-Licensure)
- M.Ed in Elementary Education (Initial Licensure)
- M.Ed in Elementary Education (Professional Licensure)
- M.Ed in General Studies in Education (Non-Licensure)
- M.Ed in Middle School Education (Initial Licensure)
- M.Ed in Middle School Education (Professional Licensure)
- M.Ed in Occupational Education (Non-Licensure)
- M.Ed in Science Education (Non-Licensure)
- M.Ed in Science Education (Professional Licensure)
- M.Ed in Secondary Education (Non-Licensure)
- M.Ed in Technology Education (Non-Licensure)
- M.Ed in Technology Education (Professional Licensure)
- M.Ed in Special Education: Guided Studies (Non-Licensure)
- M.Ed in Special Education: Guided Studies (Professional Licensure)
- M.Ed in Special Education: Reading Specialist (Initial Licensure)
- M.Ed in Special Education: Teacher of Students with Moderate Disabilities PreK-8 (Initial Licensure)
- M.Ed in Special Education: Teacher of Students with Moderate Disabilities 5-12 (Initial Licensure)
- M.Ed in Special Education: Teacher of Students with Severe Disabilities (Initial Licensure)
Master of Science

M S in Applied Communication: Applied Communication
M S in Applied Communication: Media Technology
M S in Applied Communication: Library Media
M S in Applied Communication: Technical and Professional Writing
M S in Computer Science
M S in Counseling: Marriage and Family Therapy
M S in Counseling: Mental Health Counseling
M S in Counseling: School Counseling—Elementary (Initial Licensure)
M S in Counseling: School Counseling—Secondary (Initial Licensure)
M S in Criminal Justice (IMPORTANT: This program is not accepting applications until Fall 2005)
M S in Nursing (Forensic)

Graduate Level Certificate Programs

Adolescent and Family Therapy
Applied Communication
Child Protective Services
Early Intervention (Currently not accepting new students)
Educational Technology
Fine Arts Director
Forensic Casework (Currently not accepting new students)
Forensic Nursing
School to Career Specialist (Currently not accepting new students)
Substance Abuse Services

Post-Baccalaureate Certificates

Biology (Initial Licensure, 8-12)
English (Initial Licensure, 8-12)
History (Initial Licensure, 8-12)
Math (Initial Licensure, 8-12)
Certificate of Advanced Graduate Study (CAGS)

General Philosophy
Fitchburg State College’s CAGS programs are designed to meet well-defined career needs of professionals who have earned an appropriate Master’s degree and who wish to attain greater competency in a combination of areas of study within one of the major CAGS fields offered.

General Description of Program
Each student’s CAGS program is planned under the direction of an advisor and is built on the academic background, professional position, and career goals of the student. CAGS programs consist of an integrated core curriculum, supervised professional practice, an Internship, and elective courses.

General Program of Study
Upon acceptance into the program, the student’s plan of study is developed with and approved by an advisor, who works with the student over the course of study. A minimum of thirty approved graduate credits is required to complete the CAGS with the following restrictions:

- CAGS courses may not repeat work previously accomplished by the student in other graduate degree study
- CAGS credits must be earned in Graduate-level courses

Details regarding the CAGS curricula, including information about required and elective courses, may be found in the specific CAGS program descriptions which follow.

CAGS—Interdisciplinary Studies

Graduate Program Chair
Harry Semerjian, EdD

Graduate Committee
Ronald P. Colbert, EdD
Rosemarie Giovino, EdD
Anita Hotchkiss, PhD
Bonnie House, MFA
Nancy Kelly, PhD
Nadimpalli Mahadev, PhD
Edward Martens, PhD
Anita Hotchkiss, PhD
Donald Schmidt, PhD
Esmail Valanqad, PhD
Susan Williams, PhD

Program Objectives
The CAGS Program in Interdisciplinary Studies provides the opportunity for students who have completed a Master’s degree to continue advanced degree study in two disciplines of their choice.

Program Description
The program allows participants to step out of the confines of their Master’s degree and create a program of study based on their interests. This CAGS program invites the student to develop his/her ideas and hypotheses and to acquire new understanding and knowledge in such areas as developing critical thinking skills, improving interpersonal relationships, and employing reflection for intellectual growth. By broadening the individual’s background the candidate becomes an effective leader, who has the knowledge and skills to influence institutional reform.

Admissions Standards and Criteria
To apply for enrollment in the CAGS in Interdisciplinary Studies, a student must submit documents as outlined in the Graduate Admissions section as well as:

- Official transcript of a Master's degree from a regionally accredited institution
- MAT/GRE/GMAT exams not required

Program Requirements
Each student’s CAGS program is planned and approved under the direction of an advisor and faculty member/professional from both disciplines chosen by the student. The CAGS consists of an integrated core curriculum, supervised professional practice, and/or an Internship and elective courses.

The integrated core curriculum consists of:

- Fifteen advanced graduate credits in two declared disciplines
- A graduate Internship demonstrating specified competencies in the two fields or graduate thesis related to the same
- A structured seminar taken while writing thesis or completing Internship

The student must complete 36 semester hours, which includes 6 semester hours of core course work and 15 semester hours in each of the two academic disciplines.

At the end of formal academic study, the student shall submit a proposal regarding the graduate thesis or Internship. The committee then meets to review the proposal and its criteria for evaluation implementation.

Potential Combined Fields of Study

Program of Study

Required Core Curriculum

CAGS—Educational Leadership and Management: School Principal or Supervisor/Director

Graduate Program Chair
Michele Zide, EdD
Graduate Committee
Charles Conroy, EdD
David Harris, PhD
John Mara, CAGS
Daniel Nomishan, EdD

Program Objectives
The CAGS in Educational Leadership and Management Program prepares the student to meet the standards of Massachusetts Educator Initial Licensure as a Supervisor/Director (P-12) or School Principal (P-6, 5-8, 9-12).

About the Program
The CAGS Program is an interdepartmental program. Within this spirit, relationships between faculty members in education departments and other programs across the college have been allied.

Program Description
The CAGS program in Educational Leadership and Management is designed for students with the desire to:

- Develop competencies in managerial skills related to political arenas, personnel, fiscal affairs, acquisition of material resources, diverse publics and pupil populations, and organizational change.
- Strengthen, deepen, and expand the knowledge base in the field of leadership and management in order to anticipate and to solve problems inherent in the educational system.
- Demonstrate through course work and field-based experiences the knowledge, skills, and attitudes that are required to lead and manage an educational enterprise effectively and efficiently.

The Program offers preparation for two Massachusetts Educator Licenses

Principal Licensure (P-6, 5-8, 9-12)
Supervisor/Director-Licensure (P-12)

There are two initial licensure options in this program. There is one option for students who wish to seek school principal licensure and a second option for students who wish to supervise or direct Art and/or Music programs in school systems. Successful completion of the degree and all required licensure requirements qualifies degree recipients for endorsement as a principal or supervisor/director.

Non-Licensure Candidates
Students who do not wish to pursue licensure plan a program of study that includes courses from each of the four competency areas and develop a thirty-nine semester hour program that meets their professional and personal goals. Such a program should be planned with and approved by the student's advisor. Applicants to the non-licensure track do not need to submit scores from the Massachusetts Tests for Educator Licensure (MTEL).

Admissions Standards and Criteria
To apply for enrollment in the CAGS in Educational Leadership and Management program, candidates must submit documents as outlined in the Graduate Admission section as well as:

- Official transcript of a Master's degree from a regionally accredited institution.
- Documentation of a minimum of three years teaching experience.
- MAT/GRE/GMAT exams are not required.
- Applicants must provide documentation of a valid teacher certification/license at the initial level.
- Applicants to Option A and B must successfully complete the literacy and communication subtests of the Massachusetts Tests for Educator Licensure (MTEL) and submit passing scores as part of their application.

For more information regarding licensure requirements for teacher preparation programs, contact the Teacher Certification Office at 978-665-3239 or visit their website at www.fsc.edu/edcert.

Program Requirements
A minimum of 39 graduate credits is required to complete the CAGS program. Students plan a program of study with their advisor that is based on professional interests and intent. The program includes courses from each of the four competency areas. The courses in these areas are multi-disciplined and cross departmental lines. In addition a supervised practicum and internship is required. During the practicum/internship, the student becomes involved in a field-based educational administrative experience. Requirements include:

- Practicum is 300 clock hours within one year.
- Internship is 300 clock hours within one year.
- Students seeking professional licensure may complete a 400 clock hour clinical experience.
- Optional thesis (EDLM 9500): A thesis topic is chosen in consultation with the student's advisor early in the last year of study, or not later than the completion of 24 semester hours of study. A student must successfully defend his/her thesis to a committee as described in the handbook of thesis guidelines.
- Comprehensive Exam covering the basic principles and concepts inherent in the field of educational leadership and management.
Program of Study

Core Courses

EDLM 8005  Foundations of Educational Administration  3 S.H.
EDLM 8050  Seminar: Research in Educational Leadership or
EDLM 9110/9220  Practicum and Internship in Leadership and Management  6 S.H.
EDLM 9600  The Contemporary Educational Leader (Capstone)  3 S.H.
Subtotal of core courses 12 S.H.

Non-Licensure Candidates plan a program of study including courses from each competency area.

Competency Areas

Political and Fiscal Affairs

EDLM 7005  Politics of Education  3 S.H.
EDLM 7010  Physical Plants and Transportation  3 S.H.
EDLM 7040  Collective Bargaining in Education  3 S.H.
EDLM 8000  Community Relations  3 S.H.
EDLM 8020  Law for the Educator  3 S.H.
EDLM 8030  Public School Finance  3 S.H.
EDLM 9015  Public Relations Tools for Leaders  3 S.H.

The CAGS in Education Leadership and Management: Higher Education Administration is currently under review and not accepting students.

Program Objectives
The key objectives of the CAGS in Educational Leadership and Management: Higher Education Administration Program are to prepare and develop students with the necessary skills and competencies to administer programs in universities, colleges, and junior colleges; to teach and conduct research in educational environments of all types; and to provide leaders for higher educational institutions and its related professions.

Program Description
The CAGS program in Educational Leadership and Management: Higher Education Administration is designed for students with the desire to:

- Assume the role of college administrators and policy makers, admissions directors, student personnel administrators, deans, directors of institutional advancement, fund raising at junior colleges, senior colleges, and universities.
- Pursue executive positions in cultural, educational, business, government, public policy, and human service organizations and agencies.
- Demonstrate through course work and field-based experiences the knowledge, skills, and attitudes that are required to lead and manage an educational enterprise effectively and efficiently.

Cohorts and Careers
The CAGS program is deliberately limited in enrollment and to students with interests related to the program areas of concentration to assure attention to the student's professional needs. Students come from varied academic backgrounds and institutional types and usually have some experience working in a higher education setting. Each entering cohort of students share some common courses and experiences.

Most students enter administrative, analytic or policy positions. Their initial work usually is in positions reflecting their areas of concentration in settings such as:

- University, college or community college administration;
- Public policy organizations and agencies in postsecondary education;
- Postsecondary continuing education in higher educational institutions, professional association, business or government.

Admissions Standards and Criteria
To apply for enrollment in the CAGS in Educational Leadership and Management program, candidates must submit documents as outlined in the Graduate Admissions section as well as:

- Official transcript of a master's degree from a regionally accredited institution
- MAT/GRE/GMAT exams not required

Program Requirements
A minimum of 36 graduate credits is required to complete the CAGS program. The program curriculum consists of:

- Three Transition Courses from the general Educational Leadership and Management track
- A core of tightly-focused Concentration Courses intended to increase the student's knowledge about and understanding of the interrelated, societal, institutional, and personal dimensions, of higher and postsecondary education.
- An Internship of 300 clock hours to be completed within one year, allows each student to link their academic work to their own professional development needs.

Program of Study
Transition Courses
The following are the basic courses required of CAGS students in the Educational Leadership and Management program:

<table>

Concentration Courses
EDLM 9026 | History of Higher Education | 3 S.H.
EDLM 9030 | Leadership Theory              | 3 S.H.
EDLM 9040 | Organizational Issues          | 3 S.H.
EDLM 9050 | College and University Teaching | 3 S.H.
EDLM 9060 | Social Context                 | 3 S.H.
EDLM 9070 | Strategic Planning in Higher Education | 3 S.H.
EDLM 9080 | Practicum in Higher Education Administration | 6 S.H.
Elective Course | 3 S.H.

Total for CAGS | 36 S.H.
CAGS—Educational Leadership and Management: Technology Leader

Graduate Program Chair
Michele Zide, EdD
Graduate Committee
Charles Conroy, EdD
David Harris, PhD
John Mara, CAGS
Daniel Nomishan, EdD

Program Objectives
The CAGS in Educational Leadership and Management: Technology Leader Program is a non-licensure program designed to provide future leaders in technology for school systems. The technology leader degree track provides an in-depth examination of the implications of the technology revolution that has the potential to transform teaching and learning in our schools. Special emphasis is placed on the key role that technology leaders have in initiating the process of change, technology integration and faculty development. The track includes a variety of opportunity for hands-on technology-based experiences and includes critical core courses in educational leadership and management. This track is primarily offered off-campus through a collaborative partnership with the Merrimack Education Center in Chelmsford.

Program Description
The CAGS program in Educational Leadership and Management is designed for students with the desire to:

• Gain competence in the use of software applications as productivity and learning tools
• Develop perspective on their daily work by examining the theory and practice of education
• Create models that incorporate the use of technology to support effective teaching and curriculum development
• Explore the use of instructional technology to address contemporary educational issues
• Understand the implication of “digital literacy” for teaching and learning
• Plan for building and maintaining technology infrastructure within a school system.

Admissions Standards and Criteria
To apply for enrollment in the CAGS in Educational Leadership and Management: Technology Leader Program, candidates must submit documents as outlined in the Graduate Admissions section as well as:

• Official transcript of a Master's degree from an accredited institution
• MAT/GRE/GMAT exams not required
• The MTEL exam is not required for the Technology Leader track of the CAGS in Educational Leadership and Management.

Program Requirements
A minimum of 36 graduate credits is required to complete the CAGS program. The program curriculum consists of:

Program of Study
Required Core Courses
ED LM 8005 Foundations of Educational Administration 3 S.H.
ED LM 8050 Seminar: Research in Educational Leadership 3 S.H.
ED LM 9100 Dynamics of Planned Change 3 S.H.
ED LM 9020 College Supervision 3 S.H.
ED LM 91XX Practicum/Internship 6 S.H.
Subtotal 18 S.H.

Required Technology Courses
ETEC 9200 Project in Educational Technology 3 S.H.
ED LM 9002 Managing Educational Technology Infrastructure 3 S.H.
Subtotal 6 S.H.

Choose Four Electives in Consultation with Advisor
(Samples of Electives)
ETEC 8700 Creating Educational Web Sites 3 S.H.
ETEC 7600 Impact of Technology in Education 3 S.H.
ETEC 7700 A Graphics Approach to Technology 3 S.H.
ETEC 7800 Using the Computer as a Research Tool 3 S.H.
ETEC 8600 Computer and Writing 3 S.H.
Subtotal 12 S.H.

Total for CAGS 36 S.H.

CAGS—Teacher Leadership

Graduate Program Chair
TBA

The CAGS in Teacher Leadership Program is currently under review and not accepting students.

Program Objectives
The CAGS program in Teacher Leadership is designed to provide individuals who are desirous of playing a teacher leadership role in partnership with colleagues with the necessary collegial orientation and skills to work effectively with administrators, colleagues, family and community members to improve curriculum and instruction. Specifically, the program is designed for teachers who want to remain in the classroom, and yet, want to become competent in affecting the educational process for which they share responsibility.

Program Description
CAGS students in Teacher Leadership acquire an orientation of collegiality and support while becoming competent in the areas of communication, consultation, change facilitation, leadership, reflection, problem solving, and evaluation. They prepare to accept the role of instructional leader and mentor as they engage in research based practices. The course of study allows students to:

• Contribute to the creation of an educational environment that fosters the development of shared leadership skills
• Foster an educational environment for the development of effective teaching and learning skills by assisting fellow teachers in applying the pedagogy of effective teaching
• Foster the development of children and young adults’ critical thinking as a fundamental goal of instruction
• Connect teaching, learning and assessment in a meaningful way

Admissions Standards and Criteria
To apply for enrollment in the CAGS in Educational Leadership and Management: Technology Leader Program, candidates must submit documents as outlined in the Graduate Admissions section as well as:

• Official transcript of a Master's degree from an accredited institution
• MAT/GRE/GMAT exams not required
• The MTEL exam is not required for the Technology Leader track of the CAGS in Educational Leadership and Management.
• develop values, skills and strategies for teaching children and young adults with diverse backgrounds and strengths
• Engage and encourage reflective teaching and self analysis in others
• employ exemplary coaching, mentoring supervisory competencies
• assimilate research-based practices into their existing repertoires and facilitate their inclusion in others
• acquire a repertoire of supervisory and observational skills that will support teachers in the use of varying styles of teaching for improving instruction
• create and disseminate useful resources for pre-service and in-service teachers

Admissions Standards and Criteria
To apply for enrollment in the CAGS in Consultation and Peer Leadership, a student must submit documents as outlined in the Graduate Admissions section as well as:
• Documentation of a Master's degree from a regionally accredited institution
• An appropriate teaching certificate
• MAT/GRE/GMAT exams not required

Program Requirements
The Certificate of Advanced Graduate Study in Consultation and Peer Leadership requires a total of 36 semester hours as follows:
• Twenty-seven credit hours required course work in Education and Psychology
• Nine credit hours as electives

**MASTER OF ARTS/MASTER OF ARTS IN TEACHING**

Master of Arts in Biology
Master of Arts in Teaching Biology

**Graduate Program Chair**
Christopher Cratsley, PhD

**Graduate Committee**
George Babich, PhD
Margaret Hoey, PhD
Howard Thomas, PhD

**Graduate Student Representative**

**Program Objectives**
The Master of Arts (MA) in Biology is designed to prepare the student for a career in Biology, Environmental Science, or for advanced study in these fields. The Master of Arts in Teaching (MAT) Biology prepares the candidate for Professional Teacher Licensure at the secondary level.

**Program Description**
The MA program in Biology offers a flexible program of study with both a thesis and non-thesis track. As students progress through the program, they will develop a strong scientific philosophy, apply sound scientific thinking to analyze biological issues in society, develop skills needed for employment within the field of Biology, and expand the breadth and depth of scientific knowledge.

The MAT in Biology provides a balanced curriculum of Biology and Education courses to give graduates a strong background in content while improving their skills as teachers. Students learn to apply a wide range of biological knowledge including a bioethical perspective, expand their strategies for teaching science to all students, and develop critical thinking skills through experimentation and active learning in the classroom.

**Admissions Standards and Criteria**
Applicants to the MA/MAT in Biology program must submit documents as outlined in the Graduate Admissions section as well as:
- An official transcript of a Bachelor's degree from an accredited institution, preferably with (but not limited to) a major or minor in biology or an allied discipline and at least 2 semesters each of Chemistry, Physics and Mathematics
- The official results of the Graduate Record Exam (GRE)

Notes: Applicants with inadequate preparation will be required to take prerequisite courses prior to admission. Students interested in the thesis option should contact a potential graduate advisor as part of the application process.

- Applicants to the MAT in Biology program must submit a copy of their initial teaching license. Applicants without Initial Licensure may be admitted to the program through the post-baccalaureate program and will be required to complete additional coursework leading to Initial Licensure including 75 hours of pre-practicum experience and a 150 hour practicum.

**Program Requirements**
The Masters of Arts in Biology program has a thesis and non-thesis track. Each track provides the student with a solid investigative core balanced by content course work. During the first year each student completes a biology seminar during which the student's writing and communication skills are evaluated. The thesis committee (comprised of the thesis advisor and at least two other graduate faculty) helps the student design a series of courses (electives) which aid him/her in successfully completing the thesis.

Students in the MAT program complete 18 credits in Biology. All MAT students are required to take Bioethics, Seminar in Biology, and a series of Biology electives. As part of the Biology electives, students must take at least one course from each of the following areas chosen in consultation with their advisor: 1) Ecology and Evolutionary Biology, 2) Cellular and Molecular Biology. In addition, MAT candidates must complete 18 credits in Education courses directly related to licensure requirements.

For more information regarding licensure requirements for teacher preparation programs, contact the Teacher Certification Office at 978-665-3239 or visit their website at www.fsc.edu/edcert.
**Master of Arts in Teaching Earth Science**

**Graduate Program Chair**

TBA

The MAT in Earth Science program is currently under review and not accepting new students. Contact the Dean of Education, Dr. Elaine Francis at 978-665-3239.

**Program Objectives**

The Master of Arts in Teaching (MAT) Earth Science program is designed for students with Initial Licensure who are seeking Professional Licensure as secondary school teachers of Earth Science. The program produces professional teachers who are able to combine a solid base of scholarship in a specific academic discipline with effective teaching strategies based on the findings of research.

**Program Description**

The MAT in Earth Science program offers graduate students rigorous scholarship within a specific academic discipline in combination with the pedagogical tools and strategies necessary for the most effective classroom teaching. The program is designed to prepare secondary school teachers for the twenty-first century and to provide models of exemplary teaching methods. Through involvement in intensive, supervised clinical experiences in the secondary school, candidates enhance their skills as educators and learn to analyze and evaluate effective teaching in their academic discipline. The program of study:

- Promotes the development of a scholar-teacher with a strong background in Earth Science, as well as skills in the complex process of teaching Earth Science
- Demonstrates the application of a wide range of scientific knowledge including theoretical, ethical, and experimental perspectives
- Suggests ways to integrate the role of women and racial and ethnic groups into traditional Earth Science courses
- Enables teachers to incorporate multicultural and gender-balanced perspectives into their strategies for teaching
- Develops rigorous critical thinking skills and integrates these skills into their teaching
- Inculcates a sound philosophy of teaching
- Enables students interested in Earth Science to pursue advanced studies
- Corresponds with the licensure requirements of the Department of Education of the Commonwealth of Massachusetts

**Admissions Standards and Criteria**

To apply for enrollment in the Master of Arts in Teaching Earth Science program, students must submit documents as outlined in the Graduate Admissions Section as well as:

- Evidence of an undergraduate major in Earth Science or a relevant discipline (at least 30 credits)
- Applicants to the MAT in Earth Science must submit a copy of their initial teaching license. Applicants without Initial Licensure may be admitted to the program through the post-baccalaureate program and will be required to complete additional coursework leading to Initial Licensure.

For more information regarding licensure requirements for teacher preparation programs, contact the Teacher Certification Office at 978-665-3239 or visit their website at www.fsc.edu/edcert.

**Program Requirements**

Students in the MAT program in Earth Science must complete:

- Fifteen credits in Earth Science, including at least one course in each of the following areas: geology, astronomy, meteorology, oceanography, and ecology
- Additional Earth Science course work to meet the categories of Standard I, if the student enters the program with inadequate preparation in Earth Science at the undergraduate level
- Clinical core of five courses including: Advanced Methods of Teaching at the Secondary Level, Curriculum and Technology, Curriculum Design and Development, Research in Education, and a Clinical Experience or Internship

Students work closely with an advisor in the academic concentration to design individual programs to further their knowledge, scholarship, and subject-related teaching skills.

Master of Arts in English

Master of Arts in Teaching English

Graduate Program Chair
Chola Chisunka, PhD

Graduate Committee
Robert A. Adams, PhD  Irene Martyniuk, PhD
Janice Abergare, PhD  Thomas Murray, PhD
Lisa Gim, PhD  Doris Schmidt, PhD
Nancy Kelly, PhD  Nancy Yee, PhD

Program Description
The English Department offers two graduate degrees in English, the Master of Arts in English and the Master of Arts in Teaching English.

The Master of Arts in English (MA) provides specialization in the study of the traditional and newer canons of literature, literary theories, and research writing. The MA is designed for students pursuing careers in literature, writing, research, and community college or college teaching. It provides a background for students planning to go on to a Ph.D. program. A joint MA program with the History Department allows students to specialize in the History and Literature of Women and develop expertise in the interdisciplinary area of Women's Studies. It aims to provide students with the academic foundation needed to pursue doctoral work in Women's History, Women's Literature, or Women's Studies.

The Master of Arts in Teaching English (MAT) program is designed to develop the scholar-teacher by providing a strong background in English and skills for the complex process of teaching English. The MA program is designed for students interested in studying the theories, methodologies, and materials for teaching English in the middle and secondary schools in addition to broadening their knowledge of literature.

The MAT program aims to:
- Bridge the gap between cutting-edge scholarship and classroom practice
- Suggest ways to integrate the voices of women and minorities into the traditional literary canon
- Enable practicing teachers to expand strategies for teaching writing through the use of process writing, collaborative writing, and writing on the computer
- Enable practicing teachers to expand strategies for teaching literature through the application of current modes of criticism

MAT in English Certification program is designed to provide students with the necessary course work for Professional Licensure as teachers of English. Students not holding Initial Licensure take additional course work during their first semesters leading to that level of certification.

Admissions Standards and Criteria
To apply for enrollment in the Master of Arts in English or Master of Arts in Teaching English program, a student must submit documents as outlined in the Graduate Admissions section as well as:
- An official transcript of a Bachelor's degree from an accredited institution, preferably with (but not limited to) a major or minor in English
- Applicants to the MAT in English must submit a copy of their initial teaching license. Applicants without Initial Licensure may be admitted to the program through the post-baccalaureate program and will be required to complete additional coursework leading to Initial Licensure.

For more information regarding licensure requirements for teacher preparation programs, contact the Teacher Certification Office at 978-665-3239 or visit their website at www.fsc.edu/edcert.

Note: Applicants with inadequate preparation for success in the program will be required to take undergraduate courses in English prior to admission. For those pursuing certification there may be additional or prerequisite courses, depending upon previous coursework in education.

*The experience must include a research project. The proposal is developed in the Research in Education Course and conducted during the clinical experience or internship.

Students Seeking Initial Licensure
Students needing initial licensure in earth science in order to pursue the MAT in Earth Science with professional licensure may complete the post baccalaureate certificate program found in the undergraduate program section of this catalog.
Master of Arts in English Program of Study
Courses in specific periods and genres in American, British, and World Literature as well as literary research and theory are required.

ENGL 8050 Graduate Research in English 3 S.H.
ENGL 9000 Literary Theory 3 S.H.
Nine 9000-Level Literature Courses (must be approved by advisor) 27 S.H.

Master's Thesis Option: Students may apply to do a six-credit Master's Thesis (See Master's Thesis Guidelines) or take two elective courses in Literature (must be approved by advisor):

ENGL 9100 Master's Thesis Research 3 S.H.
ENGL 9200 Master's Thesis Writing 3 S.H.

Total for Degree 33 S.H.

History and Literature of Women Program of Study
Required Core
ENGL 8050 Graduate Research in English 3 S.H.
HIST 7450 Historiography 3 S.H.
Seminar in the History and Literature of Women 3 S.H.

Women's History and Literature Courses
Three courses in the History of Women (must be approved by advisor) 9 S.H.
Four courses in the Literature of Women (must be approved by advisor) 12 S.H.
M aster's Thesis 6 S.H.

Total for Degree 36 S.H.

Master of Arts in Teaching Program of Study
ENGL 8050 Graduate Research in English 3 S.H.
ENGL 8070 Literature in the Classroom 3 S.H.
ENGL 8071 Literature for Young Adults 3 S.H.
ENGL 8076 Process Writing Across the Curriculum 3 S.H.
Six 9000-Level Literature Courses (must be approved by advisor) 18 S.H.
One English Education or Literature Elective (must be approved by advisor) 3 S.H.

Total for Degree 33 S.H.

Master of Arts in Teaching English Professional Licensure Program of Study
ENGL 8050 Graduate Study and Research in English 3 S.H.
ENGL 8070 Literature in the Classroom 3 S.H.
ENGL 8071 Literature for Young Adults 3 S.H.
ENGL 8076 Process Writing Across the Curriculum 3 S.H.
Four 9000-Level Literature Courses (must be approved by advisor) 12 S.H.
Subtotal 24 S.H.

Education Core for Professional Licensure
ENGL 8000 Advanced Methods of Teaching at the Secondary Level 3 S.H.
ENGL 8250 Curriculum and Technology 3 S.H.
ENGL 8260 Curriculum Design and Development 3 S.H.
ENGL 9400 Clinical Experience (400 hours) and Research Project 6 S.H.
ENGL 9500 Internship (400 hours) and Research Project 6 S.H.

Subtotal 15 S.H.

Students Seeking Initial Licensure
Students needing initial licensure in English in order to pursue the MAT in English with professional licensure may complete the post-baccalaureate certificate program found in the undergraduate program section of this catalog.

Note: All applicants with inadequate preparation in history are required to take undergraduate courses in history prior to admission.
Program Requirements
The MA program requires 36 hours of academic work, including completion of a master's thesis. Two tracks are available, described in the program of study. All degree candidates must pass a written comprehensive examination with questions in at least two different historical areas and one historiography question related to the thesis topic. Students are also required to pass an oral thesis defense. Details regarding advancement to candidacy are available from the History Department.

The MAT program has two tracks. Both tracks include a content core in history.

Track A is for teachers who are already licensed and seeking advanced studies in history and the teaching of history.

Track B is for students with Initial Licensure who seek Professional Licensure*. In addition to the content core, students must complete a 21-credit clinical core of education courses designed to fulfill requirements for Professional Licensure.

*Students applying for Track B who do not have Initial Licensure may be admitted to the program but will be required to complete additional coursework leading to Initial Licensure including 75 hours of pre-practicum experiences and a 150 hour practicum.

MA in History Program of Study
The MA in History Program offers two tracks.

**Track A—Master of Arts**

**Total for Degree**: 36 S.H.

*The core experience must include a research project. The proposal is developed in the Research in Education course and conducted during the clinical experience or internship.

Students Seeking Initial Licensure
Students needing initial licensure in history in order to pursue the MAT in History with professional licensure may complete the post baccalaureate certificate program found in the undergraduate program section of this catalog.

Master of Arts in Teaching Mathematics

**Graduate Program Chair**
TBA

**Graduate Committee**
Christine Cosgrove, PhD Claire M. Andrew, EdD
Lucy D'ehène, PhD Mark Snyder, PhD
Barry Light, EdD Abdulkeni Zekeria, PhD
Gerald Higdon, PhD

The MAT in Mathematics Program is currently under review and not accepting new students. Contact the Dean of Education, Dr. Elaine Francis at 978-665-3239.

Students needing initial licensure in mathematics may begin their program of study now by completing the post baccalaureate certificate program found in the undergraduate section of this catalog.
Program Objectives
The Master of Arts in Teaching Mathematics program is designed to provide sufficient content courses in mathematics and professional courses in education to educate students in advanced mathematics and to prepare candidates for Professional Licensure at the secondary level.

Program Description
The MAT program in mathematics aims to:
- Enhance and deepen the candidate's knowledge of mathematics
- Develop the candidate's teaching skills
- Strengthen the interactive connection between field-based experience and knowledge of theory
- Provide interdisciplinary studies
- Improve the candidate's skills to:
  a. Communicate with high school students and evaluate their progress
  b. Develop and evaluate curriculum
  c. Continue his/her own professional development

Two tracks are available: Track A is a professional graduate track for those who desire advanced study in mathematics and/or who currently hold Professional Licensure at the Secondary Level. Track B is for students with Initial Licensure*. In addition to the content core, students must complete an 18-credit clinical core of education courses designed to prepare the student for Professional Licensure at the Secondary Level. Each semester various content courses will be offered. Students should check current class listing for course selection.

Admission Standards and Criteria
To apply for enrollment in either the Master of Arts or Master of Arts in Teaching Mathematics program, students must submit documents as outlined in the Graduate Admissions section as well as:
- An official transcript of a baccalaureate degree from a regionally accredited institution, preferably with (but not limited to) a major in mathematics.
- The official results of the Graduate Record Exam (GRE).
- Applicants with inadequate preparation in mathematics will be required to take undergraduate courses in mathematics prior to admission. For those pursuing certification there may be additional prerequisite courses depending upon what previous coursework in education has been completed.
- Applicants to the MAT in Mathematics must submit a copy of their initial teaching license. Applicants without Initial Licensure may be admitted to the program through the post-baccalaureate program and will be required to complete additional coursework leading to Initial Licensure.

For more information regarding licensure requirements for teacher preparation programs, contact the Teacher Certification Office at 978-665-3239 or visit their website at www.fsc.edu/edcert.

Program Requirements
All students must complete a core of at least one content mathematics course in each of the following three groupings:
1. Algebra
   - Number Theory
2. Analysis
   - Probability
3. Geometry
   - Mathematical Modeling
   - Discrete Mathematics

Additionally, all students must satisfactorily pass two approved comprehensive examinations. One exam must cover two of the above three content course groupings. The other may be in mathematics education.

Students in Track A, the professional graduate track, must complete 21 semester hours of content courses in mathematics and 9 semester hours of electives.

Students in Track B, the clinical track, must complete 18 semester hours of content courses in mathematics and a 18-credit clinical core of education courses directly related to certification requirements.

Program of Study
Track A
- Content Courses in Mathematics: 21 S.H.
- Approved Electives: 6 S.H.
- Electives in Education: 3 S.H.
- Total Credits: 30 S.H.

Track B
- Content Courses in Mathematics: 18 S.H.
- Education Core for Professional License**
  - MATH 8000 Advanced Methods of Teaching at the Secondary Level: 3 S.H.
  - MATH 8250 Curriculum and Technology: 3 S.H.
  - MATH 8260 Curriculum Design and Development: 3 S.H.
  - EDUC 8300 Research in Education: 3 S.H.
  - MATH 9400 Clinical Experience or MATH 9500 Internship: 6 S.H.
- Total Credits: 36 S.H.

**The core experience must include a research project. The proposal is developed in the research in Education course and conducted during the clinical experience or internship.

Students Seeking Initial Licensure
Students needing initial licensure in mathematics in order to pursue the MAT in Mathematics with professional licensure may complete the post-baccalaureate certificate program found in the undergraduate program section of this catalog.
**Program Objectives**

The Master of Business Administration (MBA) degree is designed to provide students with the skills and knowledge necessary to become leaders in business and administration. It seeks to develop decision makers with strong analytical skills who are socially responsible, sensitive to cultural diversity, and aware of the broadening world market.

**Program Description**

The MBA program is comprised of three course clusters, including 24 credits of a foundation level core and 30 credits from an advanced core and specialized tracks. To complete the degree students must fulfill the following:

**Eight courses (24 credits) at the foundation level**

The foundation courses provide essential background knowledge regarding accounting, economics, management, marketing, finance, quantitative analysis, business law, and data processing. (It is assumed that most students entering the program with an undergraduate degree in business administration will be able to waive these foundation courses. Life experience credit may be used for waiver of some of the foundation courses based on evaluation and recommendation of a faculty committee.)

**Six courses (18 credits) in advanced core**

In the advanced core students acquire advanced skills and knowledge regarding current business and management practice and methodology.

**Three specialized tracks**

The specialized tracks are in the fields of accounting, human resources management, and management. Each track includes three specialized courses and one free elective.

**Admissions Standards and Criteria**

Admissions criteria meet the standards of the three national accrediting agencies, The International Assembly for Collegiate Business Education (IACBE), Member of American Assembly of Collegiate Schools of Business (AACSB), Member of Association of Collegiate Business Schools and Programs (ACBSP). To enroll in the Master of Business Administration Program, a student must submit documents as outlined in the Graduate Admissions section as well as:

- The official results of the Graduate Management Admissions Test (GMAT)
- In addition to the College's standard admission requirements for Master's degree programs, all applicants are expected to have:
  - An undergraduate GPA not less than 2.8
  - A GMAT score of not less than 400
  - TOEFL scores for natives of non-English speaking countries
  - A formula score of not less than 1000
    \[ \text{Formula} = (200 \times \text{undergraduate GPA}) + \text{GMAT score} \]

Applicants whose formula score is less than 1000 but whose record exhibits promise in other ways may be admitted. No more than 10 to 20 percent of MBA candidates are accepted under these circumstances.

<td>Quality Management Theory</td>
<td>3 S.H.</td>
</tr>
<tr>
<td>MGMT 9002</td>
<td>Management of the Global Environment</td>
<td>3 S.H.</td>
</tr>
<tr>
<td>MGMT 9020</td>
<td>Economic Theory and Management</td>
<td>3 S.H.</td>
</tr>
<tr>
<td>MGMT 9450</td>
<td>Selected Topics in Management</td>
<td>3 S.H.</td>
</tr>
<tr>
<td>MGMT 9600</td>
<td>E-Commerce</td>
<td>3 S.H.</td>
</tr>
</tbody>
</table>

Subtotal: 9 S.H.

** MGMT 9130 Business and Society may be replaced by MGMT 9008 Quality Management Theory or MGMT 9002 Management of the Global Environment or approved by the chair for HR relevance.

** MGMT 9020 Economic Theory and Management may be replaced by MGMT 9450 Selected Topics in Management or approved by the chair for HR relevance.

### Free Elective

** MGMT 9080 Management Theory and Process may be replaced by MGMT 9450 Selected Topics in Management or approved by the chair for HR relevance.

** MGMT 9600 E-Commerce may be replaced by MGMT 9450 Selected Topics in Management or approved by the chair for HR relevance.

### Total for Degree

**Note:** Students electing the Accounting Track must either be graduates of approved undergraduate Accounting programs or have at least 24 undergraduate credit hours beyond Basic Accounting with the approval of the Program Director.
MASTER OF EDUCATION PROGRAMS

MEd—Arts Education

Graduate Program Chair
Harry Semerjian, EdD

Graduate Committee
Michée Caniato, DMA
Walter Jeffko, PhD
Susan Wadsworth, MFA
Keyvan Karbasioun, EdD

Program Objectives
The program of study for the Master of Education in Arts Education is a non-licensure degree program designed to provide creative experiences in the arts for teachers and community workers and enables them to transfer the creative process to their professional situations.

Program Description
The curriculum for the Master of Education in Arts Education integrates the arts and the creative process in three course areas, including core courses in Arts Education and Curriculum, Distribution courses in special topics, and electives, which may include Independent Study or Field Experience.

Admissions Standards and Criteria
To apply for enrollment in the Master of Education in Arts Education program, students must submit documents as outlined in the Graduate Admissions section on as well as:

- An official transcript of a Bachelor’s degree from a regionally accredited institution preferably with (but not limited to) a major or minor in an art area such as language arts, visual arts, music, physical education or dance
- A personal statement outlining the student’s rationale for entering the program

Program of Study
Core Courses

| CRAR 9051 | Supervising, Directing and Leading in Arts Education I | 3 S.H. |
| CRAR 9052 | Supervising, Directing and Leading in Arts Education II | 3 S.H. |
| CRAR 9060 | Creative Arts Research | 3 S.H. |
| CRAR 9070 | Creative Arts Curriculum Development and Applications | 3 S.H. |
| CRAR 9090 | Arts Presentation | 3 S.H. |

Subtotal 15 S.H.

Distribution Courses
Students choose five courses from any of the six distribution areas.

- Integrated Arts
- Music
- Movement
- Language Arts/Drama
- Visual Arts
- Crafts (Available only through Worcester Center for Crafts)

Subtotal 15 S.H.

Additional Courses
A minimum of 3 semester hours must be fulfilled in one of the following ways:

- Courses from any of the above distribution areas
- Credits transferred into the program
- Courses related to graduate areas
- Independent Study
- Field Experiences in Creative Arts

Subtotal 3 S.H.

Total for Degree 33 S.H.

See also Fine Arts Director Certificate Program.

MEd—Educational Leadership and Management

Graduate Program Chair
Michée Zide, EdD

Graduate Committee
Charles Conroy, EdD
David Harris, PhD
John Mara, CAGS
Daniel Nomishan, EdD

Program Objectives
The Master of Education in Educational Leadership and Management Program prepares the student to meet the standards of Massachusetts Educator Initial Licensure as either a Supervisor/Director (P-12) or School Principal (P-6, 5-8, 9-12). The program offers courses and experience, that equip school administrators with the skills and competencies necessary for becoming effective educational leaders.

About the Program
This Program is an interdepartmental program. Within this spirit, relationships between faculty members in education departments and other programs across the college have been allied.

Program Description
The program prepares educational administrators who are reflective, person-centered practitioners able to effectively construct, articulate, and apply educational theory and research through leadership roles. The program aims to prepare students to:

- Develop competencies in managerial skills related to political arenas, personnel, fiscal affairs, acquisition of material resources, diverse populations, and organizational change
- Strengthen, deepen, and expand the knowledge base in the field of leadership and management in order to anticipate and to solve current and future problems inherent in the educational system
- Demonstrate through course work and field-based experiences the knowledge, skills, and attitudes that are required to lead and manage an educational enterprise effectively and efficiently
The College offers preparation for two Massachusetts Licenses
Principal Licensure (P-6, 5-8, 9-12)  
Supervisor/Director-Licensure (P-12)
There are two initial licensure options in this program. There is one option for students who wish to seek school principal licensure and a second option for students who wish to supervise or direct Art and/or Music programs in school systems. Successful completion of the degree and all requisite licensure requirements qualifies degree recipients for endorsement as a principal or supervisor/director.

Non-Licensure Candidates
Students who do not wish to pursue licensure may, in consultation with their advisor, plan a 39 credit program of study that meets their professional and personal goals. Courses from each of the four competency areas should be included. Applicants to the non-licensure track do not need to submit scores from the Massachusetts Tests for Educator Licensure (MTEL).

Admissions Standards and Criteria
To apply for enrollment in the MEd in Educational Leadership and Management program, the student must submit documents as outlined in the Graduate Admissions section on as well as:

• A minimum of three years of teaching experience
• Applicants to Track A and B must successfully complete the literacy and communication subtests of the Massachusetts Tests for Educator Licensure (MTEL) and submit passing scores as part of their application. In addition, students must successfully pass the appropriate content area exam(s) of the MTEL prior to student teaching.
• Applicants must provide documentation of a valid teacher certification/license at the initial level.

For more information regarding licensure requirements for teacher/administrator preparation programs, contact the Educator Licensure Office at 978-665-3239 or visit their web site at www.fsc.edu/edcert.

Program Requirements
A minimum of 39 graduate credits is required to complete the MEd program as well as to prepare for application for one of the two initial licenses: Principal/Supervisor/Director License (Track A) and Supervisor/Director-Art or Music (Track B).

Both programs consist of:

• A core of tightly-focused and comprehensive courses;
• Students within the Massachusetts licensure sequence are involved in three broad based pre-practicum experiences leading up to the formal practicum/internship. A supervised practicum/internship in the form of field based educational experience. The practicum is 300 clock hours to be completed within one year. The internship is 300 clock hours to be completed within one year.
• Optional Thesis (EDLM 9500): A thesis topic is chosen in consultation with the student’s advisor early in the last year of study, or no later than the completion of 24 semester hours of study. A student must successfully defend his/her thesis to a committee as described in the handbook of thesis guidelines;
• Comprehensive Exam covering the basic principles and concepts inherent in the field of educational leadership and management.

Non-Licensure Candidates
Students who do not wish to pursue licensure may take the core courses in either track plus 6 semester hours of electives for a total of 39 semester hours.
MEd—Educational Leadership and Management:
Technology Leader

**Program Objectives**
The MEd in Educational Leadership and Management: Technology Leader Program is a non-licensure program designed to provide future leaders in technology to school systems. The technology leader degree track provides an in-depth examination of the implications of the technology revolution that has the potential to transform teaching and learning in our schools. Special emphasis is placed on the key role that technology leaders have in initiating the process of change, technology integration and faculty development. The track includes a variety of opportunity for hands-on technology-based experiences and includes critical core courses in educational leadership and management.

*This track is primarily offered off-campus through a collaborative partnership with the Merrimack Education Center in Chelmsford.*

**Program Description**
The MEd program in Educational Leadership and Management is designed for students with the desire to:

- Gain competence in the use of software applications as productivity and learning tools
- Develop perspective on their daily work by examining the theory and practice of education
- Create models that incorporate the use of technology to support effective teaching and curriculum development
- Explore the use of instructional technology to address contemporary educational issues
- Understand the implication of “digital literacy” for teaching and learning
- Plan for building and maintaining technology infrastructure within a school system.

**Admissions Standards and Criteria**
To apply for enrollment in the MEd in Educational Leadership and Management: Technology Leader Program, candidates must submit documents as outlined in the Graduate Admissions section. The MTEL Exam is not required for this Technology Leadership track of the MEd in Educational Leadership and Management.

**Program Requirements**
A minimum of 36 graduate credits is required to complete the MEd program. The program curriculum consists of:

**Program of Study**

**Required Core Courses**
- EDLM 8040 Curriculum and Evaluation 3 S.H.
- EDLM 8050 Seminar: Research in Educational Leadership 3 S.H.
- EDLM 9100 Dynamics of Planned Change 3 S.H.
- EDLM 9020 College Supervision 3 S.H.
- EDLM 91XX Practicum/Internship 6 S.H.

Subtotal 18 S.H.

**Required Technology Courses**
- ETEC 9200 Project in Educational Technology 3 S.H.
- ETEC 9042 Managing Educational Technology Infrastructure 3 S.H.

Subtotal 6 S.H.

**Choose Four Electives in Consultation with Advisor (Samples of Electives)**
- ETEC 8700 Creating Educational Web Sites 3 S.H.
- ETEC 7600 Impact of Technology in Education 3 S.H.
- ETEC 7700 A Graphics Approach to Technology 3 S.H.
- ETEC 7800 Using the Computer as a Research Tool 3 S.H.
- ETEC 8600 Computer and Writing 3 S.H.

Subtotal 12 S.H.

**Total for Degree** 36 S.H.

---

M.Ed.—Early Childhood, Elementary, or Middle School Education

**Graduate Program Chairs**
- Margaret O’Hearn-Curran, PhD
- Glenda Ouellette, EdD

**Graduate Committee**
- Ronald Colbert, EdD
- Rona Flippo, EdD
- Charles Hetzel, PhD
- Daniel Nomishan, EdD

The M.Ed. programs in Early Childhood Education, Elementary Education, and Middle School Education offer 2 tracks: one for the Professional License in the selected licensure area and one for the Initial License in the selected licensure area.

**Professional Licensure Track**

**Program Objectives**
The M.Ed. in Early Childhood Education, M.Ed. in Elementary Education, and the M.Ed. in Middle School Education programs in the professional license track are designed for fully licensed teachers who wish to pursue advanced levels of reflection, knowledge, skill, and professionalism.

**Program Descriptions**
The M.Ed. in Early Childhood Education, M.Ed. in Elementary Education, and the M.Ed. in Middle School Education programs of study enable educators to:

- Reflect on historical, philosophical, and theoretical perspectives related to current educational issues and practice
- Examine empirical research and engage in the scientific reasoning process
Acquire and apply advanced knowledge of child development theory and research in the design and implementation of education curricula, practices, and environments

Acquire knowledge of how children develop as thinkers and learners

Acquire and apply advanced knowledge of emerging, research-based educational principles in the planning, implementation, and evaluation of the educational environment and instructional program

Become more aware of societal demands on the curriculum as they relate to meeting the diverse needs of students

Investigate effective educational partnership models, which focus on family strengths, circumstances, and cultural experiences

Demonstrate effective strategies and techniques for working with diverse populations of students in integrated learning environments

Examine the shared values, ethics, purposes, and commitments, which bond the educational community

Acquire a professional orientation of collegiality and support, whereby contributions can be made to the improvement of education through the construction of knowledge and application

Broaden curriculum content knowledge and skills

Admissions Standards and Criteria

To apply for enrollment in the Master of Education in Early Childhood Education, Master of Education in Elementary Education or Master of Education in Middle School Education, a student must submit documents as outlined in the Graduate Admission section as well as:

- An appropriate teacher license (An Initial or Professional License is required for admission).

For more information regarding licensure requirements for teacher preparation programs, contact the Educator Licensure Office at 978-665-3239 or visit their web site at http://www.fsc.edu/edcert.

Program Requirements

The Master of Education in Early Childhood Education, Master of Education in Elementary Education, and Master of Education in Middle School Education require that 36 semester hours be acquired in a suggested sequence within six years or less. The course sequence has been designed to ensure quality and provide flexibility to serve the variety of student interests and professional needs. A program advisor assists each student with the planned sequence and advises the selection of electives to meet individual goals, interests, and licensure requirements.

Each program is composed of:

- Three required common core courses
- Designated specialized courses from the selected disciplines of Early Childhood Education, Elementary Education, or Middle School Education
- Content elective courses to fulfill licensure or recertification requirements and to compete the 36-semester hour program.

**Content Elective Courses**

Students in each discipline, with the recommendation of an advisor, select a combination of content elective credits, which serve the individual’s professional goals, interests and licensure requirements, and complete the 36-semester hour program. It is strongly advised that students seek approval of their advisor before selecting content electives.

Subtotal of Electives: 12-15 S.H.

Total for Degree: 36 S.H.

(*A) (*B) (*C) indicate sequence suggested to strengthen knowledge, skills, and attitudes. It is strongly recommended that students follow this sequence in order to gain the necessary knowledge and competencies for more advanced courses.

**Initial Licensure Track Program Objectives**

The Master of Education in Early Childhood Education, M.Ed. in Elementary Education, and M.Ed. in Middle School Education programs in the Initial Licensure Track are designed for those individuals who have completed an appropriate baccalaureate degree but without an Initial License who wish to acquire the competencies and requirements for the Initial License of the selected program, i.e. Early Childhood Education, Elementary Education or Middle School Education.
Program Description

The M.Ed. in Early Childhood Education, M.Ed. in Elementary Education, and M.Ed. in Middle School Education programs in the Initial Licensure Track aim to enable candidates to:

- Acquire the competencies and habits of mind of effective teaching
- Reflect on historical, philosophical, and theoretical perspectives related to current educational issues and practice
- Examine empirical research and engage in the scientific reasoning process
- Acquire and apply advanced knowledge of child development theory and research in the design and implementation of education curricula, practices, and environments
- Acquire knowledge of how children develop as thinkers and learners
- Acquire and apply advanced knowledge of emerging, research-based educational principles in the planning, implementation, and evaluation of the educational environment and instructional program
- Become more aware of societal demands on the curriculum as they relate to meeting the diverse needs of students
- Investigate effective educational partnership models, which focus on family strengths, circumstances, and cultural experiences
- Demonstrate effective strategies and techniques for working with diverse populations of students in integrated learning environments
- Examine the shared values, ethics, purposes, and commitments, which bond the educational community
- Acquire a professional orientation of collegiality and support, whereby contributions can be made to the improvement of education through the construction of knowledge and applications

Admissions Standards and Criteria

To apply for enrollment in the Master of Education in Early Childhood Education, Master of Education in Elementary Education or Master of Education in Middle School Education, a candidate must submit documents as outlined in the Graduate Admission section as well as:

- Passing score on the Communication and Literacy Skills portion of the Massachusetts Tests for Educator Licensure (MTEL)

Upon completion of this program and endorsement of the candidate for the Initial License, the candidate may choose to matriculate into a post-master’s 18-credit program for the Professional License.

Program Requirements

The M.Ed. for Initial License in Early Childhood Education, Elementary Education, and Middle School Education requires that 36 semester hours be acquired in a suggested sequence. The course sequence has been designed to ensure a developmental approach to acquiring the necessary competencies of effective teachers. A program advisor assists each candidate with the planned sequence and advises the selection of courses.

Program Description

The M.Ed. in Early Childhood Education, M.Ed. in Elementary Education, and M.Ed. in Middle School Education programs in the Initial Licensure Track aim to enable candidates to:

- Acquire the competencies and habits of mind of effective teaching
- Reflect on historical, philosophical, and theoretical perspectives related to current educational issues and practice
- Examine empirical research and engage in the scientific reasoning process
- Acquire and apply advanced knowledge of child development theory and research in the design and implementation of education curricula, practices, and environments
- Acquire knowledge of how children develop as thinkers and learners
- Acquire and apply advanced knowledge of emerging, research-based educational principles in the planning, implementation, and evaluation of the educational environment and instructional program
- Become more aware of societal demands on the curriculum as they relate to meeting the diverse needs of students
- Investigate effective educational partnership models, which focus on family strengths, circumstances, and cultural experiences
- Demonstrate effective strategies and techniques for working with diverse populations of students in integrated learning environments
- Examine the shared values, ethics, purposes, and commitments, which bond the educational community
- Acquire a professional orientation of collegiality and support, whereby contributions can be made to the improvement of education through the construction of knowledge and applications

Admissions Standards and Criteria

To apply for enrollment in the Master of Education in Early Childhood Education, Master of Education in Elementary Education or Master of Education in Middle School Education, a candidate must submit documents as outlined in the Graduate Admission section as well as:

- Passing score on the Communication and Literacy Skills portion of the Massachusetts Tests for Educator Licensure (MTEL)

Upon completion of this program and endorsement of the candidate for the Initial License, the candidate may choose to matriculate into a post-master’s 18-credit program for the Professional License.

Program Requirements

The M.Ed. for Initial License in Early Childhood Education, Elementary Education, and Middle School Education requires that 36 semester hours be acquired in a suggested sequence. The course sequence has been designed to ensure a developmental approach to acquiring the necessary competencies of effective teachers. A program advisor assists each candidate with the planned sequence and advises the selection of courses.

Each program is composed of:

- Five required common core courses
- Designated specialized courses from the selected disciplines of Early Childhood Education, Elementary Education, or Middle School Education
- Field experiences and practicum experiences

Candidates in the M.Ed. Programs for the Initial License of Teachers of Early Childhood Education, Elementary Education and Middle School Education must complete or demonstrate:

- Passing scores on the Communications and Literacy Skills portion of MTEL (required for matriculation)
- Passing scores on the content portions of MTEL required for Initial License in the selected discipline
- 125 hours field experience (these field experiences will be conducted in diverse settings)
- 300 hours practicum

Admission to the practicum is dependent upon a passing score on all required portions of MTEL required for Initial License in the selected discipline, i.e. Early Childhood Education, Elementary Education or Middle School Education; completion of all field experience; and positive vote(s) by the Graduate Curriculum Committee.

MEd—General Studies

Graduate Program Chair
Margaret O’Hearn-Curran, PhD

Graduate Committee
George Bohrer, PhD
Pamela Hill, EdD
Anne Howard, PhD

Program Objectives
The MEd in General Studies in Education is a non-licensure degree program designed for individuals who wish to pursue advanced levels of reflection, knowledge, skill, and professionalism in the field of education.

Program Description
It is intended that the individual will continue to develop as a reflective, student-centered individual who is able to effectively articulate and apply educational theory and research in the field of education.

To this end, graduate students will:

• Reflect on historical, philosophical, and theoretical perspectives related to current educational issues and practices
• Examine empirical research and engage in the scientific reasoning process
• Acquire and apply advanced knowledge, educational theory, and research in the design and implementation of appropriate educational curricula, practices, and environments
• Acquire knowledge of how individuals develop as thinkers and learners
• Acquire and apply advanced knowledge of emerging, research based, educational principles in the planning, implementation, and evaluation of the educational environment and instructional programs
• Become more aware of societal demands on the curriculum as they relate to meeting the diverse needs of individuals
• Investigate educational partnership models which effectively focus on family strengths, circumstances, and cultural experiences
• Demonstrate effective strategies and techniques for working with diverse individuals in integrated learning environments
• Examine the shared values, ethics, purposes, and commitments which bond the educational community
• Acquire an orientation of collegiality and support, whereby contributions can be made to the future improvement of education through the construction of knowledge and its application
• Be prepared to pursue further graduate studies

Admissions Standards and Criteria
To apply for enrollment in the Master of Education in General Studies Program, students must submit documents as outlined in the Graduate Admission section. Applicants to this program are not required to submit scores for the Massachusetts Test for Educator Licensure (MTEL) or a copy of a teaching license.

Program of Study
EDUC 7400 Contemporary Issues in Education 3 S.H.
EDUC 8300 Research in Education 3 S.H.
EDUC 9500 Thesis* With Program Chair's approval, students may substitute 6 credit action research or internship in lieu of thesis 6 S.H.

Subtotal 12 S.H.

Two of the following three courses:
EDUC 7600 Impact of Technology in Education 3 S.H.
SPED 7650 Inclusion of Students with Special Needs in Regular Education 3 S.H.
EDUC 7021 Connecting Reading and Writing 3 S.H.

Subtotal 6 S.H.
Goal Areas
In conjunction with the program advisor, individual students will select two goal areas of concentration. Nine credits of coursework will be completed in each goal area. These courses will be selected in order to meet the needs and interests of each individual student. Goal areas may include technology, assessment, special education, diversity, literacy, curriculum and instruction, etc.

Subtotal 18 S.H.

Total for Degree 36 S.H.

No courses below the 7000 level will be accepted toward the program without written approval of the Program Chairperson.

MEd—Occupational Education

Graduate Program Chair
James Alicata

Graduate Committee
Robert Kokernak, PhD
Edward Martens, PhD
Steven Therrien, MNS

Program Objectives
The graduate program in Occupational Education is designed for students who have earned a Baccalaureate degree in Technology Education or Vocational Education and want increased awareness and knowledge of current issues and trends in Occupational Education. The program develops an individual’s professional competencies in relation to his/her career goals in education and provides advanced study of the principles and practices of educational research.

Program Description
The MEd in Occupational Education Program consists of 36 credits to be completed in a suggested sequence within six years. The course sequence has been designed to ensure quality and provide flexibility to serve the variety of student interests and professional needs. A program advisor assists each student with the planned sequence, and advises the selection electives (12 semester hours) to meet individual goals and interests.

There are three principal sites where the OCED graduate program is offered:

North
Greater Lowell Regional Vocational/Technical High School
Pawtucket Boulevard
Tyngsboro, MA 01879

Central
Assabet Valley Regional Vocational School
Fitchburg Street
Marlborough, MA 01752

South
Bristol Plymouth Regional Vocational/Technical High School
940 County Street
Taunton, MA 02780

Additional Sites
Greater New Bedford Regional Technical High School
1121 Ashley Boulevard
New Bedford, MA 02745

Blue Hills Regional Technical School
800 Randolph Street
Canton, MA 02021

Montachusett Regional Vocational/Technical High School
1050 Westminster Street
Fitchburg, MA 01420

Diman Regional Vocational/Technical High School
251 Stonehaven Road
Fall River, MA 02723

Whittier Regional Vocational/Technical High School
115 Amesbury Line Road
Haverhill, MA 01830

Admissions Standards and Criteria
To apply for enrollment in the Master of Education in Occupational Education program, a student must submit documents as outlined in the Graduate Admission section as well as:
- Documentation of standard certification or vocational teacher approval

Program Requirements
The MEd in Occupational Education program consists of 36 credits to be completed in a suggested sequence within six years. Total credits are divided between:
- Twenty-four semester hours of required courses
- Twelve semester hours of electives designed to allow the vocational educator to develop specific skills relative to his/her career goals

It is recommended that students take OCED 7250: Research and Statistics in Occupational Education, early in the program. All electives must be approved by the program advisor prior to enrollment in the courses.

Program of Study

Required Courses
- OCED 7000 History and Philosophy of Occupational Education 3 S.H.
- OCED 7050 Seminar in Occupational Education 3 S.H.
- OCED 7100 Supervision in Occupational Education 3 S.H.
- OCED 7150 Evaluation in Occupational Education 3 S.H.
- OCED 7200 Public School Laws Relating to Occupational Education 3 S.H.
- OCED 7250 Research and Statistics in Occupational Education 3 S.H.
- EDLM 8050 Seminar: Research in Education Leadership 3 S.H.
- OCED 7300 Curriculum Development in Occupational Education 3 S.H.
- OCED 7350 Public School Finance in Occupational Education 3 S.H.

Total required courses 24 S.H.
### Elective Courses (Partial Listing) Required 12 S.H.

---

### Admissions Standards and Criteria

To apply for enrollment in the Master of Education in Science Education program, the student must submit documents as outlined in the Graduate Admission section as well as:

- An official transcript of a Bachelor's degree from a regionally accredited institution with a major or minor in biology, earth science, physics, chemistry, or related field
- The official results of the GRE (Graduate Record Examination)
- Documentation of Initial Teaching License (for students pursuing Professional Licensure)

---

### Program of Study

#### Track A—Science Education

**Required Courses**

- SCED 9000 Advanced Methods in Teaching Science 3 S.H.
- SCED 9001 The Modern Science Curriculum 3 S.H.
- SCED 9002 Research in Science Education 3 S.H.

Subtotal Required Credits 9 S.H.

**Electives**

**Required for Professional License**

- SCED 8001 Internship 3-6 S.H.
- SCED 8002 Science Content Courses 18-24 S.H.

**Additional elective options**

- SCED 8001 Independent Study
- SCED 8003 Practicum in Science Workshops
- SCED 8004 Research in Science Related Education Courses
- Approved Transfer Courses
- Subtotal Required Electives 27 S.H.

**Total for Degree** 36 S.H.

#### Track B—Science (Non-teaching)

**Required Courses**

- SCED 8001 Independent Study 3 S.H.
- SCED 9003 Science, Ethics and Technology 3 S.H.
- SCED 9004 Research in Science 3 S.H.

Subtotal Required Courses 9 S.H.

**Electives**

- SCED 8002 Internship 3-6 S.H.
- W Workshops
- Science Content Courses
- Approved Related Courses
- Approved Transfer Courses
- Thesis
- Subtotal Required Electives 27 S.H.

**Total for Degree** 36 S.H.
**MEd—Secondary Education**

**Graduate Program Chair**
Nancy Kelly, PhD

**Graduate Committee**
Ronald Schofield, MEd
Edward Roberts, MEd
Michele Zide, EdD

**Program Objectives**
The Office of Graduate and Continuing Education offers a generic Master of Education degree for teachers at the secondary level, which does not lead to licensure in any area. This program provides teachers with the opportunity to update their knowledge and skills and to participate in courses specific to their professional goals.

**Program Description**
The MEd program addresses education reform issues and curriculum/development models to meet the needs of today’s school systems. The curriculum of the 36 credit degree program is individually planned in consultation with the advisor and provides teachers with the latest effective, research-based practices and technologies to enhance classroom instruction.

**Admissions Standards and Criteria**
To apply for enrollment in the M Ed in Secondary Education Program, students must submit documents as outlined in the Graduate Admission section. Applicants to this program are not required to submit scores for the Massachusetts Test for Educator Licensure (MTEL) or a copy of a teaching license.

**Program of Study**

**Required Courses**
- **SEED 7015** Introduction to Strategies for Effective Teaching in the Academic Discipline 3 S.H.
- **EDUC 8300** Research in Education 3 S.H.
- **SPED 7709** The High School Environment: Challenges in Educating Students with Special Needs 3 S.H.
- **SEED 8000** Advanced Methods of Teaching at the Secondary Level 3 S.H.
- **SEED 8260** Curriculum Design and Development at the Secondary Level 3 S.H.
- **SEED 8250** Curriculum and Technology 3 S.H.
- **ENGL 8076** Process Writing across the Curriculum 3 S.H.

**SEED 9100** Thesis/Action Research (3 required) 3-6 S.H.

With Program Chair’s approval, students may choose 3-6 credit action research/independent study (SEED 9080) rather than thesis.

**SEED 9500** Internship or **SEED 8090** Practicum for District Based Program

Thesis/Internship minimum: **Subtotal 3-9 credits**

**Electives**
Electives in the academic discipline, minimum: **Subtotal 6-12 credits**
Electives must be 7000 level or higher

**Total for Degree 36-39 S.H.**

**MEd—Special Education**

**Graduate Program Chairs**
Denise O’Connell, EdD, Moderate Disabilities and Reading Specialist
Anne Howard, PhD, Severe Disabilities Program and Guided Studies

**Graduate Committee**
Rosemarie Giovino, EdD
Shari Stokes, EdD

**Master’s Programs**
The Special Education Department has developed a variety of innovative Master’s Programs to meet teacher candidate and PK-12 district needs.

**Program Description**
The MEd in Special Education program is designed to prepare students for careers in teaching children with disabilities. The degree offers students preparation in one of four programs areas:

- Teacher of Students with Moderate Disabilities
- Teacher of Students with Severe Disabilities
- Reading Specialist
- Guided Studies

**Teacher of Students with Severe Disabilities**
This program prepares graduates to work with students with severe disabilities at all levels. On an alternating year basis, this program begins at the Merrimack Education Center (MEC) in Chelmsford and at the Massachusetts Bay Community College in Wellesley.

**Teacher of Students with Moderate Disabilities**
Students may choose to work at grade levels Pre-K through 8, or 5-12. This program meets at the Fitchburg State College campus.

Information on all MEd in Special Education Programs is available through the Special Education Department 978-665-3308. Informational meetings are held at the Special Education Department office on the third Thursday of specific months from 4:00–5:00 pm at the McKay Campus School. Call for specific dates.

Effective October 2003, Massachusetts certification requirements changed. Professional licensure (formerly standard certification) will require 3 years of employment in the role of the license, and one year induction program (working with a mentor in the school district).

**Please Note:**
The Massachusetts Department of Education continually revises teacher education standards and requirements for licensure. As a result, students are advised that Special Education Department program requirements are also subject to change to maintain compliance with both State and professional standards. The Special Education Department at Fitchburg State College makes a concerted effort to notify students of changes in program requirements and regulations as soon as they are officially published by the State Department of Education. When appropriate, the Special Education Department advises students of potential changes in advance of formal announcement and implementation.
The Special Education Department will work with teacher candidates and the school districts to meet these requirements. Through a nationally accredited and state approved curriculum, the program provides the content and experiences that will lead to initial licensure, provided the candidate has met other state requirements, such as the employment and Massachusetts Tests for Educator Licensure (MTEL) requirements. Prospective students are strongly encouraged to attend an informational meeting to more fully understand the requirements they must meet to acquire licensure.

Program Objectives

Program prepares graduates to:

- Demonstrate knowledge of the field of special education, including legislation and litigation that has affected the rights of individuals with disabilities
- Demonstrate competence in teaching that leads to success for all students in the least restrictive environment
- Evaluate students to determine their educational needs and to design appropriate programs
- Collaborate with teachers and parents to develop effective teaching strategies that will enhance student’s learning
- Demonstrate sensitivity, understanding and respect for children and adults from diverse cultural, religious, ethnic, and racial backgrounds

Admissions Standards and Criteria

To apply for enrollment in the Master of Education in Special Education program, a student must submit documents as outlined in the Graduate Admission section, as well as:

- Applicants to graduate initial licensure teacher preparation programs must successfully complete the literacy and communication subtests of the Massachusetts Tests for Educator Licensure (MTEL) and submit passing scores as part of their application. In addition, students must successfully pass the appropriate content area exam(s) of the MTEL prior to clinical experience as well as the Foundation of Reading Exam (Moderate Program only) and General Curriculum (formerly Elementary) for both the Severe and Moderate Programs. For the most current information regarding licensure requirements for teacher preparation programs, contact the Educator Licensure Office at 978-665-3239.

Program Requirements

Students interested in the Master’s Program may be required to take prerequisite courses depending on their previous course work and/or teaching certificate(s). Prospective students should attend an informational meeting and meet with an advisor from the Special Education Department to determine prerequisite courses that need to be completed. Prerequisite courses include:

- SPED 7020 Modifying and Adapting Curriculum: Math, Science, Social Studies
- SPED 7025 Pedagogy in Reading and Language Arts
- Child or Adolescent Development (qualifying exam available)

Program of Study

Teacher of Students with Severe Disabilities: Initial Licensure Program

Required Courses (Effective September 2003)

| Summer I | SPED 7004 | Working with Individuals with Disabilities | 3 S.H. |
| Summer I | SPED 8300 | Language Development, Differences and Disorders | 3 S.H. |
| Fall I   | SPED 8020 | Behavior Analysis and Support for Students with Severe Disabilities | 3 S.H. |
| Fall I   | SPED 8021 | Curriculum Frameworks and Alternate Assessments | 3 S.H. |
| Spring I | SPED 7950 | Physical and Medical Aspects of Working with Children with Disabilities | 3 S.H. |
| Summer I | SPED 9000 | Research in Special Education | 3 S.H. |
| Fall II  | SPED XXXX | Elective | 3 S.H. |

Total for Degree 40 S.H.

Teacher of Students with Moderate Disabilities: Initial Licensure Program

(Effective September 2004)

Required Courses

| SPED 7004 | Working with Individuals with Disabilities | 3 S.H. |
| SPED 8300 | Language Development, Differences and Disorders | 3 S.H. |
| SPED 8180 | Positive Behavioral Supports for Students with Disabilities | 3 S.H. |
| SPED 8914 | Assessment, Curriculum, Strategies in Reading/Language Arts | 6 S.H. |
| SPED 8924 | Assessment, Curriculum, Strategies for Math, Science, Social Studies and Cognitive Assessment | 6 S.H. |
| SPED 8962 | Clinical Experience | 6 S.H. |
| SPED 9002 | Research Application Seminar | 1 S.H. |
| SPED 9200 | Collaboration Skills for Teachers | 3 S.H. |
| SPED 9130 | Reading and Language Problems: Advanced | 3 S.H. |
| SPED 9000 | Research in Special Education | 3 S.H. |
| SPED XXXX | Electives | 3 S.H. |

Total for Degree 40 S.H.
Reading Specialist

This program is a comprehensive re-design of teacher preparation in reading instruction that defines the knowledge, skills and practices necessary for effective instruction in reading for those students with reading needs. It responds to the needs of school districts as well as students already prepared in early childhood, elementary, middle school or special education.

The Reading Specialist program provides teachers with a rigorous, research-based curriculum and opportunities to practice a range of skills and knowledge as well as the opportunity for the licensing authorities to assess that knowledge. Candidates will receive a Master’s degree in Special Education with a preparation for the MTEL licensure examination as a Reading Specialist and additional competence instructing students with reading disabilities.

This program is in the process of being reviewed by the Massachusetts Department of Education for program approval.

Program Prerequisites
- Children's Literature or Literature of Young Adults
- Child Development (Child Growth and Development)
- Principles and Practices of Teaching Reading or equivalent.
- Language Development, Differences and Disorders
- Research in Education or Special Education
- An Initial Teaching License

Required Courses
- SPED 7016 Understanding the Structure of the English Language 3 S.H.
- SPED 7017 Psychology of Reading 3 S.H.
- SPED 8017 Specialized Reading Approaches 3 S.H.
- SPED 8018 Reading Disabilities and the Assessment of Reading 3 S.H.
- SPED 8019 Assessment of Writing Skills and Writing Disabilities 3 S.H.
- SPED 9100 Advanced Research in Reading 3 S.H.
- SPED 9101 Clinical Experience: Reading Disabilities 6 S.H.
- Four Electives 12 S.H.

Total for Degree 36 S.H.

Guided Study Program

Program Description
The Guided Study Program is designed to meet the needs of two groups of teachers who already hold Special Education Licensure.

- Students who hold Initial Licensure as teachers of students with Moderate Disabilities or Severe Disabilities, and who are seeking Professional Licensure in the same area and level, will pursue the Guided Studies Professional Track.

Program Requirements

Guided Studies Professional Track
- Students are required to complete 36 credits, including 7 required courses (21 credits), a practicum (6 credits), and two electives (6 credits).

Required Courses
- SPED 9000 Research in Special Education 3 S.H.
- SPED 9400 Current Issues in Special Education 3 S.H.
- SPED 9200 Consultation and Collaboration Strategies 3 S.H.
- SPED 8025 Alternate Assessment in the Content Areas 3 S.H.
- SPED 8180 Behavioral Issues in Inclusive Classrooms 3 S.H.
- SPED 9003 Reflective Teaching 3 S.H.
- SPED 9130 Advanced Identification and Remediation of Language Based Learning Disabilities 3 S.H.
- SPED 8950 Assessment Strategies in the Content Areas 3 S.H.
- SPED 9500 Internship/Independent Study 6 S.H.
- SPED XXXX Electives 6 S.H.

Total for Degree 36 S.H.

Guided Studies Individualized Track
- Students are required to complete 39 credits including 3 required courses (9 credits), 21-24 credits in three individualized goal areas, and 6-9 credits in an Internship/Independent Study.

Required Courses
- SPED 9000 Research in Special Education 3 S.H.
- SPED 9400 Current Issues in Special Education 3 S.H.
- SPED 9200 Consultation and Collaboration Strategies 3 S.H.
- SPED 9003 Reflective Teaching 3 S.H.
- SPED 9130 Advanced Identification and Remediation of Language Based Learning Disabilities 3 S.H.
- SPED 8950 Assessment Strategies in the Content Areas 3 S.H.
- SPED 9500 Internship/Independent Study 6 S.H.
- SPED XXXX Electives 6 S.H.

Total for Degree 36 S.H.

MEd-Technology Education

Graduate Program Chair
Steven Therrien, MNS
Graduate Committee
Robert Kokernak, PhD
Edward Martens, PhD

Program Objectives
The Master's in Education in Technology Education program leads to professional licensure (P-9) (5-12) in the field of technology education.

This program is currently undergoing program revisions to meet new licensure requirements established by the Massachusetts Department of Education.

Program Description
The Master's in Technology Education is a 39-credit program designed to fill the requirements for certification as a Technology teacher and to meet the needs of the practicing teacher with prior preparation and experience. In addition, the program aims to:
• Demonstrate the application of a wide range of knowledge in the area of technology education, including the technologies of manufacturing, communications, construction, power, energy, and transportation
• Prepare teachers to design, implement, and evaluate the most contemporary teaching strategies and approaches in technology/engineering education
• Enable teachers to acquire skills in developing and working with tools, machines, and materials
• Explore relationships among technology/engineering education, career awareness, math, science, and other fields of knowledge
• Implement unique problem-oriented strategies for diverse and exceptional student populations

Admissions Standards and Criteria
To apply for enrollment in the Master of Education in Technology Education program, a student must submit documents as outlined in the Graduate Admission section as well as:
• An official transcript of a Bachelor's degree from a regionally accredited institution (A liberal arts or science undergraduate major is required for those seeking full certification)
• A copy of initial licensure or standard certification
• For more information regarding licensure requirements for teacher preparation programs, contact the Educator Licensure Office at 978-665-3239 or visit their web site at www.fsc.edu/edcert.

Program Requirements
The 39-credit program includes:
• Nine credits of graduate pedagogy
• Fifteen credits of technology knowledge and field applications
• Nine credits of professional electives
• Six credits of clinical experience

Program of Study
A. Graduate Pedagogy
ITEC 8000 Advanced Methods of Teaching at the Secondary Level 3 S.H.
EDUC 8300 Research in Education 3 S.H.
ITEC 8900 Curriculum Development for Technology Education 3 S.H.
Subtotal of Graduate Pedagogy 9 S.H.

B. Competence and Field Applications
(in the following cluster areas)
ITEC 8400 Communications in Technology Education 3 S.H.
ITEC 8500 Power and Energy in Technology Education 3 S.H.
ITEC 8600 Manufacturing in Technology Education 3 S.H.
ITEC 8700 Construction in Technology Education 3 S.H.
ITEC 8800 Transportation in Technology Education 3 S.H.
Subtotal of Competence and Field Applications 15 S.H.

C. Clinical Experience
ITEC 9500 Internship 6 S.H.

D. Professional Electives
Choose from any industrial technology course. 9 S.H.
Total for Degree 39 S.H.
MASTER OF SCIENCE PROGRAMS

MS—Applied Communication

Graduate Program Chairs
Randy Howe, EdD
John Chatro-Szivos, PhD

Graduate Committee
Robert Carr, PhD
George Bohrer PhD
Charles Sides, PhD

Program Objectives
The Master of Science in Applied Communication at Fitchburg State College will provide a course of study examining the relationship between theory and effective communication practice in interpersonal, organizational, public, and mass communication contexts. Upon graduation a student will be prepared to assume leadership roles in organizations, their community, or in the academy where they can promote the effective and ethical practice of communication.

Students choose from concentrations in:
- Applied Communication
- Technical and Professional Writing
- Instructional Technology (offered at Rollins Griffith Teacher Center, Dorchester)
- Library Media (offered at Rollins Griffith Teacher Center, Dorchester)

Program Description
Courses are designed to prepare students to effectively function as organizational, financial and strategic leaders of a technological communications media organization.
- Courses are conveniently offered in the late afternoon and evening to accommodate life-work schedules
- Distance learning opportunities are available for some courses
- The faculty includes experienced communications media practitioners

Admissions Standards and Criteria
To apply for enrollment in the Master of Science in Applied Communication program, a student must submit documents as outlined in the Graduate Admission section as well as:
- Two or more years of experience with communication media technology for specific concentrations
- A departmental interview may be required

Program Requirements
The Master of Science Degree in Applied Communication requires a total of 36 semester credit hours as follows:

Applied Communication Track

Objectives
The Applied Communication Track is designed to provide knowledge and skills for the effective management of communication media operations within business, industry, government, non-profit, and health services.

Technical and Professional Writing Track*

Objectives
The Technical and Professional Writing track is designed to provide knowledge and skills necessary to develop print and online communications materials within business, industry, government, and journalistic enterprises.

*Note: This program utilizes a cohort model and will commence when sufficient enrollment is secured.

Instructional Technology Track (offered at Rollins Griffith Teacher Center, Dorchester)

Objectives
The Instructional Technology track equips teachers and interested professionals with the knowledge and skills necessary for the effective development and management of media technology in school settings.

This program is designed to:
- Update teacher's technological skills with innovative curricula and courses
- Build on teacher's curriculum-based knowledge and equip them with skills for presenting information to students in new, innovative and creative methodologies
- Enable teachers to incorporate technology into their classroom curricula
- Assist teachers and other professionals in meeting the requirements for certification as a Unified Media Specialist

Library Media Track (offered at Rollins Griffith Teacher Center, Dorchester)

Objectives
The Library Media track equips teachers with training in library and information science, and in media technology.

This program is designed to:
- Develop skills for operating library media centers
- Provide knowledge of the new information technologies
- Forge selection and utilization competencies for print and non-print media
- Assist educators in meeting the requirements for certification as a School Library Media Specialist.
### Programs of Study

#### Applied Communication Track

**Required**
- COMM 7011 Foundations of Communications Studies 3 S.H.
- COMM 8011 Interpersonal Communications 3 S.H.
- COMM 8013 Applied Rhetoric 3 S.H.
- COMM 9110 Communications Research Methods 3 S.H.
- COMM 9120 Legal and Ethical Issues in Communication 3 S.H.
- COMM 9130 Organizational Communication 3 S.H.

**Subtotal** 18 S.H.

**Electives (choose four)**
- COMM 9010 Communications Technology Forecasting 3 S.H.
- COMM xxxx Political Communication 3 S.H.
- COMM xxxx Training and Development 3 S.H.
- COMM xxxx Documentation Design 3 S.H.
- COMM 9072 Persuasion in Context 3 S.H.

Additional elective offerings may be available

**Subtotal** 12 S.H.

**Practicum or Thesis (choose one)**
- COMM 9200 Practicum in Communication 6 S.H.
- COMM 9980 Thesis in Communication 6 S.H.

**Subtotal** 6 S.H.

**Degree Total** 36 S.H.

#### Technical and Professional Writing Track

**Required**
- COMM 7011 Foundations of Communications Studies 3 S.H.
- COMM 9010 Communications Technology Forecasting 3 S.H.
- COMM 9110 Communications Research 3 S.H.
- COMM 9120 Legal and Ethical Issues in Communication 3 S.H.

**Subtotal** 12 S.H.

**Electives**
- COMM 7000 Writing Workshop 1 3 S.H.
- COMM 7500 Writing Workshop 2 3 S.H.
- COMM 8300 Writing Workshop 3 3 S.H.
- COMM 8400 Writing Workshop 4 3 S.H.
- COMM 8500 Philosophical Issues in Professional Writing 3 S.H.
- COMM 9090 Interactive Design and Analysis in Communications Media 3 crs.

**Subtotal** 18 S.H.

**Practicum or Thesis (choose one)**
- COMM 9200 Practicum in Communication 6 S.H.
- COMM 9980 Thesis in Communication 6 S.H.

**Subtotal** 6 S.H.

**Degree Total** 36 S.H.

#### Instructional Technology Track (Offered at Rollins Griffith Teacher Center, Dorchester)

**Required**
- COMM 7011 Foundations of Communications Studies 3 S.H.
- COMM 9010 Communications Technology Forecasting 3 S.H.
- COMM 9110 Communications Research 3 S.H.
- COMM 9120 Legal and Ethical Issues in Communication 3 S.H.

**Subtotal** 12 S.H.

**Electives—Partial Listing (choose six)**
- COMM 7020 Portable Video Production 3 S.H.
- COMM 7030 Graphics for Designing Media 3 S.H.
- COMM 7100 Television Production 1 3 S.H.
- COMM 7150 Television Production 2 3 S.H.
- COMM 7200 Communication and Visual Theory 3 S.H.
- COMM 7250 Photography for Educators 3 S.H.
- COMM 7253 Hyper Text Markup Language 3 S.H.
- COMM 8050 Advanced Photography for Educators 3 S.H.
- COMM 8100 Color Photography for Educators 3 S.H.
- COMM 8150 Advanced Graphics for Educators 3 S.H.
- COMM 8600 Selection and Evaluation of Instructional Materials 3 S.H.
- COMM 9030 Instructional Design and Analysis in Comm Media 3 S.H.
- COMM 9090 Interactive Multimedia 3 S.H.
- COMM 9975 Clinical Experience 3 S.H.

**Subtotal** 18 S.H.

**Practicum or Thesis (choose one)**
- COMM 9200 Practicum in Communication 6 S.H.
- COMM 9980 Thesis in Communication 6 S.H.

**Subtotal** 6 S.H.

**Degree Total** 36 S.H.

#### Library Media Track

(Offered at Rollins Griffith Teacher Center, Dorchester)

**Required**
- COMM 7011 Foundations of Communications Studies 3 S.H.
- COMM 9010 Communications Technology Forecasting 3 S.H.
- COMM 9110 Communications Research 3 S.H.
- COMM 9120 Legal and Ethical Issues in Communication 3 S.H.

**Subtotal** 12 S.H.

**Electives—Partial Listing (choose six)**
- COMM 7253 HTML: Developing a Third Generation Website 3 S.H.
- COMM 8000 Administration of School/Library Media Centers 3 S.H.
- COMM 8250 Advanced Studies in Children's and Young Adults Literature 3 S.H.
- COMM 8600 Selection and Evaluation of Instructional Materials 3 S.H.
- COMM 9030 Instructional Design and Analysis in Comm Media 3 S.H.
- COMM 9090 Interactive Multimedia 3 S.H.
- COMM 9975 Clinical Experience 3 S.H.

**Subtotal** 18 S.H.

**Practicum or Thesis (choose one)**
- COMM 9200 Practicum in Communication 6 S.H.
- COMM 9980 Thesis in Communication 6 S.H.

**Subtotal** 6 S.H.

**Degree Total** 36 S.H.

### Certificate Options

**Certificate of Achievement**

As an alternative to the full Master’s Degree, students completing COMM 9010, COMM 9120, and COMM 9140, and two additional courses totaling 18 credit hours in Communications Media Management with a cumulative average of 3.0 or better may be awarded a Certificate of Achievement.
Program Objectives

The Master's degree program in Computer Science provides the opportunity for the graduate students to obtain competitive skills and knowledge to succeed as computer scientists in the constantly developing high-technology marketplace.

Program Description

The Master's degree program in Computer Science is designed for students with the desire to:

- Upgrade and enhance their existing knowledge and skills.
- Gain experience with new technologies.
- Prepare for advanced professional positions.
- Initiate new career paths.

The program specializes in hardware, software, networking and state-of-the-art knowledge. Degree candidates have the opportunity to study a variety of topics such as object-oriented systems development, graphics, networks, and database systems. Our program provides our students the opportunity to develop marketable technical skills for the quickly evolving information-based society.

Concentrations are designed for computer science graduates as well as for students and professionals from other disciplines. Our flexible program serves students of various backgrounds who are committed to broadening their education, earning advanced degrees, and improving their careers.

Candidates select their courses of study to build on their knowledge, skills, and interests. A close collaboration between students and the graduate faculty ensures that individual goals meet with department standards. A departmental graduate advisor is available to all students.

Admissions Standards and Criteria

To apply for admission into the M.S. in Computer Science program, applicants must have an equivalent of 4-year bachelors degree in computer science, mathematics, engineering or other appropriate field of study from an accredited program. They must submit documentation as outlined by the Graduate Admissions. In addition, GRE scores in quantitative and analytical parts must be at least in the 50th percentile.

Depending on background, an applicant may be admitted into the graduate program and be required to complete a subset of the undergraduate prerequisites listed below. All the undergraduate prerequisites are offered in the evening.

Program of Study

The program offers fundamental and advanced courses in Computer Science. Core courses provide firm theoretical foundation for further study. Most classes are offered in the evenings.

I. Prerequisite Requirements (Undergraduate)

An overall GPA of 3.0 or better is needed in all the required prerequisite courses.

C. Master's Thesis (total of 6 S.H.): Consult the college procedures and department policies on thesis.

**Total for Degree 33 S.H.**

*Elective courses constantly change as new areas of study develop in this very dynamic field. New courses are often tested as topics courses first.

**All students have the opportunity for practical work experience through internships (up to a maximum of 6 S.H.). This is highly recommended for all fulltime students, students not currently employed in the computer industry, and foreign students not familiar with U.S. work protocol. To participate in this program, a student must be a matriculated graduate student with 9 months participation in this program and be in good academic standing. International students may be eligible for curricular practical training.

**MS—Counseling**

**Graduate Program Chair**
John M. Hancock, PhD

**Graduate Committee**
Carol Globiana, EdD
Lynne Kellner, PhD
Richard J. Spencer, PhD

**Program Objectives**
The MS in Counseling program is designed to prepare professional counselors as human development teachers or facilitators whose primary function is to help individuals enhance life adjustment, facilitate personal growth, and expand behavioral competencies so that they can cope more effectively with their environment. Through the program, students increase their self-awareness, their sensitivity to others, and their effectiveness as facilitators as they develop skills in counseling. The three major programs of study: marriage and family therapy, mental health counseling, and school guidance counseling, all fulfill the academic requirements for state licensure in their respective fields.

**Program Description**
The program is based on a developmental socialization model of intervention, which recognizes that at each developmental stage—throughout the lifespan, individuals face tasks that can lead to problems needing professional assistance. Counselor education is based on the belief that effective counselors are both personally and professionally integrated. For this reason, a balance between didactic and experiential learning is maintained.

**Programs of Study**

**Marriage and Family Therapy**
Prepares professionals in family systems therapy. Students are introduced to and integrated with a variety of family therapy theories, including systematic, structural, strategic, and reflecting a team approach. Course work provides the student with:
- Didactic study of theory
- Practical applications of techniques
- Personal growth as a therapist
- Development of a personal model of family therapy

Courses are taught both at Fitchburg State College and at the LUK Family Institute (LUK, Inc.), an adolescent and family counseling agency in Fitchburg, MA, which offers specialized training and supervision in family systems therapy with emphasis on families with adolescents. This program of study offers students the opportunity to apply for the license in Marriage and Family Therapy (L.M.F.T.).

**Mental Health Counseling**
Prepares professionals for counseling positions in a wide variety of settings. Mental Health Counseling involves the application of the principles of psychotherapy, human development, learning theory, group dynamics, and the etiology of mental illness and dysfunctional behavior. The applications are relevant to individuals, couples, families, and groups for the purpose of treating psychopathology and promoting optimal mental health.

Students take a core of required courses emphasizing generic skills. Additional course work may be directed toward:
- areas of interest such as family counseling, substance abuse, child abuse and neglect, forensic case work, etc., or
- client groups, such as children, adolescents, adults, etc.

This program of study offers students the opportunity to apply for licensure in mental health counseling (L.M.H.C.).

**School Guidance Counseling**
Prepares professionals for counseling at either the elementary (PreK-8) or secondary (5-12) school levels. Course work centers on preparation to work with children in a school environment with serious emotional, cognitive, and behavioral disorders. In addition, graduates are educated in methods to work effectively with teachers, parents, administrators, nurses, school psychologists, and other members of the school community to assist youngsters to obtain an appropriate education and to participate productively in society.

This program of study offers students the opportunity to apply for Initial Licensure as an elementary school (PreK-8) and/or secondary school (5-12) guidance counselor.

**Certificate Programs of Study**

**Adolescent and Family Therapy Certificate**
Provides specialized training in family systems therapy. Instruction emphasizes the relationship between the student's own experience with her/his family and clinical work with client families. Students are taught to understand and work with families from a variety of family therapy theories, including systematic, structural, strategic and structural-analytic. In addition, students are taught skills to begin building their own model of family therapy from current models as well as from their personal perspective of being a therapist.

Courses are taught both at Fitchburg State College and the LUK Family Institute (LUK, Inc.).

**Child Protective Services Certificate**
Provides professionals with specialized training in skills specific to working with:
- Victims of child abuse and neglect
- Abusers
- Families of both the abuser and abused
The certificate in Child Protective Services requires a minimum of two years of study involving a sequence of courses, beginning with the theoretical and finishing with practical applications and a field component.

**Substance Abuse Services Certificate**

Provides training in skills specific to working with substance abusers, including those with dual diagnoses, and the families of substance abusers. Course work typically spans two years; however, students may elect to extend that time frame or complete the required course work in less time.

**Special Status Student**

This Program of Study is designed for professionals who already hold a Master's degree in Counseling or a related field with the opportunity to apply for:

- Licensure as a Marriage and Family Therapist (LMFT)
- Licensure as a Mental Health Counselor (LMHCC)
- Initial Licensure as a School Guidance Counselor (pre-K – 8) and/or (5-12)

A second Master's degree is not awarded. Students apply for enrollment through the CAGS in Interdisciplinary Studies Program. Applicants seeking initial licensure as a School Guidance Counselor must submit passing scores on the communication literacy portion of the Massachusetts Test for Educator Licensure (MTEL) for admission to the Program.

**Admissions Standards and Criteria**

To apply for enrollment in the MS in Counseling Program, a student must submit documents as outlined in the Graduate Admission section as well as:

- A personal statement (maximum 300 words) describing goals and reasons for applying to the program
- Applicants to school guidance counseling programs of study must submit passing scores on the Communication and Literacy portion of the Massachusetts Test for Educator Licensure (MTEL).

Students are admitted to the college and take Phase I coursework in the program. After the successful completion of the Phase I coursework, students apply for Candidacy in the Graduate Counseling Program.

Candidacy is awarded by the Behavioral Sciences Committee on Graduate Programs based on:

- The successful completion of the undergraduate prerequisites
- The successful completion of the experiential and theoretical aspects of counseling (Phase I course work)
- The successful completion of the Communication and Literacy portion of the Massachusetts Test for Educator Licensure (MTEL).
- The demonstration of competent personal and appropriate ethical behavior
- The demonstration of competent interpersonal skills

**Program Requirements**

For all programs, students together with their advisors, must plan a program to meet the candidate's career goals. All courses must have advisor approval prior to registration.

### I. Undergraduate Prerequisites

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>

</tr>
</tbody>
</table>

* Undergraduate credits are not figured into degree requirements for Graduate Study.

### II. Eligibility for Internship

Eligibility for PSY 9085 Internship in School Counseling; PSY 9087 Internship in Marriage and Family Therapy; or PSY 9090 Internship in Mental Health Counseling – Phase III of the Program is determined by the Graduate Committee based on:

- Candidacy
- A cumulative grade point average of at least 3.0 in Phase I and Phase II courses
- No incomplete grades in Phase I and Phase II courses
- Demonstration of effective written and oral communication skills
- Demonstration of competent interpersonal and intrapersonal behavior
- Demonstration of competent counselor behavior
- Demonstration of appropriate counselor ethical behavior
- Positive recommendation by a majority of Graduate Committee members

### III. Graduate Requirements

**Marriage and Family Therapy**

A minimum of 60 semester hours is required. Students must take:

- Fifty-seven semester hours of required courses including:
  - 12 semester hours of Internship
- Three semester hours of electives

Total for Degree: 51 S.H.
The CORE II phase consists of twelve (12) credits that include the following subjects in Section I and II:

**A. Section I**
- CJ 8410 Criminal Law: Substantive and Procedural 37.5 hrs.
- CJ 8430 Research Methods 37.5 hrs.

**B. Section II**
- CJ 8540 Administrative and Organizational Development 20 hrs.
- CJ 8560 Contemporary Issues 10 hrs.
- CJ 8580 Ethical Issues in Criminal Justice 10 hrs.

**CORE III—Capstone**
The Capstone experience gives each student an opportunity to integrate theory and practice by utilizing the knowledge and skills acquired throughout the program. Students participating in the Capstone meet together in seminar classes.

To complete the Capstone experience, each student must choose one of the following six-credit options:
- CJ 9820 Internship (300 field hours)
- CJ 9840 Project
- CJ 9860 Thesis

**Admissions Standards and Criteria**
To apply for enrollment in the Master of Science in Criminal Justice program, a student must submit documents as outlined in the Graduate Admission section, as well as:
- A personal statement (maximum 300 words). The statement should describe the goals and reasons for applying to this program and include information about previous course work, training or work experiences related to the program.

**Progress Evaluation**
Students will be continually assessed for continuation in the Program, i.e., at the end of each CORE area of study and upon the completion of each elective course. Students will be retained in the Program if they receive grades of 3.0 or better in the COREs. The assessment is based in part on the student's ability to demonstrate effective/graduate level writing skills. A portfolio of writings from CORE I serves as a basis for assessing the student's writing skills and determining retention in the Program. Students who receive less than a grade of 3.0 in a CORE or demonstrate underdeveloped writing skills can be retained provided they receive support for continued study from the majority of the faculty teaching in the CORE, the Faculty Advisor and the majority of the members of the Criminal Justice Review Committee of the Graduate Committee on Criminal Justice. The same criteria apply to elective course work.

**Specialized Tracks**
Each student develops a specialized track of study from the tracks listed below. All tracks are worth 12 credits.

**Professional Studies Track**
This is an integrated track designed to inform the student about the legal, ethical, and professional implications of situations encountered in the workplace, as well as the dilemmas which they present.

Courses appropriate for this track include but are not limited to:
- CJ 9620 Legalities of Criminal Justice Administration 3 S.H.
- CJ 9640 Technology and Legal Limitations 3 S.H.
- CJ 9660 Professional Issues: Liabilities and Challenges 3 S.H.
- CJ 9680 Cultural Diversity and Communication 3 S.H.

**Individualized Studies Track**
This track allows the student to pursue academic and professional areas of interest on this campus as well as at other institutions. Some or all of the twelve semester hours of course work may be taken off-campus and transferred into the program. Prior approval of the faculty advisor is required for the development of this track.

**Management Track**
This track, designed by the Business Administration Department, is intended for the student who is particularly interested in applying management theory and practice to criminal justice administration. Prerequisites may be required.

- MGMT 9040 Organizational Behavior and Development 3 S.H.
- MGMT 9050 Management of Human Resources 3 S.H.
- MGMT 9080 Management Theory and Process 3 S.H.
- MGMT 9320 Labor Management 3 S.H.

**Forensic Case Work Track**
This track informs students about the nature of the offender and offenses, the systems that treat and manage the offender, issues and interventions in case work, and the legal and ethical issues that confront professionals in the system. Students may qualify to apply this course work toward a Certificate in Forensic Case Work Studies offered through the Department of Behavioral Sciences. Prerequisites may be required.

The track courses are:
- PSY 8172 Criminal Psychopathology 3 S.H.
- PSY 8175 Treatment Issues and Interventions in Forensic Case Work 3 S.H.
- PSY 8174 Systems, Law and Issues in Forensic Case Work 3 S.H.

One elective from the following courses or coursework approved by the faculty advisor:
- PSY 8100 Childhood Trauma and its Impact on School Based Services 3 S.H.
- PSY 8120 Sexual Abuse of Children and Adolescents 3 S.H.
- PSY 8140 Alcohol Abuse and Other Addictive Disorders 3 S.H.
- PSY 8176 Mental Status Examination 1 S.H.
Child Protection Studies Track
This track informs students about the impact of childhood abuse and neglect, and sexual abuse on those who become involved in the criminal justice system. The student will learn to recognize and treat the effects of abuse. The student also examines how her/his own experiences affect the manner in which she/he works with victims and perpetrators of abuse and neglect. Prerequisites may be required.

PSY 8100  Child Abuse and Neglect, and other Individual/Social Dysfunctions 3 S.H.
PSY 8120  Sexual Abuse of Children and Adolescents 3 S.H.
PSY 8150  Case Management: Treatment of Victims 6 S.H.
PSY 8160  Psychology and Treatment of Offending Behavior 3 S.H.

Counseling Studies Track
This track informs students about the theory and practice of counseling through experiential, group, and traditional course work. Prerequisites may be required.

PSY 7010  Counseling Theories 3 S.H.
PSY 7020  Group Dynamics 3 S.H.
Two electives (with advisor approval) 6 S.H.

Students will choose 6 semester hours from the following course offerings: (or course work approved by the faculty advisor)

PSY 8010  Issues in Development: Counseling Children and Adolescents 3 S.H.
PSY 8020  Issues in Development: Counseling Adults 3 S.H.
PSY 8060  Psychology of Women: Counseling Implications 3 S.H.
PSY 8100  Child Abuse and Neglect, and other Individual/Social Dysfunction 3 S.H.
PSY 8120  Sexual Abuse of Children and Adolescents 3 S.H.
PSY 8130  Psychopathology: Diagnosis and Assessment 3 S.H.
PSY 8140  Alcohol Abuse and Other Addictive Disorders 3 S.H.
PSY 8180  Legal and Ethical Issues in Counseling 3 S.H.
PSY 8710  Family and Systems, Models and Interventions 3 S.H.

MS—Nursing (Specialty: Forensic Nursing)

Graduate Program Chair
Rachel Boersma, M. S., R. N., CAR N

Graduate Committee
Robert Dumas, Ph.D., R. N
Anne Bateman, Edd., R. N
Andrea Wallen, Edd., R. N

Program Description
The Master of Science in Nursing degree program is designed for registered nurses who wish to pursue advanced leadership positions in the community and the health care system. The graduate is prepared to contribute to the development of nursing science, to the improvement of health care, and to pursue doctoral study.

Program Objectives
Through course work and clinical experience, graduates are prepared to:

- Use the nursing process to guide care for specialized patient populations
- Demonstrate competence in the advanced practice role
- Actively promote professional standards, ethics, and legal principles in nursing and health care
- Use a variety of strategies to influence policy-making relating to societal health needs
- Assume leadership roles with health consumers and providers to improve the planning and delivery of health care
- Demonstrate a new application of ideas related to research evaluation, problem identification, practice outcomes or research application
- Integrate and use theoretical and empirical knowledge from the sciences, humanities, and nursing as a basis of advanced clinical practice and professional decision-making
- Demonstrate commitment to the evolving profession of nursing

The specialty in Forensic Nursing prepares nurses to apply:

- Knowledge and skills of nursing and forensic science to the investigation of trauma concurrently with emergency care and emotional support for victims of violent crime
- The nursing process to public or legal proceedings
- Aspects of health care to the scientific investigation and treatment of trauma
- Sensitivity to the health needs and concerns of diverse populations as a clinical nurse specialist
- Direct services such as legal documentation to individual and group clients, including insurance companies and law firms
- Consultation and education for groups, related agencies, and communities
- Expert witness skills in investigations related to violence and trauma
- Skills for varied settings, including emergency health services, schools, correctional facilities, varied community health agencies, employee assistance programs in occupational health settings and law enforcement agencies

Note: This program is offered on a cohort basis. Contact the Office of Admissions for program start date.

Admissions Standards and Criteria
To apply for enrollment in the Master of Science in Nursing program, a student must submit documents as outlined in the Graduate Admission section as well as:

- An official transcript as a graduate of an accredited baccalaureate nursing program
- Three letters of recommendation including documenting a minimum of one year of recent successful clinical practice or part-time equivalent
- A current U. S. RN license
- Written personal statement of career goals
Program of Study
The program is currently planned on a part-time, 6-7 credit per semester cycle. Classes are afternoons and evenings. Many classes are delivered over the Internet. The course sequence is designed to:

- Complete a majority of core nursing courses with the exception of the Scholarly Inquiry requirement prior to or concurrent with any clinical specialty nursing course
- Support the clinical specialty nursing courses through prerequisite cognate courses
- Provide students the opportunity to select either a research project or thesis
- Cap the program with a practicum experience

It should be noted that nursing courses and required cognates may have prerequisite undergraduate or graduate course work.

Certificate Programs

Adolescent and Family Therapy Certificate

Program Objectives
The program provides specialized training and supervision in adolescent and family therapy. This certificate is offered in affiliation with the Adolescent and Family Institute of Luk, Inc.

Program Description
A minimum of 21 semester hours over two years of study is required. Students must take a sequence of required courses including 6 semester hours of Internship. All courses taken must have advisor approval prior to registration.

Admissions Standards and Criteria
To apply for enrollment in the Adolescent and Family Therapy Certificate Program, a student must submit documents as outlined in the Graduate Admission section as well as:
- A personal statement (maximum 300 words). The statement should describe your goals and reasons for applying to this program and include information about previous course work, training or work experiences related to the program. It should also discuss specifically the strengths you bring and the areas of competencies you need to develop.
- MAT/GRE/GMAT exams not required

Program of Study
Undergraduate Prerequisite Courses
General Psychology
Abnormal Psychology
Developmental Psychology

Phase I
PSY 7005 Mental Health and Family Counseling: Professional Practice, Standards and Ethics, or 3 S.H.
PSY 8710 Family Systems, Models and Interventions, or 3 S.H.
PSY 8740 Systems Theory 3 S.H.
PSY 8750 Family Models, Organizations and Process I 3 S.H.

Phase II
PSY 8755 Family Models, Organizations and Process II 3 S.H.
PSY 8770 Family Models, Organizations and Process III 3 S.H.

Phase III
PSY 9075 Internship in Counseling 6 S.H.

Total for Certificate 21 S.H.

Child Protective Services Certificate

Program Objectives
Provides specialized training for professionals in skills specific to working with the victims of child abuse and neglect, with abusers and with the families of both.

Program Description
A minimum of 21 semester hours over two years is required. Students must take a sequence of required courses including 6 semester hours of Internship. Internship sites are carefully selected from agencies which have existing abuse treatment programs and experienced staff for supervision.

All courses taken must have advisor approval prior to registration.

Admissions Standards and Criteria
To apply for enrollment in the Child Protective Services Certificate Program, a student must submit documents as outlined in the Graduate Admission section as well as:
- A personal statement (maximum 300 words). The statement should describe your goals and reasons for applying to this program and include information about previous course work, training or work experiences related to the program. It should also discuss specifically the strengths you bring and the areas of competencies you need to develop.
- MAT/GRE/GMAT exams not required

Program of Study
Phase I
PSY 8100 *Childhood Trauma and Its Impact on School Based Services or 3 S.H.
PSY 8120 *Sexual Abuse of Children and Adolescents 3 S.H.
PSY 8150 Case Management and Treatment of Victims (two semesters: spring and summer I) 6 S.H.

Phase II
PSY 8160 Psychology and Treatment of Offending Behavior 3 S.H.
PSY 8170 Family Treatment with Abusive/ Neglectful Families 3 S.H.

Phase III
PSY 9070 Internship in Child Protection 6 S.H.

Total for Certificate 21 S.H.

* The introductory course (Childhood Trauma and Its Impact on School Based Services or Sexual Abuse of Children and Adolescents) is open to Child Protective Services students as well as the college and the community. After taking this course students pursuing the certificate are required to make a commitment to finish the program in order to take the remaining courses.

* Students who can document 3,000 hours of experience working directly with child abuse and neglect may elect to take an examination to waive the introductory course.
Communications Media Certificate Program

Program Objectives
The Communications Media Certificate Program is designed to provide knowledge and skills for the effective development and management of communications media operations within business, industry, government, and health services.

Admissions Standards and Criteria
To apply for enrollment in the Communications Media Certificate Program, a student must submit documents as outlined in the Graduate Admission section as well as:
- Two or more years of experience in communications media production
- A departmental interview and portfolio presentation
- MAT/GRE/GMAT exams not required

Program of Study
The Communications Media Certificate Program required courses are offered in the following paired sequence:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 9010</td>
<td>Communications Technology Forecasting</td>
<td>3 S.H.</td>

<tr>
<td>COMM 9140</td>
<td>Managing Communication</td>
<td>3 S.H.</td>
</tr>
<tr>
<td></td>
<td>Elective Coursework</td>
<td>6 S.H.</td>
</tr>
</tbody>
</table>

Total for Certificate: 18 S.H.

Certificate of Achievement
Students must complete the 18 credit hours required coursework in Communications Media.

Early Intervention Certificate Program

The Early Intervention Certificate Program is currently not accepting new students.

Program Description
Early Intervention is a program sponsored by the Massachusetts Department of Public Health. Students who study early intervention learn to help parents of children with special needs from birth to age three to recognize and understand their child's particular developmental needs and teach them ways to help their child grow.

Early intervention specialists work with children from birth to three who are premature, have feeding, vision, or hearing problems; are slow to sit up, stand, walk, talk, or do things for themselves; have behavior or attention difficulties; or were born with a disability or health condition that affects their development. Also, the early intervention specialist works with the families of children who have an established biological or environmental risk for developmental delay.

As part of a team, the early intervention specialist works with the family to determine what type of developmental help would be most beneficial for the child. Together they establish an Individual Family Service Plan (IFSP) that specifies all the educational, training, therapy, and support services the family will receive to best help the child.

Admissions Standards and Criteria
To apply for enrollment in Early Intervention Certificate Program, a student must submit documents as outlined in the Graduate Admission section as well as:
- Complete Child Psychology and an introductory course in Special Needs
- MAT/GRE/GMAT exams not required

Program Requirements
This certificate program combines twelve credits of coursework and six practicum credits. The course work may be taken in any sequence. All coursework must be completed before the practicum.

Total for Certificate: 18 S.H.

Educational Technology Certificate Program

Program Objectives
This program offers educators and administrators the necessary skills to utilize computer technology in the practice of teaching and program administration. This program stresses the use of the computer as both a teaching tool and as a means to examine curricula and teaching effectiveness.

Admissions Standards and Criteria
To apply for enrollment in the Educational Technology Certificate program, a student must submit documents as outlined in the Graduate Admission section.
- MAT/GRE/GMAT exams not required

Program of Study
A total of 15 semester hours of designated credits must be earned and a cumulative average of 3.0 maintained in the program to be eligible for the certificate. This program may be applied to any of the Master's degree or CAGS programs in Education.
**Course Requirements**

**Program Description**

Course work concentrates on:
- The nature of the offender and offense
- The designated systems that treat or otherwise manage the offender
- Issues and interventions in case work
- The legal and ethical issues that confront the workers in the systems

**Admissions Standards and Criteria**

To apply for enrollment in the Forensic Case Work Certificate program, a student must submit documents as outlined in the Graduate Admissions section as well as:
- An official transcript of a bachelor’s degree from an accredited institution in human services or a related field
- A personal statement (maximum 300 words). The statement should describe your goals and reasons for applying to this program and include information about previous course work, training or work experiences related to the program. It should also discuss specifically the strengths you bring and the areas of competencies you need to develop.
- MAT/GRE/GMAT exams not required

**Program Requirements**

A minimum of 22 semester hours over two years of study, is required. Students may elect to extend that timeframe or complete the required course work in less time. There are 50 hours of course-related field practica and 150 clock hours of Internship included in the program.

* Students must take at least one of these two courses. If comparable courses have been taken at the undergraduate level, the student may apply to her/his advisor to have them credited to this certificate program.
Forensic Nursing Certificate Program

Program Objectives
This program provides an opportunity for advanced practice nurses who hold a master’s degree in nursing from accredited programs to acquire specialization in forensic nursing. Forensic nursing is the application of nursing science to public or legal proceedings and the integration of the forensic aspects of health care with the bio-psycho-social education of the professional nurse. Students are prepared to deal with the prevention, scientific investigation, and treatment of victims of trauma and/or death as well as the investigation and treatment of perpetrators of abuse, violence, criminal activity, and traumatic accidents.

Program Description
The student in forensic nursing:
• is cross-trained in the principles and philosophies of nursing science, forensic science, and criminal justice
• assumes a mutual responsibility with law enforcement agencies and the courts in protecting the legal, civil, and human rights of victims of violent crimes, as well as the rights of perpetrators

Admissions Standards and Criteria
To apply for enrollment in the Forensic Nursing Certificate Program, a student must submit documents as outlined in the Graduate Admissions section as well as:
• An official transcript of a Master’s degree in Nursing from an accredited program
• Three letters of recommendation documenting a minimum of one year of recent successful clinical practice or part-time equivalent
• A current U.S. RN license
• Written personal statement of career goals

Program Requirements
The program consists of specialized courses in forensic nursing and related courses for a total of 21 credits. Four of the nursing courses contain a clinical/laboratory component, including a more extensive practicum.

* These courses have a clinical component for a total of 360 hours.

Professional Mentoring for Teachers Certificate Program

Program Objectives
This Program provides teachers who wish to further their professional development through graduate course work an opportunity to develop attitudes and skills related to the role of a professional mentor.

Program Description
Through required courses and a mentoring internship, teaching professionals begin developing collegiality in relation to their profession and become more skilled in the areas of communication, peer consultation and leadership, reflection, problem solving, and evaluation.

Admissions Standards and Criteria
To apply for enrollment in the Mentoring for Teachers Certificate program, a student must submit documents as outlined in the Graduate Admissions section as well as:
• A copy of a valid teaching certificate/license
• MAT/GRE/GMAT exams not required

Program Requirements
The program includes course work which may, with the permission of an appropriate advisor, provide elective credits suitable for an M.Ed program in which the student is matriculated. Nine of the course credits are credits required of the CAGS in Teacher Leadership. With appropriate advising and planning, these credits can be applicable to such a CAGS program.

School to Career Specialist Certificate

Program Objectives
The School to Career Specialist Certificate Program is currently not accepting new students.

- Provide STC personnel with a base knowledge of the Federal Legislation, Massachusetts comprehensive plan, and the requisite program components.
- Prepare professionals to develop, implement and sustain the school-based learning and work based learning, and connecting activities components in their schools.
- Enable specialists to acquire and use strategies for developing industry, business and community partnerships relating to school to career goals.
- Provide competencies relative to student mentoring, career assessment, portfolio development, job shadowing, and establish and operate work based learning experiences for students away from the school setting.
- Provide the opportunity, through clinical internship, to develop and implement components of a STC program in the public school setting.

Admission Standard and Criteria
An applicant for enrollment in the School to Career Specialist certificate program at Fitchburg State College is required to submit documents as outlined in the Graduate Admissions section as well as:

- an appropriate teaching or administrator certificate

Program Description
This 15-credit program is offered in the evening, in the summer, and during special scheduled sessions to allow interested professionals maximum access. The coursework and clinical experience requirements are delivered and supervised by graduate and qualified adjunct faculty. Practica are offered and supervised during the regular public school day and calendar.

The School to Career Specialist (STC) Certificate Program provides practicing school professionals with the base knowledge of the school to career movement, a working knowledge of the requisite components of a school program, the competencies to develop and operate a STC school component, and the techniques necessary to evaluate and sustain a quality program. It provides qualified school personnel with the ability to develop and implement three key elements of a school to career program, namely: school based learning, work based learning and connecting activities, in compliance with the School to Work Opportunities Act (STWOA).

Program of Study
**A. Legislation and School to Career Movement**
ITEC/PDEV 8050 School to Career Components Seminar 1 S.H.
ITEC/PDEV 8350 Developing STC Industry/Business/Community Partnership 3 S.H.
ITEC/PDEV 8350 Career Assessment, Portfolios, and Coordination of Work-Based Learning Experiences 3 S.H.

**B. Knowledge Base**
ITEC/EDLM 8250 School to Career in the Public School Curriculum 3 S.H.
ITEC/EDLM 8300 Developing STC Industry/Business/Community Partnership 3 S.H.

**C. Application to Practice**
ITEC/EDLM 9400 School to Career Clinical Internship 3 S.H.

Total for Certificate 15 S.H.

Substance Abuse Services Certificate

Program Objectives
Provides specialized training in skills specific to working with substance abusers, including those with dual diagnoses, and the families of substance abusers.

Admissions Standards and Criteria
To apply for enrollment in the Substance Abuse Services Certificate program, a student must submit documents as outlined in the Graduate Admissions section as well as:

- A personal statement (maximum 300 words). The statement should describe your goals and reasons for applying to this program and include information about previous course work, training or work experiences related to the program. It should also discuss specifically the strengths you bring and the areas of competencies you need to develop.
- MAT/GRE/GMAT exams not required

Program Requirements
A minimum of 21 semester hours over two years of study is required. Students may elect to extend that timeframe or complete the required course work in less time. There are 50 hours of course-related field practica and 150 clock hours of Internship included in the program.

Program of Study
**Undergraduate Prerequisite Courses**
General Psychology
Introduction to Sociology
Abnormal Psychology
Introduction to Human Services (This course may be waived if the student is working or has worked in a human services or in a substance abuse facility)

**Phase I**
PSY 8140 Alcohol Abuse and Other Addictive Disorders 3 S.H.
PSY 8142 Intervention and Rehabilitation Services for Substance Abusers 3 S.H.

**Phase II**
PSY 8143 The Impact of Alcohol Abuse and Other Addictive Disorders on Family Systems 3 S.H.
PSY 8144 Case Management in Substance Abuse Services 3 S.H.
PSY 8148 Counseling the Substance Abuser 3 S.H.

**Elective Course Work** 3 S.H.

**Phase III**
PSY 9072 Internship in Substance Abuse Services 3 S.H.

Total for Certificate 21 S.H.
Fitchburg State College Course Numbering System

Undergraduate courses are numbered 1000-5999

Graduate courses are numbered 6000-9999

a. 6000-level numbers are reserved for professional development and updating courses.

b. Numbers 7000-9999 are assigned graduate courses (higher course numbers imply higher level courses).

Note: Course descriptions of all undergraduate and graduate courses can be obtained from the Office of the Registrar.

Waivers of listed course prerequisites, where granted, do not constitute waiver of required core courses or total program credit hours.

GRADUATE COURSE DESCRIPTIONS

Biology

Biology of Mammals
BIOL 7001 3 cr.
This course is an investigation of the evolution and present biology of mammals involving extensive use of native New England species. Laboratory work includes identification of mammal species from skins, skulls, and tracks. Field trips enhance familiarity with what is learned in the classroom. The course involves four hours of lecture/laboratory plus additional hours for field trips.

Freshwater Biology
BIOL 7003 3 cr.
A field study course designed to study aquatic ecological systems. Daily field trips are taken to the lakes, ponds, streams, and rivers in the Fitchburg area to collect water samples and specimens. Laboratory analysis is conducted to determine the physical and chemical properties of the water and to identify and study the organisms.

Biology of the Brain and Behavior
BIOL 7005 3 cr.
This course focuses on the biological bases of behavior. A variety of media including lectures, journal articles, and films are used to study ethology, psychology, neurobiology and genetics in an attempt to understand the mechanisms underlying behavior.

Prerequisite: one semester of any of the following: General Biology, General Psychology, Anatomy and Physiology or Instructor's permission.

Medical Parasitology
BIOL 7006 3 cr.
The course examines the biology of medically important animal parasites. Lectures emphasize clinical considerations, such as life cycles, modes of transmission, epidemiology, symptomatology, and treatment. Additionally, methods of collection and identification are explored.

Ecology
BIOL 7007 3 cr.
The dynamic relationship between organisms and their environment is investigated in this survey of major ecological concepts and methodology. Field and laboratory work emphasize problem identification, formulation of hypothesis, data collection, and analysis and interpretation of results in terms of biological implications.

Winter Botany
BIOL 7008 3 cr.
A comprehensive study of plants in winter designed to discover plant adaptations for survival during the cold season. Field trips are taken to observe and identify trees and herbaceous plants in winter conditions. Lectures and indoor labs are included.

Model Systems and Techniques in Embryology
BIOL 7009 3 cr.
This is an intensive laboratory course emphasizing embryological and developmental biological techniques. Current theories regarding the molecular mechanisms underlying early development and classical developmental processes will be the major themes. Topics include regeneration, metamorphosis, aging, organogenesis and pattern formation. Lecture will be followed by laboratory study of the development of live sea urchins, amphibians, and planaria, as well as work with prepared slides.

Prerequisite: BIOL 1200, 1300, 1400, 1600 or permission of instructor.
Techniques in Neurohistology
BIOL 7010 3 cr.
This course introduces basic neurobiology as well as the current techniques in neurohistology. The student will work with neural tissue provided by the University of Massachusetts Medical School. This material will be fixed, imbedded in paraffin, cut, stained, and mounted. The student will prepare a complete set of slides. The techniques require patience and discipline, and provide the student with a unique experience regarding the structure of the brain.

The Modern Secondary School
BIOL 7012 3 cr.
Required of all MAT candidates who do not have initial licensure to teach. Covers a broad range of issues faced by teachers in today's secondary schools. Students become familiar with the complexities and demands of secondary school teaching. Includes 25 hours of prepracticum experience.

Summer Field Botany
BIOL 7200 3 cr.
A field study of trees, shrubs, fungi, mosses, and herbs found in New England. Daily field trips to collect plants and daily laboratory work facilitate the study of ecology and taxonomy of plants.

Evolution
BIOL 7300 3 cr.
An introduction of the principles governing the evolution of living organisms. Emphasis is placed on the cause and affect relationship of various biological disciplines on the evolutionary process. A survey of paleontological evidence demonstrates how evolutionary principles have influenced life. Prerequisites: undergraduate course in botany or zoology, ecology, and genetics.

Bioethics
BIOL 7400 3 cr.
The purpose of this course is to communicate the process of ethical reasoning in conjunction with Biological science. Students gain an understanding of how cooperation between those concerned with the results of biological research and the makers of public policy must become a working hypothesis. Through an examination of the current literature, students uncover facts and general principles of bioethics and relate their near and long term consequences to moral positions.

Marine Biology
BIOL 7600 3 cr.
This course examines physical, chemical, and biological factors in the marine environment. The dominant animals and plants in salt marsh, sand beach, tide pools, and a rocky inter-tidal area are investigated. Data on physical and chemical conditions is collected and correlated with the composition, behavior, and physiology of the flora and fauna within each habitat. Saturday or Sunday field trips supplement lectures.

Advanced Methods of Teaching at the Secondary Level
BIOL 8000 3 cr.
Combines academic study with clinical practice and supervision. Theories and topics studied and demonstrated include learning styles, critical thinking, computer applications, and inclusive learning environments. Emphasis is placed on integrating culturally or linguistically diverse students and those with special needs. Interdisciplinary course development and implementation, student assessment including portfolio assessment and writing are studied for utilization across the curriculum. Prerequisite: BIOL 7012 or Initial Teacher Licensure.

Independent Study
BIOL 8002 3 cr.
The Independent Study provides an opportunity for Biology students to work independently on the development of a written work, a science curriculum, a job related document, or some other activity agreed upon by the student and the graduate faculty advisor. The final product of this study is a written or otherwise permanent documentation of the study completed.

Practicum
BIOL 8003 6 cr.
The practicum provides an opportunity for students to gain teaching experience in area schools and in the college campus school. Practicum experience is designed to meet the state requirements for advanced provisional teacher certification.

Practicum
BIOL 8090 6 cr.
Student teaching experience is offered to give practical classroom experience to those degree students who have not satisfied the state requirements for certification.

Curriculum and Technology
BIOL 8250 3 cr.
This course looks at the integration of educational technology in the classroom, and its relationship to learning theories. Mac and IBM computer hardware, and interfaces for classroom inquiry including video and microscope cameras, digital image capture, scanners, and computer projection panels are examined. Students learn similarities between standard software programs available for writing, computation, and data analysis. It includes a survey of software for studies, ranging from Encyclopedias on CD-ROM to programs that are specific to the study of various topics in science, art, literature, math, and language. The class explores the use of the internet as a classroom resource, the hardware and software necessary to get on line, search engines, browsers, URLs, online journals, education web sites, online interest groups, and how to design a web page.

Curriculum Design and Development
BIOL 8260 3 cr.
This course is designed to provide students with knowledge and skills of the curriculum development-revision process. In collaborative groups students review, revise and expand the curriculum and assessment procedures in order to integrate current research findings and education reform initiatives. Students articulate a general Curriculum map contextually appropriate for grade-level content as they plan for integrating content with social, behavioral, processing, thinking skills and Curriculum frameworks. Students design an integrated 9-12th grade curriculum that aligns content standards across disciplines. Finally, interdisciplinary groups design an integrated curriculum unit.

Research in Biology
BIOL 9004 3 cr.
Research is carried out in a specific field of Biology that involves an in-depth exploration of a well-defined problem. The student must develop a hypothesis for the possible solution to the problem; develop the experimental technique to test the hypothesis; and develop a logical conclusion based upon the data collected. The final product is a written documentation of the research and results. Each study is done under the supervision of graduate faculty.

Thesis in Biology
BIOL 9010 3 cr.
Students will conduct a research project which will result in a thesis. The thesis will be developed under the supervision of a thesis advisor and a thesis committee of at least three people.

Seminar in Biology
BIOL 9011 3 cr.
This course is designed to prepare students for research careers. Topics covered are hypothesis formation, experimental design, literature searches, and quantitative methods. Emphasis is placed on student participation and evaluation of each topic. A final research proposal is required of each student.

Special Topics
BIOL 9100 3 cr.
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.
Clinical Experience

BIOL 9400  6 cr.

The Clinical Experience is a capstone course allowing full integration and application of content knowledge and pedagogical theory and practice. In a high school classroom, students incorporate all standards specific to the discipline in which certification is sought as well as all common standards for classroom teachers. A minimum of 400 clock hours or one full semester on-site under the auspices of the college is fulfilled. A research project is completed during the duration of the clinical experience.

Internship

BIOL 9501  6 cr.

The Internship is a capstone experience allowing full integration and application of content knowledge and pedagogical theory and practice. Within the individual's classroom, it incorporates all standards specific to the discipline in which certification is sought as well as all common standards for classroom teachers. A minimum of 400 clock hours or one full semester on-site under the auspices of the college is fulfilled. A research project is completed during the duration of the internship.

Communications Media

Foundation of Communication Studies

COMM 7011  3 cr.

In this course, students examine origins, nature, and consequences of communication in a variety of subfields. This course reviews the roles of theory in comprehension of communication practices. Furthermore, it introduces the link between communication theory and the methodologies of communication research, including both qualitative and quantitative approaches, with an emphasis on interpretive approaches that are relevant to organizational settings.

Portable Video Production and Non-Linear Video Editing

COMM 7020  3 cr.

Process-oriented course with emphasis on selection, operation, and use of current portable equipment designed for instructional use. Emphasis on setting up and operating video and audio equipment for classrooms, small ITV studios, location shooting, and postproduction for preparation of instructional software.

Graphics for Designing Media

COMM 7030  3 cr.

Basic course applying the elements of graphic design to the development of learning resources. Students apply their acquired graphic skills to prepare overhead transparencies, visuals for display, and other graphic materials in instructional settings.

Slide-Sound Production

COMM 7050  3 cr.

Instruction in presentation techniques of projected imagery; emphasis on slide/tape and super 8 film film animation. Instruction in basic operation of the appropriate equipment and adaptation of the product for effective instruction. Students must supply film.

Television Production I for Educators

COMM 7100  3 cr.

Process-oriented course with emphasis on setting up, operating, and maintaining radio and television production equipment. Students will be involved in production of a half-hour show to be cablecast on Channel A-3, A-8, A-22 in Boston.
Applied Rhetoric COMM 8013 3 cr.
This course takes place at the intersection of rhetorical theory and rhetoric in actual practice. At the convergence of theory and practice, the student will learn the methodology of rhetorical analysis through discussions, instruction, and examples. Students will examine the communication practices, artifacts, and environments that to a large extent comprise our lived experience.

Technology, Media Centers and Libraries COMM 8030 3 cr.
Explores new technologies and their impact on schools, media centers and libraries. Students will use the latest cataloging and circulation programs, videodisc technology, on-line services, bulletin boards, CD-ROM and facsimile machines.

Advanced Photography for Educators COMM 8050 3 cr.
Assumes knowledge of basic photographic principles with emphasis on control of the medium. Topics include exposure, metering, darkroom techniques, and print manipulation. Discusses educational applications, design and composition, and critical evaluation of work.

Color Photography for Educators COMM 8100 3 cr.
Color course offering instruction in all basic aspects of color printing whether you intend to work with color negatives or color slides. Students must have access to an adjustable camera. Students are responsible for film, paper and chemicals.

Advanced Graphics for Educators COMM 8150 3 cr.
Advanced course applying the elements of graphic design, copyfitting and printing procedures to the development learning resources. Students apply their acquired graphic skills to prepare overhead transparencies, visual for display, and other graphic materials in instructional settings.

Advanced Portable Video Production COMM 8200 3 cr.
Advanced ITV production course which supplement skills developed in prior production classes. Use of sophisticated program planning procedures and production/postproduction techniques. Emphasis on advanced skills development and color production as a team.

Advanced Studies in Childrens’ and Adults’ Literature COMM 8250 3 cr.
Survey of literature for children and young adults (print and non-print) including wide reading books and introduction to authors, illustrators and other media creators. Explores the nuanced ways in which language of a literary text is communicated. Centers on a close analysis of literature, poetry, short stories and novels for children and young adults.

Writing Workshop IV COMM 8400 3 cr.
These four courses (COMM 7000, COMM 7500, COMM 8300, COMM 8400) are individualized writing tutorials in which students work on their own projects under the direction of a writing instructor. Students, in discussion with the instructor, propose topics of interest and develop them to publishable form. Depending upon the student's interest, topics may focus on technical communication, science journalism, or appropriately related nonfiction (essays or books). Upon completion of the workshop sequence, students should have a suitable manuscript(s) ready for publication.

Philoosophical and Rhetorical Issues in Professional Writing COMM 8500 3 cr.
This course examines critical philosophical issues inherent in technical and professional writing. Adopting a historical approach, the application of various philosophical stances to the roles of jargon, syllogism, enthymeme, objectivity/subjectivity, logical proof, deconstruction and error will be examined.

Selection and Evaluation of Instructional Materials COMM 8600 3 cr.
Reviews types of learning resources (print and non-print) found in the library media center with relation to their use, tools and criteria for selection and evaluation. Includes related background reading, developing a selection policy and planning and building a balanced collection.

Topics COMM 9000 3 cr.
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.

Communications Technology Forecasting COMM 9010 3 cr.
This course assesses new technologies and potential applications within communications/media and prepares students for long-range planning. Students examine digitization and new imaging, video technology, interactive and multimedia systems, wireless networks, groupware, desktop technology, and satellite communications. In addition students develop forecasts for their organizations using techniques such as The Delphi Survey, Trend Extrapolation, Relevance Trees, and Network Analysis. Prerequisite: COMM 9110

Media Communications Facilities Design COMM 9020 3 cr.
A study of structural, technological, human, and environmental parameters required for comprehensive design specifications for new or renovated facilities as applied to media production and/or utilization. Students become familiar with blueprint reading, power requirements, electrical distribution, low voltage networking, heating and air conditioning, lighting, ergonomic design, OSHA and other safety codes and requirements. Emphasis is placed on analyzing vendor proposals and contracts.

Instructional Design and Analysis in Communications Media COMM 9030 3 cr.
The course introduces the design of educational and training programs and prepares students to conduct needs and task analyses, write measurable objectives, select appropriate media and delivery systems, and evaluate effectiveness of results.

Managing the Documentation Life Cycle, Part I COMM 9071 3 cr.
A study of internal communications problems associated with the design and development of information products. Students analyze documentation teams. D O C plans, corporate style guides, government and military standards, and interpersonal work style preferences for their impact on the documentation life cycle.

Persuasion in Context: Communications for Marketing, Advertising, and Public Relations COMM 9072 3 cr.
This course exposes students to the theories, strategies and techniques of designing managed communications campaigns for marketing, advertising, and public relations professions. Students will explore relevant communication theories of persuasion and past practices in professional persuasion contexts. Based on their developing understanding, students will form small entrepreneurial design teams to create and evaluate campaigns for clients of their choosing. Final designs will be presented formally in appropriate written and oral forms.

Managing the Documentation Life Cycle, Part II COMM 9080 3 cr.
A study of external communications problems associated with the design and development of information products. Examines document design, document maintenance, editing and production problems, desktop publishing, online documentation, and interactive communications systems for their impact on the document life cycle.
Interactive Design and Analysis in Communications/Media  
COMM 9990  3 cr.
A presentation of organizational structure and teamwork requirements and their impact on timeline demands of various multimedia designs. Analysis of project objectives for designs and paradigms of interactive formats is conducted for presentations, training, marketing, and kiosks. Students survey hardware and software options for addressing project needs.

Communications Research Methods  
COMM 9110  3 cr.
An examination of the various research tools and methodologies used in the communications field to produce a viable thesis proposal. Students are familiarized with methods of content analysis, audience research, needs assessment, and the use of statistical procedures to quantify value and variable measurement. The value of research conducted by others is recognized as a tool in conducting one's own research.

Legal and Ethical Issues in Communication  
COMM 9120  3 cr.
The course analyzes fiscal issues such as financial control systems, budgeting, promotional strategies, direct marketing, capital maintenance, amortization, contracting for services, taxes, total quality management (TQM), and managing by objectives. Students observe how the changes in national and international business relationships impact the media industries. In addition the ramifications of instant information on communications, and trends such as downsizing, outsourcing, and networking are explored. Lastly, students become familiar with legal issues, such as copyright, contracts, releases, royalties, video publishing, unions, multimedia, and ownership.

Organizational Communication  
COMM 9130  3 cr.
This course provides a perspective on the internal politics, legal regulations, and organizational strategies for communication within an organization. Issues such as corporate culture, change, cultural diversity, and leadership are addressed. This course analyzes communication theory and how it effects behavior of the members of an organization. Communication is an essential aspect of organizational functioning and the majority of managerial problems are rooted in communication. This course examines the major theoretical and practical aspects of communication in organizations as they apply to business and governmental contexts.

Practicum in Communication  
COMM 9200  6 cr.
A practical experience in which students apply knowledge and skills in a real-life problem-solving situation. Students receive first-hand experience in identifying the problem, setting the parameters, planning for the application of human and technological resources, and evaluating the outcome. A mediated oral presentation of the project is made to the sponsoring organization and to the graduate advisor.

Thesis in Communication  
COMM 9980  6 cr.
An empirical study of a proposition stating the relationship between two or more concepts, phenomena, or events. This critical analysis focuses on a current or potential problem or practice facing managers of business, industry, government, and health service media centers. The study includes a research procedure for the tabulation, statistical analysis, and interpretation of numerical data.

Computer Science

*Asterisk indicates that the course is offered infrequently.

*Programming under UNIX in "C"  
CSC 7000  3 cr.
This is an advanced level programming course exploring the C language, emphasizing I/O processing in the UNIX environment. Students will improve their C programming skills while exploring many of the resources made available by modern implementation of UNIX.
Prerequisite: CSC 2560.

Theory of Computation  
CSC 7050  3 cr.
This course provides an introduction to theoretical computer science. The course covers the fundamentals of automata theory, formal languages, and computability theory. Several distinct models of computation including the Turing Machine will be introduced. The concepts of computability, decidability and reducibility will be explored.
Prerequisites: MATH 2400 and CSC 2560.

*Software Development in Computer Graphics  
CSC 7160  3 cr.
This course is about developing large-scale computer graphics package starting with low-level algorithms and using standard modularization and integration techniques practiced in industry. The course provides an in-depth introduction to state-of-the-art interactive computer graphics algorithms with special emphasis on the GKS standard. 2-D and 3-D viewing, clipping and geometric modeling will be studied. Raster extensions and mathematical algorithms will be presented.
Prerequisites: MATH 2600 and CSC 3700.

Object Oriented Programming  
CSC 7200  3 cr.
This course introduces object oriented Programming and Object Oriented Design paradigms. Students are expected to have previous exposure to C and another object oriented programming. Topics covered include classes, polymorphism, encapsulation and inheritance; input/output streams, templates, exception handling, file processing and standard template library.
Prerequisite: CSC 3700.

Data Communications and Networking  
CSC 7255  3 cr.
This course covers data communications principles, emerging networking technologies, as well as local and wide area networks. Signal transmission analysis, modulation concepts, modems, multiplexers, digital technologies, and various transmission models will be extensively discussed. N eetwork protocols will be presented including TCP/IP protocol suite and IEEE 802 standards. N etwork technologies such as ISDN, xDSL, SONET, packet switching networks, Ethernet and ATM will also be discussed.
Prerequisites: CSC 2560 and 2600.

Object Oriented Analysis and Design  
CSC 7400  3 cr.
This course introduces the Software Engineering principles used in the development of large software products. Topics such as requirements engineering using use cases, systems and software analysis using object-oriented principles, software design using class diagrams and implementation using CASE tools are covered. Project management issues are also introduced.
Prerequisites: CSC 3700 and CSC 4400.

Database Design  
CSC 7500  3 cr.
This course covers concepts of database systems in general and relational database systems in particular. The techniques for database modeling and the concepts of Structured Query Language (SQL) will be studied. The issues involved in the design, implementation, maintenance and security of relational databases will be discussed.
Prerequisite: CSC 3700.
**Embedded Systems**  
CSC 7600  
This class covers some of the conceptual and practical aspects of microcontroller-based computer system development. Topics to be discussed: microcontroller architecture, system specification, interrupt servicing, device driver design, serial I/O protocols and real-time data processing.  
Prerequisites: CSC 1650, CSC 2650.

**Client/Server Networking**  
CSC 8020  
This course introduces the concepts of computational complexity and the complexity classes P and NP. Topics covered include sorting and searching algorithms, graph algorithms, string matching, NP-completeness problems and dynamic programming techniques.  
Prerequisites: CSC 3700 and CSC 7050.

**Design and Analysis of Algorithms**  
CSC 8050  
This course introduces the concepts of computational complexity and the complexity classes P and NP. Topics covered include sorting and searching algorithms, graph algorithms, string matching, NP-completeness problems and dynamic programming techniques.  
Prerequisites: CSC 3700 and CSC 7050.

**Local Area Networks**  
CSC 8120  
The purpose of this course is to study new techniques in the theoretical design of local area networks, as well as to gain practical experience in the installation, maintenance, and management of LAN networks. Security topics including firewalls, proxy servers and privacy management will be studied extensively.  
Prerequisite: CSC 7255.

**Windows Programming**  
CSC 8180  
This course focuses on the development of Windows applications. Students will learn application framework fundamentals and the documentation/view architecture of a Windows application program. Concepts such as Dynamic Data Exchange (DDE) and Multiple Document Interface (MDI) will be implemented. Student projects will include creating application programs that include dialog boxes, pull-down menus and printing options.  
Prerequisite: CSC 7200.

**UNIX Network Programming**  
CSC 8190  
This course is designed for experienced C programmers who have no previous network programming experience under UNIX platform. The course includes Ethernet, the TCP/IP family of protocols, sockets, virtual circuits, datagram circuits, and programming concepts. Project using the BSD socket interface will be developed in the course.  
Prerequisite: CSC 7000.

**Advanced Java**  
CSC 8205  
This course covers the emerging and advanced Java technologies used in the 3-tier architecture. Various Swing components used for the front-end user interface, Servlets and JSP used on the web server and JDBC used for back-end database connectivity are studied extensively. The course begins with a quick review of major topics in object-oriented programming as implemented by Java.  
Prerequisites: CSC 7200 and CSC 7500.

**Advanced Network Technologies**  
CSC 8255  
This course covers the emerging and advanced network technologies and architectures such as Fast Ethernet, Gigabit Ethernet, Fiber Channel, Virtual LAN, Frame Relay, SO MET, and Broadband ISDN. Other concepts such as Quality of Service, Packet over SO MET, Multitier protocol Label Switching, Digital Subscriber Line, Voice over IP will also be discussed.  
Prerequisite: CSC 7255.

**Advanced Operating Systems**  
CSC 8280  
This course provides a high-level overview of different responsibilities of an operating system with an emphasis on coding practices of a popular operating system. Major functional components of a modern operating system such as file systems, CPU scheduling, memory management, virtual memory, secondary memory management, concurrency and security will be studied.  
Prerequisites: CSC 3100 and CSC 8180.

**Graph Algorithms**  
CSC 9050  
This course introduces various graph algorithms such as shortest path; depth first and breadth first searches; minimum spanning trees; graph connectivity and network flows; and graph coverings and colorings. Graph problems are analyzed for the existence of polynomial time algorithms.  
Prerequisites: CSC 8050.

**Topics in Computer Science**  
CSC 9060, 8600, 9600  
The objective of Topics course is to study a topic of current interest in computer science. The course serves as a vehicle for curriculum experimentation and/or enrichment. The course of study should provide an understanding of some current advance in computer science and or greater understanding of a particular topic that is of current interest.  
Prerequisites depend on the topic of study.

**Internship**  
CSC 8901  
A 3-credit on- or off-campus internship requires 12 hours of work each week for fifteen weeks. Students apply their knowledge and skills to develop practical solutions to computer science or information technology problems. Approval by graduate chairperson is needed to register for this course. A written report on the work done in the format specified by departmental policy must be submitted to the chairperson to receive a grade.  
Prerequisites: 12 S.H. graduate courses in Computer Science.

**Independent Study**  
CSC 8900  
The independent study provides an opportunity for highly motivated students to explore advanced areas of computer science not provided within the departmental curriculum. Approval of the faculty sponsor, consent of the advisor and permission of the Chairperson are required.  
Prerequisites: 18 S.H. graduate courses in Computer Science.

**Master's Thesis I & II**  
CSC 9010, 901I  
Students conduct a research project resulting in a thesis. Thesis develops under the guidance of a thesis supervisor and thesis committee. Thesis must be developed and presented according to the guidelines set forth by the college and the department.  
Prerequisites: 18 S.H. graduate courses in Computer Science.

**Thesis Continuation I & II**  
CSC 9012, 9013  
Students that need more time to complete the thesis can register for up to two thesis continuation courses. The credits in these courses may be used for maintaining full-time status, but do not count toward the total credits required for the degree.  
Prerequisite: CSC 9011.
Creative Arts

Methodologies in Furniture Construction
CRAR 7103 3 cr.
The purpose of this course is to familiarize the student with basic traditional woodworking techniques, employing both hand tools and power machinery. These techniques will include joinery necessary for the leg and rail construction of a table. Concurrently, students will develop personal creativity and design sensibility with wood as the primary medium. (Crafts distribution course) Available only at Worcester Center for Crafts.

Drawing & Design of Crafts
CRAR 7104 3 cr.
This class focuses on using drawing and sketching to evolve ideas and develop visual language. Students will learn how to record thoughts, develop sketches, work through ideas, and create gestural and dimensional attributes for 3-dimensional objects on a 2-dimensional surface. (Crafts distribution course) Available only at Worcester Center for Crafts.

Survey of Fiber Arts
CRAR 7105 3 cr.
Students will be introduced to five different fiber-related techniques: textile printing, dyeing, papermaking, felting, and weaving: using an historical cultural and hands-on approach. Through sample-making, research and discussion, students will learn how to apply these and other techniques to their classroom art curriculum. (Crafts distribution course) Available only at Worcester Center for Crafts.

Survey of Handbuilding Techniques
CRAR 7106 3 cr.
This course provides students with an understanding of clay working by exploring forming techniques with an emphasis on the development of students knowledge of the material and handling characteristics of clay. Students will be challenged to develop their personal vision and expression through surface enrichment, stamping, carving and slip decoration. (Crafts distribution course) Available only at Worcester Center for Crafts.

Survey of Kilnforming
CRAR 7107 3 cr.
This course explores three traditional glass techniques: Fusing, Slumping and Casting. Projects include creating bowls, plates and jewelry as well as kiln casting glass particles into molds. (Crafts distribution course) Available only at Worcester Center for Crafts.

Creative Teaching
CRAR 8140 3 cr.
This course applies creative problem solving techniques and the arts to other content areas of the curriculum.

Celebrating Diversity through the Arts
CRAR 8145 3 cr.
The course is a study of methods used for balancing Euro-centric cultural backgrounds; celebrating cultural diversity through the arts; building respect and understanding through cultural grid systems; creating harassment-free learning environments; teaching without gender bias; understanding, discussing, and preventing classroom sexism, racism, anti-Semitism, and homophobia.

Arts Technology in the Classroom
CRAR 8146 3 cr.
This lab experience provides professional development in the Arts Technologies. Emphasis is placed on integrating these exciting tools into varied learning. Topics include both Visual Arts and Music applications such as digitized images, digital sound, scanners, synthesizers, video overlay card, MIDI laser discs, sequencers, and sound design. This course is a must for educators from all disciplines and levels. No prior technology expertise required.

Advanced Graduate Studio
CRAR 8150 3 cr.
The building “blocks”: value, alternation, shape, balance, dominance, graduation, depth and focal point are used to develop a personal method of application that will allow the student to make self diagnosis, prognosis and treatment of their own maladies in their works of art to allow for successful completion of their own intentions in their art works. Prerequisite: Approval from the Graduate Program Chair.

Music Learning Theory and Creativity
CRAR 8200 3 cr.
A study of Gordon’s learning theory of music aptitude, achievement, and testing and its relationship to musical creativity. After learning and performing basic rhythmic and tonal patterns students apply this knowledge and skill in creating compositions. The similarities and differences among the terms discovery, creativity and improvisation are discussed and experienced in a variety of music projects. The importance of creativity and improvisation in Gordon’s skill learning sequence are discussed and experienced in depth.

Dance in Education
CRAR 8350 3 cr.
An exploration of the field of creative movement and structured dance forms. Students learn applications for working with children through movement and are encouraged to seek personal dance experiences.

Art and Human Development
CRAR 8500 3 cr.
This course is applicable to students who are in human services fields, including diverse groups teachers, social workers, recreation directors, religious educators, and others. Students use hands-on activities to demonstrate how concepts and practices are learned and to facilitate students’ needs.

Supervising, Directing, and Leading in Arts Education I
CRAR 9051 3 cr.
The course involves discussions about inter-departmental and interdepartmental relations, faculty development, grants, community relations, the diversity of a community, the needs of exceptional learners, and other administrative concerns.

Supervising, Directing, and Leading in Arts Education II
CRAR 9052 3 cr.
The course involves discussion of such topics as the efficient and humane use of personnel, finance, curriculum, and physical resources. The evaluation and supervision of programs and personnel is also covered.

Creative Arts Research
CRAR 9060 3 cr.
Studies include an inquiry into the role of the creative process in education and the arts, as well as the integration of the arts in education. Research into the cultures of various community groups and the inclusion of exceptional learners in the educational process are considered.

Creative Arts Curriculum Development and Applications
CRAR 9070 3 cr.
This course is designed to help aspiring leaders understand how to develop and implement systemic K-12 fine arts curriculum, instruction, and assessment.

Arts Presentation
CRAR 9090 3 cr.
Students create a culminating project after completing at least eighteen semester hours in the degree. Prerequisite: CRAR 9070.
Criminal Justice

CORE I

Foundations  
CJ 7200  6 cr.  
Students must register for this six credit CORE which includes the following modules of study:

Criminal Justice Process  
CJ 7240  
This area of study explores the organization and function of the criminal justice system.

Social Relations and the Legal System  
CJ 7260  
This course explores law as a social process that is both a source of order and of conflict.

Criminology  
CJ 8530  
An examination is conducted of the historical development of criminological theories, including the Classical School of the eighteenth century, the Marxist and Socialist Schools of the late nineteenth century, and contemporary theories of the twentieth century. Emphasis is on social, political, economic, religious, racial, gender, and emotional characteristics of crimes and offenders.

CORE II

Applications in Criminal Justice  
CJ 8400  6 cr.   
Students must register for this six credit CORE which includes the following modules of study:

Criminal Law: Substantive and Procedural  
CJ 8410  3 cr.   
This area of study examines both substantive and procedural criminal law. Within the context of the historical development and philosophy of law, students are introduced to the definitions and classification(s) of crime and their application to the system of criminal justice.

Research Methods  
CJ 8430  
This course of study allows the student to develop competencies in understanding, analyzing, and questioning research findings. Basic techniques and knowledge are introduced to assist the student in locating, understanding, and using resources relevant to legal analysis of the law, measurement of crime and criminal behavior, and interpretation of research findings.

CORE II B

Applications  
CJ 8500  6 cr.   
Includes the following six course titles:

Administration and Organizational Development  
CJ 8540  
This component increases the students' awareness of organizational dynamics by providing them with the skills to analyze organizations and to learn to view them from several frames of reference.

Contemporary Issues  
CJ 8560  
This course examines current social trends as they confront the criminal justice professional in the field, in institutional settings, and in the courts. Students explore contemporary theories and responses to emotionally demanding issues that challenge the community and the criminal justice system, as well as the strategies for responding to these problems.

Ethical Issues in Criminal Justice  
CJ 8580  
An examination of major ethical issues that span the components of the criminal justice system. Students will explore the ethical challenges and ensuing dilemmas that occur in daily professional work along with strategies for responding to job situations.

Program Evaluation and Statistics  
CJ 8590  3 cr.   
This course provides an introduction to elementary statistical methods as applied to problems in crime and criminal justice. It is an introduction to descriptive statistics, exploratory data analysis, probability theory, inferential statistics, and program evaluation. Its purposes are to enable students to do empirical statistical work as well as intelligently and critically read academic publications. Even if students do not plan to do quantitative work after graduation, understanding the theory and limits of statistical analysis is important given its prevalence in criminal justice.

Professional Studies Track

Legality of Criminal Justice Administration  
CJ 9620*  3 cr.   
The course examines contemporary issues facing criminal justice administrators and explores the legal considerations necessary in determining sound managerial solutions. Topics of discussion include: the legal implications of employee hiring, training, promotion, and discipline; internal investigations; discrimination challenges; affirmative action plans; labor relations and unions; and the development of departmental policies and procedures. Students examine each topic within the realm of relevant state and federal law.

Technology and Legal Limitations  
CJ 9640*  3 cr.   
This course surveys the latest technology used in the criminal justice field for investigative procedures, crime scene analysis, interviews, surveillance, and evidence collection. The course is designed to balance the limitations of advancing technology within the limitations of the law. The ethical question “Does the End justify the Means” is addressed throughout class discussions and case studies. Guest speakers with expertise in the technology field enhance the students understanding of and appreciation for the use of investigative techniques.

Professional Issues: Liabilities and Challenges  
CJ 9660*  3 cr.   
This course clarifies the ideological conflicts—from enforcement to rehabilitation—that may be encountered by the criminal justice practitioner. Through case studies, this course focuses on the legal and ethical responsibilities of the criminal justice professional including: liability standards and philosophies of practice, and professional ethics. Attention is paid to the invisible effects of discretion as a part of the decision making process.

Cultural Diversity and Communication  
CJ 9680*  3 cr.   
This course reviews individual and group models of relationships between criminal justice agencies and the public, with emphasis on gender, race, and ethnic differences. Special attention is paid to areas of potential conflict and cooperation with distinctive cultural groups. Alternative dispute resolutions are emphasized, including problem solving, negotiation, mediation, and conflict resolution strategies.
The Capstone Internship is a supervised, field-based (300 hours) learning experience in an approved criminal justice agency. Responsibilities can include administration, case/clinical work, training and development, or research. The student is responsible for systematically applying theoretical concepts in an applied and practical way to the work of the organization and contributing to the goals of the criminal justice system. Placement is facilitated through the Field Placement Office, Department of Behavioral Sciences, in accordance with departmental policies. The Internship is monitored by a faculty member who conducts on-site evaluations of the student's skills and competencies. Students are required to meet as a group in a seminar class; assignments include a paper discussing a literature review of relevance to the Internship and a discussion of the application of the literature to the field experience.

The Capstone Project is a significant undertaking appropriate to the criminal justice field and reflects originality and independent thinking. The Project must be a systematically organized effort with appropriate form and methodology. Projects may vary considerably from developing a prototype service/program to undertaking a media project. A written abstract is required and includes an articulated rationale, explained significance of project, identified objectives, and conclusions/recommendations. The student works under the supervision of a faculty member and in cooperation with an approved criminal justice field site. The focus of the project must be approved by the Graduate Committee on Criminal Justice.

The Capstone Thesis is supervised, systematic research or analytical study of a significant problem/issue, which results in an original written product. Students are challenged to think independently and critically throughout the process of developing the study. The paper must reflect an organized effort with an appropriate and useful format through which to discuss a comprehensive review of the literature, problem identification, assumptions, significance of the study, sources and methods of gathering and analyzing information, and conclusions/recommendations. The student works under the supervision of a faculty member and the topic of the thesis must be approved by the Graduate Committee on Criminal Justice.

All students participating in the Capstone experience, regardless of the option chosen, meet together in a seminar class. Students share scholarship from their works in progress and discuss issues related to their Capstone experiences. Faculty facilitate the discussions and oversee the students' work. At the end of the Capstone experience, students present the results of their internship, project, or thesis to the entire Capstone group.

Early Childhood/Elementary/Middle School

### Topics

**EDUC 7000** 3 cr.
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.

**Writing to Learn**
**EDUC 7001** 3 cr.
This research-based course is designed for classroom teachers, administrators, curriculum coordinators, Chapter I, ELL, Bilingual, and special needs teachers who want to involve themselves in the writing process and become more knowledgeable about the teaching of writing.

**Educational Issues in Child Development**
**EDUC 7003** 3 cr.
This core course develops the teacher candidates' capacities to integrate knowledge of child growth and development with the imperatives of state and federal mandates and pertinent educational issues in order to assure children's success in school. Course content explores human growth and development from birth to age 18 with special attention to English Language Learners, children with special needs, and children of diverse backgrounds. How children develop as thinkers and learners at different points in development is emphasized. Candidates seeking their initial license complete a field experience. Credit cannot be given for both EDUC 7003 and EDUC 7300. **Initial licensure track, Early Childhood and Elementary.**

**Cooperative Learning Structures and Strategies in the Content Area**
**EDUC 7004** 3 cr.
Comprehensive course in cooperative learning designed to provide an in-depth look at a variety of instructional practices and strategies appropriate for effective teaching and learning in the inclusionary and heterogeneous classroom. Learning objectives are pertinent for all disciplines. Class projects align with the requirements of State and National standards.

**Developing Interdisciplinary Content Learning Centers: Incorporating Cooperative Learning Strategies**
**EDUC 7006** 3 cr.
This course explores the variety of methods and materials inherent in developing multi-level, multimedia content learning centers. The focus will be on integration in a variety of curriculum areas including math, science, language arts, reading, social studies and the arts. Participants develop an interdisciplinary content learning center to be used in a classroom setting. Techniques for effectively incorporating essential skills and knowledge of selected content areas, as well as, cooperative learning strategies into the implementation of these centers will be explored. Scheduling and evaluative techniques are integral parts of the focus in this K-12 course.

**Developing Math Materials for Classroom Use**
**EDUC 7007** 3 cr.
This course involves the construction and use of varied math materials used for instruction in K-12 classrooms. Displays of multi-level, multi-media materials emphasize hands-on methods of instruction. Scheduling and evaluative techniques are also discussed. Emphasis is placed on identifying essential skills and knowledge of mathematics as it pertains to Massachusetts Curriculum Frameworks.
Construction and Use of Reading Games  
EDUC 7008  3 cr.
Participants develop and assess learning games used for reading instruction in grades K-12. M any methods and materials are presented, shared, and discussed by the instructor. Reading games are made by course participants to meet their individual needs in the classroom. Reading games are aligned to developmentally appropriate skills and M assachusetts Frameworks. Emphasis is placed on developing reading games for English Language Learners and children with special needs.

Storytelling in the Curriculum  
EDUC 7010  3 cr.
This course will address storytelling and its relationships to today's multicultural classroom. The use of oral history projects and the use of folklore in the curriculum is explored. Emphasis will be on promoting storytelling in the classroom. Current theory on the relationship of oral and written language acquisition will be reviewed. Storytelling, self-esteem building, healing and creative conflict resolution techniques for the classroom will be discussed.

Middle School Structures and Curriculum  
EDUC 7013  3 cr.
This course introduces candidates to the historical development, philosophy, and competencies needed to teach in the middle school. The course defines curriculum as everything a young adolescent experiences at school. With this in mind, candidates will explore, analyze and design middle school structures and curriculum with special attention given to interdisciplinary, thematic planning and instruction. Emphasis is placed on structures and curriculum responsive to young adolescent developmental diversity and needs. Candidates seeking initial licensure will complete a field experience. Credit cannot be given for both EDUC 7013 and EDUC 8150. Initial licensure track, Middle School.

Reading and Writing in the Content Areas  
EDUC 7014  3 cr.
This course examines the reading and writing processes as it pertains to the teaching and learning of knowledge and skills within content disciplines. It includes an exploration of the relationships among reading, writing, critical thinking, and learning; discussion and designing of current assessment tools, including portfolio; and analysis of, development of, and implementation of reading and writing strategies and procedures the develop student capacity for using reading and writing to think critically and to learn and understand content. Candidates seeking an initial license complete a field experience. Credit is not awarded for both EDUC 7014 and EDUC 8132. Initial licensure track, Middle School.

Language Arts and Literacy in Elementary Education  
EDUC 7015  3 cr.
This specialized course in language arts and literacy at the elementary level focuses on language development, the reading/writing processes, and balanced literacy instruction. Classroom research-based strategies and curriculum, including those that integrate the fine learners, including English Language Learners and children with special needs, will be emphasized. Candidates seeking an initial license complete a 25-hour field experience. Credit cannot be given for both EDUC 7015, 7222, 8400, and 8450. Initial licensure track, Elementary.

The At Risk Young Reader/ Writer: Assessment and Intervention  
EDUC 7017  3 cr.
This specialized course focuses on early intervention for young children (K-2) who are at risk or are experiencing difficulties learning to read and/or write. The course uses the theoretical framework of emergent literacy as a foundation for assessment and intervention strategies. Students learn to use a variety of assessment tools, such as observation survey and running records to plan individualized, small group (guided reading) and large group (morning message, interactive writing) interventions.

Drawing/ Writing and the New Literacy  
EDUC 7018  3 cr.
For teachers in a Socratic, radically-constructivist, brain-based literacy program, this course addresses the challenge of teaching literacy skills so that they "stick". The abilities to write and to read depend upon many skills including the ability to pay attention, to extract information, and to communicate information. These skills can be learned through drawing. When writing accompanies drawing, a double literacy develops both verbally and visually. The new literacy models encourage integrated brain function.

Drawing/ Writing and the New Literacy-Intermediate  
EDUC 7019  3 cr.
Consolidation of the five-step drawing and writing program introduced in EDUC 7018, Drawing/Writing. Emphasis on understanding multiple literacies and increasing self-knowledge through the Neuroconstructivist, cross-modal teaching and learning are reviewed and deepened. Work with the writing curriculum in part four of the text "Drawing/Writing and the New Literacy". Introduction to the four-fold hypothesis.

Connecting Reading and Writing  
EDUC 7021  3 cr.
This research based course is designed for classroom teachers, administrators, Chapter I, ELL, Bilingual, and special needs teachers who have participated in "Writing To Learn" and would like to become more knowledgeable about the relationship between reading and writing.

Prerequisite: EDUC 7001 or permission of the Instructor.

Education Foundations: Theory and Practice  
EDUC 7023  3 cr.
This course includes an examination of the theoretical and practical knowledge of the teaching/learning process with special emphasis on constructivist learning. The following topics will be included: national standards for teachers; the licensure process; leading theoretical foundations of education thought; standard based curriculum, M assachusetts Curriculum Frameworks, instruction, and assessment; constructivist lesson planning; inclusive practices; and classroom community building as it relates to classroom management. Candidates seeking initial licensure complete a field experience.

Initial licensure track, Early Childhood, Elementary, Middle School.

Educational Issues in Early Adolescent Development  
EDUC 7024  3 cr.
This specialized course in the Middle School Education program will give teacher candidates the opportunity to identify, explore, discuss and reflect upon a wide variety of research as it relates to educational issues in early adolescent development central to their success in school. Central to the discussions will be the role of the middle school teacher. Candidates seeking initial licensure complete a field experience. Credit cannot be given for EDUC 7300 and EDUC 8750. Initial licensure track, Middle School.

Teaching Science in the Elementary and Middle School  
EDUC 7025  3 cr.
This course covers contemporary thinking, practices, and research in the teaching of science to elementary and middle school students. Emphasis is on providing innovative hands-on experiences for students. Candidates seeking initial licensure complete a field experience.

Studying Skillful Teaching  
EDUC 7026  3 cr.
This course is the first part of a multi-part series that focuses on improving student learning and achievement by building capacity in three major areas: 1. teachers' use of a varied and extensive professional knowledge base about teaching; 2. students' and teachers' beliefs about their own ability to learn; 3. schools and school systems' ability to create and sustain professional communities characterized by shared goals, collaborative work, and share accountability. T his course is provided directly by Research for Better Teaching.
Advanced Concepts and Methods of Elementary and Middle School Math
EDUC 7040  3 cr.
Students investigate methods and materials used in elementary and middle school programs. Students develop functional math skills for use by elementary and middle school teachers. This graduate course includes information on math principles (set, function, probability and statistics, geometry, and measurements, algebra, and computer awareness) and provides opportunities for the application of such information.

Observing and Analyzing Teaching I
EDUC 7042  3 cr.
This course examines the links between instructional leadership (encompassing supervision and evaluation) and student achievement. The course is organized into three strands—understanding expert instruction, building instructional leadership skills, and developing professional communities. This course is not part of licensure programs. This course is provided directly by Research for Better Teaching.

Observing and Analyzing Teaching II
EDUC 7050  3 cr.
This course focuses on the tools, skills, and strategies participants need to help them build cultures of high achievement and system-wide accountability for student learning. Participants will demonstrate that they can identify and address the importance of inadequate or ineffective instruction through their writing, conferencing, and preparation of focused improvement plans. This course is not part of licensure programs. This course is provided directly by Research for Better Teaching.

Whole Language in the Elementary School
EDUC 7101  3 cr.
This course provides a study of reading and writing processes from a psycholinguistic viewpoint. Whole language strategies for developing meaning including charts, chants, and shared reading are explored. Emphasis is on theory and effective practice.

Early Childhood Education Issues: A Seminar
EDUC 7170  3 cr.
This course is designed to investigate issues and problems related to the education of young children. Emphasis is placed on current research and developmental theories related to the emotional, social, cognitive, linguistic, motoric development of a child and learning theories. Methodological and curricular concerns, teaching strategies, and child-centered issues are explored. Other topical areas include developmentally appropriate practices, national accreditation, and teacher training in early childhood education. As part of the seminar students are required to undertake a library research paper on some aspect of Early Childhood Education.

Play in Early Childhood Education: Theory, Research, Practice
EDUC 7130  3 cr.
This course is designed for Early Childhood Educators and students of Early Childhood Education who are interested in investigating play—the most important means that young children have in growing cognitively, socially, emotionally, physically, linguistically, and kinesthetically. Theories of play, methods to enhance development through play, effective approaches to support young children's play, as well as materials and resources are explored.

Language Arts and Literacy in Early Childhood Settings
EDUC 7222  3 cr.
This required core course for the initial license in Early Childhood Education introduces the teacher candidate to strategies for literacy development of young children. Specific focus will be placed on emerging literacy and reading process and adaptations, including adaptations for English Language Learners and children with disabilities. The use of Fine Arts, to address the needs of all learners is also examined. An emphasis will be placed on the interdependence of reading and writing on oral receptive and expressive language. Research-based methodologies related to literacy development will be examined and their implications for teaching young children will be investigated. Candidates seeking initial license will conduct a 25-hour field experience. Credit cannot be given for EDUC 7222, 7015, 8400, and 8450. Initial licensure track, Early Childhood.

Language Arts and Literacy at the Middle School
EDUC 7225  3 cr.
This course provides teacher candidates and those in-service with an introduction to the nature of language and language and literacy growth. Emphasis is placed on the meaning and importance of language arts and literacy, as well as on the characteristics of middle level age children, which affect and are affected by the language arts and literacy program which includes English Language Learners; children with disabilities and special needs; children from diverse socio-economic backgrounds, from diverse linguistic backgrounds and from multicultural backgrounds. Elements of writing, speaking, listening, reading, viewing and visually representing are stressed. Curricular approaches and instructional strategies of successful language arts and literacy programs are emphasized. A field experience is an integral part of the course for those seeking initial licensure. Initial licensure track, Middle School.

Contemporary Issues and Curriculum for Multi-needs Populations
EDUC 7228  3 cr.
This course is designed to encourage students to think about the historical, philosophical and theoretical foundations of educational practice and issues and their impact on multi-needs populations. Candidates reflect upon past, current and emerging educational practices and issues. Particular emphasis is placed on rethinking personal assumptions, considering alternative perspectives in the midst of societal demands. New perspectives are then used to design, organize and develop curriculum which effectively creates a learning environment to meet the diverse needs of students. Candidates demonstrate curriculum competencies through the development of various curriculum projects which include understanding a variety of teaching strategies, resource applications and student assessment. Professional licensure, all tracks.

Advanced Child Development
EDUC 7300  3 cr.
This core course explores human growth and development from birth to age eighteen. Particular attention is given to exploring the relationship between developmental theory and knowledge and educational decisions and practice. Various theoretical perspectives are covered as well as specific developmental areas, such as physical—motor, cognitive, language, social, and emotional development. How children develop as thinkers and learners, specifically how problems are solved at different points in development, is emphasized. In addition, students develop a clear understanding of the process of objective observation of children, as well as observation and recording skills appropriate for investigating various aspects of child development and behavior. Professional licensure track, Early Childhood and Elementary.
Contemporary Issues in Education
EDUC 7400 3 cr.
This core course is designed to encourage students to think about the history and foundations of educational practice and issues. Students reflect upon past, current, and emerging educational practices and issues using a variety of frameworks including: historical, theoretical, social, political, and legal. The current issues discussed include relating to teaching as a profession. Particular emphasis is placed upon rethinking personal assumptions, considering alternative perspectives, and investigating current and emerging educational theories, practices, and issues.

Curriculum Design and Implementation for Multi-Needs Populations
EDUC 7500 3 cr.
This core course is designed to provide students with knowledge and skills of the curriculum development process as well as an awareness of societal demands on the curriculum. Effective curriculum development and implementation is a dynamic and continuous process through which teachers can plan, implement and evaluate the instructional program in a systematic and logical way. Particular attention is given to designing and organizing curriculum and selecting teaching strategies, which effectively create a learning environment to meet the diverse needs of youth. Students cover the major components of the curriculum development process, including developing philosophy and objectives, needs assessment, instructional planning and implementation, assessment and evaluation, and curriculum refinement. Emphasis is given to the curriculum areas of Fine Arts, Math, Science, and Social Studies. Students demonstrate curriculum competencies through the development of various curriculum projects, which include understanding a variety of teaching strategies, resource applications, and student assessment.

Dual Stage Track students complete a pre-practicum experience.

Content Area Reading and Writing: Fostering Literacy in Middle School and High School
EDUC 8132 3 cr.
This course meets the requirement that all teachers at the middle and secondary levels be able to use and teach the skills of reading and writing in their disciplines. This course includes an investigation of the reading and writing processes within content disciplines: an examination of the relationships among reading, writing, critical thinking, and learning; discussion of current evaluative methods, including analysis of reading and writing strategies, and procedures for developing student capacity for using reading and writing to think critically and to learn and understand content. Credit cannot be given for both EDUC 8132 and EDUC 8133.

Professional licensure track, Middle School.

Advanced Assessment, Design, and Evaluation of the Middle School Curriculum
EDUC 8150 3 cr.
This course studies the historical and philosophical foundations of curriculum development in the middle school. By looking at various curriculum models, existing curriculum, the nature and needs of the middle school student, subject area knowledge, established standards and societal issues, students fully explore the question, “What ought to be the curriculum of the middle school?” Special attention is given to interdisciplinary, thematic planning and instruction. Professional licensure track, Middle School.

Qualitative Reading Assessment and Analysis
EDUC 8200 3 cr.
This core course focuses on reading assessment through use of informal procedures, such as miscue analysis, metacognitive assessments, schema analysis, informal reading inventories, and other teacher initiated and designed assessment procedures. Additionally, the course emphasizes teacher decision making and instructional planning based on qualitative analysis of children’s reading and study strategies. Professional licensure track, Early Childhood, Elementary.

Prerequisites: a course in Literacy Education at the graduate level recommended or with permission of the Instructor.

Family Involvement in Early Childhood Education
EDUC 8250 3 cr.
This specialized course explores the importance of family interaction with the Early Childhood Educator. Students receive a general overview of parent-child interactions, parent involvement, parent education, and parent participation in Early Childhood Education. Students are exposed to the various theoretical and practical approaches to family involvement practices in the Early Childhood Education setting. Awareness, understanding, and appreciation of various family needs, circumstances, and cultural experiences are promoted. Family-professional partnership models, which effectively serve families with a variety of needs and experiences, are explored. Candidates seeking initial licensure complete a field experience. Credit cannot be given for both EDUC 8250 and 8270. Initial licensure track, Early Childhood.

Collaborating with and Involving Parents in Early Childhood Settings
EDUC 8270 3 cr.
This advanced specialized course examines the importance of family interaction with the Early Childhood Educator and the imperatives that require family involvement at this level. Candidates examine the various theoretical and research basis for involving families, along with effective family-professional partnership models. They use this knowledge to design and implement strategies for involving families in their settings. Awareness, understanding and appreciation of various family needs, circumstances, and cultural experiences are promoted. Also listed as EDUC 8250. Credit cannot be given for both EDUC 8270 and EDUC 8250. Professional licensure track, Early Childhood.

Research in Education
EDUC 8300 3 cr.
In this core course students engage in the scientific reasoning process and reflect upon this process as it relates to the educator’s role. The goals and methods of educational research, the reading and analysis of primary sources, development of an educational research proposal using research and the teacher as researcher, are explored. In addition, course material includes currently used research strategies, such as ethnographic studies, action research and the case study approach. Emerging educational practices that are research-based are highlighted. Appropriate inferential and descriptive statistical methodologies are also studied. Students are strongly encouraged to develop an action research proposal during this course.

Advanced Research in Education
EDUC 8310 3 cr.
This advanced core course is for candidates in the professional licensure track. In this course, candidates engage in the scientific reasoning process and reflect upon this process as it relates to the educator’s role. Methods of educational research, developing an education action research proposal, using research to inform practice, and the teacher as researcher are examined. Credit cannot be given for EDUC 8310 and EDUC 8300.

Middle School Instructional Strategies and Practices
EDUC 8350 3 cr.
This course provides an in-depth look at a variety of instructional practices and strategies appropriate for effective teaching and learning of the early adolescent. Attention is given to addressing the needs of diverse student populations, including but not limited to children with different learning abilities, exceptional talent, different culture/ethnic background or at-risk characteristics. Active and interactive learning strategies are emphasized.
Advanced Social Studies in Education  
**EDUC 8360 3 cr.**  
This course assesses traditional as well as new technologies and their potential applications within the field of social studies education from a historical, theoretical, and practical perspective. Students examine how to integrate instructional experiences that equalize educational opportunities for a diverse and inclusive student population and explore opportunities for enhancing multicultural pluralism. The course investigates social studies content, strategies, and techniques deemed essential to fulfill varied curriculum requirements by exploring the integrative and interdisciplinary nature of the content. Action-oriented processes are used to focus on the pertinent questions and issues at local, state, and national levels as well as those of global importance. Also inquiry-oriented processes are used to require students to ask questions and further develop and expand academic, social, and thinking skills and/or strategies through a variety of approaches to research in the social studies/social science areas. Students are encouraged to challenge convention, raise questions about social assumptions and identify critical issues in social studies education.

Literacy in Elementary and Middle School Education  
**EDUC 8400 3 cr.**  
This specialized course in literacy education examines literature and research related to literacy development. Specific attention is focused on language development, reading/writing process and on literature-based instruction. Classroom strategies and curriculum adaptations that enhance the learning and motivation of diverse learners, including those who integrate the Fine Arts, are presented, implemented, and appraised. Credit cannot be given for both EDUC 7222, 7015, 8400 and 8450. **Professional licensure track, Elementary.**

Literacy in Early Childhood Education  
**EDUC 8450 3 cr.**  
Advanced strategies for literacy development of young children are presented in this specialized course. Specific focus is placed on emerging literacy and reading process and adaptations, including adaptations which integrate the Fine Arts to address the needs of all learners. Students examine the interdependence of reading and writing on oral receptive and expressive language. A review of the literature that emphasizes theoretical and empirical research related to literacy development and its implications for teaching young children is investigated. Credit cannot be given for both EDUC 7222, 7015, 8400 and 8450. **Professional licensure track, Early Childhood.**

Advanced Emergent Literacy: New Perspectives, Pre-K - 2  
**EDUC 8480 3 cr.**  
Emphasis in this course is placed on reading and understanding the implications of recent research in emergent literacy. In addition, students observe and respond to early reading and writing behaviors. Students learn to support early writing, develop directional principles, and understand concepts about print and early reading strategies from Reading Recovery by identifying and selecting natural language texts that promote a self-improving reading system and using picture book literature in gaining literacy. Participants learn to make instructional decisions based on current knowledge of emergent literacy and their own close observations. Prerequisites: EDUC 7101, 8400, or 8450.

Developmental Assessment in Early Childhood Education  
**EDUC 8500 3 cr.**  
This is an advanced course in the design, development, and implementation of developmental assessment tools in Early Childhood Education. Students explore the meaning of developmental assessment, aspects of assessment reliability and validity, test construction and administration, limitations of assessment, observation as a tool for assessment, and other related topics. Students evaluate and demonstrate the uses of various assessment instruments. **Professional licensure track, Early Childhood.**

Advanced Seminar in Child-Centered Issues  
**EDUC 8600 3 cr.**  
This specialized course in the Elementary Education program provides students with the opportunity to explore, discuss, and reflect upon a variety of child-centered issues. Background information for discussions includes research results concerning environments which support and enhance optimum development. Some of the topics covered in the class are multi-cultural/multi-ethnic education, family-teacher partnerships, self-esteem research, inclusion, cognitive styles and creativity, the educator’s role with abused children, and educating from student strengths and interests. **Professional licensure track, Elementary.**

Advanced Strategies and Approaches for Teaching Critical Thinking in the Content Areas  
**EDUC 8650 3 cr.**  
This specialized seminar integrates all content area subjects in an elementary school curriculum. In particular, it introduces students to the nature and scope of Mathematics, Science, Social Studies, and Fine Arts in the elementary school. Students investigate a variety of content models and curriculum programs while they explore theoretical foundations, practical applications, and current issues in the content areas. Strategies and modern techniques for effectively working with diverse populations of students, including computer application in the various content areas, are researched and emphasized. Students demonstrate competencies by developing and demonstrating techniques and activities which illustrate how concepts and practices are learned in each module and how they relate to student needs. **Professional licensure track, Elementary.**

Seminar in Early Adolescent Issues  
**EDUC 8750 3 cr.**  
This specialized course in the Middle School Education program gives students the opportunity to identify, explore, discuss, and reflect upon a wide variety of early adolescent issues central to the adolescent students’ education, growth, and development. Background information for discussions include research results concerning environments, which support and enhance adolescents’ optimal development. Topics explored in this course may include self-esteem; family, school, and community partnerships; learning styles; social changes; and the role of the middle school teacher. **Professional licensure track, Middle School.**

The Adult Learner  
**EDUC 9010 3 cr.**  
The focus of this course is on the nature of the adult learner. Through journals and readings students gain an understanding of how the adult learner processes experience, how learning is best structured, and how feedback should be provided. An extension of this focus includes an investigation of human relations, gender uniqueness as well as relations within diverse populations as they impact the personal competence of the adult learner.

Reflective Seminar and Action Research  
**EDUC 9100 3 cr.**  
This course is the culminating work for candidates in the M.Ed. and Early Childhood Education, Elementary Education, and Middle School Education programs who are in the initial licensure track. It provides the candidate with the opportunity to implement educational concepts and practices gained through earlier courses and the course(s) being taken simultaneously through an action-research project. Each candidate, in consultation with the advisor, will be assigned a college supervisor/mentor for the project. Credit cannot be given for both EDUC 9100 and 9150.
Earth Science

Ecology
ESCI 7007  3 cr.
The dynamic relationship between organisms and their environment is investigated in this survey of major ecological concepts and methodology. Field and laboratory work emphasize problem identification, formulation of hypothesis, data collection, and analysis and interpretation of results in terms of biological implications.

The Modern Secondary School
ESCI 7012  3 cr.
Required of all MAT candidates who do not have initial licensure to teach. Covers a broad range of issues faced by teachers in today's secondary schools. Students become familiar with the complexities and demands of secondary school teaching. Includes 25 hours of prepracticum experience.

New England's Glacial Landscape
ESCI 7100  3 cr.
New England's topographic features were shaped during the last ice age which ended approximately 11,000 years ago. Students learn how glacial geologists study ice age clues to determine how local landscapes were developed. Field trips are required with emphasis on site identification of glacial features.

Observational Astronomy
ESCI 7200  3 cr.
This course is the culminating work for candidates in the M.Ed. in Early Childhood Education, Elementary Education, and Middle School Education programs who are seeking or already possess a professional license. It provides the candidate with the opportunity to implement, at an advanced level, educational concepts and practices gained through earlier courses and the course(s) being taken simultaneously through an action research project. Each candidate, in consultation with the advisor, will be assigned a college supervisor/mentor for the action research. Credit cannot be given for EDUC 9150 and EDUC 9100.

Advanced Seminar in Reflective Practice and Action Research
EDUC 9150  3 cr.
This seminar is the culminating work for candidates in the M.Ed. in Early Childhood Education, Elementary Education, and Middle School Education programs who are seeking or already possess a professional license. It provides the candidate with the opportunity to implement, at an advanced level, educational concepts and practices gained through earlier courses and the course(s) being taken simultaneously through an action research project. Each candidate, in consultation with the advisor, will be assigned a college supervisor/mentor for the action research. Credit cannot be given for EDUC 9150 and EDUC 9100.

Educational Strategies
EDUC 9250  6 cr.
Given the context of the adult learner and the process of implementing educational change studied in the previous courses in the CAGS sequence, the focus of this course is on effective and promising strategies which improve teaching and, thereby, learning for all children. Students become proficient at critiquing the design, analysis, and results of research to determine which strategies hold promise for improving teaching. Students also study current effective strategies in the field, such as cooperative learning, social interaction, peer mediation, teaching/learning styles, cross cultural competency, apprenticeship models, reciprocal teaching, and project approach, as well as implementation of these strategies in their schools.

Internship and Reflective Analysis Seminar
EDUC 9350  6 cr.
This internship is designed to advance the development of self-directed educators who initiate, facilitate, participate in, and evaluate all aspects of educational practice. A year-long experience, the Internship offers an opportunity to practice communication skills and apply collaborative skills with one or more colleagues in the field. Through cooperative participation of school personnel, students are given the realm in which to plan, organize, and evaluate ways of improving instruction and to implement educational change through such peer leadership structures and practices as mentoring, collaborative supervision, peer coaching, and team teaching. All work is carried out under the supervision of faculty. Ongoing internship projects are analyzed during biweekly seminars.

Mentoring Internship: Program Design, Management, and Evaluation
EDUC 9360  3 cr.
This course is the culminating work for candidates in the M.Ed. in Early Childhood Education, Elementary Education, and Middle School Education programs who are seeking or already possess a professional license. It provides the candidate with the opportunity to implement, at an advanced level, educational concepts and practices gained through earlier courses and the course(s) being taken simultaneously through an action research project. Each candidate, in consultation with the advisor, will be assigned a college supervisor/mentor for the action research. Credit cannot be given for EDUC 9150 and EDUC 9100.

Practicum I/ Early Childhood
EDUC 9400  3 cr.
In this practicum experience students are assigned to cooperating schools for a period of student teaching.

Practicum II/ Early Childhood Education
EDUC 9450  6 cr.
In this practicum experience students are assigned to cooperating schools for a period of student teaching.

Practicum/ Elementary Education
EDUC 9650  6 cr.
In this practicum experience students are assigned to cooperating schools for a period of student teaching.

Practicum II/ Elementary Education
EDUC 9700  3 cr.
In this practicum experience students are assigned to cooperating schools for a period of student teaching.

Practicum/ Middle School Education
EDUC 9750  3 cr.
In this practicum experience students are assigned to cooperating schools for a period of student teaching.

Practicum II/ Middle School Education
EDUC 9850  6 cr.
In this practicum experience students are assigned to cooperating schools for a period of student teaching.

ESCI 7400  3 cr.
This course examines the physical and chemical properties of seawater and their roles in the energy/nutrient cycles of marine ecosystems, the role of nutrient cycles and upwelling in fisheries locations, the fluid dynamics of oceanic circulations in both the surface and deep water regions, and the geology of the seabed, including plate tectonics (continental drift), marine sedimentation processes and coral reef formation and bleaching. Finally, a thorough study of the coastal geomorphic/oceanic processes that shape the coastlines of the world via wave dynamics, coastal erosion, and erosion control techniques is explored.
Advanced Methods of Teaching at the Secondary Level  
ESCI 8000 3 cr.  
Combines academic study with clinical practice and supervision. Theories and topics studied and demonstrated include learning styles, critical thinking, computer applications, and inclusive learning environments. Emphasis is placed on integrating culturally or linguistically diverse students and those with special needs. Interdisciplinary course development and implementation, student assessment including portfolio assessment and writing are studied for utilization across the curriculum.  
Prerequisite: ESCI 7012 or Initial Teacher Licensure.

Environmental Geology  
ESCI 8100 3 cr.  
This course is designed for teachers who need a science-based approach to understanding and solving environmental problems. Case studies that explore environmental problems are examined. Issues range from impact of earthquakes, volcanic eruptions and flooding on local communities, to climatic changes on a global scale and the affects of the current world population on the carrying capacity of Earth.

Curriculum and Technology  
ESCI 8250 3 cr.  
This course looks at the integration of educational technology in the classroom, and its relationship to learning theories. Mac and IBM computer hardware, and interfaces for classroom inquiry including video and microscope cameras, digital image capture, scanners, and computer projection panels are examined. Students learn similarities between standard software programs available for writing, computation, and data analysis. It includes a survey of software for studies, ranging from Encyclopedias on CD-ROM to programs that are specific to the study of various topics in science, art literature, math, and language. The class explores the use of the internet as a classroom resource, the hardware and software necessary to get on line, search engines, browsers, URLs, online journals, education web sites, online interest groups, and how to design a web page.

Curriculum Design and Development  
ESCI 8260 3 cr.  
This course is designed to provide students with knowledge and skills of the curriculum development-revision process. In collaborative groups students review, revise and expand the curriculum and assessment procedures in order to integrate current research findings and education reform initiatives. Students articulate a general Curriculum map contextually appropriate for grade-level content as they plan for integrating content with social, behavioral, processing, thinking skills and Curriculum frameworks. Students design an integrated 9-12th grade curriculum that aligns content standards across disciplines. Finally, interdisciplinary groups design an integrated curriculum unit.

Research in Education  
ESCI 8500 3 cr.  
Research is carried out in a specific field of Education that involves an in-depth exploration of a well-defined problem. The student must develop a hypothesis for the possible solution to the problem; develop the experimental technique to test the hypothesis; and develop a logical conclusion based upon the data collected. The final product is a written documentation of the research and results. Each study is done under the supervision of graduate faculty.

Independent Study  
ESCI 9100 3 cr.  
The content of these courses is designed by a student with the guidance of a faculty member to provide in-depth exposure to a topic for which no regular course is available.

Clinical Experience  
ESCI 9400 6 cr.  
See BIO L 9400 for course description.

Internship  
ESCI 9500 6 cr.  
The Internship is a capstone experience allowing full integration and application of content knowledge and pedagogical theory and practice. Within the individual's classroom it incorporates all standards specific to the discipline in which certification is sought as well as all common standards for classroom teachers. A minimum of 400 clock hours or one full semester on-site under the auspices of the college is fulfilled. A research project is completed during the duration of the internship.

Educational Leadership and Management

Computer Application in Education  
EDLM 7000 3 cr.  
This course is designed for teachers and administrators who have had little exposure to computers and data processing. Administrators learn to use the computer as a management tool, especially as it relates to fiscal and personnel matters. Through hands-on experience, participants become familiar with the equipment and learn how computers and systems work.

Politics of Education  
EDLM 7005 3 cr.  
This course deals with the various processes that are utilized at the Federal, State, and Local levels to identify multilevel educational programs and priorities and to fund them. Students develop systematic knowledge about their political environment, acquire skills and strategies necessary to act on that knowledge, and attain principles that shape responsible political action. Guest speakers share their particular viewpoints in these areas.

Physical Plants and Transportation  
EDLM 7010 3 cr.  
This course examines the challenges, problems, and activities related to new building programs, as well as the various aspects of phasing out old buildings, providing alternate uses, and redefining grade, curricula, and administrative organizational patterns.

Organizational Theory and Educational Planning  
EDLM 7020 3 cr.  
This course explores the principles of school district organization and function in the context of the school district; students assess the individual and social needs, formulate direction setting purposes, and acquire model building and simulation techniques. Plant management and transportation issues are also addressed.

Introduction to Systems Approaches in Education  
EDLM 7030 3 cr.  
The course provides a conceptual basis for systems approaches to administrative and leadership problems in education. Through cases and simulations students learn the application of such techniques. Needs assessment, planning, operational, and evaluative approaches are discussed and practiced.

Collective Bargaining in Education  
EDLM 7040 3 cr.  
This course reviews the Federal and State statutes pertaining to collective bargaining in the public sector. Specific emphasis is placed on those statutes bearing on Massachusetts and its educational enterprises. Among the topics discussed and dissected are bargaining contracts, bargaining processes, and legal issues.

Topics  
EDLM 7500 3 cr.  
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.
Applying Computer Technology in Education  
EDLM 7510  3 cr.
This course provides teachers and administrators, at all levels and in all subject areas, with strategies for developing and implementing the use of current and near future computer technology in education. Participants explore creative techniques to build into and enhance their existing curriculum. Working with current software applications, the Internet, and the World Wide Web, participants devise programs and materials for their own classrooms and schools and in support of their teaching. Individual laboratory and project development activity will take place during each class. Little or no prior computer experience is needed.

Planning Professional Development Programs  
EDLM 7520  3 cr.
This course will assist both the educational administrator and the classroom practitioner to focus on professional development and its central importance to school improvement. Students will consider the necessary elements to develop a “quality” professional development program. Given the current Massachusetts reform initiative in teacher certification, and that school districts are providing low or no cost options for staff development, this seminar will address timely issues including effective analysis, planning, roles, schedules, and designs of meaningful professional development. Professional training plans and techniques in hospitals, social agencies, and industrial sites will also be explored.

Schools, Family, Student Partnerships in Education  
EDLM 7530  3 cr.
This course explores techniques and practices which can maximize the strengths and advantages of schools, families, and students. A shift of the current paradigm of education to one that applies the principles of supporting and developing the student is explored. Particular attention will be given to teacher, parent, and student partnerships for learning how to help students to learn. While discussing theoretical and practical applications of such partnerships, functional local programs will be designed to enhance the involvement of each of these groups in the educational process.

Managing Diversity  
EDLM 7600  3 cr.
This seminar focuses on cultural diversity in schools and on the growing challenges and opportunities diversity provides for educators. Emphasis is given to the unique regional cultural/linguistic demographics of diversity within a proactive perspective. Reflective readings and application strategies prepare the educational leader for rewarding multicultural communication and a commitment to effective management of diversity.

Community Relations  
EDLM 8000  3 cr.
Students learn communication techniques and acquire knowledge about political structures and regulations for improving a school and/or community. Individuals develop strategies for relations within their own community, utilizing specific goal-setting techniques. A review of current literature promotes an awareness of the diverse publics involved and suggests methods for dealing with and influencing perceptions about schools and their educational goals. A prepracticum experience is included as an activity of this course.

Foundations of Educational Administration  
EDLM 8005  3 cr.
This introductory course is designed to provide an overview of school leadership focusing on the philosophical foundations of education; the psychological traditions of learning processes; the legal parameters of the school as an institution within the society; the cultural environment of urban, suburban, and rural educational settings; and educational trends as indicated by current research and pertinent literature.

Principles of Success for Practicing Administrators: Putting Plans into Action  
EDLM 8006  3 cr.
This course develops theory and practice behind the implementation of “Principle-Centered Leadership.” The course is built around specific issues and needs of individuals who are fully employed as school administrators/directors. Topics covered include: communicating effectively, developing innovative action plans based on goals and vision, creating a support system that empowers others, and developing steps of program implementation within organization restrictions. Administrators practice sustaining action, problem solving, celebrating success, and measuring progress.

Human Resources and Personnel Administration  
EDLM 8010  3 cr.
This course focuses on establishing the rationale and organizational structure that supports effective human resource administration. Among the topics included in this course are staff selection, teacher induction, teacher tenure, promotion and dismissal, salary scheduling, policy making, relations with professional and non-professional personnel, and employee welfare. Emphasis is placed on the interpersonal dynamics of the educational enterprise as it relates to human resource management. Additionally, there is an exploration of issues involving affirmative action, and concerns about the underrepresentation of minorities in teaching and administration.

Law for the Educator  
EDLM 8020  3 cr.
Constitutional and statutory provisions governing a public school system are examined on local, state, and national levels. A thorough review is made of the legal parameters surrounding the local level of the educational system. In addition, students inspect federal and state guidelines generated to meet the needs of diverse student populations in compliance with current judicial decisions and state legislation. The impact of precedent-setting cases is a major focus of this course.

Public School Finance  
EDLM 8030  3 cr.
This course addresses the fiscal and allocated functions of school administration. Students develop the skills and knowledge related to budgeting, accounting, and financing at the local, state, and federal levels. Resource acquisition and development of strategies for locating alternative revenue sources and, subsequently, allocating these resources efficiently and effectively are skills the student acquires.

Curriculum Leadership and Evaluation  
EDLM 8040  3 cr.
This course is designed for administrators who must become knowledgeable about curriculum development and program evaluation. The role of the administrator as a decision-maker and as an instructional leader is explored. Emphasis is placed on program development and evaluation, which reflects the various cultural and ethnic minority groups students represent. Additionally, practical applications of programs as well as the application of evaluation models and techniques are investigated. Prepracticum responsibilities are a part of this course.

Seminar: Research in Educational Leadership  
EDLM 8050  3 cr.
This course is designed to acquaint the student with the current research in Educational Administration and to teach the student how to evaluate the pertinence of this research to educational problems and issues. Students identify and use research sources and undertake projects that prepare them to address educational issues in an informed and lucid manner. Prepracticum responsibilities are a part of this course.
Administration of Special Education Programs
EDLM 8800 3 cr.
Service delivery models as they relate to legislation, general curriculum, and various handicapping conditions are presented. Emphasis is given to the services, organization, programs, personnel, and facilities as they relate to the exceptional child and young adult. Students are expected to be well-versed in the effects of Federal and State mandates for special education services as a result of this course.

The Principal: Organization and Administration of the Elementary, Middle, and Secondary School
EDLM 9000 3 cr.
This course addresses the role of the principal as an effective manager of schools at various levels of education. The focus is on the development of the human, conceptual, and technical skills required of decision-making, communication, planning and recruitment, scheduling, public relations, evaluating, and contract management. Course assignments reflect the specific level of interest of the participants (elementary, middle, and senior high schools). Nine semester hours of prerequisite core courses (excluding EDLM 91XX) are required.

Cases and Concepts in Educational Administration
EDLM 9010 3 cr.
A case study approach is used to address problems and issues encountered in school administration. Current managerial concepts and strategies are used to explore alternative solutions to and methods of dealing with administrative problems and issues. This course is normally taken by students when all core courses have been completed in order to maximize their integration of administrative knowledge and skills.

Public Relations Tools for Leaders
EDLM 9015 3 cr.
Leaders are successful only when they win support for their programs. This course provides leaders with the tools to develop the public relations strategies, plans, and campaigns that bring success within reach. More practical than philosophical in its approach, this course emphasizes audience analysis and long range planning while providing proven techniques for using the news media, writing effective speeches, synchronizing community relations initiatives, and managing a bad news crisis. At the end of the course, each leader will have a tailored action plan and the wherewithal to implement it.

Collegial Supervision
EDLM 9020 3 cr.
The nature and function of supervision as it relates to both the teacher and the supervisor are studied. Also presented is a contemporary view of the concept of supervision from both a theoretical and practical perspective. The role of the “supervisor” is discussed as it has evolved from the traditional model to the instructional leadership model—a model that embraces collegiality and professional development. Included are strategies and processes related to a variety of supervisory models, e.g.: clinical supervision, mentoring, differentiated supervision, cooperative development, and self-directed development. Emphasis is on studying ways in which the planning, organization, and evaluation of instruction may be effectively improved through the cooperative participation of school personnel.

History of Higher Education
EDLM 9026 3 cr.
The course explores the major development in American education from the seventeenth century to the present. Emphasis is placed upon aspects of European education and how it impacted higher education as we presently know it. The philosophical as well as historical aspects of the modern system and its evolution are covered.

Leadership Theory
EDLM 9030 3 cr.
This course covers the entire Leadership Theory Movement from its inception to present day thinking. All aspects of the discipline are covered, including leadership theory, findings of leading scholars, leadership techniques, case studies associated with successes and failures, and application to a modern society.

Organizational Issues
EDLM 9040 3 cr.
This course covers the role of the modern organization in a changing environment with emphasis on key organizational issues of importance.

College and University Teaching
EDLM 9050 3 cr.
This course explores the history, philosophy, and objectives of teaching at all levels of higher education. The teaching and learning process is covered in depth with a special emphasis placed upon developing an understanding of the student, teacher, and the interaction required for effective learning.

Social Context
EDLM 9060 3 cr.
This course covers social issues in higher education in a changing environment with emphasis on key current issues.

Strategic Planning in Higher Education
EDLM 9070 3 cr.
This course is a comprehensive review of strategic planning for higher education. All functional areas of strategic planning are covered with emphasis on its relationship to marketing, management, and finance. The course utilizes case studies.

Practicum in Higher Education Administration
EDLM 9080 6 cr.
The practicum/internship position for the enrolled student provides all of the necessary experience for a particular position in administration. The experience is supervised by an experienced faculty member. The timing coincides with an academic semester. Specific educational outcomes are developed by the student with assistance from a designated faculty member. A total of 300 hours are required for the semester.

Independent Study
EDLM 9090 3 cr.
This course utilizes a conference approach with an individual student placing emphasis on critical thinking, refinement of research skills, and ability to pursue topics independently. In some exceptional cases, students are permitted to utilize this course in lieu of core or specialization track courses due to completion time constraints or lack of course offerings. Prerequisite: permission of Advisor only.

The Dynamics of Planned Change
EDLM 9100 3 cr.
A study of planned change, essentially aimed at education, includes a review and analysis of sociological and psychological factors inherent in the change process. Topics reviewed include organizational behavior, intervention theory, intergroup relations, and management techniques. The course schedule includes a series of multi-hour sessions mixing lecture, simulation, problem-solving and discussion of the four major course components: organizations; planning change; strategic planning; and managing change. Topics are considered in light of the overall objective of changing/improving schools with an eye toward improving the education of students and, consequently, improving their lives. Candidates will participate in an eight hour, one day strategic planning session.
A Practicum in Educational Leadership and Management
EDLM 9221 6 cr.
The culmination course in the Master's Degree program consists of an internship/practicum experience in the role of public and/or director and the college supervisor. The student is expected to work in a school setting performing the kinds of responsibilities and duties for which he/she is preparing, i.e. principal—supervisor/director that directly address the Administrative Leadership MA and N PBEA Standards. The practicum can be arranged for full-time or part-time. Final practicum arrangements are to be agreed upon with an advisor at least one semester prior to the practicum. During the practicum, students meet with their college advisor and are visited at their practicum site. This practicum consists of a minimum of 400 clock hours earned at the practicum site.

Clinical Experience in Educational Leadership and Management
EDLM 9221 6 cr.
The clinical experience in the role and at the level of the certificate sought. It integrates content area knowledge, pedagogical theory, and practice. A clinical experience requires a minimum of 400 clock hours or one full semester as defined by the field site. Clinical experiences are fulfilled either under the auspices of a college or university, in which case supervision and evaluation are the responsibility of the college or university, or under the auspices of a school system authorized by the Bureau as a clinical experience site. In this case supervision and evaluation are the responsibility of the college. Evaluation of all clinical experiences are based on the appropriate standards for the Administrative Certificate being sought.

Thesis
EDLM 9500 3 cr.
The thesis is undertaken by students who are not seeking certification and in lieu of the practicum/internship in the Education Leadership and Management Program. (See Thesis description in the Education Leadership and Management program description).

The Contemporary Educational Leader (Capstone)
EDLM 9600 3 cr.
This course explores the significant issues and relevant research affecting individual and systemic educational leadership. Students will actively investigate such topics of contemporary concern as diversity, reform movements, the profession of teaching, the role of leadership, creative curricula, innovative learning environments, the promise and potential of new educational technologies, student and faculty accountability to the curriculum, equity in funding and financial megatrends. The course will provide master teachers, administrators, and staff developers with new insights into the key ideas and critical components of proactive leadership.

Educational Technology
Impact of Technology on Education
ETEC 7600 3 cr.
This course includes content related to the impact of technology on education, especially as it relates to effective teaching and curriculum development. The use of technology as a change agent in schools is explored. Students are exposed to the variety of technologies used in schools.

A Graphics Approach to Technology
ETEC 7700 3 cr.
This course explores the integration of visual learning and computers. Students explore the use of paint programs, hyperstudio, videos, and interactive videos. The Macintosh computer's approach to software (pull down menus and use of the mouse) is investigated.

Using the Computer as a Research Tool
ETEC 7800 3 cr.
This course integrates critical thinking skills and computers. Students explore the use of problem solving software, Logo, and Logo Writer. By using the computer as a tool for conducting research students are enabled to look at CD ROM, Database Applications, Hypercard, and Telecommunications.

Topics
ETEC 8000 3 cr.
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.

Computers and Writing
ETEC 8600 3 cr.
This course provides teachers and administrators, at all levels and in all subject areas, with strategies for developing and implementing a computer-assisted process writing program in their classrooms and schools. Participants examine the process of writing (idea generating, drafting, responding, revising, editing, and publishing) and are introduced to ways of using the computer to facilitate writing growth at each stage. Working with current writing software programs, editing tools, and desktop publishing packages, participants devise a computer-assisted writing program for their own classrooms and schools. Previous computer experience is not required.

Seminar in Educational Technology
ETEC 9100 3 cr.
Students have the opportunity to examine, in depth, current issues and future directions in educational technology. Discussions and readings focus on the relationship between the computer and teaching methodologies, as well as teacher effectiveness and curricula.

Project in Educational Technology
ETEC 9200 3 cr.
Completion of a comprehensive project utilizing educational technology in elementary education, special education, or secondary education is required. The projects developed and implemented are evaluated by a review board of classmates and faculty.

English
*Asterisk indicates that the course may be offered less than once every two years.

Children's Literature
ENGL 7010 3 cr.
Students in this class study the content of classic and contemporary children's literature plus various approaches for interpreting and teaching a wide variety of children's texts. Close attention is paid to emerging trends in children's literature as well as to the literature's enduring concerns.

The Modern Secondary School
ENGL 7012 3 cr.
Required of all MAT candidates who do not have initial licensure to teach. Covers a broad range of issues faced by teachers in today's secondary schools. Students become familiar with the complexities and demands of secondary school teaching. Includes 25 hours of prepracticum experience.

Advanced Methods of Teaching at the Secondary Level
ENGL 8000 3 cr.
Combines academic study with clinical practice and supervision. Theories and topics studied and demonstrated include learning styles, critical thinking, computer applications, and inclusive learning environments. Emphasis is placed on integrating culturally and linguistically diverse students and those with special needs. Interdisciplinary course development and implementation, student assessment including portfolio assessment and writing are studied for utilization across the curriculum.

Prerequisite: ENGL 7012 or Initial Teacher Licensure.
Creative Writing
ENGL 8020 3 cr.
This course facilitates the writing of poetry and/or short fiction in a workshop atmosphere.

The Robert Cormier Collection
ENGL 8035 3 cr.
This course is a study of the writings of Robert Cormier, the internationally acclaimed Leominster author, using materials in the Robert Cormier Manuscript Collection at Fitchburg State College. The Chocolate War, I Am the Cheese, Tenderness, Heroes, Frenchtown Summer, and other works by Cormier are examined.

Theories and Principles of Language Learning
ENGL 8040 3 cr.
This course provides teachers of multilingual students with a theoretical background for the teaching and learning of languages. It introduces research into second language acquisition from perspectives of the fields of linguistics, psychology, and education. Topics include language acquisition; learning styles and strategies; effects of personality, age, motivation, and sociological factors; and the role of the first language. Discussions explore the relationship of theory to methodology and classroom practice.

Methods and Materials in ESL
ENGL 8042 3 cr.
The major methodological approaches to teaching English as a Second Language (ESL), including a historical survey and a review of current applications, are explored in this course. The following topics are discussed: interactive, communicative classroom practices; teaching reading, writing, listening, oral communication, grammar, and vocabulary; testing; designing and evaluating classroom materials.

Graduate Study & Research in English
ENGL 8050 3 cr.
Designed for students who are new to the English Graduate Program.
This course promotes the student's ability to do independent and creative scholarly research and to become more competent in critical approaches to literature, research techniques, new methodologies, and technologies, as well as library and archival evaluation. Students in the MAT in English Licensure program develop the research proposal for the classroom research project required during their 400 hour Internship/Clinical experience.

Composition Theory and Practice
ENGL 8052 3 cr.
This course is intended to help students create a framework for generating their own philosophy of writing. It is intended to help students develop a deeper understanding of their own writing processes, to recognize the complexities of literacy and writing, and to become more conscious of the rhetorical choices writers make in different writing situations.

Literature in the Classroom: Readers, Text and Teachers
ENGL 8070 3 cr.
This course examines the place of literature in today's middle and secondary school classroom. Using the Standards for the English Language Arts (NCTE and IRA) and the Massachusetts English Language Arts Curriculum Framework as guides, we consider the choice of classic and contemporary literature for whole class and small group instruction, and the role of the teacher in the planning and delivery of instruction. Current research findings and education reform initiatives are integrated into the discussion. The role of literature in the curriculum and the role of the American school in a democratic and multicultural society as students assess, revise, and implement instructional programs and the curriculum in a systematic and logical way. Active participation in school-based curriculum teams, IEP teams, site-based management teams, and community groups teach effective delivery of services to all students and school improvement/ reform efforts. In collaborative groups students review, revise, and expand the curriculum and assessment procedures in order to integrate current research findings and education reform initiatives.

Process Writing Across the Curriculum
ENGL 8076 3 cr.
Writing across the curriculum provides learners with the opportunity to investigate their own thinking as they go beyond the surface level of text or subject matter to arrive at meaningful connections and insights. Students investigate creative approaches to introduce current research journals into portfolios and audience assessment. Working independently and in cooperative learning groups, participants immerse themselves in the reading/writing/thinking processes, create their own portfolios, design mini-lessons, conduct research, and share their learning and thinking.

Literature and Film
ENGL 8085 3 cr.
This is an introduction to the relationship between literature and film through the critical study of each medium. Special consideration is given to matters of characterization, narration, plot, setting, theme, and tone in written works and films. Students are introduced to conventions of the documentary and fictional film, principles of scriptwriting, and the elements of formal screen production.

Practicum
ENGL 8090/8091 6 cr.
Student teaching experience is offered to give practical classroom experience to those degree students who have not satisfied the state requirements for certification. Students may enroll for a second semester by permission.

Curriculum and Technology
ENGL 8250 3 cr.
This course looks at the integration of educational technology in the classroom, and its relationship to learning theories. Mac and IBM computer hardware, and interfaces for classroom inquiry including video and microphone cameras, digital image capture, scanners, and computer projection panels are examined. Students learn similarities between standard software programs available for writing, computation, and data analysis. It includes a survey of software for studies, ranging from Encyclopedias on CD-ROM to programs that are specific to the study of various topics in science, art, literature, math, and language. The class explores the use of the internet as a classroom resource, the hardware and software necessary to get on line, search engines, browsers, U RLs, online journals, education web sites, online interest groups, and how to design a web page.

Curriculum Design & Development at the Secondary Level
ENGL 8260 3 cr.
This course combines academic study with clinical practice and supervision. Students develop an individualized plan for the development of a curriculum and are required to complete a practicum in a school district. The course is intended for students planning to enter graduate education in the field of educational administration and supervision.

Literature for Young Adults
ENGL 8071 3 cr.
Literature for Young Adults is a survey of current books written especially for middle and secondary school students, as well as a study of strategies for teaching them. The emphasis is on the newest books available in paperback that are suitable for classroom use or recreational reading. Strategies for encouraging student engagement with literature, for pairing young adult novels with the classics, and for sharing responses are modeled by the professor and evaluated by students. Students develop skill in evaluating young adult literature in terms of literary quality, reader interest, and teaching value.

Process Writing Across the Curriculum
ENGL 8076 3 cr.
Writing across the curriculum provides learners with the opportunity to investigate their own thinking as they go beyond the surface level of text or subject matter to arrive at meaningful connections and insights. Students investigate creative approaches to introduce current research journals into portfolios and audience assessment. Working independently and in cooperative learning groups, participants immerse themselves in the reading/writing/thinking process, create their own portfolios, design mini-lessons, conduct research, and share their learning and thinking.
Literary Theory: Practical Applications for Today's Readers  
ENGL 9000  3 cr.
This course surveys theories of literature with emphasis on applying them to our readings of a wide variety of texts. Study includes a brief historical survey, but focuses on such contemporary practices as cultural studies and feminist theory. Texts and theoretical schools may vary from semester to semester. Practical applications in the classroom and in one's own reading guide class discussion.

Chaucer  
ENGL 9010  3 cr.
Students read Chaucer's major works, beginning with early poems and lyrics, then concentrating on The Canterbury Tales and Troilus and Criseyde. Focus is on the Middle English Language: critical approaches, and literary analysis.

The Literature of the Middle Ages  
ENGL 9011  3 cr.
The course surveys selected texts from the Middle Ages, starting with Beowulf and Old English lyrics, and including representative Middle English, Celtic, Anglo-Norman, and French works. Various genres are covered, including epic, lyric, drama, Arthurian romance, legend, religious verse, and satire. All works except the Middle English are read in translation.

The Practice of Poetry: Critical Reading, Creative Writing  
ENGL 9012  3 cr.
The best way to study poetry is to write it. This active-learning course explores the contemporary poetry scene: productions, performances, and discussions of poetry as it is practiced today. Students compose original poems in a variety of styles and learn interactive methods of responding to poetry. Students read literary works representing major poetry trends, such as ethnic, confessional, formalist, experimental, feminist, and L=A=N=G=U=A=G=E. Students visit the computer lab, learning the basics of accessing online poetry groups and publications online. Students attend a live or taped reading, research several literary journals, and prepare either a final paper or a selection of original poems. Beginners as well as more experienced poets are welcome.

Shakespeare's Major Plays  
ENGL 9020  3 cr.
This course examines Shakespeare's major plays in relation to the culture and interpretive concerns of both Shakespeare's world and our contemporary one. Special emphasis is placed on his works as read, taught, performed, and constructed in regard to power, gender, class, and literary aesthetics.

Revisiting the Romantics  
ENGL 9035  3 cr.
This course emphasizes the work of romantic era writers (1780-1830). Students examine the key aesthetic and political debates of the time through an analysis of essays, poetry, novels, and plays. Authors include such writers as Mary Wollstonecraft, Mary Shelley, William Godwin, Dorothy and William Wordsworth, Coleridge, Keats and Byron.

The Quiet Revolution: Nineteenth-Century American Women Writers  
ENGL 9036  3 cr.
This course considers texts written by the "d---d mob of scribbling women," including M alida Joslin Gage, Sarah Or me Jewett, H anriet Jacobs, H anriet Beecher Stowe, Ida B. Wells and others. Students learn how these women used essays, magazine and newspaper columns, novels, short stories, and slave narratives as a public forum for discussing issues such as sexism, racism, and the reform of labor, marriage, property, voting, and education.

American Renaissance: Works by Hawthorne, Poe, and Others  
ENGL 9037  3 cr.
This course looks at fiction and poetry by several great American writers of the mid-nineteenth century. Readings will explore the revolution that took place in the treatment of nature and science in the middle of that century.

Mark Twain and American Humor  
ENGL 9040  3 cr.
This course surveys several of Twain's works, with a focus on his performance as a humorist and as a wry commentator on and critic of American Life. The course explores Twain's treatment of such serious issues as race and cultural conformity through the medium of laughter. Humorists who share the Twain legacy, such as Kurt Vonnegut and stand-up comics, are also studied.

American Art and Literature 1800-1860  
ENGL 9046  3 cr.
This course explores the relationship between the plastic art and the literary art of the new nation. Students learn to identify the forces that inspired imaginative production in both art forms during the period that attempted to define the "American" style. Slides of paintings as well as literary texts are studied.

Women in European Literature  
ENGL 9047  3 cr.
At the center of this course are texts by women authors from various European countries written during the eighteenth through the twentieth centuries. Students consider the kinds of writings published by women, their audiences and motivations and the accessibility or popularity of their writings. Close analysis and discussion of individual texts lead students to consider variations of these factors between countries and time periods.

Multicultural Children's Literature  
ENGL 9048  3 cr.
This course focuses on contemporary multicultural children's literature and requires students to learn and apply appropriate interpretive strategies for understanding texts and cultural contexts. Students gain and demonstrate a firm understanding of the major critical issues regarding multicultural children's literature and formulate and support personal responses to these issues.

The World Novel to 1914  
ENGL 9049  3 cr.
This course examines significant novels outside the American/English literary canon in translation representing the development of the form. Selected authors may include comic, romantic (Sand), realist (Balzac, Flaubert), and psychological (de Assis, Michahis).

20th-Century British and American Poetry  
ENGL 9052  3 cr.
This seminar explores the works of poets such as Auden, H.D., Lowell, Plath, Roethke, K immell, Rich, H aney, Bishop, W alcott, and H ughes. Students make presentations on assigned topics and may also be required to attend live and filmed poetry readings.

Modern Irish Literature  
ENGL 9055  3 cr.
This seminar concentrates on major works by Irish poets such as Yeats, H aney, M uld mon; Irish fiction writers such as Joyce, O'Connor, O'Faolain and Irish playwrights such as Synge, O' Casey, Friel.

Contemporary World Literature  
ENGL 9058  3 cr.
Particular emphasis in this course is placed on authors who write to effect changes in our perceptions of "the other" so we may understand "the otherness" of ourselves. Authors studied include: Conrad, Forster, Achebe, Gordimer, Fugard, et al.
The Shapes of Modern Drama
ENGL 9059 3 cr.
In this seminar students read plays from such traditions as the realist, the symbolist, and the expressionist, including works by Yeats, Pirandello, Beckett, Pinter, and Mantet.

Women Writers Around the World: Stories of Maturation and Initiation
ENGL 9060 3 cr.
Students take a global approach to women's stories of growing up found in autobiographies, novels, short stories, and poetry. An invigorating exploration, this course includes works by authors such as Toni Cade Bambara, Nawal El Saadawi, bell hooks, Clarice Lispector, Anchee Min, Georgina Valoyce Sanches, Esmeralda Santiago, Leslie Marmon Silko, Jeanette Winterson, and Banana Yoshimoto. Much of this literature is appropriate for use in the high school classroom.

Africa Through the Novel
ENGL 9061 3 cr.
Students read, examine, and discuss texts by African writers who have (re)constructed in their imaginary worlds specific and multiple visions of African life. All texts were written in the twentieth century, although some portray periods prior to that time. Emphasis is on characteristics of style, politics, and culture evoked in these works and aspects of contemporary literary theory pertaining to African literature today.

Canon Formation in African American Literature
ENGL 9063 3 cr.
This course examines texts by African American writers who have (re)constructed in their imaginary worlds specific and multiple visions of African American "life." All of the texts read in this course were written during the 19th and 20th centuries, but some of them involve historical periods prior to these times. Others are informed by variations of historical consciousness of the past/present/future.

Three American Literatures: Native American, African American, and Asian American
ENGL 9064 3 cr.
The focus of this course is on relationships between culture and society as works by three groups of Americans are considered within historical, ethnic, and cultural backgrounds. Discussion may concern questions of identity, family, initiation, and politics and ideology, education, gender, aggression, and violence. Special attention is paid to the novel as a popular art form in aesthetic and social terms.

Women in Contemporary Society
ENGL 9065 3 cr.
Women as a force in society are the focus of this cross-discipline course. The political, social, and economic issues concerning women are subjects for student research. Areas explored include anthropology, business, education, history, literature, philosophy, psychology, sociology, science, and the arts. Students also consider the role of cultural diversity (both nationally and internationally) in the scholarship of women.

Latin American Novels
ENGL 9066 3 cr.
This course offers an introduction to the literature of the various cultural areas of Latin America. Such authors as Gabriel García Márquez (Columbia), Jorge Amado and Graciliano Ramos (Brazil), Miguel Ángel Asturias (Guatemala), Juan Ruíz (Mexico), among others, are studied, in their English translations. The roles of the church and the Latin American family are examined as well as the image of tropical nature. Comparisons to English/North American Literature are made when useful.

Asian English Literature in Cultural Context
ENGL 9067 3 cr.
This course covers selected works, mostly fiction and memoir, of American, Canadian, and British writers of Asian ancestry. We examine how authors such as Maxine Hong Kingston, Amy Tan, John Okada, Joy Kogawa, R.K. Narayan, and Gail Tsukiyama explore questions of identity and cultural and family dynamics, and how works by ethnic minorities relate to various literary traditions. We gain familiarity with the Asian cultural framework of the writers in order to understand differences with western traditions and expectations.

Topics Course
ENGL 9075 3 cr.
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.

Independent Study
ENGL 9080 3 cr.
Independent study provides special individualized study under close supervision for students excelling in scholarship.

Master's Thesis Research
ENGL 9100 3 cr.
The student researches in depth a topic of his or her own interest in English. Students who successfully complete this course should enroll in ENGL 9200 Master's Thesis Writing.

Prerequisite: Signed permission from the Graduate English Chair.

Master's Thesis Writing
ENGL 9200 3 cr.
Using the research developed in the Master's Thesis Research course, the student will write a master's thesis under the guidance of a faculty member and following the Graduate English Thesis Guidelines. Prerequisite: Signed permission from the Graduate English Chair and Master's Thesis Research.

Clinical Experience
ENGL 9400 6 cr.
See BIO 9400 for course description.

Internship
ENGL 9500 6 cr.
The Internship is a clinical, capstone experience allowing full integration and application of content knowledge and pedagogical theory and practice. It should incorporate all standards specific to the discipline in which certification is sought as well as all common standards for classroom teachers (section 7.04). Students must fulfill a minimum of 400 clock hours or one full semester on site under the auspices of the college.

History
From Weimar to Hitler: Germany 1918-1945
HIST 7010 3 cr.
This class, run as a seminar with joint student/faculty leadership, traces the developments that led to the collapse of the Weimar Republic and the National Socialist acquisition of power in Germany. Issues covered include social and economic trauma after the First World War, the relationship between state and society in the Weimar Republic, political fragmentation, the reaction against modernism, culture, the National Socialist power, everyday life in National Socialist Germany, women and National Socialism, social, and cultural development.

The Modern Secondary School
HIST 7012 3 cr.
Required of all MAT candidates who do not have initial licensure to teach. Covers a broad range of issues faced by teachers in today's secondary schools. Students become familiar with the complexities and demands of secondary school teaching. Includes 25 hours of practicum experience.
The Vietnam War and U.S. Society

HIST 7020 3 cr.
Course is a graduate seminar, which examines the Vietnam War and its impact on U.S. society as well as surveys the historical background to conflict. Major themes include the history and culture of Vietnam, earlier conflict with China, the era of French colonialism and the First Indochina War, U.S. diplomatic involvement in Vietnam, issues of leadership, military aspects of war, the internal struggle within Vietnam, the impact of war on the U.S. military, the anti-war movement, the effect of the war on presidents from Eisenhower to Ford, prisoner of war issues, women's issues and the diplomatic efforts to ending the conflict, as well as the post-war memorialization of the war in Vietnam and in America.

American Civil War and Reconstruction

HIST 7030 3 cr.
Examines the American Civil War through lectures and comparative readings in order to understand the causes of sectional conflict, the war, and its aftermath. Major themes include abolition, African-American resistance to slavery, war strategy, and the social and political impact of Reconstruction.

Introduction to Public History

HIST 7040 3 cr.
Examines the central issues involved in the various fields of public history. Students learn how to apply their academic history training to a broader range of professional and educational applications - museums, historical agencies, and historic preservation organizations. Students learn about specific functional strategies employed by public historians including oral history, exhibition planning and design, and collections management as they develop an understanding of the ethical debates about collecting, exhibiting, and interpreting historical materials.

The U.S. Women's Rights Movement Since 1820

HIST 7150 3 cr.
The class, run as a seminar with joint student/faculty leadership, traces the development of the women's rights movement from its roots in the abolitionist movement to its present status in the feminist movement. Issues covered are abolitionism, woman suffrage, temperance, labor, peace, reproductive rights, and general rights. Students investigate issues, ideologies, strategies, tactics, and personalities. Research involves biographies, organizational histories and/or analysis of political theories and strategies. The course provides students with the knowledge to incorporate new teaching materials about women's history into U.S. history courses and to gain a broader understanding of women as actors in U.S. politics.

Beyond Antiques: Artifacts and History

HIST 7260 3 cr.
American material culture—personal and domestic artifacts, buildings, and historic landscapes can tell us much about life in the past. Through a combination of readings, object studies, and field trips, students survey different modes of investigation: social and cultural history, history of technology, cultural geography, historical archaeology, folk life studies, art history, and decorative arts studies. The seminar tests the applicability of these disciplines, methods, and theories to specific spheres of activity and thought, including community, class, work, house and household, clothing, dining, landscape, and play.

Judaism and Early Christianity

HIST 7250 3 cr.
This course offers an overview of the formative period of development of both Judaism and Christianity, from 300 BCE to 500 CE. It explores a variety of factors that led Christianity to break away from Judaism and its transformation into the single most powerful religious movement in the Mediterranean region. Readings in both primary and secondary texts (translated into English) provide valuable points to examine various aspects of the spread of Jesus movement within the contexts of social unrest, competition among ethnic minorities, and the socio-economic reasons that led to the dissolution of the Roman Empire.

Middle East History

HIST 7260 3 cr.
This course surveys Middle Eastern history from its beginnings to the present. The course explores religion, politics, social institutions and gender history of Muslim civilizations as its expansion and confrontation with other civilizations sharpened its own self-image. The methodology of this course is interdisciplinary, including archaeology, comparative literature, cultural and social history, and religious studies. Particular attention will be paid to the countries of the Middle East as they developed after World War I and how the various coalitions of the Arab nations were formed in response to Western European interventions. Emphasis will be placed on international politics and the hidden agendas involving defense, oil, economics, and security between Western Europe and the Middle Eastern alliances.

Amerindian History

HIST 7270 3 cr.
This course studies Amerindian history from the earliest settlement through the nineteenth century, including, religion, politics, social institutions, and gender history of Amerindian cultures. The methodology of this course is interdisciplinary, including archaeology, linguistics and comparative literature, cultural and social history and religious studies. We shall examine the social reasons for the first migrations and local developments in many regional areas using archaeology and social histories of various archeological cultures and historic tribes.

Irish History

HIST 7280 3 cr.
This course examines the history of Ireland from its beginnings to the present. It focuses on the cultural history of Ireland as it evolved through a series of waves of immigration since ancient times, which created new cultural mixes and confrontations. The course explores religions, social and political institutions and gender history of this island, which provided a haven for a variety of immigrants from ancient times. The methodology of this course is interdisciplinary, including archaeology, comparative cultural and social history, and religious studies. We shall examine the diversity of Irish social and cultural origins and investigate how these contribute to the formation of an Irish identity. The story of competing mores will be examined in the tensions, which are apparent in the modern history of Ireland today.

Modern Russia: Rebirth and Renewal

HIST 7300 3 cr.
The course is a survey of several major historiographical problems in modern Russian history from the reign of Peter the Great through the revolutions of the 20th century with a focus on cultural and political history. Also emphasized, however, are teaching strategies and tactics at the secondary level designed to prepare students for the M.C.A.S. history examinations.
Historiography  
HIST 7450  3 cr.
Historiography or the historian's craft is addressed by considering how a historian discovers facts and formulates them into hypotheses; how the historian’s craft has changed over the course of time; and how different historians handle the same era or subject matter. The course enables students to read a piece of secondary source writing and analyze the author's perspective and biases; analyze and understand a primary source document; write a paper using primary source material; understand historians' work within their own historical era; appreciate the subjective as well as objective nature of historical research.
In any particular semester, the instructor chooses one of two forms for the course:
a) a survey and analysis of various historians' work; their approaches and their tools, or b) a study of historians’ methods and a research paper based on primary source research putting these methods into use.

Advanced Methods of Teaching at the Secondary Level  
HIST 8000  3 cr.
Combines academic study with clinical practice and supervision. Theories and topics studied and demonstrated include learning styles, critical thinking, computer applications, and inclusive learning environments. Emphasis is placed on integrating culturally or linguistically diverse students and those with special needs. Interdisciplinary course development and implementation, student assessment including portfolio assessment and writing are studied for utilization across the curriculum.
Prerequisite: HIST 7012 or Initial Teacher Licensure.

Modern Japan and East Asia  
HIST 8010  3 cr.
Examines modern Japan from the Tokugawa shogunate and Meiji Restoration to the present. Major themes include the interaction between Japan and East Asia, its relationship with the U.S., the impact of industrialization and militarization, as well as the economic dominance of the post-WWII era and the collapse of the "bubble economy" in the nineties.

Practicum  
HIST 8090  1-6 cr.
Student teaching experience is offered to give practical classroom experience to those degree students who have not satisfied the state requirements for certification.

Curriculum and Technology  
HIST 8250  3 cr.
This course looks at the integration of educational technology in the classroom, and its relationship to learning theories. Mac and IBM computer hardware, and interfaces for classroom inquiry including video and microphone cameras, digital image capture, scanners, and computer projection panels are examined. Students learn similarities between standard software programs available for writing, computation, and data analysis. It includes a survey of software for studies, ranging from Encyclopedias on CD-ROM to programs that are specific to the study of various topics in science, art, literature, math, and language. The class explores the use of the internet as a classroom resource, the hardware and software necessary to get on line, search engines, browsers, URLs, online journals, education web sites, online interest groups, and how to design a web page.

Curriculum Design and Development  
HIST 8260  3 cr.
This course is designed to provide students with knowledge and skills of the curriculum development-revision process. In collaborative groups students review, revise and expand the curriculum and assessment procedures in order to integrate current research findings and education reform initiatives. Students articulate a general curriculum map contextually appropriate for grade-level content as they plan for integrating content with social, behavioral, processing, thinking skills and curriculum frameworks. Students design an integrated 9-12th grade curriculum that aligns content standards across disciplines. Finally, interdisciplinary groups design an integrated curriculum unit.

Topics in History  
HIST 9000  3 cr.
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.

Clinical Experience  
HIST 9400  6 cr.
See BIO L 9400 for course description.

Internship  
HIST 9500  6 cr.
The Internship is a clinical, capstone experience allowing full integration and application of content knowledge and pedagogical theory and practice. It incorporates all standards specific to the discipline in which certification is sought as well as all common standards for classroom teachers. Students must fulfill a minimum of 400 clock hours or one full semester on site under the auspices of the college.

Interdisciplinary Studies

Women in Contemporary Society  
IDIS 9065  3 cr.
This course is an introductory graduate level course on issues of concern to women. The class examines women's economic, social, and political roles in society. Ethnic diversity and international comparisons are also discussed.

Internship in Interdisciplinary Studies  
IDIS 9400  6 cr.
The Internship is a capstone experience allowing full integration and application of content knowledge and pedagogical theory and practice. Students must fulfill a minimum of 400 clock hours or one full semester on site under the auspices of the college.

Graduate Thesis  
IDIS 9500  6 cr.
Students meet the requirements of the Graduate Division's Thesis Program. In order to complete this phase of the program, a faculty committee is to be established by the student under the guidance and supervision of the graduate advisor.

Note: See thesis description under Program of Study section of the Interdisciplinary Studies Program Description.
Management

Quantitative Methods for Business  
MGMT 7001  3 cr.  
The course provides an overview for students with a limited quantitative background. The focus is on statistics and includes algebra and an introduction to calculus. Topics include: sample distribution, confidence intervals, hypothesis testing, analysis of variances, derivatives, logs, linear programming, and regression analysis.

Accounting for Graduate Students  
MGMT 7002  3 cr.  
The course provides an intensive study of financial and managerial accounting for students with no previous background in accounting. Topics include: collection, recording, and interpreting of financial information and statements, break even analysis, budgets, manufacturing and standard costing, and variance analysis.

Foundations of Finance/Economics  
MGMT 7003  3 cr.  
Topics of Finance/Economics include mathematics of finance, liquidity management, capital budgeting, liability management, and value creation. Fundamental concepts of micro- and macroeconomics are rigorously developed.

Foundations of Management/Marketing  
MGMT 7004  3 cr.  
Foundations of Management/Marketing provide a broad conceptual background of fundamental knowledge in management and marketing for graduate students who have not completed academic work in these subjects.

Management of the Global Environment  
MGMT 9002  3 cr.  
The course provides students with the background to understand global strategic business problems, demands and pressures from governments, unions, consumers, and others in foreign countries as well as from domestic stockholders. Studies emphasize U.S. control of multinational and foreign companies and the effect upon international competition.

Quality Management Theory  
MGMT 9008  3 cr.  
This course studies the concepts, practices, and methods of modern quality management in both manufacturing and services. Topics include: history, concepts, dimensions of quality, measurement and control, statistical quality control, information systems, and auditing for quality.

Economic Theory and Managerial Decision Making  
MGMT 9020  3 cr.  
This course presents the principles, concepts, and tools of economic analysis that are necessary for proper management planning. Its aim is to improve the understanding of how a market economy operates and to familiarize students with the tools that are useful in making economic decisions and in solving economic problems.

Accounting Theory  
MGMT 9030  3 cr.  
The course develops an understanding of the theories and concepts which provide the foundation for accounting.

Advanced Financial Accounting Issues  
MGMT 9032  3 cr.  
This course affords students the opportunity to examine current issues including ethics, accounting and auditing research techniques, international accounting issues, and other relevant current topics.

Selected Topics in Advanced Managerial Accounting  
MGMT 9034  3 cr.  
Students are introduced to issues in the current environment, such as international influences on U.S. management practices, business ethics, and technology changes and their impact on the managerial structure through a series of readings and cases.  
Prerequisite: admission to Accounting Track or 24 undergraduate credits in Accounting.

Accounting Information Systems  
MGMT 9036  3 cr.  
This course integrates the accounting process into the total information system. Students analyze the problems involved in the design and installation of information systems, including computer feasibility studies and systematizing the clerical functions of an organization. Course material describes the inter-relationship of internal controls, classification of accounts and functions, and reporting to provide relevant information and yet optimize the control function.

Prerequisites: BSAD 1700, MGMT 7002.

Organizational Behavior and Development  
MGMT 9040  3 cr.  
This course relates the knowledge of human behavior to the problems of organizational life. It examines individual behavior as well as group and social behavior in organizations. The course encourages discussion of the methods of changing behavior through organizational development.

The Human Resource Function and the Manager  
MGMT 9050  3 cr.  
This course provides knowledge of the human resource from the manager’s perspective. The student develops an understanding of the role of personnel specialists. Topics covered include: job analysis, employee selection, training, appraisal, promotion, and discipline within the context of recent legal developments.

Management Information Systems  
MGMT 9060  3 cr.  
This course provides insight into the problem of identifying an organization’s informational requirements to facilitate the decision-making process. Topics presented include: an analysis of information systems, communication theory, information flow, methods and procedures for gathering, disseminating, and controlling information.

Legal Issues in Human Resources Management  
MGMT 9070  3 cr.  
This course is designed to provide human resources professionals and other managerial professionals with an understanding of labor and employment law, the sources of this law and how they may apply in the employment setting.

Management Theory and Process  
MGMT 9080  3 cr.  
This course examines management theory as an evolving body of knowledge influencing managerial practices. Management theories are compared and contrasted with the goal of understanding the assumptions and applications of each. Within the context of theoretical models, attention is directed to the differences in the environment in which firms must operate.

Prerequisite: BSAD 3200.

Production and Operations Management  
MGMT 9090  3 cr.  
The course covers system design and layout, job design and work methods, plant location and product development, scheduling and methods of control. The quantitative management techniques of capital budgeting, forecasting inventory methods, program evaluation review techniques (PERT), and decision theory are utilized.

Prerequisite: BSAD 3200.
Business and Society  
MGMT 9100  3 cr.
This course studies the various external environmental factors which affect managerial decisions. The course views the environment as a complex set of interrelated economic, legal, political, social, and cultural influences, which impact the organization through its public or constituencies. Through case analysis the student gains insight into the complicated interrelationships that exist between the organization and its environment.  
Prerequisite: BSAD 3500, ECON 1200.

Legal Environment of Business  
MGMT 9130  3 cr.
This course considers the legal questions arising out of doing business nationally and internationally. It is a study of the interrelationships among laws as they affect individuals and business organizations. The course provides the student with an awareness of how legal problems and their solutions can influence the direction of a business.  
Prerequisite: BSAD 3500.

Marketing Management  
MGMT 9160  3 cr.
The course embarks on a detailed study of concepts and procedural alternatives in the delineation of the market target. In addition, the course covers the development and implementation of the marketing mix and the control and analysis of the total marketing effort.  
Prerequisite: BSAD 3300.

Corporate Finance  
MGMT 9170  3 cr.
The course examines principles of decision analysis in management of current assets, estimation of requirements for short term funds, and valuation of capital budgeting and merger proposals.  
Prerequisite: BSAD 3400, MGMT 7001, MGMT 7002.

Accounting Practices for Managers  
MGMT 9180  3 cr.
The course provides a study of financial reporting systems. Emphasis is given to the interpretation and uses of information contained in financial reports.  
Prerequisite: MGMT 7002.

Financial Analysis  
MGMT 9310  3 cr.
This course provides for an intensive examination of financial accounting theory and practice. It includes the valuation of assets and liabilities, accounting for stockholders’ equity, measurement and reporting of earnings, the flow of funds, an investigation of the evolution and current status of accounting theory and financial reporting.  
Prerequisite: MGMT 9170, MGMT 9180.

Labor Management  
MGMT 9320  3 cr.
The course analyzes the development and impact of collective bargaining on the workforce and the organization. Consideration is given to public policy as well as environmental forces. The negotiation and administration of labor agreements is covered.  
Prerequisite: MGMT 9080.

Marketing Communications  
MGMT 9330  3 cr.
The course presents the elements in the marketing mix that deal with the promotion of goods or services. The course covers advertising, sales promotion, public relations, and publicity. The characteristics of each form of promotion are evaluated with respect to varying market situations. The focus of the course is on the managerial aspects of communication design, development, implementation, and appraisal.  
Prerequisite: MGMT 9160.

Selected Topics in Management  
MGMT 9450  3 cr.
This course emphasizes trends, current research, and contemporary problems in management. Students research, discuss, and present reports on problems in management. (Course may be repeated twice with different topics with approval of chair. MBA Graduate Committee.)  
Prerequisite: core requirements.

Strategic Management  
MGMT 9500  3 cr.
This course provides a study of administrative processes dealing with the formulation of policy. Topics covered include strategy formulation, the role of the general manager, and the design of strategic planning systems. Attention is focused on problem identification, problem solving and decision-making. Extensive examination is made of cases involving a variety of institutions in both the public and private sectors.  
Prerequisite: at least 21 graduate hours completed or permission of Chair.

E-Commerce  
MGMT 9600  3 cr.
The Electronic Business course develops students’ understanding and management of new ways of strategic thinking, marketing and doing business in the digital economy. The course is targeted to individuals who will pursue leadership positions in Electronic Business and Internet Marketing groups, whose business and strategic models are changing dramatically. Students should have a familiarity with the Internet and have completed courses in marketing and management.  
Prerequisite: Completion of 21 graduate level semester hours in MBA program.

Mathematics

Number Theory  
MATH 7000  3 cr.
A formal study of the classical theory of numbers including such topics as divisibility, primes, congruency, Diophantine equations, number theoretic functions, and quadratic reciprocity.

The Modern Secondary School  
MATH 7012  3 cr.
Required of all MAT candidates who do not have initial licensure to teach. Covers a broad range of issues faced by teachers in today’s secondary schools. Students become familiar with the complexities and demands of secondary school teaching. Includes 25 hours of prepracticum experience.

Technology in the Classroom  
MATH 7100  3 cr.
A study of the various ways in which technology can be used in the K-12 classroom. Students will perform and develop lessons based on calculators, graphing calculators, computer graphing and algebra software (e.g., Mathematica, Geometer’s Sketchpad), and become familiar with the uses of the Internet in the K-12 setting.

History of Mathematics  
MATH 7200  3 cr.
The development of mathematical ideas, from ancient to modern times and their relevance for other fields of knowledge. Special attention is given to several of the most important original writings in mathematics.

Geometry  
MATH 7300  3 cr.
A formal study of basic and advanced concepts of Euclidean, non-Euclidean and projective geometry.

Mathematical Modeling  
MATH 7400  3 cr.
The designs of mathematical models for solving problems in the physical, social, and life sciences. Emphasis is on the use of mathematics in such problems as traffic flow, group decision making and queuing.
Discrete Algebraic Structures
MATH 7450 3 cr.
A study of discrete algebraic structures. Topics include: Set theory, Boolean algebra, partial orders, equivalence relations, recursions, functions, graph theory, finite automata and combinatorics.

Advanced Methods of Teaching at the Secondary Level
MATH 8000 3 cr.
Combines academic study with clinical practice and supervision. Theories and topics studied and demonstrated include learning styles, critical thinking, computer applications, and inclusive learning environments. Emphasis is placed on integrating culturally or linguistically diverse students and those with special needs. Interdisciplinary course development and implementation, student assessment including portfolio assessment and writing are studied for utilization across the curriculum.
Prerequisite: MATH 7012 or Initial Teacher Licensure.

Practicum
MATH 8090 3 cr.
See BIO L 8090 for course description.

Analysis
MATH 8100 3 cr.
A careful development of the core analysis topics of limits, continuity, differentiation, integration, and sequences and series. Both the real number setting and the complex numbers will be considered.

Probability
MATH 8260 3 cr.
Topics include discrete and continuous random variables, expectations, variance, covariance, probability density functions, moment generating functions, and classical probability distributions.

Curriculum and Technology
MATH 8250 3 cr.
This course looks at the integration of educational technology in the classroom, and its relationship to learning theories. Mac and IBM computer hardware, and interfaces for classroom inquiry including video and microscope cameras, digital image capture, scanners, and computer projection panels are examined. Students learn similarities between standard software programs available for writing, computation, and data analysis. It includes a survey of software for studies, ranging from Encyclopedias on CD-ROM to programs that are specific to the study of various topics in science, art literature, math, and language. The class explores the use of the internet as a classroom resource, the hardware and software necessary to get on line, search engines, browsers, URLs, online journals, education web sites, online interest groups, and how to design a web page.

Curriculum Design and Development
MATH 8240 3 cr.
This course is designed to provide students with knowledge and skills of the curriculum development-revision process. In collaborative groups students review, revise and expand the curriculum and assessment procedures in order to integrate current research findings and education reform initiatives. Students articulate a general Curriculum map contextually appropriate for grade-level content as they plan for integrating content with social, behavioral, processing, thinking skills and Curriculum frameworks. Students design an integrated 9-12th grade curriculum that aligns content standards across disciplines. Finally, interdisciplinary groups design an integrated curriculum unit.

Abstract Algebra
MATH 8300 3 cr.
A study of algebraic structures including groups, rings, integral domains and fields. Topics include homomorphisms, factor rings, and factorization domains.

Topics in Advanced Mathematics
MATH 8900 3 cr.
Courses having a more narrow focus or those taught on an irregular basis may be offered. New courses may be taught on an experimental basis under this title.

Clinical Experience
MATH 9400 5 cr.
See BIO L 9400 for course description.

Internship
MATH 9500 3 cr.
See BIO L 9500 for course description.

Music

Opera
MUSC 7200 3 cr.
Survey of Italian Opera from Monteverdi to the twentieth century. Exploration of librettos, music, staging, casts, and the cultural and social context in which the works were created. Projects will include reviews of performances on video, analysis and discussion of representative works, and the attendance of a live opera performance. (Music distribution course)

Nursing

Graduate nursing courses are open to matriculated nursing majors only, or by special permission of the graduate chairperson.

Nursing with Diverse Populations
NURS 7000 1 cr.
This course focuses on concepts of culture, ethnocentrism, and diversity. The impact of cultural sensitivity on role enactment as an advanced practitioner is explored. Case studies are used to facilitate examination of values and beliefs.

Nursing Theory
NURS 7200 3 cr.
The course examines the process of theory development in nursing as a necessary tool to provide guidelines for advanced practice, as well as to foster a deeper understanding of the discipline as a whole. The concept of diversity in relation to theories is also included. Students have the opportunity to evaluate current theories in nursing and to explore one theory in depth.

Advanced Clinical Concepts
NURS 7300 3 cr.
This course provides the opportunity to validate current clinical skills and develop advanced professional decision-making. Clinical issues, such as performance evaluation, collaboration, physical assessment, and ethical considerations are addressed. A clinical component provides the opportunity to increase skills in critical thinking, processing data, and clinical decision-making. (Clinical Component of 60 hrs.)
Prerequisite: NURS 7000.

Contexts and Roles for Advanced Practice
NURS 7400 3 cr.
Students acquire a framework for understanding the interplay of political, social, and economic factors in health service delivery and their relationship to the advanced practice role in nursing. The focus is on initiating and facilitating change in health care and nursing systems. Topics include: health care economics, health planning and policy, diversity in health care delivery, use of health status indicators for risk assessment of individuals and groups, informatics, role theory, application to role assimilation, role creation, role negotiation, and educator advocate, consultant, and researcher.

Nursing Research

**NURS 7700 3 cr.**
This course provides students with an overview of the design and methodology of qualitative and quantitative research as applied to professional nursing practice. Topics of study include: critical analyzing and evaluating research literature, non-experimental, quasi-experimental research design, phenomenological, grounded theory, and ethnographic qualitative design, analysis and interpretations of findings including the application of statistical methods in quantitative data analysis. Ethical considerations will be discussed along with implications for professional practice.

**Introduction to Forensic Nursing**
**NURS 8000 3 cr.**
This course establishes the foundation for forensic decision making in advanced nursing practice with an emphasis on a holistic approach to living victims and perpetrators. The relationship between sociocultural factors and violence is explored. This course also includes an incisive exploration of the principles and philosophies of clinical forensic nursing as well as the role of the forensic nurse in the scientific investigation of violence, trauma, medical-legal and ethical-legal issues.

**Scientific Foundations for Forensic Nursing Interventions**
**NURS 8130 3 cr.**
This course provides a comprehensive overview of specialized topics in clinical forensic practice as a foundation for the advanced practice nursing role. Areas of exploration will include physical assessments and autopsy findings in forensic pathology, clinical laboratory tests, and pharmacological usage. The complimentary roles of different professions in medical-legal investigative systems in relation to trauma and causes of death will also be identified. (Clinical Component of 60 hrs.)

**Forensic Nursing: Caring for Victims and Perpetrators, I**
**NURS 8200 3 cr.**
This is a two-course sequence identifying the role of the forensic nurse in the care of victims and their significant others. Attention is given to understanding what happens to victims of assault and trauma. Interventions to prevent and treat are also explored. The legal, ethical, clinical, and advocacy responsibilities of the advanced practitioner are key concepts emphasized throughout these courses. (Clinical Component of 60 hrs.) Prerequisites: NURS 7200, NURS 7300, NURS 7400, NURS 7500, and NURS 8000.

**Forensic Nursing: Caring for Victims and Perpetrators, II**
**NURS 8300 3 cr.**
This is a two-course sequence identifying the role of the forensic nurse in the care of perpetrators. Attention is given to understanding the etiology of perpetrators and interventions in current practice. The legal, ethical, clinical, and advocacy responsibilities of the advanced practitioner are key concepts emphasized throughout these courses. (Clinical Component of 60 hrs.) Prerequisites: NURS 7200, NURS 7300, NURS 7400, NURS 7500, NURS 8000, and NURS 8100.

**Research Thesis (Option 1)**
**NURS 9010 3 cr.**
This course focuses on the application of the research process in clinical practice related to the student's specialty area. Emphasis is on the completion of a research thesis under the guidance of faculty.

**Continuation of Research Thesis**
**NURS 9011 3 cr.**
Continuation of NURS 9100.

**Research Project (Option 2)**
**NURS 9100 2 cr.**
This course focuses on the application of the research process in the clinical practice related to the student's specialty area. Emphasis is on the completion of a research project under the guidance of faculty.

**Continuation of Research Project**
**NURS 9101 3 cr.**
Continuation of NURS 9100.

**Practicum in Forensic Nursing**
**NURS 9500 3 cr.**
In this capstone course students select one (or more) area(s) of nursing practice to pursue in greater depth after consultation with faculty. Students find a clinical placement that gives them the opportunity for role negotiation and role development in the forensic nursing practicum. During the practicum priority is placed on the development of leadership roles and interpersonal and psycho-motor skills needed to serve a selected client population under the preceptorship of an advanced practice nurse or related professional. (Clinical Component of 180 hrs.) Prerequisite: all courses, corerequisite, Nursing Research Thesis or Project.

---

**Occupational Education**

**Seminar and Practicum in Vocational Education/ Special Education**
**OCEd 6002 3 cr.**
Students complete a practicum or internship in an approved setting for individuals with special needs. Students are assisted in implementing the various facets of their role within a given setting. Visitations by student advisor are planned not only to observe the competencies being demonstrated but to meet with school administrators in defining the role and functions. Practicum seminar is designed to assist the total group in dealing with current concerns and issues and to allow students to learn from the experiences of each other.

**Promoting Positive Social Behavior for Students with Special Needs in Vocational Education**
**OCEd 6003 3 cr.**
The course provides familiarity with the continuum of services required for students with special needs in all school settings. The modifications of approach and teaching techniques that make vocational education accessible to all students are discussed in depth. A case study is required of each student in the course.

**Students with Special Needs in Vocational Technical Education**
**OCEd 6004 3 cr.**
The course traces the development of Special Needs Programs with emphasis on the identification and understanding of special needs students in vocational schools. Particular attention is given to teaching techniques and administrative organization patterns utilized in a vocational school. Note: This is a required course for candidates seeking either Massachusetts Department of Education approval as a vocational technical instructor or Special Ed/Voc Ed M ini-approval.

**Strategies and Methods for Teaching Students with Special Needs**
**OCEd 6005 3 cr.**
The course uses a practical approach to planning instruction for special needs students in the regular class within a vocational school setting. Using a framework for applying theory in practice, teachers develop and/or attempt strategies that are applicable to their classrooms.

**Implementation and Evaluation of Education Plans for Students with Special Needs**
**OCEd 6006 3 cr.**
The course provides experience in interpreting educational prescriptions for implementation within vocational training programs. Each student designs an individualized instructional plan describing all materials, recommended methodology, and techniques of evaluation.
History and Philosophy of Occupational Education
OCED 7000  3 cr.
The course studies the leaders, organizations, and movements that have contributed to the development of occupational education in the United States. Particular attention is given to the philosophies of past and present, along with the issues and problems that have affected occupational education.

Seminar in Occupational Education
OCED 7050  3 cr.
The seminar is a critical study of selected current problems in occupational education. Participants apply recent readings, reports, products, and research as tools to analyze strategies for strengthening the delivery of occupational education within a variety of settings. The group may also accept appropriate field-based projects which impact or otherwise address critical occupational education concerns.

Supervision in Occupational Education
OCED 7100  3 cr.
This course deals with several aspects of the role of supervisory personnel to demonstrate how educational supervision is a carefully structured leadership with responsibilities related to the improvement of instruction. In the context of a supervisory role, students examine in-service training, inspection, staff guidance, research, and evaluation of personnel and curriculum concerns. Various levels of supervision and organization patterns are analyzed.

Evaluation in Occupational Education
OCED 7150  3 cr.
This course in educational evaluation is designed for graduate students who are pursuing an advanced degree in the field of industrial technology education, vocational technical education, or a related area. Students receive instruction relating to the development and evaluation of written achievement tests. Further teaching is presented relative to basic descriptive statistics and parametric techniques.

Public School Laws Relating to Occupational Education
OCED 7200  3 cr.
The course is a study of federal and state laws pertaining to occupational education. Particular attention is given to the legislative process as it relates to current school law and to the judicial process in its interpretation of school law.

Research and Statistics in Occupational Education
OCED 7250  3 cr.
This course is designed to enable occupational educators to plan research, write research reports, and interpret statistical occupational education data. Each student is expected to demonstrate proficiency in educational research by designing a research project pertaining to one or more components of occupational education.

Curriculum Development in Occupational Education
OCED 7300  3 cr.
In this class, emphasis is placed upon the teacher as an innovative designer of strategies for planning curriculum. The process of designing and accessing model curriculum projects in occupational education is examined and explored in depth. Various curriculum development models are reviewed, evaluated, and discussed.

Public School Finance in Occupational Education
OCED 7350  3 cr.
This course examines the basic accounting systems, state laws pertaining to finance, federal funding, and laws and procedures regarding funding application approval. The course also offers information on central reimbursements from federal and state levels that affect education.

Advanced Methods of Teaching in Occupational Education
OCED 7400  3 cr.
The course is designed to review a detailed treatment of the nature of occupational education, the findings of modern learning theory, and the impact these considerations have upon modern occupational education teaching.

Organization and Administration of Vocational Guidance
OCED 7410  3 cr.
This course provides the administrator, counselor, and teacher with a working knowledge of the various tools, techniques, and practices which comprise a unified guidance organization.

Administration of Cooperative Education Programs
OCED 7420  3 cr.
This course analyzes current policies, practices, and methods of conducting cooperative educational programs. An examination of national, state, and local program administrative procedures is made through an analysis of literature related to cooperative occupational education.

Effective Teaching of Special Needs Students in the Vocational Environment
OCED 7430  3 cr.
This course is designed to review and focus on issues in vocational education that are equated with quality education and quality teaching. Although these issues are presented individually, the topics, when combined in practice in actual classrooms and shops, give a clear understanding of teaching and learning in a vocational situation.

Professional Development Workshop
OCED 7440  2 cr.
This state-of-the-art workshop is for occupational/vocational educators seeking to fulfill the thirty hour professional development requirement of the Division of Occupational Education.

Vocational Special Needs Seminar
OCED 7450  3 cr.
This course deals with current issues related to Vocational Special Needs. Class discussions are also concerned with local, state, and national special needs topics.

Computer Aided Drafting I
OCED 7600  3 cr.
A basic course in computer-aided drafting emphasizes the utilization of computer-assisted drafting (CAD) to generate typical manufacturing drawings. Knowledge gained through this course allows students to apply computer-assisted drafting to a wide range of technical drawings used in other fields such as architecture and topography.

Computer Aided Drafting II
OCED 7610  3 cr.
A continuation of OCED 7600.

History of Technology
OCED 7620  3 cr.
The identification, definition, and understanding of technology as the subject matter of industrial arts is analyzed. Special emphasis is placed upon the implementation of a technology-based industrial arts program at the secondary level.

Principles of Automated Manufacturing
OCED 7630  3 cr.
The course studies the automation in manufacturing emphasizing computer control of production functions. Automated and manual approaches are compared and techniques for implementing automation are reviewed. Students are provided with the necessary computer background to support hands-on experience with assembly robots.

Principles of Automated Manufacturing II
OCED 7640  3 cr.
This course provides further consideration of automated manufacturing including production processes. More detailed study of present generation robots and potential advances is included.

Quality Control
OCED 7650  3 cr.
The principles and techniques of statistical quality control are developed and applied to typical manufacturing situations. Special consideration is given to quality control in automated manufacturing environments.
Material and Process Cost Estimating
OCED 7660 3 cr.
The philosophy, principles, and practices of material and process cost estimating are studied, stressing data development and application methods for operation, product, and project analysis. Topics such as labor analysis, material analysis, operation, and product estimating are included.

Independent Study
OCED 9000 1-6 cr.
Individualized study under close supervision for superior students. Prerequisite: permission of Advisor.

Physical Education
Developing Health Education Materials in the Schools
PHED 7001 3 cr.
The purpose of the workshop is to acquaint school personnel with materials and resources available for the development of health education programs. Health topics include: nutrition, personal hygiene, bicycle safety, drugs, smoking, alcohol, cancer, heart disease, physical therapy, podiatry, physical fitness, and certification in basic cardiopulmonary resuscitation. These topics are discussed by several guest speakers representing national and local health organizations.

Effective Instructional Processes: Theory to Practice
PDEV 9000 6 cr.
Participants study current research on transdisciplinary, multi-cultural curricula that incorporate tactics for teaching critical thinking in the curricula. Practical application in the classroom is facilitated through the study and practice of cooperative learning strategies and peer coaching techniques. Through its design, implementation, and evaluation, this course models and examines effective practices for adult learners.

Staff Development Programs: Design, Management, and Evaluation
PDEV 9200 6 cr.
Students study the varied purposes and potential outcomes of staff development and in-service programs offered to teachers in a public school setting. The steps involved in needs assessment, program design, adult instructional methodologies, and program monitoring and evaluation procedures are studied and practiced. Each student, functioning as a member of a team, designs a twelve week staff development course to implement in the parent school system. The staff development courses offered by the graduate students carry credit, and are related to the goals and objectives of the parent school system. Participants enrolled in these staff development courses are fellow teachers in the school system.

Research Seminar in Education
PDEV 9300 3 cr.
The purpose of this course is to enable students to have a working knowledge of educational research. The content areas covered include the nature of social science research, methods, procedures, related statistics, interpretation of research, and research plans. Students learn through a variety of methods, including selected readings, written homework, assignments, class lectures, presentations and discussions, and research.

Seminar and Internship in Staff Development
PDEV 9400 6 cr.
During this final academic/application phase, the graduate students implement a professional development program for teachers and support staff in their school system. The intern assesses the needs of the staff, consults with peers and colleagues about the design of a professional development program, designs and implements the program, and evaluates its effectiveness. In addition to the internship, the students participate in seminars, which take place on-location throughout the semester program.

Graduate Thesis
PDEV 9500 3 cr.
Students must meet the requirements of the Graduate Division's Thesis Program. In order to complete this phase of the program, a faculty committee is established by the student under the guidance and supervision of the graduate advisor.

Psychology
Applied Statistics for Counselors
PSY 6010 3 cr.
A prerequisite course for students applying to the M.S. in Counseling Program. Students are introduced to basic concepts in statistics and probability with emphasis on the testing of statistical hypotheses using the methodology of inferential statistics. Prerequisite: PSY 1100. Does not count for Psychology major or minor.

School Counseling: Professional Practice, Standards and Ethics
PSY 7000 3 cr.
The philosophy, structure and dynamics of schools and the school systems will be explored. The role of various school personnel, especially School Counselors, in providing and coordinating services to children will be studied. Consulting services to children will be emphasized. Legal and ethical issues involved in the practice of Counseling in schools will be examined. Prerequisites: PSY 1100, PSY 2350, and a course in the Psychology of Development.

Mental Health and Family Counseling: Professional Practice, Standards and Ethics
PSY 7005 3 cr.
This course addresses the professional orientation, including the history of mental health counseling and marriage and family counseling within the context of health and human services systems; mental health public policy and legislation; consumer needs assessment and advocacy; and the role of professional associations. Professional standards of training, practice and licensure are covered. Legal and ethical issues that affect the professional practice of counseling; such as reporting, confidentiality, duty to warn and ethical standards are explored. Professional practice issues such as malpractice, dual-relationships, client rights and professional responsibilities are examined. Prerequisites: PSY 1100, PSY 2350, and a course in the Psychology of Development.

Counseling Theories
PSY 7010 3 cr.
Participants in this course examine the major paradigms and theoretical approaches to counseling, including Organic-Medical, Psychoanalytic, Person-Centered, Behavioral, Rational-Emotive/Cognitive, Systemic/Family, and Group. In addition to increasing participants' understanding of the therapeutic process, the course focuses on increasing self-awareness of personal characteristics that may influence professional effectiveness. Students submit a Personal Statement Paper. Note: performance in this course is part of the pre-candidacy screening process for matriculation into the Graduate Program in Counseling. Prerequisite: PSY 1100.
Group Dynamics
PSY 7020 3 cr.
This course explores the cognitive, affective, and behavioral processes within the context of groups. Part one of the course is experientially based and requires students to participate in an actual group process. Part two provides an analysis of group dynamics including an examination of the experiential component. Course emphasis is on the experiential and theoretical bases of group dynamics with the development of participant intra- and interpersonal awareness. Note: performance in this course is part of the pre-candidacy screening process for matriculation into the graduate program in counseling.
Prerequisite: PSY 1100.

Issues in Development: Counseling Children and Adolescents
PSY 8010 3 cr.
This course equips students with a strong background in developmental events of childhood and adolescence in order to enhance their understanding of a young client's point of view. Students are asked to relate developmental issues to the kinds of problems children and adolescents present to the counselor. Theories of personality are reviewed, and students are required to apply concepts from theory to case material.
Prerequisites: PSY 1100 and a course in the Psychology of Development.

Life Span Development
PSY 8030 3 cr.
This course examines human physical, cognitive, personality, and social cultural development from conception to death. Emphasis is upon the understanding of the theories of human development across the life span, the understanding of empirical research associated with these theories, the enhancement of critical thinking skills, and the application of understanding to current issues in development.
Prerequisites: PSY 1100 and a course in the Psychology of Development.

Issues in the Psychology of Death and Dying
PSY 8040 3 cr.
This course explores theories, research, and literature related to death, grief, and loss. The student is encouraged to examine personal reactions to these dynamics, to relate them to ongoing development, and to apply them to the counseling relationship.
Prerequisite: PSY 1100.

Theories of Personality: Applications to Counseling
PSY 8050 3 cr.
This course surveys the major theories of personality. Emphasis is placed upon the students' ability to integrate the study of personality within the context of normal developmental issues and psychopathology.
Prerequisite: PSY 1100.

Psychology of Women: Counseling Implications
PSY 8060 3 cr.
This course examines how being female impacts the behavior and perception of women. A variety of topics are covered, including development of identity, hormonal determinants of behavior, sex differences in personality, women's roles in societies, and woman as a counseling client.
Prerequisite: PSY 1100.

Divorce: Process and Issues
PSY 8090 3 cr.
This course is designed for students interested in increasing their understanding of marital separation and divorce. Students review the effects of this action on children and parents as well as the changes divorce imposes on personal, interpersonal, and societal levels. The various stages each family member goes through coupled with developmental issues are discussed. Strategies for helping families “grow” through the experience are demonstrated, using individual and family therapy techniques as well as support group dynamics. Remarriage and the blended family are addressed, and current research in the area is reviewed.
Prerequisite: PSY 1100.

Childhood Trauma and Its Impact on School Based Services
PSY 8100 3 cr.
This course explores the principles and practices of etiology, diagnosis (Diagnostic and Statistical Manual criteria, etc.), treatment, and prevention of emotional and dysfunctional behaviors (physical abuse and neglect, sexual abuse, substance abuse, sexuality issues, AIDS, mental illnesses, violence, etc.) and the legal and ethical dilemmas faced by educators in schools today. The course is designed to teach the educator to respond to children and families in crisis, provide referrals, work as part of an interdisciplinary team, and take a proactive stance against child abuse and related problems.
Prerequisites: PSY 1100, PSY 2350, and a course in the Psychology of Development.

Sexual Abuse of Children and Adolescents
PSY 8120 3 cr.
This course emphasizes the diagnosis and humanistic treatment of the victim and the perpetrator, as well as significant others in the sexual abuse of children and adolescents. The psychodynamics of each role are discussed with an exploration of a variety of treatment modes. Case studies and speakers are used to enhance student learning. Affective as well as cognitive approaches are used. This course is geared toward the practitioner and potential practitioner or teacher. Prior completion of a course in child abuse and neglect, experience in protective services, or exposure to abuse/neglect situations is helpful.
Prerequisites: PSY 1100, PSY 2350, and a course in the Psychology of Development.

Psychopathology I: Diagnosis and Assessment
PSY 8130 3 cr.
This course explores major categories of emotional and behavioral disturbance utilizing the DSM-IV diagnostic classification system. Case vignettes are used to provide students with practice in differential diagnosis using the DSM-IV. The course reviews the following for each category of psychopathology: essential features, differential diagnosis, and associated features, diagnostic criteria, and multiaxial classification. Clinical interviewing and assessment is addressed, as well as legal and ethical issues related to assessment and diagnosis.
Note: A field-based experience (25 hours minimum) is required for this course.
Prerequisites: PSY 1100, PSY 2350, and a course in the Psychology of Development.

Psychopathology II: Treatment Planning and Outcome
PSY 8132 3 cr.
This course is an advanced graduate counseling psychology course, which assumes familiarity with patterns of emotional and behavioral disturbances and competency in utilizing the DSM-IV to determine differential diagnosis. In addition to discussing psychopathology and diagnosis, this course focuses on differential treatment planning and outcome effectiveness. Treatment planning examines various interventions, including psychopharmacology and modalities of categories of psychopathology. Students explore the role of the multidisciplinary team and the need for consultation and/or referral. Treatment termination indication is also covered.
Prerequisite: PSY 8130.
Psychopharmacology for Counselors  
**PSY 8135 3 cr.**

This course teaches counselors, residential specialists, and teachers how to collaborate with physicians to maximize the benefits of psychiatric medications for their clients. Students review the genetic and biological factors that shape personality and psychopathology. Particular emphasis is placed upon the use of psychiatric medications in the treatment of anxiety disorders, attention deficit disorder, sexual dysfunction, substance abuse, episodic rage, sleep disturbances, Tourette’s syndrome, mood disorders, and schizophrenia. Other biological therapies are discussed, including the use of artificial sunlight for winter depression.

Prerequisites: PSY 1100, PSY 2350, a course in the Psychology of Development, or permission of Instructor.

Alcohol Abuse and Other Addictive Disorders  
**PSY 8140 3 cr.**

This course is a survey of the use and abuse of alcohol and other commonly used psychoactive drugs. An understanding of the basic principles of pharmacology is reviewed along with the psychosocial correlates of substance abuse and other addictive disorders. The course provides a functional analytic framework for assessing addictive behaviors. Participants visit various substance abuse programs such as A.A., N.A., AL Anon, and an area detoxification program.

Prerequisites: PSY 1100, PSY 2350.

Intervention and Rehabilitation Services for Substance Abusers  
**PSY 8142 3 cr.**

This course gives the participant an overview of intervention and rehabilitation issues and the various systems that provide these services to substance abusers. The course considers the methods that counselors use to determine the level of care and the appropriate facilities that are most helpful to the substance abuser. In addition, the course considers the role of the criminal justice system in the rehabilitation of the substance abuser. Participants have the opportunity to learn by completing a twenty-five hour practicum in a substance abuse program. Part of this practicum includes on-campus group process supervision.

Prerequisite: PSY 8140. (offered every two years)

Impact of Alcohol Abuse and Other Addictive Disorders on Family Systems  
**PSY 8143 3 cr.**

This course focuses on the effects of alcohol abuse and other addictive disorders on the entire family system, including children of alcoholics. Systems theory as applied to families are reviewed. The effects of trans-generational patterns of alcohol abuse and other addictive disorders on family members (including the roles that are adopted) are examined. Self help programs, for example, A.A., Al Anon., N.A., A.C.O.A., and O.A., are explored.

Prerequisite: PSY 8140. (offered every two years)

Case Management in Substance Abuse Services  
**PSY 8144 3 cr.**

This course prepares students for working with difficult clients including those who have a substance abuse problem and a mental illness. Specific management issues such as medication, suicide risk, resistance, and denial are explored. The importance of case management and maintaining good relationships with the referral source and other components of the service delivery system is emphasized. Participants learn by completing a twenty-five hour practicum in a substance abuse program or a mental health agency that has a program for clients with dual diagnosis.

Prerequisite: PSY 8140. (offered every two years)

Counseling the Substance Abuser  
**PSY 8148 3 cr.**

This course offers participants an opportunity to become familiar with the techniques and strategies associated with successful treatment of the addicted individual. Participants receive instruction and supervised practice in counseling procedures and skills of working with the substance abuser in a variety of modalities (i.e. individually, groups, couples, and families). Intervention strategies, including techniques for working with difficult clients in groups, are presented.

Prerequisite: PSY 8140. (offered every two years)

Case Management and Treatment of Victims  
**PSY 8150 6 cr.**

This course helps the student develop skills in engaging, advocating for, and treating the victim of child abuse and neglect. Both the child victim and the adult survivor are considered. Students explore work done by case managers, victim witness advocates, and therapists as they help the victim on his/her road toward healing. Practitioners who currently work with victims are invited to share their expertise. Students are also aided in examining their own counter-transference issues around victimization.

Prerequisites: PSY 8100 and permission of C.P.I. (offered every two years)

Psychology and Treatment of Offending Behavior  
**PSY 8160 3 cr.**

In this course the perpetrator of child maltreatment is discussed with particular emphasis on the child sexual abuse perpetrator. Theories to explain offending behavior are examined. Students are asked to consider ethical dilemmas surrounding the reporting and punishment/treatment of sexual abusers. Legal statutes as they apply to offending behavior are discussed. Treatment of offenders in a variety of settings (eg. outpatient, inpatient, prison, residential treatment, etc.) are considered. Both adult and juvenile offenders are studied.

Prerequisites: PSY 8100, 8150 and permission of C.P.I. (offered every two years)

Family Treatment with Abusive/Neglectful Families  
**PSY 8170 3 cr.**

This course helps the student recognize the necessity of treating the entire family in abuse cases and develops skills in family therapy as it applies to abusive families. It is recommended that the student have completed a basic family therapy course.

Note: A field based experience (25 hours minimum) is required for this course.

Prerequisites: PSY 8100, PSY 8150, PSY 8160 and permission of C.P.I. (offered every two years)

Criminal Psychopathology  
**PSY 8172 3 cr.**

This course reviews the psychodynamics, as well as familial and ecological dynamics, of situational offenders, recidivist offenders, and sociopathic offenders. Students explore the interface between traditional notions of mental health, criminal behavior, and addiction theory. Students develop an understanding of the psychological impact of criminal behavior on the offender's family, the victim, the community, and the criminal justice system.

Prerequisites: PSY 1100, PSY 2350, BSC 1100, HMSV 1100 or permission of Instructor.

Systems, Laws, and Issues in Forensic Case Work  
**PSY 8174 3 cr.**

This course examines the philosophies and social/legal mandates governing the criminal justice, mental health, and social service systems as they affect criminal offenders. The challenges confronting the professionals in these systems are explored in relation to their legal options to service and manage behavior. Topics such as dangerousness, domestic violence, and involuntary treatment are considered.

Note: A field based experience (25 hr. minimum) is required for this course.

Prerequisite: PSY 8172. (offered every two years)
Lifestyles and Career Development
PSY 8215  3 cr.
The purpose of this course is to familiarize students with work force issues and how they impact lifestyles and career development. It includes the examination of the global economy, technological changes, demographic shifts, ethics, and changes in the labor market. The interrelationships among work, family, and other life roles as well as the effects of diverse cultures, genders, and special populations are examined for their impact on career counseling and career development. Students are exposed to career decision making models; career counseling competencies; career development theory; corresponding assessment tools; and career, vocational and educational information resources and systems. Students also learn to facilitate the career development process over the lifespan.
Prerequisite: PSY 1100.

Counseling in the Elementary School
PSY 8220  3 cr.
This course provides applications of counseling strategies as they relate to the development levels exhibited by elementary school students. Emphasis is placed on counseling methods and referral skills appropriate to working in school settings, with professional colleagues and parents.
Note: a field based experience (25 hours minimum) is required for this course.
Prerequisite: PSY 1100.

Working with Individuals with Special Needs
PSY 8230  3 cr.
The needs, levels of functioning, and contributions of individuals with special needs are examined. Educational issues and strategies for understanding and working with individuals with learning disabilities, physical disabilities, social emotional issues, medical needs, and mental disabilities are explored.
Prerequisites: PSY 1100, PSY 2350, and a course in the Psychology of Development.

Intervention Methods for School Adjustment Counselors
PSY 8240  3 cr.
This course focuses on the implementation of effective strategies for working with children, families, schools, agencies, and communities. Building upon a theoretical and conceptual framework, the techniques of consultation, crisis-intervention, conflict resolution, inter-school/agency/community collaboration, and referrals are examined and applied. Didactic approaches, including case studies, role playing, and case presentations, are utilized.
Prerequisites: PSY 1100, PSY 2350 and a course in the Psychology of Development.

Psychological Testing and Assessment: Theory and Practice
PSY 8300  3 cr.
This course is designed to give students a broad understanding of the theory and use of psychological testing and assessment. Methods of test evaluation, analysis, and interpretation, including psychometric statistics, standardization, correlation, validity, reliability, standard errors, and types of assessment scores are presented. Students examined standardized testing instruments used to measure human cognitive and affective factors, as well as environmental, performance, behavioral, and computer-assisted assessments. Age, gender, ethnicity, language, disability, cultural factors, and ethical considerations related to assessments and evaluation are explored.
Note: a field based experience (25 hours minimum) is required for this course.
Prerequisite: PSY 1100, PSY 2120 or PSY 5530.
Psychological Testing and Assessment: Individual Measurement of Intelligence

PSY 8320 3 cr.
This course covers the history, development, and organization of the Wechsler and Stanford-Binet tests of intelligence. Considerable time and emphasis are placed on the administration and scoring of these tests and on the interpretation and reporting of results. A certificate is awarded upon successful completion of the course. Testing materials must be purchased during the course. Field experience required.
Prerequisites: PSY 1100, PSY 2120 or PSY 5530, PSY 8300.

Psychological Testing and Assessment: Projective Techniques

PSY 8320 3 cr.
This course covers techniques of measuring human personality through human figure drawings, informal projective sentence completion tests, and apperception testing. Students develop skills in administering these techniques and integrate findings into psychological reports.
Prerequisites: PSY 1100, PSY 2120 or PSY 5530, PSY 8300.

Informal Clinical Assessment of Children and Adolescents

PSY 8320 3 cr.
The emphasis of this course is on developing a conceptual framework for simultaneously observing multiple dimensions of child and adolescent functioning, translating these observations into clinical inferences to derive clinical hypotheses and treatment recommendations from these inferences. This is an advanced course necessitating familiarity with abnormal behavior and diagnosis.
Prerequisite: PSY 1100, PSY 2350 and a course in the Psychology of Development (offered every two years)

Counseling Techniques and Case Analysis: Individuals and Families

PSY 8500 6 cr.
This course investigates the variety of counselor skills necessary in a helping relationship to move a client from an initial interview through the processes of information gathering, assessing, goal setting, and intervention (both individually and family system oriented) to establishing an effective termination. Students practice basic and active listening skills, such as paraphrasing, clarification, probing, and confrontation. They analyze and interpret client information and problem solve. Students also learn to develop an ecosystemic map of the client system, which includes a family or origin genogram and map of the relevant contextual levels impinging on the client system. Further, the course addresses such topics as crisis intervention, individual and group intervention strategies, couple and family assessment and interventions, and case conference techniques. Note: a field based experience (25 hour minimum) is required for this course.
Prerequisites: candidacy and twenty-one credits of phase II course work, including PSY 8010 or PSY 8020; and PSY 8120 or PSY 8200 and PSY 8210 or PSY 8220, and PSY 8300 or permission of instructor.

Psychotherapeutic Techniques, Treatment and Modalities

PSY 8625 3 cr.
This advanced course addresses, in depth, two or more dominant approaches to counseling, which may include: Rational Emotive/Cognitive, Insight-Oriented/Interpersonal, Behavioral/Reality.
Prerequisites: PSY 1100, PSY 2350, PSY 7010, and PSY 7020. Students should check the semester's Course Bulletin to learn which approaches are included. (offered every two years)

Crisis Intervention for Counselors

PSY 8625 3 cr.
This course examines a number of sophisticated and challenging obstacles counselors face in evaluating and working with individuals who are in crisis. Counselors are prepared to perform effective mental health assessments, develop appropriate emergency intervention treatment strategies, and develop appropriate discharge planning for crisis involved individuals. Topics covered include emergency psychiatric evaluations, mental status examinations, crisis intervention techniques, legal issues, managed care systems, discharge planning, etc. Role playing situations and written assignments are utilized.
Prerequisites: PSY 1100, PSY 2350, PSY 7010, and PSY 7020. (offered every two years)

Group Work and Leadership

PSY 8700 3 cr.
This course examines utilizing group as a modality of intervention in working with adults and children. Theories and approaches to group work including support groups, psycho-educational groups, and therapy groups are covered. The course focuses on group leadership, group process and stages of group development, and group membership issues. Practical considerations in planning a group, screening and selections of group members, leading and/or co-leading a group, dealing with problems encountered in group work, and methods of evaluation of group effectiveness are examined.
Prerequisites: PSY 1100, PSY 2350, PSY 7010, PSY 7020, or permission of Instructor.

Group Work and Leadership in School Counseling

PSY 8703 3 cr.
This course examines the theories and models of group counseling, with an emphasis on group leadership skills, utilized by school counselors. The course examines utilization groups as a modality of intervention in working with the school age population.
Prerequisites: PSY 7010 and PSY 7020.

Family and Systems: Models and Interventions

PSY 8710 3 cr.
This course focuses on family dynamics, personal and systematic change in the therapeutic relationship, and treatment intervention for various clinical issues related to children and families. Consideration is also given to theoretical models of development and psychopathology with regard to treatment planning, referrals, and consultation. Experiences are offered to learn appropriate professional and ethical strategies of family intervention.
Prerequisites: PSY 1100, PSY 2350, PSY 7010, PSY 7020, or permission of Instructor.

Helping Parents Help Their Children

PSY 8730 3 cr.
This course provides strategies and skills for workers who offer guidance, counseling, and/or therapy to parents of children or adolescents. Parenting issues such as enhancing self-esteem, developing and accepting responsibility, adjusting to families in transition, dealing with issues related to divorce, blending families, disciplining, sharing quality time, and becoming meaningfully involved in a child's education are explored.
Prerequisites: PSY 1100, PSY 2350, PSY 7010, PSY 7020, or permission of Instructor.

Systems Theory

PSY 8740 3 cr.
This course begins by tracing the historical roots of Family Systems Therapy from its biological, anthropological, philosophical, and semantic origins by examining the works of von Bertalanffy, Kant, Locke, Bateson, and Krazybski. Emphasis is placed on the ways in which systems generate meanings and subsequent organizational structure across the following contexts: organizations, communities, schools, ethnic groups, and families.
Prerequisites: PSY 1100 and PSY 2350.

Family Models: Organization, and Process I

PSY 8750 3 cr.
Through an integration of experiential and cognitive learning approaches, this intensive process seminar builds a thorough and systematic understanding of the dynamics of family systems. The theoretical frameworks include those of Kantor-Constantine, structural, and systematic family therapy. This course emphasizes developmental processes in families, especially individuation in relation to family organization and style. It is organized as a weekly process seminar supplemented by all day workshops.
Prerequisites: PSY 1100, PSY 2350 and PSY 7005, or PSY 8710, or PSY 8740, or permission of A&FT Faculty.
### Family Models: Organization and Process II
**PSY 8755 3 cr.**
This course continues the understanding of the dynamics of a family system through integrating the models of family learned in Family Models, Organization and Process I, with those models of Olson and Beavers. Emphasis is also given to constructivism and how this school of thought applies to family process.
Prequisites: PSY 8750 or permission of A&FT Faculty.

### Advanced Systemic Intervention I
**PSY 8770 3 cr.**
This course focuses on the process of family systems therapy by translating various systemic schools of thought into well-defined treatment approaches. Students explore the therapeutic constraints of the model, the context, the therapist, and the family through role play, video, and live supervision.
Prequisites: PSY 8755 or permission of A&FT Faculty.

### Advanced Systemic Intervention II
**PSY 8780 3 cr.**
This course follows Advanced Systemic Intervention I with an increased emphasis on the therapist’s personal “model for change” and its integration with the more traditional schools of family therapy. Students’ personal “boundary profile” is identified and developed as it relates to students' preferred “model for change.” Role play, video, and live supervision are used extensively.
Prequisites: PSY 8770 or permission of A&FT Faculty. (offered every two years)

### Independent Study
**PSY 8910** 1 cr.
**PSY 8920** 3 cr.
**PSY 8930** 6 cr.
The content of these courses is designed by a student with the guidance of a faculty member to provide in-depth exposure to a topic for which no regular course is available. A plan of study must be submitted to the Behavioral Sciences Committee on Graduate Programs and the Dean of Graduate and Continuing Education during the semester preceding the term of the proposed course. Independent Study is available by permission of the instructor only.
Prequisites: PSY 1100 and as determined by instructor.

### Research and Program Evaluation
**PSY 8950** 3 cr.
This course provides students with an overview of the design and methodology of social research and program evaluation as applied to mental health counseling and education. Topics of study include: critical analyzing and evaluating of research literature, experimental research design, survey research, program evaluation, treatment strategies evaluation, needs assessments, participant observational research, and ethics in research evaluation. Student learn how to plan, conduct, and document a research and/or evaluation study in a field setting.
Prequisites: PSY 1100, PSY 2120 or PSY 5530.

### Topics in Counseling
**PSY 8971** 1 cr.
**PSY 8972** 3 cr.
**PSY 8973** 6 cr.
Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest.
Prequisites: PSY 1100 and as determined by Instructor.

### Internship in Counseling
**PSY 9062** 3 cr.
Students are placed in agencies for supervised contact with clients. Each student maintains a case load, participates in the operation of his/her agency, and meets regularly with his/her on-site supervisor to discuss case planning and counseling techniques. Students meet at the college for group supervision and conferences, and to present one of his/her client cases in detail. The faculty supervisor visits each internship site during the semester to confer with students and their on-site supervisors. The Internship requires a minimum of 150 hours of on-site experience.
Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.
Prequisites: candidacy and PSY 8500.

### Internship in Forensic Case Work
**PSY 9065** 3 cr.
This capstone experience allows the student to develop her/his skills in a forensic setting under the supervision of a forensic worker who has worked in the field of Forensic Case Work for a minimum of two years and has earned at least a Master's degree. Seminar classes meet on campus bi-weekly. The Internship requires a minimum of 150 hours of on-site experience.
Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.
Prequisites: PSY 8100 or PSY 8120, PSY 8140, PSY 8172, PSY 8174, PSY 8175, and PSY 8176.

### Internship in Child Protection
**PSY 9070** 6 cr.
The Internship is the culminating experience in the student’s acquisition of skills for working with victims, offenders, and families who abuse/neglect. The student is placed in an agency which treats one or more of the above. The student is supervised by an agency supervisor knowledgeable in child protection. In addition the student is expected to attend a bi-weekly seminar with the college field instructor. The Internship requires a minimum of 300 hours in the field.
Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.
Prequisites: PSY 8100 or PSY 8120, PSY 8150, PSY 8160, PSY 8170 and permission of C&I.

### Internship in Substance Abuse Services
**PSY 9072** 6 cr.
This capstone experience allows the student to develop her/his skills in a licensed substance abuse services facility under on-site supervision. In addition, the student is expected to attend a bi-weekly seminar with the faculty seminar instructor. The Internship requires a minimum of 150 hours of on-site field experience.
Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.
Prequisites: PSY 8140, PSY 8142, PSY 8143, PSY 8144, and PSY 8146.

### Internship in Counseling
**PSY 9075** 6 cr.
Students are placed in agencies for supervised contact with clients. Each student maintains a case load, participates in the operation of his/her agency, and meets regularly with his/her on-site supervisor to discuss case planning and counseling techniques. Students meet at the college for group supervision and conferences, and to present one of his/her client cases in detail. The faculty supervisor visits each internship site during the semester to confer with students and their on-site supervisors. The Internship requires a minimum of 300 hours of on-site field experience.
Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.
Prequisites: candidacy and PSY 8500, or PSY 875S (for the Adolescent and Family Therapy Certificate).

### Internship in School Counseling
**PSY 9085** fall 4 cr./spring 5 cr.
The Internship is an intensive two semester experience in an actual counseling setting. Students are placed in elementary or secondary school guidance offices, depending on the student's desired certification level (PreK-8 or 5-12). Each student maintains a regular case load (some short term, some long term), participates in regular guidance activities (e.g., core evaluations, articulation with other schools, scheduling), and meets weekly with his/her on-site supervisor. Students meet at the college with their college supervisor in a seminar setting (six meetings in the fall, six in the spring). During these meetings students present cases and discuss issues as they arise in the Internship. The faculty supervisor visits each internship site (once in the fall, twice in the spring) to confer with students and their on-site supervisors. The Internship requires a minimum of 450 hours of on-site field experience.
Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.
Prequisites: candidacy, all required courses in Phase II of the School Guidance Counseling course of study and successful completion of the Communications and Literacy Test.
Internship in Marriage and Family Therapy

PSY 9087  fall 6 cr./spring 6 cr.

The Internship in Marriage and Family Therapy is an intensive two-semester experience in an actual counseling setting. Students are placed in agencies where they maintain a regular case load (some short term, some long term) and participate in regular Marriage and Family Therapist activities. Students meet at the college with their college supervisor in a seminar setting (six meetings in the fall, six in the spring). During these meetings, students present cases and discuss issues as they arise in the internship. The faculty supervisor visits each internship site (once in the fall, twice in the spring) to confer with students and their on-site supervisors. The internship requires a minimum of 600 hours of on-site field experience.

Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.

Prerequisites: candidacy, PSY 8500 and PSY 8755.

Internship in Mental Health Counseling

PSY 9090  fall 6 cr./spring 6 cr.

The Internship in Mental Health Counseling is an intensive two-semester experience in an actual counseling setting. Students are placed in agencies for supervised contact with clients. Each student maintains a caseload, participates in the operation of the agency, and meets regularly with his/her on-site supervisor to discuss case planning and counseling techniques. Students meet at the college with their college supervisor in a seminar setting (six meetings in the fall, six meetings in the spring) and for other group supervision activities and conferences. During these meetings, students present cases, (one client case in detail) participate in other seminar activities, and discuss issues as they arise in the internship. The faculty supervisor visits each internship site (once in the fall, twice in the spring) to confer with students and their on-site supervisors. The internship requires a minimum of 600 hours of on-site field experience.

Note: students must consult with the Field Placement Coordinator one semester in advance of their expected placements to begin arrangements.

Prerequisites: candidacy, PSY 8500.

Science Education

Independent Study

SCED 8001  1-6 cr.

The Independent Study gives the student an opportunity for independent development of teaching techniques, laboratory procedures, written work, science curriculum, job-related documentation, or some other activity agreed upon by the student and the graduate faculty advisor. The final product of this study is a written or otherwise permanent documentation of the work accomplished.

Internship

SCED 8002  1-6 cr.

The Internship provides laboratory or field experience in conjunction with established research programs at cooperating off-campus governmental, industrial, or private institutions. Supervision is shared by the institutional program directors and faculty from Fitchburg State College. A comprehensive paper describing the internship activities is required upon completion of the experience.

Practicum in Science

SCED 8003  1-6 cr.

The Practicum provides student teaching experience in area schools and in the college campus school, designed to meet the state requirements for teacher certification.

Advanced Methods in Teaching Science

SCED 9000  3 cr.

The emphasis of the course is upon developing a working philosophy of science teaching for the master teacher. The course focuses on the design of activities to foster scientific inquiry, ethical decision-making, and critical thinking as well as research on alternative assessment, classroom management, and the use of technology in the science classroom.

The Modern Science Curriculum

SCED 9001  3 cr.

The course provides an up-to-date survey of the science teaching curriculum materials available for use in schools, K-12. Each student develops a modern science curriculum based on psychological and pedagogical principles.

Research in Science Education

SCED 9002  3 cr.

Students undertake research designed to explore some phase of science teaching in detail. This study may include teaching methodology, curriculum development, and/or other activities agreed upon by the student and supervising research advisor. An element of experimentation must be included in the project. The final product is a written documentation of the research and results.

Science, Ethics, and Technology

SCED 9003  3 cr.

The purpose of this course is to communicate the process of ethical reasoning. Students gain a better understanding of how cooperation between people concerned with the human application of science and the makers of public policy must become a working hypothesis. By examining current literature, students uncover some of the facts and general principles of ethical reasoning and relate the short- and long-term consequences to moral positions.

Research in Science

SCED 9004  3 cr.

Students undertake research in a specific field of science that involves an in-depth exploration of a well-defined problem. The student must develop a hypothesis for the possible solution of the problem, then devise the experimental technique to test the hypothesis, and ultimately conceive a logical conclusion based upon the data collected. The final product is a written documentation of the research and results. The study is completed under the supervision of the graduate faculty.

Thesis

SCED 9010  6 cr.

Students conduct a research project resulting in a thesis. Thesis research develops under the guidance of a thesis advisor and committee.

Special Topics

SCED 9100  3 cr.

Course content varies from semester to semester, reflecting contemporary issues in the discipline and depending upon student and faculty interest. Note: many other science courses are offered from time to time. Some are cross-listed under Biology, Earth Science, and Chemistry. See specific course listings for each semester for details. Other courses from Biology, Earth Science, or Chemistry may be used as electives or requirements.
Secondary Education

Introduction to Strategies for Effective Teaching in the Academic Discipline
SEED 7015 3 cr.
This initial-level graduate course focuses on relating the curriculum frameworks in a discipline to the design of meaningful activities, which require the application of critical thinking skills in engaging classroom instruction and student assignments. A broad range of contemporary issues facing teachers will be studied. Students will become familiar with differentiated and interdisciplinary instruction. In addition to using a basic textbook, the Internet will be a major source of content for the design of secondary-level student activities.

Advanced Methods of Teaching at the Secondary Level
SEED 8200 3 cr.
Combines academic study with clinical practice and supervision. Theories and topics studied and demonstrated include learning styles, critical thinking, computer applications, and inclusive learning environments. Emphasis is placed on integrating culturally or linguistically diverse students and those with special needs. Interdisciplinary course development and implementation, student assessment including portfolio assessment and writing are studied for utilization across the curriculum.
Prerequisite: The Modern Secondary School or Initial Teacher Licensure

Curriculum and Technology
SEED 8250 3 cr.
This course looks at the integration of educational technology in the classroom, and its relationship to learning theories. Mac and IBM computer hardware, and interfaces for classroom inquiry including video and microscope cameras, digital image capture, scanners, and computer projection panels are examined. Students learn similarities between standard software programs available for writing, computation, and data analysis. It includes a survey of software for studies, ranging from Encyclopedias on CD-ROM to programs that are specific to the study of various topics in science, art literature, math, and language. The class explores the use of the Internet as a classroom resource, the hardware and software necessary to get on line, search engines, browsers, URLs, online journals, education web sites, online interest groups, and how to design a web page.

Master's Thesis
SEED 9100 3 cr.
Student conduct research which will result in a thesis. The thesis is developed under the supervision of an advisor. This capstone experience allows full integration and application of content knowledge and pedagogical theory and practice. The study is completed during the duration of the course. Requires the signature of both the advisor and the Graduate Program Chair.

Special Education

Early Intervention
SPED 6600 3 cr.
This course focuses on assessing and working with children at risk for special needs or identified as having special needs. Current issues and concerns about infant stimulation and the role of parents and agencies in providing services are addressed.

Sign Language and Deafness
SPED 6700 3 cr.
In this class students acquire a basic sign language vocabulary (SL) as used by the majority of deaf adults, including structure, grammatical principles, and vocabulary development. Issues in deaf education as well as deaf cultures and the needs of deaf individuals in the school and community are studied.

Topics in Special Education
SPED 7001 1 cr.
SPED 7002 2 cr.
SPED 7003 3 cr.
Course content varies from semester to semester, reflecting contemporary issues in Special Education and depending upon student and faculty interest.

Working with Individuals with Disabilities
SPED 7004 3 cr.
Course content covers the characteristics and needs of children and adults with disabilities. The total special education service delivery system; problems, issues, and controversies in the field; and relevant legislation are examined. The course is intended for regular educators, students beginning in special education and, it provides an update for experienced special educators and administrators.

Understanding the Structure of the English Language
SPED 7016 3 cr.
Examines the inherent linguistic structure of Modern English and apply this knowledge to classroom instruction. The course begins by comparing previous historical knowledge about the nature of language with today's current theoretical issues. Next, we will particularly describe Modern English in terms of its linguistic structure; the sound system, English spelling, morphology, the semantic system and work formation, grammar, and sentence structure.

Psychology of Reading, Reading Development and Disabilities
SPED 7017 3 cr.
This course is designed to provide students with an understanding of the reading process and its developmental progression. Students will examine reading models, review research related to reading psychology and identify characteristics of proficient and non-proficient readers.

Children and Adults with Disabilities: A High Incidence Population for Abuse, Neglect and Victimization
SPED 7018 1 cr.
An examination of how special needs children are high incidence population for abuse, neglect, and victimization. The class is exposed to topics such as: the child abuse reporting statute/ responsibilities of DSS; care and protection orders/ juvenile court process; the criminal justice system's response to child victims and their needs; how school systems can respond to victimization of children; and initiatives to promote violence prevention programs in communities/schools. Involves both lecture and group discussion formats with an emphasis on case scenarios/problem solving.

Students with Attention Deficit Hyperactivity Disorder
SPED 7019 1 cr.
Course delves into the many topics surrounding the study of ADHD: history, theory and brain research, diagnosis, symptoms, medical treatments, behavioral modifications, and classroom suggestions. Students have the opportunity to develop individual classroom manuals which detail ADHD accommodations across multi-level curriculum settings.

Modifying and Adapting Curriculum: Math, Science, and Social Studies
SPED 7020 3 cr.
In this course students develop skills in observation techniques, learning style assessment, classroom organization, and lesson planning. This course is a prerequisite course for the Clinical Master's Degree and is required for students who wish to enter the clinical program but do not have teacher certification. Students complete a 25 hour practicum (field-based) experience as part of the course.
Homeless and in Need of Special Education  
SPED 7021  
Provides an overview of the nature and impact of homelessness: enrollment and attendance policies; effective curriculum, instruction and management and the development of educational and social service interventions designed to assist families and children who are homeless meet with success in the school and community setting. An on-site shelter visit further enhances student learning relative to this pervasive, societal issue.

Pedagogy in Reading/ Language Arts  
SPED 7025  3 cr.  
In this course students demonstrate an understanding of the curriculum areas of reading, language arts, mathematics, science, and social studies. They develop lesson plans which are implemented during a 25 hour practicum (field-based) experience. This course is a prerequisite for the Clinical Master's Degree. It is required for students who wish to enter the clinical program but do not have teacher certification, and for students with secondary certification only.

Students with Disabilities: Issues in Assessment and Education of Bilingual and Non English Speaking Students  
SPED 7110  3 cr.  
The purpose of this course is to provide both regular and special education teachers with the background information necessary to skillfully handle the referral and assessment process and work collaboratively with others in providing optional service for the target population. Participants will explore their own experiences and belief systems to see how these impact their professional behavior.

Technology in Special Education  
SPED 7250  3 cr.  
This course provides an overview of the application of computers to special education. The role of computers for diagnostic, instructional, and administrative purposes in special education settings is examined. Students evaluate existing hardware, software, and peripherals in terms of their applicability for individuals with special needs. Students utilize tool software (word processing, data base) and commercial software to develop and increase their computer skills.

Working with Families that Include Children with Disabilities  
SPED 7300  3 cr.  
This course defines and discusses issues of families with one or more children with special needs. The focus is on the effects a child with disabilities has on the family system and on the roles of individuals in the family. Strategies for working effectively with families are emphasized.

Emotional Disturbances: Theory and Practice  
SPED 7400  3 cr.  
This course is designed to examine the major theoretical frameworks that conceptualize and explain emotional disturbance. Students utilize these conceptual frameworks to focus on identification, assessment, and the development of effective treatment approaches for children.

Advanced Strategies for Teaching School-Age Children with Emotional and Behavioral Problems  
SPED 7410  3 cr.  
This course builds upon theoretical perspectives of SPED 7400. Students explore their own responses to conflict and stress and identify and practice strategies suited for teaching troubled children and youth. In addition, students examine issues pertinent to the education of this population. Prerequisite: SPED 7400.

Inclusion of Students with Disabilities in Regular Education  
SPED 7650  3 cr.  
Students will analyze barriers to inclusion and develop effective strategies for integration of individuals with disabilities into all aspects of the community including home, school, and work setting. Students will define and redefine their role as professionals as it relates to their philosophy of integration.

The High School Environment—Challenges In Educating Students with Disabilities  
SPED 7709  3 cr.  
The high school environment is undergoing dramatic change shaped by social, political, technological, methodological, and philosophical issues and controversies. Students will analyze the external forces pressing for redesign of administrative structure, delivery of education, the learning environment and how those changes impact students with special needs. Research-based methods for teaching to a wider range of abilities, and models for curriculum modification and staffing reallocations will be discussed.

Physical and Medical Aspects of Working with Children with Disabilities  
SPED 7950  3 cr.  
The course provides an overview of the basic neurological and physiological systems of the body while exploring typical and atypical development. Disabilities common in infants, children and adolescents (e.g., seizures, cerebral palsy) are examined with a focus on educational adaptations and accommodations. Various models of service provision are contrasted. Collaborative strategies for working with students with physical disabilities and health impairments are developed.

Differentiating Content Instruction in Inclusive Classrooms  
SPED 8011  3 cr.  
Course delineates instructional and managerial strategies that can be used in classrooms to address the individual learning needs, strengths, and styles of all students. Emphasis will be placed on best practices that maximize student learning within the regular classroom. The most current and promising practices, as well as relevant research, will be presented. Other areas of specific study will include special education, second language learning, brain research, gifted and talented, learning styles, technology and rubric design. The varied learning environments, content, processes and product for the course will strive to reflect the best practices in differentiated instruction.

Reading Disabilities and the Assessment of Reading  
SPED 8018  3 cr.  
This course addresses historical and contemporary theories regarding severe reading disabilities. This course focuses on assessment practices where students administer, score and interpret the results of screening and diagnostic reading instruments and informal reading inventories. Students develop recommendations for direct instruction and teach children with severe reading disabilities.

The Assessment of Writing Skills and Writing Disabilities  
SPED 8019  3 cr.  
In this course students will analyze the components of written language and factors affecting performance. Cognitive factors associated with written language are addressed. Students assess writing skills and plan approaches to writing instruction.

Behavior Analysis and Support for Students with Severe Disabilities  
SPED 8020  3 cr.  
Theoretical frameworks for analyzing behaviors are examined with a focus on a supportive or educational approach. Students operationalize descriptions of behaviors, collect and analyze data, and work collaboratively to develop and implement a behavior support plan.
Curriculum Frameworks and Alternate Assessment

SPED 8021 3 cr.
The focus of this course is on curriculum and adaptations for teaching students with severe disabilities in the general education classroom, and ensuring access to the general curriculum for all students. Students will work with MA Curriculum Frameworks and MCAS Alternate Assessment Resource Guide.

Augmentative and Alternative Communication

SPED 8022 3 cr.
Students will examine communication options for individuals who are unable to meet their daily communication needs through speech. Emphasis will be placed on conceptual and technical aspects of augmentative and alternative communication as well as intervention strategies and procedures used by teachers when supporting and expanding the individual’s ability to communicate.

Supports and Services from Birth Through Adulthood

SPED 8023 3 cr.
The purpose of this course is to look beyond the educational setting to examine the range of services and supports which individuals with severe disabilities and their families need to live full and independent lives. A strong focus will be on working collaboratively with families. Particular attention will be given to the process of transition in general, and transition from school to adult life in particular.

Program Development in the Functional Domains

SPED 8024 3 cr.
Focusing on four domain areas—community, domestic, recreation/leisure, and vocational—a systematic approach for assessment and instructional strategies will be examined and implemented. The establishment of programs and the modification of curricula in inclusive settings will be addressed throughout the course.

Alternate Assessment in the Content Areas

SPED 8025 3 cr.
State and federal law require that ALL students have access to the general education curriculum. The focus of this class will be on standard-based instruction (using the MA Curriculum Frameworks), MCAS Alternate Assessment, and IEP 2000. Curriculum areas to be addressed are primarily those in the cognitive domain: English Language, Arts, Mathematics, Science and Technology/Engineering, and Social Sciences. Students will work through the process of designing and preparing MCAS Alternate Assessment Portfolio entries.

Positive Behavioral Supports for Students with Disabilities

SPED 8180 3 cr.
A framework is provided for thinking about and resolving behavioral issues teachers encounter in today’s classrooms. Various theoretical approaches are presented. Teachers are required to implement strategies in their classrooms and report and discuss results.

Language Development, Differences and Disorders

SPED 8300 3 cr.
This course addresses normal development of receptive and expressive language in terms of phonology, morphology, syntax, semantics and pragmatics. It focuses on the language performance exhibited by different populations of children/adults with disabilities. The language of bilingual-bicultural children and language disordered adolescents are addressed. Students develop an understanding of the principles and practices related to assessment and intervention for children with language disorders. Students assess language needs and plan appropriate strategies. Field experience (25 hours) required for testing and program planning.

Fieldwork (Severe Disabilities)

SPED 8801 1 cr.
This course provides students enrolled in the Clinical Master’s Program who already hold Standard Certification, or Provisional with Advanced Standing in Special Education (Intensive) with the opportunity to work with students who have severe disabilities in connection with Clinical Coursework I & II. Students are involved in schools 3-5 hours a week (minimum) as they implement assignments related to Clinical Coursework and they begin to develop skills in working with diverse learners.

Practicum (Severe Disabilities)

SPED 8861 6 cr.
This course is the “student teaching” experience for students in the first year of the clinical program who do not have a prior certificate or license. Through a 150 hour field based experience, students are provided an opportunity to develop skills and demonstrate competency in the area of certification they are seeking. This course is one of the requirements for Initial Licensure.

Clinical Experience (Severe Disabilities)

SPED 8862 6 cr.
This course provides students in the second year of the clinical program with an opportunity to demonstrate skills they are learning in the clinical coursework as well as demonstrating competencies required for Professional Licensure. The experience is designed to be a supportive one, with clinical supervisors providing students with guidance and support needed to enhance their development as teachers.

Early Intervention Practicum

SPED 8900 3 cr.
This 150 hour field based experience provides students with a supervised opportunity to develop skills and demonstrate competencies necessary in early intervention settings. The practicum is designed to be a supportive experience, with supervisors providing the guidance and support needed to enhance students' development as early intervention specialists.

Fieldwork Credit (Moderate Disabilities)

SPED 8901 1 cr.
This course provides students enrolled in the Clinical Master’s Program who already hold Standard Certification, or Provisional with Advanced Standing in Special Education with the opportunity to work with students who have moderate disabilities in connection with Clinical Coursework I and II. Students are involved in schools 3-5 hours a week (minimum) as they implement assignments related to Clinical Coursework and they begin to develop skills in working with diverse learners.

Assessment, Curriculum, Strategies in Reading Language Arts

SPED 8914 6 cr.
Focus in on understanding of the processes for developing reading and language arts skills with students who have special needs. Alternative and traditional assessment strategies are addressed and applied to students with moderate disabilities in the clinical experience. Adaptation strategies, including the use of educational technology for teaching language arts and social studies is addressed. Concepts of measurement are studied to enable students to establish criteria for selecting appropriate assessment tools. Students evaluate assessment devices for technical quality.
Clinical Experience of Moderate Disabilities: SPED 8962 6 cr.
This course provides students with an opportunity to demonstrate skills they are learning in the clinical coursework as well as demonstrating competencies required for Standard Certification. The experience is designed to be a supportive one, with clinical supervisors providing students with guidance and support needed to enhance their development as teachers.

Research in Special Education SPED 9000 3 cr.
In this course students learn specific skills necessary to read and interpret relevant research. Students write critiques of current articles and discuss alternative interpretations in class. Students also design and implement a research prospectus.

Research Application Seminar SPED 9002 1 cr.
This seminar provides a mixture of group planning, support and guided individual study for students in Special Education who are enrolled in their practicum and ready to work on a specific research project. Students will develop a study design, work in small groups to apply principles of research design and implement a research project in the practicum setting.

Reflective Teaching SPED 9003 3 cr.
Professional educators must be reflective practitioners. National Board for Professional Teaching Standards (NBPTS) materials will be used to structure this highly interactive and individualized course designed for teachers who want to reflect on, and further enhance, their teaching practices.

The Adult Learner SPED 9010 3 cr.
The course focuses on the nature of the developing adult as a learner. An understanding of how the adult learner processes experience, how learning is best structured, and how to provide feedback is emphasized. An extension of this focus includes an investigation of human relations, gender uniqueness, as well as relations within diverse populations as they impact the personal competence of the adult learner. Journals and readings are the basis for guided reflection and introspection.

Advanced Research in Reading SPED 9100 3 cr.
This course focuses on past and current research in reading, written language and spelling and in disabilities associated with each area. Theories, research and implications for reading instruction are addressed. Appropriate instruction based on research is determined. Students read studies that test all theories against one another at different points in time. Students develop an understanding of longitudinal studies, sampling procedures, research bias, evaluating competing theories. Student report implications for teaching. Prerequisite: Research in Education

Clinical Experience: Reading Disabilities SPED 9101 6 cr.
This course provides graduate students/interns with an opportunity to demonstrate skills they are learning in the graduate program in Reading Disabilities, as well as demonstrating competencies required for an initial license as a Reading Teacher. The experience is designed to be a supportive one, with practicum supervisors providing interns with guidance and support needed to enhance their development as teacher of reading.
Special Education and the Law  
SPED 9230 3 cr.  
Students will review policy and program regulations associated with Massachusetts Chapter 766, IDEA, Section 504 of the Rehabilitation Act, and Americans with Disabilities Act, as they apply to implementation of services in school-based settings. Precedent setting court decisions associated with those laws will also be examined. New legislation affecting educational practices in general, and therefore, affecting special education practices, will be explored. Students will have the opportunity to explore case studies and challenge their own ability to think critically about various situations.

Advanced Identification and Remediation of Reading/ Language Based Learning Disabilities  
SPED 9130 3 cr.  
The focus of the course is on severe reading and written language problems. Dyslexia and related problems are analyzed in terms of theory and practice. Orn-Gillingham (phonology) and Project Read (comprehension) techniques are addressed. Field experience required. Prerequisites: a reading and a language course or permission by the instructor.

Woodcock/Johnson—III  
SPED 9130 3 cr.  
This course focuses on the WJ III. Students will demonstrate knowledge of theories of intellectual processing and skill in administering, scoring and interpreting the Cognitive and Achievement batteries of the WJ III. An understanding of the early childhood, elementary or secondary school curriculum is necessary. Previous preparation in educational assessment and basic knowledge of statistical terminology related to norm-referenced testing are prerequisites. Student Profiles will be analyzed. A field-based component is required. Kit’s need to be obtained from the students’ school systems.

Consultation and Collaboration Strategies  
SPED 9200 3 cr.  
Students study theory and practice skills related to communication skills and processes as well as effective consultation strategies for working with school personnel. The process of collaborative consultation is practiced in class in addition to peer coaching and mentoring. Students learn how to evaluate their consultation skills and maintain themselves as a consultant.

Educational Strategies  
SPED 9250 6 cr.  
Given the context of the adult learner and the process of implementing educational change studied in the previous courses in the CAGS sequence, the focus of this course is on effective and promising strategies which improve teaching and, thereby, learning for all children. Students become proficient at critiquing the design, analysis, and results of research to determine which strategies hold promise for improving teaching. Students also study current effective strategies in the field, such as cooperative learning, social interaction, peer mediation, teaching/learning styles, cross cultural competency, apprenticeship models, reciprocal teaching, and project approach. Lastly, students learn how to implement these strategies in their schools.

Internship and Reflective Analysis Seminar  
SPED 9300 3 cr.  
This internship is designed to advance the development of self-directing educators who initiate, facilitate, participate in, and evaluate all aspects of educational practice. The internship is a year-long experience which offers interns an opportunity to practice communication skills and apply collaborative skills with one or more colleagues in the field. The experience includes opportunities to plan, organize, and evaluate ways of improving instruction through the cooperative participation of school personnel and to implement educational change through such peer leadership structures and practices as mentoring, collaborative supervision, peer coaching, and team teaching. All work is carried out under the supervision of faculty.

Ongoing internship projects are analyzed during biweekly seminars. The Reflective Analysis Seminar serves as the capstone course for the CAGS program in Consultation and Peer Leadership: A Program for Teachers. Opportunities are provided which allow students to analyze their course work and their internship through an integrated and reflective process. Each session is accompanied by discussion formats with other students, by reading, and research. Students are encouraged to present “ideas” on the role of instructional leadership and its purpose in improving instruction. The instructor’s role in the course is that of a facilitator.

Current Issues in Special Education  
SPED 9400 3 cr.  
Students consider the context for special education and examine current and controversial issues such as inclusion, cost-effectiveness, educational reform, and grading. The course format gives students the opportunity to examine and debate these issues from multiple perspectives. Particular attention is given to the ways in which current issues and controversies affect classroom teachers and their students.

Independent Study  
SPED 9500 3 cr.  
Students who wish to pursue an area of interest in Special Education that is not offered through course work may develop a program of study with a member of the graduate faculty. Faculty use a conference approach with the individual students, which places emphasis on critical thinking and sensitivity to the process of resolving issues. Prerequisite: with permission of Advisor only.

Administration of Special Education Programs  
SPED 9800 3 cr.  
In this course emphasis is given to services, organization programs, personnel, and facilities as they relate to the needs of the child and adult with special needs. Students are expected to be well-versed in the effects of Federal and State mandates for special education services as a result of this course.

Technology Education

Computers in Industrial Technology  
ITEC 7010 3 cr.  
This course familiarizes students with computers through presentation of selected hardware and software concepts. Opportunities for extensive hands-on practice with application programs are provided. CAD topics are also included.

Implementing Technology/Engineering Education in Public Schools  
ITEC 7020 3 cr.  
The course provides guidelines and experience in developing and implementing Technology Education course units in the area of communication, construction, manufacturing, power/energy, and transportation. Students experiment with and develop new units for classroom implementation.

Automated Drafting Systems  
ITEC 7030 3 cr.  
This course is designed to teach the general concepts related to automated drafting with a special emphasis on technical drawing. Specialized applications of industrial practices for drafting are emphasized in this course. One semester of technical or mechanical drafting is a prerequisite.
**Advanced Methods of Teaching at the Secondary Level**

ITEC 8000  3 cr.

Combines academic study with clinical practice and supervision. Theories and topics studied and demonstrated include learning styles, critical thinking, computer applications, and inclusive learning environments. Emphasis is placed on integrating culturally or linguistically diverse students and those with special needs. Interdisciplinary course development and implementation, student assessment including portfolio assessment and writing are studied for utilization across the curriculum.

Prerequisite: Initial Teacher Licensure.

**School to Career Components Seminar**

ITEC/PDEV 8050  1 cr.

The seminar will provide current information and insight into the general structure of school to career programs, and the twenty required elements of a STC program. It will also introduce the relationship of STC with the SCANS competencies and Tech. Prep.

**STWOA Federal Legislation and State Plan**

ITEC/EDLM 8100  2 cr.

The course provides for the study, analysis and examples of the Federal School to Work Opportunities Act (STWOA) and the Massachusetts Plan for a comprehensive System of School to Work Transition regarding expectations of STC school programs.

**School to Career in the Public School Curriculum**

ITEC/EDUC 8250  3 cr.

The course provides the curriculum base for STC specialists to aid other teachers in the school to implement and include STC activities within their classes. The elements to be studied include the MA Common Core of Learning, the MA framework Common Chapters, the six discipline chapters of the MA Curriculum Framework, and the Eight aspects of the industry identified in the STWOA. Emphasis is on how to integrate STC activities and concepts into the school curriculum.

**Developing STC Industry/ Business/ Community Partnerships**

ITEC/PDEV 8300  3 cr.

The course will study and examine the changing labor market and requirements, the MA Occupational Projections, and O occupation skill standards in relation to Goals2000 and SCANS. With this background, strategies for creating and sustaining partnerships will be identified for work based and connecting activity components of STC.

**Career Assessment, Mentoring, Portfolios and Coordination of work Based Learning Experiences**

ITEC/PDEV 8350  3 cr.

The course identifies approaches and techniques used for student mentoring, job shadowing career interest assessment, and career portfolio development. The operation and responsibilities for work based learning experiences for students away from the school setting are examined.

**Communications in Technology Education**

ITEC 8400  3 cr.

The course provides exposure to the State framework area of communications using an integrated systems approach. The process of communication, approaches to technology in the laboratory, historical perspective, and social issues are addressed. Materials and programs for the Middle and High school level are integrated throughout the course and application of concepts found in the public school technology lab is stressed. The course includes lab work.

**Power/ Energy in Technology Education**

ITEC 8500  3 cr.

The course is organized around an energy system point of view. Various sources are covered, and for each source the technologies involved in the production, transmission, utilization, and related environmental/social impacts are addressed. An effort to relate material for the public school lab/classroom according to the State organizational framework is integrated throughout the course. This course includes lab work.

**Manufacturing in Technology Education**

ITEC 8600  3 cr.

The course addresses the State framework area of manufacturing. The various systems of manufacturing used, the process involved in the production of goods and services, and the support areas for the manufacturing enterprise are covered. The integration of manufacturing principles in the Middle and High school lab environment is developed throughout the course. The course includes lab work.

**Construction in Technology Education**

ITEC 8700  3 cr.

The course develops outcomes related to the scientific principles, engineering concepts, and technical approaches to the areas of residential, commercial, and industrial construction as identified in the State organizational framework for Technology Education. The area of construction, the processes and materials used, the techniques performed, and the planning and development of structures are studied and adapted for lab and classroom use in the public schools.

The course includes lab work.

**Transportation in Technology Education**

ITEC 8800  3 cr.

The course emphasizes the importance of transportation and identifies the modes used for people and goods in various environments. The structure, support, propulsion, guidance, control, and infrastructure systems for various forms of transportation are addressed. Materials adapted to the State framework for Technology Education for classroom and lab use are integrated throughout the course. The course includes lab work.

**Curriculum Development for Technology/ Engineering Education**

ITEC 8900  3 cr.

The course is designed for those seeking standard certification in Technology Education. Students learn to design and curriculum that include current trends in Technology Education. Several approaches for implementing problem solving, concept learning, habits of the mind, and integration of math/science concepts into the State framework areas of construction, communication, manufacturing, and power/energy in Technology Education are covered. The implementation of the State framework competencies for Technology are addressed.

**School to Career Clinical Internship**

ITEC/EDLM 9400  3 cr.

The semester long internship provides the opportunity to develop and implement components of a school to career program in the public school setting. Emphasis will be placed on establishing new components into current programs.

**Clinical Internship in Technology Education**

ITEC 9500  6 cr.

The internship is a clinical, capstone experience allowing full integration and application of content knowledge and pedagogical theory and practice. It should incorporate all standards specific to the discipline in which certification is sought as well as all common standards for classroom teachers (section 7.04). It must be a minimum of 400 clock hours or one full semester on site under the auspices of the college.
Professional Development Center/ Extended Campus Program Courses

The Professional Development Center and Graduate and Continuing Education through Extended Campus Programs offer both graduate and undergraduate courses to working professionals in schools, agencies and at work sites. Courses are developed in collaboration with the requesting agency or business and the appropriate academic department. These courses are usually 6000 level courses and carry the prefix of PDEV or the prefix of the academic department, for example, EDU C, SPED, etc. Because these courses are responsive to the needs of professionals in the field and are designed as requested, all courses offered may not be listed here. The following list represents those courses regularly offered.

**Phono-Graphix**

PDEV 6012  1 cr.
A teacher-training course in reading decoding. Phono-Graphix is a rapid, innovative, research-based method which focuses on teaching phonological processing skills and using the sound symbol code to teach decoding to both beginning and remedial readers.

**Teaching Smarter: Assessment Course**

PDEV 6016  3 cr.
This course is designed for teachers who would like to teach smarter using current research strategies in assessment. It will focus on efficient and effective ways to provide students' feedback and improve student performance. Both theoretical and practical aspects of assessments will be combined. Participants will have the opportunity to develop strategies to ensure student responsibility for learning.

**Instructional Strategies and Practices in the Middle School**

PDEV 6035  3 cr.
Offers an in-depth look at a variety of instructional practices and strategies appropriate for effective teaching and learning of the early adolescent. Topics include building a sense of community, classroom management, differentiated instruction and alternative assessment. Attention will be given to addressing the needs of diverse student populations, including but not limited to children with different learning abilities, exceptional talent, different cultural/ethnic background, or at-risk characteristics. Active and interactive learning strategies will be emphasized.

**The Responsive Classroom: Elementary**

PDEV 6078  3 cr.
The Responsive Classroom is an approach to classroom management and curriculum delivery developed by the Northeast Foundation for Children. This course will enable students to implement the social constructivist strategies taught in an elementary classroom and will increase their knowledge of child development and developmentally appropriate instructional practices.

**Project Read—Phonology**

PDEV 6094  1 cr.
Project read is a total language arts program for students who have difficulty learning to read and spell and whose teachers need to know more than one way to present the curriculum.

**Differentiated Learning: Finding Successful Pathways for All Students**

PDEV 6137  3 cr.
This course helps students understand the diverse needs of learners in their classroom and provides strategies and techniques to meet their various styles, readiness levels and interests.

**Palms Educational Technology for Math and Science**

PDEV 6157  3 cr.
This course enables students to apply educational technology in the development of math and science curricula.

**Project Read—Written Expression**

PDEV 6174  1 cr.
Project read is a total language arts program for students who have difficulty learning to read and spell and whose teachers need to know more than one way to present the curriculum.

**The Craft of Teaching**

PDEV 6185  3 cr.
This course is designed for educators who are interested in developing and refining their teaching skills. The course will provide practical, support, resources, and opportunities to develop useful classroom strategies and materials. Teachers will develop an awareness and understanding of their roles and responsibilities as educators. Opportunities to work with colleagues and develop a collegial and supportive network.

**Reading Strategies for the 21st Century**

PDEV 6208  3 cr.
This course will provide an overview of the federal and state legislation dealing with education and the impact they have on the teaching in today's classroom.

**Orton-Gillingham: Advanced Seminar**

PDEV 6309  2 cr.
The Advanced Orton-Gillingham course, which includes a supervised practicum, of at least 190 hours.

**Technology Basics for Today's Teachers**

PDEV 6337  3 cr.
This course is designed for teachers who do not feel comfortable with the technology available to them in their schools. It will focus on the basics of the operating system in use whether Mac or Windows, and software such as word processing, spreadsheets, databases, presentation software, and the Internet. Teachers also learn to work with Graphics.

**Project Read: Reading Comprehension**

PDEV 6339  1 cr.
Project read is a mainstream language arts curriculum specifically designed for students having difficulty learning to read and write. Project read has three strands: phonology, reading comprehension, and written expression.

**Science Frameworks and the Middle School**

PDEV 6379  3 cr.
Participants interested in teaching space science in preparation for state mandated MCAS testing receive several methods of instruction on curriculum topics identified in the science & technology section of the MCAS testing booklet.

**School Law: A Practical Guide**

PDEV 6475  3 cr.
This course will examine the unique and often confusing relationship between the law and public education. Special emphasis will be placed on the following: student rights and responsibilities under the law, teacher rights and responsibilities under the law, the impact of the education reform act on teachers and special education and the law.

**Astronomy for Elementary and Middle School Teachers**

PDEV 6492  3 cr.
The students will learn scientific, mathematical and curriculum aspects of astronomy.
Project Read Reading Comprehension  
**PDEV 6618 2 cr.**
The Project Read curriculum is divided into Report Form (expository text) and Story Form (narrative text) written information. The teaching approach is direct concept instruction using multisensory strategies and materials. If teachers process the analyzing of the underlying structure of expository and narrative writing and is presented in a sequential, dependent order of concepts and skills. This process transfers to other curriculum areas to give the students a level of language independence. The curriculum is designed primary for Grade 4 through adult learners, however it can be modified for primary students.

**PDEV 6619 3 cr.**
Using a variety of humanistic expression—speeches and writings of scholars and activists, slave narratives, poetry, fiction, music, and fine arts—the content illuminates the ways in which African Americans, during the 17th-19th century New England influenced American thought, cultural expressions, and traditions of freedom and democracy. Covers themes such as the role of the black church, the strong but under-recognized influence of black women, writers, activists and artists, economic life and work, the black abolitionist movement, and the pictorial representation of African Americans.

Four Ancient River Valley Civilizations  
**PDEV 6625 3 cr.**
Introduces teachers to the ancient societies of China, Egypt/Nubia, the Indus River Valley, and Mesoamerica. In order to compare and contrast these ancient civilizations (both with each other and with modern civilizations), a thematic approach to teaching culture is utilized in the classroom. Archaeologists, historians, and experienced teachers provide participants with scholarly material and hands-on opportunities to get their students engaged in thinking about life in ancient civilizations.

Leading the Learning: Supervision and Evaluation in a Standards Based Environment  
**PDEV 6631 3 cr.**
This course is for superintendents, principals, curriculum directors and other administrators. The purpose of this course is to empower administrators to engage in their practice with a belief that they can make a difference in teacher practice and student learning through the supervision and evaluation process. The course explores an ever expanding repertoire of skills for supervising and evaluating staff in ways that promote professional growth and student learning, clearly articulated and communicative high expectations for educators and students and a commitment to engage in, model and promote collaborative practice.

Learning and the Brain, New Knowledge and Understanding  
**PDEV 6643 3 cr.**
This course is designed for teachers, principals, and administrators for the purpose of focusing on new knowledge and understanding of how the brain functions in order to improve schooling and learning.

Developing Mathematical Ideas: Making Meaning for Operations  
**PDEV 6657 2 cr.**
This course is designed to help experienced K-6 teachers examine the actions and situations modeled by the four basic operations.

The Responsive Classroom: Middle School  
**PDEV 6667 3 cr.**
The Responsive Classroom is an approach to classroom management and curriculum delivery developed by the Northeast Foundation for Children. This course is designed to provide middle school teachers with advanced knowledge in child development, social interactions and constructive theory as well as direct and practical application of the theory to current classrooms.

Modern Intellectual Theory and Cognitive Abilities: Moving from Assessment to Strategies and Support for the Student in the Inclusive Classroom  
**PDEV 6681 3 cr.**
This graduate education course is designed for special education teachers and classroom teachers who want to broaden their understanding of cognitive abilities.

Advanced Reading and Study Skills—Readak  
**PDEV 6703 3 cr.**
Readak Educational Services has offered a specialized reading and study skills course for Grades 5-14 in private schools nationally and internationally since 1957.

Semple Math: Beyond Manipulative—the Mnemonic Road to Math Literacy  
**PDEV 6705 1 cr.**
Jan Semple, author of Semple Math will introduce and demonstrate a system of mnemonic teaching strategies that goes beyond manipulative and enables students to achieve success in all areas of mathematics.

Explore the Spoken and Written Language Connection: Phonemes Through Text Structure  
**PDEV 6706 1 cr.**
The focus of this course will be on systematically analyzing the relationships between spoken and written language.

Net Course Instructional Methodologies  
**PDEV 6730 6 cr.**
In NIM, participants learn about the philosophy and pedagogy of net courses, fostering community-building and collaborative learning in an online course, facilitating an online dialogue to deepen the learning experience, using the web as a resource for an online course, installing Lotus Notes and using learning space software to modify and existing course and using LS to assess and evaluate students' progress in an online course.

Moving Out of the Middle at the Concord Consortium  
**PDEV 6734 3 cr.**
Moving out of the middle is a 12-week net course that widens the set of online teaching strategies instructors bring to the role of moderating for learning.

Special Topics in Library Media Studies  
**PDEV 6743 3 cr.**
This topics course has been designed for veteran library media specialists who want to update their skills and knowledge, begin to prepare for re-certification, and accumulate salary schedule increment credits.

Finding Walden  
**PDEV 6745 3 cr.**
This intensive nine-day interdisciplinary course will help middle school teacher address the need for students to gain a depth of understanding about and build a sense of respect for their home communities.

Linking the Curriculum with the Internet  
**PDEV 6755 3 cr.**
This course is designed for classroom teachers, library media specialists, computer teachers and interested administrators.

Accelerating Middle School Mathematics  
**PDEV 6773 3 cr.**
This course's primary objective is to provide teachers with a solid foundation in the subject matter of middle school mathematics while at the same time incorporating activities appropriate for the inclusive classroom.
Literature from the Frameworks and Across the Curriculum
PDEV 6900 3 cr.
This course will examine children’s literature for teachers including picture books, expository books, poetry, and chapter books.

Instruction for All Students
PDEV 6914 3 cr.
The purpose of this course is to empower educators to engage in their practice with a sense of self-efficacy, a focus on clearly articulated standards and objectives, a repertoire of skills for teaching and assessing diverse learners, a passion for engaging all students in the learning process and a commitment to collaborate with colleagues and parents.

Developing Mathematical Ideas:
Building a System of Tens
PDEV 6927 2 cr.
This is designed to help experienced K-6 teachers explore the structure of our base-10 number system and examine how children develop an understanding of it.

Thoreau’s World and Ours
PDEV 6990 3 cr.
This two-week summer seminar offers high school English, history and science teachers a multidisciplinary study of ecological, environmental, literary and cultural histories of Concord. Studying the interconnections of Concord’s varied histories provides participants with models for approaching inquiry-based studies of their home communities. The course is held at the new Thoreau Institute in Walden Woods.

Portfolios—a Digital Approach
PDEV 6995 3 cr.
The course is used to follow a student through their education and give clear indications of both effort achievements in a new way—digitally.

Media Education and the Arts
PDEV 7070 3 cr.
The course will examine the various elements of art, television and film, and demonstrate techniques for integrating these elements into the curriculum in satisfaction of the need to develop thinking skills within each student.

Understanding Teaching II
EDUC 6092 3 cr.
This course builds on the foundations and conversations initiated in the Studying Skillful Teaching and Understanding Teaching I courses. The course focus is on breaking down recurring barriers to student success by using current research, video analysis, classroom experiments, reading and discussions.

Prerequisite: EDUC 6033.
Full Time Faculty and Librarians

★ ADAMS, Roberta E.
BA University of Michigan

Heide Messing
Staff Assistant, Planning and Design
BS Fitchburg State College, 1986

Joanne L. Soczek
Environment Safety Officer
BS Fitchburg State College, 2002
**Academic Glossary**

**Advanced Placement Credit**
AP credit is given to students who score three or higher on the Advanced Placement Examinations in Biology, Advanced Placement Science A, English Composition and English Literature, English Language and Composition, any of the foreign languages, Calculus AB or BC exams, U.S. History, European History, Psychology, and American Government and Politics. Contact the Registrar for the credits assigned.

**Baccalaureate**
The Bachelor's Degree; traditional first step on the ladder of higher education. It is characterized by a four year program which blends courses aimed at promoting the acquisition of broad knowledge through a solid foundation in the Liberal Arts and Sciences as well as courses designed to give depth of understanding in the major field.

**Carnegie Unit**
The unit of work expected of students for each college credit. The college expects students to spend 45 hours of work for each credit. The most common break down for one credit is one hour of class work and two hours of homework for fifteen weeks each semester. A three-credit course demands nine hours of work each week.

**CLEP**
The College Level Examination Program by which up to 60 semester hours of credit may be earned towards your degree. Contact Career Services for CLEP applications.

**Credits**
Arithmetic representation of the value of completed course work towards the degree requirements. One classroom hour and two hours of homework for the nominal fifteen-week semester usually counts for one credit. As the usual course responsibility requires three classroom hours per week, per semester, and six hours of work per week outside the classroom, the normal yield per course is three credits. Tradition and practice in the case of laboratory, studio, shop, and other practica awards proportional credit for hours of attendance.

**Department**
An administrative subdivision of the faculty. Sometimes the department is identical with a discipline category such as English or Mathematics. Departments such as Behavioral Sciences, Humanities, and Social Sciences represent an association of faculty members of related disciplines.

**Electives**
Those course selections by the candidate which are not predetermined by graduation, major, or minor requirements.

**Liberal Arts and Sciences**
Befitting the Baccalaureate tradition and current practice, the Fitchburg State College candidate is required to complete a minimum of 60 credits in a college. For details, see “Liberal Arts and Sciences Program.”

**Major**
That structured experience in an academic field which constitutes the candidate's specialization. All degree programs require a major. As considerable variation exists as to prerequisites and total credits, the candidate must carefully study the structure of the major of her/his choice. For details of major requirements, see “Courses and Programs.”

**Minor**
That structured experience in a related discipline/field which is recognized by the major department as supportive of the candidate’s specialization. Minors are defined by the Academic Department offering them. As considerable variation in requirements exist, the candidate should study carefully the minor offerings, see “Courses and Programs.”

**Prerequisite**
Those courses which must be satisfactorily completed before admission to certain other courses. Prerequisite courses are listed in the course description of the course requiring them. Again, see “Courses and Programs.”

**Program**
That construct of Liberal Arts and Sciences, major, minor, and/or professional courses which satisfies the requirements for a particular degree.

**Self-Help**
Self-Help is in the form of loans and work.

**Track**
That subdivision of academic programs which constitutes a unit of professional competence. Suggestive of the complexity of identifications involved in only one department, consider the example of Business Administration. This program includes tracks in Accounting, Management, and Marketing. The candidate should clarify with his/her advisor and major department the track which he/she is interested in pursuing.

**Waiver of Regulations**
Recognizing the inappropriateness of rigidity in endeavors to promote its goals, the college provides for waiver procedure relative to its baccalaureate rules, regulations, and programs. All petitions for waiver of regulations begin with the Office of the Dean of Undergraduate Studies if they involve undergraduate requirements and the Office of the Dean of Graduate and Continuing Education for graduate requirements. The student should note that reasons for waiver must be as exceptional as the grant.
