10. We are always looking for feedback to help us with quality and improvements. Is there something you would like to share with us regarding facilities or your program that wasn't captured above?

1. It was upsetting to have a new department chair come in and change when courses are being offered. Some of us who already started are now going to be taking classes while doing practicum or having to wait another semester it is very frustrating

2. Changes to the program being made that is impacting the graduation date for students

3. Most coursework was manageable but some courses required too much for full-time professionals making quantity the focus and not quality relative mostly to on what one has time to do the reading. I love reading and taking notes as I do, but a few courses required unreasonable amounts of reading and therefore not only did I not have time to take notes, I didn'thave time to read the required assignments which took away from overall comprehension of subject and satisfaction in feeling as confident in my knowledge as I would have liked once the course completed. Please have instructors realize that most CAGS Ed Leaders work long hous and days and yet would like challenging and rigorous courses, but they need to be balanced with

reasonableness too.

4. Sometimes the hours of online work could differ greatly among professors, with some going far above the expected time expectation in an online accelerated course and only one or two going far below what would be expected. Overall it is a great program that I would recommend to others.

5. Each Blackboard site was left to the instructor to set up. This created some confusion when each Professor set their information up differently. I don't know if this is available, but its something to think about moving forward.

6. The courses for the program were very inconsistent. Some required very little work, other were like drinking from a fire hose. Also approximately 7 of my 11 instructors were "just assigned this class last week" or in two cases "just assigned this class the other day" which was alarming to me and definitely reflected in the quality of the courses. I would have expected better from this program.

7. Fitchburg State University is the best school, to do any graduate program.

16. As we have stated previously, we are always looking for feedback that will help us improve. Is there something more you would like to share with us about your overall experience at Fitchburg State University?

1. Feel very positive about my experience and will recommend it to other educators as exceptional.

2. It is a great value and you have wonderful professors.

3. Some classes seems unorganized and the Professors didn't give enough feedback. On the course evaluations, you should provide a comments section. I felt that I had a lot to say about certain Professors or classes, but was unable to convey my thoughts adequately with the scale.

4. I would have liked to have the option of completing an internship for my non-licensure degree in MEd EDLM program. Many of classrooms were very dirty in the McKay building.

5. This is an excellent program for the professional educator! I have strongly recommended this program to colleagues and friends.
