- Get Better Computer Science teachers
- communication and technical support provided throughout the duration of my education was excellent. I encouraged others to not be intimidated to return to school or graduate courses despite many years since previous degree obtained
- The professors that you feel best prepared you for professional life. For me: Professor Rob Carr and Dr. John Chetro-Szivos.
- I feel as if the computer classes should be based more on programs that are being used in the workplace today, rather than just excel. I took a computer class for my business major and all that was taught was excel which by the time you are a senior in college you should already know how to use.
