

Pre-Practicum and Practicum Site Demographic Data (School Guidance Only)

To prepare our students to engage with diverse school populations, the Graduate Committee for Programs in Counseling is gathering demographic diversity data from the pre practicum and practicum school sites where our school counseling students have their required field experience. Since the mission of school counselors is to provide programs and services for all students, the school population profile data will be gathered to assess diversity experiences.

Data Source: Please gather the required school data from the school profile on the DESE website <http://profiles.doe.mass.edu>

Select your location and school.
On the school profile, select the student tab
Total enrollment can be captured in the gender chart
The selected population link (on left) has additional data

Practicum/pre-practicum student name: _____

Course: Testing Occupational Elementary Principles Case Practicum

of hours at site: _____

School Name: _____

School Address: _____

School Year Used for Data: _____

Total Enrollment	White Students (% of School*)	First language not English (% of School*)	English Language Learners (% of School*)	Low Income (% of School*)	Students with Disabilities (% of School*)	High Needs (% of School*)

**If information is not available for school, provide district data instead*

➤ *If pursuing an add-on license, submit data on your second site (practicum only)*

School Name: _____

School Address: _____

School Year Used for Data: _____

Total Enrollment	White Students (% of School*)	First language not English (% of School*)	English Language Learners (% of School*)	Low Income (% of School*)	Students with Disabilities (% of School*)	High Needs (% of School*)

**If information is not available for school, provide district data instead*
