

Purpose

The residential network (hereafter referred to as "Resnet") at Fitchburg State University allows residents of University resident halls and apartments to access network resources from their personal devices. This policy will guide users in the acceptable use of these systems at Fitchburg State. This policy compliments the Fitchburg State Acceptable Usage Policy and the Fitchburg State Student Code of Conduct.

Scope

This policy applies to student usage of the University's Resnet. By connecting to the Resnet, you assume personal responsibility for their appropriate use and agree to comply with this policy, other applicable University policies as well as Commonwealth and Federal laws and regulations.

Policy

The Resnet at Fitchburg State provides a gateway to applications, servers, electronic messaging and the Internet to our students in support of the University's mission of education, research and public service.

Fitchburg State recognizes the importance of copyright and other protections afforded to the creators of intellectual property. Users are responsible for making use of software and other information technology resources in accordance with copyright and licensing restrictions and applicable University policies. Using information technology resources in a manner violating these protections, or furthering the unauthorized use or sale of protected intellectual property, is prohibited.

Fitchburg State cannot protect individuals against the receipt of potentially offensive material. Those who use electronic communications may receive material that they might find offensive. Those who make personal information available about themselves through the Internet or other electronic media may expose themselves to potential invasions of privacy and increased security attacks.

There are many users who share this resource, and respect for the rights and needs of others is central to this policy. Accordingly, the following activities are strictly prohibited:

Downloading or sharing copyrighted material without the express consent of the copyright owner. Examples include, but are not limited to:

- * Music files
- * Movies
- * Software

Operating network services including, but not limited to:

- * DHCP
- * SMTP
- * FTP
- * DNS
- * HTTP/S Websites
- * SFTP

Other activities that are prohibited:

- * Using Resnet for commercial purposes
- * Bitcoin mining
- * Installing or operating a wireless access point, antenna or router. There are a very limited range of frequencies available for these systems to use and personal devices may interfere with the University system.
- * Using a name that makes a system appear to be a university-owned or operated device
- * Using offensive or profane language in the system name
- * Sending or relaying unsolicited bulk email messages
- * Making or attempting to make an audio or video recording of any person(s) in a residence hall where there is an

expectation of privacy with respect to nudity and/or sexual activity without the knowledge and consent of all participants subject to such recordings.

* Any other activity that disrupts the operation of Resnet

Support

The Help Desk will assist residents in connecting their computers to the Resnet. Supported operating systems are manufacturer-supported versions of Microsoft Windows and Mac OS.

The computer's operating system must have all applicable security and critical patches applied. Microsoft systems should have Windows Defender enabled for antivirus protection (or suitable commercial alternative). Mac OS systems should have third-party antivirus software installed (there are several good free and commercial versions available).

The Help Desk will provide diagnostic network support for residents' computers, provided they meet the requirements listed above. The Help Desk will attempt to repair the system using reasonable care but cannot be held responsible for any resulting loss of data or functionality. The Help Desk reserves the right to refuse to work on any PC or associated hardware or software for any reason.

Role

Students utilizing Resnet: Understand and adhere to this policy.

Enforcement

Any employee found to have violated this policy may be subject to disciplinary action, up to and including loss of access rights and/or termination of employment under adherence to their respective collective bargaining agreement. Students found to have violated this policy may have their access removed and may have additional actions taken as directed by the Student Code of Conduct.
