AUC 1

Academic Calendar Proposal

Franca presents AUC 1: Friendly amendment previously offered because a reading day was not included in the AY 24-25 calendar (Spring 2025). Handout passed and friendly amendments were recorded in red.

Calendar now includes Development Day and President's Address on two separate days

Discussion surrounding Friday before exams as a Reading Day: Recap of AUC discussion. Focus on the mitigation of any harm that could come from a Friday Reading Day as compared to the upside of giving students another day to study. Useful from the library perspective to have one more day of programming.

Question of new student advising on the first day of classes.

Discussion surrounding the start and end of the semester based on the contract (number of teaching days versus beginning after Labor Day)
